34. As presented in Company Witness Paul M. McLeod's testimony, the results of the earnings test show that the Company fell substantially short in recovering its cost of service and a fair rate of return over the 2023-2024 combined test periods. Against an authorized ROE of 9.70%, the Company only earned a return of 7.77%, translating into over \$350 million of unrecovered costs. This "underearning" position over the biennial period was driven by higher necessary capital investments to serve customers than projected, the \$350 million rider "roll-in" from 2023, the statutory inability of the Company to increase rates in the 2023 biennial review proceeding, and fossil plant retirements.

35. Such a path is unsustainable if the Company is going to be able to meet its obligations to ensure adequate, reliable, and customer-focused service, in particular as it faces one of the highest projected growth rates of any utility within PJM, if not the country. The Company does not take lightly the need to increase rates, but at the same time, the utility must be afforded a reasonable opportunity to recover its cost of service and attract cost-effective

capital for needed investments on behalf of its customers.

FAIR RATE OF RETURN ON COMMON EQUITY

36. The Company is requesting an ROE determination to apply to its base rates and applicable rate adjustment clauses of 10.4%. This figure is at the lower end of the estimate of the Company's cost of equity range of 10.3%-11.6% made by Company Witness Jennifer E. Nelson from Concentric Energy Advisors. While Company Witness Nelson's analysis supports an ROE higher within that range, the Company is requesting 10.4% in the interest of customer rate affordability. In addition, the Company is utilizing a December 31, 2024 end-of-period capital structure for ratemaking purposes, which reflects an equity component of 52.10%.⁴

37. While the Company believes that its outstanding operational performance would support an upward adjustment of its ROE within the range of its cost of equity, it is not formally requesting such an adjustment in this case, also in the interest of customer rate affordability. Rather, the Company respectfully encourages the Commission to view its exemplary record as further justification and support for the Company's requested 10.4% ROE.

38. With respect to the Company's financing needs, its anticipated capital deployment on behalf of customers over the next five years exceeds \$40 billion. This need includes growth investments to support the Company's expanding customer base and enable the "all-of-the-above" approach to ensure resource adequacy and reliable and increasingly clean energy supplies, as well as maintenance capital requirements. This level of capital need is unprecedented in the Company's history, and comes at a time when utilities across the country

⁴ Amendments to Va. Code § 56-581 provide that for biennial reviews commencing after July 1, 2023, "a Phase II Utility shall separately project future costs over each 12-month period ending on December 31 of the year of the utility's succeeding rate periods." While the Company is utilizing the December 31, 2024 end-of-period capital structure for both the 2026 and 2027 rate years in this proceeding, it believes that a projected end-of-period capital structure could be utilized for the second rate period, consistent with the change in the law.

are experiencing similar demands for infrastructure investment. As Company Witness Nelson supports, the need for a sufficient ROE determination in the midst of this competitive environment for capital, as well as uncertain economic and market conditions, is paramount.

DIRECT TESTIMONY SUPPORTING OBJECTIVES SOUGHT

39. In support of the Company's 2025 Biennial Review Application, and pursuant to Rule 20 VAC 5-204-10, the Company presents the pre-filed direct testimony of Edward H. Baine, Cedric F. Green, Robert H. Locke, Utibe O. Bassey, Paul M. McLeod, Christopher J. Lee, William A. Coyle, Richard M. Davis, Jr., Jennifer E. Nelson, Stan Blackwell, Steven W. Wishart, Paul B. Haynes, Robert E. Miller, C. Alan Givens, and Timothy P. Stuller. In summary, these witnesses address and support the Application as follows:

- Edward H. Baine, President – Virginia Electric and Power Company, provides an overview of the key points of the Company's biennial review Application, and introduces the other Company witnesses presenting direct testimony in the case.
- Cedric F. Green, Senior Vice President – Generation, supports the value to the Company's customers of the electric generation units which the Company owns and operates for the benefit of its customers, both in terms of the prudent investments the Company has made and proposes to make in those assets, as well as the Company's performance in operating them.
- Robert H. Locke, Senior Vice President – Electric Distribution, discusses the Company's largest anticipated investments in distribution infrastructure over the next two years to meet the Company's obligation to provide reliable electric service to its customers. In addition, Mr. Locke discusses the Company's strong operating efficiency performance related to electric distribution activities, as well as the Company's commitment to the safe and responsible execution of its mission.
- Utibe O. Bassey, Vice President of Customer Experience, provides an overview of the Company's significant efforts and ongoing investments in improving and modernizing the customer experience, its robust suite of programs to provide assistance to customers in need, and its continued commitment to supporting the communities it serves.
- Paul M. McLeod, Director – Regulatory Accounting, presents the results of the Company's Earnings Test for the 2023-2024 test periods. Mr. McLeod also presents the calculation of the Company's going-forward ratemaking analysis for the Rate Years.

- Christopher J. Lee, Manager – Regulatory Accounting, describes each of the regulatory accounting adjustments the Company is making to reflect the 2023 and 2024 jurisdictional per books financial results on a regulatory accounting basis, and supports the ratemaking adjustments to the 2024 test year in order to reflect costs which are reasonably predicted to occur during the Rate Years.
- William A. Coyle, Director – Power Generation Regulated Operations, provides background on the extraordinary and unprecedented circumstances occurring in PJM markets that have led to a substantial increase in expected capacity-related costs for the Company and supports the Company's proposed rate adjustments to 2026 Rate Year and 2027 Rate Year Non-NUG Capacity costs and NUG Capacity costs to the extent the cost recovery remains in base rates.
- Richard M. Davis, Jr., General Manager – Corporate Finance; Assistant Treasurer, presents the Company's year-end regulated capital structure and discusses the Company's credit profile. Mr. Davis also explains how the Company's significant capital needs should be considered in setting the overall cost of capital and proposed ROE.
- Jennifer E. Nelson, Vice President – Concentric Energy Advisors, calculates the Company's cost of equity and provides her conclusions regarding a proper ROE range for the Company. Ms. Nelson recommends an ROE of 10.4%, which is at the low end of a cost of equity range for the Company of 10.3% - 11.6%.
- Stan Blackwell, Director – Data Center Practice, explains the growth of the data center industry in Virginia and describes the Company's projected service obligations to this subset of High Load customers. Mr. Blackwell also presents the package of proposed changes to the Company's current cost allocation, rate design, and T&Cs related to High Load customers.
- Steven W. Wishart, Assistant Vice President – Concentric Energy Advisors, provides context on the rapid growth of data center load across the country and within Virginia, discusses the benefits and risks of serving such loads, and examines how cost allocation, rate design, and service terms can be structured to ensure just, reasonable, and non-discriminatory rates for all customers and customer classes. Mr. Wishart also evaluates the Company's proposed adjustments to its rate structure and service provisions and compares them to similar strategies adopted by other utilities nationwide.
- Paul B. Haynes, Director – Regulation, addresses the calculation of the annualized revenue for the 2024 test period and the 2027 Rate Year for customers in the proposed new GS-5 class and prepares a rate design to recover the proposed base revenue for the 2027 Rate Year.
- Robert E. Miller, Manager – Regulation, sponsors the cost of service studies presented in Filing Schedule 40 which is addressed in his testimony, along with cost allocation factors and minimum system analysis. Mr. Miller also discusses the proposed GS-5 customer class from the perspective of cost allocation and cost of service; the Company's proposal

to integrate Rate Schedule 28 lighting plant back into Virginia Jurisdiction rate base; and the adjusted class cost of service studies used by Company Witness C. Alan Givens for rate design. Additionally, his testimony discusses certain ratemaking adjustments and updates to the Company's Commission-approved Terms and Conditions.

- C. Alan Givens, Manager – Regulation Rate Design, addresses the calculation of annualized revenue for the 2024 test period, the 2026 Rate Year, and the 2027 Rate Year. In addition, Mr. Givens addresses the functional revenue apportionment of the proposed revenue requirement increases among the customer classes. Mr. Givens also presents tariffs for the proposed rates and sponsors the Company's proposal to make Schedule 1G (Residential Time of Use) permanent and open to all residential customers.
- Timothy P. Stuller, Manager – Regulation, supports the Company's request to establish a permanent Rate Schedule MBR. Mr. Stuller also supports the Company's request to migrate customers on the existing experimental MBR rate schedule to the new permanent Rate Schedule MBR and to withdraw the existing experimental tariff. Finally, Mr. Stuller sponsors changes to applicable rate schedules and T&Cs relative to the Company's High Load customers.

SUPPORTING SCHEDULES

40. Also in support of the 2025 Biennial Review Application, the Company is filing concurrently with the Application Schedules 3, 6, 7, 9 through 18, 29 a, b, c, and f, 30, 31, 32, 34, 35, 36, 40a, 44, and 48 as identified in 20 VAC 5-204-90 for each of the successive 12-month test periods (2023 and 2024).⁵ The Company is also filing concurrently with the Application Schedules 1, 2, 4, 5, 8, 19 through 28, 29 d, 29 e, 33, 37, 38, 39, 40 b, 40 c, 41, 42, 43, 45, and 47 as identified in 20 VAC 5-204-90 for the final 12-month test period (2024).

41. The Company is also filing Schedule 49 that contains a reconciliation of the Federal Energy Regulatory Commission Form No. 1 to the per books cost of service studies for each of the successive 12-month test periods (2023-2024).

⁵ Filing Schedules 3-5 for the 2023 test year are being provided for informational purposes. The actual December 31, 2023 year-end capital structure and cost of capital was reviewed and approved in the Company's 2024 Rider GEN proceeding. *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider GEN, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders B, BW, GV, US-2, US-3, and US-4 pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00097, Final Order (Feb. 27, 2025).

**ADDITIONAL PROTECTIVE TREATMENT
OF EXTRAORDINARILY SENSITIVE INFORMATION**

42. The Company's 2025 Biennial Review Application contains, at points so designated herein, confidential and extraordinarily sensitive information, and the non-public version of this filing is being made under seal. Because portions of the Company's 2025 Biennial Review Application contain such confidential and extraordinarily sensitive information, in compliance with Rule 10 F of the Rate Case Rules and Rule 170 of the Procedural Rules, 20 VAC 5-204-10 F and 5 VAC 5-20-170, this filing is accompanied by a separate Motion for Entry of a Protective Order and Additional Protective Treatment, including a form of Proposed Protective Order, filed by the Company under separate cover but contemporaneously with this Application.

COMPLIANCE WITH RULE 10 OF THE RATE CASE RULES

43. The Company's 2025 Biennial Review Application follows the requirements contained in 20 VAC 5-204-10. A complete copy of the public version of the Application has been served upon the Office of the Attorney General's Division of Consumer Counsel, in conformity with Rule 10 J. Also included with and following this Application, pursuant to Rule 10, is a table of contents of this filing, including exhibits and schedules segregated by volume.

CONCLUSION

WHEREFORE, Dominion Energy Virginia respectfully requests the Commission to (1) find this Application is deemed filed pursuant to 20 VAC 5-204-10; (2) grant the accompanying Motion for Entry of a Protective Order; (3) accept the Company's earnings test results; (4) approve the Company's requested revenue requirements for the Rate Years; (5) authorize a fair combined rate of return on common equity of 10.4%; (6) approve changes to

the rate schedules and Terms and Conditions of Service as set forth herein; and (7) grant the Company such further relief as may be necessary or appropriate.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

4/24/25 – 4:20 PM*

APPLICATION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2025-00058

For a 2025 biennial review of the rates, terms and conditions for the provision of generation, distribution and transmission services pursuant to § 56-585.1 A of the Code of Virginia

ORDER FOR NOTICE AND HEARING

On March 31, 2025, Virginia Electric and Power Company (“Dominion” or “Company”) filed an application (“Application”) with the State Corporation Commission (“Commission”), pursuant to § 56-585.1 A of the Code of Virginia (“Code”), for a biennial review of the Company’s rates, terms, and conditions for the provision of generation, distribution, and transmission services.¹

According to Dominion, this proceeding presents three principal issues: (i) a review of the Company’s cost of service and earnings for the historical periods 2023 and 2024 (“Earnings Review”); (ii) a determination of how the Company’s base rates should be adjusted for upcoming rate periods beginning January 1, 2026 through December 31, 2026 (“2026 Rate Year”), and January 1, 2027 through December 31, 2027 (“2027 Rate Year”) (“Rate Request”); and (iii) any proposed changes to the Company’s cost allocation, rate design, tariff offerings, or terms and conditions of service (“Miscellaneous Changes”).²

¹ Pursuant to statute, the Commission’s Final Order in this matter must be entered not more than eight months from the date the Application was filed. *See* Code § 56-585.1 A 8 e. On April 11, 2025, Dominion filed a letter clarifying certain requests in the Application (“Clarifying Letter”).

² Application at 3.

EARNINGS REVIEW

Dominion asserts that the results of its earnings test show that the Company's actual rate of return on common equity ("ROE") for the combined 2023-2024 test periods for its generation and distribution services was 7.77%, which was below its authorized ROE of 9.7%.³ Accordingly, the Company states that provisions for customer credits pursuant to Code § 56-585.1 A 9 are not triggered.⁴

RATE REQUEST

Dominion asserts that its forward-looking ratemaking analysis shows a revenue deficiency for the 2026 and 2027 Rate Years, resulting in a need to increase base generation and distribution rates.⁵

PROSPECTIVE ROE

Dominion requests the Commission approve a 10.4% ROE to be applied prospectively to its base rates and applicable rate adjustment clauses.⁶ Dominion asserts that its current cost of equity falls within an estimated range of 10.3% to 11.6%, and the requested 10.4% falls at the lower end of the range.⁷ Dominion further states that while it believes that its operational performance would support an upward adjustment of its ROE within the range of its cost of

³ *Id.* at 3-4. Dominion states that this "under-earning" position was driven primarily by: (i) higher than projected capital investments to serve customers; (ii) a statutory requirement that the Company "roll-in" \$350 million of rate adjustment clause costs into base rates in 2023; (iii) the statutory provision prohibiting the Company from increasing rates in its previous biennial review proceeding; and (iv) fossil fuel plant retirement costs. *Id.* at 14.

⁴ Direct Testimony of Company witness Paul M. McLeod ("McLeod Direct") at 1, 17.

⁵ *Id.* at 23-24; Application at 9.

⁶ Application at 15.

⁷ *Id.*

equity, it is not formally requesting such an adjustment in this case.⁸ With respect to the Company's financing needs, Dominion states that its anticipated capital deployment over the next five years exceeds \$40 billion, which the Company asserts is unprecedented in its history and comes at a time when utilities across the country are experiencing similar demands for infrastructure investment.⁹

SHIFT OF CAPACITY COSTS TO FUEL FACTOR

Dominion further states that it is seeking Commission approval in this case, in connection with the concurrently filed request to update its fuel factor in Case No. PUR-2025-00059, to shift the cost recovery of purchased capacity expense ("Purchased Capacity Expense") from base rates to the fuel factor, effective January 1, 2026.¹⁰ Dominion states that this change would reduce rate volatility, minimize the potential for over- or under-recovery of these costs, and promote greater near-term affordability for customers.¹¹

REVENUE INCREASE REQUEST

Should the Commission determine that Purchased Capacity Expense should remain in base rates and not be transferred to the fuel factor, the Company requests a revenue increase of \$822 million for the 2026 Rate Year, and a further incremental revenue increase of \$345 million for the 2027 Rate Year.¹² If, however, the Commission approves the Company's request to shift

⁸ *Id.*

¹¹ Application at 13-14.

¹² Clarifying Letter at 2.

recovery of Purchased Capacity Expense to the fuel factor, then the requested base rate revenue increase for the 2026 Rate Year would be \$458 million, and the incremental revenue increase for the 2027 Rate Year would be \$173 million.¹³ The shift of recovery of Purchased Capacity Expense to the fuel factor would increase the fuel factor by \$120 million for the July 1, 2025, through June 30, 2026 fuel factor rate year.¹⁴

The following chart shows the revenue requirement impact for both base rates and the fuel factor (i) should Purchased Capacity Expense be recovered in base rates, and (ii) should Purchased Capacity Expense be moved to the fuel factor.¹⁵ The chart also presents the Company's assessment of the monthly bill impact for a typical residential customer using 1,000 kilowatt-hours per month under these proposals.¹⁶

Fuel (July 1, 2025-June 30, 2026)	\$860	
Typical Residential Bill Impact (\$/month)		
Base	\$8.51	\$2.00
Fuel (July 1, 2025-June 30, 2026)	\$10.92	

MISCELLANEOUS CHANGES

Dominion is seeking approval of numerous changes to its cost allocation, rate design, tariff offerings, and terms and conditions of service. Due to the number of proposed changes, several, though not all, of the Company's proposals are discussed herein. Additional information on these and other proposals may be found in the Company's Application.

SELECT PROPOSED CHANGES APPLICABLE TO RESIDENTIAL CUSTOMERS

Among other things, Dominion seeks approval of an increase in the basic monthly customer charge for residential customers receiving service under Schedule 1.¹⁷ Specifically, the

¹⁷ Direct Testimony of Company witness C. Alan Givens ("Givens Direct") at 35-36.

Company proposes to increase the basic monthly customer charge set forth in Schedule 1 from \$7.58 to \$9.58, effective January 1, 2026.¹⁸

The Company also seeks to update its reconnection charges.¹⁹ For residential customers with an AMI meter, Dominion seeks a reduction of the reconnection charge from \$6.82 to \$5.05.²⁰ For residential customers that have elected to opt-out of having an AMI meter or that would, for any other reason, be assessed a non-communicating metering service charge as defined in the Company's terms and conditions, the Company proposes a reduction to the reconnection charge from \$34.64 to \$22.64.²¹ For non-residential customers, the Company is proposing to reduce the reconnection charge from \$25.15 to \$17.17.²²

The Company proposes to reclassify experimental time-of-use Schedule 1G as a permanent optional rate open to all residential customers where AMI has been installed.²³ The Company states that a marginal analysis was performed to guide the shaping of the rate for various time periods and seasons for the 2026 and 2027 Rate Years.²⁴ The Company has also updated the rate design for other voluntary time-of-use rate schedules in the residential class, including Schedules 1S and 1T.²⁵

SELECT PROPOSED CHANGES APPLICABLE TO HIGH LOAD CUSTOMERS

Dominion is proposing certain changes to cost allocation, rate design, and terms and conditions, that, according to the Company, are primarily designed to address the changing profile of the Company's high load customer base.²⁶ A high load customer is defined as a customer with a contracted or measured demand of 25 megawatts ("MW") or greater.²⁷ The Company states that these changes would apply to most of its data center customers, but are not directed exclusively at this subset of customers.²⁸

First, the Company is recommending the creation of a new customer class, the GS-5 class, as of January 1, 2027, for existing and new customers with a measured or contracted demand of 25 MW or greater, along with a measured or expected load factor of at least 75%.²⁹ The Company asserts customers in the existing GS-3 and GS-4 classes, which includes data centers, are currently "paying their fair share" of system costs from a cost allocation standpoint, but that the high load factor customers, proposed to be included in the new GS-5 class, have a different cost causation profile compared to lower usage, large general service customers.³⁰ According to Dominion, creating a separate GS-5 class would allow more transparency going forward, to align the principles of cost causation and cost recovery as the GS-5 class grows, both

²⁶ Application at 11.

²⁷ *Id.*

²⁸ *Id.*

²⁹ *Id.* According to the Application, the GS-5 class is expected to include 131 current data center accounts and eight non-data center accounts. *Id.*

³⁰ *Id.*

in terms of number of customers and as a share of system resource requirements and energy consumption.³¹

Further, to be effective January 1, 2027, the Company is recommending approval of provisions in certain rate schedules, including Rate Schedules 6, 6-TS, GS-3, GS-4, 10, MBR, and SCR, which provide for minimum demand charges with respect to any high load customer.³² Under the Company's proposal, those customers would pay demand charges that reflect the higher of their actual demand or the applicable minimum percentage of their contracted demand, with the minimum percentages being 85% for the transmission and distribution functions, and 60% for the generation function.³³

In addition, to be effective January 1, 2027, the Company is recommending changes to its terms and conditions applicable to high load customers prospectively that address: (i) a minimum 14-year contract term for new high load customers; (ii) new deposit and credit requirements for these customers; and (iii) provisions with respect to potential capacity reassignments and exit fees for such customers.³⁴ The Company asserts that these proposed terms are intended to shift the financial risk of nonperformance of obligations to the high load customers and away from the utility and the remainder of its customer base.³⁵

³¹ *Id.* at 11-12.

³² *Id.* at 12.

³³ *Id.*; Direct Testimony of Company witness Stan Blackwell ("Blackwell Direct") at 17-19.

³⁴ Application at 12; Blackwell Direct at 19-24.

³⁵ Application at 12.

SELECT PROPOSED CHANGES APPLICABLE TO LARGE GENERAL SERVICE CUSTOMERS

In January 2020, the Commission approved a new voluntary rate schedule, designated Rate Schedule MBR, Large General Service Market-Based Rate (“Experimental Rate Schedule MBR”), as an experimental tariff with a three-year enrollment period and a cap of 200 MW.³⁶ Experimental Rate Schedule MBR allows participating customers with over 5 MW in measured demand to access a market-based rate tariff.³⁷ In 2021, the Commission approved an increase to the participation cap for Experimental Rate Schedule MBR from 200 to 400 MW.³⁸ Enrollment for the Experimental Rate Schedule MBR subsequently closed on November 1, 2022.³⁹ In the present proceeding, Dominion is seeking, effective January 1, 2026, to reopen Rate Schedule MBR, make the rate schedule permanent, and remove the participation cap.⁴⁰

MOTIONS

Finally, in conjunction with the filing of its Application, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Order (“Motion for Protective Ruling”) and a proposed protective order concerning the use of confidential information in this proceeding. The Company also filed a motion for admission *pro hac vice* of counsel in conjunction with the filing of the Application (“Motion for Admission”).

³⁶ Direct Testimony of Company witness Timothy P. Stuller (“Stuller Direct”) at 10. *See also Application of Virginia Electric and Power Company, For approval to establish a rate schedule designated Rate Schedule MBR, pursuant to § 56-234 A of the Code of Virginia*, Case No. PUR-2018-00192, 2020 S.C.C. Ann. Rept. 241, Final Order (Jan. 14, 2020).

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; Dominion should provide public notice of its Application; hearings should be scheduled for the purpose of receiving testimony from public witnesses and evidence on the Application; interested persons should have an opportunity to file comments on the Application or to participate as respondents in this proceeding; and Commission Staff (“Staff”) should be directed to investigate the Application and file testimony and exhibits containing its findings and recommendations thereon. Further, we find that a Hearing Examiner should be appointed to rule on all discovery matters, including the Company’s Motion for Protective Ruling, and all *pro hac vice* motions, including the Company’s Motion for Admission, that arise during the course of this proceeding.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed as Case No. PUR-2025-00058.

(2) All pleadings in this matter shall be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission’s Rules of Practice and Procedure (“Rules of Practice”).⁴¹ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any

⁴¹ 5 VAC 5-20-10 *et seq.*

pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to rule on all discovery matters, including the Company's Motion for Protective Ruling, and all *pro hac vice* motions, including the Company's Motion for Admission, that arise during the course of this proceeding. A copy of each such filing made with the Office of the Clerk in this matter shall also be sent electronically to the Office of the Hearing Examiners.⁴²

(5) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Application, as follows:

- (a) A hearing for the receipt of testimony from public witnesses on the Company's Application shall be convened telephonically at 12 p.m. on September 2, 2025.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before August 26, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing

⁴² Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141 to register.

- (d) Beginning at 12 p.m. on September 2, 2025, the Commission will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at: scc.virginia.gov/case-information/webcasting.

(6) The evidentiary portion of the hearing on the Application shall be convened at 12 p.m. on September 2, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and the Staff.

(7) An electronic copy of the public version of the Company's Application may be obtained by submitting a written request to counsel for the Company: Elaine S. Ryan, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or eryan@mcguirewoods.com. Interested persons also may download unofficial copies from the Commission's website: scc.virginia.gov/case-information.

(8) On or before May 19, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC OF AN APPLICATION BY
VIRGINIA ELECTRIC AND POWER COMPANY
FOR A 2025 BIENNIAL REVIEW OF THE
RATES, TERMS AND CONDITIONS
FOR THE PROVISION OF GENERATION,
DISTRIBUTION AND TRANSMISSION SERVICES
PURSUANT TO § 56-585.1 A OF THE CODE OF VIRGINIA

CASE NO. PUR-2025-00058

On March 31, 2025, Virginia Electric and Power Company (“Dominion” or “Company”) filed an application (“Application”) with the State Corporation Commission (“Commission”), pursuant to § 56-585.1 A of the Code of Virginia (“Code”), for a biennial review of the Company’s rates, terms, and conditions for the provision of generation, distribution, and transmission services.

According to Dominion, this proceeding presents three principal issues: (i) a review of the Company’s cost of service and earnings for the historical periods 2023 and 2024 (“Earnings Review”); (ii) a determination of how the Company’s base rates should be adjusted for upcoming rate periods beginning January 1, 2026 through December 31, 2026 (“2026 Rate Year”), and January 1, 2027 through December 31, 2027 (“2027 Rate Year”) (“Rate Request”); and (iii) any proposed changes to the Company’s cost allocation, rate design, tariff offerings, or terms and conditions of service (“Miscellaneous Changes”).

EARNINGS REVIEW

Dominion asserts that the results of its earnings test show that the Company’s actual rate of return on common equity (“ROE”) for the combined 2023-2024 test periods for its generation and distribution services was 7.77%, which was below its authorized ROE of 9.7%. Accordingly, the Company states that provisions for customer credits pursuant to Code § 56-585.1 A 9 are not triggered.

RATE REQUEST

Dominion asserts that its forward-looking ratemaking analysis shows a revenue deficiency for the 2026 and 2027 Rate Years, resulting in a need to increase base generation and distribution rates.

PROSPECTIVE ROE

Dominion requests the Commission approve a 10.4% ROE to be applied prospectively to its base rates and applicable rate adjustment clauses. Dominion asserts that its current cost of equity falls within an estimated range of 10.3% to 11.6%, and the requested 10.4% falls at the lower end of the range. Dominion further states that while it believes that its operational performance would support an upward adjustment of its ROE within the range

of its cost of equity, it is not formally requesting such an adjustment in this case. With respect to the Company's financing needs, Dominion states that its anticipated capital deployment over the next five years exceeds \$40 billion, which the Company asserts is unprecedented in its history and comes at a time when utilities across the country are experiencing similar demands for infrastructure investment.

SHIFT OF CAPACITY COSTS TO FUEL FACTOR

Dominion further states that it is seeking Commission approval in this case, in connection with the concurrently filed request to update its fuel factor in Case No. PUR-2025-00059, to shift the cost recovery of purchased capacity expense ("Purchased Capacity Expense") from base rates to the fuel rider, effective January 1, 2026. Dominion states that this change would reduce rate volatility, minimize the potential for over- or under-recovery of these costs, and promote greater near-term affordability for customers.

REVENUE INCREASE REQUEST

Should the Commission determine that Purchased Capacity Expense should remain in base rates and not be transferred to the fuel factor, the Company requests a revenue increase of \$822 million for the 2026 Rate Year, and a further incremental revenue increase of \$345 million for the 2027 Rate Year. If, however, the Commission approves the Company's request to shift recovery of Purchased Capacity Expense to the fuel factor, then the requested base rate revenue increase for the 2026 Rate Year would be \$458 million, and the incremental revenue increase for the 2027 Rate Year would be \$173 million. The shift of recovery of Purchased Capacity Expense to the fuel factor would increase the fuel factor by \$120 million for the July 1, 2025, through June 30, 2026 fuel factor rate year.

The following chart shows the revenue requirement impact for both base rates and the fuel factor (i) should Purchased Capacity Expense be recovered in base rates, and (ii) should Purchased Capacity Expense be moved to the fuel factor. The chart also presents the Company's assessment of the monthly bill impact for a typical residential customer using 1,000 kilowatt-hours per month under these proposals.

Primary Biennial Review Position (Capacity Recovered in Base Rates)		
	<u>2026</u>	<u>2027 Increment</u>
Revenue Requirement Increase (\$ millions)		
Base	\$822	\$345
Fuel (July 1, 2025-June 30, 2026)	\$739	
Typical Residential Bill Impact (\$/month)		
Base	\$14.73	\$4.84
Fuel (July 1, 2025-June 30, 2026)	\$8.95	
Alternate Biennial Review Position (Capacity Recovered in Fuel Factor)		
	<u>2026</u>	<u>2027 Increment</u>
Remove Capacity Expense from Base Rates (\$ millions)	(\$364)	(\$172)
Revenue Requirement Increase (\$ millions)		
Base	\$458	\$173
Fuel (July 1, 2025-June 30, 2026)	\$860	
Typical Residential Bill Impact (\$/month)		
Base	\$8.51	\$2.00
Fuel (July 1, 2025-June 30, 2026)	\$10.92	

MISCELLANEOUS CHANGES

Dominion is seeking approval of numerous changes to its cost allocation, rate design, tariff offerings, and terms and conditions of service. Due to the number of proposed changes, several, though not all, of the Company's proposals are discussed herein. Additional information on these and other proposals may be found in the Company's Application.

SELECT PROPOSED CHANGES APPLICABLE TO RESIDENTIAL CUSTOMERS

Among other things, Dominion seeks approval of an increase in the basic monthly customer charge for residential customers receiving service under Schedule 1. Specifically, the Company proposes to increase the basic monthly customer charge set forth in Schedule 1 from \$7.58 to \$9.58, effective January 1, 2026.

The Company also seeks to update its reconnection charges. For residential customers with an AMI meter, Dominion seeks a reduction of the reconnection charge from \$6.82 to \$5.05. For residential customers that have elected to opt-out of having an

AMI meter or that would, for any other reason, be assessed a non-communicating metering service charge as defined in the Company's terms and conditions, the Company proposes a reduction to the reconnection charge from \$34.64 to \$22.64. For non-residential customers, the Company is proposing to reduce the reconnection charge from \$25.15 to \$17.17.

The Company proposes to reclassify experimental time-of-use Schedule 1G as a permanent optional rate open to all residential customers where AMI has been installed. The Company states that a marginal analysis was performed to guide the shaping of the rate for various time periods and seasons for the 2026 and 2027 Rate Years. The Company has also updated the rate design for other voluntary time-of-use rate schedules in the residential class, including Schedules 1S and 1T.

SELECT PROPOSED CHANGES APPLICABLE TO HIGH LOAD CUSTOMERS

Dominion is proposing certain changes to cost allocation, rate design, and terms and conditions, that, according to the Company, are primarily designed to address the changing profile of the Company's high load customer base. A high load customer is defined as a customer with a contracted or measured demand of 25 megawatts ("MW") or greater. The Company states that these changes would apply to most of its data center customers, but are not directed exclusively at this subset of customers.

First, the Company is recommending the creation of a new customer class, the GS-5 class, as of January 1, 2027, for existing and new customers with a measured or contracted demand of 25 MW or greater, along with a measured or expected load factor of at least 75%. The Company asserts that customers in the existing GS-3 and GS-4 classes, which includes data centers, are currently "paying their fair share" of system costs from a cost allocation standpoint, but that the high load factor customers, proposed to be included in the new GS-5 class, have a different cost causation profile compared to lower usage, large general service customers. According to Dominion, creating a separate GS-5 class would allow more transparency going forward, to align the principles of cost causation and cost recovery as the GS-5 class grows, both in terms of number of customers and as a share of system resource requirements and energy consumption.

Further, to be effective January 1, 2027, the Company is recommending approval of provisions in certain rate schedules, including Rate Schedules 6, 6-TS, GS-3, GS-4, 10, MBR, and

SCR, which provide for minimum demand charges with respect to any high load customer. Under the Company's proposal, those customers would pay demand charges that reflect the higher of their actual demand or the applicable minimum percentage of their contracted demand, with the minimum percentages being 85% for the transmission and distribution functions, and 60% for the generation function.

In addition, to be effective January 1, 2027, the Company is recommending changes to its terms and conditions applicable to high load customers prospectively that address: (i) a minimum 14-year contract term for new high load customers; (ii) new deposit and credit requirements for these customers; and (iii) provisions with respect to potential capacity reassignments and exit fees for such customers. The Company asserts that these proposed terms are intended to shift the financial risk of nonperformance of obligations to the high load customers and away from the utility and the remainder of its customer base.

SELECT PROPOSED CHANGES APPLICABLE TO LARGE GENERAL SERVICE CUSTOMERS

In January 2020, the Commission approved a new voluntary rate schedule, designated Rate Schedule MBR, Large General Service Market-Based Rate ("Experimental Rate Schedule MBR"), as an experimental tariff with a three-year enrollment period and a cap of 200 MW. Experimental Rate Schedule MBR allows participating customers with over 5 MW in measured demand to access a market-based rate tariff. In 2021, the Commission approved an increase to the participation cap for Experimental Rate Schedule MBR from 200 to 400 MW. Enrollment for the Experimental Rate Schedule MBR subsequently closed on November 1, 2022. In the present proceeding, Dominion is seeking, effective January 1, 2026, to reopen Rate Schedule MBR, make the rate schedule permanent, and remove the participation cap.

The foregoing is not an exhaustive list of all the proposals contained in the Company's Application. Interested persons are encouraged to review Dominion's Application and supporting documents in full for details about these and other proposals.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Application and supporting documents and thus may adopt rates that differ from those

appearing in the Company's Application and supporting documents.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled public hearings on the Company's Application. A hearing for the receipt of testimony from public witnesses on the Company's Application shall be convened telephonically by the Commission at 12 p.m. on September 2, 2025. On or before August 26, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141 to register. This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting.

Beginning at 12 p.m. on September 2, 2025, the Commission will telephone sequentially each person who has signed up to testify as provided above.

On September 2, 2025, at 12 p.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Commission will convene a hearing to receive testimony and evidence related to the Application from the Company, any respondents, and the Commission's Staff ("Staff").

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

An electronic copy of the public version of the Company's Application may be obtained by submitting a written request to counsel for the Company: Elaine S. Ryan, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or eryan@mcguirewoods.com. Interested persons also may download unofficial copies of the public version of the Application and the public versions of other documents filed in this case from the Commission's website: scc.virginia.gov/case-information.

On or before August 26, 2025, any interested person may submit comments on the Application by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2025-00058.

On or before June 24, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents, and Staff electronically as described above. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00058. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing.

On or before July 16, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240,

Prepared testimony and exhibits. All filings shall refer to Case No. PUR-2025-00058.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The public version of the Company's Application, the Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and the public versions of other documents filed in the case may be viewed at: scc.virginia.gov/case-information.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) The Company shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before June 9, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling.

(11) On or before August 26, 2025, any interested person may submit comments on the Application by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00058.

(12) On or before June 24, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the

Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents, and Staff as described in Ordering Paragraph (3). Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00058.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve upon the respondent a copy of the public version of the Application and supporting materials, unless these materials already have been provided to the respondent.

(14) On or before July 16, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served on the Staff, the Company, and all other respondents as described in Ordering Paragraph (3). In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not

limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00058.

(15) The Staff shall investigate the Application. On or before July 30, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof on counsel to the Company and all respondents as described in Ordering Paragraph (3).

(16) On or before August 13, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve a copy of its rebuttal testimony and exhibits on the Staff and all respondents as described in Ordering Paragraph (3).

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by Ordering Paragraph (2), all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to

the Staff.⁴³ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

⁴³ The assigned Staff attorneys are identified on the Commission's website, scc.virginia.gov/case-information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00058, in the appropriate box.

Rider CERC, under § 56-585.1 A 6 of the Code of Virginia)

APPLICATION OF VIRGINIA ELECTRIC AND POWER COMPANY
AND REQUEST FOR LIMITED WAIVER

Virginia Electric and Power Company (“Dominion Energy Virginia” or the “Company”), by counsel, hereby files with the State Corporation Commission of Virginia (the “Commission”) its application (the “Application”) for approval of a certificate of public convenience and necessity (“CPCN”) to construct and operate the Chesterfield Energy Reliability Center (“CERC”), an approximately 944 megawatt (“MW”) nominal flexible fuel electric generating facility in Chesterfield County, Virginia, and its related transmission and interconnection facilities¹ (the “Project” or “CERC Project”) pursuant to §§ 56-580 D and 56-46.1 of the Code of Virginia (“Va. Code”) and the Commission Filing Requirements in Support of Applications for Authority to Construct and Operate an Electric Generating Facility (the “Generation Rules”), 20 VAC 5-302-10 *et seq.*

¹ Based on the scope of the transmission facilities for the Project, the Company asserts these are “ordinary extensions or improvements in the usual course of business” under Va. Code § 56-265.2 such that a CPCN is not required.

The Company is also requesting Commission approval of a rate adjustment clause, designated Rider CERC, under Va. Code § 56-585.1 A 6 ("Subsection A 6") for timely and current recovery of the costs of the Project.

In support of this Application, the Company states as follows:

I. GENERAL INFORMATION

1. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional customers in Virginia and to the public in portions of North Carolina. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is also a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc. Exhibit 1 provides further information on Dominion Energy Virginia.

2. The Company's post office address is:

Virginia Electric and Power Company
600 East Canal Street
Richmond, Virginia 23219

3. The names, addresses, and telephone numbers of the attorneys for the Company are:

Paul E. Pfeffer
David J. DePippo
Dominion Energy Services, Inc.
600 East Canal Street
Richmond, Virginia 23219
(804) 787-5607 (PEP)
(804) 819-2411 (DJD)

Joseph K. Reid, III

(804) 775-1090 (ESR)
(804) 775-1069 (TDP)
(804) 775-1323 (BMJ)
(804) 775-4758 (ASH)

II. LEGAL AUTHORITY

4. Va. Code § 56-580 D authorizes the Company to construct and operate electrical generating facilities, subject to Commission approval, upon a finding that:

[S]uch generating facility and associated facilities (i) will have no material adverse effect upon reliability of electric service provided by any regulated public utility, (ii) are required by the public convenience and necessity, if a petition for such permit is filed after July 1, 2007, and if they are to be constructed and operated by any regulated utility whose rates are regulated pursuant to § 56-585.1, and (iii) are not otherwise contrary to the public interest.

5. Amendments to the Va. Code in 2020 contained in the Virginia Clean Economy Act (“VCEA”) placed additional restrictions on a utility’s ability to construct an electric generating facility which emits carbon dioxide. However, the law does not require that the Commission take any action which, in its determination, “threatens the reliability or security of electric service to the utility’s customers.”²

6. Code § 56-46.1 states in relevant part:

Whenever the Commission is required to approve the construction of any electrical utility facility, it shall give consideration to the effect of that facility on the environment and establish such conditions as may be desirable or necessary to minimize adverse

² Chapter 1194, Virginia Acts of Assembly, 2020 Session, Enactment Clause 9. *See also* Va. Code § 56-585.5 B 3.

environmental impact. In order to avoid duplication of governmental activities, any valid permit or approval required for an electric generating plant and associated facilities issued or granted by a federal, state, or local governmental entity charged by law with responsibility for issuing permits or approvals regulating environmental impact and mitigation of adverse environmental impact or for other specific public interest issues such as building codes, transportation plans, and public safety, whether such permit or approval is granted prior to or after the Commission's decision, shall be deemed to satisfy the requirements of this section with respect to all matters that (i) are governed by the permit or approval or (ii) are within the authority of, and were considered by, the governmental entity in issuing such permit or approval, and the Commission shall impose no additional conditions with respect to such matters. Nothing in this section shall affect the ability of the Commission to keep the record of a case open. Nothing in this section shall affect any right to appeal such permits or approvals in accordance with applicable law. . . . In every proceeding under this subsection, the Commission shall receive and give consideration to all reports that relate to the proposed facility by state agencies concerned with environmental protection; and if requested by any county or municipality in which the facility is proposed to be built, to local comprehensive plans that have been adopted pursuant to Article 3 (§ 15.2-2223 et seq.) of Chapter 22 of Title 15.2. Additionally, the Commission (a) shall consider the effect of the proposed facility on economic development within the Commonwealth, including but not limited to furtherance of the economic and job creation objectives of the Commonwealth Clean Energy Policy set forth in § 45.2-1706.1, and (b) shall consider any improvements in service reliability that may result from the construction of such facility.

7. Va. Code § 56-585.1 A 6 provides that a utility can petition the Commission for approval of a RAC to recover the costs of one or more generation facilities:

To ensure the generation and delivery of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of . . . (ii) one or more . . . generation facilities

III. CPCN AND APPROVAL TO CONSTRUCT AND OPERATE CERC

8. The CERC Project will be an approximately 944 MW (nominal) flexible fuel

electric generating facility comprised of four natural gas-fired, General Electric Vernova (“GEV”) 7-F combustion turbines. The Project will be located within the footprint of a recently retired coal unit (Unit 6), and alongside two existing gas-fired combined cycle units (Units 7 and 8), at the Company’s existing Chesterfield Power Station site in Chesterfield, Virginia. It is projected to be commercially operational by June 1, 2029.

9. Once in operation, CERC will generate enough energy to serve up to 240,000 homes and will serve as a new, fully dispatchable resource located within the Commonwealth that will help meet customers’ growing energy and capacity needs and provide key support for system reliability during times of high demand, particularly with its ability to start and stop in approximately ten minutes and run for short or long durations. The Project will be equipped with Best Available Control Technology (“BACT”) to minimize air emissions. Importantly, the units also will have on-site secondary fuel, providing critical flexibility to endure multi-day extreme weather events if gas supply is limited. In addition, it will be hydrogen-natural gas blend capable should that fuel become available at scale in the future.

10. The CERC Project is needed to provide system reliability. Current resources are inadequate to ensure such reliability going forward, particularly given projected demand growth, the changing nature of the supply portfolio, and dynamics within our service territory, transmission delivery zone, and Regional Transmission Organization (“RTO”). There is a critical need for new, fully dispatchable generation to meet the needs of the Company’s customers, particularly during times of peak demand, and the CERC Project is the only viable resource which can meet those needs by 2030. Without it, capacity reserve violations and unserved energy events are projected to occur, which are unacceptable threats to reliability.

11. As discussed in detail by Company Witness Cedric E. Green, and supported by Company Witnesses Lisa R. Crabtree, William A. Coyle, and Akarsh Sheilendranath with the Brattle Group, there are three main drivers contributing to the reliability threat and need for the Project at this time. First, there is significant demand growth forecasted for both Dominion Energy Virginia's service territory and its broader transmission delivery zone here in the Commonwealth over the Company's resource planning period, driven by unprecedented growth in the energy-intensive data storage customer sector, along with increased transportation and other electrification trends and economic development. At the same time, the Company, consistent with the substantial mandates of the VCEA, is increasing its portfolio of carbon-free generation resources—primarily solar and off-shore wind. These solar and offshore wind facilities are critical components of meeting the renewable energy targets of the VCEA. However, they are also intermittent in nature, and inverter-based technologies such as solar create complexities for grid management and stability not associated with traditional synchronous generators. These factors are driving the need for additional fully dispatchable generators, especially in times of system stress, to support the renewable portfolio—an “all-of-the-above” approach.

12. The CERC Project is the optimal choice to meet the reliability need in the near-term. Company Witness Crabtree's direct testimony explains that the Company's integrated resource planning process demonstrates a need for both new peaking and new baseload/intermediate dispatchable generation over the planning period. To meet this need, the Company evaluated multiple supply and demand-side resource options, including wholesale market opportunities and combinations of solar, wind, and energy storage resources, among other alternatives. Compared to market purchases, CERC will provide \$1.1 billion in positive net

present value to customers, and far exceeds the value of any other hypothetical resource combination.

13. The Company's analysis of the need for the CERC Project was independently verified by a third-party consultant, the Brattle Group ("Brattle"). Brattle's independent analysis is presented by Company Witness Sheilendranath, which projects that the Company would start to experience capacity requirement violations during times of extreme weather—both during summer heatwaves and during winter cold snaps—at or before the time when the CERC facility is planned to be placed in service in 2029. Without CERC, the projected capacity violations could result in controlled load shedding by PJM during extreme weather events. In addition, the analysis demonstrates a threat to resource adequacy and the reliability of service to customers before 2032, and worsening by 2040, by which time capacity violations would begin to occur even during normal weather conditions if the proposed new gas resources are not added to the Company's portfolio.

14. The proposed Project is designed to minimize impacts on the environment, with all required systems to meet BACT and minimize air emissions. This includes, without limitation, the installation of post-combustion environmental controls, such as Selective Catalytic Reduction for control of nitrogen oxides and an oxidation catalyst for control of volatile organic compounds and carbon monoxide. As discussed in further detail in Company Witness Jeffrey G. Miscikowski's testimony, the Company selected the GEV 7F.05 Frame CTs due to its overall performance capabilities and proven flexibility and reliability for operations. In addition, the Company has extensive experience with the GEV 7F product line. The first two 7F units operating in the United States were installed at CPS in 1990 and 1992. The Company is proposing efficient and proven 7F.05 CT technology provided by GEV. The CT equipment is

optimized for simple-cycle operation at various loads with fast starting capabilities and the capability to operate multiple times per day as needed.

15. As discussed in Company Witness Jason P. Ericson's testimony, the CERC Project will have minimal environmental impacts. In order to facilitate review and analysis by the Commission, Virginia Department of Environmental Quality ("DEQ"), and other relevant agencies, the Company has developed a supplement ("DEQ Supplement") containing the information and analysis responsive to 20 VAC 5-302-20(12) in the Generation Rules. The DEQ Supplement demonstrates that the Company will reasonably minimize impacts on the environment from the Project in accordance with Va. Code § 56-46.1.

16. The Company considered the potential environmental justice impacts of the Project by completing an environmental justice assessment, and the Company has and will continue to engage in community outreach as needed for the Project. Company Witness Kathryn E. MacCormick provides additional details regarding the Company's environmental justice analysis and community outreach efforts. Ms. MacCormick explains that while environmental justice communities are present in the study area, the Company has sited and designed CERC in a way that minimizes potential environmental impacts such that local community health and other aspects of the environment will be protected. In addition, by building CERC at this location, the Company will be ensuring continued access to reliable and affordable energy to 2.7 million customers in the Company's service territory, which is critical for public health and safety within the Commonwealth.

17. The Application, direct testimonies, and DEQ Supplement demonstrate that the Company has the technical and financial fitness to construct, operate, and maintain the proposed Project, and the Company has satisfied the requirements of Va. Code §§ 56-580 D and 56-46.1 to

obtain a CPCN for the Project. The CERC Project will have no material adverse impact upon the reliability of electric service provided by any regulated public utility, and is required by the public convenience and necessity. Further, the CERC Project is in the public interest.

IV. APPROVAL OF RIDER CERC

18. The Company seeks approval of its proposed RAC, Rider CERC, pursuant to Subsection A 6, to recover, on a timely and current basis, the costs of financing construction of the Project, including the transmission facilities necessary to interconnect the facility with the Company's transmission system.

A. Rate of Return on Common Equity

19. The Company is utilizing the ROE of 9.7%, which is the Company's authorized ROE as set forth by the Commission in Case No. PUR-2023-00101.

B. Revenue Requirement

20. The revenue requirement calculation for the Rider CERC RAC is described in detail in the testimony of Company Witness Renee T. Lipscomb.

21. The proposed rate year for this proceeding is from January 1, 2026, through December 31, 2026. The three key components of the revenue requirement in this proceeding are the Projected Cost Recovery Factor, the Allowance for Funds Used During Construction ("AFUDC") Cost Recovery Factor, and the Actual Cost True-Up Factor.

22. The Projected Cost Recovery Factor includes financing costs for rate base as well as projected operating expenses during the Rate Year. The AFUDC Cost Recovery Factor represents the amortization of the unrecovered AFUDC from the beginning of the Rate Year through the end of the construction period. The Actual Cost True-Up Factor credits to, or recovers from, customers any over/under recovery of costs from the most recently completed

calendar year. Actual revenues during the test year are compared to actual costs incurred during the test year. Any difference in these amounts becomes the Actual Cost True-Up Factor credited to, or recovered from, customers through the total revenue requirement requested for recovery during the Rate Year.

23. The total revenue requirement requested for recovery in this proceeding is \$35,739,807.

24. The Company is utilizing an updated revenue lag based on calendar year 2023 data in certain cash working capital calculations in this filing in accordance with the Final Order in the Company's Rider GEN proceeding, Case No. PUR-2024-00097.

C. Rate Design

25. The Company is proposing a Rider CERC tariff, which is sponsored by Company Witness C. Alan Givens. Mr. Givens identifies the rates, in either cents per kilowatt-hour or dollars per kilowatt, that will apply to each Company Rate Schedule. If approved as proposed, Rider CERC will be effective for usage on and after January 1, 2026.

26. The implementation of the proposed Rider CERC on January 1, 2026, will incrementally increase the typical residential customer's monthly bill, based on 1,000 kWh per month, by \$0.60. Mr. Givens' testimony provides typical monthly bill impacts for Residential Schedule 1, General Service Schedules GS-1, GS-2, GS-3, and GS-4, and Church Schedule 5C at several representative levels of consumption and demand.

27. As Mr. Givens explains, the Company respectfully requests for billing purposes, a rate effective date for usage on and after the latter of January 1, 2026, or the first day of the

month which is at least fifteen (15) days following the date of any Commission Order approving Rider CERC.

V. PRE-FILED DIRECT TESTIMONY AND EXHIBITS, FILING SCHEDULES, AND REQUEST FOR LIMITED WAIVER

28. The Company's Application is supported by the pre-filed direct testimony of Company Witnesses Cedric F. Green, Jeffrey G. Miscikowski, Lisa R. Crabtree, William A. Coyle, Akarsh Sheilendranath, Brian M. Keefer, Jason P. Ericson, Kathryn E. MacCormick, Renee T. Lipscomb, and C. Alan Givens. Each witness includes a one-page summary with his or her testimony.

29. Rule 60 of the Rate Case Rules, 20 VAC 5-204-5 *et seq.*, provides that a rate adjustment clause application "shall include Schedule 46" and that, additionally, those "applications requiring an overall cost of capital shall include Schedules 3, 4, 5, and 8."

30. With this Application, the Company file the following Filing Schedules:

- a. Filing Schedule 8, sponsored by Company Witness Renee T. Lipscomb, provides information regarding the Company's cost of capital.
- b. Filing Schedule 46A, sponsored by Company Witness Jeffrey G. Miscikowski, consists of Statements 1 through 7. Filing Schedule 46A Statement 1 provides the projected and actual costs sought for recovery by type of cost and year, for the Project. Filing Schedule 46A Statement 2 provides the feasibility and engineering design studies. Filing Schedule 46A Statement 3 provides key documents supporting the costs for the Project. Filing Schedule 46A Statement 4 provides the RFP Proposal. Filing Schedule 46A Statement 5 provides the planning assumptions. Filing Schedule 46A Statement 6 provides the fuel supply studies. Filing Schedule 46A Statement 7 provides the senior management materials.
- c. Filing Schedule 46B Statement 1 is sponsored by Lisa R. Crabtree, which provides the need and justification for the CERC Project. Filing Schedule 46B Statement 2 is sponsored by Lisa R. Crabtree and Brian M. Keefer, which provides the economic studies.
- d. Filing Schedule 46C, sponsored by Brian M. Keefer, consists of Statement 1. Filing Schedule 46C Statement 1 provides the Generation RFP Report.

- e. Filing Schedule 46D, sponsored by Company Witness Renee T. Lipscomb, consists of Statements 1 through 3. Filing Schedule 46D, Statement 1, provides the estimated annual revenue requirement for the rate year ending December 31, 2026. Filing Schedule 46D Statement 2 provides the estimated annual revenue requirement over the duration of the project, by year on a total company basis and a Virginia jurisdictional basis. Filing Schedule 46D Statement 3 provides the workpapers showing all supporting calculations and assumptions for the estimated annual revenue requirement.
- f. Filing Schedule 46E, sponsored by Company Witness C. Alan Givens, consists of Statements 1 and 2. Filing Schedule 46E Statement 1 provides the Company's methodology for allocating the proposed revenue requirement among the rate classes and the design of the class rates. Filing Schedule 46E Statement 2 provides the annual revenue requirement for Rider CERC by customer class over the duration of the RAC.

B. Request for Waiver of Filing Schedule 46 Requirements

31. The Company, for good cause shown and pursuant to Rate Case Rule 10 E, respectfully requests that the Commission waive, in part, the requirements under Rule 60 to Filing Schedules 3 through 5. Pursuant to 20 VAC 5-204-60, the Company is required to submit Filing Schedules 3 through 5 and 8 for each rate adjustment clause proceeding supporting each overall cost of capital used in the application. The Company is only submitting Filing Schedule 8 for the 2023 year-end capital structure as Filing Schedules 3-5 were approved by the Commission in the Company's 2024 Rider GEN proceeding, Case No. PUR-2024-00097.³ To the extent necessary, the Company requests a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2023 capital structure. Further, to the extent necessary, the Company requests a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2022 capital structures, as those have already been reviewed and approved by the Commission in the Company's 2023 biennial review proceeding, Case No. PUR-2023-00101.

³ See *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider GEN, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders B, BW, GV, US-2, US-3, and US-4 pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00097, Final Order (Feb. 27, 2025).

The Company is submitting Filing Schedule 8 for the year 2022. This request for waiver is consistent with the Commission's recent order granting a similar limited waiver.⁴

32. The Company, for good cause shown and pursuant to 20 VAC 5-204-10 E, respectfully requests that the Commission waive, in part, the requirements under Rules 60 and 90 of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials. Specifically, the Rate Case Rules require the Company to provide key documents supporting the projected and actual costs of the Project, such as: economic analyses, support used by senior management for major cost decisions as determined by the applicant, contracts, results from requests for proposals, cost-benefit analyses, and other items supporting the costs that have not been provided in previous applications. The supporting documentation responsive to this requirement is voluminous and, often, not easily viewed in hard copy (*i.e.*, paper) format. Accordingly, the Company seeks a waiver of the requirement to file 15 hard copies of this information. Instead, the Company propose to provide this documentation to Staff and any other future case participant in electronic format, and to provide the Commission with one hard copy and three electronic copies on compact discs. The Company will make these documents available via an electronic discovery site ("eRoom") contemporaneously with the filing of the Application, with immediate access available to Staff. This request for waiver is consistent with recent Commission orders granting similar limited waivers.⁵ Should the Commission deny this request, the Company asks for a reasonable allowance of time to print the requisite filing copies

⁴ *Petition of Virginia Electric and Power Company, For approval of its 2024 RPS Development Plan under § 56-585.5 D 4 of the Code of Virginia and related requests*, Case No. PUR-2024-00147, Order on Motions at 9 (Sept. 12, 2024).

⁵ See *e.g.*, *id.*

of this material and submit it to the Commission prior to the Company's Application being deemed incomplete.

**VI. REQUEST FOR CONFIDENTIAL TREATMENT AND ADDITIONAL
PROTECTIVE TREATMENT FOR EXTRAORDINARILY SENSITIVE
INFORMATION**

33. The Application, including supporting documents, contains confidential and extraordinarily sensitive information as designated. Accordingly, in compliance with Rate Case Rule 10 F and Rule 170 of the Commission's Rules of Practice and Procedure,⁶ this filing is accompanied by a contemporaneously-filed Motion for Entry of a Protective Order and Additional Protective Treatment, including a Proposed Protective Order.

VII. COMPLIANCE WITH RULE 10 OF THE RATE CASE RULES

34. In accordance with Rule 10 A, the Company filed with the Commission its notice of intent to file this Application on December 4, 2024, and provided that notice to those listed in Rule 10 J 1, as required by that subsection.

35. The Company has included all information required by Rule 10 B in the Application, including a table of contents, direct testimonies with one-page summaries, and properly labeled exhibits and schedules.

36. In accordance with Rule 10 H, the Company will make a searchable PDF version of the Application, direct testimonies, and Filing Schedules available via an eRoom contemporaneously with this filing, with immediate access available to (i) Staff, including identified members of the Divisions of Utility Accounting and Financing and Public Utility Regulation; and (ii) identified members of the Office of the Attorney General's Division of

⁶ 20 VAC 5-204-10 F; 5 VAC 5-20-170.

Consumer Counsel (“Consumer Counsel”).⁷ Also, in accordance with Rule 10 H, the Company will make electronic spreadsheets supporting the schedules that contain calculations available via an eRoom contemporaneously with this filing, with immediate access available to Staff.

VIII. COMPLIANCE WITH THE GENERATION RULES

37. To facilitate its request for a CPCN, the Company has provided information responsive to the Generation Rules. Exhibit 1 attached to this Application includes a table showing where in the Application the Company has provided the information responsive to the Generation Rules and the sponsoring witness.

IX. CONCLUSION

WHEREFORE, Dominion Energy Virginia respectfully requests that the Commission:

- (1) Direct that notice of the Application be given, including the notice map of the Project site provided in Schedule 5 of the pre-filed direct testimony of Company Witness Miscikowski;
- (2) Schedule this matter for hearing;
- (3) Grant the certificate of public convenience and necessity for, and approve, the construction and operation of the proposed Chesterfield Energy Reliability Center under Va. Code §§ 56-580 D and 56-46.1, as requested herein;
- (4) Find that the costs presented in this Rider CERC are reasonable and prudent;
- (5) Approve the proposed revenue requirement, cost allocation, rate design, and accounting treatment for service rendered on or after January 1, 2026;
- (6) Approve the Company’s proposed Rider CERC effective for usage on or after January

⁷ Rule 10 J 3 requires the Company to provide a copy of the complete public version of the filing to Consumer Counsel at the same time it is filed with the Commission. As noted, pursuant to Rule 10 H, the Company will make a searchable PDF version of the Application, direct testimonies, and Filing Schedules available via an eRoom contemporaneously with this filing, with immediate access available to Consumer Counsel.

1, 2026 or the first day of the month which is at least fifteen (15) days following the date of any Commission order approving Rider CERC;

(7) Grant the Company's request for a limited partial waiver of the filing requirements as described above; and

(8) Grant such other and further relief as it deems just and proper.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

APPLICATION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2025-00037

For approval of a certificate of public convenience and necessity to construct and operate the proposed Chesterfield Energy Reliability Center electric generation and related transmission facilities pursuant to §§ 56-580 D and 56-46.1 of the Code of Virginia and for approval of a rate adjustment clause, designated Rider CERC, under § 56-585.1 A 6 of the Code of Virginia

ORDER FOR NOTICE AND HEARING

On March 3, 2025, Virginia Electric and Power Company d/b/a Dominion Energy Virginia (“Dominion” or “Company”) filed with the State Corporation Commission (“Commission”) an application and supporting documents (collectively, the “Application”) for approval of a certificate of public convenience and necessity (“CPCN”) to construct and operate the Chesterfield Energy Reliability Center (“CERC”), an approximately 944 megawatt (“MW”) nominal flexible fuel electric generating facility in Chesterfield County, Virginia, and its related transmission¹ and interconnection facilities (“Project”), pursuant to §§ 56-580 D and 56-46.1 of the Code of Virginia (“Code”) and the Commission’s Filing Requirements in Support of Applications for Authority to Construct and Operate an Electric Generating Facility, 20 VAC 5-302-10 *et seq.* The Company also requests approval of a rate adjustment clause (“RAC”), designated Rider CERC, under Code § 56-585.1 A 6, for timely and current recovery of the costs of the proposed Project.

¹ Based on the scope of the transmission facilities for the Project, the Company asserts these are “ordinary extensions or improvements in the usual course of business” under Code § 56-265.2 and that a CPCN is not required. Application at 1, n.1.

According to the Application, the CERC would be an approximately 944 MW (nominal) flexible fuel electric generating facility comprising four natural gas-fired, General Electric Vernova 7-F combustion turbines.² Dominion asserts that the proposed Project would be located within the footprint of a recently retired coal unit (Unit 6), and alongside two existing gas-fired combined cycle units (Units 7 and 8), at the Company's existing Chesterfield Power Station site in Chesterfield, Virginia.³ Dominion projects the CERC could be commercially operational by June 1, 2029.⁴

Dominion asserts the proposed Project is needed to provide system reliability.⁵ Specifically, Dominion asserts that current resources are inadequate to ensure such reliability going forward, particularly given projected demand growth, the changing nature of the supply portfolio, and dynamics within the Company's service territory, its transmission delivery zone, and in PJM Interconnection, LLC, the Regional Transmission Organization. The Company further asserts that there is a critical need for new, fully dispatchable generation to meet the needs of the Company's customers, particularly during times of peak demand, and the proposed Project is the only viable resource that can meet those needs by 2030.⁶

Finally, pursuant to § 56-585.1 A 6 of the Code, Dominion seeks approval of a RAC, designated Rider CERC, for recovering, on a timely and current basis, the costs of financing

⁵ *Id.*

⁶ *Id.*

construction of the proposed Project, including the transmission facilities necessary to interconnect the facility with the Company's transmission system.⁷

As estimated by the Company, the total projected cost of the Project is \$1.47 billion, excluding financing costs.⁸ The proposed rate year for this proceeding is January 1, 2026, through December 31, 2026.⁹ The total revenue requirement requested for recovery in this proceeding is \$35,739,807.¹⁰ Dominion states that the three key components of the revenue requirement in this proceeding are the Projected Cost Recovery Factor, the Allowance for Funds Used During Construction Cost Recovery Factor, and the Actual Cost True-Up Factor.¹¹ According to the Application, implementation of the proposed Rider CERC, if approved by the Commission, would increase the monthly bill of a typical residential customer using 1,000 kilowatt-hours of electricity by \$0.60.¹² Dominion asserts that in calculating Rider CERC's proposed revenue requirement, it used the Company's 9.7% general rate of return on common equity authorized by the Commission in Case No. PUR-2023-00101.¹³

Dominion requests that the Commission waive, in part, the requirements of 20 VAC 5-204-60 ("Rule 60"), *Rate adjustment clause filings*, of the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned

⁷ *Id.* at 9.

See *Application of Virginia Electric and Power Company, For a 2023 biennial review of the rates, terms and conditions for the provision of generation, distribution and transmission services pursuant to § 56-585.1 A of the Code of Virginia*, Case No. PUR-2023-00101, Doc. Con. Cen. No. 240240103, Final Order (Feb. 28, 2024).

Electric Utilities (“Rate Case Rules”)¹⁴ with respect to Filing Schedule 46, and specifically with regard to Filing Schedules 3 through 5.¹⁵ In support of its request for waiver to file Filing Schedules 3 through 5 for the year-end 2023 capital structure, the Company states that it is only submitting Filing Schedule 8 for the 2023 year-end capital structure, as Filing Schedules 3 through 5 were approved by the Commission in the Company’s 2024 Rider GEN proceeding, Case No. PUR-2024-00097.¹⁶ The Company further requests, to the extent necessary, a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2022 capital structures, as those have already been reviewed and approved by the Commission in the Company’s 2023 biennial review proceeding, Case No. PUR-2023-00101.¹⁷

The Company also requests a waiver of the requirements under Rule 60 and 20 VAC 5-204-90 (“Rule 90”) of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials.¹⁸ In support of its request, the Company asserts that the supporting documentation responsive to these requirements is voluminous and, often, not easily viewed in hard copy format.¹⁹ The Company proposes to provide this documentation to Commission Staff (“Staff”) and any other future case participant in electronic format, and to provide the Commission with one hard copy and three electronic copies on compact discs. Dominion further states that it will make these documents available via an electronic discovery site

contemporaneously with the filing of the Application (collectively, with the requests above, “Waiver Requests”).²⁰

With its Application, Dominion also filed the Motion of Virginia Electric and Power Company for Entry of a Protective Order and Additional Protective Treatment for Extraordinarily Sensitive Information (“Motion”), along with a proposed Protective Order, requesting that the Commission establish procedures designed to protect the public disclosure of the Company’s confidential and commercially sensitive information.

As provided by Code § 62.1-44.15:21 D 2, the Commission and the State Water Control Board (“Board”) consult on wetland impacts prior to the siting of electric utility facilities that require a certificate of public convenience and necessity. Acting on behalf of the Board, the Department of Environmental Quality (“DEQ”) must prepare a Wetland Impacts Consultation on this Application, as required by the Code and Sections 2 and 3 of the Department of Environmental Quality - State Corporation Commission Memorandum of Agreement Regarding Consultation on Wetland Impacts (July 2003).²¹ The Staff has requested that the Office of Wetlands & Stream Protection at DEQ provide the Wetland Impacts Consultation for the Project.²²

As provided by Code §§ 10.1-1186.2:1 B and 56-46.1 A, the Commission and DEQ coordinate reviews of the environmental impact of electric generating plants and associated facilities. Pursuant to the Code and consistent with the Department of Environmental

²⁰ *Id.*

²¹ *In re Receiving comments on a draft memorandum of agreement between the State Water Control Board and the State Corporation Commission*, Case No. PUE-2003-00114, 2003 S.C.C. Ann. Rept. 474, Order Distributing Memorandum of Agreement (July 30, 2003).

²² Letter from Andrew F. Major, State Corporation Commission, dated March 5, 2025, to David L. Davis, Department of Environmental Quality, filed in Case No. PUR-2025-00037.

Quality - State Corporation Commission Memorandum of Agreement Regarding Coordination of Reviews of the Environmental Impacts of Proposed Electric Generating Plants and Associated Facilities (August 2002),²³ the Commission receives and considers reports on the proposed facilities from state environmental agencies. Staff has requested that the DEQ coordinate an environmental review of this Application by the appropriate agencies and provide a report on the review.²⁴

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that the Company should provide public notice of its Application; a public hearing should be scheduled for the purpose of receiving testimony and evidence on the Company's Application; a procedural schedule should be established to allow interested persons an opportunity to file written or electronic comments on the Company's Application or to participate in this proceeding as respondents; and the Staff should be directed to investigate the Application and file testimony and exhibits containing its findings and recommendations on the Application.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Further, based on the particular facts of this case, we find that the Company's Waiver Requests should be granted.

²³ *In re Receiving comments on a draft memorandum of agreement between the Department of Environmental Quality and the State Corporation Commission*, Case No. PUE-2002-00315, 2002 S.C.C. Ann. Rept. 559, Order Distributing Memorandum of Agreement (Aug. 14, 2002).

²⁴ Letter from Andrew F. Major, State Corporation Commission, dated March 5, 2025, to Bettina Rayfield, Department of Environmental Quality, filed in Case No. PUR-2025-00037.

Finally, we find that a Hearing Examiner should be assigned to rule on all discovery matters that arise during the course of this proceeding, including ruling on the Company's Motion.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2025-00037.

(2) All pleadings, briefs, or other documents required to be served in this matter shall be submitted electronically to the extent authorized by Rule 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure ("Rules of Practice").²⁵ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, all parties and Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Commission's Rules of Practice, a Hearing Examiner is appointed to rule on any discovery matters or motions *pro hac vice* that arise during the course of this proceeding,

²⁵ 5 VAC 5-20-10 *et seq.*

including ruling on the Company's Motion. A copy of each filing relating to discovery matters or motions *pro hoc vice* made with the Office of the Clerk in this matter shall also be sent electronically to the Office of Hearing Examiners.²⁶

(5) The Commission schedules a telephonic portion of the hearing for the receipt of testimony from public witnesses on the Application, as follows:

- (a) The portion of the hearing for the receipt of testimony from public witnesses on the Application shall be convened telephonically at 10 a.m. on September 23, 2025.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before September 16, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141 to register.
- (d) Beginning at 10 a.m. on September 23, 2025, the Commission will telephone sequentially each person who has signed up to testify, if any, as provided above.
- (e) This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting.

(6) The evidentiary portion of the hearing shall be convened at 10 a.m., on September 23, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and the Staff.

²⁶ Such electronic copies shall be sent to: OHEparalegals@scc.virginia.gov.

(7) An electronic copy of the public version of the Company's Application may be obtained by submitting a written request to counsel for the Company: Joseph K. Reid, III, McGuireWoods LLP, 800 East Canal Street, Richmond, Virginia 23219, or jreid@mcguirewoods.com. Interested persons also may download unofficial copies from the Commission's website: scc.virginia.gov/case-information.

(8) On or before May 16, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation in Chesterfield County, Virginia:

NOTICE TO THE PUBLIC OF AN APPLICATION BY
VIRGINIA ELECTRIC AND POWER COMPANY
FOR APPROVAL OF A CERTIFICATE OF PUBLIC
CONVENIENCE AND NECESSITY TO CONSTRUCT AND
OPERATE THE PROPOSED CHESTERFIELD ENERGY
RELIABILITY CENTER ELECTRIC GENERATION AND
RELATED TRANSMISSION FACILITIES PURSUANT TO
§§ 56-580 D AND 56-46.1 OF THE CODE OF VIRGINIA AND
FOR APPROVAL OF A RATE ADJUSTMENT CLAUSE,
DESIGNATED RIDER CERC, UNDER § 56-585.1 A 6 OF THE
CODE OF VIRGINIA
CASE NO. PUR-2025-00037

On March 3, 2025, Virginia Electric and Power Company d/b/a Dominion Energy Virginia ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") an application and supporting documents (collectively, the "Application") for approval of a certificate of public convenience and necessity to construct and operate the Chesterfield Energy Reliability Center ("CERC"), an approximately 944 megawatt ("MW") nominal flexible fuel electric generating facility in Chesterfield County, Virginia, and its related transmission and interconnection facilities ("Project"), pursuant to §§ 56-580 D and 56-46.1 of the Code of Virginia ("Code") and the Commission's Filing Requirements in Support of Applications for Authority to Construct and Operate an Electric Generating Facility, 20 VAC 5-302-10 *et seq.* The Company also requests approval of a rate adjustment clause ("RAC"), designated Rider CERC, under Code § 56-585.1 A 6 for timely and current recovery of the costs of the proposed Project.

According to the Application, the CERC would be an approximately 944 MW (nominal) flexible fuel electric generating facility comprised of four natural gas-fired, General Electric Vernova 7-F combustion turbines. Dominion asserts that the proposed Project would be located within the footprint of a recently retired coal unit (Unit 6), and alongside two existing gas-fired combined cycle units (Units 7 and 8), at the Company's existing Chesterfield Power Station site in Chesterfield, Virginia. Dominion projects the CERC could be commercially operational by June 1, 2029.

Dominion asserts the proposed Project is needed to provide system reliability. Specifically, Dominion asserts that current resources are inadequate to ensure such reliability going forward, particularly given projected demand growth, the changing nature of the supply portfolio, and dynamics within the Company's service territory, its transmission delivery zone, and in PJM Interconnection, LLC, the Regional Transmission Organization. The Company further asserts that there is a critical need for new, fully dispatchable generation to meet the needs of the Company's customers, particularly during times of peak demand, and the proposed Project is the only viable resource that can meet those needs by 2030.

Finally, pursuant to § 56-585.1 A 6 of the Code, Dominion seeks approval of a RAC, designated Rider CERC, for recovering, on a timely and current basis, the costs of financing construction of the proposed Project, including the transmission facilities necessary to interconnect the facility with the Company's transmission system.

As estimated by the Company, the total projected cost of the Project is \$1.47 billion, excluding financing costs. The proposed rate year for this proceeding is January 1, 2026, through December 31, 2026. The total revenue requirement requested for recovery in this proceeding is \$35,739,807. Dominion states that the three key components of the revenue requirement in this proceeding are the Projected Cost Recovery Factor, the Allowance for Funds Used During Construction Cost Recovery Factor, and the Actual Cost True-Up Factor. According to the Application, implementation of the proposed Rider CERC, if approved by the Commission, would increase the monthly bill of a typical residential customer using 1,000 kilowatt-hours of electricity by \$0.60. Dominion asserts that in calculating Rider CERC's proposed revenue requirement of approximately \$35,739,807, Dominion uses the Company's 9.7% general rate of return on common equity authorized by the Commission in Case No. PUR-2023-00101.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled a public hearing on Dominion's Application. On September 23, 2025, at 10 a.m., the Commission will hold the telephonic portion of the hearing for the purpose of receiving the testimony of public witnesses. On or before September 16, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/webcasting; or (ii) by calling (804) 371-9141 to register. This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting.

On September 23, 2025, at 10 a.m. or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Commission will convene a hearing to receive testimony and evidence related to the Application from the Company, any respondents, and the Commission's Staff.

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and has required electronic service on parties to this proceeding.

An electronic copy of the public version of the Company's Application may be obtained by submitting a written request to counsel for the Company: Joseph K. Reid, III, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jreid@mcguirewoods.com. Interested persons also may download unofficial copies of the public version of the Application and other documents filed in this case from the Commission's website: scc.virginia.gov/case-information.

On or before September 16, 2025, any interested person may submit comments on the Application by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments with the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2025-00037.

On or before June 20, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company at the address listed above. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00037.

On or before July 11, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served on the Commission's Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Commission's Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00037.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing in this matter, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

The public version of the Company's Application and other documents filed in this case, the Commission's Rules of Practice, and the Commission's Order for Notice and Hearing may be viewed on the Commission's website at: scc.virginia.gov/case-information.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) The Company shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before May 30, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the State Corporation Commission at scc.virginia.gov/clk/efiling.

(11) On or before September 16, 2025, any interested person may file comments on the Application by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to file comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00037.

(12) On or before June 20, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, Staff, and any other respondents, as directed in Ordering Paragraph (3). Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization,

corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00037.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve a copy of the Application on the respondent, unless these materials already have been provided to the respondent.

(14) On or before July 11, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Commission's Staff, the Company, and all other respondents simultaneous with its filing. In all filings, respondents shall comply with the Commission's Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00037.

(15) The Staff shall investigate the Application. On or before August 19, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits concerning the Application, and each Staff witness's testimony shall include a summary not to exceed one page. A copy thereof shall be served electronically on counsel to the Company and all respondents.

(16) On or before September 2, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve a copy of its rebuttal testimony and exhibits electronically on the Staff, all respondents, and DEQ.

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified herein, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice, 5 VAC 5-20-260, *Interrogatories or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to the Staff.²⁷ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) Dominion's Waiver Requests are granted as set forth herein.

(20) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

²⁷ The assigned Staff attorney is identified on the Commission's website, scc.virginia.gov/case-information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00037, in the appropriate box.

May 29, 2025

AT A SPECIAL MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 29TH DAY OF MAY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR

At 7:00 p.m., Chairman Collins calls to order the special meeting to consider adoption of the Fiscal Year 2026 budget.

Damien Rowe provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Supervisor Roark moves to approve the agenda. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen summarizes the comments made by the eight citizens who spoke at last week's public hearing. One complimented the work of the present Board. One noted the Crewe fire department is still volunteer. One citizen suggested allowing hog farms as a source of revenue. Five citizens spoke against the tax hike. Supervisor Roark spoke against funding the Commonwealth's Attorney's administrative position and expressed concern over the extra \$2.1 million for school programs.

The Commonwealth's Attorney's position is a filled position, and Administrator Bowen reads the list of job duties for that position provided by Ms. Watrous.

Ms. Maier and Dr. Martin are present should the Board need clarification on the \$2.1 million. Supervisor Roark withdraws his concern about the school funds. Having spoken at length with Chairman Abbott as well as with Dr. Martin, his questions have been addressed.

Ms. Maier explains that the school bases its budget on a state published calc tool. There is SOQ funding which is the County's required local effort. Then there are other programs that are possible with a required local match. This year these other programs will be funded with an additional \$5 million from the State and a \$2.1 million match from the County.

Administrator Bowen reports of vandalism at Golubic Stadium and thanks Ms. Maier for helping secure a work crew from Piedmont Regional Jail to paint over it.

Vice Chair Norton moves to adopt the Nottoway County Budget for Fiscal Year ending June 30, 2026, totaling \$59,286,424.00 as presented; pending receipt of all outstanding Federal and State funding, and all obligated and committed funds to be carried over from the Fiscal Year ending June 30, 2025. Supervisor Roark provides a second for discussion.

Supervisor Roark questions who was present at Finance meetings to craft this budget. Vice Chair Norton, Supervisor Ingram, Administrator Bowen, Ms. Presley were present. Commissioner Hudson and Treasurer Raiford are part of the Finance Committee, but they were not present for those meetings specific to the FY26 budget. Morgan Quicke has been present at budget meetings.

Ordinances are in place, the NCES Board is being reworked, billing practices are changing, and they are considering staffing a third ambulance. Supervisor Roark considers what else

should be done in exchange for the additional funding of NCES. Should the County hold liens on titles or deeds, will they repay the County are among the questions to be answered by the new executive board. Supervisor Roark's understanding was that he, Supervisor Toth, and Mr. Hyde were to advise the Board of Supervisors but serve on the NCES Executive Board; Vice Chair Norton and Supervisor Toth agree with that assessment. The Board discusses having an MOU in place, approving funding requests as they come forward, and having an additional 24-hour ALS-staffed ambulance.

Various aspects of the budget are discussed, and it is noted that none of the revenue increase is to fund a new courthouse.

Supervisor Roark withdraws his second. A second to Vice Chair Norton's motion to adopt is then provided by Supervisor Toth. With a roll call vote, the motion carries as follows:

W. J. Collins	Aye
D. V. Norton	Aye
R. H. Ingram	Aye
J. A. Roark	Nay
G. G. Toth	Aye

Supervisor Roark moves for the adoption of the levies; Supervisor Toth provides a second. Upon further consideration, Supervisor Roark withdraws his motion to have the levies read aloud as part of the motion.

Supervisor Toth makes the motion to adopt the tax levies as advertised and presented for the fiscal year ending June 30, 2026, including:

- For General County Purposes on Real Estate at \$0.48 per \$100 valuation;
- For General County Purposes on Personal Property at \$4.12 per \$100 valuation;
- For the Fire Fund on Real Estate at \$0.02 per \$100 valuation;
- For the Fire Fund on Personal Property at \$0.18 per \$100 valuation;
- For the Emergency Services Fund on Real Estate at \$0.05 per \$100.00 valuation; and,
- For the Emergency Services Fund on Personal Property at \$0.45 per \$100 valuation.

A second is provided by Supervisor Roark.

Supervisor Roark then makes a competing motion to separate out certain items:

- For the Fire Fund on Real Estate at \$0.02 per \$100 valuation
- For the Fire Fund on Personal Property at \$0.10 per \$100 valuation
- For Emergency Services volunteers - one vehicle - \$0.00 per \$100.00 valuation

Supervisor Toth provides a second for discussion. Discussion follows, and it is mentioned that reducing those revenues means a greater pull from reserves. Administrator Bowen mentions these figures were presented in a worksession, and the Fire Departments have been gracious, realizing what is needed by the Emergency Squads. Adjustments can be made next year. Supervisor Toth withdraws his second, and the competing motion dies.

To Supervisor Toth's original motion to adopt the levies as advertised with Supervisor Roark's second, a roll call vote is taken, and the motion carries as follows:

W. J. Collins	Aye
D. V. Norton	Aye
R. H. Ingram	Aye
J. A. Roark	Nay
G. G. Toth	Aye

Supervisor Ingram moves to appropriate the Fiscal Year 2025-2026 Nottoway County Budget totaling \$59,286,424.00 including all outstanding purchase orders and committed funds; contingent upon receipt of all state and federal funding. A second is provided by Supervisor Toth. Following a roll call vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes

R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Vice Chair Norton would like the Board to have future discussions on senior citizen tax discounts. The lack of revenue could be offset by a solar company, and she has discussed the matter with a developer for her district. To those who are concerned they may lose their home due to the new tax increases, Vice Chair Norton has spoken with the Treasurer, and the taxes can be paid within three years.

Supervisor Ingram points out that no one wants to raise taxes, but the County is now faced with mandatory projects and no other funding options.

Supervisor Roark supports the emergency services but felt the budget and levies were too much for the citizens. He would like volunteers not to be assessed personal property taxes.

Supervisor Toth mentions that if real estate taxes are delinquent for three years, your property can be sold. The Board is working towards new revenue streams to avoid serious tax increases next year.

Chairman Collins states the Board is looking for sources of much-needed revenue. There have been recent economic development meetings with the state to discuss some possibilities.

Administrator Bowen addresses a meeting with Burkeville Rescue who is also struggling with paying EMTs. Zac Beares and Joey Schnepf were in attendance. The Fire Departments currently have volunteers, but they acknowledge they are only a few steps behind rescue in needing funding for paid staff. The departments are working well together, knowing what the County is facing. Supervisor Ingram reminds everyone of Chief Schutt's words that this is nobody's fault, and it is area-wide.

Supervisor Toth recognizes former Administrator Ronnie Roark who is in attendance.

Administrator Bowen updates on the courthouse project. There are two interested companies who come under the PPEA guidelines, and they do not want to meet in a public setting as their designs are proprietary. Stakeholders such as the Sheriff, court clerks, and Commonwealth's Attorney have met to discuss the County's needs, and the firms are nearing the time to discuss their concepts. There is a process that follows and includes an RFP. Each company that submits a proposal will provide a minimum of \$5,000 to cover review costs, refundable to those companies not chosen. Supervisor Ingram adds that the companies are protective of their information and do not want it released. There may be available grants, and the companies will help find those.

Chairman Collins announces that Lafayette Dickens is the new Mayor of Blackstone after a 7-0 vote by Town Council. Also, the Board was invited to a retirement reception for Dr. Grimes, Division Superintendent, June 2nd from 1:00 – 4:30 p.m. in the Mini Auditorium.

Supervisor Roark moves to adjourn. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins adjourns the meeting at 8:13 p.m.

Chairman	Clerk

Nottoway County Board of Supervisors

Special Meeting – FY26 Budget Adoption

May 29, 2025, 7:00 p.m.

Nottoway County General District Courtroom

328 W. Courthouse Road, Nottoway, VA 23955

AGENDA

A. Welcome

Call to Order

Invocation

Pledge of Allegiance

B. Discussion of Budget Public Hearing

Administrator Bowen

C. Fiscal Year 2026

Board of Supervisors

1) Adoption of Budget

2) Adoption of Levies

3) Appropriation of Budget

D. Comments from Members of the Board

Vice Chair Norton

Supervisor Ingram

Supervisor Roark

Supervisor Toth

Chairman Collins

Motion to Adjourn

June 1, 2025

AT A SPECIAL MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE EMERGENCY OPERATIONS CENTER THEREOF, ON SUNDAY, THE 1ST DAY OF JUNE IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
CATHERINE DOUGLASS, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 6:30 p.m. This Special Meeting was called for the purpose of discussing Emergency Services.

David Williams, Nottoway County Emergency Squad, provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Supervisor Ingram moves to approve the agenda. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins states tonight’s discussion will deal in facts and will not mention names or identifiers. He asks Mr. Hyde to begin. A redacted call sheet regarding a specific emergency services call is distributed to attendees.

Supervisor Roark would like to note that Mr. Hyde, as Emergency Services Coordinator, is within his rights to have the report, that no HIPAA violation has occurred by him presenting this. Mr. Williams adds that generalized care can be discussed but without mention of individual patient names or care.

Mr. Hyde explains that page 1 of the report has call-taker input, page 2 shows times, and most of the notes are on the last page. David Williams would caution the Board regarding third-hand information, gossip, and innuendo when a citizen contacts them about an emergency medical services call. He explains that Dr. Eggleston, the County’s Operational Medical Director, reviews all calls of a certain nature, and he has reviewed all of those for the month of May.

Administrator Bowen asks Mr. Williams if this issue is outside the scope of the Board of Supervisors’ involvement noting again that Dr. Eggleston reviews all serious calls. Mr. Williams states that there is a line between clinical operations and financial operations, and there are legal concerns when discussing the clinical. Mr. Hyde, as Emergency Services Coordinator, has access to all call information. Administrator Bowen clarifies his question was so that all were aware that there is oversight for the County’s emergency medical services.

Chairman Collins explains that many citizens have concerns about the expense of the County’s funding emergency services, and yesterday a citizen brought a concern about a call which warranted today’s meeting.

Supervisor Roark reviews the timeline for the call in question, and Mr. Williams explains, in general terms, how a call of this nature would be conducted. It was suggested to Board members that no ALS provider was onboard, but Mr. Williams corrects that information as there was in fact an ALS provider staffed on the responding ambulance. To give explanation of how a call is conducted, Mr. Williams poses a hypothetical scenario, explaining protocols and how providers must adapt to patient changes.

June 1, 2025

Independently of each other, Mr. Williams and Dr. Eggleston performed a clinical review of the call in question, and neither found fault in the response. Dr. Eggleston is available by phone tonight should the Board wish to consult him.

Mr. Williams is actively recruiting to staff a second truck for the County. His goal is to hire three paramedics and three EMTs.

Supervisor Toth notes that a citizen brought forward a concern over the ambulance not being staffed at an ALS level. Hearing that, the Board felt a meeting was necessary.

Mr. Williams speaks to contracts in light of future 911 responsibilities. He then speaks to rumors of employee bonuses. NCES is not paying employee bonuses or recruiting bonuses. He is offering a stipend to his employees who refer an EMT/paramedic that results in a hire.

Supervisor Toth sees no need for a Closed Meeting. Supervisors Toth and Roark and Mr. Hyde will meet this week with the NCES Board.

E. B. Fisher has a copy of the current changes to the NCES Constitution for distribution.

Administrator Bowen confirms with the Board that the check to NCES is still to be written. The funds, previously approved by the Board, will be released tomorrow. Also, for transparency, he mentions to Mr. Williams that he has been in contact with ESS, not to make a move, but for further information.

Chairman Collins confirms with Ms. Douglass that HIPAA supersedes FOIA, so some of the Board's review of NCES business will not be for open discussion. He encourages the Supervisors to be mindful of that in the future.

The Board members having nothing further, Supervisor Toth moves to adjourn. A second is provided by Supervisor Ingram. Chairman Collins adjourns the meeting at 7:40 p.m.

Motion to Adjourn

C

AT A SPECIAL MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 29TH DAY OF MAY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR

At 7:00 p.m., Chairman Collins calls to order the special meeting to consider adoption of the Fiscal Year 2026 budget.

Damien Rowe provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Supervisor Roark moves to approve the agenda. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen summarizes the comments made by the eight citizens who spoke at last week's public hearing. One complimented the work of the present Board. One noted the Crewe fire department is still volunteer. One citizen suggested allowing hog farms as a source of revenue. Five citizens spoke against the tax hike. Supervisor Roark spoke against funding the Commonwealth's Attorney's administrative position and expressed concern over the extra \$2.1 million for school programs.

The Commonwealth's Attorney's position is a filled position, and Administrator Bowen reads the list of job duties for that position provided by Ms. Watrous.

Ms. Maier and Dr. Martin are present should the Board need clarification on the \$2.1 million. Supervisor Roark withdraws his concern about the school funds. Having spoken at length with Chairman Abbott as well as with Dr. Martin, his questions have been addressed.

Ms. Maier explains that the school bases its budget on a state published calc tool. There is SOQ funding which is the County's required local effort. Then there are other programs that are possible with a required local match. This year these other programs will be funded with an additional \$5 million from the State and a \$2.1 million match from the County.

Administrator Bowen reports of vandalism at Golubic Stadium and thanks Ms. Maier for helping secure a work crew from Piedmont Regional Jail to paint over it.

Vice Chair Norton moves to adopt the Nottoway County Budget for Fiscal Year ending June 30, 2026, totaling \$59,286,424.00 as presented; pending receipt of all outstanding Federal and State funding, and all obligated and committed funds to be carried over from the Fiscal Year ending June 30, 2025. Supervisor Roark provides a second for discussion.

Supervisor Roark questions who was present at Finance meetings to craft this budget. Vice Chair Norton, Supervisor Ingram, Administrator Bowen, Ms. Presley were present. Commissioner Hudson and Treasurer Raiford are part of the Finance Committee, but they were not present for those meetings specific to the FY26 budget. Morgan Quicke has been present at budget meetings.

Ordinances are in place, the NCES Board is being reworked, billing practices are changing, and they are considering staffing a third ambulance. Supervisor Roark considers what else

should be done in exchange for the additional funding of NCES. Should the County hold liens on titles or deeds, will they repay the County are among the questions to be answered by the new executive board. Supervisor Roark's understanding was that he, Supervisor Toth, and Mr. Hyde were to advise the Board of Supervisors but serve on the NCES Executive Board; Vice Chair Norton and Supervisor Toth agree with that assessment. The Board discusses having an MOU in place, approving funding requests as they come forward, and having an additional 24-hour ALS-staffed ambulance.

Various aspects of the budget are discussed, and it is noted that none of the revenue increase is to fund a new courthouse.

Supervisor Roark withdraws his second. A second to Vice Chair Norton's motion to adopt is then provided by Supervisor Toth. With a roll call vote, the motion carries as follows:

W. J. Collins	Aye
D. V. Norton	Aye
R. H. Ingram	Aye
J. A. Roark	Nay
G. G. Toth	Aye

Supervisor Roark moves for the adoption of the levies; Supervisor Toth provides a second. Upon further consideration, Supervisor Roark withdraws his motion to have the levies read aloud as part of the motion.

Supervisor Toth makes the motion to adopt the tax levies as advertised and presented for the fiscal year ending June 30, 2026, including:

- For General County Purposes on Real Estate at \$0.48 per \$100 valuation;
- For General County Purposes on Personal Property at \$4.12 per \$100 valuation;
- For the Fire Fund on Real Estate at \$0.02 per \$100 valuation;
- For the Fire Fund on Personal Property at \$0.18 per \$100 valuation;
- For the Emergency Services Fund on Real Estate at \$0.05 per \$100.00 valuation; and,
- For the Emergency Services Fund on Personal Property at \$0.45 per \$100 valuation.

A second is provided by Supervisor Roark.

Supervisor Roark then makes a competing motion to separate out certain items:

- For the Fire Fund on Real Estate at \$0.02 per \$100 valuation
- For the Fire Fund on Personal Property at \$0.10 per \$100 valuation
- For Emergency Services volunteers - one vehicle - \$0.00 per \$100.00 valuation

Supervisor Toth provides a second for discussion. Discussion follows, and it is mentioned that reducing those revenues means a greater pull from reserves. Administrator Bowen mentions these figures were presented in a worksession, and the Fire Departments have been gracious, realizing what is needed by the Emergency Squads. Adjustments can be made next year. Supervisor Toth withdraws his second, and the competing motion dies.

To Supervisor Toth's original motion to adopt the levies as advertised with Supervisor Roark's second, a roll call vote is taken, and the motion carries as follows:

W. J. Collins	Aye
D. V. Norton	Aye
R. H. Ingram	Aye
J. A. Roark	Nay
G. G. Toth	Aye

Supervisor Ingram moves to appropriate the Fiscal Year 2025-2026 Nottoway County Budget totaling \$59,286,424.00 including all outstanding purchase orders and committed funds; contingent upon receipt of all state and federal funding. A second is provided by Supervisor Toth. Following a roll call vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes

May 29, 2025

R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Vice Chair Norton would like the Board to have future discussions on senior citizen tax discounts. The lack of revenue could be offset by a solar company, and she has discussed the matter with a developer for her district. To those who are concerned they may lose their home due to the new tax increases, Vice Chair Norton has spoken with the Treasurer, and the taxes can be paid within three years.

Supervisor Ingram points out that no one wants to raise taxes, but the County is now faced with mandatory projects and no other funding options.

Supervisor Roark supports the emergency services but felt the budget and levies were too much for the citizens. He would like volunteers not to be assessed personal property taxes.

Supervisor Toth mentions that if real estate taxes are delinquent for three years, your property can be sold. The Board is working towards new revenue streams to avoid serious tax increases next year.

Chairman Collins states the Board is looking for sources of much-needed revenue. There have been recent economic development meetings with the state to discuss some possibilities.

Administrator Bowen addresses a meeting with Burkeville Rescue who is also struggling with paying EMTs. Zac Beares and Joey Schnepf were in attendance. The Fire Departments currently have volunteers, but they acknowledge they are only a few steps behind rescue in needing funding for paid staff. The departments are working well together, knowing what the County is facing. Supervisor Ingram reminds everyone of Chief Schutt's words that this is nobody's fault, and it is area-wide.

Supervisor Toth recognizes former Administrator Ronnie Roark who is in attendance.

Administrator Bowen updates on the courthouse project. There are two interested companies who come under the PPEA guidelines, and they do not want to meet in a public setting as their designs are proprietary. Stakeholders such as the Sheriff, court clerks, and Commonwealth's Attorney have met to discuss the County's needs, and the firms are nearing the time to discuss their concepts. There is a process that follows and includes an RFP. Each company that submits a proposal will provide a minimum of \$5,000 to cover review costs, refundable to those companies not chosen. Supervisor Ingram adds that the companies are protective of their information and do not want it released. There may be available grants, and the companies will help find those.

Chairman Collins announces that Lafayette Dickens is the new Mayor of Blackstone after a 7-0 vote by Town Council. Also, the Board was invited to a retirement reception for Dr. Grimes, Division Superintendent, June 2nd from 1:00 – 4:30 p.m. in the Mini Auditorium.

Supervisor Roark moves to adjourn. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins adjourns the meeting at 8:13 p.m.

All persons desiring to be heard on this matter are urged to be present on the date and hour aforementioned. A true and complete copy of the proposed fee schedule is available for public inspection during regular business hours at the County Administration Office, 344 W. Courthouse Road, Nottoway, VA 23955.

It is the intention of the Board of Supervisors to comply with the Americans with Disabilities Act. Should you need special accommodations, please contact the County Administration Office prior to 5:00 p.m. on Friday, July 11, 2025.

By Authority of the Board of Supervisors

Steve W. Bowen, County Administrator

Department of Planning and Economic Development

Director: Gregg Zody, AICP

gzody@nottoway.org

Office: 434-645-8696

PO Box 92

344 West Courthouse Road

Nottoway, Virginia 23955

STAFF REPORT

TO: Planning Commission
and Board of Supervisors

FROM: Gregg Zody, Director *GZ*

DATE: June 10th, 2025

SUBJECT: Special Exception Request for Manufactured Home

BACKGROUND

Applicant/Property Owner

Sylvester and Mildred Green, 253 Three Oaks Road, Nottoway, Virginia 23955

Request

Applicant seeks to remove the existing residence at 253 Three Oaks Road and replace it with a double-wide manufactured home on tax map #31-86. The subject site is approximately two acres.

ANALYSIS

Zoning/Land Use Compatibility

The site is zoned Conservation (C-1), as are all adjacent properties adjacent to the site. The railroad lies to the north, and all adjacent land uses are single-family residential. The proposed site has an existing well and a septic sewer system.

COMPREHENSIVE PLAN

The General Future Land Use Map identifies this area as Conservation and states the following on page 93, under “Special Policy Areas, B. Loss of Agricultural Land and Open Space”:

[...]

The current zoning map in Section IV shows areas designated for residential, commercial, industrial, agricultural, and conservation uses in the County. A challenge for the County will be to accommodate future growth demands in a planned manner that provides for the conservation of important resources. The future land use map in Section IV denotes areas for future residential, commercial and industrial development that are either in areas where adequate public services (including water and sewer) exist or in close proximity to such services. Any development that does occur in the rural areas should be designed to incorporate significant open spaces and designed to minimize environmental impacts on the land and water resources.

Any future growth and development patterns must provide both requirements and incentives for the conservation of land. Nottoway County’s zoning ordinances outline minimum lot sizes for different uses – and in some cases, minimum district sizes. For residential uses, the ordinances stipulate requirements for either the provision of private water and sewer or access to public or community water and sewer service. Environmental impacts of any newly planned development area should be considered. It is essential to maintain a balance between development and preservation objectives throughout the County. An educational and programmatic approach in conjunction with land conservation should be initiated to encourage property owners to limit development. Incentives can be offered for appropriate conservation and environmental design.

Sec. 5-5-2(8) SPECIAL EXCEPTION - ISSUES FOR CONSIDERATION

In considering a Special Exception Permit application, the following factors shall be given reasonable consideration. The applicant shall address all the following in its statement of justification or Special Exception Permit plat unless not applicable, in addition to any other standards imposed by this Ordinance: *Staff Responses are italicized.*

- 1) Whether the proposed Special Exception Permit is consistent with the Comprehensive Plan.

The Conservation future land use designation supports this request.

- 2) Whether the proposed Special Exception Permit will adequately provide for safety from fire hazards and have effective measures of fire control.

Yes. The home will be inspected to ensure it applies to building code and issued a certificate of occupancy. In addition, the site is located with three miles of the Crewe Fire Department station and the Nottoway County Rescue Squad station.

- 3) The level and impact of any noise emanating from the site, including that generated by the proposed use, in relation to the uses in the immediate area.

No noise is anticipated from the home other than typical noises generated by a single-family home.

- 4) The glare or light that may be generated by the proposed use in relation to uses in the immediate area.

None anticipated.

- 5) The proposed location, lighting and type of signs in relation to the proposed use, uses in the area, and the sign requirements of this Ordinance.

The site will comply with setbacks for the Conservation zoning district, which is 100 feet from the front property line; fifty feet from the side (for a primary use – accessory uses require a fifteen-foot setback; and seventy feet from the rear property line. No signage is anticipated.

- 6) The compatibility of the proposed use with other existing or proposed uses in the neighborhood, and adjacent parcels.

This use blends with adjacent single-family residences.

- 7) The location and area footprint with dimensions (all drawn to scale), nature and height of existing or proposed buildings, structures, walls, and fences on the site and in the neighborhood.

The footprint is planned to occupy the approximate space occupied by the family's single-family home, as the current structure will be demolished (with an approved demolition permit) before the placement of the manufactured home.

- 8) The nature and extent of existing or proposed landscaping, screening and buffering on the site and in the neighborhood.

The site has vegetative screening to the west and south, although single-family structures are not required to install screening or buffering.

- 9) The timing and phasing of the proposed development and the duration of the proposed use.

No phasing is proposed, although the existing structure will need to be demolished prior to the placement of the manufactured home.

- 10) Whether the proposed Special Exception Permit will result in the preservation or destruction, loss or damage of any topographic or physical, natural, scenic, archaeological or historic feature of significant importance.

The proposed site is already cleared. No known unique habitat nor historical features are present.

- 11) Whether the proposed Special Exception Permit at the specified location will contribute to or promote the welfare or convenience of the public. Having said that, there are at least three inoperable vehicles that shall be removed prior to the issuance of an occupancy

This proposal will replace an older structure with a new manufactured home. The threat to the welfare and convenience of the public in this case should be minimal.

- 12) The traffic expected to be generated by the proposed use, the adequacy of access roads, and the vehicular and pedestrian circulation elements (on and off-site) of the proposed use, all in relation to the public's interest in pedestrian and vehicular safety, efficient traffic movement and access in case of fire or catastrophe.\

This use will generate approximately 8-10 vehicle trips per day as a residential use and VDOT. VDOT has no objection to the application (letter dated June 5, 2025).

- 13) Whether, in the case of existing structures proposed to be converted to uses requiring a Special Exception Permit, the structures meet all code requirements of Nottoway County.

N/A.

- 14) Whether the proposed Special Exception Permit will be served adequately by essential public facilities and services.

The site is served by VDH-approved well and septic systems.

- 15) The effect of the proposed Special Exception Permit on groundwater supply.

No negative effects on the groundwater are anticipated for this use.

- 16) The effect of the proposed Special Exception Permit on the structural capacity of the soils.

No adverse effects on the structural capacity of the soils are expected.

- 17) Whether the proposed use will facilitate orderly and safe road development and transportation.

The June 5, 2025, VDOT review stated they were okay for the applicants to use the existing drive for the request.

- 18) The effect of the proposed Special Exception Permit on environmentally sensitive land or natural features, wildlife habitat and vegetation, water quality, and air quality.

Minimal effects. The site contains no wetlands or floodplains.

- 19) Whether the proposed Special Exception Permit use will provide desirable employment and enlarge the tax base by encouraging economic development activities consistent with the Comprehensive Plan.

The only revenue expected to be generated from this use will be property tax revenue.

- 20) Whether the proposed Special Exception Permit considers the needs of agriculture, industry, and businesses in future growth.

The site is zoned Conservation, which does allow agricultural activity as a by-right permitted use.

- 21) The effect of the proposed Special Exception Permit use in enhancing affordable shelter opportunities for residents of the County.

This proposal provides enhanced affordable shelter opportunities if the applicant chooses to rent it.

- 22) The location, character, and size of any outdoor storage.

There appears to be outdoor storage on the southwest corner of the site. There are also approximately three vehicles (inoperable) that will need to be removed prior to the issuance of a certificate of occupancy. Whether the structure lies within the parcel's boundaries is undetermined at this time.

- 23) The proposed use of open space.

Use will more than likely remain residential open space.

- 24) The location of any major floodplain and steep slopes.

None.

- 25) The location and use of any existing nonconforming uses and structures.

The current residence will be demolished, and the new home must meet the setbacks required in the Conservation zoning district.

- 26) The location and type of any fuel and fuel storage.

None identified by the applicant.

- 27) The location and use of any anticipated accessory uses and structures.

None identified by the applicant.

- 28) The area of each use, if appropriate.

N/A.

- 29) The proposed days/hours of operation.

N/A.

- 30) The location and screening of parking and loading spaces and/or areas.

N/A.

- 31) The location and nature of any proposed security features and provisions.

N/A.

- 32) The number of employees.

N/A.

- 33) The location of any existing and/or proposed adequate on- and off-site infrastructure.

On-site infrastructure includes electrical service, a well, and a septic system. They should be located at or near the existing home site.

- 34) Any anticipated odors which may be generated by the uses on-site.

No odors anticipated.

- 35) Whether the proposed Special Exception Permit uses sufficient measure to mitigate the impact of construction traffic on existing neighborhoods and school areas.

The site is less than one mile from Old Nottoway Road (US 460 Business)

- 36) Refuse and service areas, with reference to the items in (1) and (2) of this subsection.

N/A.

- 37) Utilities, with reference to location, availability and compatibility.

Electrical power will connect to the same general location.

AGENCY COMMENTS

From VDOT

The Virginia Department of Transportation, Southern Region Land Development Office has reviewed the rezoning application dated 5-14-25 received at the Petersburg Residency on 5-30-25 and is providing the following comments for the County's use:

1. Route 694 Three Oaks Road has a functional classification of local road, a statutory speed limit of 55 MPH and an average annual daily traffic (AADT) of 80 vehicles per day.

2. A private entrance will be required to provide access to the proposed mobile home. VDOT has not determined if the existing entrance is sufficient for the proposed use.

3. ~~VDOT has not objection to the submitted rezoning application.~~

STAFF RECOMMENDATION

Staff recommends approval of the special exception request subject to the following conditions:

1. This special exception is granted for a manufactured home upon applying for and receiving a demolition permit before new construction/placement can commence.
2. This special exception may be revoked by Nottoway County or its designated agent for failure to comply with any of the listed or amended conditions established by staff or the Planning Commission.
3. Well and Septic Permits issued by the Virginia Department of Health prior to occupancy of the mfg. home (i.e., Occupancy Permit).
4. Applicant shall secure a driveway permit through the Virginia Department of Transportation.
5. The four inoperable vehicles on site shall be removed prior to the issuance of the Occupancy Permit.

STAFF REPORT

TO: Planning Commission
and Board of Supervisors

FROM: Gregg Zody, Director *GZ*

DATE: July 8th, 2025

SUBJECT: Special Exception Request for Manufactured Home

BACKGROUND

Applicant/Property Owner

Barry and Nola Johnson, 10101 Oak Creek Lane, Amelia, Virginia.

Request

Applicant seeks to place a manufactured home at tax map # 50-66, located on the west side of Brunswick Road, .10 mile north of the intersection with Mill Road. The subject parcel is zoned Conservation and contains approximately 2.16 acres.

ANALYSIS

Zoning/Land Use Compatibility

The site is zoned Conservation (C-1), as are all adjacent properties adjacent to the site. Adjacent land uses include single-family residences, forested, and agricultural uses. The subject site is

relatively level and wooded. No other structures were identified by staff while conducting the site visit.

COMPREHENSIVE PLAN

The General Future Land Use Map identifies this area as Conservation and states the following on page 93, under “Special Policy Areas, B. Loss of Agricultural Land and Open Space”:

[...]

The current zoning map in Section IV shows areas designated for residential, commercial, industrial, agricultural, and conservation uses in the County. A challenge for the County will be to accommodate future growth demands in a planned manner that provides for the conservation of important resources. The future land use map in Section IV denotes areas for future residential, commercial and industrial development that are either in areas where adequate public services (including water and sewer) exist or in close proximity to such services. Any development that does occur in the rural areas should be designed to incorporate significant open spaces and designed to minimize environmental impacts on the land and water resources.

Any future growth and development patterns must provide both requirements and incentives for the conservation of land. Nottoway County's zoning ordinances outline minimum lot sizes for different uses – and in some cases, minimum district sizes. For residential uses, the ordinances stipulate requirements for either the provision of private water and sewer or access to public or community water and sewer service. Environmental impacts of any newly planned development area should be considered. It is essential to maintain a balance between development and preservation objectives throughout the County. An educational and programmatic approach in conjunction with land conservation should be initiated to encourage property owners to limit development. Incentives can be offered for appropriate conservation and environmental design.

Sec. 5-5-2(8) SPECIAL EXCEPTION - ISSUES FOR CONSIDERATION

In considering a Special Exception Permit application, the following factors shall be given reasonable consideration. The applicant shall address all the following in its statement of justification or Special Exception Permit plat unless not applicable, in addition to any other standards imposed by this Ordinance: *Staff Responses are italicized.*

- 1) Whether the proposed Special Exception Permit is consistent with the Comprehensive Plan.

The Conservation future land use designation supports this request.

- 2) Whether the proposed Special Exception Permit will adequately provide for safety from fire hazards and have effective measures of fire control.

Yes. The home will be inspected to ensure it complies with the building code, and a certificate of occupancy will be issued. Additionally, the site is located within two miles of the Blackstone Volunteer Fire Department, located on Church Avenue.

- 3) The level and impact of any noise emanating from the site, including that generated by the proposed use, in relation to the uses in the immediate area.

No noise is anticipated from the home other than typical noises generated by a single-family home.

- 4) The glare or light that may be generated by the proposed use in relation to uses in the immediate area.

None anticipated.

- 5) The proposed location, lighting and type of signs in relation to the proposed use, uses in the area, and the sign requirements of this Ordinance.

No signage proposed at this time beyond an address blade.

- 6) The compatibility of the proposed use with other existing or proposed uses in the neighborhood, and adjacent parcels.

This use blends with adjacent single-family residences to the north and south of the site.

- 7) The location and area footprint with dimensions (all drawn to scale), nature and height of existing or proposed buildings, structures, walls, and fences on the site and in the neighborhood.

The plans for this structure will be submitted upon approval of this request.

- 8) The nature and extent of existing or proposed landscaping, screening, and buffering on the site and in the neighborhood.

Currently, the site is wooded.

- 9) The timing and phasing of the proposed development and the duration of the proposed use.

No phasing is proposed as the application request is for a manufactured home.

- 10) Whether the proposed Special Exception Permit will result in the preservation or destruction, loss or damage of any topographic or physical, natural, scenic, archaeological or historic feature of significant importance.

According to the plat, a cemetery appears to be located on the subject parcel.

- 11) Whether the proposed Special Exception Permit at the specified location will contribute to or promote the welfare or convenience of the public.

The threat to the welfare and convenience of the public in this case should be minimal. The request does add another unit to the County's housing inventory.

- 12) The traffic expected to be generated by the proposed use, the adequacy of access roads, and the vehicular and pedestrian circulation elements (on and off-site) of the proposed use, all in relation to the public's interest in pedestrian and vehicular safety, efficient traffic movement and access in case of fire or catastrophe.\

A single-family dwelling generates approximately 8-10 vehicle trips per day (VTD).

There are no sidewalks in this area, and VDOT will determine the safest location for a driveway that accommodates both construction and residential use without compromising visibility for existing and future vehicular traffic.

- 13) Whether, in the case of existing structures proposed to be converted to uses requiring a Special Exception Permit, the structures meet all code requirements of Nottoway County.

N/A.

- 14) Whether the proposed Special Exception Permit will be served adequately by essential public facilities and services.

The site is served by VDH-approved well and septic systems.

- 15) The effect of the proposed Special Exception Permit on groundwater supply.

No negative effects on the groundwater are anticipated for this use.

- 16) The effect of the proposed Special Exception Permit on the structural capacity of the soils.

No adverse effects on the structural capacity of the soils are expected.

- 17) Whether the proposed use will facilitate orderly and safe road development and transportation.

No response from VDOT at this time.

- 18) The effect of the proposed Special Exception Permit on environmentally sensitive land or natural features, wildlife habitat and vegetation, water quality, and air quality.

Minimal impacts. The site contains no wetland areas or floodplains.

- 19) Whether the proposed Special Exception Permit use will provide desirable employment and enlarge the tax base by encouraging economic development activities consistent with the Comprehensive Plan.

The only revenue expected to be generated from this use will be property tax revenue.

- 20) Whether the proposed Special Exception Permit considers the needs of agriculture, industry, and businesses in future growth.

The site is zoned Conservation, which does allow agricultural activity as a by-right permitted use.

- 21) The effect of the proposed Special Exception Permit use in enhancing affordable shelter opportunities for residents of the County.

This proposal provides enhanced affordable shelter opportunities if the applicant chooses to rent it.

- 22) The location, character, and size of any outdoor storage.

None.

- 23) The proposed use of open space.

Use will more than likely remain residential open space.

- 24) The location of any major floodplain and steep slopes.

None.

- 25) The location and use of any existing nonconforming uses and structures.

None visible from the public right of way.

- 26) The location and type of any fuel and fuel storage.

None identified by the applicant.

- 27) The location and use of any anticipated accessory uses and structures.

None identified by the applicant.

- 28) The area of each use; if appropriate.

N/A.

- 29) The proposed days/hours of operation.

N/A.

- 30) The location and screening of parking and loading spaces and/or areas.

N/A.

- 31) The location and nature of any proposed security features and provisions.

N/A.

- 32) The number of employees.

N/A.

- 33) The location of any existing and/or proposed adequate on- and off-site infrastructure.

None.

- 34) Any anticipated odors which may be generated by the uses on-site.

No odors anticipated.

- 35) Whether the proposed Special Exception Permit uses sufficient measure to mitigate the impact of construction traffic on existing neighborhoods and school areas.

The site has road frontage on Brunswick Road.

- 36) Refuse and service areas, with reference to the items in (1) and (2) of this subsection.

N/A.

- 37) Utilities, with reference to location, availability and compatibility.

Electrical power will connect to the same general location.

FROM: Gregg Zody, Director **GZ**

DATE: June 10, 2025

SUBJECT: Conditional Rezoning Request, Tax Map #17-93

OWNER INFORMATION

Applicant/Property Owner

Shawn and Kathy Haney, 884 Inverness Road, Burkeville, VA 23922

REQUEST SYNOPSIS

The site, containing approximately 316 acres, is split zoned, Rural Residential (RR) and Conservation (C-1). The applicants are seeking to rezone the entire site to C-1, as it is currently an active farm and is taxed as such (i.e. land use valuation), which is permitted in C-1 but not in RR.

The area zoned RR lies north of Mallory Creek and contains most of the agricultural activity. There is a parcel attached to this property on the lower east side of Lewiston Plank Road, and it is zoned C-1, as are all adjacent properties

The site is bordered on the west side by the Town of Burkeville (notified) and to the east on

Lewiston Plank Road, lies the Crewe boundary (notified).

ANALYSIS

Zoning/Land Use Compatibility – containing approximately 316 acres. Most of the property is currently zoned Rural Residential (RR), and the applicants are seeking approval to rezone the property to Conservation. This is an atypical request given that the historic use (Agnew site) has been agricultural for over a century. Furthermore, the property also contains C-1 zoning on the south side of Mallory Creek and on the east side of Lewiston Plank Road, totaling approximately 65 acres. The property also crosses Inverness Road, containing approximately 2.5 acres located on the east side of the Dominion Substation. The property has been enrolled in the land use program since they purchased in 2000.

As such, the property has one easement, the first is a historic preservation easement, which was established on February 23, 2000, through the National Trust for Historic Preservation (Please see Exhibit 5 (Deed)). Broadly speaking, the historic conservation easement is very restrictive, and residential development options are very limited if the Haney's continue to own the property.

Adjacent Uses – The general vicinity of the subject site encompasses a diverse range of uses. To the east is the Nottoway Correctional Facility, located within the Town of Crewe corporate limits, and is an adjacent property owner (an adjacent property owner notified via the Commonwealth of Virginia). The former Burkeville Elementary School lies to the west of the site within the Town of Burkeville. The Nottoway County School Board is also an adjacent property owner and was notified of this request.

Other adjacent uses include a Dominion Substation on the north side of Inverness Road, adjacent to a small parcel tied to the site. Most adjacent uses along Inverness Road – primarily the north side- contain small tracts of land with residential structures on them. There are some residences located adjacent to the site on Lewiston Plank Road, which are zoned C-1 and agricultural uses. Old Plank Road is situated adjacent to the site, with residences and farmland nearby.

COMPREHENSIVE PLAN

Regarding Conservation policies in the Comprehensive Plan:

V. Special Policy Areas

A. Introduction

This section of the Comprehensive Plan presents information on a variety of community special policy areas that emerged during the plan development process. These special policy areas were identified from Working Committee discussions, the community meeting, the citizen surveys, and research of the County's demographic data. In developing these special policy areas, it is the goal that this plan assists Nottoway County in planning for future growth and development. It is also a goal that the Plan contain specific information to assist and better guide month-to-month decision making on issues/requests such as rezoning and special permit requests to the Board of Supervisors.

For each policy area, a brief discussion is presented followed by one or more recommendations to assist the County in decision making as it pertains to the timing, location and character of future development in the County. The information contained in this section has provided the basis for some of the goals, objectives and strategies in the following section.

B. Loss of Agricultural Land and Open Space

As Nottoway County starts to experience residential, commercial and industrial growth, there will be increased pressure on the County's open spaces, and agricultural and forested areas, as developers look for land to develop for these uses. Once population growth starts to take hold in the County, increases in agricultural and forestal land values, the aging of agricultural landowners, provision (or lack thereof) of planned growth areas, and the level of development regulations and the suitability of agricultural and forestal lands for development could all affect open space and resources in the County. In fact, according to the 2017 U.S. Census of Agriculture, Nottoway County saw a decrease of more than 11,000 acres of farmland between 2012 and 2017.

The current zoning map in Section IV shows areas designated for residential, commercial, industrial, agricultural, and conservation uses in the County. A challenge for the County will be to accommodate future growth demands in a planned manner that provides for the conservation of important resources. The future land use map in Section IV denotes areas for future residential, commercial and industrial development that are either in areas where adequate public services (including water and sewer) exist or in close proximity to such services. Any development that does occur in the rural areas should be designed to incorporate significant open spaces and designed to minimize environmental impacts on the land and water resources.

Any future growth and development patterns must provide both requirements and incentives for the conservation of land. Nottoway County's zoning ordinances outline minimum lot sizes for different uses – and in some cases, minimum district sizes. For residential uses, the ordinances stipulate requirements for either the provision of private water and sewer or access to public or community water and sewer service. Environmental impacts of any newly planned development area should be considered. It is essential to maintain a balance between development and preservation objectives throughout the County. An educational and programmatic approach in conjunction with land conservation should be initiated to encourage property owners to limit development. Incentives can be offered for appropriate conservation and environmental design.

Recommendations – The Nottoway County Planning Commission and Nottoway County Board of Supervisors, through the adoption of this Comprehensive Plan, should state their commitment to agricultural and forestal land preservation objectives. Tools most commonly used to influence the timing and location of growth are zoning, subdivision standards, use value assessments and taxation, and public facility decisions. Other tools and programs available to agricultural and rural property owners who wish to take steps to preserve their land holdings generally involve a partnership between the landowner and a governmental agency. Land conservation tools such as conservation easements, Purchase of Development Rights programs, and other tax incentive programs may be used to encourage minimal development in these areas. There are agencies that

provide these and other voluntary programs. These agencies change from year to year and may or may not have funding. They include:

- Piedmont Soil and Water Conservation District (serving Amelia, Nottoway and Prince Edward (Counties): <https://piedmontswcd.org/>
- Virginia Department of Forestry: <https://dof.virginia.gov/>
- Virginia Cooperative Extension, Nottoway County Office: <https://nottoway.ext.vt.edu>

Commercial and/or industrial developments that are approved in the rural portions of the County should be consistent with the best interests of the community. The County and Towns should investigate the use of the aforementioned easements and other preservation tools and be willing to provide information to property owners who wish to pursue a particular preservation strategy. As the County revises its zoning and subdivision ordinances, consideration should be given to including provisions to require and/or allow for the use of cluster housing and other conservation design techniques. Another consideration for the County as it amends its ordinances is the addition of Agricultural/Forestal Districts. Under the Code of Virginia, Section 15.2-4301, Agricultural and Forestal Districts are meant to “conserve and protect and to encourage the development and improvement of the Commonwealth's agricultural and forestal lands for the production of food and other agricultural and forestal products” and to “conserve and protect agricultural and forestal lands as valued natural and ecological resources which provide essential open spaces for clean air sheds, watershed protection, wildlife habitat, as well as for aesthetic purposes.”

The County should support the activities of local land trusts and other environmental organizations in their efforts to voluntarily preserve critical agricultural and open spaces in the area. The County should also work closely with the appropriate government agencies to ensure that private timbering operations in the County are undertaken using approved techniques in an environmentally sensitive manner.

Regarding Commercial and Industrial Development from the Comprehensive Plan

V. Special Policy Areas

[....]

E. Corridor Development

The U.S. 460 Corridor between Burkeville and Crewe was identified during the community meeting as an area to concentrate future development. The future land use map in Section IV identifies this area for future business development. Additionally, portions of the U.S. 360 Corridor around Burkeville have been targeted for future business and industrial uses.

Where road frontage development exists, it is primarily scattered residential and limited business use. These road corridors are critically important in two respects. First, as major points of access for the County and its Towns, it is essential that these roads maintain a high level of service. Future development along these roads should be planned and designed to ensure that the safety

and capacity of these roads are maintained and managed. Second, as gateways to the County and its Towns, these roads create first impressions to visitors coming into the area. The views and character of development are visible from the roadways. Maintenance and enhancement of these gateways can be critical to the success of the economic development and marketing activities in not just Nottoway County, but the Towns as well.

Recommendations – A few steps can ensure proper development along these corridors. The County should work closely with the Virginia Department of Transportation to evaluate and amend the its zoning and subdivision ordinances to ensure that uses allowed along these corridors are consistent with planned land uses. Additionally, the County should work with developers and the Towns to evaluate and/or amend the access provisions in its ordinances to ensure that new developments along these corridors are provided adequate access to infrastructure (roads, utilities) and unnecessary or dangerous access points are not permitted. A third step would be to evaluate future rezoning and special permit exception requests along these corridors with access plans and any traffic impacts resulting from the proposed use(s) in mind.

AGENCY COMMENTS

The Virginia Department of Transportation has no objections to the rezoning application (Letter dated 6/5/25).

STAFF RECOMMENDATION

In the near future, the property owners wish to continue the long-standing tradition of operating their farm activities, while seeking a special exception use for solar development on approximately 40 acres of land in the southern portion of the property, located just north of Mallory Creek.

Staff recommends that the Planning Commission and Board of Supervisors approve the rezoning based on the historical character of the district and the preponderance of the pre-existing, non-conforming agricultural uses.

THIS DEED OF GIFT, made and entered into this 23rd day of February, 1995, by and between LILLIAN A. LEATH, widow, GRANTOR, and NATIONAL TRUST FOR HISTORIC PRESERVATION IN THE UNITED STATES, a congressionally chartered Non-Profit Corporation with offices seated at 1785 Massachusetts Avenue, N.W., Washington, D.C. 20036, GRANTEE.

W I T N E S S E T H

THAT for and in consideration of the charitable affection that the Grantor has and holds unto the Grantee, the Grantor doth hereby BARGAIN, SELL, GRANT and CONVEY with General Warranty of Title and English Covenants of Title in fee simple, subject however to the life estate reserved for J. Perkins Agnew as hereafter described, by this Deed of Gift, unto National Trust for Historic Preservation in the United States, all the following described property, to-wit:

ALL OF THAT certain tract or parcel of land lying and being in Haytokah Magisterial District of Nottoway County, Virginia, east of the corporate limits of the Town of Burkeville, estimated to contain 321 acres but sold in the gross and not by the acre, bounded and described as follows:

On the north by State Highway #624, being the old road from Burkeville to Crewe, on the east by the lands of J. T. Morgan, Jr. (formerly Dodson), lands now or formerly owned by Herman Shutt, on the south by lands now or formerly owned by Jimmy Knight, E. C. Purcell and others, on the west by lands now or formerly owned by E. J. Agnew, the Nottoway County School Board, and J. E. Osborne, being all of the land of which James Stuart Agnew died, seized and possessed, save and except such portion thereof as has been sold and conveyed to others and including the unsold portion of a parcel of land conveyed to J. P. Agnew and William T. Agnew by John A. Dodson and wife by Deed dated January 18, 1952 and recorded in the Circuit Court Clerk's Office of Nottoway

County in Deed Book 118, page 379, less however such portion of said 75 acres as is included in the description contained in a Deed from J. Perkins Agnew and wife and William T. Agnew and wife to J. T. Morgan, Jr. dated November 10, 1958 and recorded in Deed Book 145, page 423, in which Deed it was estimated that 55 acres of Dodson land was conveyed by said Deed which would leave 20 acres of said Dodson land but all of the remainder of said Dodson land it is intended to be included in this Deed, reference being made to all of the aforesaid conveyances for a more particular description of that portion of the land acquired from Dodson which is intended to be included in this conveyance.

AND BEING the same property conveyed to Lillian Agnew Leath by Deed dated September 1, 1968 from Elizabeth B. Agnew, et als, of record in the Clerk's Office of the Circuit Court of Nottoway County, Virginia in Deed Book 179, page 706.

The above described property is conveyed SAVE AND EXCEPT that property described in the Deed of Grantor to the Commonwealth of Virginia dated August 9, 1983, and recorded in Book 230, Page 235 in the Circuit Court Clerk's Office of Nottoway County, Virginia.

The above description is intended to include, whether specifically described or not, all property owned by Lillian A. Leath in Nottoway County, Virginia, as of the date of this conveyance.

Real estate taxes for 1995 shall be paid by the Grantor.

IT IS expressly understood that this gift conveyance from the Grantor unto the Grantee is unrestricted and with the exception of the life estate reserved for J. Perkins Agnew as hereafter described, the Grantee shall be entitled to use the said property, sell the said property, encumber the said property or otherwise transfer any or part of the said property, without restriction, and without limitation in regard to the investment of any proceeds received from the said sale, transfer, encumbrance or otherwise.

However, this conveyance is expressly made subject to the

reservation of a life estate for and during the natural life of J. Perkins Agnew, brother of the Grantor, upon the terms and conditions as set forth in Exhibit A attached hereto, for and during the term of the natural life of J. Perkins Agnew.

THAT this deed is exempt from recordation taxes under Section 58.1-810 of the Code of Virginia of 1950, as amended.

WITNESS the following signature and seal.

Lillian A. Leath (SEAL)
LILLIAN A. LEATH

STATE OF NORTH CAROLINA
COUNTY OF GUILFORD, to-wit:

I, Joyce B. Olmstead, a Notary Public in and for the State at Large, do hereby certify that LILLIAN AGNEW LEATH, widow, did personally appear before me and did execute and acknowledge the foregoing Deed of Gift dated February 23, 1995, in my said jurisdiction on this 23rd day of February, 1995.

Joyce B. Olmstead
Notary Public

My Commission Expires: 11/4/97

EXHIBIT A

Grantor reserves for J. Perkins Agnew (hereinafter "life tenant") the exclusive possession, use and enjoyment of the rents, issues, and profits of the above-granted lands and premises for and during the natural lifetime of J. Perkins Agnew, or until J. Perkins Agnew ceases to make said lands and premises his principal residence, whichever first occurs, subject, however, to the eight (8) covenants and conditions hereinafter set forth.

Grantor agrees that, for and during the life tenancy, she and J. Perkins Agnew shall:

1. Maintain and keep in good repair and condition said lands and premises.
2. Not commit or permit waste.
3. Be solely responsible for all expenses, and ordinary and extraordinary repairs.
4. Pay all taxes, liens and assessments accruing during said life tenancy.
5. Retain (where possible) full value fire and property damage insurance issued by a reputable company, such insurance to name National Trust for Historic Preservation in the United States (National Trust) as its interest may appear.
6. Provide National Trust with credible proof at least annually that said insurance premiums, taxes, liens and assessments (if any) have been fully paid.
7. Maintain adequate bodily injury and property damage liability insurance in a responsible company, with such policy or policies to include the National Trust as an additional insured.
8. Indemnify and hold harmless the National Trust from and against any and all claims, suits, damages, costs, losses, and expenses which may result from or arise out of life tenant's, his invitees, licensees and guests or others' use and occupancy of the lands and premises hereby conveyed.

In the event Grantor or life tenant fails to pay taxes or other claims, suits, costs, and other expenses after any such expense has become due and payable and a lien against the property, or if life tenant vacates said lands and premises for one continuous year, the life tenancy hereby reserved may be terminated by National Trust under a power of termination in the nature of a

BOOK 288 PAGE 690

right of entry for condition broken or executory interest, which right, if exercised by National Trust, is exercised by mailing a notice of violation by certified mail to the last known address of Grantor and life tenant. Said notice shall declare that the power of termination has been exercised and shall state the breach which caused the action. A copy of the notice shall subsequently be recorded in the appropriate land records if Grantor or life tenant has not within 30 days of delivery of said notice of violation cured the breach or provided satisfactory evidence that the premises are not abandoned.

Entry by National Trust at the termination of the reserved life estate, in whichever manner terminated, shall not release said Grantor, life tenant, his/her heirs, successors and assigns, from any claim or action National Trust may have.

DEED OF PRESERVATION AND CONSERVATION EASEMENT

THIS DEED OF PRESERVATION AND CONSERVATION EASEMENT, made this 29th day of February, 2000, by and between K. SHAWN HANEY and KATHERINE S. HANEY (the "Grantor") and the NATIONAL TRUST FOR HISTORIC PRESERVATION IN THE UNITED STATES (the "Grantee"), a congressionally chartered nonprofit corporation with offices in Washington, D.C.

WITNESSETH:

WHEREAS, Grantor is owner in fee simple of certain real property located on Route 624 in the Town of Burkeville, County of Nottoway, and Commonwealth of Virginia, commonly known as "Inverness", more particularly described in Exhibit A attached hereto and incorporated herein (hereinafter the "Property"), said Property including the following structures:

the principal residence constructed of wood dating from 1801 with additions and changes dating from the late 19th and early 20th centuries (hereinafter the "Main Residence"); and additional ancillary structures, including dairy barns, offices, and other farm buildings (hereinafter the "Ancillary Structures").

WHEREAS, the Property has significant undeveloped open space, including fields and forests that constitute agricultural and open space resources and that contribute to the setting, context, and the public's view of the Property;

WHEREAS, Grantee is exempt from taxation pursuant to 26 U.S.C.A. §501(c)(3), has maintained a principal office in Virginia for over five years, and is authorized to accept preservation and conservation easements to protect property significant in national and state history and culture under the provisions of the Virginia Conservation Easement Act, Va. Code Ann. §§ 10.1-1009 to 10.1-1016, 10.1-2207 (hereinafter the "Act");

WHEREAS, Grantee is a publicly supported, tax-exempt, nonprofit organization whose primary purposes include the preservation and conservation of sites, buildings, and objects of national significance and is a qualifying recipient of qualified conservation contributions under Section 170(h) of the Internal Revenue Code of 1986, as amended, and the regulations thereunder (hereinafter, the "Code");

WHEREAS, the Main Residence is a significant example of historic architecture in Virginia, illustrates aesthetics of design and setting, and possesses integrity of materials and workmanship;

WHEREAS, because of its architectural, historic, and cultural significance the Property was listed in the Virginia Landmarks Register on September 15, 1999 and was listed in the National Register of Historic Places on December 22, 1999;

WHEREAS, Grantor and Grantee recognize the architectural, historic, and cultural values (hereinafter "conservation and preservation values") and significance of the Property, and have the common purpose of conserving and preserving the aforesaid conservation and preservation values and significance of the Property;

WHEREAS, the Property's conservation and preservation values are documented in a set of reports, maps, and photographs noted in Exhibit B (hereinafter, "Baseline Documentation"), incorporated herein by reference, which Baseline Documentation the parties agree herein provides an accurate representation of the Property as of the effective date of this grant. In the event of any discrepancy between the two counterparts produced, the counterpart retained by Grantee shall control;

WHEREAS, the grant of a preservation and conservation easement by Grantor to Grantee on the Property will assist in preserving and maintaining the Property and its architectural, historic, natural and cultural features for the benefit of the people of the Town of Burkeville, the Commonwealth of Virginia, and the United States of America;

WHEREAS, to that end, Grantor desires to grant to Grantee, and Grantee desires to accept, a preservation and conservation easement (hereinafter, the "Easement") in gross in perpetuity on the Property pursuant to the Act.

NOW, THEREFORE, in consideration of Ten Dollars (\$10.00) and other good and valuable consideration, receipt of which is hereby acknowledged, and pursuant to the Virginia Conservation Easement Act, Va. Code Ann. §§ 10.1-1009 to 10.1-1016, 10.1-2207, Grantor does hereby voluntarily grant and convey unto the Grantee a preservation and conservation easement in gross in perpetuity over the Property described in Exhibit A.

PURPOSE

1. **Purpose.** It is the Purpose of this Easement to assure that the architectural, historic, natural, cultural, and associated open space features of the Property will be retained and maintained forever substantially in their current condition for conservation and preservation purposes and to prevent any use or change of the Property that will significantly impair or interfere with the Property's conservation and preservation values (the "Purpose").

GRANTOR'S COVENANTS

2.1 **Grantor's Covenants: Covenant to Maintain.** Grantor agrees at all times to maintain the Main Residence and Ancillary Structures (the "Buildings") in the same structural condition and state of repair as that existing on the effective date of this Easement. Grantor's obligation to maintain shall require replacement, repair, and reconstruction by Grantor whenever

necessary to preserve the buildings in substantially the same structural condition and state of repair as that existing on the date of this Easement. Grantor's obligation to maintain shall also require that the Property's landscaping be maintained in good appearance with substantially similar plantings, vegetation, and natural screening to that existing on the effective date of this Easement. The existing lawn areas shall be maintained as lawns, regularly mown. The existing meadows and open fields shall be kept in agricultural use or shall be maintained as meadows and open fields, regularly bushhogged to prevent the growth of woody vegetation where none currently grows. Subject to the casualty provisions of paragraphs 7 and 8, this obligation to maintain shall require replacement, rebuilding, repair, and reconstruction of the Buildings whenever necessary in accordance with *The Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings* (36 C.F.R. 67), as these may be amended from time to time (hereinafter the "Secretary's Standards").

2.2 Grantor's Covenants: Prohibited Activities. The following acts or uses are expressly forbidden on, over, or under the Property, except as otherwise conditioned in this paragraph:

- (a) the Main Residence shall not be demolished, removed, or razed except as provided in paragraphs 7 and 8;
- (b) the Dairy Barn shall not be demolished, removed, or razed except as provided in paragraphs 7 and 8;
- (c) the mounting block and stone posts located at the end of the front walk shall not be removed, demolished, or razed;
- (d) the Property shall not be divided or subdivided in law or in fact and the Property shall not be devised or conveyed except as a unit;
- (e) no ongoing or commercial camping accommodations, or mobile homes shall be erected or placed on the Property hereafter except for temporary structures required for the maintenance or rehabilitation of the Property, such as construction trailers;
- (f) the dumping of trash, rubbish, or any other unsightly or offensive materials is prohibited on the Property;
- (g) no above-ground utility transmission lines, except those reasonably necessary for the existing Buildings, may be created on the Property, subject to utility easements already recorded; and
- (h) no concentrated feeding lot or structure, nor livestock manure lagoon or pond shall be permitted.

GRANTOR'S CONDITIONAL RIGHTS

3.1 Conditional Rights Requiring Approval by Grantee. Without the prior express written approval of the Grantee, which approval may be withheld or conditioned in the sole discretion of Grantee, Grantor shall not undertake any of the following actions:

- (a) demolish, remove or raze the barns (the Dairy Barn shall not be demolished) or other Ancillary Structures on the Property;
- (b) increase or decrease the height of, make additions to, change the exterior construction materials or colors of, or move, improve, alter, reconstruct, or change the facades (including fenestration) and roofs of the Main Residence and Ancillary Structures;
- (c) add any new buildings to the Property; approval of such buildings will depend upon whether they are of an appropriate size, scale and are appropriately sited and designed to be compatible with the historic character of Inverness.
- (d) change the floor plan of the Main Residence;
- (e) subject to the maintenance covenants of paragraph 2.1 hereof, the following interior features located within the Residence shall not be removed, demolished, or altered:
 - (i) the stairway spindle fretwork and arch treatment in the front hall;
 - (ii) the diamond leaded glass window in the front stairway;
 - (iii) the sidelights and transom filled with leaded beveled glass in the front door;
 - (iv) the border design and diamond pattern in the floor in the entrance hallway;
 - (v) the baseboard, picture rail, and door and window trim in the front hall;
 - (vi) the fireplace mantels in the "back of the front hall," parlor, living room, dining room, west bedroom, east bedroom, and south/back bedroom;
 - (vii) the mirror above the mantel and the border detail on the floor in the parlor;
 - (viii) the floor, wainscoting with center beaded boards, door and window trimwork in the living room;
 - (ix) the sideboard "wall," cornice, and wainscoting in the dining room;
 - (x) the radiator containing a plate warmer in the dining room;

- (xi) the railing and newel posts in the front stairs upper hall; and
 - (xii) the baseboard, chairrail, and window trim in the west bedroom.
- (f) erect any external signs or external advertisements except: (i) such plaque permitted under paragraph 19 of this easement; (ii) such plaque stating that the property is listed in the Virginia Landmarks Register and in the National Register of Historic Places; (iii) a sign stating solely the name and address of the Property and the name of any business conducted thereon; and (iv) a temporary sign to advertise the sale or rental of the Property;
- (g) make permanent substantial topographical changes, such as, by example, excavation for the construction of roads and recreational facilities;
- (h) cut down or otherwise remove live trees larger than 12" diameter breast height, unless necessary because of disease or pursuant to a forest management plan approved by the National Trust; the pasture and woods located at the south end of the property, as identified in the baseline documentation, may be reforested or returned to pastures or fields, provided that existing fence lines are maintained and wooded buffers consisting of not less than twenty-five (25) feet (or such greater amount as may be required by federal, state or local law or regulation) are maintained adjacent to streams and property perimeters;
- (i) change the use of the Property to another use other than single family residential and agricultural. Grantee must determine that the proposed use: (i) does not impair the significant conservation and preservation values of the Property; and (ii) does not conflict with the Purpose of the Easement;
- (j) use the Property for a commercial kennel or poultry operation;
 - (k) install a satellite receiving dish;
 - (l) erect or allow to grow on the Property anything that would impair the visibility of the Property and the Main Residence from street level (planting any natural screening to protect the vistas from the Main Residence excluded);
 - (m) make any substantial alteration in the appearance of the interior first floor of the Main Residence from that existing prior to the alteration and;

3.2 Review of Grantor's Requests for Approval. Grantor shall submit to Grantee for Grantee's approval of those conditional rights set out at paragraph 3.1 information (including plans, specifications, and designs where appropriate) identifying the proposed activity with reasonable specificity. Grantor's submission or resubmission of plans or requests shall include a notice provision that the Grantee has forty-five (45) days in which to respond. In connection therewith, Grantor shall also submit to Grantee a timetable for the proposed activity sufficient to permit Grantee to monitor such activity. Within forty-five (45) days of Grantee's receipt of any plan or written request for approval hereunder, Grantee shall certify in writing that (a) it

approves the plan or request, or (b) it disapproves the plan or request as submitted, in which case Grantee shall provide Grantor with written suggestions for modification or a written explanation for Grantee's disapproval. Any failure by Grantee to act within forty-five (45) days of receipt of Grantor's submission or resubmission of plans or requests that conform to the requirements in this paragraph shall be deemed to constitute approval by Grantee of the plan or request as submitted and to permit Grantor to undertake the proposed activity in accordance with the plan or request submitted.

4. **Standards for Review.** In exercising any authority created by the Easement to inspect the Property or the interior of the Main Residence; to review any construction, alteration, repair, or maintenance; or to review casualty damage or to reconstruct or approve reconstruction of the Building following casualty damage, Grantee shall apply the Secretary's Standards.

5. **Public Access.** Upon request by Grantee, for not more than two days per year, Grantor shall make the Property and interior of the Main Residence reasonably accessible to the public for viewing the exterior of the Property and the interior of the first floor of the Main Residence. This requirement may be fulfilled through an open house, house tour or similar event. At other times deemed reasonable by Grantor persons affiliated with educational organizations, professional architectural associations, and historical societies shall be admitted to study the Property. Grantee may make photographs, drawings, or other representations documenting the significant historical, cultural, and architectural character and features of the Property and distribute them to magazines, newsletters, or other publicly available publications, or use them to fulfill its charitable and educational purposes.

GRANTOR'S RESERVED RIGHTS

6. **Grantor's Reserved Rights Not Requiring Further Approval by Grantee.** Subject to the provisions of paragraphs 2.1, 2.2, and 3.1, the following rights, uses, and activities of or by Grantor on, over, or under the Property are permitted by this Easement and by Grantee without further approval by Grantee:

(a) the right to engage in all those acts and uses that: (i) are permitted by governmental statute or regulation; (ii) do not substantially impair the conservation and preservation values of the Property; (iii) are customarily associated with commercial agricultural endeavors; and (iv) are not inconsistent with the Purpose of this Easement;

(b) pursuant to the provisions of paragraph 2.1, the right to maintain and repair the Main Residence and Ancillary Structures strictly according to the Secretary's Standards. As used in this subparagraph, the right to maintain and repair shall mean the use by Grantor of in-kind materials, applied with workmanship comparable to that which was used in the construction or application of those materials being repaired or maintained, for the purpose of retaining in good condition the appearance and construction of the Main Residence and Ancillary Structures. The right to maintain and repair as used in this subparagraph shall not include the right to make changes in appearance, materials, and workmanship from that existing prior to the maintenance

and repair without the prior approval of Grantee in accordance with the provisions of paragraphs 3.1 and 3.2;

(c) the right to continue all manner of existing residential use and enjoyment of the Property, including but not limited to the maintenance, repair, and restoration of existing fences; the right to maintain existing driveways, roads, and paths with the use of same or similar surface materials; the right to restore the historic drive to the house at the front of the Main Residence and the historic drive to the tenant house at the front of the property as identified in the baseline documentation; the right to maintain existing utility lines, gardening and building walkways, steps, and garden fences; the right to cut, remove, and clear grass or other vegetation and to perform routine maintenance, landscaping, horticultural activities, and upkeep, consistent with the Purpose of this Easement.

CASUALTY DAMAGE OR DESTRUCTION; INSURANCE

7. **Casualty Damage or Destruction.** In the event that the Property or any part thereof shall be damaged or destroyed by fire, flood, windstorm, hurricane, earth movement, or other casualty, Grantor shall notify Grantee in writing within fourteen (14) days of the damage or destruction, such notification including what, if any, emergency work has already been completed. No repairs or reconstruction of any type, other than temporary emergency work to prevent further damage to the Property and to protect public safety, shall be undertaken by Grantor without Grantee's prior written approval. Within thirty (30) days of the date of damage or destruction, if required by Grantee, Grantor at its expense shall submit to the Grantee a written report prepared by a qualified restoration architect and an engineer who are acceptable to Grantor and Grantee, which report shall include the following:

- (a) an assessment of the nature and extent of the damage;
- (b) a determination of the feasibility of the restoration of the Main Residence and/or reconstruction of damaged or destroyed portions of the Main Residence; and
- (c) a report of such restoration/reconstruction work necessary to return the Main Residence to the condition existing at the date hereof.

8. **Review After Casualty Damage or Destruction.** If, after reviewing the report provided in paragraph 7 and assessing the availability of insurance proceeds after satisfaction of any mortgagee's/lender's claims under paragraph 9, Grantor and Grantee agree that the Purpose of the Easement will be served by such restoration/reconstruction, Grantor and Grantee shall establish a schedule under which Grantor shall complete the restoration/reconstruction of the Main Residence in accordance with plans and specifications consented to by the parties up to at least the total of the casualty insurance proceeds available to Grantor.

If, after reviewing the report and assessing the availability of insurance proceeds after satisfaction of any mortgagee's/lender's claims under paragraph 9, Grantor and Grantee agree that restoration/reconstruction of the Property is impractical or impossible, or agree that the Purpose

of the Easement would not be served by such restoration/reconstruction, Grantor may, with the prior written consent of Grantee, alter, demolish, remove, or raze one or more of the buildings, and/or construct new improvements on the Property. Grantee, in its sole discretion, may agree to extinguish this Easement in whole or in part in accordance with paragraph 23.2 hereof, the laws of the Commonwealth of Virginia, applicable Code provisions and such other laws and regulations as may be applicable.

9. **Insurance.** Grantor shall keep the Property insured by an insurance company rated "A1" or better by Best's for the full replacement value against loss from the perils commonly insured under standard fire and extended coverage policies and comprehensive general liability insurance against claims for personal injury, death, and property damage. Property damage insurance shall include change in condition and building ordinance coverage, in form and amount sufficient to replace fully the damaged Property and buildings without cost or expense to Grantor or contribution or coinsurance from Grantor. Such insurance shall include Grantee's interest and name Grantee as an additional insured. Grantor shall deliver to Grantee, within ten (10) business days of Grantee's written request therefor, certificates of such insurance coverage. Provided, however, that whenever the Property is encumbered with a mortgage or deed of trust, nothing contained in this paragraph shall jeopardize the prior claim, if any, of the mortgagee/lender to the insurance proceeds.

INDEMNIFICATION

10. **Indemnification.** Grantor hereby agrees to pay, protect, indemnify, hold harmless and defend at its own cost and expense, Grantee, its agents, trustees, officers and employees, or independent contractors from and against any and all claims, liabilities, expenses, costs, damages, losses, and expenditures (including reasonable attorneys' fees and disbursements hereafter incurred) arising out of or in connection with injury to or death of any person; physical damage to the Property; the presence or release in, on, or about the Property, at any time, of any substance now or hereafter defined, listed, or otherwise classified pursuant to any law, ordinance, or regulation as a hazardous, toxic, polluting, or contaminating substance; or other injury or other damage occurring on or about the Property, unless such injury or damage is caused by Grantee or any agent, director, officer, employee, or independent contractor of Grantee. In the event that Grantor is required to indemnify Grantee pursuant to the terms of this paragraph, the amount of such indemnity, until discharged, shall constitute a lien on the Property with the same effect and priority as a mechanic's lien. Provided, however, that nothing contained herein shall jeopardize the priority of any recorded lien of mortgage or deed of trust given in connection with a promissory note secured by the Property.

TAXES

11. **Taxes.** Grantor shall pay immediately, when first due and owing, all general taxes, special taxes, special assessments, water charges, sewer service charges, and other charges which may become a lien on the Property unless Grantor timely objects to the amount or validity of the assessment or charge and diligently prosecutes an appeal thereof, in which case the obligation hereunder to pay such charges shall be suspended for the period permitted by law for

prosecuting such appeal and any applicable grace period following completion of such action. In place of Grantor, Grantee is hereby authorized, but in no event required or expected, to make or advance upon three (3) days prior written notice to Grantor any payment relating to taxes, assessments, water rates, sewer rentals and other governmental or municipality charge, fine, imposition, or lien asserted against the Property. Grantee may make such payment according to any bill, statement, or estimate procured from the appropriate public office without inquiry into the accuracy of such bill, statement, or assessment or into the validity of such tax, assessment, sale, or forfeiture. Such payment if made by Grantee shall constitute a lien on the Property with the same effect and priority as a mechanic's lien, except that such lien shall not jeopardize the priority of any recorded lien of mortgage or deed of trust given in connection with a promissory note secured by the Property.

ADMINISTRATION AND ENFORCEMENT

12. **Written Notice.** Any notice which either Grantor or Grantee may desire or be required to give to the other party shall be in writing and shall be delivered by one of the following methods by overnight courier postage prepaid, facsimile transmission, registered or certified mail with return receipt requested, or hand delivery, to the following address:

Grantor

K. Shawn Hancy
Katherine S. Hancy
Inverness
Route 624
Burkeville, VA 23922

Grantee

National Trust for Historic Preservation
General Counsel
1785 Massachusetts Avenue, N.W.
Washington, D.C. 20036

Each party may change its address set forth herein by a notice to such effect to the other party.

13. **Evidence of Compliance.** Upon request by Grantor, Grantee shall promptly furnish Grantor with certification that, to the best of Grantee's knowledge, Grantor is in compliance with the obligations of Grantor contained herein or that otherwise evidences the status of this Easement to the extent of Grantee's knowledge thereof.

14. **Inspection.** With the consent of Grantor, representatives of Grantee shall be permitted at all reasonable times to inspect the Property, including the interior of the Residence. Grantor covenants not to withhold unreasonably its consent in determining dates and times for such inspections.

15. **Grantee's Remedies.** Grantee may, following reasonable written notice to Grantor, institute suit(s) to enjoin any violation of the terms of this easement by ex parte, temporary, preliminary, and/or permanent injunction, including prohibitory and/or mandatory injunctive relief, and to require the restoration of the Property and Buildings to the condition and

appearance that existed prior to the violation complained of. Grantee shall also have available all legal and other equitable remedies to enforce Grantor's obligations hereunder.

In the event Grantor is found to have violated any of its obligations, Grantor shall reimburse Grantee for any costs or expenses incurred in connection with Grantee's enforcement of the terms of this Easement, including all reasonable court costs, and attorney's, architectural, engineering, and expert witness fees. The amount of such costs and expenses, until discharged, shall constitute a lien on the Property, with the same effect and priority as a mechanic's lien.

Exercise by Grantee of one remedy hereunder shall not have the effect of waiving or limiting any other remedy, and the failure to exercise any remedy shall not have the effect of waiving or limiting the use of any other remedy or the use of such remedy at any other time.

16. **Notice from Government Authorities.** Grantor shall deliver to Grantee copies of any notice of violation or lien relating to the Property received by Grantor from any government authority within five (5) days of receipt by Grantor. Upon request by Grantee, Grantor shall promptly furnish Grantee with evidence of Grantor's compliance with such notice or lien where compliance is required by law.

17. **Notice of Proposed Sale.** Grantor shall promptly notify Grantee in writing of any proposed sale of the Property and provide the opportunity for Grantee to explain the terms of the Easement to real estate agents and potential new owners prior to sale closing.

18. **Liens.** Any lien on the Property created pursuant to any paragraph of this Easement may be confirmed by judgment and foreclosed by Grantee in the same manner as a mechanic's lien, except that no lien created pursuant to this Easement shall jeopardize the priority of any recorded lien of mortgage or deed of trust given in connection with a promissory note secured by the Property.

19. **Plaque.** Grantor agrees that Grantee may provide and maintain at its expense a plaque on the Property, which plaque shall not exceed 24 by 24 inches in size, giving notice of the significance of the Property and the existence of this Easement. The text and location of any such plaque shall be mutually agreeable to Grantor and Grantee.

BINDING EFFECT

20. **Runs with the Land.** Except as provided in paragraphs 8 and 23.2, the obligations imposed by this Easement shall be effective in perpetuity and shall be deemed to run as a binding servitude with the Property. This Easement shall extend to and be binding upon Grantor and Grantee, their respective successors in interest and all persons hereafter claiming under or through Grantor and Grantee, and the words "Grantor" and "Grantee" when used herein shall include all such persons. Any right, title, or interest herein granted to Grantee also shall be deemed granted to each successor and assign of Grantee and each such following successor and assign thereof, and the word "Grantee" shall include all such successors and assigns.

Anything contained herein to the contrary notwithstanding, an owner of the Property shall have no obligation pursuant to this instrument where such owner shall cease to have any ownership interest in the Property by reason of a bona fide transfer. The restrictions, stipulations, and covenants contained in this Easement shall be inserted by Grantor, verbatim or by express reference, in any subsequent deed or other legal instrument by which Grantor divests itself of either the fee simple title to or any lesser estate in the Property or any part thereof, including by way of example and not limitation, a lease of all or a portion of the Property.

21. **Recording and Effective Date.** Grantee shall do and perform at its own cost all acts necessary to the prompt recording of this instrument in the land records of Nottoway County, Virginia. Grantor and Grantee intend that the restrictions arising under this Easement take effect on the day and year this instrument is recorded in the land records of Nottoway County, Virginia.

ASSIGNMENT

22. **Assignment.** Grantee may convey, assign, or transfer this Easement to a unit of federal, state, or local government or to a similar local, state, or national organization that is a "qualified organization" under Section 170(h) of the Code whose purposes, *inter alia*, are to promote preservation or conservation of historical, cultural, or architectural resources, provided that any such conveyance, assignment, or transfer requires that the Purpose for which the Easement was granted will continue to be carried out.

EXTINGUISHMENT

23.1 **Extinguishment.** Grantor and Grantee hereby recognize that circumstances may arise that may make impossible the continued ownership or use of the Property in a manner consistent with the Purpose of this Easement and necessitate extinguishment of the Easement. Such circumstances may include, but are not limited to, partial or total destruction of the Main Residence resulting from casualty. In the event of such a casualty, Grantor and Grantee agree to consult with each other in good faith to determine whether an extinguishment, either partial or total, is appropriate. Extinguishment must be the result of a judicial proceeding in a court of competent jurisdiction.

Unless otherwise required by applicable law at the time, in the event of any sale of all or a portion of the Property (or any other property received in connection with an exchange or involuntary conversion of the Property) after such termination or extinguishment, and after the satisfaction of prior claims and any costs or expenses associated with such sale, Grantor and Grantee shall share in any net proceeds resulting from such sale in accordance with their respective percentage interests in the fair market value of the Property, adjusted, if necessary, to reflect a partial termination or extinguishment of this Easement. Grantor and Grantee hereby agree that Grantee's percentage interest in the fair market value of the Property is 10% (ten percent), or such other percentage as the Court granting extinguishment may determine in the exercise of its discretion. All such proceeds received by Grantee shall be used by Grantee in a

manner consistent with Grantee's primary purposes. Net proceeds shall also include, without limitation, net insurance proceeds.

In the event of extinguishment, the provisions of this paragraph shall survive extinguishment and shall constitute a lien on the Property with the same effect and priority as a mechanic's lien, except that such lien shall not jeopardize the priority of any recorded lien of mortgage or deed of trust given in connection with a promissory note secured by the Property.

23.2 Condemnation. If all or any part of the property is taken under the power of eminent domain by public, corporate, or other authority, or otherwise acquired by such authority through a purchase in lieu of a taking, Grantor and Grantee shall join in appropriate proceedings at the time of such taking to recover the full value of those interests in the Property that are subject to the taking and all incidental and direct damages resulting from the taking. After the satisfaction of prior claims and net of expenses reasonably incurred by Grantor and Grantee in connection with such taking, Grantor and Grantee shall be respectively entitled to compensation from the balance of the recovered proceeds in conformity with the provisions of paragraphs 23.1 unless otherwise provided by law.

INTERPRETATION

24. Interpretation. The following provisions shall govern the effectiveness, interpretation, and duration of the Easement.

(a) Any rule of strict construction designed to limit the breadth of restrictions on alienation or use of Property shall not apply in the construction or interpretation of this Easement, and this instrument shall be interpreted broadly to effect its Purpose and the transfer of rights and the restrictions on use herein contained.

(b) This instrument may be executed in two counterparts, one of which may be retained by Grantor and the other, after recording, to be retained by Grantee. In the event of any disparity between the counterparts produced, the recorded counterpart shall in all cases govern.

(c) This instrument is made pursuant to the Act, but the invalidity or inapplicability of such Act or any part thereof shall not affect the validity and enforceability of this Easement according to its terms, it being the intent of the parties to agree and to bind themselves, their successors, and their assigns in perpetuity to each term of this instrument whether this instrument be enforceable by reason of any statute, common law, or private agreement in existence either now or hereafter. The invalidity or unenforceability of any provision of this instrument shall not affect the validity or enforceability of any other provision of this instrument or any ancillary or supplementary agreement relating to the subject matter thereof.

(d) Nothing contained herein shall be interpreted to authorize or permit Grantor to violate any ordinance or regulation relating to building materials, construction methods, or use. In the event of any conflict between any such ordinance or regulation and the terms hereof, Grantor promptly shall notify Grantee of such conflict and shall cooperate with Grantee and the

applicable governmental entity to accommodate the purposes of both this Easement and such ordinance or regulation.

(e) To the extent that Grantor owns or is entitled to development rights which may exist now or at some time hereafter by reason of the fact that under any applicable zoning or similar ordinance the Property may be developed to use more intensive (in terms of height, bulk, or other objective criteria related by such ordinances) than the Property is devoted as of the date hereof, such development rights shall not be exercisable on, above, or below the Property during the term of the Easement, nor shall they be transferred to any adjacent parcel and exercised in a manner that would interfere with the Purpose of the Easement.

(f) To the extent that any action taken by Grantee pursuant to this Easement gives rise to a claim of breach of contract, Grantor and Grantee agree that the sole remedy on the part of Grantor shall be reimbursement of direct out-of-pocket expenses reasonably incurred by Grantor as a result of such breach and that Grantor shall not have any right to indirect, consequential or monetary damages in excess of such direct out-of-pocket expenses.

AMENDMENT

25. **Amendment.** If circumstances arise under which an amendment to or modification of this Easement would be appropriate, Grantor and Grantee may by mutual written agreement jointly amend this Easement, provided that no amendment shall be made that will adversely affect the qualification of this Easement or the status of Grantee under any applicable laws, including Section 501(c)(3) of the Code and the laws of the Commonwealth of Virginia. Any such amendment shall be consistent with the protection of the conservation and preservation values of the Property and the Purpose of this Easement; shall not affect its perpetual duration; shall not permit additional residential development on the Property other than the residential development permitted by this Easement on its effective date; shall not permit any subdivision of the Property; shall not permit any private inurement to any person or entity; and shall not adversely impact the overall architectural, historic, natural habitat, and open space values protected by this Easement. Any such amendment shall be recorded in the land records of Nottoway County, Virginia. Nothing in this paragraph shall require Grantor or Grantee to agree to any amendment or to consult or negotiate regarding any amendment.

WARRANTIES

26. **Mortgages and Other Third Party Interests.** Grantor warrants that, at the time of the conveyance of this Easement, that Grantor owns fee simple title to the Property and that the Property is not subject to or otherwise encumbered by any mortgage, deed of trust, lien, condition, option, lease, easement or other interest of any other party that may give rise to any right of defeasance, foreclosure, or extinguishment affecting Grantee's rights under this Easement.

325 3004

Nothing contained in this paragraph or in this Easement shall be construed to give any mortgagee/lender the right to violate the terms of this Easement or to extinguish this Easement by taking title to the Property by foreclosure or otherwise.

27. **Baseline Documentation.** Grantor and Grantee warrant that the Baseline Documentation attached as Exhibit B provides an accurate representation of the condition of the Property at the time of the conveyance of this Easement.

THIS EASEMENT reflects the entire agreement of Grantor and Grantee. Any prior or simultaneous correspondence, understandings, agreements, and representations are null and void upon execution hereof, unless set out in this instrument.

TO HAVE AND TO HOLD, the said Preservation and Conservation Easement, unto the said Grantee and its successors and permitted assigns forever. This DEED OF PRESERVATION AND CONSERVATION EASEMENT may be executed in two counterparts and by each party on a separate counterpart, each of which when so executed and delivered shall be an original, but both of which together shall constitute one instrument.

Property Description

**Deed of Preservation and Conservation Easement
K. Shawn Haney and Katherine S. Haney to the
National Trust for Historic Preservation**

**INVERNESS
ROUTE 624
TOWN OF BURKEVILLE, NOTTOWAY COUNTY, VIRGINIA**

ALL that certain tract or parcel of land lying and being in the Haytokah Magisterial District, Nottoway County, Virginia, east of the corporate limits of the Town of Burkeville, estimated to contain 314 acres but sold in the gross and not by the acre, bounded and described as follows:

On the north by State Highway #624, being the old road from Burkeville to Crewe, on the east by the lands of J. T. Morgan, Jr. (formerly Dodson), lands now or formerly owned by Herman Shutt, on the south by lands now or formerly owned by Jimmy Knight, E. C. Purcell and others, on the west by land now or formerly owned by E. J. Agnew, the Nottoway County School Board, and J. E. Osborne, being all of the land of which James Stuart Agnew died, seized and possessed, save and except such portion thereof as has been sold and conveyed to others and including the unsold portion of a parcel of land conveyed to J. P. Agnew and William T. Agnew by John A. Dodson and wife by Deed dated January 18, 1952 and recorded in the Clerk's Office of the Circuit Court of Nottoway County, Virginia, in Deed Book 118, page 379, less however such portion of said 75 acres as is included in the description contained in a Deed from J. Perkins Agnew and wife and William T. Agnew and wife to J. T. Morgan, Jr. dated November 10, 1958 and recorded in Deed Book 145, page 423, in which Deed it was estimated that 55 acres of Dodson land was conveyed by said Deed which would leave 20 acres of said Dodson land but all of the remainder of said Dodson land it is intended to be included in this Deed, reference being made to all of the aforesaid conveyances for more particular description of that portion of the land acquired from Dodson on which is intended to be included in this conveyance.

SAVE AND EXCEPT that property described in the Deed from Lillian Agnew Leath to the Commonwealth of Virginia dated August 9, 1983 and recorded in Deed Book 230, page 235 in the Circuit Court Clerk's Office of Nottoway County, Virginia.

BEING the same real estate conveyed to National Trust for Historic Preservation in the United States, a congressionally chartered Non-Profit corporation, subject to a life estate reserved for J. Perkins Agnew, by deed from Lillian A. Leath, widow, dated February 23, 1995, recorded April 14, 1995, in the aforesaid Clerk's Office in Deed Book 288, page 686.

BOOK 325 PAGE 304

AND BEING the same property conveyed to the Grantor herein by deed of National Trust for Historic Preservation in the United States, dated the 29th day of February, 2000, recorded in Deed Book 325, page 284, Nottoway County Clerk's office.

Exhibit B

**Deed of Preservation and Conservation Easement
K. Shawn Haney and Katherine S. Haney to
the National Trust for Historic Preservation in the United States**

**INVERNESS
ROUTE 624
TOWN OF BURKEVILLE
NOTTOWAY COUNTY, VIRGINIA**

The photographs referred to at Paragraph 27 of the Deed of Preservation and Conservation Easement of K. Shawn Haney and Katherine S. Haney (Grantor) to the National Trust for Historic Preservation in the United States (Grantee) of which this Exhibit B is a part are not recordable. Accordingly, they are incorporated herein by reference, each of Grantor and Grantee having received an original set consisting of the following:

1. A three (3) page key to photographs of the Property;
2. A five (5) page set of plans, including three (3) site plans (Farm, Entrance and House Vicinity) and the floorplans of the first and second floor of the Main Residence, indicating the location from which the photographs were taken; and
3. Forty-six (46) black and white and color photographs of the Property, dated March 1993 and June-September, 1998.

In the event of any disparity between the counterparts held by Grantor and Grantee, the counterpart held by the Grantee shall govern.

Add two (2) definitions to Article 6. Definitions, Sec. 6-1-2 List of Definitions

1. **Government Services:** Governmental offices providing administrative, judicial, clerical or public contact services that deal directly with citizens. Typical uses include federal, state, county, and city offices. *

The following zoning districts shall be amended to include government services as a permitted use:

Division 1 Agriculture District (A-1), Section 2-1-3 – Permitted Uses

Division 2 Conservation District (C-1), Section 2-2-3 – Permitted Uses

Division 3 Rural Residential District (RR), Section 2-3-3 – Permitted Uses

Division 4 Urban Residential District (UR), Section 2-4-3 – Permitted Uses

Division 5 General Business District (GB), Section 2-5-3 – Permitted Uses

Division 6 Light Industrial District (LI), Section 2-6-3 – Permitted Uses

Division 7 General District (GI), Section 2-7-3 – Permitted Uses

*At the May 20th Planning Commission meeting, members recommended making this use a special exception request to provide transparency for residents (8-0).

2. **Data Center** A facility containing one or more buildings and one or more large-scale computer systems used for data storage and processing for off-site users. Typical supporting equipment includes back-up batteries and power generators, cooling units, fire suppression systems, and enhanced security features. *

The following zoning districts shall be amended to include data centers as a use permitted by a special exception permit (as provided in Article 5):

Division 5 General Business District (GB), Sec. 2-5-4 Uses Permitted by Special Exception

Division 6 Light Industrial District (LI), Sec. 2-6-4 Uses Permitted by Special Exception

Division 7 General Industrial District (GI), Sec. 2-7-4 Uses Permitted by Special Exception

*This item was continued from the May 20th to June 17th meeting so staff could locate alternative definitions. At the June 17th PC meeting, the Planning Commission recommended (6-0) using the State Code definition §58.1-3506 (43), which states, "Computer equipment and peripherals used in a data center. For purposes of this subdivision, "data center" means a facility whose primary services are the storage, management, and processing of digital data and is used to house (i) computer and network systems, including associated components such as servers, network equipment and appliances, telecommunications, and data storage systems; (ii) systems for monitoring and managing infrastructure performance; (iii) equipment used for the transformation, transmission, distribution, or management of at least one megawatt of capacity of electrical power and cooling, including substations, uninterruptible power supply systems, all electrical plant equipment, and associated air handlers; (iv) Internet-related equipment and services; (v) data communications connections; (vi) environmental controls; (vii) fire protection systems; and (viii) security systems and services;"

3. Delete (Duplex) from Division 1 Agriculture District (A-1), Section 2-1-4 – use permitted by a special exception permit (as provided in Article 5).*

*The Planning Commission recommended approval (8-0) at their May 20th meeting.

NOTTOWAY COUNTY

July 17, 2025

MAINTENANCE

The Nottoway Area Headquarters for the month of June 2025.

- Removed debris and 44 trash bags from roadways.
- Repaired potholes throughout the county.
- Began work on Route 684 Crystal Lake Rural Rustic.
- Tree trimming and removal on various routes.
- Performed ditching on various routes.
- Received 54 new work orders and 51 work orders were closed. There are no pending work orders older than ninety (90) days.

LAND DEVELOPMENT & PERMITS

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *GZ*

SUBJECT: Planning and Economic Development Monthly Update – June 2025

DATE: July 10, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances, notably division and property complaints. Please note that these discussions may consist of follow-up via email or phone at least four times or more after the initial meeting and before applying for a special exception, subdivision, or rezoning. Notable excerpts include:
 - Three of four Notice of Violations that have passed the deadline include:
 - a. Mountain Hall Road – Staff is working with the property owner on storage containers for a temporary period of time and will be issued a temporary use permit. (Letter sent out 5/29/25)
 - b. Woodman Road – No effort to clean up junk. Staff recommends pursuing legal action. (Letter sent out 5/28/25)
 - c. Raccoon Crossing – Sent one letter of inquiry and one NOV, one of which was returned (incorrect address) despite County property card records. (Letter sent out 5/28/25). Staff will continue to monitor the site with periodic inspections (RV) until contact with the property owner is established.
 - d. Piney Green Road – notably one structure built without responding to staff's request for additional information. Several other structures with questionable standing were observed from an open gate on the ROW. (Letter sent out 6/16/25). If no response is received by the July 16 deadline, staff recommends taking legal action.

2. At their June 17, 2025 meeting, the Planning Commission heard and recommended approval for a special exception request on Eleven Oaks Road (6-0) to replace a home with a manufactured home; and the Planning Commission recommended approval for a rezoning request for 316 acres from RR to C-1 on Lewiston Plank Road and Inverness Road (5-0-1). The property owner from the rezoning case applied for a special exception request for a solar project generating less than 5 megawatts on less than 50 acres if the rezoning is approved..

The Planning Commission recommended adopting the State's definition for data centers after the matter was continued until the June 17th meeting (from the May 20th meeting), so staff could present additional research on definitions (6-0). Staff presented three definitions from local, state, and federal codes.

The Planning also considered draft language for an airport zoning district, which would focus on attracting aviation uses to the Blackstone and Crewe Airports. The Planning Commission supported the draft and recommended that one proposed use, Aviation Manufacturing and Assembly, be a use allowed by a special exception permit instead of the draft proposed use as permitted by right. (6-0).

Economic Development

1. Attending WPPDC East VATI Management Team Zoom Meeting held on June 3rd.
2. Due to unexpected tasks, staff has attached a copy of the Prospect Manual for Pickett Park.
 - June's LoopNet site traffic report is attached.
3. Attended a virtual CDBG Q & A workshop hosted by VHCD covering five grant-related subjects from June 30-July 2:
 - a. Housing Applications
 - b. Infrastructure
 - c. Economic Development
 - d. Public Services
 - e. Planning Grants

The window for CDBG grants has closed for this calendar year, and if the BOS desires, we can discuss future grant applications and source matching funds.

4. Contacted the Tobacco Revitalization staff regarding any lingering project funds for the County and was told by the Regional Director that there are no project funds available for the County.
5. Reached out to the CRC's Planning Director regarding the High Bridge Trail project, and she directed staff to the High Bridge Trail Director. Still awaiting word from the Ranger and will follow up.
6. Participated virtually in Best Practices in Planning and Solar and Large-Scale Battery Energy Storage Systems (BESS) on June 25.

Site Information Packet
Presented By
The Nottoway County Board of
Supervisors

May 2, 2025

This information packet is intended to provide prospective clients cursory site information regarding Fort Pickett, located adjacent to Fort Barfoot and the Town of Blackstone, Virginia.

The land contained in this packet is owned by Nottoway County Board of Supervisors.

OVERVIEW:

The current available sites total approximately 434± acres and are zoned General Business and Agricultural. The County will work with the client to rezone the site to suite your needs and we are willing to absorb the cost of the application process.

Contact – Gregg Zody, Nottoway County Planning and Economic Development Director, 434-645-8696 O or 434-294-5005 C

LOCATION:

The site is located on the northeastern corner of State Route 40 and State Route 750. This location is less than two miles, via Military Highway (State Route 750) and Cox Road (US 460 Business) to US 460. From that point, interstates 95 and 85 are approximately thirty minutes away. This site sits less than one mile from an active airport serving military and private interests. Lastly, this site is bisected by an active rail spur.

Contact – Aaron French, Assistant Residency Administrator, Virginia Department of Transportation, 804-863-4004 O or 804-896-5703 C

Contact – Jake Allman, Chairman, Airport Committee, 434-264-2034 C or 434-292-4914 O

INFRASTRUCTURE:

Power: On the east side of Military Highway (west side of site) three three-phase electricity is supplied by Southside Electric Cooperative.

Southside Electric Cooperative Contact – President/CEO Jason C. Loehr, 434-645-2518 O

Water: The Town of Blackstone has approximately 3.28 million gallons per day (mgd) capacity and is permitted for 5 mgd capacity.

Sanitary Sewer: A twelve-inch gravity line is located approximately four hundred feet from the eastern property line of Parcel 5. The Town of Blackstone's line is slated for improvement and that effort can be coordinated with a user.

Contact – Philip Vannoorbeeck, Town Manager of Blackstone,
434-294-0519 C

Natural Gas: Unavailable in Nottoway County, but the county has contacted other fuel providers to explore options that can be brought forward.

Notoway County Virginia Contact - Stephen W. Bowen, County Administrator, 434-645-8696 O or 434-294-8626 C

Broadband/Internet: Fiber optic is available through existing providers in the Blackstone area.

Contact - Tad Deriso, President & CEO, Mid-Atlantic Broadband Communities Corp., 804-855-4057 C

As depicted on the map sets in the Appendix (page 7), the County can create a smaller lot to suit your needs from the parent tract.

The Nottoway County Board of Supervisors and Staff
thank you for your interest in Pickett Park.

Do not hesitate to contact Gregg Zody, AICP, Director of
Planning and Economic Development with any
questions or additional information at 434-645-8696 or
gzody@nottoway.org.

APPENDIX

County-Owned Property at Pickett Park

Re: Market Value Appraisal
72.4 Acres of land, A portion of PID 43-130
Nottoway County , Virginia
File # KG 501B

Mr. Vannoorbeeck,

At your request, per letter of engagement dated April 4, 2025 and signed on April 7, 2025 I have made an inspection of the above described real estate and reviewed current available market information for the purpose of estimating the market value of the fee simple interest as of April 15, 2025 which is the date of inspection. The accompanying Appraisal Report, containing the most pertinent data, analyses, and conclusions, is submitted within this appraisal report

The Appraisal Report was prepared in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP), based upon our understanding of these regulations and requirements. It is understood that the intended use of this appraisal is to provide a market value estimate of the subject property as of April 15, 2025, and that the appraisal will be used by you and your representatives as a basis for making an offer to purchase the subject property.

The value reported herein is for real property only i.e. no personal property.

As a result of the investigation and analysis, it is my opinion that the subject property has a market value, as defined, and subject to the Assumptions and Limiting Conditions herein, as of April 15, 2025, as follows:

Value Conclusion :

Market Value , 72.4 X \$9,000. = **651,600.**

Thank you for this opportunity to serve you. If I may be of further assistance, please advise.

Respectfully submitted

A handwritten signature in cursive script, appearing to read "George Olin Hardy".

BOARD OF ZONING APPEALS

Name:	Address:	District After Redistricting 22:	Term Expires:
Greg A. Wolven	307 Oak Street Burkeville, VA 23922	1	1-16-2029
			5-23-2027
James L. McDaniel, Jr.	255 Country Club Road Blackstone, VA 23824	5	6-26-2025
Brandon Martin	2123 Robertsons Road Blackstone, VA 23824	5	2-22-2027

Qualifications

Per §15.2-2308

- Every locality that has enacted or enacts a zoning ordinance pursuant to this chapter or prior enabling laws shall establish a board of zoning appeals that:
 - shall consist of either five or seven residents of the locality, or in a town with a population of 3,500 or less, either three, five, or seven residents of the locality,
 - appointed by the circuit court for the locality.
- Terms of office shall be for five years each.
- Original appointments shall be made for such terms that the term of one member shall expire each year.
 - The secretary of the board shall notify the court at least 30 days in advance of the expiration of any term of office and shall also notify the court promptly if any vacancy occurs.
 - Appointments to fill vacancies shall be only for the unexpired portion of the term.
 - Members may be reappointed to succeed themselves.
- Members of the board shall hold no other public office in the locality, except that one may be a member of the local planning commission, any member may be appointed to serve as an officer of election as defined in § 24.2-101, and any elected official of an incorporated town may serve on the board of the county in which the member also resides.

PLANNING COMMISSION

Name:	Address:	District After Redistricting 22:	Term Expires:
Kirby Woolfolk	5685 Lewiston Plank Road Burkeville, VA 23922	1	4-30-2026
Jeff Lavelle	365 Deep Creek Road Crewe, VA 23930	2	2-2028
Bryan Thomas	107 W Maryland Ave. Crewe VA 23930	3	7-31-2026
Chandra Lewis	1295 Lewis-Cole Road Crewe, VA 23930	3	2-21-2027
Benjamin Perry	1829 Rocky Hill Road Blackstone, VA 23824	4	5-31-2026
Frankie Williamson	870 Woodland Ln. Blackstone, VA 23824	4	3-30-2028
		5	7-31-2026
James Bruce	P.O. Box 404 Burkeville, VA 23922	1 - T	3-31-2026

April 9, 2025

Dear Nottoway County PSAP

I am pleased to advise you that the Virginia 9-1-1 Services Board has approved your FY26 PSAP Education Program (Individual PEP) grant request. You have been awarded \$4,000 for 9-1-1 and GIS education and training opportunities. Funding for this grant award will be available beginning July 1, 2025.

The Grant Payment Reimbursement Process is described in the PSAP Grant Guidelines. Payment will be made on a reimbursement basis only for allowable costs. All funding requests must be submitted in the in vdem.emgrants.com system. For the request to be processed, invoice(s) that support the amount requested should be submitted with the request in the EM Grants System. All invoices must be submitted within 30 calendar days of the end of the education/training event and dated after July 1, 2025. Finally, grant payment requests will be held until all required reports are received. This includes annual true-ups, or any other documents required by the Board.

If you have any questions, please do not hesitate to contact me or your NGS Outreach Manager. Questions can also be directed to the PSAP Grants mailbox: psapgrants@vdem.virginia.gov.

Congratulations on your grant award!

Sincerely,

Marcus Grant

CEDS Stakeholder Meeting Gathers Regional Input

On June 24th, CRC hosted a regional stakeholder meeting as part of the Comprehensive Economic Development Strategy (CEDS) planning process. Representatives from local governments, economic development organizations, workforce development agencies, educational institutions, and community groups came together to share insights on regional assets, challenges, and priorities. The discussion helped inform CRC's understanding of economic needs across the region and will guide the development of strategic goals and initiatives in the CEDS. We thank all participants for their valuable contributions.

Upcoming Funding Opportunities:

- Firehouse Subs Public Safety Foundation
 - Opens July 10, 2025
- VTC VA250 Marketing Leverage Program
 - September 16 – October 23
- VTC Special Events & Festivals Program
 - July 22 – September 11

Grants Awarded:

- The MILL Collective (TRRC Planning Grant) – Feasibility study for Farmville mill site
- Regional TRRC Grants – VHREDA Branding, BOOMS (Building opportunities on Main Street)
- Charlotte Co. Sheriff's Office – Byrne JAG (Body Cams – partial award)
- Charlotte County Meals on Wheels – Awarded \$8,000 to help provide hot and frozen meals

Grant Writing Assistance:

- Victoria & Keysville – HMGP applications for backup generators
- Mary E. Branch School – DHR BIPOC Preservation Grant submitted
- Prince Edward Co. – TAP Sidewalk Projects (Zion Hill Rd Ph. I & II)
- SEID Applications:
 - Prince Edward – HIT Park Access Road
 - Cumberland – Small Area Plan
 - Amelia – River Access Planning
 - Blackstone – Raw Water Line

The CRC provides free grant writing services for member localities and local 501C3 non-profits.

Opioid Abatement Initiatives Expand Across Region

CRC is supporting two new opioid recovery initiatives funded by the Virginia Opioid Abatement Authority (OAA):

- Piedmont Health District received \$150,000 to hire a Peer Recovery Specialist and a part-time coordinator to expand outreach, naloxone distribution, school-based education, and mobile clinics in Prince Edward and Nottoway counties.
- Piedmont Regional Jail was awarded \$50,000 to implement a peer-led recovery program modeled after the McShin Foundation. The program includes a 14-week recovery curriculum, re-entry preparation, and Medication Assisted Treatment (MAT).

Both programs aim to reduce overdoses, support recovery, and strengthen community-based prevention and treatment resources.

Environmental Initiatives & DEQ Partnerships Underway

CRC is advancing several regional environmental projects in coordination with state and local partners:

- Rain Barrel Workshops are being planned in collaboration with local Soil & Water Conservation Districts and Virginia Cooperative Extension offices to promote water conservation through hands-on community events.
- Tree Giveaway Events are in the works through a developing partnership with the Virginia Department of Forestry (VDOF) to increase canopy coverage and promote native species planting.
- CRC is organizing a "Get Funded: Environmental Grants" Workshop, where localities will connect with representatives from state agencies to learn about available environmental funding opportunities.
- CRC has also signed on to support DEQ's development of the Chowan River I Water Supply Plan, a collaborative effort to ensure long-term water availability and sustainability for participating communities.

Public Input Shaping Local Comprehensive Plans

CRC continues to support local planning through active Comprehensive Plan updates in multiple communities:

- Town of Drakes Branch recently hosted its first round of community meetings and is preparing to launch a public input survey to gather additional feedback on the town's future development goals.
- Amelia County is conducting three upcoming community meetings over the next month and is working through detailed plan sections in coordination with the Planning Committee during monthly work sessions.

These efforts ensure local voices are at the center of long-term planning and land use decisions across the region.

Call Report for June 2025.

Call Numbers & Types of Calls:

1. Calls in town: 12 Calls.
2. Calls in 1st Due: 25 Calls. (*Not including In-Town or State Facilities*)
3. Calls to State Facilities: 20 Calls.
4. Calls to Mutual Aid: 41 Calls.
5. EMS and EMS assists: 75 Calls.
6. Fire Related: 4 Calls.
7. Motor Vehicle Crashes: 7 Calls.
8. Canceled Enroute & False Alarms: 11 Calls.
9. Total Number of Calls Answered: 98 Calls. (Missed 14 EMS Calls)
 - Average Response Time: 12 mins, 46 secs. from page for service to arrival on scene.

Additional Information:

1. Paid Hours: 956:00 hours. (66.39% of the total shifts available. Based on 48 hours x 30 days)
2. Volunteer Hours: 265:43 = \$6,111.33 SAVINGS to taxpayers this month. Based on \$23/Hour Cost.
3. Paid Positions: 10 total paid positions, we currently have 8 positions filled.
4. Average starting pay: \$18 - \$22 per hour, depending on certifications.
5. Starting July 1st, Burkeville Vol. Fire Dept will be staffed 24/7/365 with at least 1 Advanced Life Support Ambulance crew.

July 2, 2025

Dear Water Customer:

The primary purpose of this correspondence is to provide the required public notification regarding recent water quality test results. The enclosed notification fulfills our regulatory obligation to inform you of these findings for this quarter. Since compliance is measured using rolling quarterly averages, additional notifications may be necessary in subsequent quarters until these elevated results cycle out of the average.

We also want to provide additional context about these results. First, **there is no immediate health risk**—if there were, you would have been notified immediately. This situation represents an anomaly in our water system's performance, and we have identified several likely contributing factors. Additionally, we are currently undertaking comprehensive water system improvements to address longstanding issues with our 100-year-old water delivery system and enhance overall water quality for our community.

We have enclosed test results from the past year which show the recent results are anomalous. We have reviewed all data available to us and have found nothing out of the ordinary in chemical usage or weather patterns. The anomalous test results may have been caused by one or more of the following, each of which has been addressed:

- Variations in sampling methodology or state lab analysis could influence result accuracy.
- The chemicals referenced in this notification are disinfection byproducts (DBPs), which form when chlorine reacts with naturally occurring organic matter in the water. The timing and location of chlorine introduction can influence DBP formation levels. While our standard procedures minimize DBP formation, operational circumstances may occasionally result in chlorine being introduced at alternative points in the system, potentially leading to elevated DBP levels. We have reinforced our standard chlorination protocols to ensure consistent DBP control.
- Around the time of sampling, we received reports of discolored (brown) water across the system. This discoloration can indicate increased organic matter, which when combined with chlorine disinfection, may contribute to higher DBP formation. While the root cause was not identified, the unusual discoloration was resolved through system flushing in mid-May.

As reported in the recent quarterly newsletter, Our Virginia Department of Health award has been upgraded to a full \$4.56 million grant with no repayment required. Combined with \$600,000 in ARPA funds, this provides \$5.16 million for comprehensive water system improvements. **This major grant, in addition to our partnership with the state for water system improvements, will begin to fund complete replacement of our aging water system.** Construction is anticipated to begin in early 2026.

Please contact the Town Office if you have any questions.

Sincerely,

Phil Miskovic, MPH, CHES
Town Manager

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Town of Crewe Water System Has Levels of Total Trihalomethanes (TTHM) and Total Haloacetic Acids (HAA5) Above Drinking Water Standards

Tests indicate that the Town of Crewe's Water System exceeded drinking water standards. Although this is not an emergency, as our customers, you have the right to know what happened, what you should do, and what we are doing to correct this situation.

To ensure satisfactory water quality, we are required to monitor for disinfection byproducts, including Total Trihalomethanes (TTHM) and Total Haloacetic Acids (HAA5) on a quarterly basis. Based on test results of routine quarterly samples collected during the third quarter (July - September) 2024 through the second quarter (April - June) 2025, our system exceeded the standard or Primary Maximum Contaminant Level (PMCL) for both TTHM and HAA5. The PMCL for TTHM is a locational running annual average (LRAA) of 0.080 mg/L. The PMCL for HAA5 is a locational running annual average (LRAA) of 0.060 mg/L. The average concentration for TTHM based on four calendar quarters is 0.090 mg/L and 0.091 mg/L and HAA5 based on the four calendar quarters is 0.101 mg/L and 0.095 mg/L.

What does this mean?

There is not an immediate health risk. If there had been, you would have been notified immediately. However, some people who drink water containing TTHM and / or HAA5 in excess of the MCL over many years may have an increased risk of getting cancer.

What should consumers do?

You do not need to use an alternative water supply. However, if you have specific health concerns, consult your health care provider or the Piedmont Health Department at (434) 392-8187.

What happened? What is being done?

TTHM and HAA5, along with other disinfection byproducts, are formed when trace amounts of naturally occurring organic compounds in the raw water source combine with chlorine that is used to disinfect the treated water. The concentration of TTHM and HAA5 in your drinking water can vary because of changes in source water quality, water temperature, distribution storage time, and other factors. We will continue to monitor your drinking water for TTHM and HAA5. The next sample will be collected during the second week of August 2025.

For more information, please contact Douglas Fisher at (434) 645-9436.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the Town of Crewe.

Subject: NCPS Convocation

Chairman Collins and Mr. Bowen,

On behalf of Nottoway County Public Schools, I would like to extend a warm invitation for you to join us at our **NCPS Convocation on Friday, August 15th at 10:30 AM** in the **Nottoway High School parking lot**. I ask that you share the invite with the Board of Supervisors.

This celebration marks the official kickoff of the 2025-2026 school year, and we would be honored to have our County leadership present as we come together as a division to celebrate our staff and recommit to the work ahead. The event will feature food trucks, games, music, and an opportunity to connect with our dedicated educators and staff.

We hope you can attend and join us in reinforcing our theme for the year:
We Are Nottoway - Committed to Excellence.

Looking forward to seeing you there!

Marcia

Dear Friends,

On behalf of the animals and volunteers at the Southside SPCA, thank you for your very generous gift in the amount of \$448.44, which was received by Check No. 258277 dated 6/21/2025.

It is only with the support of loyal donors such as you that we are able to continue our efforts to rescue, care for, and find good homes for the abandoned, neglected and abused animals of Southside Virginia. Your compassion and generosity will help make it possible for us to rescue, care for, adopt into loving homes, and spay and neuter over 3,000 animals this year. You truly are helping to make a difference in the lives of thousands of Southside Virginia animals!

Please do not hesitate to contact me at info@southsidespca.org or at (434) 736-9595 if you have any questions about our organization. You can also send me a message by visiting our website - www.southsidespca.org - and going to the "Contact Us" page.

This letter serves as a receipt for your donation. Please retain it for your tax records. The Southside SPCA is a tax-exempt, 501(c)(3) organization. No goods or services were exchanged for your contribution.

Sincerely,

Sandy
Sandy Wyatt

Executive Summary	i
I. Introduction	1
II. Reporting Requirements	7
III. Filing Requirement Updates	14
IV. Conclusion	18

Executive Summary and Request Overview

Virginia Electric and Power Company (“Dominion Energy Virginia” or the “Company”) files this 2025 PIPP Update (“Update”) requesting that the State Corporation Commission of Virginia (“Commission”) approve a continued Universal Service Fee (“USF”) to fund the Percentage of Income Payment Program (“PIPP” or the “Program”) of \$0.00 per kilowatt-hour (“kWh”) effective November 1, 2025, through October 31, 2026 (the “Rate Year”). The Company projects that revenues collected through October 31, 2024, from the previously approved USF will be sufficient to fund the PIPP through the end of the proposed Rate Year. The PIPP will continue to be available to eligible customers during this time.

As further addressed in this Update, the Company also requests that the Commission, pursuant to both its general authority and Section 56-585.6 C of the Code of Virginia (“Va. Code” or “Code”), ensures the Company receives adequate and timely compensation from the PIPP Treasury Fund¹ for its reasonable administrative costs by issuing an order directing disbursement from the PIPP Treasury Fund to the Company for the Company’s administrative costs from January 2024 through March 2025 in the amount of \$2,105,180, to be audited by the Commission Staff in this proceeding.² Finally, consistent with the Commission’s previous determination that the “Code permits an interim update proceeding in a rate year, as needed,”³ the Company respectfully reserves the right to file an interim update within the Rate Year, if necessary, to request Commission approval of any adjustments to the rate proposed herein. This Executive Summary and Request Overview provides a high-level background of the PIPP and the requests made in previous update filings.

By way of background, the PIPP was established as part of the Virginia Clean Economy Act (“VCEA”), originally passed in 2020, as a mechanism designed to limit the electric utility payments of persons or households participating in certain, specified public assistance programs,⁴ based upon a percentage of their income, for customers of Dominion Energy Virginia and Appalachian Power Company (“APCo”). The General Assembly further addressed the PIPP, its funding, and implementation, as part of the 2021 legislative session with the passage of Chapter 308 of the 2021 Virginia Acts of Assembly.

The Commission issued an Order on July 29, 2021 in the initial PIPP proceeding, Case No. PUR 2020-00109, directing, among other things, that Dominion Energy Virginia begin collecting the

¹ See Va. Code § 56-585.6 E (establishing the PIPP Treasury Fund on the books of the Comptroller).

² The Commission previously found that the Company may “seek actual administrative expenses that vary in amount from the estimates provided in . . . other PIPP filings.” *Application of Virginia Electric and Power Company, For approval of a proposed update to the rates, terms, and conditions of a universal service fee to be paid by retail customers to fund the PIPP*, Case No. PUR-2024-00081, Final Order at 8 (Oct. 15, 2024) (“October 2024 Order”). The Commission made its finding after Commission Staff observed it is “expect[ed]” and “typical” that “actual administrative costs for which [Dominion Energy Virginia] seeks reimbursement from the PIPP Treasury Fund may differ from . . . projected costs” because a rate like the USF “is designed to recover expected costs for a future period based on the best available projections for that future period.” *Application for Virginia Electric and Power Company, For approval of a proposed update to the rates, terms, and conditions of a universal service fee to be paid by retail customers to fund the PIPP*, Case No. PUR-2024-00081, Staff Report at 17 (Aug. 15, 2024).

³ October 2024 Order at 6 (finding that Va. Code § 56-585.6 B permits Dominion Energy Virginia to file an interim update proceeding in a rate year, as needed).

⁴ Subsequent legislation updated eligibility to be based on income thresholds relative to the federal poverty level.

PIPP fee from statutorily designated customers to fund the estimated start-up costs the Virginia Department of Social Services (“DSS”) needed to establish the PIPP, calculate a PIPP fee on a per kWh basis to recover \$2.4 million on an annual basis, file tariffs reflecting such fee with the Commission, begin making payments to the state treasury to enable DSS to undertake the actions necessary to establish the PIPP, and defer its PIPP administrative costs and seek their recovery at a later date.⁵ Additionally, the July 2021 Order required the Company to file certain reporting and filing requirements, within 60 days of promulgation of DSS rules or guidelines.⁶

On July 11, 2023, the Company, as required, requested that the Commission approve a proposed update to the rates, terms, and conditions of the non-bypassable USF in Case No. PUR-2023-00105. In the request, the Company explained that it would work with DSS towards a launch of the PIPP application process in November 2023 and proposed an updated Rider PIPP of \$0.000761 per kWh to take effect on November 1, 2023, with the program being active and payments beginning December 1, 2023. On October 13, 2023, the Commission issued its Final Order on the application, approving the Rider PIPP with a total Virginia jurisdictional revenue requirement of \$62,771,663, to be effective for service rendered during the Rate Year of November 1, 2023, to October 31, 2024, and directing the Company to file an application to update its Rider PIPP on or before May 1, 2024.⁷ The Commission further ordered that in future PIPP update proceedings that the Company continue to comply with the reporting and filing requirements included in the Commission’s July 2021 Order, as well as the information specified in the October 2023 Order.⁸

As directed by the October 2023 Order, on May 1, 2024, the Company requested that the Commission approve a reduced USF of \$0.00 per kWh in Case No. PUR-2024-00081. The Company explained that projected revenues collected from the USF through October 31, 2024, were sufficient to fund the PIPP through October 31, 2025. The Commission issued the October 2024 Order in that matter on October 15, 2024. The Commission, among other things, adopted a jurisdictional revenue requirement credit of \$1,624,708 to be effective for service rendered during the rate year of November 1, 2024, to October 31, 2025.⁹

The Commission further approved the Company’s Rider PIPP True-up Mechanism Form as a means to compute Rider PIPP revenue requirements going forward.¹⁰ In addition, the Commission:

- Ordered the Company to develop a process for monitoring proceeds from Rider PIPP, remittances to the PIPP Treasury Fund, and the application of bill credits going forward and report on the development of this process in the next Rider PIPP update proceeding.¹¹

⁵ *Ex Parte: Establishing the rates, terms and conditions of a universal fee to be paid by the retail customers of the Virginia Electric and Power Company*, Case No. PUR-2020-00109, Order at Ordering Paragraphs (2)–(4) (July 29, 2021) (the “July 2021 Order”).

⁶ July 2021 Order at Ordering Paragraph (8).

⁷ *Application of Virginia Electric and Power Company, For approval of a proposed update to the rates, terms, and conditions of a universal service fee to be paid by retail customers to fund the PIPP, and for expedited consideration*, Case No. PUR-2023-00105, Final Order at Ordering Paragraphs (1), (4) (Oct. 13, 2023) (the “October 2023 Order”).

⁸ October 2023 Order at Ordering Paragraph (5).

⁹ October 2024 Order at 6.

¹⁰ October 2024 Order at Ordering Paragraph (3).

¹¹ October 2024 Order at Ordering Paragraph (4).

- Ordered the Company make its filing for the November 1, 2026 through October 31, 2026, rate year on or before May 1, 2025.¹²
- Allowed the Company to seek reimbursement of actual administrative expenses that varied in amount from the estimates provided in the Company's May 1, 2024, Application and other PIPP filings.¹³
- Approved a disbursement of \$532,533 from the PIPP Treasury Fund to the Company for its administrative costs from January 2022 through December 2023, which were audited by Commission Staff in the proceeding.¹⁴
- Ordered the Company to continue complying with the reporting and filing requirements included in the Commission's July 2021 Order, as well as the information specified in the October 2023 Order.¹⁵

Consistent with the October 2024 Order, the Company now submits this Update seeking a continuation of the previously approved USF of \$0.00 per kWh for the upcoming Rate Year. Consistent with past practice, this Update includes additional requests. Specifically, the Company requests that the Commission, pursuant to both its general authority and Va. Code § 56-585.6 C, ensures that the Company receives adequate and timely compensation from the PIPP Treasury Fund for its reasonable administrative costs by issuing an order directing disbursement from the PIPP Treasury Fund to the Company for the Company's administrative costs from January 2024 through March 2025 in the amount of \$2,105,180, to be audited by the Commission Staff in this proceeding.

The Company wishes to highlight that the Company, DSS, and the Department of Housing and Community Development ("DHCD," or together with DSS, the "Agencies") began enrolling customers in the PIPP in January 2024, with the first customer subsidies being distributed in February 2024. Since then, the Company and the Agencies have diligently worked together towards the administration of the PIPP. In fact, on March 27, 2025, the Company and DSS executed a contract (the "Contract") outlining the responsibilities of each entity with respect to the PIPP. Among other things, the Contract allows the Company to seek reimbursement of its administrative expenses either: (i) by order of the Commission in conjunction with a PIPP true-up proceeding; or (ii) by written request signed by the DSS Commissioner. The Company has opted currently to proceed under option (i). Furthermore, the Contract permits the Company to seek reimbursement for customer subsidies by submitting specified electronic files to DSS requesting reimbursement from the PIPP Treasury Fund. Regarding customer subsidy cost recovery, the Company and DSS continue working diligently to finalize the necessary implementing procedures to effectuate the parties' obligations under the Contract.

Finally, as detailed herein, the Contract also creates processes for the Company and DSS to exchange information allowing the Company (and DSS, as applicable) to monitor PIPP

¹² October 2024 Order at Ordering Paragraph (5).

¹³ October 2024 Order at Ordering Paragraph (6).

¹⁴ October 2024 Order at Ordering Paragraph (7).

¹⁵ October 2024 Order at Ordering Paragraph (8).

enrollments, Rider PIPP, remittances to the PIPP Treasury Fund, expenditures, and the application of bill credits. The Company and DSS continue to work diligently to finalize the necessary implementing procedures to effectuate these processes.

In sum, the Company remains committed to being an active partner in the PIPP process with the Agencies, under the direction of the Commission and the General Assembly. Consistent with the relevant Commission Orders and applicable statutes, the Company submits this Update requesting that the Commission approve a continuation of a USF of \$0.00 per kWh. In addition, the Company requests that the Commission, pursuant to both its general authority and Va. Code § 56-585.6 C, ensures the Company receives adequate and timely compensation from the PIPP Treasury Fund for its reasonable administrative costs by issuing an order directing disbursement from the PIPP Treasury Fund to the Company for the Company's administrative costs from January 2024 through March 2025 in the amount of \$2,105,180, to be audited by the Commission Staff in this proceeding. Consistent with the Commission's determination that the "Code permits an interim update proceeding in a rate year, as needed,"¹⁶ the Company respectfully reserves the right to file an interim update within the Rate Year, if necessary, to request Commission approval of any adjustments to the rate proposed herein. Finally, in order to implement the USF rate on November 1, 2025, the Company respectfully requests the Commission enter an order in this proceeding by October 15, 2025.

¹⁶ October 2024 Order at 6.

I. Introduction

A. Statutory Authority

The VCEA — Chapter 1193, Acts of Assembly — became effective July 1, 2020.

The VCEA establishes, among other things, a PIPP for the Commonwealth, designed to limit the electric utility payments of persons or households participating in certain, specified public assistance programs to a specified percentage of their income. Eligible participants in the PIPP are customers of Dominion Energy Virginia and APCo.

Section 56-576 of the Code defines a PIPP-eligible utility customer as, “*any person or household whose income does not exceed 150 percent of the federal poverty level.*”

Va. Code § 56-585.6 A directs,

A. The Commission shall, after notice and opportunity for hearing, initiate a proceeding to establish the rates, terms, and conditions of a non-bypassable universal service fee to fund the Percentage of Income Payment Program (PIPP). Such universal service fee shall be allocated to retail electric customers of a Phase I and Phase II Utility on the basis of the amount of kilowatt-hours used and be established at such level to adequately address the PIPP’s objectives to (i) reduce the energy burden of eligible participants by limiting electric bill payments directly to no more than six percent of the eligible participant’s annual household income if the household’s heating source is anything other than electricity, and to no more than 10 percent of an eligible participant’s annual household income on electricity costs if the household’s primary heating source is electricity; (ii) reduce the amount of electricity used by the eligible participant’s household through participation in weatherization or energy efficiency programs and energy conservation education programs; and (iii) reduce the amount of energy, regardless of primary heating source, used by the eligible participant’s household through participation in weatherization or energy efficiency programs and energy conservation education programs. The annual total cost of any programs implemented pursuant to clauses (i), (ii), and (iii) shall not exceed costs, including administrative costs, in the aggregate of . . . \$100 million for any Phase II Utility in any rate year in which such program costs are incurred.

Va. Code § 56-585.6 B further directs,

B. The Commission shall determine the reasonable administrative costs for the investor-owned utility to collect the universal service fee and remit such funds to the Percentage of Income Payment Fund established in subsection E, and any other administrative costs the investor-owned utility may incur in complying with the PIPP, and shall determine the proper recovery mechanism for such costs. A Phase I and Phase II Utility shall not be eligible to earn a rate of return on any equity or costs incurred to comply with the program requirements or implementation. The

Commission shall initiate proceedings to provide for an annual true-up of the universal service fee within 60 days of the commencement of the PIPP and on an annual or semiannual basis thereafter. As part of any annual true-up case, each Phase I and Phase II Utility shall report to the Commission any data or forecasting required by the Commission regarding the participation by PIPP participants in utility energy reduction programs.

Va. Code § 56-585.6 C provides, in part,

The Commission shall promulgate any rules necessary to ensure that (i) funds collected from each utility's universal service fee are directed to the Percentage of Income Payment Fund and (ii) utilities receive adequate compensation from the Fund, on a timely basis, for all reasonable costs of the PIPP, including costs associated with bill payment credits for eligible customers.

Va. Code § 56-585.6 D emphasizes, in part,

D. In carrying out the PIPP's objective of electricity usage reductions, PIPP-eligible customers may, to the extent reasonably possible, utilize existing energy efficiency or related programs approved by the Commission for a Phase I and Phase II Utility and existing and available federal, state, local, or nonprofit programs.

B. Commission Orders and Legislative Amendments Addressing Dominion Energy Virginia PIPP

On December 23, 2020, the Commission issued an Order in Case No. PUR-2020-00109, establishing, among other things, a USF to be charged by Dominion Energy Virginia in the amount of \$0.001125 per kWh, intended to recover approximately \$93 million annually.¹⁷ In so doing, the Commission approved the service fee “with no effective date at this time.”¹⁸ It also ordered that, “[u]pon enactment of legislation setting forth further details on the PIPP and subsequent direction by this Commission, Dominion shall file for review and revision (if necessary) of the PIPP fee, prior to collection of the fee from customers.”¹⁹

The General Assembly further addressed the PIPP, its funding, and implementation as part of the 2021 legislative session with the passage of Chapter 308 of the 2021 Virginia Acts of Assembly, which became effective on July 1, 2021. Among other things, Chapter 308: (1) established the PIPP Treasury Fund on the books of the Comptroller;²⁰ (2) permits the Commission to promulgate any rules necessary to ensure funds collected from the Company's universal service fees are directed to the PIPP Treasury Fund and that the utilities receive adequate compensation from the PIPP Treasury Fund for all reasonable PIPP costs, including bill credits for PIPP-eligible

¹⁷ *Ex Parte: Establishing the rates, terms and conditions of a universal fee to be paid by the retail customers of the Virginia Electric and Power Company*, PUR-2020-00109, Order at Ordering Paragraph (1) (Dec. 23, 2020) (the “December 2020 Order”).

¹⁸ December 2020 Order at Ordering Paragraph (1).

¹⁹ December 2020 Order at Ordering Paragraph (2).

²⁰ See Va. Code § 56-585.6 E.

customers;²¹ and (3) requires the Commission to issue an order following the July 1, 2021, effective date to begin the collection of the universal service fee from customers.²²

On April 21, 2021, the Commission issued an Order on Additional Proceedings in Case No. PUR-2020-00109, which reopened and remanded the case to a Hearing Examiner for further proceedings concerning the PIPP and the universal service fee associated therewith.

The Commission issued the July 2021 Order directing, among other things, that Dominion Energy Virginia begin collecting the USF from statutorily designated customers to fund the estimated start-up costs the DSS needed to establish the PIPP, calculate a USF on a per kWh basis to recover \$2.4 million (system) on an annual basis, file tariffs reflecting such fee with the Commission,²³ begin making payments to the state treasury to enable DSS to undertake the actions necessary to establish the PIPP, and defer its PIPP administrative costs and seek their recovery at a later date.

Additionally, the July 2021 Order required the Company to submit certain reporting/filing requirements, within 60 days of the DSS's promulgation of rules or guidance. Specifically, Ordering Paragraphs (6) and (7) of the July 2021 Order²⁴ direct the Company to provide a report containing the following information ("Reporting Requirements") in its PIPP updates:

(i) the number of PIPP participants enrolled in the program (broken down by primary heating source); (ii) total bill credits applied; (iii) average bill credits applied; (iv) Dominion's administrative costs, including a breakdown and description of major cost categories; (v) DSS's costs to administer the PIPP (as reported to the Company); (vi) the number of PIPP participants that took part in a utility-sponsored energy efficiency program; (vii) average energy savings for PIPP participants that participated in a utility-sponsored energy efficiency program (once evaluation, measurement and verification data is available); (viii) a list of federal, state, local or non-profit energy efficiency and weatherization programs available to PIPP participants (to the extent known to the Company); (ix) aggregate energy usage of PIPP participants before and after enrollment; and (x) PIPP participants' arrearage balances, on average and/or in the aggregate.

Ordering Paragraph (8) and pages 7–8 of the July 2021 Order²⁵ further directed the Company to provide responses to at least the following filing requirements ("Filing Requirements") in its PIPP updates:

(1) the amount the Company proposes to collect from customers (e.g., the full statutory cap of \$100 million, or a different amount due to expected changes in PIPP participation, utility costs or other factors); (2) when the Company proposes to start the increased collections (the proposed PIPP rate year); (3) as

²¹ See Va. Code § 56-585.6 C.

²² See 2021 Va. Acts Chapter 308, Enactment Clause 2.

²³ July 2021 Order at 7. The July 2021 Order mandated that the Company's PIPP fee shall be effective for service rendered on and after September 1, 2021, and shall remain in place until further order of the Commission.

²⁴ July 2021 Order at Ordering Paragraphs (6) and (7).

²⁵ July 2021 Order at 7–8 and Ordering Paragraph (8).

recommended by the Hearing Examiner, how the Company interprets its statutory cap (i.e., whether the Company interprets the cap as the amount recovered through the PIPP fee in a given rate year, or the amount spent or committed through implementation of the PIPP program in a given rate year). The Company should state how it is tracking this fee and whether the Company is coordinating with DSS in its tracking of PIPP enrollments and expenditures to ensure program costs stay within the statutory cap; and (4) whether any true-up is needed regarding start-up costs/costs collected to date, and any information needed for the Commission to assess the requested true-up.

The Company began charging customers the approved USF of 0.0027 cents per kWh, or \$0.000027, on and after September 1, 2021.

On July 11, 2023, the Company submitted an application requesting that the Commission approve its proposed update to the rates, terms, and conditions of the USF to be paid by retail customers to fund the PIPP in Case No. PUR-2023-00105. The Commission issued the October 2023 Order in that matter on October 13, 2023. The Commission, among other things, adopted a jurisdictional revenue requirement of \$62,771,633 to be effective for service rendered during the rate year of November 1, 2023, to October 31, 2024. The Commission further directed the Company to provide a revenue requirement true-up methodology with calculation and narrative to support such methodology.

The Commission's October 2023 Order also required the Company to comply with new reporting obligations ("Additional Reporting Requirements") in addition to the Reporting Requirements stated in the July 2021 Order. The Additional Reporting Requirements consist of:

(i) a percentile comparison of bill credits for PIPP participants in each category of heating source and the total population of PIPP participants; (ii) the Company's actual operations and maintenance ("O&M") expenses related to the PIPP and any true-up to actual that may be necessary through a future Rider PIPP; (iii) the PIPP participants' participation in utility-sponsored energy efficiency programs; (iv) the energy savings of PIPP participants resulting from utility-sponsored energy efficiency programs; (v) the PIPP participants' aggregate energy usage; and (vi) the average and total arrearage balances for the population of customers who enrolled in the PIPP.

On May 1, 2024, the Company requested that the Commission approve a reduced USF of \$0.00 per kWh in Case No. PUR-2024-00081. The Company explained that projected revenues collected through October 31, 2024, from the USF were sufficient to fund the PIPP through October 31, 2025. The Commission issued the October 2024 Order in that matter on October 15, 2024. The Commission, among other things, adopted a jurisdictional revenue requirement credit of \$1,624,708 to be effective for service rendered during the rate year of November 1, 2024, to October 31, 2025.²⁶ Because the Company's projected rate year revenue requirement was relatively small, Commission Staff did not "oppose the Company's proposal to set the Rider PIPP

²⁶ October 2024 Order at 6.

rate to zero[.]”²⁷ and the Commission allowed “additional funds in the PIPP Treasury Fund to be used to administer the PIPP in the future.”²⁸ Because the Company’s projected rate year revenue requirement was relatively small, Commission Staff did not “oppose the Company’s proposal to set the Rider PIPP rate to zero[.]”²⁹ and the Commission allowed “additional funds in the PIPP Treasury Fund to be used to administer the PIPP in the future.”³⁰

The Commission further approved the Company’s Rider PIPP True-up Mechanism Form as a means to compute Rider PIPP revenue requirements going forward.³¹ In addition, the Commission:

- Ordered the Company to develop a process for monitoring proceeds from Rider PIPP, remittances to the PIPP Treasury Fund, and the application of bill credits going forward and report on the development of this process in the next Rider PIPP update proceeding.³²
- Ordered the Company make its filing for the November 1, 2026 – October 31, 2026, rate year on or before May 1, 2025.³³
- Allowed the Company to seek reimbursement of actual administrative expenses that vary in amount from the estimates provided in the current Application or other PIPP filings.³⁴
- Approved a disbursement of \$532,533.00 from the PIPP Treasury Fund to the Company for its administrative costs from January 2022 through December 2023, which were audited by Commission Staff in the proceeding.³⁵
- Ordered the Company to continue complying with the Additional Reporting Requirements in the October 2023 Order, in addition to the Reporting Requirements stated in the July 2021 Order.³⁶

C. Program Administration and 2025 PIPP Update

The Company files this Update and requests approval of a USF of \$0.00 per kWh prior to the start of the Rate Year on November 1, 2025.

Further, the Company respectfully requests that the Commission, pursuant to both its general authority and Va. Code § 56-585.6 C, ensures the Company receives adequate and timely compensation from the PIPP Treasury Fund for its reasonable administrative costs.³⁷ On March 27, 2025, the Company and DSS entered into the Contract which, among other things, permits the Company to continue seeking recovery of its administrative costs through filings before the

³² October 2024 Order at Ordering Paragraph (4).

³³ October 2024 Order at Ordering Paragraph (5).

³⁴ October 2024 Order at Ordering Paragraph (6).

³⁵ October 2024 Order at Ordering Paragraph (7).

³⁶ October 2024 Order at Ordering Paragraph (8).

³⁷ As discussed below, the Company’s Contract with DSS expressly permits the Company to seek reimbursement of its administrative expenses by order of the Commission in conjunction with a PIPP true-up proceeding. *See also* Va. Code § 56-585.6 E.

Commission. As contemplated by the Contract, the Company therefore requests that the Commission ensures the Company receives adequate and timely compensation from the PIPP Treasury Fund for its reasonable administrative costs by issuing an order directing disbursement from the PIPP Treasury Fund to the Company for the Company's administrative costs from January 2024 through March 2025 in the amount of \$2,105,180, to be audited by the Commission Staff in this proceeding.³⁸ To date, the Company has recovered \$532,533.00 in administrative costs incurred since the inception of the PIPP.

The Company began issuing subsidies to PIPP customers in February 2024. Pursuant to the Contract, the Company will begin to recoup customer subsidy amounts already provided in the near future. Full implementation of the Contract is currently underway but is still at the inception phase. Consequently, the Company and DSS are continuing to work diligently to finalize the necessary implementing procedures to ensure that the Company can begin recouping customer subsidy amounts issued—both those from prior months and moving forward—in a timely fashion.

Finally, consistent with the Commission's determination that the "Code permits an interim update proceeding in a rate year, as needed,"³⁹ the Company respectfully reserves the right to file an interim update within the Rate Year, if necessary, to request Commission approval of any adjustments to the rate proposed herein.

³⁸ See *supra* note 2.

³⁹ October 2024 Order at 6.

II. Reporting Requirements

Dominion Energy Virginia responds as follows to the directives outlined by the Commission in Ordering Paragraphs (6) and (7) of the July 2021 Order related to certain Reporting Requirements, as well as Ordering Paragraphs (4) and (5) of the October 2023 Order related to true-up methodology and the Additional Reporting Requirements, to the extent the information is available at the time of the filing.⁴⁰ The Company will continue to file these Reporting Requirements with future PIPP Update filings until further order of the Commission.⁴¹

A. The number of PIPP participants enrolled in the program (broken down by primary heating source).⁴²

As of March 31, 2025, approximately 22,822 customers were actively enrolled in the program.

Table 1 provides the breakdown of enrolled PIPP participants by primary hearing source.

Table 1: PIPP Participant Primary Heating Source Breakdown⁴³	
Primary Heating Source Type	Number of PIPP Participants
Electric	19,518
Natural Gas, No Heating, or Other	3,304
Total	22,822

B. The total bill credits applied.⁴⁴

As of March 31, 2025, the Company has awarded \$14,505,767 in bill credits to PIPP participants.

C. The average bill credits applied.⁴⁵

Since the program began in January 2024, the average bill credit applied is \$159.47. This monthly credit amount represents the credit towards the current month's electric bill and 1/12th of a PIPP participant's arrears balance.

D. Percentile comparison of bill credits for PIPP participants in each category of heating source and the total population of PIPP participants.⁴⁶

⁴⁰ July 2021 Order at Ordering Paragraphs (6) and (7) ("Dominion's reports shall exclude customer identifying information."); October 2023 Order at Ordering Paragraphs (4) and (5).

⁴¹ July 2021 Order at Ordering Paragraphs (6) and (7).

⁴² Required by the July 2021 Order at Ordering Paragraph (6).

⁴³ From DSS PIPP enrollment file.

⁴⁴ Required by the July 2021 Order at Ordering Paragraph (6).

⁴⁵ Required by the July 2021 Order at Ordering Paragraph (6).

⁴⁶ Required by the October 2023 Order at Ordering Paragraph (4).

As of March 31, 2025, 22,026 out of 33,166 unique customers received a bill credit, or 66.4% of customers enrolled in PIPP during that period.⁴⁷ Of the customers billed between January 2024 and March 31, 2025, 77,954 bills were for customers heating with electricity and 13,559 bills were for customers heating with gas or another source. Per PIPP requirements, bill credits were applied to qualifying customer accounts. The Company applied 86.6% of bill credits, approximately \$12.5 million, to customers with electric heat, and 13.4% of bill credits, approximately \$2 million, to customers with gas or other heat sources, as shown in **Figure 1**.

Figure 1

⁴⁷ Notably, however, this figure is reduced as all enrolled customers did not bill by March 31, 2024.

Figure 2 represents the distribution of total credits generated per bill by primary heating type through quartiles represented in a box and whiskers plot. Statistical maximum outliers are represented above the upper quartile and represent 5.2% of the bills for primary electric heat and 5% of bills for primary gas or other heating sources and do not reflect typical credits granted to customers.

Figure 2

E. The Company's administrative costs, including a breakdown and description of major cost categories, including the Company's actual operations and maintenance ("O&M") expenses related to the PIPP.⁴⁸

The Company has invoiced \$2,105,180 in administrative expenses from January 2024 to March 2025, as shown in **Table 2**.

Table 2: Actual Administrative Costs (24-Jan to 24-July)							
Administrative Invoicing	24-Jan	24-Feb	24-Mar	24-Apr	24-May	24-Jun	24-Jul
Actual Incurred Admin Expenses Excludes CIS	\$115,097	\$66,730	\$94,334	\$442,269	(\$232,974)	\$104,631	\$88,983
Interest	\$6,904	\$7,329	\$7,944	\$9,124	\$10,530	\$11,660	\$12,818
CIS Amortized	\$27,850	\$27,850	\$27,850	\$27,850	\$29,999	\$29,999	\$29,999
Total	\$149,851	\$101,909	\$130,128	\$479,243	(\$192,445)	\$146,290	\$131,800

Table 2 (cont'd): Actual Administrative Costs (24-Aug to 25-Mar)								
Administrative Invoicing	24-Aug	24-Sep	24-Oct	24-Nov	24-Dec	25-Jan	25-Feb	25-Mar
Actual Incurred Admin Expenses Excludes CIS	\$57,548	\$99,651	\$92,932	\$60,855	\$181,268	\$73,561	\$134,895	\$49,290
Interest	\$14,237	\$15,895	\$17,556	\$18,835	\$20,026	\$21,613	\$23,454	\$25,904

Total	\$101,784	\$147,101	\$142,043	\$111,245	\$232,849	\$126,729	\$189,904	\$106,749

For the Rate Year, Dominion Energy Virginia projects the following administrative expenses: (1) amortization of customer information systems ("CIS") programming costs; (2) projected O&M costs for November 1, 2025 through October 31, 2026; and (3) financing costs associated with rate base. These projections are provided in **Table 3**.

⁴⁸ Required by the July 2021 Order at Ordering Paragraph (6) and the October 2023 Order at Ordering Paragraph (4). Ordering Paragraph (4) of the October 2023 Order also requires the Company to provide information related to "any true-up to actual that may be necessary through a future Rider PIPP." The Company will address true-up and the related methodology for calculating the true-up in **Section III.D** of this application.

Table 3: Projected Administrative Costs		
Major Cost Categories	Cost Breakdown	Description of Categories
CIS Programming	\$378,657	This reflects annual amortization of a total capitalized cost of the \$5.68 million amortized over 15 years.
Estimated O&M for the upcoming year	\$1,118,868	This cost includes the estimated expenses for November 1, 2025 through October 31, 2026, for Dominion Energy Virginia labor and materials to administer the PIPP.
Financing Costs	\$73,187	This cost includes financing costs (only inclusive of cost of debt) associated with the rate base and deferred O&M costs.
Total	\$1,570,712	

F. The Department of Social Services' costs to administer the PIPP (as reported to the Company).⁴⁹

The DSS reports that it has spent \$5.21 million for the administration of the PIPP from the Program's inception to February 2025, with Dominion Energy Virginia's share amounting to \$4.17 million. DSS has confirmed its intent to utilize the full approved annual administrative budget of \$5.5 million for the upcoming year, of which \$4.4 million will be attributed to Dominion Energy Virginia.⁵⁰

G. The number of PIPP participants that took part in a utility-sponsored energy efficiency program.⁵¹

The Company analyzed the account numbers and premises addresses of the 22,822 PIPP participants enrolled in the Program as of the end of March 2025 and provides the following information regarding participation in a utility-sponsored energy efficiency program:

- 840 customers have participated in a Company demand-side management ("DSM") program (including the Company's income- and age-qualified weatherization programs) since the Program opened for enrollment in March 2024.

⁴⁹ Required by the July 2021 Order at Ordering Paragraph (6).

⁵⁰ On July 1, 2024, the General Assembly provided an increase to DSS administrative costs totaling \$5.5 million per year, of which the Company assumed its share to be 80%, or \$4.4 million. See 2024 Appropriations Act (HB6001) (enacted), available at <https://budget.lis.virginia.gov/get/budget/5012/HB6001/> (last visited Apr. 27, 2025).

⁵¹ Required by the July 2021 Order at Ordering Paragraph (6) and the October 2023 Order at Ordering Paragraph (4).

Program Name	Counts
IAQ Solar	11
EnergyShare Weatherization	26
Residential Home Energy Assessment	1
Residential EE Kits	146
Residential Multifamily	34
Residential Manufactured Housing	3
Residential Smart Thermostat Demand Response	70
Residential Smart Thermostat WeatherSmart	5
Residential Smart Thermostat Purchase	3
Residential Virtual Audit	205
Residential My Energy Target	272
Residential IAQ Bundle	64
Total	840

The Company's DSM programs available to eligible residential customers include: EnergyShare Weatherization, Income and Age Qualifying Bundle, Home Energy Assessment, Residential Welcome Kits, Residential Multifamily Program, Manufactured Housing Program, Smart Thermostat Rebates and WeatherSmart, Smart Thermostat Demand Response, Virtual Audit, My Energy Target and Income and Age Qualifying Solar.

H. The average energy savings for PIPP participants that participated in a utility-sponsored energy efficiency program (once evaluation, measurement and verification data is available).⁵²

Not yet applicable. In order to determine the average energy savings of PIPP participants that participated in the Company's energy efficiency programs, the Company must have participant usage data for the 12 months preceding and following Program enrollment. Then, the Company must complete weather normalizing to account for weather-induced variations from year to year. Because most PIPP participants enrolled after March 2024, average usage information will not be available until the Company's 2026 PIPP update filing.

In the interim, the Company notes that for the programs listed in **Section II.G**, the average savings by program and participant can be found in the Company's Evaluation, Measurement and Verification ("EM&V") Annual Report for the respective programs, which are filed each June.⁵³

The Company further notes that its EM&V vendor currently tracks information for the utility-sponsored low-income programs and will track savings for PIPP participants enrolled in its energy efficiency programs as the necessary EM&V data becomes available.

⁵² Required by the July 2021 Order at Ordering Paragraph (6) and the October 2023 Order at Ordering Paragraph (4).

⁵³ For the Company's most recent report, see *Application of Virginia Electric and Power Company for approval of its 2022 DSM Update pursuant to Section 56-585.1 A 5 of the Virginia Code*, Case No. PUR-2022-00210, Evaluation, Measurement, and Verification Report (filed June 12, 2024). The Company intends to file another EM&V Report on or around June 15, 2025, in Case No. PUR-2023-00217.

I. A list of federal, state, local or non-profit energy efficiency and weatherization programs available to PIPP participants (to the extent known to the Company).⁵⁴

Dominion Energy Virginia is aware of two federally- and state-funded programs that may be available to PIPP participants: (1) the U.S. Department of Energy Weatherization Assistance Program; and (2) the Low-Income Home Energy Assistance Program. Virginia Energy Sense, which operates under the guidance of the Commission, also provides a list of possible incentives and rebates for which PIPP participants may qualify: <https://www.virginiaenergysense.org/incentives-and-rebates/>.

J. The aggregate energy usage of PIPP participants before and after enrollment.⁵⁵

Not yet applicable. The data necessary to provide this information would not be available to the Company until after the first full year of PIPP's implementation. In addition, please see **Section II.H.**

K. The PIPP participants' arrearage balances, on average and in the aggregate.⁵⁶

For the 22,822 participants enrolled and active in PIPP as of March 31, 2025, the total arrears carried by these customers at enrollment is approximately \$10.5 million. The average arrearage balance is approximately \$703 per customer with an arrears balance and \$458 per customer overall.

⁵⁴ Required by the July 2021 Order at Ordering Paragraph (6).

⁵⁵ Required by the July 2021 Order at Ordering Paragraph (6) and the October 2023 Order at Ordering Paragraph (4).

⁵⁶ Required by the July 2021 Order at Ordering Paragraph (6) and the October 2023 Order at Ordering Paragraph (4).

III. Filing Requirement Updates

Dominion Energy Virginia responds as follows to the directives set forth in Ordering Paragraph (8) and pages 7–8 of the July 2021 Order regarding Filing Requirements;⁵⁷ Ordering Paragraph (4) of the October 2023 Order regarding proposed revenue requirement true-up methodology;⁵⁸ and Ordering Paragraph (4) of the October 2024 Order regarding monitoring proceeds from Rider PIPP, remittances to the PIPP Treasury Fund, the application of bill credits, and the Company’s progress in working with DSS to establish necessary procedures for the disbursement of funds from the PIPP Treasury Fund.⁵⁹

A. *The amount the Company proposes to collect from customers (e.g., the full statutory cap of \$100 million, or a different amount due to expected changes in PIPP participation, utility costs or other factors).*⁶⁰

Dominion Energy Virginia proposes to collect \$0.00 (System) from its customers in the Commonwealth to fund the PIPP over the Rate Year. The Virginia jurisdictional amount to fund the PIPP is \$0.00. Please see **Attachment 1** for a breakdown of the estimated PIPP costs on a revenue requirement basis.

As reflected in **Attachment 1**, the funds currently remaining in the PIPP Treasury Fund are estimated to be sufficient to fully fund the PIPP through the end of the Rate Year. Indeed, using current estimates and assumptions, the Company calculates a Virginia jurisdictional revenue requirement of \$(2,186,062) for the Rate Year. While the Company acknowledges that its previous over-collection would ordinarily result in the calculation of a rate designed to credit that amount to customer bills over the rate year, in the Company’s 2024 PIPP update proceeding, Commission Staff did not “oppose the Company’s proposal to set the Rider PIPP rate to zero[.]”⁶¹ Instead, the Commission allowed “additional funds in the PIPP Treasury Fund to be used to administer the PIPP in the future.”⁶² The Company submits that the mechanics of the USF collections and remittances continue to make the application of a credit infeasible. All USF revenues are transferred from the Company to the PIPP Treasury Fund on a monthly basis and, therefore, are not within the Company’s control. A credit to customers would still require a remittance from the PIPP Treasury Fund to the Company, which would then be applied to customer bills. The Company has not explored with the Agencies, state treasury, and other state regulators whether such a process would be legally permissible. Given that sufficient funds remain in the PIPP Treasury Fund, the Company submits that continuing to implement a \$0.00 revenue requirement for the Rate Year is reasonable in these circumstances.

As noted, the current PIPP USF is \$0.00 per kWh. The Company requests in this filing that the Commission approve a continued USF of \$0.00 per kWh effective November 1, 2025. Because

⁵⁷ July 2021 Order at 7–8 and Ordering Paragraph (8).

⁵⁸ October 2023 Order at Ordering Paragraph (4).

⁵⁹ October 2024 Order at 7–8 and Ordering Paragraph (4).

⁶⁰ Required by the July 2021 Order at 7.

⁶¹ October 2024 Order at 4.

⁶² October 2024 Order at 4.

the Company is requesting a zero rate for the Rate Year, a calculation of the USF is not provided with this Update.

The updated tariff sheet reflecting the requested USF and terms and conditions associated with the proposed rate is provided as Attachment 2.

With this filing and to assist with the convenience and ease of Commission Staff's review, Dominion Energy Virginia contemporaneously provided Commission Staff with access to a designated electronic platform (*i.e.*, eRoom) for this Update in order for Commission Staff to review workpapers supporting the revenue requirement calculations.

B. When the Company proposes to start the decreased collections (the proposed PIPP rate year).⁶³

Dominion Energy Virginia's proposed Rate Year is November 1, 2025 through October 31, 2026. The Company proposes a rate effective date of the continued USF of November 1, 2025. The Company respectfully requests a Commission Order in this proceeding by October 15, 2025.

C. How the Company interprets its statutory cap (i.e., whether the Company interprets the cap as the amount recovered through the PIPP fee in a given rate year, or the amount spent or committed through implementation of the PIPP program in a given rate year). The Company should state how it is tracking this fee and whether the Company is coordinating with the Department of Social Services in its tracking of PIPP enrollments and expenditures to ensure program costs stay within the statutory cap.⁶⁴

The Company restates the interpretation provided in its 2023 and 2024 PIPP Updates and interprets the statutory cap as the maximum amount that can be billed to the PIPP Treasury Fund in a given year.

To track the amount of funds the Company collects from its customers to send to the PIPP Treasury Fund on a monthly basis, each month, Dominion Energy Virginia is required to wire billed PIPP USF amounts to the state treasury. The Company wires the funds by the 15th of each month.

With respect to tracking reimbursements, the Company maintains the following monthly reporting procedures:

- Bill subsidies from the previous month;
- The Company's actual administrative O&M costs from the previous month;
- CIS Programming amortization amounts for the rate year; and
- Financing costs (only inclusive of cost of debt) associated with the rate base and deferred O&M costs.

⁶³ Required by the July 2021 Order at 7.

⁶⁴ Required by the July 2021 Order at 7–8.

As discussed, the Company is entitled to seek reimbursement of its administrative expenses under the Contract through either: (i) an order of the Commission in conjunction with a program true-up proceeding; or (ii) submission of a formal written request, duly signed by the DSS Commissioner. The Company has currently elected to proceed under option (i) and monitor the PIPP Treasury Fund through the Contract, which requires:

- DSS to provide reporting of the month-to-date and year-to-date reconciled revenues and expenditures, to include DSS and Dominion Energy Virginia administrative expenses, when applicable, along with the PIPP Treasury Fund balance related to Dominion Energy Virginia's subaccount for the PIPP Treasury Fund, including any earned interest; and
- Dominion Energy Virginia to establish internal controls to monitor and track the PIPP USF deposits and administrative expenses for PIPP with reconciliation of the PIPP Treasury Fund performed monthly as well as annually. Additionally, Dominion Energy Virginia will provide a monthly report to the DSS to include month-to-date and year-to-date deposits, disbursements, and expenditures related to PIPP.

As the Contract has only been recently executed, the Company and DSS are working to finalize the reporting requirements. Reporting provided by DSS to date represents information available as of this filing. To date, the Company's primary focus has been on finalizing and implementing the Contract, with the understanding that comprehensive reporting would be finalized once necessary implementing procedures have been established. The Company will continue to collaborate with DSS to develop the reporting requirements and expects to finalize them in the near future.

D. Whether any true-up is needed regarding start-up costs/costs collected to date, the proposed revenue requirement true-up methodology, and a detailed calculation and narrative to support such methodology.⁶⁵

Attachment 1 includes the Company's consolidated PIPP True-up and Revenue Requirement form. The form calculates the over- or under-collection of prior period PIPP costs incurred through calendar year 2024 as compared to the PIPP Treasury Fund balance as of December 31, 2024. It then estimates the current remittance period over or under-collection of PIPP costs for the time period January 1, 2025 through October 31, 2025, by calculating actual and projected Program costs offset by actual and projected remittances to the fund. Finally, projected costs during the Rate Year are estimated to determine the Projected Remittance Period Revenue Requirement. The sum of these three steps produces a total revenue requirement upon which the Virginia jurisdictional allocation factor is applied.

⁶⁵ Required by the July 2021 Order at 8 and the October 2023 Order at Ordering Paragraph (4).

*E. A status report on the Company's development of a process for monitoring proceeds from Rider PIPP, remittances to the PIPP Treasury Fund, and the application of bill credits going forward.*⁶⁶

Dominion Energy Virginia currently maintains monthly reporting on items noted in Section III.C, including bill subsidies, actual administrative O&M costs, CIS Programming amortization amounts, and financing costs (only inclusive of cost of debt) associated with the rate base and deferred O&M costs.

The Contract establishes processes to monitor the aforementioned items to ensure the USF is sufficient to continue funding the Program. By monitoring these items, the Company will have the ability to determine if the PIPP Treasury Fund balance, plus forecasted USF deposits, minus forecasted bill subsidies and Dominion Energy Virginia administrative expenses, will be less than the three-month reserve requirement as shown in Attachment 1, plus remaining DSS administrative expenses. The Company continues to believe that a three-month reserve is the appropriate level to facilitate an expedited petition for interim review of the USF with the Commission, if needed, to avoid Program suspension.

*F. A report on the status of the Company's progress in working with DSS to establish necessary procedures for the disbursement of funds from the PIPP Fund including details of any disbursements made to the Company.*⁶⁷

As noted, the Company's Contract allows Dominion Energy Virginia to seek reimbursement of administrative funds through either: (i) order of the Commission in conjunction with a Program true-up proceeding; or (ii) submission of a formal written request, duly signed by the DSS Commissioner. The Company is currently electing to proceed under option (i) and requests the Commission audit and authorize reimbursement of administrative expenses through this Update filing. To date, the Company has been reimbursed \$532,000 for its administrative costs.

Also under the Contract, the Company will seek reimbursement of customer subsidies on a monthly basis by submitting specified electronic files to DSS requesting reimbursement from the PIPP Treasury Fund. To date, the Company has not received any reimbursement for customer subsidies, which the Company first provided in February 2024.⁶⁸

⁶⁶ Required by the October 2024 Order at 6.

⁶⁷ Required by the October 2024 Order at 7.

⁶⁸ See *supra* Section I.C (explaining ongoing process for implementing statutory program and Contract).

IV. Conclusion

Dominion Energy Virginia provides this Update pursuant to the Commission's directives as set forth in the July 2021 Order, the October 2023 Order, and the October 2024 Order. The Company remains committed to being an active partner in the PIPP with the implementing state agencies, under the direction of the Commission and the General Assembly. As part of this Update, the Company requests that the Commission approve a continuation of a USF of \$0.00 per kWh. In addition, the Company requests that the Commission, pursuant to both its general authority and Va. Code § 56-585.6 C, ensures the Company receives adequate and timely compensation from the PIPP Treasury Fund for its reasonable administrative costs by issuing an order directing disbursement from the PIPP Treasury Fund to the Company for the Company's administrative costs from January 2024 through March 2025 in the amount of \$2,105,180, to be audited by the Commission Staff in this proceeding. This Update includes additional data compared to the Company's previous PIPP filings, reflecting the ongoing implementation of the Program. However, the Company wishes to note that some information remains unavailable given the PIPP's early stage of implementation.

WHEREFORE, for the foregoing reasons, Dominion Energy Virginia respectfully requests that: the Commission:

- (i) approve the Company's Update;
- (ii) issue an order directing disbursement from the PIPP Treasury Fund for the Company's administrative costs from January 2024 through March 2025 in the amount of \$2,105,180, to be audited by the Commission Staff in this proceeding;
- (iii) reserve the Company's right to file an interim update within the next Rate Year; and
- (iv) grant any further or other relief as is necessary or appropriate.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

APPLICATION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2025-00075

For approval of a proposed update to the rates,
terms, and conditions of a universal service fee to be
paid by retail customers to fund the PIPP

ORDER FOR NOTICE AND COMMENT

On May 1, 2025, Virginia Electric and Power Company (“Dominion” or “Company”) filed an application (“Application”) with the State Corporation Commission (“Commission”) requesting approval of a proposed update to the rates, terms, and conditions of a universal service fee (“USF”) to be paid by retail customers to fund the Percentage of Income Payment Program (“PIPP”). Specifically, Dominion proposes to continue a USF to fund the PIPP of \$0.00 per kilowatt hour (“kWh”) effective November 1, 2025 through October 31, 2026 (“Rate Year”).¹

The PIPP was established as part of the 2020 Virginia Clean Economy Act as a mechanism designed to limit the electric utility payments of persons or households participating in certain, specified public assistance programs, based upon a percentage of their income, for customers of Dominion and Appalachian Power Company (“APCo”). The General Assembly further addressed the PIPP, its funding, and implementation, as part of the 2021 legislative session with the passage of Chapter 308 of the 2021 Virginia Acts of Assembly, Special Session I (“Chapter 308”). Among other things, Chapter 308 updated eligibility to be based on income thresholds relative to the federal poverty level. A PIPP-eligible utility customer is

¹ Application at i; 14.

defined as “any person or household whose income does not exceed 150 percent of the federal poverty level.”² Eligible participants in the PIPP are customers of Dominion and APCo.

The Commission issued an Order on July 29, 2021 directing, among other things, that Dominion begin collecting the USF from statutorily designated customers to fund the estimated start-up costs that the Department of Social Services (“DSS”) needed to establish the PIPP, calculate a USF on a per kWh basis to recover \$2.4 million on an annual basis, file tariffs reflecting such fee with the Commission, begin making payments to the state treasury to enable DSS to undertake the actions necessary to establish the PIPP, and defer its PIPP administrative costs and seek their recovery at a later date.³

In its most recently adjudicated PIPP update filing, Dominion sought and was granted Commission approval of a USF to fund the PIPP of \$0.00 per kWh based on Dominion’s projections that revenues collected through October 31, 2024, would be sufficient to fund the PIPP through October 31, 2025.⁴ Among other things, the Commission approved the Company’s Rider PIPP True-up Mechanism Form as a means to compute Rider PIPP revenue requirements going forward.⁵ The Commission also concluded that \$532,533 of audited PIPP-related

Ann. Rept. 229, Order (July 29, 2021).

⁴ *See Application of Virginia Electric and Power Company, For approval of a proposed update to the rates, terms, and conditions of a universal service fee to be paid by retail customers to fund the PIPP*, Case No. PUR-2024-00081, Doc. Con. Cen. No. 2410610001, Final Order at 8 (Oct. 15, 2024).

⁵ *Id.*

administrative costs incurred between January 2022 and December 2023, could be appropriately recovered by the Company from the PIPP Treasury Fund.⁶

In support of its request in the instant proceeding to continue a zero rate for the USF to fund the PIPP, Dominion states that it projects that the revenues collected through October 31, 2024 from the previously approved USF will be sufficient to fund the PIPP through the end of the Rate Year.⁷ The Company also requests that the Commission, pursuant to its general authority and Code § 56-585.6 C, ensure that the Company receives adequate and timely compensation from the PIPP Treasury Fund for its reasonable administrative costs by issuing an order directing disbursement from the PIPP Treasury Fund to the Company for the Company's administrative costs from January 2024 through March 2025 in the amount of \$2,105,180 to be audited by the Commission Staff ("Staff") in this proceeding.⁸ The Company also states that it respectfully reserves the right to file an interim update within the Rate Year, if necessary, to request Commission approval of any adjustments to the rate proposed in this proceeding.⁹ In order to implement the USF rate on November 1, 2025, the Company respectfully requests the Commission enter an order in this proceeding by October 15, 2025.¹⁰

Finally, in conjunction with the filing of its Application, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Ruling ("Motion for Protective

⁶ *Id.* at 7, 9.

⁷ Application at i.

⁸ *Id.* at iii.

⁹ *Id.* at iv.

¹⁰ *Id.*

Ruling”) and a proposed protective order concerning the use of confidential information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; that Dominion should provide public notice of its Application; that interested persons should be afforded an opportunity to file comments on the Company’s Application and request a hearing; and that the Staff should investigate the Application and file a report containing Staff’s findings and recommendations. Further, we find that a Hearing Examiner should be appointed to rule on all discovery matters, including the Company’s Motion for Protective Ruling, and all *pro hac vice* motions.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2025-00075.

(2) All pleadings, briefs, or other documents required to be served in this matter should be submitted electronically to the extent authorized by Rule 5 VAC 5-20-150, *Copies and format*, of the Commission’s Rules of Practice and Procedure (“Rules of Practice”).¹¹ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk’s Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and

¹¹ 5 VAC 5-20-10 *et seq.*

Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and Rule 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to rule on any discovery matters, including the Company's Motion for Protective Ruling, and motions *pro hac vice* that arise during the course of this proceeding. A copy of each such filing made with the Commission's Clerk's Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.¹²

(5) An electronic copy of the Company's Application may be obtained by submitting a written request to counsel for the Company: Nicole M. Allaband, Esquire, Dominion Energy Services, Inc., 120 Tredegar Street, Richmond, Virginia 23219, or nicole.m.allaband@dominionenergy.com. Interested persons also may download unofficial copies from the Commission's website: scc.virginia.gov/case-information.

(6) On or before June 17, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's Virginia service territory:

NOTICE TO THE PUBLIC OF AN APPLICATION
BY VIRGINIA ELECTRIC AND POWER COMPANY
FOR APPROVAL OF A PROPOSED UPDATE TO THE
RATES, TERMS, AND CONDITIONS OF A
UNIVERSAL SERVICE FEE TO BE PAID BY
RETAIL CUSTOMERS TO FUND THE PIPP
CASE NO. PUR-2025-00075

¹² Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

On May 1, 2025, Virginia Electric and Power Company (“Dominion” or “Company”) filed an application (“Application”) with the State Corporation Commission (“Commission”) requesting approval of a proposed update to the rates, terms, and conditions of a universal service fee (“USF”) to be paid by retail customers to fund the Percentage of Income Payment Program (“PIPP”). Specifically, Dominion proposes to continue a USF to fund the PIPP of \$0.00 per kilowatt hour (“kWh”) effective November 1, 2025 through October 31, 2026 (“Rate Year”).

The PIPP was established as part of the 2020 Virginia Clean Economy Act as a mechanism designed to limit the electric utility payments of persons or households participating in certain, specified public assistance programs, based upon a percentage of their income, for customers of Dominion and Appalachian Power Company (“APCo”). The General Assembly further addressed the PIPP, its funding, and implementation, as part of the 2021 legislative session with the passage of Chapter 308 of the 2021 Virginia Acts of Assembly, Special Session I (“Chapter 308”). Among other things, Chapter 308 updated eligibility to be based on income thresholds relative to the federal poverty level. A PIPP-eligible utility customer is defined as “any person or household whose income does not exceed 150 percent of the federal poverty level.” Eligible participants in the PIPP are customers of Dominion and APCo.

The Commission issued an Order on July 29, 2021 directing, among other things, that Dominion begin collecting the USF from statutorily designated customers to fund the estimated start-up costs that the Department of Social Services (“DSS”) needed to establish the PIPP, calculate a USF on a per kWh basis to recover \$2.4 million on an annual basis, file tariffs reflecting such fee with the Commission, begin making payments to the state treasury to enable DSS to undertake the actions necessary to establish the PIPP, and defer its PIPP administrative costs and seek their recovery at a later date.

In its most recently adjudicated PIPP update filing, Dominion sought and was granted Commission approval of a USF to fund the PIPP of \$0.00 per kWh based on Dominion’s projections that revenues collected through October 31, 2024, would be sufficient to fund the PIPP through October 31, 2025. Among other things, the Commission approved the Company’s Rider PIPP True-up Mechanism Form as a means to compute Rider PIPP revenue requirements going forward. The Commission also concluded that \$532,533 of audited PIPP-related

administrative costs incurred between January 2022 and December 2023, could be appropriately recovered by the Company from the PIPP Treasury Fund.

In support of its request in the instant proceeding to continue a zero rate for the USF to fund the PIPP, Dominion states that it projects that the revenues collected through October 31, 2024 from the previously approved USF will be sufficient to fund the PIPP through the end of the Rate Year. The Company also requests that the Commission, pursuant to its general authority and Code § 56-585.6 C, ensure that the Company receives adequate and timely compensation from the PIPP Treasury Fund for its reasonable administrative costs by issuing an order directing disbursement from the PIPP Treasury Fund to the Company for the Company's administrative costs from January 2024 through March 2025 in the amount of \$2,105,180 to be audited by the Commission Staff in this proceeding. The Company also states that it respectfully reserves the right to file an interim update within the Rate Year, if necessary, to request Commission approval of any adjustments to the rate proposed in this proceeding. In order to implement the USF rate on November 1, 2025, the Company respectfully requests the Commission enter an order in this proceeding by October 15, 2025.

Further details are set forth in the Company's Application and supporting exhibits, and interested persons are encouraged to review these documents.

The Commission entered an Order for Notice and Comment that, among other things, directed the Company to provide notice to the public and provided interested persons an opportunity to comment on the Company's Application, to file a notice of participation and to request a hearing in this matter.

Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Commission's Rules of Practice and Procedure ("Rules of Practice"), 5 VAC 5-20-10 *et seq.*, the Commission has directed that service on parties and the Commission's Staff in this matter shall be accomplished by electronic means. Please refer to the Commission's Order for Notice and Comment for further instructions concerning Confidential or Extraordinarily Sensitive Information.

An electronic copy of the Company's Application may be obtained by submitting a written request to counsel for the Company: Nicole M. Allaband, Esquire, Dominion Energy

Services, Inc., 120 Tredegar Street, Richmond, Virginia 23219, or nicole.m.allaband@dominionenergy.com. Interested persons also may download unofficial copies of the Application and other documents filed in this case from the Commission's website: scc.virginia.gov/case-information.

On or before July 15, 2025, any interested person may file comments on the Application by following the instructions on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments with the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00075.

On or before July 15, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel. The respondent simultaneously shall serve a copy of the notice of participation electronically on counsel to the Company, the Commission's Staff, and all other respondents. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00075.

On or before July 15, 2025, any interested person may file a written request for a hearing with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a request for hearing electronically may file such request by U.S. mail to the Clerk of the Commission at the address listed above. The interested person simultaneously shall serve a copy of the hearing request electronically on counsel to the Company, the Commission's Staff, and all respondents. A request for a hearing shall include: (i) a precise statement of the filing party's interest in the proceeding; (ii) a statement of the specific action sought to the extent then known; (iii) a statement of the legal basis for such

action; and (iv) a precise statement why a hearing should be conducted in this matter. All requests for a hearing shall refer to Case No. PUR-2025-00075.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Comment, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The Company's Application, the public versions of other documents filed in this case, the Commission's Rules of Practice, and the Commission's Order for Notice and Comment may be viewed at: scc.virginia.gov/case-information.

VIRGINIA ELECTRIC AND POWER COMPANY

(7) On or before June 17, 2025, the Company shall serve a copy of this Order for Notice and Comment on the following local officials, to the extent the position exists, in each county, city, and town in which the Company provides service in the Commonwealth of Virginia: the chairman of the board of supervisors of each county; the mayor or manager (or equivalent official) of every city and town; and the county, city, or town attorney. Service shall be made electronically where possible; if electronic service is not possible, service shall be made by either personal delivery or first-class mail to the customary place of business or residence of the person served.

(8) On or before July 2, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (6) and (7), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission by filing electronically at scc.virginia.gov/clk/efiling.

(9) On or before July 15, 2025, any interested person may file written comments on the Application by following the instructions found on the Commission's website:

scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00075.

(10) On or before July 15, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (9). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation electronically on counsel to the Company, Staff, and all other respondents. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00075.

(11) Within three (3) business days of receipt of a notice of participation as a respondent, the Company shall serve a copy of its Application and supporting materials on the respondent, unless these materials already have been provided to the respondent.

(12) On or before July 15, 2025, any interested person may file a written request for a hearing at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file the hearing request electronically may file such a request by U.S. mail to the Clerk of the Commission at the

address in Ordering Paragraph (9). Requests for hearing must include: (i) a precise statement of the filing party's interest in the proceeding; (ii) a statement of the specific action sought to the extent then known; (iii) a statement of the legal basis for such action; and (iv) a precise statement why a hearing should be conducted in this matter. The interested person simultaneously shall serve a copy of the hearing request electronically on counsel to the Company, Staff, and all respondents. All requests for a hearing shall refer to Case No. PUR-2025-00075.

(13) Dominion shall file a response to any request for hearing filed in this matter on or before July 22, 2025.

(14) Staff shall investigate the Application. On or before August 22, 2025, Staff shall file with the Clerk of the Commission a report containing its findings and recommendations and simultaneously shall serve electronically a copy of the same on counsel to the Company and all respondents.

(15) On or before September 5, 2025, Dominion may file a response to Staff's report and any comments filed in this matter. The Company simultaneously shall serve a copy of its response electronically on the Staff and all respondents.

(16) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified herein, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

(17) Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within five (5) business days after receipt of the same. In addition to the service

requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to Staff.¹³ Except as modified herein, discovery shall be in accordance with Part IV of the Rules of Practice, 5 VAC 5-20-240 *et seq.*

(18) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

¹³ The assigned Staff attorney is identified on the Commission's website, scc.virginia.gov/case-information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00075, in the appropriate box.

COMMONWEALTH OF VIRGINIA, *ex rel.*

STATE CORPORATION COMMISSION

CASE NO. PUR-2025-00031

Ex Parte: In the matter of future minimum bill
proceedings of Virginia Electric and Power
Company pursuant to Code § 56-594.3

ORDER FOR NOTICE AND HEARING

During its 2020 Session, the Virginia General Assembly enacted Chapters 1238 (HB 1634) and 1264 (SB 629) of the 2020 Virginia Acts of Assembly, which added a new § 56-594.3 to the Code of Virginia (“Code”), effective July 1, 2020. These Acts of Assembly directed the State Corporation Commission (“Commission”) to establish, through regulation, a shared solar program (“Shared Solar Program” or “Program”) that provides customers of Virginia Electric and Power Company (“Dominion” or “Company”) the opportunity to participate in shared solar projects.¹ These Acts of Assembly also directed the Commission to establish a minimum bill that a subscriber in the Shared Solar Program is required to pay on the subscriber’s utility bill each month after accounting for any bill credits.²

In Case No. PUR-2020-00125, the Commission adopted rules to implement the Shared Solar Program (“Rules Governing Shared Solar Program”), including rules addressing requirements concerning the composition of the minimum bill, and directed Dominion to file a

¹ See Code § 56-594.3 B.

² See Code § 56-594.3 A, D.

proposal for a minimum bill.³ In its Final Order issued in that proceeding, the Commission determined that Dominion’s minimum bill should reflect fixed and volumetric costs, with the fixed costs including a customer charge and an administrative charge and the volumetric costs including: (i) statutory non-bypassable generation charges; (ii) base distribution charges; (iii) distribution rate adjustment clause (“RAC”) charges; (iv) base transmission charges; and (v) transmission RAC charges.⁴

During its 2024 Session, the Virginia General Assembly amended certain statutory provisions applicable to Dominion’s Shared Solar Program, directed the Commission to recalculate the minimum bill that prescribes the amount a participating customer must pay to the utility each month after accounting for any bill credits, and established a shared solar program for customers of Appalachian Power Company (“2024 Shared Solar Legislation”).⁵ Pursuant to the 2024 Shared Solar Legislation, the Shared Solar Program’s aggregate maximum capacity now consists of two phases. For the first phase (“Phase One”), the aggregate capacity of the Shared Solar Program is limited to 200 megawatts (“MW”) alternating current.⁶ For the second phase (“Phase Two”), the Shared Solar Program’s capacity shall be expanded by up to 150 MW alternating current upon Commission determination that: (i) at least 90% of the aggregate

capacity from Phase One of the Program has been subscribed; and (ii) project construction is substantially complete. For Phase Two, no more than 51% of up to 75 MW alternating current of aggregated capacity shall serve low-income customers.⁷

On November 25, 2024, in Case No. PUR-2024-00122, the Commission entered an Order Adopting Regulations, which modified the Rules Governing Shared Solar Program in response to the 2024 Shared Solar Legislation.⁸ Following receipt of a request for reconsideration and clarification, the Commission issued an Order on Reconsideration on February 10, 2025, which responded to the request for reconsideration and finalized the revised Rules Governing Shared Solar Program, effective February 14, 2025.⁹

The Commission also issued an Order Initiating Proceedings in the present proceeding on February 10, 2025, directing Dominion to file its minimum bill proposal with the Commission by May 1, 2025.¹⁰ In the Order Initiating Proceedings, the Commission directed the Company to address, analyze, and provide testimony and data to support the following:

- The costs of all utility infrastructure and services used to provide electric service;
- The administrative costs necessary for operation of the [S]hared [S]olar [P]rogram;

- Any other costs necessary to ensure subscribing customers pay a fair share of the costs of providing electric services;
- A quantification of the benefits of shared solar to the electric grid and to the Commonwealth; and
- An explanation of how the minimum bill proposed ensures that the costs shifted to customers not in a shared solar program are minimized.¹¹

On May 1, 2025, Dominion filed its 2025 minimum bill proposal (“Proposal” or “Application”) pursuant to Code § 56-594.3. Under the Company’s current Shared Solar Program, Dominion states that a customer may enroll with a third-party shared solar subscriber organization (“SO”) to purchase a portion of the output of the SO’s shared solar facility.¹² Such customer then receives a bill credit on their electric bill to offset charges for their electric service.¹³ As stated in the Application, the Commission-approved bill credit rate, currently 13.489 cents per kilowatt-hour (“kWh”), is generally equivalent to the full cost of electric service and is multiplied by the number of kWh subscribed to by the customer from the SO.¹⁴ The customer then pays a subscription fee to the SO.¹⁵

Dominion states that, to date, 53 SOs have registered with the Company for an aggregate capacity of approximately 199 MW in Phase One.¹⁶ The Company further asserts that approximately 16 of the 53 facilities have already reached commercial operation, and over

¹¹ Order Initiating Proceedings at 3.

¹² Application at 6.

¹³ *Id.*

¹⁴ *Id.*

¹⁵ *Id.* at 6-7. Dominion asserts that, based on its experience, the subscription fees generally tend to be set by the SOs at approximately 90% of the bill credit rate. *Id.* at 7.

¹⁶ *Id.* at 7.

18,000 customers are enrolled with an SO and are receiving bill credits from the Company on their monthly electric bills.¹⁷

According to Dominion, the Shared Solar Program acts as a companion to a subscriber's principal tariff.¹⁸ In other words, subscribers purchase their electric service from the Company in accordance with their individual, Commission-approved principal tariff, just as a similarly situated non-program participant customer does.¹⁹ The only difference is that a subscriber receives a credit on their bill for this companion service under the Shared Solar Program.²⁰ Dominion asserts that while the Shared Solar Program is intended to provide bill credits to offset the participating customers' generation supply for the amount subscribed, the Program will not satisfy all of subscribers' electric needs and participants must still rely on utility services comprising considerable costs that all utility customers are required to pay unless otherwise exempted by statute.²¹ As such, Dominion asserts that the minimum bill is an essential feature of the Shared Solar Program that ensures participating customers pay a fair share of the costs of the electric utility services they utilize, even as they receive bill credits through the Program.²²

Dominion states that its minimum bill proposal in the instant proceeding is consistent with the methodology and bill components approved by the Commission in prior cases.²³ The

¹⁷ *Id.*

²² *Id.* at 9-10.

²³ *Id.* at 9.

Company states there are three general components that comprise the costs of utility infrastructure and services used to provide electric service and administrative costs of the Shared Solar Program that should be included in the minimum bill: (i) delivery charges, including the basic customer charge; (ii) non-bypassable charges; and (iii) administrative charges.²⁴

First, Dominion asserts that the delivery charges component captures the costs of utilizing Company transmission and distribution infrastructure to deliver electricity to customers.²⁵ For this component, the Company proposes that Shared Solar Program customers pay the same Commission-approved transmission and distribution charges as non-participating customers pay under their principal tariffs since customers will use the electric grid in the same way after they enroll in the Program as they did before enrollment.²⁶

Second, Dominion proposes to continue including in the minimum bill certain costs that have been deemed non-bypassable by the Virginia General Assembly, unless a customer has been specifically exempted by statute from having to pay the non-bypassable charge.²⁷ The Company claims that this treatment of non-bypassable costs prevents cost-shifting to the Company's remaining customers.²⁸

Third, Dominion asserts that administrative costs that are incremental costs associated with the utility's administration of the Shared Solar Program should be included in the minimum

²⁴ *Id.* at 10. Put differently, Dominion's proposed minimum bill is calculated as the sum of (i) the monthly basic customer charge; plus (ii) the program administrative charge; plus (iii) the subscribed kWhs, multiplied by distribution charges, distribution RAC charges, transmission charges, transmission RAC charges and non-bypassable charges (unless exempt); minus (iv) the benefits of shared solar calculation. *Id.* at 13.

²⁵ *Id.* at 11.

²⁶ *Id.*

²⁷ *Id.*

²⁸ *Id.*

bill.²⁹ The Company proposes maintaining the currently approved \$1 per month administrative charge.³⁰

The Company also assessed and quantified the benefits of the Shared Solar Program to the electric grid and to the Commonwealth to determine whether, in its opinion, the proposed minimum bill should be reduced as a result of such benefits.³¹ Dominion states that the Shared Solar Program provides benefits to the grid for the generation and transmission components of service but does not provide quantifiable benefits for the distribution component of service.³² With respect to the generation benefits, the Company determined that, since customers enrolled in the Shared Solar Program receive the full value of generation in the bill credit and the minimum bill does not include a generation component, no additional benefit for generation should be included as a further reduction to the minimum bill.³³ However, with respect to the transmission component, the Company concluded that the Program provides quantifiable benefits that have the potential to reduce the minimum bill.³⁴ Finally, the Company concluded that renewable energy certificates (“RECs”) generated from the Shared Solar Program in Phase One of the Program produce no quantifiable benefits because those RECs are retained by SOs, but that RECs in Phase Two of the Program, if Phase Two is approved, would be transferred to

²⁹ *Id.* at 11-12.

³¹ *Id.*

³² *Id.*

³³ *Id.*

³⁴ *Id.* The Company’s analysis indicates that the Shared Solar Program provides transmission benefits and ancillary service costs to Dominion’s grid. See Direct Testimony of Eugene L. Shlatz at “Summary of Guidehouse’s Independent Analysis of Shared Solar Benefits to Dominion Energy Virginia’s Grid and to the Commonwealth,” p. 2.

the Company and would therefore result in a quantifiable benefit that should reduce the minimum bill.³⁵

For a Phase One residential customer using 1,000 kWh per month on Residential Schedule 1 with a shared solar subscription size of 1,000 kWh, the Company estimates its Proposal would result in a monthly Shared Solar minimum bill of \$70.26.³⁶

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that Dominion should provide public notice of its Proposal; hearings should be scheduled for the purpose of receiving testimony from public witnesses and evidence on the Proposal; interested persons should have an opportunity to file comments on the Proposal or to participate as respondents in this proceeding; and Commission Staff (“Staff”) should be directed to investigate the Proposal and file testimony and exhibits containing its findings and recommendations thereon. We also find that a Hearing Examiner should be appointed to rule on any discovery matters and any *pro hac vice* motions that arise during the course of this proceeding.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) All pleadings in this matter shall be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission’s Rules of Practice and Procedure

³⁵ Application at 13.

³⁶ *Id.*; Direct Testimony of Timothy R. Faherty at 18.

(“Rules of Practice”).³⁷ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk’s Office Document Control Center at (804) 371-9838 to arrange the delivery.

(2) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(3) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to rule on any discovery matters and any *pro hac vice* motions that arise during the course of this proceeding. A copy of each filing made with the Commission’s Clerk’s Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.³⁸

(4) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Company’s Proposal, as follows:

- (a) A hearing for the receipt of testimony from public witnesses on the Company’s Proposal shall be convened telephonically at 10 a.m. on October 22, 2025.

³⁷ 5 VAC 5-20-10 *et seq.*

³⁸ Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before October 15, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141 to register.
- (d) Beginning at 10 a.m. on October 22, 2025, the Commission will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting.

(5) The evidentiary portion of the hearing on the Proposal shall be convened at 10 a.m. on October 22, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and the Staff.

(6) An electronic copy of the Company's Proposal may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons may also download unofficial copies from the Commission's website: scc.virginia.gov/case-information.

(7) On or before July 9, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC
IN THE MATTER OF FUTURE MINIMUM BILL
PROCEEDINGS OF VIRGINIA ELECTRIC AND POWER
COMPANY PURSUANT TO CODE § 56-594.3
CASE NO. PUR-2025-00031

During its 2020 Session, the Virginia General Assembly enacted Chapters 1238 (HB 1634) and 1264 (SB 629) of the 2020 Virginia Acts of Assembly, which added a new § 56-594.3 to the Code of Virginia (“Code”), effective July 1, 2020. These Acts of Assembly directed the State Corporation Commission (“Commission”) to establish, through regulation, a shared solar program (“Shared Solar Program” or “Program”) that provides customers of Virginia Electric and Power Company (“Dominion” or “Company”) the opportunity to participate in shared solar projects. These Acts of Assembly also directed the Commission to establish a minimum bill that a subscriber in the Shared Solar Program is required to pay on the subscriber’s utility bill each month after accounting for any bill credits.

In Case No. PUR-2020-00125, the Commission adopted rules to implement the Shared Solar Program (“Rules Governing Shared Solar Program,” 20 VAC 5-340-10 *et seq.*), including rules addressing requirements concerning the composition of the minimum bill, and directed Dominion to file a proposal for a minimum bill. In its Final Order issued in that proceeding, the Commission determined that Dominion’s minimum bill should reflect fixed and volumetric costs, with the fixed costs including a customer charge and an administrative charge and the volumetric costs including: (i) statutory non-bypassable generation charges; (ii) base distribution charges; (iii) distribution rate adjustment clause (“RAC”) charges; (iv) base transmission charges; and (v) transmission RAC charges.

During its 2024 Session, the Virginia General Assembly amended certain statutory provisions applicable to Dominion’s Shared Solar Program, directed the Commission to recalculate the minimum bill that prescribes the amount a participating customer must pay to the utility each month after accounting for any bill credits, and established a shared solar program for customers of Appalachian Power Company (“2024 Shared Solar Legislation,” Chapters 715, 716, 763 and 765 of the 2024 Virginia Acts of Assembly). Pursuant to the 2024 Shared Solar Legislation, the Shared Solar Program’s aggregate maximum capacity now consists of two phases. For the first phase (“Phase One”), the aggregate capacity of the Shared Solar Program is limited to 200 megawatts

("MW") alternating current. For the second phase ("Phase Two"), the Shared Solar Program's capacity shall be expanded by up to 150 MW alternating current upon Commission determination that: (i) at least 90% of the aggregate capacity from Phase One of the Program has been subscribed; and (ii) project construction is substantially complete. For Phase Two, no more than 51% of up to 75 MW alternating current of aggregated capacity shall serve low-income customers.

On November 25, 2024, in Case No. PUR-2024-00122, the Commission entered an Order Adopting Regulations, which modified the Rules Governing Shared Solar Program in response to the 2024 Shared Solar Legislation. Following receipt of a request for reconsideration and clarification, the Commission issued an Order on Reconsideration on February 10, 2025, which responded to the request for reconsideration and finalized the revised Rules Governing Shared Solar Program, effective February 14, 2025.

The Commission also issued an Order Initiating Proceedings in the present proceeding on February 10, 2025, directing Dominion to file its minimum bill proposal with the Commission by May 1, 2025. In the Order Initiating Proceedings, the Commission directed the Company to address, analyze, and provide testimony and data to support the following:

- The costs of all utility infrastructure and services used to provide electric service;
- The administrative costs necessary for operation of the [S]hared [S]olar [P]rogram;
- Any other costs necessary to ensure subscribing customers pay a fair share of the costs of providing electric services;
- A quantification of the benefits of shared solar to the electric grid and to the Commonwealth; and
- An explanation of how the minimum bill proposed ensures that the costs shifted to customers not in a shared solar program are minimized.

On May 1, 2025, Dominion filed its 2025 minimum bill proposal (“Proposal” or “Application”) pursuant to Code § 56-594.3. Under the Company’s current Shared Solar Program, Dominion states that a customer may enroll with a third-party shared solar subscriber organization (“SO”) to purchase a portion of the output of the SO’s shared solar facility. Such customer then receives a bill credit on their electric bill to offset charges for their electric service. As stated in the Application, the Commission-approved bill credit rate, currently 13.489 cents per kilowatt-hour (“kWh”), is generally equivalent to the full cost of electric service and is multiplied by the number of kWh subscribed to by the customer from the SO. The customer then pays a subscription fee to the SO.

Dominion states that, to date, 53 SOs have registered with the Company for an aggregate capacity of approximately 199 MW in Phase One. The Company further asserts that approximately 16 of the 53 facilities have already reached commercial operation, and over 18,000 customers are enrolled with an SO and are receiving bill credits from the Company on their monthly electric bills.

According to Dominion, the Shared Solar Program acts as a companion to a subscriber’s principal tariff. In other words, subscribers purchase their electric service from the Company in accordance with their individual, Commission-approved principal tariff, just as a similarly situated non-program participant customer does. The only difference is that a subscriber receives a credit on their bill for this companion service under the Shared Solar Program. Dominion asserts that while the Shared Solar Program is intended to provide bill credits to offset the participating customers’ generation supply for the amount subscribed, the Program will not satisfy all of subscribers’ electric needs and participants must still rely on utility services comprising considerable costs that all utility customers are required to pay unless otherwise exempted by statute. As such, Dominion asserts that the minimum bill is an essential feature of the Shared Solar Program that ensures participating customers pay a fair share of the costs of the electric utility services they utilize, even as they receive bill credits through the Program.

Dominion states that its minimum bill proposal in the instant proceeding is consistent with the methodology and bill components approved by the Commission in prior cases. The Company states there are three general components that comprise the costs of utility infrastructure and services used to provide electric service and administrative costs of the Shared Solar

Program that should be included in the minimum bill: (i) delivery charges, including the basic customer charge; (ii) non-bypassable charges; and (iii) administrative charges.

First, Dominion asserts that the delivery charges component captures the costs of utilizing Company transmission and distribution infrastructure to deliver electricity to customers. For this component, the Company proposes that Shared Solar Program customers pay the same Commission-approved transmission and distribution charges as non-participating customers pay under their principal tariffs since customers will use the electric grid in the same way after they enroll in the Program as they did before enrollment.

Second, Dominion proposes to continue including in the minimum bill certain costs that have been deemed non-bypassable by the Virginia General Assembly, unless a customer has been specifically exempted by statute from having to pay the non-bypassable charge. The Company claims that this treatment of non-bypassable costs prevents cost-shifting to the Company's remaining customers.

Third, Dominion asserts that administrative costs that are incremental costs associated with the utility's administration of the Shared Solar Program should be included in the minimum bill. The Company proposes maintaining the currently approved \$1 per month administrative charge.

The Company also assessed and quantified the benefits of the Shared Solar Program to the electric grid and to the Commonwealth to determine whether, in its opinion, the proposed minimum bill should be reduced as a result of such benefits. Dominion states that the Shared Solar Program provides benefits to the grid for the generation and transmission components of service but does not provide quantifiable benefits for the distribution component of service. With respect to the generation benefits, the Company determined that, since customers enrolled in the Shared Solar Program receive the full value of generation in the bill credit and the minimum bill does not include a generation component, no additional benefit for generation should be included as a further reduction to the minimum bill. However, with respect to the transmission component, the Company concluded that the Program provides quantifiable benefits that have the potential to reduce the minimum bill. Finally, the Company concluded that renewable energy certificates ("RECs") generated from the Shared Solar Program in Phase One of the Program produce no quantifiable

benefits because those RECs are retained by SOs, but that RECs in Phase Two of the Program, if Phase Two is approved, would be transferred to the Company and would therefore result in a quantifiable benefit that should reduce the minimum bill.

For a Phase One residential customer using 1,000 kWh per month on Residential Schedule 1 with a shared solar subscription size of 1,000 kWh, the Company estimates its Proposal would result in a monthly Shared Solar minimum bill of \$70.26.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled public hearings on Dominion's Proposal. A hearing for the receipt of testimony from public witnesses on the Company's Proposal shall be convened telephonically by the Commission at 10 a.m. on October 22, 2025. On or before October 15, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141 to register. This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting.

Beginning at 10 a.m. on October 22, 2025, the Commission will telephone sequentially each person who has signed up to testify as provided above.

On October 22, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Commission will convene a hearing to receive testimony and evidence related to the Proposal from the Company, any respondents, and the Commission Staff ("Staff").

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

An electronic copy of the Company's Proposal may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP,

Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons may also download unofficial copies of the Proposal and the public versions of other documents filed in this case from the Commission's website: scc.virginia.gov/case-information.

On or before October 15, 2025, any interested person may submit comments on the Proposal by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2025-00031.

On or before August 6, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff electronically as described above. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00031. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing.

On or before September 3, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above.

Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00031.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The Company's Proposal, the Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and the public versions of other documents filed in the case may be viewed at: scc.virginia.gov/case-information.

VIRGINIA ELECTRIC AND POWER COMPANY

(8) On or before July 9, 2025, the Company shall serve a copy of this Order for Notice and Hearing on the following local officials, to the extent the position exists, in each county, city, and town in which the Company provides service in the Commonwealth of Virginia: the chairman of the board of supervisors of each county; the mayor or manager (or equivalent official) of every city and town; and the county, city, or town attorney. Service shall be made electronically where possible; if electronic service is not possible, service shall be made by either personal delivery or first-class mail to the customary place of business or residence of the person served.

(9) On or before July 23, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (7) and (8), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling.

(10) On or before October 15, 2025, any interested person may submit comments on the Proposal by following the instructions found on the Commission's website:

scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00031.

(11) On or before August 6, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (10). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff as described in Ordering Paragraph (2). Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00031.

(12) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve upon the respondent a copy of the Proposal and supporting materials, unless these materials already have been provided to the respondent.

(13) On or before September 3, 2025, each respondent may file with the Clerk of the Commission, at sec.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (10). Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served on the Staff, the Company, and all other respondents as described in Ordering Paragraph (2). In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00031.

(14) The Staff shall investigate the Proposal. On or before September 17, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof on counsel to the Company and all respondents as described in Ordering Paragraph (2).

(15) On or before October 1, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve a copy of its rebuttal testimony and exhibits on the Staff and all respondents as described in Ordering Paragraph (2).

(16) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by Ordering Paragraph (1), all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(17) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to the Staff.³⁹ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(18) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

³⁹ The assigned Staff attorneys are identified on the Commission's website, scc.virginia.gov/case-information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00031, in the appropriate box.

July 17, 2025

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 17TH DAY OF JULY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIR
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
CATHERINE K. DOUGLASS, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:00 p.m.

Pastor Leroy Bradshaw provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Supervisor Roark moves to approve the agenda. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Approval of the Minutes: Supervisor Roark moves to approve the minutes of the Special Meeting held May 29, 2025. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

**** Employee Recognitions **** Chairman Collins recognizes the following employees who have reached milestones in their County employment.

Congratulations with recognition and a 5-Year Certificate (none present):

Patricia Akers - Lodge Housekeeper
Justin Mims - Assistant Landfill Operations Manager
Lemuel Bowden, Sr. - Convenience Site Attendant
Michael Hart - Convenience Site Attendant
Raymond Perkinson - Convenience Site Attendant

Congratulations with recognition and a 20-Year Plaque:

Susan Tucker - Human Resource Coordinator/E911 Clerk/GIS Tech

Chairman Collins presents Ms. Tucker with a plaque, and the Board members and Administrator Bowen extend their thanks.

Chairman Collins begins the Delegations from the Public.

1 – Richard Dykeman: Is concerned about the Nottoway County Emergency Squad's funding and audit. He presents a copy of the 2021 Fire & EMS Study and notes that problems outlined in the report are still an issue. He also speaks to problems with the ongoing construction at 723/460 and its associated detour.

2 – Clinton Jefferson: Is a resident and asks if VDOT would consider paving Clark Road. He has been told the traffic count is too low to qualify for improvements. Administrator Bowen suggests the County consider adding it to the Six Year Plan.

3 – Sonny Abbott: Thanks Gregg Zody for the map of LRA property discussed at the June meeting regarding a possible purchase by the Town of Blackstone. He questions the County's listing property and planning sales before the public knows a sale is pending. He asks why the \$5.2 million LRA CD cannot be used to make repairs at Pickett Park. He notes corrections are needed in the Treasurer's investment report. He asks if all money on deposit is being reported to the Board as required in State Code Section 58.1-3160.

Supervisor Toth notes the Town had suggested the purchase area was roughly 72 acres, and the proposal was for \$9,000 per acre. The Town of Blackstone will have a survey done, so acreage will be known at the time of sale.

Having been properly advertised and this date set for a Public Hearing, the Board hears the following.

1 – Building Permit Fees Increase: Nicholas Bowles, Building Official, presents the proposed building permit fee increases. The increase was to address the move of the Building Permit Technician position under the Building Department. The proposed fees were derived from a comparison with surrounding localities. Other proposed changes include no longer using universal permits and having a fee for starting work without a permit.

Type of Permit	Proposed	Current
Residential New	\$150 + \$0.25/ft ²	\$150 + \$0.10/ft ²
Relocation & Renovation*	\$150 + \$10 per k	\$180 + \$7.5 per K
Later Addition (residential)	\$60 + \$0.25/ft ²	\$60 + \$0.10/ft ²
Churches	\$120 + \$0.25/ft ²	\$120 + \$0.10/ft ²
Commercial New	\$240 + \$0.25/ft ²	\$240 + \$0.10/ft ²
Renovation*	\$240 + \$10 per K	\$180 + \$7.50 per K
Later Addition (Commercial)	\$240 + \$0.25/ft ²	\$240 + \$0.10/ft ²
Renovation*	See Commercial and Residential	\$180 + \$7.50 per 1K
Multi-Family/ Duplex	\$240 + \$0.25/ft ²	\$240 + \$0.10 / ft ²
Trade & Solar (Commercial)	\$100 + 1% of contract	\$60 + \$6 per \$1K
Asbestos Remediation (Commercial)	\$100 + 1% of contract	\$60 + \$6 per \$1K
Tank Removal/Installation	\$100 + 1% of contract	\$60 + \$6 per \$1K
Amusement Devices	\$100 + \$10 per \$1000	\$60 + \$6 per \$1K
Tents & Signs (Commercial)	\$100 + 1% of cost	\$60 + \$6 per \$1K
Swimming Pools	\$100 + \$0.25/ft ²	\$90 + \$0.8/ft ²
Re-issue of Certificate of Occupancy	\$50	N/A
Starting Work Without Permit	\$250	N/A

Administrator Bowen clarifies that moving away from a universal permit means a contractor who builds a house will need a permit and that each trade will need a separate permit.

Chairman Collins reads the newspaper advertisement for this public hearing. Supervisor Roark moves to open Public Hearing on the Building Permit Fee Increases. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Shawn Haney: Appreciates the idea of a fee increase to ensure proper work is being performed but questions if an increase would solve the issue. If a general contractor chooses to use an unlicensed tradesman who does poor work, the building inspector would catch that during an inspection and the homeowner would take up the issue with the general contractor. He asks if a licensed tradesman performs poorly, will the homeowner come to the County to rectify the issue rather than to a general contractor entrusted with overseeing the tradesman?

With no one else wishing to speak either for or against, Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark asks the projected revenue and if that revenue would reduce taxes. Mr. Bowles estimates an additional \$36,000 in revenue. Administrator Bowen adds that would be the amount of reduction from the general fund.

Vice Chair Norton moves to approve the increase in fees. A second is provided by Supervisor Ingram. Following a roll call vote, the motion to approve the fee increase passes 3-2 as follows.

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Nay
G. G. Toth	Nay

2 – Special Exception – Sylvester and Mildred Green: Gregg Zody presents the Green's request to remove the existing residence and replace it with a doublewide manufactured home at 253 Three Oaks Road, Nottoway, tax map # 31-86, approximately two acres, zoned Conservation. Certified notifications were sent to adjacent property owners, it was advertised for two weeks, and staff has received no comments regarding the application. There are four inoperable vehicles on site, and their removal is condition #5 in the packet. At the June 17th meeting, the Planning Commission recommended approval with a vote of 6-0. Mr. Zody notes that there will be no Certificate of Occupancy issued until those vehicles are removed

Supervisor Roark moves to open the Public Hearing for the Special Exception for Sylvester and Mildred Green. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Mr. Zody introduces the Board to the Greens who are present tonight.

With no one wishing to speak either for or against, Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Toth moves to approve the Special Exception to remove the house and place a manufactured home on the tax map # 31-86, including # 31-87 as mentioned. A second is provided by Supervisor Roark. Following a voice vote, the motion to approve carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

3 – Special Exception – Barry and Nola Johnson: Gregg Zody presents the Johnson’s Special Exception request for placement of a manufactured home on tax map # 50-66, approximately 2.162 acres, near Brunswick Road at Mill Road, and is zoned Conservation. There is a cemetery onsite. Staff recommends approval with conditions shown in the package; Planning Commissioner Kirby Woolfolk suggested an additional condition specific to protecting the cemetery. State Code speaks to accessing a private cemetery. At the July 15th meeting, the Planning Commission recommended approval with a 6-0 vote. No citizens spoke at the Planning Commission’s Public Hearing, and no other comments were received until Clarence Hawkes spoke with him today.

Supervisor Roark moves to open the Public Hearing for the Johnson’s Special Exception request. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Clarence Hawkes, adjacent property owner: Mentions that Mr. Zody has provided him with documentation since they spoke. His concern is protection of the cemetery as it was established before the Civil War with the most recent burial in the early 2000s. He does not want access blocked or have anything built close to it as it is historical.

2 – Barry and Nola Johnson: Speak to the matter. It is well marked, and they will not disturb, move, or add to the cemetery.

Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Ingram questions if Mr. Hawkes is satisfied with the Johnson’s response. Mr. Hawkes is agreeable and does not wish to have access blocked to the cemetery. Having heard this, Supervisor Roark moves to approve the Special Exception for Barry and Nola Johnson on tax map #50-66. A second is provided by Supervisor Toth. Following a voice vote, the motion to approve carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Mr. Zody states that Mr. Woolfolk, Planning Commission, mentioned protecting that area, in line with State Code. Chairman Collins references the Code of Virginia Section 57-27.1 that addresses rights to access cemeteries on private property.

4 – Rezoning – K. Shawn and Katherine S. Haney: The Haney’s property, 884 Inverness Road, Burkeville, tax map #17-93 is currently split zoned (RR and C-1), and they seek to rezone the entire parcel to Conservation. Its primary use is agriculture which is allowed in Conservation-zoned districts, not Rural Residential. Two adjacent property owners contacted Mr. Zody regarding the application. The Planning Commission voted to approve 5-0-1 with Jeff LaVelle abstaining due to employing the applicants’ son.

Supervisor Toth questions the purpose of the entire deed being included in tonight’s package. Mr. Zody states it is a requirement. Supervisor Ingram adds that the property is in the National Trust for Historic Preservation that has stipulations regarding usage.

Supervisor Roark moves to open the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Tom McIntyre, neighbor: Notes the applicant plans to establish a solar operation on the property. He and his neighbors are concerned as to appearance and would like to see a drawing that would give an idea.

2 – Debbie Abernathy, neighbor: Provides the history of the property and its preservation easements. The previous owner gifted it to the National Trust to preserve the land’s integrity for generations, and rezoning would not be in line with this gift.

3 – Shawn Haney, applicant: States this is a zoning issue because his property is currently zoned Rural Residential which does not allow farming by right whereas a Conservation zoning does.

Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Ingram has received several phone calls with concerns about the Haney’s next step following this rezoning. Discussion by Board members follows. Vice Chair Norton moves to approve the rezoning of the entire site, tax parcel # 17-93 to Conservation. A second is provided by Supervisor Roark. Following a voice vote, the motion to approve carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

5 – Zoning Text Amendments (3 separate votes)

Mr. Zody presents the following text amendments.

- a. Add definition to Article 6. Definitions, Section 6-1-2 List of Definitions:

Government Services: Governmental offices providing administrative, judicial, clerical or public contact services that deal directly with citizens. Typical uses include federal, state, county, and city offices.

The following zoning districts shall be amended to include government services as a permitted use:

- Division 1 Agriculture District (A-1), Section 2-1-3 – Permitted Uses
- Division 2 Conservation District (C-1), Section 2-2-3 – Permitted Uses
- Division 3 Rural Residential District (RR), Section 2-3-3 – Permitted Uses
- Division 4 Urban Residential District (UR), Section 2-4-3 – Permitted Uses
- Division 5 General Business District (GB), Section 2-5-3 – Permitted Uses
- Division 6 Light Industrial District (LI), Section 2-6-3 – Permitted Uses
- Division 7 General District (GI), Section 2-7-3 – Permitted Uses

The Planning Commission heard this matter and gave unanimous approval at its May 20th meeting but recommended it be by Special Exception request for transparency.

Supervisor Roark moves to open the Public Hearing for a text amendment to add Government Services to the Zoning Ordinance. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against, Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark moves to approve the addition of Government Services as presented. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

- b. A zoning ordinance to amend the following Sections of Article 2, Divisions 5-7 (Base Districts Regulations Generally) and Article 6 (Definitions) to add the use of **Data Center** to the definition as a use permitted by special exception in the General Business, Light Industrial and General Industrial Districts:

Section 6-1-2 Definitions. To add the definition of a “Data Center” as a permitted use in the following zoning districts;

- Section 2-5-4 General Business – Uses Permitted by Special Exception (as provided in Article 5);
- Section 2-6-4 Light Industrial – Uses Permitted by Special Exception (as provided in Article 5); and
- Section 2-7-4 General Industrial – Uses Permitted by Special Exception (as provided in Article 5).

Mr. Zody explains that in recent economic development discussions, it came to light that the County's Zoning Ordinance does not include a provision for data centers. The Planning Commission having rejected his original definition to the Planning Commission in May, he presented and received 6-0 vote for approval of a definition as follows:

Computer equipment and peripherals used in a data center. For purposes of this subdivision, "data center" means a facility whose primary services are the storage, management, and processing of digital data and is used to house (i) computer and network systems, including associated components such as servers, network equipment and appliances, telecommunications, and data storage systems; (ii) systems for monitoring and managing infrastructure performance; (iii) equipment used for the transformation, transmission, distribution, or management of at least one megawatt of capacity of electrical power and cooling, including substations, uninterruptible power supply systems, all electrical plant equipment, and associated air handlers; (iv) Internet-related equipment and services; (v) data communications connections; (vi) environmental controls; (vii) fire protection systems; and (viii) security systems and services;

Supervisor Roark moves to open the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against, Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark moves to approve adding Data Center to Nottoway County's Zoning Ordinance. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

- c. Duplex
A zoning ordinance to amend the following Section of Article 2, Division 1 (Base Districts Regulations Generally) and remove the use of "Duplex":

Sec. 2-1-4-27 – Uses Permitted by Special Exception (as provided in Article 5)

Mr. Zody notes that on May 20th the Planning Commission voted 8-0 to delete "Duplex" from the Agriculture zoning.

Supervisor Toth moves to open the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes

J. A. Roark	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against, Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Toth moves to remove the use of “Duplex” from Sec. 2-1-4-27 – Uses Permitted by Special Exception (as provided in Article 5). A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board is introduced to Alex McCoy, the new Executive Director of the Virginia’s Heartland Regional Economic Development Alliance (VHREDA). Mr. McCoy outlines his experience in rural economic development and wants to make sure his work with VHREDA considers Nottoway’s goals. He is scheduled to be at next week’s Economic Development Committee meeting with a more formal presentation.

The Board receives the following Department reports:

1 –Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for June 2025. Aaron French, Assistant Resident Engineer, reports that phase 3 of the 723/460 R-cut construction is in progress, and the detour is scheduled to be removed by the second week of August. Weather has extended the Little Creek Road culvert cleanup project. Darvills Road roundabout preconstruction meeting was held. Crystal Lake Road Rural Rustic project is under construction. Jonesboro Road is next in collaboration with the South Hill Residency for Cedar Creek Road. Rumble strips are to be installed on 460 starting July 28th.

2 – Solid Waste: June 2025 Nottoway County Sanitary Landfill Waste Report: received an average of 58.57 tons of waste per day.

3 – Building Inspection: June 2025 report; 44 building permits issued for \$9,439.83 in permit fees and \$1,479,110.50 in construction value; 116 inspections performed. Nicholas Bowles, Building Official, reminds citizens the towns have adopted the property maintenance code which allows him to assist in tenant/landlord issues. He states there have been several accidental pool drownings of children in Virginia this year and explains that swimming pools are regulated under the building Code, reminding citizens that a permit is required, in part, to ensure safety measures are in place to prevent such tragedies.

4 – Animal Control: June 2025 report; 144 animal control calls; 0 summons issued, 2 convictions with 1 dismissed; 5 compliance notifications issued; 1 dog held over 40 days (in foster care).

Vice Chairman Norton tells of an excessively aggressive dog that a citizen recently reported to Dispatch. Administrator Bowen and the Sheriff will review the report and follow up with Animal Control and Dispatch regarding protocol.

Administrator Bowen explains a veterinarian bill that is listed in tonight’s consent items. He has been told the vet makes the determination on treatment, the County pays the bill.

5 – Piedmont Health District: No report provided.

6 – Nottoway County Public Library: No report provided.

7 – Nottoway County School Board: Heather Maier reports on behalf of Dr. Marcia Martin who could not attend. They are preparing for schools opening and are reviewing their budget process. She notes their salaries are some of the lowest in the region now and expresses concern about a delay in federal allocation of some title funds which could cause programs to be lost. Summer school is finished. Convocation is Friday, August 15th.

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for June 2025. Mr. Zody is present but adds nothing further.

10 – Emergency Services: Emergency Services Coordinator's Report for July 2025. Fire & EMS Working Group Planning Meeting Agenda for June 3, 2025. Mr. Hyde reports that updates are underway to bring FAST-C into the 911 addressing system. He speaks to an upcoming ISO (Insurance Services Office) fire protection survey which could help citizens by lowering home insurance premiums. AED has been installed at the County office in Blackstone. Mr. Hyde offered AED, first aid, and CPR training for County employees. Work is ongoing on the radio communications project. The flood gauges performed well during recent storms.

Chairman Collins notes that Chris Page, Blackstone Chamber of Commerce, thanks Mr. Hyde for his work on the recent successful fireworks programs. Mr. Hyde says it was a team effort with VDOT, the Chamber, Towns, law enforcement, and emergency services.

11 – Piedmont Regional Jail Authority: Chairman Collins reports a reduction to eleven in the number of VCBR residents at Piedmont Regional Jail. State representatives continue to work on Nottoway's behalf on the VCBR issues.

Administrator Bowen reports that PRJ inmates recently painted over graffiti in Crewe.

12 – Pickett Park: Lease Actions Income Report dated July 10, 2025. Officer's Club Income Report dated July 10, 2025.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Michelle Graham reports the Total Response/PowerPhone project is 50% finished with a go live date of mid-September. Applications are coming in for the open Director's position. The Dispatch Consultant project of compiling protocols and procedures will begin soon. The 911 refresh was quoted higher than expected and should be partially covered by grant funds. The Virginia State Police is changing vendors for its live scan equipment which affects what the Sheriff's Office uses; the increase will need to be budgeted for in the next couple of fiscal years.

Vice Chair Norton was shot at recently and is curious if there has been an increase in gun violence in the area. The Sheriff was unaware she was involved in an incident. Guns are easy to obtain, and the Sheriff's Office does work with the community on the issue.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package.

4 – Christy A. Hudson, Commissioner of the Revenue: Volunteer incentives report is in the package. Chairman Collins would like to discuss that at the next worksession.

5 – Leanne Watrous, Commonwealth's Attorney: Case reports in the package.

The Board considers the following unfinished business.

1a – Animal Shelter: Supervisor Ingram was unable to attend the last meeting but suggests CARES could be interested in helping with the previously-mentioned high vet bills. There is an upcoming project meeting, but progress has been delayed due to weather.

1c – Broadband: Mr. Zody states that Cabinet 4 is 55% complete per RiverStreet.

1e – Courthouse PPEA Update: The County is in the 45-day window for submissions. He has been contacted by another company. Ms. Douglass states the County went with PPEA over an RFP for efficiency and to meet the judges' deadline. Chairman Collins notes the financial savings realized by proceeding via PPEA.

The Board considers the following new business:

1 – Aviation Industrial Park, Blackstone: The Board has not received a contract. The Blackstone Town Council should see it Monday, and then it will come to the Board of Supervisors. It will go to Ms. Douglass for review.

2 – BZA Recommendations: Mr. Zody notes there are two vacancies. Rick Payne, District 3, has resigned, and Thomas Harold Gregory, District 2, has declined reappointment. Mr. McDaniel, current Chairman, was recently reappointed. It is not required but customary to appoint by District.

Vice Chair Norton recommends Chase Guy for District 3. Supervisor Ingram moves to approve the recommendation. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark recommends Clyde Rothgeb for District 2. Supervisor Toth moves to approve the recommendation. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

3 – Planning Commission Appointment: There is a letter in tonight's package introducing George Kite. Supervisor Roark moves to approve Mr. Kite for the Planning Commission. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

4 – Plat Approval – Lavelle: Mr. Lavelle turned in a revised plat, but Mr. Zody has not received approval from the Health Department or VDOT. Chairman Collins suggests hearing this at the next worksession if the approvals have been received.

The Board considers the following Consent Items.

1 – June Expenditures Report

2 – Budget Adjustment – Sheriff’s Office	\$31,207.00
3 – Budget Adjustment – Sheriff’s Office	\$4,000.00
4 – Budget Adjustment – Sheriff’s Office	\$3,600.00

Supervisor moves to approve the Consent Items. A second is provided by Supervisor Ingram. Chairman Collins notes the Financial Consultant submitted an invoice for budget work for \$7,500. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The following information items are presented in the package:

- 1 – CRC – June 2025 Items of Interest
- 2 – Burkeville Volunteer Fire Department – Call Report for June 2025
- 3 – Town of Crewe – Water Notice
- 4 – NCPS Convocation Invitation
- 5 – VHREDA Meet & Greet – Alex McCoy, Executive Director
- 6 – SPCA – Donation Thank You
- 7 – Dominion Energy – (2) Orders/Application (full docs available in Co. Admin.)

Administrator Bowen draws attention to L-5, the upcoming VHREDA Meet & Greet with Alex McCoy, being held at the new Longwood SEED building.

Chairman Collins reminds the Board of the invitation to the School’s Convocation and parking lot party set for Friday, August 15, 2025.

Administrator Bowen, per the Finance Committee, has set a meeting for August 28th with the Treasurer, Dr. Martin, and Heather Maier regarding financial processes. He is expecting more PPEA proposals. Lastly, the Nottoway County Emergency Squad changed its bylaws to include Supervisors Roark and Toth and Mr. Hyde.

Comments from members of the Board.

Vice Chair Norton provides an update from Crewe Manager Miskovic regarding updating water line easements for infrastructure improvements.

Supervisor Ingram proposes having state representatives research Nottoway County having a local option, one-cent sales tax for EMS. The issue is statewide so could gain traction, but it would have to go before the General Assembly.

Supervisor Roark attended an NCES meeting and believes the County is headed towards a contract with the Squad.

Supervisor Toth felt the NCES meeting was productive and agrees a contract may be forthcoming. He would suggest citizens bring their concerns to the Board but agencies should work out their differences among themselves.

Chairman Collins appreciates the good citizen turnout tonight. He invites additional PPEA proposals to provide more options for the County.

Vice Chair Norton moves that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(1) Discussion, consideration, or interviews of prospective candidates for employment; assignment, appointment, promotion, performance, demotion, salaries, disciplining, or resignation of specific public officers, appointees, or employees of any public body; specifically relating to personnel matters now pending in County Administration. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 9:43 p.m. The Board reconvenes in Open Session at 10:18 p.m.

Supervisor Ingram moves to certify as follows:

WHEREAS, the Board of Supervisors of Nottoway County, Virginia, has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, §2.2-3712 (D) of the Code of Virginia requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia, hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

A second is provided by Supervisor Roark. Response to a roll call vote as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Having no further business, Supervisor Roark moves to adjourn. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins adjourns the meeting at 10:19 p.m.

Motion to Adjourn

PURCHASE AGREEMENT

THIS PURCHASE AGREEMENT (the "Agreement") is made this ____ day of _____, 2025, between, **NOTTOWAY COUNTY, VIRGINIA**, a political subdivision of the Commonwealth of Virginia ("County"), and the **TOWN OF BLACKSTONE, VIRGINIA**, a political subdivision of the Commonwealth of Virginia ("Town"). ~~The County and Town are referred to herein collectively as the "Parties" or individually as a "Party."~~

RECITALS

A. The County is the owner in fee simple absolute of certain real property, together with all improvements thereon and all rights and appurtenances thereunto pertaining, with an address of _____, and further identified as Nottoway County Tax Map Number(s) _____ (the "**Property**").

B. The Town desires to purchase and the County desires to sell the Property in accordance with the terms and conditions of this Agreement.

C. These recitals are incorporated by this reference into this Agreement.

NOW, THEREFORE, in consideration of the purchase price and the mutual covenants and conditions contained herein, the parties agree as follows:

1. **SALE**. The County agrees to sell and the Town agrees to purchase the Property, together with all easements, rights and appurtenances thereto, all buildings and improvements now located thereon, and **all of County's right, title and interest in all public ways adjoining same.**

2. **PRICE**. The purchase price (the "Purchase Price") for the Property is NINE THOUSAND and 00/100 DOLLARS (\$9,000.00) PER ACRE, which shall be paid at closing. The final amount shall be determined during the Due Diligence period as provided in paragraph ____ below, following a survey of the Property to determine actual acreage. The final purchase price will be set forth in a written addendum to this Agreement to be signed by both Parties.

3. **CLOSING**. Closing will take place at ____ [insert address of closing] ____, on or before ____ [date of closing] ____, or sooner if the conditions precedent to Closing are satisfied. Closing shall occur no later than Sixty (60) days after the end of the Due Diligence period.

4. **RIGHT OF ENTRY**. The Town and the Town's authorized representatives may, at any reasonable time, and after giving reasonable notice to the County, enter upon the Property to investigate such matters as the Town deems material to the value of the Property and its suitability for the Town's intended uses, which may include inspections, appraisals, surveys, including the establishment of survey lines and putting up markers and driving stubs and stakes, soil borings, environmental tests and reports, site analysis, engineering studies, and locating existing rights of way, easements and utilities. The Town will exercise this right of entry in such a way so as to not cause unreasonable damage to the Property, and, in the event that the Property does not sell, pursuant to the

terms of this Agreement, agrees to ~~reasonably~~ repair any damage caused to the Property resulting from Town's or Town's representative's actions related to the investigation of the Property.

5. DUE DILIGENCE: The Town shall have six (6) months ^{[[CD1]]} from the date first above written (the "Effective Date") to perform necessary due diligence, to allow for any necessary rezoning of the Property, and for the Town to determine whether the Property is otherwise suitable for the Town's intended use (the "Due Diligence Period"). The Town shall have the option to extend the Due Diligence Period ~~may be extended~~ for an additional ninety (90) days. The Town shall exercise the extension by written notice to the County prior to expiration of the original term. The results of said Due Diligence Period are to be satisfactory to the Town at the Town's sole discretion. If the results of the Due Diligence Period are not satisfactory to the Town, the Town shall have the option, at its sole discretion, to terminate this Agreement. In the event the Town terminates the Agreement under this provision, it shall not constitute a default of this Agreement. During the Due Diligence Period, the Town, its agents, employees, representatives, and contractors, at Town's sole cost and expense, may perform such tests, inspections, and examinations of the Property as the Town deems advisable, including without limitation investigations with regard to title, physical condition, environmental matters, matters of survey, flood plain, utilities availability, zoning and building code, and other applicable governmental requirements, financing requirements, and development requirements. The County shall grant the Town, its agents, or assigns free access to the Property for such purposes.

6. CONVEYANCE.

a. Deed. The County agrees to convey the Property to the Town by general special warranty deed, ~~with modern English covenants of title~~, free and clear of all encumbrances, tenancies, and liens (for taxes or otherwise), except as may otherwise be provided in this Agreement, subject to applicable easements and restrictive covenants of record not adversely affecting the use of the Property for any purpose, or rendering title unmarketable.

b. Possession. Possession of the Property shall be given to Town at Closing, except that Town shall have access to the Property for the purposes specified in paragraph 5.

c. Closing Costs. Except as otherwise set forth in this Agreement, County shall pay any grantor's tax, its own attorney's fees, and other costs normally paid by a County-Seller in similar transactions, and will pay the cost of preparing the deed. Town will pay all other costs and taxes in connection with recordation of the deed, its own attorney's fees, and other costs normally paid by a Town-Purchaser in similar transactions.

d. Prorations. All rents, interest, taxes, insurance premiums, utility bills, fuel oil, and other items of income or expense for the Property, shall be prorated as of the date of Closing.

7. COUNTY'S AND TOWN'S DOCUMENTATION. To the extent that any of the following items exist and are in the possession of the County and can be located through a reasonable search, County agrees to furnish to Town, within ten (10) days from the date hereof, any and all surveys, topographical maps, title reports, leases and amendments thereto, environmental assessments, and any notices or correspondence received from a local, state or

federal governmental body or agency, related to the environmental condition of the Property. (the “**Inspection Documents**”).

8. REPRESENTATIONS AND WARRANTIES BY COUNTY. County represents and warrants as of the date hereof and as of Closing that:

a. County is the sole owner of the Property and has the right, title and authority to enter into this Agreement and to perform its obligations hereunder;

b. the entry and performance of this Agreement by County will not breach any agreement with any other party or create a violation of any applicable law, rule or regulation;

c. to the best of County's knowledge, the Property and all structures and operations on the Property fully comply with all applicable federal, state and local environmental laws, rules, regulations, and requirements;

d. County has no knowledge of or reason to believe there exists on the Property or any adjacent property any contamination of the soil, surface water, or groundwater on or under the Property or any parcel adjacent to the Property;

e. County has no knowledge of any past or present administrative proceedings, past or present litigation, or any notices, claims or assertions of a violation of any environmental, health or safety law or regulation affecting the Property;

f. there are no existing boundary, water or drainage disputes of which the County has any knowledge;

g. there are no actual or threatened actions or proceedings against the County to condemn all or any part of the Property; and

h. there are no leases encumbering the Property.

9. REPRESENTATIONS AND WARRANTIES BY TOWN. The Town represents and warrants to County that the Town has the financial ability and authority to purchase the Property and satisfy all other obligations under this Agreement.

10. COUNTY RIGHT OF FIRST REFUSAL IN CERTAIN CIRCUMSTANCES. Following the transfer of Property as contemplated in this Agreement, the County shall have the option to purchase the Property, or a portion thereof, under the following circumstances: If the Town, at any point, is planning to sell or lease the Property or a portion thereof, for development or use other than a use related to manned or unmanned aviation activity, the Town shall provide written notice to the County. The County shall have the option to purchase the portion of the Property contemplated to be sold or leased, including all improvements thereon, either for an agreed upon price or for fair market value. To exercise its option in this instance, the County must provide notice to the Town within sixty (60) days of receipt of the Town's notice. Unless the Parties come to an agreement on purchase price, fair market value shall be determined

in the following manner: the Town and the County shall each hire an appraiser to conduct an appraisal of the property for fair market value. The average of the two appraisals shall constitute the purchase price.

~~10.~~ 11. REVERSIONARY INTEREST. The County shall have a right of reversion, and fee simple title to the Property shall revert back to the County, as if the property were never transferred pursuant to this Agreement, if the Town fails to make improvements to the property or fails to utilize the property for aviation activity within a period of five (5) years after the Closing Date. The County's right of reversion shall be appropriately referenced in the limited warranty deed.

~~If the Town, at any point, is planning to sell or lease the Property or a portion thereof, for development or use other than a use related to manned or unmanned aviation activity, the Town shall provide written notice to the County. The County shall have the option to purchase the portion of the Property contemplated to be sold or leased, including all improvements thereon, either for an agreed upon price or for fair market value. To exercise its option in this instance, the County must provide notice to the Town within sixty (60) days of receipt of the Town's notice. Unless the Parties come to an agreement on purchase price, fair market value shall be determined in the following manner: the Town and the County shall each hire an appraiser to conduct an appraisal of the property for fair market value. The average of the two appraisals shall constitute the purchase price.~~

~~11.~~ 12. INDEMNITY. County shall indemnify, defend and hold Town harmless from all claims, actions, suits, demands and liabilities whatsoever, including reasonable attorney's fees and costs, arising from or related to the ownership and use of the Property prior to Closing or if any Representation or Warranty made by County is untrue. Town shall indemnify County from any loss, damage, or expense (including reasonable attorney's fees and costs) resulting from Town's use of, entry upon, or inspection of the Property during the Due Diligence Period. This indemnity shall survive any termination of this Agreement. Notwithstanding any other provision of this Agreement, entry upon the Property and exercise of due diligence is performed at Town's sole risk. Town assumes the risk and shall be solely responsible for any injuries to any employee or agent of the Town upon entry and exercise of due diligence pursuant to this Agreement.

~~12.~~ 13. CONDEMNATION. In the event County or Town become aware that the Property or any part thereof is or will become the subject of a condemnation proceeding, whether for public or quasi-public use, such party shall immediately give notice to the other of such proceeding. Upon the giving or receipt of such notice, Town shall have the option, by giving written notice to County within thirty (30) days following receipt of such notice of a condemnation proceeding:

a. to take title in accordance with the terms and conditions of this Agreement, and negotiate with the condemning authority for the condemnation award and receive its benefits; or

b. to permit County to negotiate with the condemning authority and receive the condemnation award, in which event Town shall take title to the remaining Property in accordance with the terms and conditions of this Agreement and the Purchase Price hereunder shall be reduced

by the amount received or receivable by County as compensation for that portion of the Property so taken; or

- c. to terminate this Agreement.

~~13.~~ 14. NOTICES. All notices to the parties hereto shall be delivered by hand or via certified mail return receipt requested, via overnight express delivery, or via facsimile and shall be deemed effective upon delivery if by hand and upon confirmation of receipt thereof by other means, to the following address until such address is changed by notice in writing to the other party:

Town:

Town of Blackstone, Virginia
100 West Elm Street

Attn: Philip Vannoorbeeck, Town Manager

With a copy to:

Julian Harf
Spilman Thomas & Battle, PLLC
310 First Street, Suite 1100
Roanoke, VA 24011

County:

Nottoway County, VA
P.O. Box 92
Nottoway, VA 23955
Attn: Stephen Bowen, County Administrator

With a copy to:

Gary Elder
Elder, Friedman & Allen, P.C.
113 East 2nd Street
Farmville, VA 23901

~~14.~~ 15. RISK OF LOSS. All risk of loss or damage to the Property by fire, windstorm, casualty, or other cause is assumed by County until Closing. County represents it will insure the Property, at County's cost, against such perils until Closing. In the event of substantial loss or damage to the Property before Closing, Town shall have the option of either:

- a. terminating this Agreement, or
- b. affirming this Agreement, in which event County shall assign to Town all of County's rights under any policy or policies of insurance applicable to the Property.

~~15.~~ 16. AGENTS. County warrants and represents that there are no real estate brokers or agents entitled to receive a commission on the sale of the Property hereunder.

~~16.~~ 17. DEFAULT AND REMEDIES.

a. If the sale and purchase contemplated by this Agreement is not consummated because of County's or Town's default, the non-defaulting party may elect to:

- (i) terminate this Agreement;
- (ii) seek and obtain specific performance of this Agreement; or
- (iii) pursue all other rights or remedies available at law or in equity, including an action for damages.

b. If either County or Town defaults under this Agreement, such defaulting party shall be liable for any expenses, including reasonable attorney's fees and costs, incurred by the non-defaulting party in connection with the enforcement of its rights under this Agreement.

c. These remedies are cumulative and non-exclusive, and may be pursued at the option of the non-defaulting party without a requirement of election of remedies.

~~17.~~ 18. ENTIRE AGREEMENT. This Agreement contains the entire agreement of the parties, and supersedes the terms and conditions of all prior written and oral agreements, if any, concerning the matters it covers. The Parties acknowledge there are no oral agreements, understandings, representations, or warranties, which supplement or explain the terms and conditions contained in this Agreement. This Agreement may not be modified except by an agreement in writing signed by the Parties.

~~18.~~ 19. WAIVER. Failure to insist upon strict compliance with any of the terms, covenants, or conditions hereof shall not be deemed a waiver of such term, covenant, or condition, nor shall any waiver or relinquishment of any right or power hereunder at any one time or more times be deemed a waiver or relinquishment of such right or power at any other time or times.

~~19.~~ 20. SEVERABILITY. If any provision of this Agreement is unenforceable, the remainder of this Agreement shall continue in effect and be construed as if the unenforceable provision had not been contained in this Agreement. Each provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

~~20.~~ 21. CAPTIONS. Captions are used in this Agreement for convenience only and shall not be used to interpret this Agreement or any part thereof.

~~21.~~ 22. GOVERNING LAW. This Agreement is to be governed by and construed in accordance with the law of the Commonwealth of Virginia.

~~22.~~ 23. CHOICE OF FORUM/JURISDICTION. The Parties hereby consent to the jurisdiction and venue of the courts of the Commonwealth of Virginia, specifically to the courts of the County of Nottoway, Virginia, in connection with any action, suit or proceeding arising out of or

relating to this Agreement. The parties further waive and agree not to assert in any such action, suit or proceeding brought in the County of Nottoway, Virginia, that (i) the Parties are not personally subject to the jurisdiction of such courts, (ii) the action, suit or proceeding is brought in an inconvenient forum, or (iii) venue is improper.

~~23.~~ 24. WAIVER OF TRIAL BY JURY. THE PARTIES HEREBY WAIVE TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM BROUGHT BY EITHER PARTY AGAINST THE OTHER ON ANY MATTER WHATSOEVER ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS AGREEMENT, OR ANY RELATED AGREEMENTS OR INSTRUMENTS AND THE ENFORCEMENT THEREOF, INCLUDING ANY CLAIM OF INJURY OR DAMAGE TO ANY PARTY OR THE PROPERTY OF ANY PARTY.

~~24.~~ 25. SUCCESSOR/ASSIGNMENT. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their heirs, personal representatives, successors, and assigns. This Agreement may not be assigned by either Party without the express written consent of the other Party.

~~25.~~ 26. COUNTERPARTS. This Agreement may be executed in any number of counterpart copies, each of which when executed and delivered shall be deemed to be an original and all of which counterparts when taken together shall constitute a single instrument. Facsimile, electronic or scanned signatures shall be binding as originals in accordance with the Virginia Uniform Electronic Transactions Act at Va. Code §§ 59.1-479, *et seq.*

~~26.~~ 27. CONSTRUCTION/ADVICE OF COUNSEL. The parties agree that each has consulted with an attorney who has actively participated in the drafting and negotiation of this Agreement, and that the provisions of this Agreement shall not be construed in favor of either party.

DRAFT

Andrea Kelly

From: Christy Hudson
Sent: Thursday, July 31, 2025 10:26 AM
To: Andrea Kelly
Subject: RE: Volunteer Incentives
Attachments: EMS FIRE LEVY UPDATE 7 31 25.xlsx

Good morning!

Attached are the updated numbers for the levies.

One question? Who asked for updated numbers? 😊

IF we exempt the 1 vehicle and do not assess ANY levies to the Volunteers on anything they own (except businesses) the County will not collect \$36,346.62 in revenue for 2025.

As of today, the revenue on the PP levy is \$951,720.79 and the revenue on the RE levy is \$905,744.99 for a total revenue of \$1,857,465.78.

Let me know if you have any questions.

Subject: RE: CRC Nottoway Courthouse construction grant

Good afternoon, Bill.

I am sorry it has taken me so long to get an answer for you. Our USDA representative is no longer working there, but I have contacted a new person named John Ramirez. He was not very positive about this grant or the loan opportunity. He said that Nottoway could be eligible for the Community Facilities Direct Loan and Grant Program provided that there are funds to be had. Since Nottoway's population is at 15,597 and the Median Household Income is \$62,161 that is less than VA's of \$68,500, it is below 90% of the \$73,300 of VA's non-metropolitan household income. He said that the grant funds are very limited and there are none available right now. I told him that we were thinking of applying at the beginning of their year in October and he said that this year they did not get new funding until January and they got very few grant funds. He said if we applied, they would first vet applications for eligibility and then determine if they would potentially qualify for a grant or a loan. He said that they were getting less and less funds for both. He said that they will need 5 years of financial statements, PER, ER, County documents stating who would be responsible for the grant or loan from the county, and meeting notes that stated that applying for these funds was approved by the board.

I asked about how long you had to spend the funds, and he said right now, three years with no extensions.

He said if Nottoway got a loan, then they would have to get an interim loan to pay for the project and once the project was completed, the USDA would pay off the interim loan and set up a 40-year fixed loan with the county. He said rates change quarterly, but right now the poverty level rate is 4.5%, the intermediate rate is 4.875%, and market rate is 5.25%. He said that it looked like to him, Nottoway would probably fall in the intermediate category.

I am sorry this is not better news. Please let me know if you have any more questions.

Good evening, Mr. Collins.

I have reached out to our USDA representative to make sure that Nottoway qualifies for the grant that you are mentioning.

[Community Facilities Direct Loan & Grant Program | Rural Development](#)

I am just not sure about the median household income, but I will let you know as soon as I hear back from her.

As for a timeline if Nottoway qualifies, they run these grants until the funds are out and then at the beginning of each fiscal year which is October for them, they start over and have more funds, so I would be getting ready to submit the very first week of October if at all possible.

I will get back with you as soon as I hear back from Ms. Moran.

Have a super evening.

Subject: CRC Nottoway Courthouse construction grant

Good afternoon Miss Jackson. Nottoway has approved a PPEA contractor to present options for a courthouse building. What documents and what timeline should we know of for the 15% grant to help us with construction. I believe it was USDA. For localities with fewer than 20,000 Citizens. Thanks

Good morning, Bill and Steve.

I got the below information from another representative that I reached out to about Nottoway's Court House project. He seems a little more optimistic than the gentleman that I talked to on the phone. Please let me know if there is anything that I can do to help. I hope you both have a great weekend!

Subject: RE: [External Email]Nottoway Courthouse

Hello Christin,

Thank you for reaching out and I apologize for the delayed response. You are correct that there are different tiers of maximum grant assistance, and each level has its own eligibility criteria. To be eligible for a maximum of 15% grant assistance, the proposed project would have to be:

- Located in a rural community having a population of 20,000 or fewer; and
- The median household income (MHI) of the proposed service area is below the higher of the poverty line or 90 percent of the State nonmetropolitan median household income. The proposed project must meet both percentage criteria. The poverty line for VA is currently \$32,150 and the VA State nonmetropolitan median household income is \$68,524. $\$68,524 \times 90\% = \$61,671$, so the proposed service area would have to have a MHI of either less than \$32,150 or \$61,671. We use the 2020 Census Data for population, and if I have the correct area, it appears that Nottoway County has a population of 15,642. For MHI, we use the 2021 American Community Survey 5 year estimate subject tables from the Census data, and again if I have the correct service area, the MHI for Nottoway County,

VA is \$54,614. In that case, the county may actually be eligible for up to a 35% grant. To be eligible for up to a 35% grant, the MHI for the service area would have to be 80% or lower than the State non-metropolitan median household income of \$68,524. $\$68,524 \times 80\% = \$54,819$, so the county would be just under that. These things could change depending on the service area.

In addition to the above, the applicant would have to demonstrate the need for the grant funds, which would be based on a financial review of the applicant. Grants funds are capped at \$50,000 per project and are limited to equipment and machinery use. Currently there are some grant fund available but not many and we are unsure how much if any grant funds we will get in the future.

Hopefully this information is helpful – I am also happy to do a call at anytime to discuss this further.

Thank you,

Aaron

Good afternoon.

I sent the below email to Patsy Moran, but she is no longer with USDA, so I was wondering if you could send me the contact of a person that could help me with this situation?

I had a person from the Nottoway Board of Supervisors ask me in the email below about the [Community Facilities Direct Loan & Grant Program | Rural Development](#) for building a new Courthouse.

He was thinking that Nottoway would qualify for the 15%, but if I am understanding correctly, It can be a grant of up to a maximum of 15% of the project if it is located in a rural community having a population of 20,000 (Nottoway's population per VA Rural Opportunity Dashboard is 15,597) and median household income (as per VA Rural Opportunity Dashboard Nottoway's is \$62,161) of the proposed service area is below the higher of the poverty line or 90% of the State nonmetropolitan median household income which I believe is \$90,974.

I do not know what the poverty line is, but it looks like they do not meet the 90% of the State nonmetropolitan household income based on the numbers above unless I am figuring it wrong. Would you mind giving me a call to help me understand if they qualify for a grant or a loan under USDA to help with the construction of a new Courthouse?

I truly appreciate your assistance.

Have wonderful evening.

Community Facilities – Talking Points

1. Provides funding for facilities that provide an essential service to the local community for the orderly development of a community in a primarily rural area, and does not include private, commercial or business undertakings. Used to purchase, construct, and/or improve:
 - Public facilities, such as town halls, courthouses, airport, or street improvements
 - Public safety services, such as fire departments, police stations, prisons, police vehicles, fire trucks, or equipment
 - Community support services, such as child care centers, or community centers
 - Cultural or Educational Services, such as museums, libraries, schools
 - Healthcare facilities, such as hospitals, medical or dental clinics, nursing homes, or assisted living facilities
 - Can possibly include refinancing of other existing debt (not RD debt)
2. Eligibility –
 - a. Public bodies, non-profit organizations, and federally recognized Indian Tribes – need to review organizational documents
 - b. Facilities must serve rural area where they are located
 - c. Applicant must have legal authority to borrow money, obtain security, repay loans, construct, operate, and maintain the proposed facility
 - d. Projects must demonstrate significant community support
 - e. Must meet test for credit, and unable to finance through own resources or commercial credit at reasonable rates and terms
 - f. Rural areas – cities, towns, villages, CDPs, and magisterial districts with no more than 20,000 residents in incorporated areas; 50,000 in unincorporated areas (based on 2010 census)
3. Rates and Terms –
 - a. No maximum loan size
 - b. Fixed interest rates
 - c. No prepayment penalty
 - d. Maximum term of 40 years (useful life of facility or equipment)
 - e. Interim Financing during construction phase for loans over \$500,000
4. Security –
 - a. Promissory Note and Deed of Trust
 - b. General Obligation Bond – pledges full faith and credit/tax revenues
 - c. Revenue Bond – pledges revenues from operation of facility
 - d. Debt Service Reserve required (waived if the security provided is a general obligation bond)
5. Grant funding may be available –
 - a. Based on MHI of the service area and financial review
 - b. Maximum of \$50,000 with matching funds for vehicles & equipment only

- c. Based on our state allocation and availability of funds
- 6. Eligible Costs – any related project expenses, such as –
 - a. Construction and/or Purchase
 - b. Appraisal
 - c. Land & Rights
 - d. Architectural Services – PAR, Basic, Inspection, and Additional Services
 - e. Environmental – Environmental Assessment
 - f. Legal and Bond Counsel Fees
 - g. Interest
 - h. Contingency – 10% of construction cost initially; then reduced to 5% after bid award
- 7. Application Process –
 - a. Preapplication for loans over \$300,000
 - b. SAM registration
 - c. Environmental Review
 - d. Financial Feasibility Analysis/Report
 - e. Preliminary Architectural Report (PAR)
 - f. 5-year historical financial data/audits
 - g. Operating Budget –financial projections thru first full year of operation
 - h. Balance Sheet – current
- 8. Loan Approval –
 - a. Letter of Conditions – essentially our loan commitment. Outlines items needed to move toward closing, i.e. legal documents from your attorney, audit agreement, adoption of forms by Board of Directors or Town Council
 - b. Interim Financing required during construction period for loans over \$500,000.
 - c. Consultant Agreements, i.e. Architectural, Engineering, Legal
 - d. Procurement
 - e. Develop plans/specs and contract documents
 - f. Competitive bid (maximum open and free competition)
- 9. Construction –
 - a. During the construction phase, RD representative will be on-site monthly for inspections and progress meetings.
 - b. Once construction is complete, we will close our permanent financing and take out the bank.

Nottoway County Grievance Procedure under the Americans with Disabilities Act

This grievance procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 ("ADA"). It may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provisions of services, activities, programs, or benefits by Nottoway County. Nottoway

County's personnel policy governs employment-related complaints of disability discrimination.

All complaints must be in writing and contain information about the alleged discrimination including the complainant's name, address, phone number as well as the location, date and description of the issue. Alternative means of filing complaints, such as personal interviews or a tape recording of the complaint, will be made available for persons with disabilities upon request.

That complaint must be submitted by the complainant or their designee as soon as possible but no later than sixty (60) calendar days after the alleged violation to:

ADA Coordinator
PO Box 92 Crewe, Virginia 23955.

Within fifteen (15) calendar days after the receipt of the complaint, the ADA Coordinator, or their designee, will respond to any complaints, in writing, and in a format accessible to the complainant. Additionally, the ADA Coordinator will meet with the complainant to discuss the complaint and the possible resolutions. The response will explain the position of Nottoway County and offer options for the substantive resolution.

If the ADA Coordinator's response does not satisfactorily resolve the issue, the complainant and or their designee may appeal the decision within fifteen (15) calendar days after the receipt of the response to the County Administrator or his designee.

Within fifteen (15) calendar days after the receipt of the appeal, the County Administrator or his designee will meet with the complainant to discuss the complaint and the possible resolutions. Additionally, the County administrator or their designee will respond in writing, and, where appropriate in the format accessible to the complainant, with the final resolution of the complaint.

All written complaints received by the ADA Coordinator or their designee, appeals to the County Administrator or his designee, and responses from the two offices will be retained by Nottoway County for at least three years.

Notice under the Americans with Disabilities Act

In accordance with the requirements on Title II of the Americans with Disabilities Act of 1990("ADA"), Nottoway County will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities.

Employment: Nottoway County does not discriminate on the basis of disability in the hiring or employment practices and complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under Title I of the ADA.

Effective Communication: Nottoway County will generally, upon request, provide appropriate aids and services leading to effective communications for qualified person with disabilities, so they can participate equally in Nottoway County's programs, services, and activities, including qualified interpreters, documents in Braille and other ways of making information and communications accessible to people that have speech, hearing, or vision impairments.

Modifications to policies and procedures: Nottoway County will make all reasonable modifications to the policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities. For example, individuals with service animals are welcomed in Nottoway County offices, even when pets are generally prohibited.

Requests for Accommodation. Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a program service or activity of Nottoway County, should contact the office re: ADA Coordinator as soon as possible but no later than forty-eight (48) hours before the scheduled event.

The ADA does not require Nottoway County to take any action that would fundamentally alter the nature of its programs or services, or impose an undue financial or administrative burden.

Complaints that a program, service, or activity of Nottoway County is not accessible to the persons with disabilities should be directed to the ADA Coordinator.

Nottoway County will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services or reasonable accommodation and/or modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.

Questions about this Notice should be made to the ADA Coordinator, PO Box 92, Crewe, VA 23955; Email: sbowen@nottoway.org.

O. Closed Meeting

I move that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(1) Discussion, consideration, or interviews of prospective candidates for employment; assignment, appointment, promotion, performance, demotion, salaries, disciplining, or resignation of specific public officers, appointees, or employees of any public body; specifically relating to personnel matters now pending in County Administration.

Reconvene in Open Meeting, Certification of Closed, and Action Items, if any

Motion to Adjourn

C

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 26TH DAY OF JUNE IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
 DAPHNE V. NORTON, VICE CHAIR
 RICHARD H. INGRAM, JR.
 JOHN A. ROARK
 GEORGE G. TOTH, III
 STEVE W. BOWEN, COUNTY ADMINISTRATOR
 CATHERINE DOUGLASS, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:00 p.m.

Pastor Jim Hogg provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Supervisor Ingram moves to approve the agenda. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Approval of the Minutes: Supervisor Roark moves to approve the minutes of the Special Meeting held June 1, 2025; Regular Meeting held May 15, 2025; and the Regular Meeting held March 20, 2025. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins begins the Delegations from the Public.

1 – Sonny Abbott: Would like VDOT to find a long-term solution to the issue so as to avoid an annual closure of Little Creek Road. He speaks to the Treasurer's Investment Report, that the figures provided do not total accurately. He encourages someone to review the figures.

The Board hears a Presentation by Katie Martin, Wildlife Biologist, Virginia Department of Wildlife Resources, regarding the County's bear population. Nottoway is wooded, agricultural, and rural with creeks and river systems which make it favorable to bears. DWR tracks bear population across zones, and, while the zone Nottoway is in had increasing populations in recent years, it is now stabilizing. She encourages citizens to secure their trash and take down bird feeders when bears are in the area to avoid attracting bears to these easy food sources. Mange is being seen in Nottoway now, and anyone can call 1-855-571-9003 to report a bear with mange.

The Board receives the following Department reports:

1 –Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for May 2025. Aaron French, Assistant Resident Engineer, reports the Route 46 bridge is open. Phase 2 of the 723/460 R-Cut project is nearing completion, and Phase 3 requires a month-long closure and a detour to begin the week of July 7th. Northbound traffic on 723 will be able to cross the intersection to travel Highway 460; southbound traffic on 723 must take the detour. Little Creek Road will be closed beginning July 7th to clean sedimentation from a culvert. Contract resurfacing is complete. Once the Crystal Lake Rural Rustic project is

complete, equipment will be available to make repairs to the secondary roads around the Route 46 bridge. VDOT will perform patching and resurfacing of Jonesboro Road, and Mr. French check with Brunswick County regarding work on Cedar Hill Road. Work is moving forward on the Darvills Road roundabout. Sight-distance mowing is being performed at divided highway crossovers with a full cycle of mowing ahead. Tree trimming on Highway 460 on the east end of the County.

After viewing a citizens' recent dash cam footage of the area, Supervisor Toth encourages the Sheriff to have a presence at the location of the upcoming roundabout. Vice Chair Norton is concerned about safety at the location of the R-Cut construction due to speed. Supervisor Roark asks about repairs and repaving on Jonesboro and Cedar Creek Roads. He also asks if there are things VDOT can do to encourage more traffic through the 360/460 corridor and increase development. Mr. French mentions a possible beautification project, having signage advertising local businesses who sponsor a length of roadway through funding mulch and flowers. Supervisor Ingram asks if VDOT can help with a directional sign for the new Animal Shelter, right off the 360/460 corridor. Mr. French says they could explore the possibility through the "integrated directional sign program". Supervisor Roark asks for an explanation of what an R-Cut is as some think a roundabout is being constructed at 723.

2 – Solid Waste: May 2025 Nottoway County Sanitary Landfill Waste Report: received an average of 58.68 tons of waste per day. Landfill Gas Q1 and Q2 Reports. Supervisor Roark confirms the life expectancy of the landfill is 2035 and then asks if any additional money was included in the FY26 budget to add to the reserved closure funds. Administrator Bowen notes the TRC report indicates closure costs could increase. Later in the meeting, he will be asking to commit the \$8.2 million to have the reserved closure funds better reflected in future audits. However, there was no additional budgeted. Chairman Collins asks about the 200 laptops shown on the landfill waste report; Administrator Bowen will check on this.

3 – Building Inspection: May 2025 report; 25 building permits issued for \$4,512.92 in permit fees and \$1,113,332.50 in construction value; 170 inspections performed with 68 (40%) failed. Nicholas Bowles, Building Official, reports on meetings attended. There is an appeals process for anyone who disagrees with an inspection result. He has tested and earned a designation as Code Enforcement Administrator and certified as Property Maintenance Official. To defray the costs of his department, Mr. Bowles asks the Board to approve advertisement of a public hearing for consideration of an increase to building permit fees. Included in that public hearing would be consideration of individual permits rather than the current universal permit. He is working with IGIS towards a new permit software. He is working with Mr. Hyde towards adoption of the Statewide Fire Prevention Code.

Vice Chair Norton asks for clarification on the fail rate. Mr. Bowles says some things can be corrected while he is onsite, but otherwise it is logged as a fail.

Supervisor Roark asks for the projected revenue from the fee increases. Mr. Bowles believes this will generate enough to cover the permit tech position.

Supervisor Roark moves to advertise for a public hearing at the July 2025 regular meeting to consider adoption of the increase in building fees. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

4 – Animal Control: May 2025 report; 147 animal control calls; 1 indictment; 7 convictions with 1 continued, 15 dismissed/complied rabies & tags; 12 compliance notifications issued; 2 dogs held over 40 days (in foster care).

5 – Piedmont Health District: No report provided.

6 – Nottoway County Public Library: Library Board of Trustees meeting packet for May 21, 2025; Library System Monthly Report for May 2025; Director's Report for May 2025. Library Board of Trustees meeting packet for June 4, 2025; Library System Monthly Report for June 2025.

7 – Nottoway County School Board: Dr. Marcia Martin, who will begin her new role as Superintendent on July 1st, is present and announces their new slogan: We are Nottoway - Committed to Excellence. She reports they are busy preparing for a new school year. There is a joint safety training exercise on July 7th at the complex. Convocation is Friday, August 15th.

Chairman Collins would like a joint budget session in February 2026. Administrator Bowen requests a finance meeting with Dr. Martin and the Treasurer before school starts.

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for May 2025. Mr. Zody mentions the Board will have six public hearings at their July meeting. Those notices will be advertised in the newspaper and be sent certified mail to adjacent property owners. He has been receiving unsolicited calls from battery storage developers. Any projects would need to begin with a Special Exception application and may be subject to a siting agreement. Mr. Zody now has a contact he will be speaking with regarding the extension of the High Bridge Trail to Burkeville. Chairman Collins would like to see mapping of the area to scope out a parking lot to accommodate horse trailers, a restroom, etc. Administrator Bowen considers requesting a presentation on the process, reporting on any hindrances. Vice Chair Norton encourages conversations with Burkeville leaders.

10 – Emergency Services: Emergency Services Coordinator's Report for June 2025. Fire & EMS Working Group Planning Meeting Agenda for June 3, 2025. Mr. Hyde reports there were eight containers of corrugated cardboard on fire today behind Walmart. Immediate concerns were that it would head toward the wood line, toward the building, or toward a nearby LP gas tank. There were good communications and responses from the fire departments and thus taken care of quickly.

The mass casualty event with FASTC went well. The new Clerk for the Town of Burkeville has been trained in Code Red. The restructured NCES Executive Board held its first meeting. He reports on AI enhancement for dispatch and other ways it is being used in Emergency Services. Much work has gone into planning for the upcoming fireworks shows on July 1 and July 2. The Fire/EMS Guidelines Committee will be working towards a Standard Operating Guideline for responding to solar and battery storage facilities. Cooling centers are open. CPR classes for County employees is ongoing.

The Treasurer has received from the State the Return to Localities disbursement for Four for Life in the amount of \$13,255.84. Mr. Hyde requests the Board to authorize distribution of those funds to the agencies as presented.

Burkeville Fire & EMS – 40% = \$5,302.34
Nottoway Emergency Squad - 40% = \$5,302.34
Blackstone Vol. Fire Dept. – 10% = \$1,325.58
Crewe Vol. Fire Dept. – 10% = \$1,325.58

Vice Chair Norton moves to approve the consent request as presented for the authorization to distribute the Virginia Department of Health – Office of EMS "Four for Life" funding, received by the county on June 17, 2025, to the four state licensed EMS agencies in Nottoway County. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

11 – Piedmont Regional Jail Authority: There was no meeting in June 2025. Chairman Collins has been communicating with Superintendent Townsend and Delegate Ware. Because the County is not reimbursed \$100,000 of total cost to fund VCBR residents transferred to Piedmont Regional Jail, needing to be separated by voice and vision from other inmates, and because the state has already budgeted funding for VCBR, Delegate Ware is looking at options to keep those at VCBR rather than transferring them to the Jail.

12 – Pickett Park: Lease Actions Income Report dated June 16, 2025. Officer's Club Income Report dated June 16, 2025. FY25 Revenue/Expense Report dated June 16, 2025. Administrator Bowen reports he has found differences between the reports provided by the LRA office and the LRA Fund Report provided by the Treasurer. He will work towards resolving the differences beginning with labeling consistency.

Administrator Bowen alerts Mr. Hyde to the fact that there was a sale of Pickett Park property which could affect parking for the fireworks event. The recently sold property was used for parking at previous events.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Supervisor Toth asks what duties SROs perform during the summer. Sheriff says the five Resource Offices can perform the same duties of the other officers such as patrol, write tickets, but this week they are conducting a day camp.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package.

4 – Christy A. Hudson, Commissioner of the Revenue: Volunteer incentives report is in the package. The Board previously discussed exempting one car at 100% and levies for Personal Property and Real Estate for the volunteers. There are 83 active volunteers and 12 life members. Commissioner Hudson ran the figures based off the same Real Estate exemption as veterans: one acre with a primary residence. Ms. Douglass will research the need for an Ordinance while Commissioner Hudson calculates a financial impact. The Chiefs will discuss the qualifications of volunteers such as certifications and time served. Vice Chair Norton would like the Board to consider hardship reductions for senior citizens.

To the biannual tax payments, there is no consensus for or against, but it will need an Ordinance if the Board would like to pursue it. Educating the citizens that they can make payments early is another option to billing twice per year. No action will be taken at this time.

5 – Leanne Watrous, Commonwealth's Attorney: Case reports in the package.

The Board considers the following unfinished business.

1c – Broadband: Trucks are in the area laying cable.

1d – Public Safety Radio Project: Mr. Hyde reports there was recently a design review meeting with CTA, and work is ongoing. While some citizens ask to stop this project, the County is under contract, the funds have been borrowed, and the project will move forward. Mr. Hyde reminds everyone these radios are for life safety for fire, bus drivers, deputies, and EMS. The new project is for a P25 communications system, making the County eligible for state and federal grants.

1e – Courthouse PPEA Update: Administrator Bowen has received one proposal and is expecting another. The Board will review the proposals on July 8th and confer with the attorney about the next steps in legally following the guidelines. Counsel has advised that as long as the County is showing movement, July 8th is an acceptable date for review.

1f – Committee Reports:

- Supervisors Toth and Roark are waiting for the first official date with NCES.

- Vice Chair Norton reports on the CPMT meeting and its changing leadership with Dr. Grimes' retirement.
- Supervisor Roark says the Personnel Committee would like to meet with the Board in Closed Meeting next month.
- Supervisor Ingram reports on a meeting he attended at the Burkeville Fire Department where representatives from Chippenham and Johnston-Willis Hospitals spoke on stroke prevention before commending three Burkeville EMTs. A Burkeville crew, consisting of FF/EMT-B Chris Parrish, FF/EMT-B Jeff Thomas, and EMS Supervisor EMT-I Adam Cliborne, responded to a stroke call and, when Medflight was unavailable, they transported the patient directly to Chippenham Hospital. Their coordination with the hospital helped Chippenham staff achieve their fastest door-to-needle (DTN) time to date. The outcome would have been different without their efforts.

2 – Motorola Bill from 2022: The County received an invoice of \$58,601 from Motorola Solutions for work performed after a lightning strike to the Sheriff's Department in 2022. Though the bill was very delayed, a contract had been signed. The attorney advised the County pay the invoice, and Mrs. Presley, Finance Manager, confirms the invoice has been paid.

The Board considers the following new business:

1 – Aviation Industrial Park, Blackstone: The County sold the timber from a property near the Blackstone airport that is also listed for sale on LoopNet. There is no survey on that property, but it is roughly 70-80 acres. Philip Vannoorbeeck, Town Manager, asked about zoning the area around the airport for aviation. Mr. Zody has drafted an aviation district for the Zoning Ordinance which has been shared with Mr. Miskovic should the Town of Crewe be interested in similar for their airport. Blackstone is interested in the property and, as owner of the airport, is eligible to apply for aviation grants.

Town Manager Vannoorbeeck shares a printout of the parcel prepared for the Virginia Economic Development Partnership and Virginia Department of Aviation. Mr. Zody included a rendering of the parcel showing 84 acres, another description shows 72 acres, but there is no survey. The property is adjacent to Route 40 and the airport. Blackstone Town Council is interested in making an offer on the property that is listed for sale on LoopNet. He sees this as a good opportunity for economic development for all involved. With an electric charging station and the first licensed vertiport in the country at the airport, the Town wants to expand on the aviation development already in place. The property is located in the County, so the County will receive the tax revenue. There are approximately 430 acres at Pickett Park which includes this property.

2 – BZA Appointments: Gregg Zody, Planning & Economic Development Director, presents a reappointment of James McDaniel from District 5. He is the current Chairman and is interested in continuing on the Board. Thomas Gregory, District 2, is no longer interested in serving. Vice Chair Norton received an e-mail from Richard Payne, District 3, resigning effective July 15, 2025.

3 – Resolution for Employee Bonuses: Administrator Bowen presents a resolution, noting the auditors need this authorization documented, and is requesting the Board's approval. The ordinance is pursuant to State Code Section 15.2-1508 and authorizes payment of one-time bonuses to offices and employees. Supervisor Roark moves to approve. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

4 –Employee Handbook: Administrator Bowen explains that some time back, the County had Sands Anderson begin the process of drafting an employee handbook. Vice Chair Norton and Supervisor Roark also met to work on the project. Administrator Bowen begins with a suggestion he received to add "romantic interest" to the list of qualified relatives in section 3.6 on page 5.

At 9:20 p.m., Supervisor Toth motions for a ten-minute recess. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board reconvenes at 9:29 p.m. Administrator Bowen continues to review recommended changes. He draws attention to case law on page 17; received a suggestion to delete donation of leave time in section 8.4; and, corrects "may" on page 48 to read the County "will" conduct post-accident testing. Constitutional officers are not required to follow the County's policy.

A consensus of the Board is to retain donation of leave time. Supervisor Roark moves to approve the Nottoway County Employee Handbook, Effective July 1, 2025, leaving in the donation of leave time and accepting the changes as noted. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

5 – Crossroads – Annual Performance Contract: This document from Crossroads is before the Board for approval. Supervisor Roark moves to give authority to the County Administrator to sign the annual performance contract for Crossroads. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board considers the following Consent Items.

1 – May Expenditures Report

2 – Admin - Budget Adjustments/Supplements/Transfers

3 – Sheriff – Carryover - Grants/Purchase Orders

4 – Sheriff – Carryover - Purchase Orders \$183,003.60

5 – Budget Adjustment – School – State Bonus Funds \$176,148.00

6 – Budget Adjustment – Sheriff Grant Match \$73,097.00

7 – Budget Adjustment – Sheriff LOLE Grant \$3,200.00

8 – Library – Carryover Request for Imagination Library \$2,952.26

9 – Refund Request – Building Permit \$64.50

Ms. Presley addresses item 2 regarding adjustments/supplements/transfers. These items were previously before the Board, but the auditors require each be approved according to its correct designation.

Supervisor Roark moves to accept the recommendations on the consent items including, as presented by Ms. Logan Presley, item K-2 Budget Adjustments/Supplements/Transfers wording on the previously approved items on the Consent Agenda from July 2024 to date. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark confirms with the School personnel in attendance that item K-5 Budget Adjustment for the School, noted State Bonus Funds in the amount of \$176,148.00, is all state funds, no County funds are involved.

The following information items are presented in the package:

- 1 – CRC – May 2025 Items of Interest
- 2 – VACo Letter – Sanctuary Jurisdictions
- 3 – RPA Reassignment Approval
- 4 – Revenue and Population Comparison of Surrounding Localities
- 5 – SVCC GED Graduation
- 6 – Columbia Gas – Application re: SAVE Plan and Rider
- 7 – Dominion Energy – (3) Orders/Notices (full documents available in Administration)

Administrator Bowen presents a resolution for approval to commit \$8.2 million of reserves to the landfill closure. This will provide more accuracy during the audit. Chairman Collins reads the resolution. Supervisor Ingram moves to adopt the resolution to commit funds. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Vice Chair Norton remarks on the weather, and thanks Mr. Hyde for staying on top of things for the Board.

Supervisor Ingram says the Board has much on its plate and wants to make the best decisions for the citizens, particularly regarding emergency services.

Supervisor Roark appreciates the School and its new motto. He encourages everyone to enjoy the local fireworks shows.

Supervisor Toth appreciates his fellow Board members, encouraging them to reach out to their constituents, and consider their viewpoints on twice-a-year tax billing.

Chairman Collins enjoys being on the Board, looking at assets and expenses, and believes the aviation industrial park is important for the County. The property is adjacent to an airport, has an established business, and is receiving other business inquiries. It would be beneficial for the citizens.

June 26, 2025

Supervisor Roark moves that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(3) Discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body, specifically property located near Fort Pickett. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 9:51 p.m.

The Board reconvenes in Open Session at 10:07 p.m.

Supervisor Ingram moves to certify as follows:

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

A second is provided by Vice Chair Norton. A roll call vote is taken with responses as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Having no further business, Vice Chair Norton moves to adjourn. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins adjourns the meeting at 10:08 p.m.

SUBJECT: Nottoway Sanitary Landfill Gas Monitoring Program
Monitoring Event: 07-22-25

DEQ Permit No. 304
TRC Project No. 675345

On July 22, 2025, TRC Engineers, Inc. (TRC) personnel, using an Envision gas analyzer, measured landfill gases in probes that are located within, and along the perimeter of, the facility. Probe pressure and barometric pressure were also measured at each probe location. Atmospheric temperature was recorded at the beginning and end of the monitoring event.

The instrument was calibrated in the field to detect the following parameters: methane (CH₄), carbon dioxide (CO₂), oxygen (O₂). The instrument is based upon infrared technology, such that methane concentrations are not biased in low-oxygen environments.

I have attached tables summarizing data obtained during the gas monitoring program. Note that 4% methane is equivalent to 80% of the lower explosive limit (LEL) for that gas; 5% methane is equivalent to 100% of the LEL for that gas.

Results. During the subject monitoring event, concentrations of methane were found to be *less than* 80% of the LEL in *all* probes located within, and along the perimeter of, the facility. In addition, methane was *not* detected within *any* on-site structures.

Conclusion. The facility appears to be compliant with *Virginia Solid Waste Management Regulations* as they pertain to control of landfill gases at the facility boundary and within facility structures.

Comment. In a letter from DEQ (dated *May 24, 2005*), DEQ approved a minor amendment to the facility permit (as requested in correspondence dated *December 20, 2004*) allowing the facility to replace gas probe GP-18 with GP-18R.

Mr. Steven Bowen

August 1, 2025

Page 2

Note. The use of a field instrument to measure methane concentrations in landfill gas is based upon at least two assumptions:

- the instrument is properly calibrated to a methane gas standard
- the only organic gas that is present in the mixture and that can be detected by the instrument is actually methane

The use of a field instrument, therefore, is not equivalent to laboratory analysis. In order to "*prove*" that the gas being measured by the field instrument is actually methane, it would be necessary to analyze a sample of the gas in the laboratory using the appropriate method.

The IR meter was used in accordance with the following protocols:

LEL = 5% methane.

- calibrated the IR meter with the calibration gases

Shaded areas = percent methane > or = to 100% LEL

- cleaned around the probe cap to prevent dirt from entering the sample port

All readings obtained using a LANDTEC GA-90 gas analyzer.

- connected the IR meter to the probe to be measured

L/F = low flow; unable to obtain reading because of excessive moisture.

- recorded peak probe pressure

Calibration gas standards (+/- 2%): CH₄: 2.5%, CO₂: 15.0%, O₂: 4.0% or 20.9%.

- pumped landfill gas until a steady state was reached

A = probe at 0 - 5 ft. depth interval.

B = probe at 5 - 10 ft. depth interval.

C = probe at 10 - 20 ft. depth interval.

Gas probes GP-29, GP-31, GP-33, and GP-34 at 2.5 - 6.0 ft. depth interval.

Board of Trustees Meeting

June 4, 2025

The meeting was called to order by Shelia Harper who welcomed everyone. Present for today's meeting were Shelia Harper, Susan Nash, Becky Sones, Verna Rhoades and Library Director, Jackie Zatawesky. Carolyn Leslie and Jackie August were absent.

A motion to approve the Agenda and Consent Agenda including the minutes of May 21, 2025, Statistical Reports and Financial Reports was made by Susan Nash and seconded by Becky Sones. The motion passed.

A motion to approve the Bills was made by Susan Nash and seconded by Becky Sones. The motion passed.

Communications: None

Citizen Comments: None

Report of the Library Director

Blackstone Library: The internet was out in May for several days, repaired June 8, but there still seems to be a problem with the network needing further repair.

Burkeville Library: All is quiet.

Crewe Library: All is quiet.

Literacy Program Report: Community service persons begin today.
8-week Spanish/English class, evenings
in Crewe
Conversational Spanish will be available
in Blackstone.

Programs: Approval to use Seay Park in Blackstone for the
Drummer on July 8, 2025, 11:00 a.m.
Chainsaw program approved for Twin Lakes
Bubble Tea, Crewe, June 20

Committee Reports: None

New Business: None

Unfinished Business

Credit Card

It was suggested by Supervisors that receipts are provided for purchases and that there should be a modest limit.

Public Services Policy

Several changes were made to the existing policy. A motion to approve changes was made by Susan Nash and seconded by Becky Sones. The motion passed.

Items not on the Agenda

Jackie will work on revising the Mission Statement and the Vision Statement for review and approval at the next meeting.

Adjournment

Having no further business, Susan Nash motioned, seconded by Becky Sones to adjourn the meeting. The motion passed.

Next Meeting: August 20, 2025, 10:30 a.m., Crewe

Library System Monthly Report

To: Members of the Nottoway County Library Board
From: Jacqueline Zataweski, Public Library System Director
Date: August, 2025

The following summarizes the activities and projects that have taken place since I last provided a report for the June 4 meeting.

- On June 5, I attended the quarterly regional library directors' meeting. The next one will be September 4 in Cumberland. Highlights from the LVA report:
 - LVA received notification that 50% of (IMLS) funds for the FY ending Sept 30, 2026 have been awarded and believe the remaining 50% will be coming soon. That means we should not see any changes to our IMLS/LSTA grants to state funding through 9/30/2026.
 - The FY2026 State Aid estimate has been revised. Award letters with final appropriations to be sent after the LVA Library Board's June meeting.
 - Annual Directors' meeting October 1 (9-3:30). This is the day before the 2025 VLA Annual Conference, which will be held in Richmond this year.
- On June 8, I completed a draft of the 2025-30 Strategic Plan for Trustee review and potential approval.
- Also on June 8, I requested the remaining DPIL funds be carried over into FY26 - this amounts to \$2952.26. This was approved by the BoS at the June 26 meeting.
- In the process of gathering background information for the Strategic Plan, I discovered that some libraries do a modified, one page version of their plan. I then worked to create such a version of our plan.
- After the end of FY25, I began gathering the statistics needed for Bibliostat. The process for doing this has been updated in the succession binder. I await the year-end financial report.
- Since the last report, I have worked with Piedmont Health District to schedule a staff training day on August 22; there will be two classes offered - *Until Help Arrives* and *Stop the Bleed*. We also scheduled a public program, teaching attendees how to make their own foaming hand soap - this was held August 5.
- The County's new Employee Handbook has been received and has been distributed to all staff. I anticipate revising the Library's Handbook to ensure there are no contradictions or omissions.

- On July 30, I had the opportunity to view a couple of archived webinars that I had saved - one regarding Document Retention as it pertains to Social Media and the other discussing the upcoming changes that will be required to have our website remain ADA compliant in the future. Screen captures from the compliance webinar follow. Since then, I have been working to fix the items flagged by a tool on our website.
- On July 31, I met with a representative of INW Solutions, a company that works within the eRate program to update network components. I am working with another company to get their take as well, and we'll file the Form 470 at the appropriate time.
- After receiving the updated Award Letter from the LVA, I conferred with Logan regarding the appropriate budget revision request - I am hoping this will be accomplished in time for the August 21 meeting.
- I was invited to be part of the "panel discussion" for the Sustainable Libraries Initiative August meetup. I spoke on the topic of Transportation on August 7.
- A young woman was referred to me for 24 hours of community service; she completed 5 hours and 15 minutes before vanishing into the ether.
- All action items in the Social Cohesion section of the Sustainable Libraries Certification Program have been completed; we are now 69% of the way through the program with three sections to go before the final presentation.
- Kaitlyn has completed the inventory in Burkeville. We continue to work on the items in Crewe and Blackstone.

In addition to the above, the usual tasks regarding deposits and invoices, staff schedules and payroll were completed, as were promotional activities such as creating social media posts, newsletters, calendars, and other printed materials.

Acting as the primary contact for the Imagination Library, I continue to confirm addresses of and approve new registrants. As of August 14, there are 271 participants and 165 children have "graduated".

DOJ Rule Breakdown

- In April 2023, the US Department of Justice made a historic ruling regarding online accessibility and the ADA.
- The DOJ ruled that the content of websites and mobile apps provided by state and local governments must be accessible to citizens with disabilities, selecting WCAG 2.1, Level AA as the technical standard.
- The ADA's protection has expanded from physical to digital, positively impacting the lives of residents with physical and mental disabilities.
- Population over 30,000: Compliance deadline is April 24, 2028
- Population of under 30,000 and special districts: Compliance deadline is April 26, 2027

Important Legal Info

- The ADA applies to all agents of municipalities: Nonprofits, boards, commissions, libraries, housing authorities, conservation, etc.
- ADA lawsuits are at an all-time high. Websites are a large source of ADA litigation and CA, FL, and NY are the states with the most ADA cases filed.
- The ADA applies to all web content provided by local governments:
 - Electronic information on a website
 - Social media posts
 - Government electronic equipment like PDF, Word, PowerPoint, etc.
 - Mobile applications

What does online accessibility look like?

- When thinking about accessibility, physical assistance may come to mind, like ramps for wheelchair access, materials in braille format, or service animals. Online accessibility looks different, but is equally as important, especially in a world dominated by technology.
- People with hearing disabilities can use subtitles.
- People with vision impairments can use screen readers.
- People with mobility impairments can use a keyboard.
- Online accessibility means that everyone can access information found on websites, mobile apps, and digital documents, regardless of ability.

Source: American government website and app, followed by the technical standards of WCAG 2.1, Level AA

Design Tips: Screen Reader Considerations

1. Add "Skip To" that users get to content immediately if they wish.
2. Use Navigation Menus: Mark headings in descending order, bulleted & numbered lists, etc. Screen readers use them as navigation points.
3. Properly label links: helps users know where they're going.
4. Apply meaningful alternate text: don't rely on auto-generated alt text.
5. Label controls
6. Avoid nested tables

Revize Scan & Fix Service

Stay Inclusive and protected with our Scan and Fix Service!

- Each year after your website goes live, Revize will run up to four full-site-wide, comprehensive WCAG compliance scans of the website.
- Then, our team will spend up to 20 hours remediating any WCAG compliance issues for you.
- We provide 24/7 email and chat support to help you with any questions or concerns.
- Revize runs the scans, makes the adjustments, and handles everything for you. With our service, you're it for you. Other free and paid tools require you to make the fixes yourself.
- Clients: Contact your account manager if you're interested in pricing for the Scan & Fix Service.

Strategic Plan 2025-2030

at a Glance

Libraries Are

Responsive *Goals*

Seek input from community members to determine needs and methods for informing them of resources

Update hardware according to schedule and remain aware of technology trends and advancements

Curate digital resources and the physical collection to ensure they are relevant

Welcoming *Goals*

Use a variety of methods to ensure that community members are aware of the resources available to them

Reduce barriers to service by making access convenient both in person and online

Build a collection that will enable all segments of the population to see themselves represented on our shelves

Plan programs that highlight our partners and introduce new users to the library system

Sustainable *Goals*

Strengthen current relationships and seek new partners to better serve community needs and interests

Research and develop a plan for preparedness and disaster response for the library as part of the broader community

Reduce waste sent to the landfill and increase the use of environmentally preferable materials

Vision

The Nottoway County Public Library will be the vital agency to bring people together to prepare for an ever-changing future.

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *qz*

SUBJECT: Planning and Economic Development Monthly Update – July 2025

DATE: August 14, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances, notably division and property complaints. Please note that these discussions may consist of follow-up via email or phone at least four times or more after the initial meeting and before applying for a special exception, subdivision, or rezoning. Notable excerpts include:
 - Three of four Notice of Violations that have passed the deadline include:
 - a. Mountain Hall Road – Staff issued a temporary permit for six months for the storage containers and we will revisit the matter in January, 2026. (Letter sent out 5/29/25).
 - b. Woodman Road – The property owners no longer live in the area and one of the adult children reached out to me to discuss an action plan (my term) to commence cleaning up the site. (Letter sent out 5/28/25)
 - c. Raccoon Crossing – Sent one letter of inquiry and one NOV, one of which was returned (incorrect address) despite County property card records. (Letter sent out 5/28/25). Staff will continue to monitor the site with periodic inspections (RV) until contact with the property owner is established.
 - d. Piney Green Road – NOI was returned unopened in mid-July. (Letter sent out 6/16/25).
2. Planning Commission met on July 15th to hear a special exception request for a manufactured home on Brunswick Road (recommended approval) and a rezoning request

for Shawn Haney from RR to C-1 at the southwest intersection of Inverness Road and Lewiston Plank Road. PC recommended approval.

3. BOS heard the two requests heard above at their July 17th meeting and approved both requests.
4. Inverness Farms' special exception request for a solar facility on 40 acres, producing five MW, will be heard on August 19th. Also on that agenda is a public hearing for the Airport District and Airport Safety Overlay. The BOS will hear both cases at their September 18th regular meeting.
5. The Burke Junction solar facility request will be heard by the PC on September 16th. The proposal will generate approximately three MW on thirty acres on a 121 acre site.

Economic Development

1. Attending WPPDC East VATI Management Team Zoom Meeting held on July 1st.
2. Attended the second part of a virtual CDBG Q&A workshop hosted by VHCD covering the last two sessions on July 1 and July 2 regarding:
 - a. Public Services
 - b. Planning Grants

As mentioned before, the window for CDBG grants has closed for this calendar year, and if the BOS desires, we can discuss future grant applications and source matching funds.

3. Spoke with a solar battery storage company (Spearmint Energy) regarding potential sites. They were interested in a site near the US360/460 interchange, adjacent to Burkeville, on July 2nd.
4. Participated in the VA X bi-monthly meeting on July 11th.
5. Attended the Capital Region Military Alliance of Virginia (CaRMA) on July 16th in Chester, Virginia.
6. Participated in CEP Solar meeting on July 18th to discuss a potential solar project in the County.
7. Met with a solar development group regarding a potential solar project on July 24th.
8. At the July 24th EDC meeting, the Town of Blackstone provided vacant retail property for sale that will be updated in August on Loopnet.
9. Participated in a virtual Zoom meeting for the Hybrid CEDs team on July 25th.
10. VEDP is launching its new website in mid-August, and I will attend its virtual training.
11. The County Administrator and myself participated in a driving tour hosted by the Town Manager of Crewe around areas where they are seeking a Boundary Line Adjustment.
12. Participated in Go Virginia Region 3 virtual meeting on July 31st.
13. Staff will update our prospect manual for Pickett Park to be updated on both the new VEDP webpage (IVS) and Loopnet/CoStar site.
14. July's LoopNet site traffic report is attached.

EMERGENCY SERVICES COORDINATOR'S REPORT

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr.

DATE: August 14, 2025

SUBJECT: August Report

The following activities and projects are provided in this summary of work by the Department of Emergency Services since my last report on July 17th before your monthly Board of Supervisors meeting on July 17, 2025. Many of these activities listed below were performed in collaboration with other staff members and external stakeholders. This report is being submitted outside of the monthly BOS meeting package due to me being on family vacation for the week when the meeting packages were being assembled.

The current emergency services related projects and activities that I have worked on and represented the county include, but are not limited to, the following:

- Placed into service a Dell Rugged Laptop that was ordered at the end of the previous fiscal year to replace my office PC that had become so slow that our I.T. contractor said it was at the end of its service life and needed to be replaced. The laptop will allow me to take my office computer to meetings, events, and when I am in the field working on emergencies. This will be more efficient to have all of my emergency contact information, mapping, and secure access to Microsoft OneDrive at my fingertips without having to use my phone for all of the file and map viewing. I was able to fund around 90% of this laptop purchase with an emergency response grant through the state.
- Attended the EDC meeting on July 24th at the EOC and provided equipment support.
- Served as an interviewer on a three-person panel at NCSO on July 28th for hiring a director of the Emergency Communications Center (ECC).

- Participated in a virtual meeting with our GIS contractor on July 28th to discuss map updates in the new fiscal year.
- Participated in a webinar on July 29th about recent changes to the national standards on firefighting turnout gear and breathing apparatus. This information will help us to meet the current standards when they are purchasing replacement gear items.
- Attended a state briefing on recent flooding that was given by VDEM on July 30th. The information was focused more on other areas of the state that have seen significant localized flooding. Nottoway County is in good shape when it comes to flooding, with minimal areas in a flood plain that would see damage to any structures.
- Completed and submitted our annual report on Local Capabilities Assessment for Readiness to VDEM on August 1st.
- Attended a Traffic Incident Management class by VDOT on Saturday, August 2nd at the Blackstone Fire Station.
- Participated in the live fire training at the Southside Regional Public Safety Training Center in Blackstone on August 3rd to assist lead instructor Lee Williams and others conducting the required class for students in our recent Firefighter Level 1 certification class held in Nottoway County.
- Participated in an exercise briefing at Piedmont Geriatric Hospital on August 5th.
- Attended an after-action review on August 6th for the July fireworks show at the Blackstone Army Airfield.
- Served as an interviewer on a three-person panel at NCSO on August 7th and August 14th for hiring a director of the Emergency Communications Center (ECC).
- Participated in National Night Out on August 8th with a tent space in Crewe beside other emergency services and law enforcement agencies.
- Responded to the motor vehicle crash, fire, and diesel fuel spill on Darvills Road at the Military Road intersection on August 11th and coordinated the hazardous materials portion of the call for the incident commander. My role included contacting all state agencies and overseeing the clean-up contractor response, followed by working closely with VDOT as they worked to re-open that section of highway.
- Participated in the Nottoway County Public Schools event on August 11th at the complex for Back-to-School preparation.
- Attended the Nottoway Emergency Squad Executive Committee meeting on August 12th at the EMS station in Crewe.
- Responded to an industrial accident at the Piedmont Geriatric Hospital boiler plant to assist staff and Nottoway EMS on August 12th.
- Participated in a radio project review virtual meeting with staff and CTA on August 14th to discuss tower progress and upcoming training on portions of the equipment.
- The Insurance Services Office (ISO), now a subsidiary of Verisk Analytics, will conduct their survey of our fire protection across the county on August 26, 27, & 28th. I will be traveling to the towns with the ISO team as we meet with the three fire departments, public works departments, and the county emergency communications center.

Notice under the Americans with Disabilities Act

In accordance with the requirements on Title II of the Americans with Disabilities Act of 1990("ADA"), Nottoway County will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities.

Employment: Nottoway County does not discriminate on the basis of disability in the hiring or employment practices and complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under Title I of the ADA.

Effective Communication: Nottoway County will generally, upon request, provide appropriate aids and services leading to effective communications for qualified person with disabilities, so they can participate equally in Nottoway County's programs, services, and activities, including qualified interpreters, documents in Braille and other ways of making information and communications accessible to people that have speech, hearing, or vision impairments.

Modifications to policies and procedures: Nottoway County will make all reasonable modifications to the policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities. For example, individuals with service animals are welcomed in Nottoway County offices, even when pets are generally prohibited.

Requests for Accommodation. Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a program service or activity of Nottoway County, should contact the office re: ADA Coordinator as soon as possible but no later than forty-eight (48) hours before the scheduled event.

The ADA does not require Nottoway County to take any action that would fundamentally alter the nature of its programs or services, or impose an undue financial or administrative burden.

Complaints that a program, service, or activity of Nottoway County is not accessible to the persons with disabilities should be directed to the ADA Coordinator.

Nottoway County will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services or reasonable accommodation and/or modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.

Questions about this Notice should be made to the ADA Coordinator, PO Box 92, Crewe, VA 23955; Email: sbowen@nottoway.org.

Nottoway County Grievance Procedure under the Americans with Disabilities Act

This grievance procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 ("ADA"). It may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provisions of services, activities, programs, or benefits by Nottoway County. Nottoway County's personnel policy governs employment-related complaints of disability discrimination.

All complaints must be in writing and contain information about the alleged discrimination including the complainant's name, address, phone number as well as the location, date and description of the issue. Alternative means of filing complaints, such as personal interviews or a tape recording of the complaint, will be made available for persons with disabilities upon request.

That complaint must be submitted by the complainant or their designee as soon as possible but no later than sixty (60) calendar days after the alleged violation to:

ADA Coordinator
PO Box 92 Crewe, Virginia 23955.

Within fifteen (15) calendar days after the receipt of the complaint, the ADA Coordinator, or their designee, will respond to any complaints, in writing, and in a format accessible to the complainant. Additionally, the ADA Coordinator will meet with the complainant to discuss the complaint and the possible resolutions. The response will explain the position of Nottoway County and offer options for the substantive resolution.

If the ADA Coordinator's response does not satisfactorily resolve the issue, the complainant and or their designee may appeal the decision within fifteen (15) calendar days after the receipt of the response to the County Administrator or his designee.

Within fifteen (15) calendar days after the receipt of the appeal, the County Administrator or his designee will meet with the complainant to discuss the complaint and the possible resolutions. Additionally, the County administrator or their designee will respond in writing, and, where appropriate in the format accessible to the complainant, with the final resolution of the complaint.

All written complaints received by the ADA Coordinator or their designee, appeals to the County Administrator or his designee, and responses from the two offices will be retained by Nottoway County for at least three years.

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 21ST DAY OF AUGUST IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR

A RESOLUTION OF THE NOTTOWAY COUNTY BOARD OF SUPERVISORS APPROVING OF THE COUNTY'S PARTICIPATION IN THE PROPOSED DIRECT SETTLEMENT OF OPIOID-RELATED CLAIMS AGAINST THE SACKLER FAMILY, AND DIRECTING THE COUNTY ATTORNEY AND/OR THE COUNTY'S OUTSIDE COUNSEL TO EXECUTE THE DOCUMENTS NECESSARY TO EFFECTUATE THE COUNTY'S PARTICIPATION IN THE SETTLEMENT

WHEREAS, the opioid epidemic that has cost thousands of human lives across the country also impacts the Commonwealth of Virginia and its counties and cities, including the County of Nottoway, by adversely impacting the delivery of emergency medical, law enforcement, criminal justice, mental health and substance abuse services, and other services by Nottoway's various departments and agencies; and

WHEREAS, the Commonwealth of Virginia and its counties and cities, including Nottoway, have been required and will continue to be required to allocate substantial taxpayer dollars, resources, staff energy and time to address the damage the opioid epidemic has caused and continues to cause the citizens of the Commonwealth and Nottoway County; and

WHEREAS, a settlement proposal has been negotiated that will cause the Sackler family, the owners of the Purdue Pharma family of companies, to pay an aggregate of \$6.5 billion dollars nationwide to resolve opioid-related claims against them; and

WHEREAS, the County has approved and adopted the Virginia Opioid Abatement Fund and Settlement Allocation Memorandum of Understanding (the "Virginia MOU"), and affirms that this pending settlement with the Sackler family shall be considered a "Settlement" that is subject to the Virginia MOU, and shall be administered and allocated in the same manner as the opioid settlements entered into previously with opioid distributors McKesson, Cardinal Health, and AmerisourceBergen, opioid manufacturers Janssen Pharmaceuticals, Teva Pharmaceuticals, and Allergan, and retail pharmacy chains CVS, Walgreens, Walmart, and Kroger;

WHEREAS, the County Attorney has reviewed the available information about the proposed settlement with the Sackler family and has recommended that the County participate in the settlement in order to recover its share of the funds that the settlement would provide;

NOW THEREFORE BE IT RESOLVED that the Nottoway County Board of Supervisors, this 21st day of August, 2025, approves of the County's participation in the proposed settlement of opioid-related claims against the Sackler family, and directs the County Attorney and/or the County's outside counsel to execute the documents necessary to effectuate the County's participation in the settlement, including the required release of claims against the Sackler family.

Approved this 21st day of August 2025.

CERTIFICATION OF ADOPTION OF RESOLUTION

The undersigned Clerk of the Board of Supervisors of the County of Nottoway, Virginia hereby certifies that the Resolution set forth above was adopted during an open meeting on August 21, 2025, by the Board of Supervisors with the following votes:

Aye: _____
Nay: _____
Abstentions: _____

Signed this 21st day of August 2025.

By: _____
Steve W. Bowen, Clerk

Subject: IMPORTANT -- PLEASE READ -- Multistate opioid settlement with Purdue Pharma and the Sackler family -- Approval and sign-on process -- SEPTEMBER 30, 2025 DEADLINE
Attachments: national_opioid_settlement_notice_settlement_overview.pdf; DRAFT RESOLUTION (July 2025) for non-litigating cities and counties - Approval of Direct Sackler Settlement.docx
Importance: High

Counsel and Administrators:

On behalf of the Office of the Attorney General of Virginia, I am writing to provide information to you about the multistate opioid settlement that has been reached with Purdue Pharma and the Sackler family. By now, you probably have seen media coverage of this settlement and you should have received an initial notice about it from Rubris, the settlement implementation administrator. A copy of that initial notice is attached for your reference. (If you did not receive this initial notice, please let me know and I will contact Rubris to make sure they have the correct contact information for your locality.)

As discussed in the initial notice, the Purdue/Sackler settlement is a bit different from most of the prior multistate opioid settlements, in that it consists of two primary parts—a Direct Settlement with the Sackler family, and a bankruptcy reorganization plan for Purdue (the company) that includes a settlement of bankruptcy estate claims by the company against the Sacklers (the “Estate Settlement”). Funds will flow to states and local government subdivisions from both components—however, the notice from Rubris and this e-mail concern only the Direct Settlement. Solicitation and voting on the Purdue reorganization plan will occur through a separate process that will run concurrently with the process for localities to confirm their participation in the Direct Settlement. (Not all localities will receive solicitation packages to vote on the Purdue reorganization plan—only those that submitted proofs of claim in the Purdue bankruptcy proceedings will receive packages.)

You will soon be receiving (if you have not received it already) another notification from Rubris, accompanied by a sign-on form that you will need to complete and submit to join and participate in the Direct Settlement. The notice from Rubris will include instructions on how to complete and submit the form.

In the meantime, I am attaching a draft resolution for your board or council to approve your locality’s participation in the Direct Settlement, and authorize a responsible official to complete, sign, and submit the participation form.

Once again, the amount of funds that will flow to Virginia and its localities from the Direct Settlement depends on maximizing participation by as many local government subdivisions as possible. We achieved 100% participation in the previous multistate opioid settlements with opioid distributors McKesson, Cardinal Health, and AmerisourceBergen, opioid manufacturers Johnson & Johnson, Teva, and Allergan, and retail pharmacy chains CVS, Walgreens, Walmart, and Kroger. We hope to achieve the same 100% participation rate for the Purdue/Sackler settlement as well. As in our prior multistate opioid settlements, all Virginia counties and independent cities are eligible to receive a direct share of settlement funds pursuant to the allocation methodology in the Virginia Opioid Abatement Fund and Settlement Allocation Memorandum of Understanding (“MOU”) and the Virginia Opioid Abatement Act. However, any eligible locality that wishes to receive settlement funds must confirm its participation by completing and submitting the participation form. Localities that do not submit a participation form will not be eligible to receive any distributions from the settlement.

The deadline for submitting your participation forms is **September 30, 2025**, so please put the resolution on the agenda for your next board meeting, then complete and submit the participation forms as soon as possible.

As always, please feel free to contact me if you have any questions.

Thank you,
Tom Beshere

National Opioid Settlement: Purdue Pharma L.P.
Rubris Reference Number: «=rubris_identifier»

***TO LOCAL POLITICAL SUBDIVISIONS:
THIS NOTICE CONTAINS IMPORTANT INFORMATION ABOUT A NEW
NATIONAL OPIOID SETTLEMENT.***

PURDUE PHARMA L.P. & SACKLER FAMILY SETTLEMENT OVERVIEW

A proposed nationwide settlement agreement has been reached with Purdue (and certain of its affiliates) and the Sackler family concerning alleged misconduct related to opioids.

The proposed settlement is being implemented in connection with Purdue's bankruptcy proceedings, and consists of, among other things, a settlement of Purdue's claims against the Sacklers and certain other parties (referred to as the "Estate Settlement"), and a settlement of direct claims against the Sacklers held by States, local governments and other creditors (the "Direct Settlement", and together with the Estate Settlement, the "Settlement"). The Settlement contemplates that the Sacklers will be paying an aggregate of \$6.5 billion in 16 payments over 15 years, including \$1.5 billion on the settlement's Effective Date (expected to be in 2026), though some amounts are subject to discounted prepayments. These amounts are in addition to amounts available from the Purdue estate including amounts available on the Effective Date (expected to be around \$900 million) and amounts that may be paid in the future.

The Settlement also contains injunctive relief governing opioid dispensing practices and requires the successor-in-interest of Purdue Pharma L.P. to implement safeguards to prevent diversion of prescription opioids, and also restrict certain Sacklers from directly or indirectly engaging in the manufacturing or sale of opioids, as detailed in the Settlement.

The proposed settlement has two key participation steps now that **all eligible states and territories elected to participate in the Direct Settlement.**

First, eligible subdivisions within each participating state decide whether to participate in the Direct Settlement. The Direct Settlement is documented in the Governmental Entity and Shareholder Direct Settlement Agreement, which is commonly referred to as the "GESA". The more subdivisions that participate, the more funds flow to that state and its subdivisions. Any subdivision that does not participate cannot directly share in any of the Direct Settlement funds, even if the subdivision's state is settling and other participating subdivisions are sharing in settlement funds.

YOU MUST PARTICIPATE IN THE DIRECT SETTLEMENT BY RETURNING YOUR PARTICIPATION FORM IN ORDER TO RECEIVE THE BENEFITS OF THE SETTLEMENT.

Second, concurrently with the solicitation of eligible subdivisions to participate in the Direct Settlement, votes will be solicited for approval of Purdue Pharma L.P.'s bankruptcy plan, which plan will provide distributions in respect of the Estate Settlement. NOT ALL SUBDIVISIONS ELIGIBLE TO PARTICIPATE IN THE SETTLEMENT WILL RECEIVE PACKAGES TO VOTE ON THE PLAN.

Please note that this is NOT a solicitation or a request for subdivisions to submit votes on the Purdue bankruptcy plan. This settlement package only pertains to a decision to participate in the Direct Settlement with the Sacklers.

If you receive a package to vote on the plan you should follow the applicable instructions for voting. PLEASE NOTE THAT VOTING ON THE PLAN IS SEPARATE FROM PARTICIPATION IN THE DIRECT SETTLEMENT. **IT IS NOT NECESSARY TO VOTE ON THE PLAN IN ORDER TO RECEIVE THE BENEFITS OF THE SETTLEMENT.**

WHO IS RUBRIS INC. AND WHAT IS THE IMPLEMENTATION ADMINISTRATOR?

The Direct Settlement provides that an Implementation Administrator will provide notice and manage the collection of participation forms. Rubris Inc. is the Implementation Administrator for the Direct Settlement and was also retained for the prior national opioid settlements.

WHY IS YOUR SUBDIVISION RECEIVING THIS NOTICE?

Your state has elected to participate in the Settlement, and therefore your subdivision may participate in the Direct Settlement. This notice is also being sent directly to counsel for such subdivisions if the Implementation Administrator has their information.

If you are represented by an attorney with respect to opioid claims, please contact them. Subdivisions can participate in the Settlement whether or not they filed a lawsuit or are represented.

WHERE CAN YOU FIND MORE INFORMATION?

Detailed information about the Settlement, including each settlement agreement, may be found at: <https://nationalopioidsettlement.com/purdue-sacklers-settlements/>. This website will be updated to include information about how the Settlement is being implemented in most states and how funds will be allocated within your state.

You are encouraged to review the terms of the settlement agreements and discuss the terms and benefits with your counsel, your Attorney General's Office, and other contacts within your state.

Your subdivision will need to decide whether to participate in the proposed Settlement, and subdivisions are encouraged to work through this process before the **September 30, 2025** deadline.

HOW DO YOU PARTICIPATE IN THE SETTLEMENT?

The Settlement requires that you take affirmative steps to "opt in" to the Settlement.

In the next few weeks, you will receive documentation and instructions from the Implementation Administrator. In order to participate in the settlement, a subdivision must sign and return the required documentation.

Please add the following email addresses to your "safe" list so emails do not go to spam / junk folders: dse_na3@docusign.net and opioidsparticipation@rubris.com. Please monitor your email for the Participation Form and instructions.

All required documentation must be signed and returned on or before **September 30, 2025**.

Military Order of the Purple Heart

Chartered by Congress
Greater Richmond Chapter 1965

June 29, 2025

**Mr. Richard H. Ingram, Jr.
County Board of Supervisors
Nottoway County
P.O. Box 92
Crewe, VA 23955**

Dear Mr. Ingram, Jr.

We at the Military Order of the Purple Heart Richmond Chapter 1965 are pleased that Nottoway County will consider a proclamation or resolution making the county a Purple Heart County. The county has 50 Veterans on the Virginian War Memorial. Their names are those killed in the defense of our freedoms.

The Commonwealth of Virginia became a Purple Heart State in 2016 when the Senate and the House of Delegates passed a joint resolution and was signed by the governor. The dedication of that resolution took place at the Virginia War Memorial that November.

I have enclosed a list of counties in Virginia that have designated themselves a Purple Heart County. I have also enclosed a copy of Chesterfield County Resolution for your reference.

The men and women of Nottoway County that have been wounded or killed in the service of our country deserve to be honored for their sacrifice. This recognition is a small way of saying thank you for your service.

If you should need any additional information, please don't hesitate to call me on my cell 703-622-2419.

Respectfully submitted,

A handwritten signature in cursive script, reading "Samuel B. Fonzi". The signature is written in dark ink and is positioned above the printed name.

Samuel B. Fonzi

Adjutant

Greater Richmond Chapter 1965

Military Order of Purple Heart

2016 SESSION

ENROLLED

SENATE JOINT RESOLUTION NO. 101

Designating Virginia as a Purple Heart State.

Agreed to by the Senate, February 10, 2016

Agreed to by the House of Delegates, February 22, 2016

WHEREAS, the Purple Heart is the oldest American military decoration in continuous use; it was created by George Washington—a citizen of the Commonwealth, commanding general of the victorious Continental Army, and first President of the United States—as the Badge of Military Merit during the Revolutionary War; and

WHEREAS, the Purple Heart was the first American service award made available to the common soldier, and it is awarded currently to any member of the United States Armed Forces wounded or killed in combat with a declared enemy of the United States; and

WHEREAS, the missions of the Military Order of the Purple Heart, which was chartered by an act of the United States Congress, are to foster an environment of goodwill among combat-wounded veterans and their families; to promote patriotism; to support related legislative initiatives; and, most important, to make sure Americans never forget the sacrifices made by those so decorated; and

WHEREAS, many citizens of the Commonwealth have received the Purple Heart as a result of being wounded or killed while engaged in combat with an enemy force, which is construed as a singularly meritorious act of essential service; and

WHEREAS, veterans and active duty service members have paid the high price of freedom by leaving their families and communities and placing themselves in harm's way for the good of all; the people of the Commonwealth have great admiration and the utmost gratitude for all the men and women who have selflessly served their country and the Commonwealth in the military; and

WHEREAS, the contributions and the sacrifices of the men and women of the Commonwealth who served in the United States Armed Forces have been vital in maintaining the freedom and the way of life enjoyed by American citizens; and

WHEREAS, August 7 is designated as Purple Heart Day in Virginia to honor and remember the veterans and active duty members of the military who have been wounded or killed in service to the nation; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the General Assembly designate Virginia as a Purple Heart State; and, be it

RESOLVED FURTHER, That the Clerk of the Senate transmit a copy of this resolution to the Military Order of the Purple Heart so that members of the organization may be apprised of the sense of the General Assembly of Virginia in this matter; and, be it

RESOLVED FINALLY, That the Clerk of the Senate post this designation on the General Assembly's website.

ENROLLED

SJ101ER

Resolution

of the Board of Supervisors of Chesterfield County, Virginia

DESIGNATING CHESTERFIELD COUNTY AS A PURPLE HEART COUNTY

WHEREAS, Chesterfield County has always supported its military veteran population; and

WHEREAS, the residents of Chesterfield County have great admiration and the utmost gratitude for all the men and women who have selflessly served their country and this community in the United States Armed Forces; and

WHEREAS, the Purple Heart is specifically awarded in the name of the President of the United States to members of the Armed Forces who have been wounded or paid the ultimate sacrifice in combat with a declared enemy of the United States of America; and

WHEREAS, chartered by Congress in 1958, the Military Order of the Purple Heart's mission is to foster an environment of goodwill and camaraderie among combat-wounded veterans, promote patriotism, support necessary legislative initiatives, and most importantly, provide service to all veterans and their families; and

WHEREAS, Chesterfield County has a highly decorated veteran population, including many Purple Heart recipients; and

WHEREAS, Chesterfield County appreciates the sacrifices of Purple Heart recipients in defending our freedoms.

NOW, THEREFORE, BE IT RESOLVED that the Chesterfield County Board of Supervisors, this 28th day of February 2018, hereby designates Chesterfield County as a **Purple Heart County**, honoring the service and sacrifice of our nation's men and women in uniform wounded or killed by the enemy while serving to protect the freedoms enjoyed by all Americans.

AND, BE IT FURTHER RESOLVED that a copy of this resolution be permanently recorded among the papers of this Board of Supervisors of Chesterfield County, Virginia.

Joseph P. Casey, Ph.D.
County Administrator

Dorothy Jaeckle, Chair

Leslie A. T. Haley, Vice Chair

Christopher M. Winslow

James M. "Jim" Holland

Stephen A. Elswick

COUNTY OF AMELIA

RESOLUTION

DESIGNATING AMELIA COUNTY AS A PURPLE HEART COUNTY

WHEREAS, Amelia County has always supported its military veteran population; and

WHEREAS, the residents of Amelia County have great admiration and the utmost gratitude for all the men and women who have selflessly served their country and this community in the United States Armed Forces; and

WHEREAS, the Purple Heart is specifically awarded in the name of the President of the United States to members of the Armed Forces who had been wounded or paid the ultimate sacrifice in combat with a declared enemy of the United States of America; and

WHEREAS, chartered by Congress in 1958, the Military Order of the Purple Heart's mission is to foster an environment of goodwill and camaraderie among combat-wounded veterans, promote patriotism, support necessary legislative initiatives, and most importantly, provide service to all veterans and their families; and

WHEREAS, Amelia County appreciates the sacrifice of Purple Heart recipients in defending our freedoms; and

NOW, THEREFORE, BE IT RESOLVED THAT the Amelia County Board of Supervisors this 21st day of July, 2021, hereby designates Amelia County as a **Purple Heart County** honoring the service and sacrifice of our nation's men and women in uniform wounded or killed by the enemy while serving to protect their freedoms enjoyed by all Americans.

AND, BE IT FURTHER RESOLVED that a copy of this resolution be permanently recorded among the papers of this Board of Supervisors of Amelia County, Virginia.

CERTIFICATION

Adopted this 21st day of July, 2021, by the Amelia County's Board of Supervisors during their Regular Meeting.

ATTEST

APPROVED

Good Morning Steve,

Our 911 support is set to end at the end of this month.

\$22,761.57 is what is needed to continue support for 1 year.

These funds were not budgeted for.

Is there somewhere these funds can be pulled from to cover the costs?

We will need to continue talks with the board reference the 911 refresh, and hopefully we can plan for it in the next budget year.

Thank you,

Subject: FW: board questions

Good afternoon, Steve and members of the board,

Below you will find answers to questions asked at the last board meeting reference the 911 refresh.

Since the meeting, I have been informed that regardless of whether we move forward with the refresh or not, we will have to pay for at least 1 year's maintenance to continue support on what we currently have. The cost is \$22,761.57. I have attached the e-mail that contains the quote. This amount is due by September for support to continue; it was not budgeted for.

This support can buy us time to go over the refresh costs and plan funds in next fiscal year's budget cycle.

I hope to have a more definitive answer on question 2 by the next board meeting.

Please let me know if there are any questions, and what our next steps should be.

Thank you,

Subject: board questions

NWNC IT Notice, External Email: ** Do not be quick to click! **

Hi Daniel,

I addressed the board about the 911 refresh last night.
They had some questions.

1. Is Motorola the only 911 equipment provider? **They are not. There are options out there but the issue is usually about local support. An example from another partner of ours <https://microautomation.com/omni911/> . My experience is there is no cost benefit here and I am not a fan of their interface, and they have limited deployment. Other partner like www.carbyne911.com which is**

cloud based but much more expensive and cost prohibitive for PSAPs less than 10 positions. No PSAP in VA has gone live on cloud.

2. If we are billed yearly, is there interest charged? I have reached out internally to get a pulse on current rates but this would be some structured municipal lease so market rates.
3. Are there any penalties if we do not refresh by September? There are not. I have provided a (1) YR renewal for the services that were prepaid for 5 years and expiring (Monitoring and Response, Patch Management, Anti-Virus, and Software Support). The issue going forward is the following: (1) Hardware falls out of warranty and cannot be renewed. While we will continue to support the county, the hardware no longer carries replacement (was 24x7 with 4 hour replacement). This becomes best effort so SLAs are out the window and often we are reliant on the secondary market to find components, with components chargeable to customer. Equipment failure can go from hours to days (2) Older Server Operating Systems end of life by Microsoft (3) Older Hypervisor end of life by Broadcom, (4) LAN Switches are end of life. The best practice is 5 year per NENA and why VDEM offers the grant
4. Can a tech come here and survey our existing equipment to see if we can hold off a year before refreshing? Or make recommendations on what we can do if there is certain equipment that absolutely should be replaced now? A site visit is not needed. It is really just a decision if you can live with #3 and of course, financials which can get in the way
5. Currently we have the 4 hour SLA, what does it change to if we do not refresh this year? Response times do not change, however SLAs no longer apply, if failure is hardware related

Terms & Conditions

This Quote is presented to you by NWN Corporation and Carousel Industries of North America, LLC (collectively, "NWN").

This Quote shall expire on the Expiration Date set forth above or upon the execution of a SOW, whichever shall occur first. In no event will the Quote be valid for longer than 60 days from the Generated Date, also set forth above. Applicable taxes and freight charges will be applied to the final invoice and Customer shall be billed in accordance with the terms outlined above. Any and all tariffs, duties, or additional government-imposed costs that become applicable after the Generated Date of the Quote shall be the responsibility of the Customer and will be added to the final invoice. For purposes of calculating Taxes, Customer's location will be set to Customer's service address or billing address (if the service address is unknown) unless Customer specifically notifies NWN in writing that it intends to use the services at another/additional valid physical location(s). NWN reserves the right to reject any request to treat an alternative physical location as Customer's service address if NWN discovers that the address is invalid or otherwise inaccurate. If NWN must pay for any additional Taxes, imposition and associated interest and/or penalties arising from Customer's provision of erroneous location data, Customer shall promptly reimburse NWN for the same within fourteen (14) days of demand by NWN. Further, Customer shall be responsible for notifying NWN in the event of any change to service address(es). The payment frequency set forth above details the timing and amount of the charges due under this Quote. One-Time Product charges, including hardware and software, will be invoiced in full at time of shipment. Where applicable, unless Customer notifies NWN in writing at least ninety (90) days prior to the subscription renewal date, Customer's subscription term will automatically renew on annual terms. Notwithstanding anything to the contrary, in the event Customer is purchasing software licenses or other usage-based consumption products or services under this Quote, and Customer's actual software license count or usage exceeds those initially purchased pursuant to this Quote, Customer will be invoiced during the next billing cycle based on the highest licenses count or usage consumed and not the amounts initially set forth in this Quote. Whenever possible, overages will be billed in the month following when the overage occurred. This Quote and any applicable Products or Services purchased hereunder are subject to either (i) the applicable mutually executed Master Products and Services Agreement or Master Services Agreement that authorizes the purchase(s) herein between NWN and Customer; or (ii) where NWN and Customer have not executed such an agreement, the terms and conditions set forth at the Master Agreement located at <https://nwncarousel.com/master-agreement/> shall apply (the entire terms and conditions and the applicable agreement shall each be deemed the "Agreement"). This Quote is additionally subject to the applicable (i) service descriptions set forth at <https://nwn.com/service-descriptions/>; (ii) the third-party terms set forth at <https://nwn.com/third-party-vendors-warranty/>; and (iii) the compliance policies and terms set forth at <https://nwn.com/compliance/> and such terms are incorporated herein by reference. For the avoidance of doubt, in the event of any conflicts between the terms of this Quote, a Accepted Purchase Order (as defined herein) or the Agreement, the terms of the Agreement shall prevail. To the extent the name of the Agreement does not correspond with those referenced above but authorizes Customer to purchase Products or Services from NWN, those agreements shall additionally be deemed Agreements for the purposes of this Quote. Any terms not defined in this Quote shall be set forth in the Agreement. Unless otherwise prohibited, in the event a product return by Customer triggers NWN's vendors to impose restocking fee(s) to process such return, NWN may, in its sole discretion, impose equivalent restocking fee(s) on customer.

In the event Customer does not execute this Quote and only places a Purchase Order, such Purchase Order is deemed acceptance of the terms of this Quote and any additional or different terms in such Purchase Order will not bind NWN. NWN may reject a Purchase Order in its sole discretion within two (2) business days from its receipt and after which time such Purchase Order is deemed accepted (an "Accepted Purchase Order"). In the event Customer chooses to place a Purchase Order rather than signing this Quote, the date of the Accepted Purchase Order shall be considered the Effective Date and placement of Purchase Order shall be deemed acceptance of this Quote and all the terms and conditions contained herein.

Statement of Confidentiality

This quote has been developed by NWN and is NWN's proprietary trade secret and business confidential information. This Quote may not be released to another vendor, business partner or contractor without prior written consent from NWN.

Staff Attends ESRI User Conference

CRC GIS Planner Matt Swartout attended the 2025 ESRI User Conference in San Diego, gaining insights on the latest GIS innovations including GeoAI, ArcGIS Dashboards, AI-powered Survey123 tools, and solutions for state and local governments. His participation in sessions like the AI Summit and Emerging GIS Applications ensures CRC remains at the forefront of spatial technology to support regional planning and data-driven decision-making.

Amelia County Comp Plan Meetings Engage Residents

CRC Staff hosted three public input meetings for the Amelia County Comprehensive Plan. Residents are sharing valuable feedback on local priorities, growth, infrastructure, and natural resources—helping shape a vision that reflects the county's evolving needs and values.

County Administrator Dan Witt Announces Retirement

After 34 years of dedicated public service, Charlotte County Administrator Dan Witt will retire on August 31, 2025. Regional leaders gathered on July 23 to celebrate his legacy, recognizing his impact in Charlotte County and prior roles in Altavista and Lynchburg. Witt was honored with a custom rocking chair engraved with the Charlotte County seal—a fitting tribute to his decades of leadership and service. CRC joins in wishing Dan all the best in retirement.

Upcoming Funding Opportunities:

- VTC VA250 Marketing Leverage Program
 - September 16 – October 23
- VTC Special Events & Festivals Program
 - July 22 – September 11
- VDOF Volunteer Fire Assistance Grant Program
 - July 1 – August 31
- VA Dept of Fire Programs - PPE Grant Program
 - July 1 – August 31

Grants Awarded:

- Virginia Housing - Regional Housing Study
- Opioid Abatement Act - VDH Piedmont Region & Piedmont Regional Jail for Opioid Programs
- Sentara - Charlotte County Meals on Wheels for Hot and Cold Food

Grant Writing Assistance:

- Victoria & Keysville – HMGP applications for backup generators
- Prince Edward Co. – TAP Sidewalk Projects (Zion Hill Rd Ph. I)
- SEID Applications:
 - Prince Edward – HIT Park Access Road
 - Cumberland – Small Area Plan
 - Blackstone – Raw Water Line
- TRRC Applications
 - Cumberland – Small Area Plan
 - Prince Edward – Trailblazing Signage
- VA Housing - Community Impact Planning Grant as a match for the TRRC BOOMS Grant

The CRC provides free grant writing services for member localities and local 501(c)(3) non-profits.

Subject: Centra Southside Community Hospital Emergency Department Expansion

Dear Friends and Partners,

We are pleased to share exciting news about a major investment that reflects our ongoing commitment to the health and well-being of the communities we serve. Centra Health is investing \$5 million to expand and renovate the Emergency Department (ED) at Centra Southside Community Hospital (CSCH) in Farmville.

This project, anticipated to begin before the end of the year and be completed by summer 2026, directly responds to the growing demand for timely, high-quality emergency care across our eight-county service area. Your voices, whether through community conversations, partnerships, or support, have played a vital role in helping shape this initiative.

Once complete, the enhanced ED will include:

- Eighteen (18) treatment bays to increase capacity, including:
 - Five (5) specialized rooms for behavioral health patients, expanding critical services
 - Two (2) trauma bays to support patients requiring higher levels of care
- Fast track rooms to treat patients with less critical needs more efficiently, reducing wait times
- A new family consultation room, designed with privacy and compassion in mind
- Over 2,700 square feet of new and renovated space to improve patient flow and experience

Throughout construction, emergency services will remain fully operational, and we will share with the public any updates that may affect patient access or visitor experience.

This project represents more than just bricks and mortar. It is an expression of Centra Southside's deep-rooted mission to improve the health and quality of life of the people we serve. In addition to the physical expansion, we are also implementing internal process improvements to optimize care delivery and minimize wait times in the ED.

We are deeply grateful for the support of our local leaders, donors, volunteers, and community partners who continue to believe in the power of accessible, compassionate healthcare. Your partnership makes a difference every day, and we are honored to walk alongside you as we take this important step forward.

If you have any questions or would like to learn more about how you can support this effort, please don't hesitate to reach out. Together, we are building a stronger, healthier future for our region.

Warm regards,

Thomas Angelo, MBA/HCM

Subject: You're Covered: Acts of Political Violence

Good Morning,

You may have seen the recent headline regarding an incident in Colorado where a Molotov cocktail-like device was allegedly thrown into an election office housing voting equipment: [Longtime critic of voting machines charged in firebombing of Colorado election office](#). The attack and the discovery that this county's insurance policy did *not* cover acts of political violence have understandably raised concerns for public entities across the country.

We want to reassure you that VAcorp members are covered. Acts of political violence are included in your property coverage, with no limitations.

Moments like these are reminders of why having the right coverage matters. We remain committed to offering the most comprehensive coverage possible, even if others don't match that same level of protection. Our goal has always been to give our members peace of mind; confidence that if something unthinkable happens, you're not left wondering whether you're covered.

If you have any questions or want to talk through your coverage, please don't hesitate to reach out. We're here to help.

Re: Summary of Burke Junction Solar Community Meeting on 07/22/2025

Greetings Mr. Bowen and Mr. Zody,

On 07/22/2025, Hexagon Energy hosted a community meeting at the Burkeville Fire Department to discuss and accept feedback on the 3 MegaWatt Burke Junction Solar project, which is currently undergoing its Special Exception Permit approval process. The community meeting invitations to all adjacent neighbors were sent out on 07/09/2025. Additionally, the invitation to the community meeting was advertised in the Courier Record Newspaper on the week of 07/07/2025 and 07/14/2025, and physically posted to the bulletin board at the Nottoway County Courthouse in the two weeks leading up to the meeting. Below is a list of attendees:

- Ester Rekhelman (Hexagon Energy)
- Ally Kranz (Hexagon Energy)
- Ryan Walter (Hexagon Energy)
- Erica O'Donnell (Hexagon Energy)
- Donald Knight (Landowner)
- Gregg Zody
- Stephen Bowen
- Daphne Norton
- Richard Ingram
- Kirby Woolfolk
- Dylan Taylor
- Beverley Ambs
- Thomas McIntyre
- K. Shawn Haney
- John Schutt

- Mike Mason

Below is a list of the questions/concerns brought up by citizens in attendance:

- What are the access points to the project, and how will emergency services access the project in the event of an accident?
- What is the efficiency of the solar panels, and how many homes will they be powering? Where will the power go and which power lines will the project be connecting to?
- Which watershed do the wetlands on the property flow out to?
- General inquiries about setback and vegetative buffer area.
- General conversation and inquiry about county revenue structures.
- How will stormwater runoff be managed during and after construction? Will the designed stormwater facilities be able to handle the higher-than-normal rain events we have experienced this summer?
- Who will own the project, and will the landowner continue owning the land throughout the project's lifetime?
- Which power lines will the project be connecting back to?
- When will the project begin construction and how long will construction take?
- Will the construction be done in stages and what will be done to prevent runoff during construction?
- What vegetation will be used underneath the panels? Will pollinator species be seeded underneath the panels?

Please do not hesitate to reach out to Ester Rekhelman (contact information below) if any other information about the community meeting is needed.

All the best,
Ester Rekhelman

Subject: RE: Tobacco Commission Funds [Nottoway County projects]
Attachments: Nottoway Co Award Summary 7-31-25.xlsx

Hi Andrea:

See attached list to TRRC grant awards for Nottoway County.

Please note that this list does not include the regional projects that benefit multiple localities. That list includes annual Workforce Financial Aid grants to Southside Virginia Community College to support scholarships, regional agriculture cost-share programs which are typically administered by Campbell County, and others.

Let me know if you have any questions.

Sincerely,
 --Sarah

Subject: Tobacco Commission Funds

Good Afternoon,

Do either of you have a record of what tobacco funds have been given to Nottoway County or projects here in our County? We have had an inquiry, but I'm not sure how we would gather that information should the person want us to pursue the idea.

Thank you for your thoughts!

Andrea L. Kelly

Subject: Nottoway County Courthouse - PPEA
Attachments: SIS_Courthouse_PPEA_Experience.pdf

Mr. Bowen,

I represent Skanska Integrated Solutions, which is an organization that has provided Project Management/Owner's Representation Services for several PPEA projects, as well as, courthouse projects throughout the Commonwealth. I am writing to you to inquire as to whether you plan to hire someone to manage your project on the County's behalf?

Typical services we provide are:

- Contract Management
- Schedule Management
- Design Management
- Construction Manager or General Contractor Management
- Design/Build Management

We perform duties such as design oversight and construction oversight. We track RFIs, submittals, change orders, etc. in addition to reviewing design and construction schedules for consistency and conflict, as well as, reviewing drawings from a constructability aspect. In the field, we provide inspection services and oversight regarding construction activities with the Owner's interests in mind. There are a host of other consulting services we provide, such as:

- Capital planning
- Site analysis and selection
- Cost estimating (for "budget reality checks" in comparison to what the A/E may propose or just to get an initial idea of cost for original scope, as well as, change orders)
- Cost Tracking
- Scheduling
- Phasing/Logistics/Move Planning
- Procurement

Any of these services and others not mentioned can be tailored to our client's needs. Please let me know if you think we may be of assistance to you and your project. I am attaching a brochure that provides some additional information on my company and past clients.

Kind regards,

Jason Pack, Assoc. AIA
Regional Director

*Petition of Virginia Electric and Power Company for approval to revise its net metering
Program pursuant to § 56-594 of the Code of Virginia*
Case No. PUR-2025-00079

To: Local Government Officials

Pursuant to the State Corporation Commission of Virginia's June 27, 2025 *Order for Notice and Hearing* ("Order"), the Company is providing you a copy of its Petition filed on May 1, 2025, as well as the Order. Please take notice of their contents.

An electronic copy of the Company's Petition may be obtained by submitting a written request to counsel for the Company, Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com.

For approval to revise its net metering	)	
program pursuant to § 56-594 of the Code of Virginia	)	

PETITION

Virginia Electric and Power Company (“Dominion Energy Virginia” or the “Company”), by counsel, hereby files its petition for approval of its proposed revisions to its net energy metering (“net metering” or “NEM”) reform proposal, NEM 2.0 (“Petition”) pursuant to § 56-594 of the Code of Virginia (“Va. Code”) and the State Corporation Commission of Virginia’s (“Commission”) Order issued on May 6, 2024 in Case No. PUR-2024-00047. In support of this Petition, the Company respectfully states as follows:

I. GENERAL INFORMATION

1. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional customers in Virginia and to the public in portions of North Carolina. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc.

2. The Company’s name and post office address are:

Virginia Electric and Power Company

II. LEGAL AUTHORITY

4. Va. Code § 56-594 E provides in part that,

On and after the earlier of (i) 2024 for a Phase I Utility or 2025 for a Phase II Utility or (ii) when the aggregate rated generating capacity owned and operated by eligible customer-generators, eligible agricultural customer-generators, and small agricultural generators in the Commonwealth reaches three percent of a Phase I or Phase II Utility's adjusted Virginia peak-load forecast for the previous year, the Commission shall conduct a net energy metering proceeding.

5. Further, consistent with Va. Code § 56-594 E, the Commission directed that the Company address, analyze, and provide pre-filed testimony and data in the instant proceeding to support the following as it relates to net energy metering:

- A proposed amount for customers to pay on their utility bills each month for the costs of using the utility's infrastructure;
- A proposed amount the utility shall pay to appropriately compensate the customer for the total benefits such facilities provide;
- Identify, quantify, and present the direct and indirect economic impact of net metering to the Commonwealth and particularly within the utility's service territory;
- A proposed rate structure related to net energy metering to govern compensation related to all eligible customer-generators, eligible agricultural customer-generators, and small agricultural generators, except low-income utility customers, that interconnect after the effective date established in the Commission's final order in the net energy metering proceeding;
- The utility's position on whether the six percent aggregate net metering cap should be raised or removed, and if an increase is proposed, the level of such increase;
- Identify, quantify, and present the costs and benefits of the current net energy metering program;
- The proposed netting measurement interval for a successor tariff that is just and reasonable in light of the costs and benefits of the net metering program in aggregate, and applicable to new requests for net energy metering service;
- Identify, quantify, and present the specific avoided cost for customer-generators, by the different type of customer-generator technologies if appropriate, and a proposed methodology for determining the compensation rate for any net excess generation determined according to the applicable net measurement interval for any new tariff;
- Identify, quantify, and present the utility's efforts to ensure that the net energy metering program does not result in unreasonable cost-shifting to nonparticipating electric utility customers;
- In the context of the cost and benefits of the utility's net energy metering programs, evaluate and provide the following:
 - the aggregate impact of customer-generators on the electric utility's long-run marginal costs of generation, distribution, and transmission;
 - the cost of service implications of customer-generators on other customers within the same class, including an evaluation of whether customer-

- generators provide an adequate rate of return to the electrical utility compared to the otherwise applicable rate class when, for analytical purposes only, examined as a separate class within a cost of service study;
- the direct and indirect economic impact, qualitative and quantitative, of the net energy metering program to the Commonwealth;
- and any other information deemed relevant, including environmental and resilience benefits of customer-generator facilities; and
- Any additional relevant information the utility requests the Commission to consider.¹

6. The Company's Petition, as supported by the direct testimony of Company Witnesses J. Scott Gaskill, Sam Shannon, Timothy P. Stuller, Jr., and Robert E. Miller, addresses each directive as it relates to the Company's legacy net metering program, and its net metering reform proposal, NEM 2.0.

III. BACKGROUND

7. Net energy metering programs afford eligible customers the opportunity to install and operate renewable energy generation systems to offset all or part of a customer's electricity requirements with the energy generated from renewable resources. The Company's NEM Program began in 2000 with residential customers permitted to install up to 10 kilowatts ("kW") and nonresidential customers to install 25 kW. At the inception of the program, generator capacity was limited to 100% of the customer's historical annual consumption and total net metering penetration was limited to 0.1% of the Company's peak load for the prior year. While net metering has been available to customers for the last 25 years, the majority of all activity has occurred within the last decade with the last 5 years seeing rapid growth and change partly thanks to advancing technology and federal subsidies reducing barriers to adoption.

¹ Order at 2-3.

8. With legislative and regulatory changes, over time, both the size of individual generator and the aggregate amount of net metering allowed on the system has steadily increased. In 2020, the Virginia General Assembly expanded and revised its net energy metering programs to incentivize and increase the penetration of Net Metering Distributed Energy Resources (“DER”) throughout Virginia, most notably under the Virginia Clean Economy Act (“VCEA”). Specifically, under Va. Code § 56-594, Net Metering DER programs were significantly expanded to increase the scope of customer eligibility. Eligible non-residential customers may now construct generation facilities which produce up to 3 MW of generation, and residential customers likewise may now install up to 25 kW of generation.

9. In addition, prospective net metering customers who desire to interconnect to the Company’s Electric Power System (“EPS”) may now produce up to 150% of the customer’s expected annual energy consumption.² Moreover, the VCEA also raised the aggregate net metering cap from one percent of each electric distribution company’s adjusted Virginia peak-load forecast for the previous year to six percent (with five percent available to all customers and one percent reserved for low-income customers).³ As a result of these changes, the Company has experienced significant increases in customer applications to participate in its Net Metering Program.

10. The Company’s existing Net Metering Program (“Legacy NEM Program”) allows a customer’s usage to be offset by the energy they export to the grid over the course of the annual Net Metering Period. This is known as “annual netting.” When the energy generated by a Legacy NEM customer exceeds the customer’s instantaneous load, the excess energy flows to the electric grid and is often referred to as “Received kWh” because the energy is recorded on

² Va. Code § 56-594 B.

³ Va. Code § 56-594 E.

the “Received Channel” of the customer’s meter. Similarly, the energy consumed from the grid is recorded on the “Delivered Channel” of the customer’ meter (“Delivered kWh”). When a customer’s meter is read, the result is a value for Delivered kWh and a value for Received kWh. At the end of each monthly billing period, the Customer is billed for the net energy (Delivered kWh – Received kWh). Additionally, when the Received kWh exceeds Delivered kWh over the course of a billing period, the customer receives billing period credits for the net excess generation (Received – Delivered) commonly referred to as “carryover.” Any billing period credits generated for the month are accumulated, carried forward and applied at the first opportunity to any billing periods having net consumption. Under the annual netting structure, since the billing period credits accrued within a Net Metering Period or carried forward from prior periods are denominated in kWh, they are valued according to the tariff under which the customer receives service.

IV. NEM 2.0 PROPOSAL

11. As discussed in more detail by Company Witness Gaskill, the Company’s general approach to net-metering is not fundamentally changing. The program will continue to allow customers the opportunity to install renewable energy behind their utility meter and use that generation to offset usage within their home or business and be compensated for any excess generation. Newly available AMI technology now provides significantly more capabilities and transparency, allowing net metering customers to be compensated based on the very times they are exporting energy and in turn pay for their usage based on when they are using energy.

12. Consequently, the Company’s NEM 2.0 proposal contains two key changes as described by Company Witness Gaskill: (i) a transition from annual to real-time netting and (ii) an Export Credit Rate to compensate customers for excess electricity they export to the grid. In

addition, as explained by Company Witness Stuller, the Company proposes minor changes to the current Net Metering Terms and Conditions, including an application fee and an administrative charge of \$1.00 per month.

13. First, with respect to real-time netting, this methodology records the inflow and outflow from a customer's meter every interval, which is every half-hour. Real-time netting allows the customer to receive compensation for energy when they produce it and in turn to pay for energy based on when they consume it. As described in Company Witness Shannon's testimony, for billing purposes, a customer has two registers: one for consumed energy and one for exported energy. If a customer is a net exporter in that half-hour, that net production amount is added to the exported energy register. Conversely, if a customer is a net consumer in a half-hour, the net consumption for that half-hour is added to the consumed energy register. The customer would receive the Export Credit Rate for the net production exported to the grid and, like all customers, would pay the applicable tariff rate for net power that is consumed from the grid in the billing period.

14. The Company's proposal to transition from annual netting to real-time netting reflects the reality of how customers are using the grid, treats participants and non-participants of the net metering program fairly and equally, and does not result in unreasonable cost-shifting to non-participants.

15. Second, the Company proposes that exported power be compensated at an Export Credit Rate, reflecting an avoided cost the Company could otherwise pay under a power purchase agreement ("PPA") for a comparable product. The Company's proposed Export Credit Rate would currently be set an amount equal to the weighted-average of first year prices for purchases from Distributed Solar PPAs executed in response to the Company's most recent

Rider CE Request for Proposals⁴, which was \$95.53 per MWh in the most recent Rider CE. Given the current requirements of the Virginia Clean Economy Act and the corresponding construct of Rider CE, the weighted-average of first year PPA prices from Distributed Solar PPAs represents the appropriate avoided cost because it is representative of the price the Company could otherwise pay for a comparable product. Similar to other purchased power expenses, the Company proposes to collect the energy cost of these credits through the fuel factor.

16. The Export Credit Rate includes the value of the energy as well as renewable energy credit (“REC”) value; therefore, the proposed payments to NEM 2.0 customers also reflect the value of an avoided renewable energy purchase. In recognition of the renewable energy they are contributing to the grid, the Company respectfully requests that the Commission allow the Company to reduce its annual RPS compliance obligation by the total amount of kWh exported by NEM 2.0 customers. This approach would benefit all other customers by reducing the net RPS compliance costs as well as ensure that the Company and its customers receive the RPS benefit for the export power for which it is paying. The Company proposes to collect the credited energy value, net of RPS value, through the fuel factor as a purchased power expense. The component of the Export Credit that is related to the RPS value will flow through account 557, “other expense” and be recovered through Rider RPS.

17. As previously mentioned, the Company’s NEM 2.0 Proposal also includes an application fee. Specifically, the Company proposes the addition of an application fee to accompany Net Metering Interconnection Notification forms submitted after the date of the final

⁴ *Commonwealth of Virginia, State Corporation Commission, Petition For approval of the Virginia Electric and Power Company 2024 RPS Development Plan under § 56-585.5 D 4 of the Code of Virginia, Case No. PUR-2024-00147, Final Order (April 15, 2025).*

order in this proceeding. The Company proposes a \$100 application fee for NEM 2.0 customers with a generating facility less than 250 kW and \$750 for NEM 2.0 customers with a facility of 250 kW and greater. The application fee is explained in further detail in Company Witness Stuller's direct testimony.

18. Finally, the administrative charge included in Section XXV of the Terms and Conditions that is applicable to customers served under the proposed NEM 2.0 tariff is a \$1.00 per month placeholder rate. As further explained by Company Witness Stuller, this charge is appropriate as net metering customers cause incremental costs. Specifically, there are costs associated with the development and operation of an alternate billing mechanism for future customers under the Company's NEM 2.0 program in parallel with the long running Legacy NEM Program.

19. Importantly, part of the Company's NEM 2.0 proposal is to maintain the Legacy NEM Program for existing net metering customers as prescribed by Va. Code § 56-594 E. Therefore, all changes will only be applicable to non-low-income customers with new or modified interconnections effective the first of the month that is at least 12 months from the date of a final order in this proceeding. Va. Code § 56-594 E. provides in relevant part that "low-income utility customers may interconnect under whichever terms are most favorable to them." Thus, low-income customers can select the Legacy NEM tariff or the NEM 2.0 tariff.

20. Company Witness Gaskill also explains the Company's position that it is unnecessary to raise or remove the six percent aggregate net metering cap at this time. The rated capacity of all customer-sited generation participating in NEM is less than three percent of the Company's adjusted Virginia peak-load forecast for the previous year. Therefore, the Company proposes to continue to monitor and provide updates in its biannual net metering report that

provides a wind and solar update, including NEM penetration, in January and July of each year. This allows the Commission to evaluate the effects of NEM 2.0 before deciding whether it is appropriate to modify the current six percent cap.

21. Company Witness Gaskill also addresses the Commission's directive to evaluate and provide the aggregate impact of net metering customers on the Company's long-run marginal costs of generation, distribution, and transmission.

22. Finally, as described in further detail in Company Witness Shannon's testimony, the Company performed an economic benefit analysis for net metering which yielded both positive and negative impacts to the broader economy of the Commonwealth.

V. CONCLUSION

WHEREFORE, Dominion Energy Virginia respectfully requests that the Commission approve its proposed NEM 2.0 proposal and grant such other and further relief as it deems necessary or appropriate.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

Counsel for Virginia Electric and Power Company

May 1, 2025

PETITION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2025-00079

For approval to revise its net metering program
pursuant to § 56-594 of the Code of Virginia

ORDER FOR NOTICE AND HEARING

On May 1, 2025, Virginia Electric and Power Company (“Dominion” or “Company”) filed with the State Corporation Commission (“Commission”) a petition (“Petition”), pursuant to § 56-594 E of the Code of Virginia (“Code”) and the Commission’s order in Case No. PUR-2024-00047,¹ for approval of its proposed revisions to its net energy metering (“net metering” or “NEM”) reform proposal, NEM 2.0.² The Net Metering Order required Dominion’s Petition to address, analyze, and provide prefiled testimony and data to support certain items identified therein as they relate to net metering, consistent with the requirements of Code § 56-594 E.³ This included, in part, a proposed rate structure related to net metering to govern compensation related to all eligible customer-generators, eligible agricultural customer-generators, and small agricultural generators, except low-income utility customers, that interconnect after the effective date established in the Commission’s final order in the net

¹ *Commonwealth of Virginia, ex rel. State Corporation Commission, Ex Parte: Future net energy metering proceedings of Appalachian Power Company and Virginia Electric and Power Company pursuant to Code § 56-594*, Case No. PUR-2024-00047, Doc. Con. Cen. No. 240510149, Order (May 6, 2024) (“Net Metering Order”).

² Petition at 1.

³ See Net Metering Order at 3-4.

metering proceeding.⁴ The Company asserts that its Petition and supporting direct testimony address each of the required net metering considerations laid out in the statute and in the Commission's Net Metering Order.⁵ Pursuant to Code § 56-594 E, the Commission must issue a final order regarding the Petition no later than 12 months after this proceeding commences.

In its Petition, Dominion asserts that its NEM 2.0 proposal contains two key changes from the Company's existing NEM program ("Legacy NEM Program"): (1) a transition from annual to real-time netting, and (2) an Export Credit Rate to compensate customers for excess electricity exported to the grid.⁶ In addition, the Company proposes minor changes to its Net Metering Terms and Conditions, including an application fee and an administrative charge of \$1.00 per month.⁷

According to the Petition, real-time netting methodology records the inflow and outflow from a customer's meter every interval, which is every half-hour.⁸ Dominion asserts that real-time netting would allow a customer to receive compensation for energy when it is produced and to pay for energy when it is consumed.⁹ Under the Company's proposal, the customer would receive the Export Credit Rate for the net production exported to the grid and would pay the applicable tariff rate for net power that is consumed from the grid in the billing period.¹⁰

⁴ Petition at 3-4 (*citing* Net Metering Order at 3).

⁵ Petition at 4.

⁶ *Id.* at 6.

⁷ *Id.* at 8-9.

⁸ *Id.* at 7.

⁹ *Id.*

¹⁰ *Id.*

Dominion asserts that its proposal to transition from annual netting to real-time netting would reflect the reality of how customers use the grid, would treat participants and non-participants of the net metering program fairly and equally, and would not result in unreasonable cost-shifting to non-participants.¹¹

Dominion further proposes that exported power be compensated at an Export Credit Rate, which would reflect an avoided cost the Company could otherwise pay under a power purchase agreement (“PPA”) for a comparable product.¹² According to the Petition, this Export Credit Rate would be set at an amount equal to the weighted-average of first year prices for purchases from Distributed Solar PPAs executed in response to the Company’s most recent Rider CE Request for Proposals, which was \$95.53 per megawatt hour in the most recent Rider CE.¹³ Dominion asserts that this represents the appropriate avoided cost as it is representative of the price the Company could otherwise pay for a comparable product.¹⁴ Dominion proposes to collect the energy cost of these credits through the fuel factor.¹⁵

According to the Petition, the Export Credit Rate includes the value of the energy as well as renewable energy credit value.¹⁶ Dominion asserts that the proposed payment to NEM 2.0 customers also reflects the value of an avoided renewable energy purchase.¹⁷ The Company

¹¹ *Id.*

¹² *Id.*

¹³ *Id.* at 7-8.

¹⁴ *Id.* at 8.

¹⁵ *Id.*

¹⁶ *Id.*

¹⁷ *Id.*

requests that the Commission allow the Company to reduce its annual renewable portfolio standard (“RPS”) compliance obligation by the total amount of kilowatt hours exported by NEM 2.0 customers to recognize the energy those customers would contribute to the grid.¹⁸ The Company asserts that this approach would benefit all other customers by reducing the net RPS compliance costs as well as by ensuring that the Company and its customers would receive the RPS benefit for the export power.¹⁹ Pursuant to the Petition, the Export Credit Rate that is related to RPS value would flow through account 557 and be recovered through Rider RPS.²⁰

The Company proposes a \$100 application fee for NEM 2.0 customers with generating facilities of less than 250 kilowatts (“kW”) and \$750 for customers with facilities of 250 kW and greater.²¹ The Company also proposes an administrative charge for customers served under NEM 2.0 of \$1.00 per month as a placeholder rate.²² The Company asserts there are costs associated with the development and operation of an alternate billing mechanism for future customers under the Company’s NEM 2.0 program in parallel with the Legacy NEM Program.²³

Dominion asserts that, as part of its NEM 2.0 proposal, the Company would maintain its Legacy NEM Program for existing net metering customers pursuant to Code § 56-594 E.²⁴ According to the Petition, the NEM 2.0 tariff would only be applicable to non-low-income

²³ *Id.*

²⁴ *Id.*

customers with new or modified interconnections, effective the first of the month that is at least 12 months from the date of a final order in this proceeding.²⁵

Finally, the Company asserts that it is unnecessary to raise or remove the six percent aggregate net metering cap at this time, as the rated capacity of all customer-sited generation participating in NEM is less than three percent of the Company's adjusted Virginia peak-load forecast for the previous year.²⁶ The Company proposes to monitor and provide updates in its biannual net metering report to allow the Commission to evaluate the effects of NEM 2.0 prior to deciding whether it is appropriate to modify the current six percent cap.²⁷

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; Dominion should provide public notice of its Petition; a hearing should be scheduled for the purpose of receiving testimony from public witnesses and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or participate as respondents in this proceeding; and the Staff of the Commission ("Staff") should be directed to investigate the Petition and file testimony and exhibits containing its findings and recommendations thereon. Further, we find that a Hearing Examiner should be appointed to rule on all discovery matters or motions *pro hac vice* that arise during the course of this proceeding.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings

²⁵ *Id.*

²⁶ *Id.*

²⁷ *Id.* at 9-10.

unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2025-00079.

(2) All pleadings, briefs, or other documents required to be served in this matter shall be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure ("Rules of Practice").²⁸ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, all parties and Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to rule on any discovery matters or motions *pro hac vice* that may arise during the course of this proceeding. A copy of

²⁸ 5 VAC 5-20-10 *et seq.*

each such filing made with the Office of the Clerk in this matter shall also be sent electronically to the Office of the Hearing Examiners.²⁹

(5) The Commission schedules a telephonic portion of the hearing for the receipt of testimony from public witnesses on the Petition, as follows:

- (a) The portion of the hearing for the receipt of testimony from public witnesses on the Petition shall be convened telephonically at 10 a.m. on January 20, 2026.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before January 13, 2026, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141.
- (d) Beginning at 10 a.m. on January 20, 2026, the Commission will telephone sequentially each person who has signed up to testify, if any, as provided above.
- (e) This public witness hearing will be webcast at: scc.virginia.gov/case-information/webcasting.

(6) The evidentiary portion of the hearing shall be convened at 10 a.m., on January 20, 2026, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and Staff.

(7) An electronic copy of the Company's Petition may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP,

²⁹ Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

Gateway Plaza, 800 Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com.

Interested persons also may download unofficial copies from the Commission's website:

scc.virginia.gov/case-information.

(8) On or before July 21, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC OF A PETITION OF
VIRGINIA ELECTRIC AND POWER COMPANY
FOR APPROVAL TO REVISE ITS NET METERING
PROGRAM PURSUANT TO § 56-594 OF THE
CODE OF VIRGINIA
CASE NO. PUR-2025-00079

On May 1, 2025, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition"), pursuant to § 56-594 E of the Code of Virginia ("Code") and the Commission's order in Case No. PUR-2024-00047 ("Net Metering Order"), for approval of its proposed revisions to its net energy metering ("net metering" or "NEM") reform proposal, NEM 2.0. The Net Metering Order required Dominion's Petition to address, analyze, and provide prefiled testimony and data to support certain items identified therein as they relate to net metering, consistent with the requirements of Code § 56-594 E. This included, in part, a proposed rate structure related to net metering to govern compensation related to all eligible customer-generators, eligible agricultural customer-generators, and small agricultural generators, except low-income utility customers, that interconnect after the effective date established in the Commission's final order in the net metering proceeding. The Company asserts that its Petition and supporting direct testimony address each of the required net metering considerations laid out in the statute and in the Commission's Net Metering Order. Pursuant to Code § 56-594 E, the Commission must issue a final order regarding the Petition no later than 12 months after this proceeding commences.

In its Petition, Dominion asserts that its NEM 2.0 proposal contains two key changes from the Company's existing NEM program ("Legacy NEM Program"): (1) a transition from annual to real-time netting, and (2) an Export Credit Rate to compensate

customers for excess electricity exported to the grid. In addition, the Company proposes minor changes to its Net Metering Terms and Conditions, including an application fee and an administrative charge of \$1.00 per month.

According to the Petition, real-time netting methodology records the inflow and outflow from a customer's meter every interval, which is every half-hour. Dominion asserts that real-time netting would allow a customer to receive compensation for energy when it is produced and to pay for energy when it is consumed. Under the Company's proposal, the customer would receive the Export Credit Rate for the net production exported to the grid and would pay the applicable tariff rate for net power that is consumed from the grid in the billing period. Dominion asserts that its proposal to transition from annual netting to real-time netting would reflect the reality of how customers use the grid, would treat participants and non-participants of the net metering program fairly and equally, and would not result in unreasonable cost-shifting to non-participants.

Dominion further proposes that exported power be compensated at an Export Credit Rate, which would reflect an avoided cost the Company could otherwise pay under a power purchase agreement ("PPA") for a comparable product. According to the Petition, this Export Credit Rate would be set at an amount equal to the weighted-average of first year prices for purchases from Distributed Solar PPAs executed in response to the Company's most recent Rider CE Request for Proposals, which was \$95.53 per megawatt hour in the most recent Rider CE. Dominion asserts that this represents the appropriate avoided cost as it is representative of the price the Company could otherwise pay for a comparable product. Dominion proposes to collect the energy cost of these credits through the fuel factor.

According to the Petition, the Export Credit Rate includes the value of the energy as well as renewable energy credit value. Dominion asserts that the proposed payment to NEM 2.0 customers also reflects the value of an avoided renewable energy purchase. The Company requests that the Commission allow the Company to reduce its annual renewable portfolio standard ("RPS") compliance obligation by the total amount of kilowatt hours exported by NEM 2.0 customers to recognize the energy those customers would contribute to the grid. The Company asserts that this approach would benefit all other customers by reducing the net RPS compliance costs as well as by ensuring that the Company and its customers would receive the RPS benefit for

the export power. Pursuant to the Petition, the Export Credit Rate that is related to RPS value would flow through account 557 and be recovered through Rider RPS.

The Company proposes a \$100 application fee for NEM 2.0 customers with generating facilities of less than 250 kilowatts ("kW") and \$750 for customers with facilities of 250 kW and greater. The Company also proposes an administrative charge for customers served under NEM 2.0 of \$1.00 per month as a placeholder rate. The Company asserts there are costs associated with the development and operation of an alternate billing mechanism for future customers under the Company's NEM 2.0 program in parallel with the Legacy NEM Program.

Dominion asserts that, as part of its NEM 2.0 proposal, the Company would maintain its Legacy NEM Program for existing net metering customers pursuant to Code § 56-594 E. According to the Petition, the NEM 2.0 tariff would only be applicable to non-low-income customers with new or modified interconnections, effective the first of the month that is at least 12 months from the date of a final order in this proceeding.

Finally, the Company asserts that it is unnecessary to raise or remove the six percent aggregate net metering cap at this time, as the rated capacity of all customer-sited generation participating in NEM is less than three percent of the Company's adjusted Virginia peak-load forecast for the previous year. The Company proposes to monitor and provide updates in its biannual net metering report to allow the Commission to evaluate the effects of NEM 2.0 prior to deciding whether it is appropriate to modify the current six percent cap.

TAKE NOTICE that the Commission may design rates in a manner differing from that shown in the Petition and supporting documents, and thus may adopt rates that differ from those appearing in the Company's Petition and supporting documents.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled a public hearing on Dominion's Petition. On January 20, 2026, at 10 a.m., the Commission will hold the telephonic portion of the hearing for the purpose of receiving the testimony of public witnesses. On or before January 13, 2026, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information

may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141. This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting.

On January 20, 2026, at 10 a.m. or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Commission will convene a hearing to receive testimony and evidence related to the Petition from the Company, any respondents, and the Commission's Staff.

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and has required electronic service on parties to this proceeding.

Electronic copies of the Petition may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons also may download unofficial copies of the Petition and other documents filed in this case from the Commission's website: scc.virginia.gov/pages/case-information.

On or before January 13, 2026, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments with the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00079.

On or before September 30, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel. The respondent shall serve a copy of the notice of

participation electronically on counsel to the Company, Commission Staff, and all other respondents. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10, *et seq.*, ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00079.

On or before October 30, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Company, Commission Staff, and all other respondents. In all filings, respondents shall comply with the Commission's Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00079.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

The Company's Petition, the Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and other documents filed in this case may be viewed on the Commission's website at: scc.virginia.gov/case-information.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) On or before July 21, 2025, the Company shall serve a copy of its Petition and this Order for Notice and Hearing on the following local officials, to the extent the position exists, in

each county, city, and town in which the Company provides service in the Commonwealth of Virginia: the chairman of the board of supervisors of each county; the mayor or manager (or equivalent official) of every city or town; and the county, city, or town attorney. Service shall be made electronically where possible; if electronic service is not possible, service shall be made by either personal delivery or first-class mail to the customary place of business or residence of the person served.

(10) On or before August 11, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling.

(11) On or before January 13, 2026, any interested person may file comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to file comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00079.

(12) On or before September 30, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel. The respondent shall serve a copy of the notice of participation electronically on counsel to the Company, Staff, and all other respondents.

Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00079.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall send each respondent a copy of the Petition, unless such already has been provided to the respondent.

(14) On or before October 30, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served electronically on the Company, Staff, and all other respondents. In all filings, respondents shall comply with the Commission's Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00079.

(15) On or before December 12, 2025, Staff shall investigate the Petition and file with the Clerk of the Commission its testimony and exhibits. Each Staff witness's testimony shall include a summary not to exceed one page. A copy thereof shall be served electronically on counsel for Dominion and all respondents.

(16) On or before January 5, 2026, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve electronically a copy of the testimony and exhibits on Staff and all respondents.

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified herein, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to Staff.³⁰ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) This matter is continued.

³⁰ The assigned Staff attorney is identified on the Commission's website, scc.virginia.gov/case-information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00079, in the appropriate box.

A COPY hereof shall be sent by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

**NOTICE OF VIRGINIA ELECTRIC AND POWER COMPANY
d/b/a DOMINION ENERGY VIRGINIA OF INTENT TO FILE
APPLICATIONS OR PETITIONS PURSUANT TO §§ 56-585.1 A 5 and 6
OF THE CODE OF VIRGINIA**

Pursuant to 20 VAC 5-204-10 A, Virginia Electric and Power Company d/b/a Dominion Energy Virginia (the “Company”), by counsel, hereby submits its Notice of Intent to File Applications or Petitions Pursuant to §§ 56-585.1 A 5 and 6 of the Code of Virginia with the State Corporation Commission of Virginia for approval of the following rate adjustment clauses:

- Rider CE, on or after October 1, 2025.¹ Specifically, this application will constitute (i) the annual update to the currently approved Rider CE, which is approved for use on and after May 1, 2025; and (ii) the initial request to recover costs associated with new utility and third-party owned (*i.e.*, power purchase agreements) renewable generation and energy storage facilities.
- Rider SNA, on or after October 1, 2025. This application will constitute the annual update to the currently approved Rider SNA, which is approved for service rendered on and after September 1, 2025.

VIRGINIA ELECTRIC AND POWER COMPANY
d/b/a DOMINION ENERGY VIRGINIA

By: /s/ Nicole M. Allaband
Counsel

¹ This application will also include a request for approval of the Company’s annual plan for the development of new solar, onshore wind, and energy storage resources, and associated requests for certificates of public convenience and necessity, as required by Va. Code § 56-585.5 D 4.

Motion to Adjourn

PURCHASE AGREEMENT

THIS PURCHASE AGREEMENT (the "Agreement") is made this ____ day of _____, 2025, between, NOTTOWAY COUNTY, VIRGINIA, a political subdivision of the Commonwealth of Virginia ("County"), and the TOWN OF BLACKSTONE, VIRGINIA, a political subdivision of the Commonwealth of Virginia ("Town").

RECITALS

A. The County is the owner in fee simple absolute of certain real property, together with all improvements thereon and all rights and appurtenances thereunto pertaining, with an address of _____, and further identified as Nottoway County Tax Map Number(s) _____ (the "**Property**").

B. The Town desires to purchase and the County desires to sell the Property in accordance with the terms and conditions of this Agreement.

C. These recitals are incorporated by this reference into this Agreement.

NOW, THEREFORE, in consideration of the purchase price and the mutual covenants and conditions contained herein, the parties agree as follows:

1. SALE. The County agrees to sell and the Town agrees to purchase the Property, together with all easements, rights and appurtenances thereto, all buildings and improvements now located thereon, and all of County's right, title and interest in all public ways adjoining same.

2. PRICE. The purchase price (the "Purchase Price") for the Property is NINE THOUSAND and 00/100 DOLLARS (\$9,000.00) PER ACRE, which shall be paid at closing. The final amount shall be determined during the Due Diligence period as provided in paragraph __ below, following a survey of the Property to determine actual acreage. The final purchase price will be set forth in a written addendum to this Agreement to be signed by both Parties.

3. CLOSING. Closing will take place at ____ [insert address of closing] ____, on or before ____ [date of closing] ____, or sooner if the conditions precedent to Closing are satisfied. Closing shall occur no later than Sixty (60) days after the end of the Due Diligence period.

4. RIGHT OF ENTRY. The Town and the Town's authorized representatives may, at any reasonable time, and after giving reasonable notice to the County, enter upon the Property to investigate such matters as the Town deems material to the value of the Property and its suitability for the Town's intended uses, which may include inspections, appraisals, surveys, including the establishment of survey lines and putting up markers and driving stubs and stakes, soil borings, environmental tests and reports, site analysis, engineering studies, and locating existing rights of way, easements and utilities. The Town will exercise this right of entry in such a way so as to not cause unreasonable damage to the Property, and, in the event that the Property does not sell, pursuant to the terms of this Agreement, agrees to repair any damage caused to the Property resulting from Town's or Town's representative's actions related to the investigation of the Property.

5. DUE DILIGENCE. The Town shall have six (6) months from the date first above written (the "Effective Date") to perform necessary due diligence, to allow for any necessary rezoning of the Property, and for the Town to determine whether the Property is otherwise suitable for the Town's intended use (the "Due Diligence Period"). The Town shall have the option to extend the Due Diligence Period for an additional ninety (90) days. The Town shall exercise the extension by written notice to the County prior to expiration of the original term. The results of said Due Diligence Period are to be satisfactory to the Town at the Town's sole discretion. If the results of the Due Diligence Period are not satisfactory to the Town, the Town shall have the option, at its sole discretion, to terminate this Agreement. In the event the Town terminates the Agreement under this provision, it shall not constitute a default of this Agreement. During the Due Diligence Period, the Town, its agents, employees, representatives, and contractors, at Town's sole cost and expense, may perform such tests, inspections, and examinations of the Property as the Town deems advisable, including without limitation investigations with regard to title, physical condition, environmental matters, matters of survey, flood plain, utilities availability, zoning and building code, and other applicable governmental requirements, financing requirements, and development requirements. The County shall grant the Town, its agents, or assigns free access to the Property for such purposes.

6. CONVEYANCE.

a. Deed. The County agrees to convey the Property to the Town by special warranty deed, free and clear of all encumbrances, tenancies, and liens (for taxes or otherwise), except as may otherwise be provided in this Agreement, subject to applicable easements and restrictive covenants of record not adversely affecting the use of the Property for any purpose, or rendering title unmarketable.

b. Possession. Possession of the Property shall be given to Town at Closing, except that Town shall have access to the Property for the purposes specified in paragraph 5.

c. Closing Costs. Except as otherwise set forth in this Agreement, County shall pay any grantor's tax, its own attorney's fees, and other costs normally paid by a Seller in similar transactions, and will pay the cost of preparing the deed. Town will pay all other costs and taxes in connection with recordation of the deed, its own attorney's fees, and other costs normally paid by a Purchaser in similar transactions.

d. Prorations. All rents, interest, taxes, insurance premiums, utility bills, fuel oil, and other items of income or expense for the Property, shall be prorated as of the date of Closing.

7. COUNTY'S AND TOWN'S DOCUMENTATION. To the extent that any of the following items exist and are in the possession of the County and can be located through a reasonable search, County agrees to furnish to Town, within ten (10) days from the date hereof, any and all surveys, topographical maps, title reports, leases and amendments thereto, environmental assessments, and any notices or correspondence received from a local, state or federal governmental body or agency, related to the environmental condition of the Property. (the "Inspection Documents").

8. REPRESENTATIONS AND WARRANTIES BY COUNTY. County represents and warrants as of the date hereof and as of Closing that:

a. County is the sole owner of the Property and has the right, title and authority to enter into this Agreement and to perform its obligations hereunder;

b. the entry and performance of this Agreement by County will not breach any agreement with any other party or create a violation of any applicable law, rule or regulation;

c. to the best of County's knowledge, the Property and all structures and operations on the Property fully comply with all applicable federal, state and local environmental laws, rules, regulations, and requirements;

d. County has no knowledge of or reason to believe there exists on the Property or any adjacent property any contamination of the soil, surface water, or groundwater on or under the Property or any parcel adjacent to the Property;

e. County has no knowledge of any past or present administrative proceedings, past or present litigation, or any notices, claims or assertions of a violation of any environmental, health or safety law or regulation affecting the Property;

f. there are no existing boundary, water or drainage disputes of which the County has any knowledge;

g. there are no actual or threatened actions or proceedings against the County to condemn all or any part of the Property; and

h. there are no leases encumbering the Property.

9. REPRESENTATIONS AND WARRANTIES BY TOWN. The Town represents and warrants to County that the Town has the financial ability and authority to purchase the Property and satisfy all other obligations under this Agreement.

10. COUNTY RIGHT OF FIRST REFUSAL IN CERTAIN CIRCUMSTANCES. Following the transfer of Property as contemplated in this Agreement, the County shall have the option to purchase the Property, or a portion thereof, under the following circumstances: If the Town, at any point, is planning to sell or lease the Property or a portion thereof, for development or use other than a use related to manned or unmanned aviation activity, the Town shall provide written notice to the County. The County shall have the option to purchase the portion of the Property contemplated to be sold or leased, including all improvements thereon, either for an agreed upon price or for fair market value. To exercise its option in this instance, the County must provide notice to the Town within sixty (60) days of receipt of the Town's notice. Unless the Parties come to an agreement on purchase price, fair market value shall be determined in the following manner: the Town and the County shall each hire an appraiser to conduct an appraisal of the property for fair market value. The average of the two appraisals shall constitute the purchase price.

11. REVERSIONARY INTEREST. If within a period of five (5) years after the Closing Date, the Town fails to (a) make any substantial utility or infrastructure improvements to the property; (b) utilize the property for aviation activity; or (c) sell any portion of the property, the County shall have a right of reversion, and fee simple title to the Property shall revert back to the County, provided the County pays the Town the purchase price plus an additional four percent (4%) interest per annum. If the Town takes any one of the actions described in a, b, or c (listed above) within the five-year period following the Closing Date, the County's right of reversion shall extinguish. For purposes of this section, "improvements" shall be defined as any permanent utility or infrastructure change made to the property that increases its value.

12. INDEMNITY. County shall indemnify, defend and hold Town harmless from all claims, actions, suits, demands and liabilities whatsoever, including reasonable attorney's fees and costs, arising from or related to the ownership and use of the Property prior to Closing or if any Representation or Warranty made by County is untrue. Town shall indemnify County from any loss, damage, or expense (including reasonable attorney's fees and costs) resulting from Town's use of, entry upon, or inspection of the Property during the Due Diligence Period. This indemnity shall survive any termination of this Agreement. Notwithstanding any other provision of this Agreement, entry upon the Property and exercise of due diligence is performed at Town's sole risk. Town assumes the risk and shall be solely responsible for any injuries to any employee or agent of the Town upon entry and exercise of due diligence pursuant to this Agreement.

13. CONDEMNATION. In the event County or Town become aware that the Property or any part thereof is or will become the subject of a condemnation proceeding, whether for public or quasi-public use, such party shall immediately give notice to the other of such proceeding. Upon the giving or receipt of such notice, Town shall have the option, by giving written notice to County within thirty (30) days following receipt of such notice of a condemnation proceeding:

a. to take title in accordance with the terms and conditions of this Agreement, and negotiate with the condemning authority for the condemnation award and receive its benefits; or

b. to permit County to negotiate with the condemning authority and receive the condemnation award, in which event Town shall take title to the remaining Property in accordance with the terms and conditions of this Agreement and the Purchase Price hereunder shall be reduced by the amount received or receivable by County as compensation for that portion of the Property so taken; or

c. to terminate this Agreement.

14. NOTICES. All notices to the parties hereto shall be delivered by hand or via certified mail return receipt requested, via overnight express delivery, or via facsimile and shall be deemed effective upon delivery if by hand and upon confirmation of receipt thereof by other means, to the following address until such address is changed by notice in writing to the other party:

Town:

Town of Blackstone, Virginia
100 West Elm Street
Blackstone, VA 23824
Attn: Philip Vannoorbeeck, Town Manager

With a copy to:

Julian Harf
Spilman Thomas & Battle, PLLC
310 First Street, Suite 1100
Roanoke, VA 24011

County:

Nottoway County, VA
P.O. Box 92
Nottoway, VA 23955
Attn: Stephen Bowen, County Administrator

With a copy to:

Gary Elder
Elder, Friedman & Allen, P.C.
113 East 2nd Street
Farmville, VA 23901

15. RISK OF LOSS. All risk of loss or damage to the Property by fire, windstorm, casualty, or other cause is assumed by County until Closing. County represents it will insure the Property, at County's cost, against such perils until Closing. In the event of substantial loss or damage to the Property before Closing, Town shall have the option of either:

- a. terminating this Agreement, or
- b. affirming this Agreement, in which event County shall assign to Town all of County's rights under any policy or policies of insurance applicable to the Property.

16. AGENTS. County warrants and represents that there are no real estate brokers or agents entitled to receive a commission on the sale of the Property hereunder.

17. DEFAULT AND REMEDIES.

a. If the sale and purchase contemplated by this Agreement is not consummated because of County's or Town's default, the non-defaulting party may elect to:

- (i) terminate this Agreement;
- (ii) seek and obtain specific performance of this Agreement; or

(iii) pursue all other rights or remedies available at law or in equity, including an action for damages.

b. If either County or Town defaults under this Agreement, such defaulting party shall be liable for any expenses, including reasonable attorney's fees and costs, incurred by the non-defaulting party in connection with the enforcement of its rights under this Agreement.

c. These remedies are cumulative and non-exclusive, and may be pursued at the option of the non-defaulting party without a requirement of election of remedies.

18. ENTIRE AGREEMENT. This Agreement contains the entire agreement of the parties, and supersedes the terms and conditions of all prior written and oral agreements, if any, concerning the matters it covers. The Parties acknowledge there are no oral agreements, understandings, representations, or warranties, which supplement or explain the terms and conditions contained in this Agreement. This Agreement may not be modified except by an agreement in writing signed by the Parties.

19. WAIVER. Failure to insist upon strict compliance with any of the terms, covenants, or conditions hereof shall not be deemed a waiver of such term, covenant, or condition, nor shall any waiver or relinquishment of any right or power hereunder at any one time or more times be deemed a waiver or relinquishment of such right or power at any other time or times.

20. SEVERABILITY. If any provision of this Agreement is unenforceable, the remainder of this Agreement shall continue in effect and be construed as if the unenforceable provision had not been contained in this Agreement. Each provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

21. CAPTIONS. Captions are used in this Agreement for convenience only and shall not be used to interpret this Agreement or any part thereof.

22. GOVERNING LAW. This Agreement is to be governed by and construed in accordance with the law of the Commonwealth of Virginia.

23. CHOICE OF FORUM/JURISDICTION. The Parties hereby consent to the jurisdiction and venue of the courts of the Commonwealth of Virginia, specifically to the courts of the County of Nottoway, Virginia, in connection with any action, suit or proceeding arising out of or relating to this Agreement. The parties further waive and agree not to assert in any such action, suit or proceeding brought in the County of Nottoway, Virginia, that (i) the Parties are not personally subject to the jurisdiction of such courts, (ii) the action, suit or proceeding is brought in an inconvenient forum, or (iii) venue is improper.

24. WAIVER OF TRIAL BY JURY. THE PARTIES HEREBY WAIVE TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM BROUGHT BY EITHER PARTY AGAINST THE OTHER ON ANY MATTER WHATSOEVER ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS AGREEMENT, OR ANY RELATED AGREEMENTS

OR INSTRUMENTS AND THE ENFORCEMENT THEREOF, INCLUDING ANY CLAIM OF INJURY OR DAMAGE TO ANY PARTY OR THE PROPERTY OF ANY PARTY.

25. SUCCESSOR/ASSIGNMENT. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their heirs, personal representatives, successors, and assigns. This Agreement may not be assigned by either Party without the express written consent of the other Party.

26. COUNTERPARTS. This Agreement may be executed in any number of counterpart copies, each of which when executed and delivered shall be deemed to be an original and all of which counterparts when taken together shall constitute a single instrument. Facsimile, electronic or scanned signatures shall be binding as originals in accordance with the Virginia Uniform Electronic Transactions Act at Va. Code §§ 59.1-479, *et seq.*

27. CONSTRUCTION/ADVICE OF COUNSEL. The parties agree that each has consulted with an attorney who has actively participated in the drafting and negotiation of this Agreement, and that the provisions of this Agreement shall not be construed in favor of either party.

Please publish this to appear in the newspaper the weeks of September 1 and September 8, 2025.

The public is hereby notified that the Nottoway County Board of Supervisors will conduct the following public hearings on September 18, 2025, at 7:00 p.m. in the General District Courthouse, 328 W. Courthouse Road, Nottoway, to consider the following:

The sale of approximately seventy-two (72.0) acres of real property, pursuant to Section 15.2-1800 et seq. of the *Code of Virginia*, to the southeast of and adjacent to the intersection of Darvills Road at Dominy Corner Road, a part of Tax Parcel # 43-130.

All persons desiring to be heard on these matters are urged to be present on the date and hour aforementioned. It is the intention of the Nottoway County Board of Supervisors to comply with the Americans with Disabilities Act. Should you need special accommodations, please contact the County Administration Office prior to 5:00 p.m. on Friday, September 12, 2025.

Suggested Motions

Sale of 72 acres Darvills Road at Dominy Corner Road

I move to approve the sale of approximately 72 acres of real property to the Town of Blackstone pending a survey by the Town of Blackstone. Property is described as part of Tax Parcel # 43-130, to the southeast of and adjacent to the intersection of Darvills Road at Dominy Corner Road, for the amount of \$9,000 per acre, per contract and direct the County Administrator to take any and all legal measures necessary to finalize the sale of the aforementioned real property.

Department of Planning and Economic Development

Director: Gregg Zody, AICP

gzody@nottoway.org

Office: 434-645-8696

PO Box 92

344 West Courthouse Road

Nottoway, Virginia 23955

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Director on behalf of Shawn Haney, applicant

DATE: August 27, 2025

SUBJECT: Staff Appeal of 15.2232 Review

This appeal is a result of the Planning Commission's denial of the §15.2-2232 Review during the public hearing preceding the Haney Special Exception public hearing, per Section 4-19-4(3) of the County's Solar Energy Facilities, which states the following:

3. 2232 review. The Code of Virginia §15.2-2232 requires a review of public utility facility proposals by the Planning Commission to determine if their general or approximate location, character, and extent are substantially in accord with the Comprehensive Plan or part thereof.
 - 1) The Planning Commission must consider, at a public meeting, whether the project is in substantial accord with the Comprehensive Plan. Failure of the Planning Commission to act within sixty (60) days of a submission, unless the time is extended by the Board of Supervisors, shall be deemed approval.

1. If the Planning Commission approves the 2232 review, the project shall be recommended for a public hearing for the Special Exception permit.
2. If the Planning Commission does not approve the 2232 review, the applicant may appeal the decision to the Board of Supervisors within ten (10) days after the decision of the Planning Commission. The appeal shall be by written petition to the Board of Supervisors setting forth the reasons for the appeal. The appeal shall be heard and determined within sixty (60) days from its filing unless the time is extended by the applicant. A majority vote of the Board of Supervisors shall overrule the Planning Commission.

Based on the draft transcripts of the audio recording of the Planning Commission's meeting, the reason for denial are as follows:

1. Concerns were reiterated regarding the project's historical impact given its location on a triple-registered historical property; and
2. Setbacks are not in compliance with the Plan's recommendations.

Staff's appeal on behalf of and authorized by the applicant recognizes that the Comprehensive Plan does state "Strategy 3: Set lot size and setback requirements, and restrictions on building and equipment height, lighting, fencing, and noise." (page 122 (J. Utilities))

It is staff's opinion that the matter of setback reductions contained in §4-19-4 states the following: "The Planning Commission and the Board of Supervisors can make exceptions on setbacks and acreage under panel based upon parcel dimension and topography."

Furthermore, the County's Solar Ordinance, per §4-19-7(4) Location, appearance, and operational requirements, states, in part:

Setbacks: The project area shall be set back a distance of at least three hundred (300) feet from all public rights-of-way, (1,200) feet from a habitable dwelling, and a distance of at least three hundred (300) feet from adjacent property lines. Waivers may be sought by the Applicant to reduce the setbacks adjacent to a non-immediate family- owned parcel to no less than three hundred (300) feet. Exceptions may be made for adjoining parcels that are owned or controlled by the Applicant or immediate family-owned and are included in the Site. Increased or decreased setbacks from all public rights of way and adjacent property lines up to three hundred (300) feet, and additional buffering may be included in the conditions for a particular permit, dependent upon the Site topography and parcel dimensions. Solar Energy and Battery Energy Storage Facilities also shall meet all setback requirements for primary structures for the zoning district in which the Solar Energy or Battery Energy Storage Facility is located in addition to the requirements

set forth above. Access, erosion and stormwater structures, and interconnection to the electrical grid may be made through setback areas provided that such are generally perpendicular to the property line.

Thus, in accordance with the provisions set forth in section 4-19-4, the applicant appeals the denial of the Planning Commission's denial of the 15.2232 review.

Nottoway County Special Review Project Application

GENERAL INFORMATION:

Nottoway County Zoning Ordinance §1-2-13 (Authorization for Constructing Public Facilities) and Code of Virginia §15.2-2232: Any project consisting of a street or connection to an existing street, park or other public area, public building or public structure, public utility facility, or public service corporation facility other than railroad facility, whether publicly or privately owned to be constructed, established or authorized shall be subject to a special review by the Planning Commission to determine if such project is in accordance with the county's comprehensive plan.

APPLICATION PROCEDURE:

- **Consultation with Planning Staff:** You are required to meet with a planner to discuss the request prior to submission.
- **Planning Commission:** The Planning Commission may hold a public hearing and review the application in order to make a recommendation to the Board of Supervisors.
- **Board of Supervisors:** The Board of Supervisors has the authority to overrule the action of the Planning Commission.

Please make sure the following items are included BEFORE submitting:

☐ **Application Fee:** If a public hearing is required by the Planning Commission, the applicant may be responsible for the cost of the required legal notifications.

☒ **Concept Plan:** A concept plan prepared by a professional engineer, architect or surveyor must be submitted with the application in both hard copy and digital (.pdf format) versions. The plan shall address any potential land use or design issues arising from the request. It is the responsibility of the applicant to demonstrate that the proposed use will be in harmony with the zoning district and surrounding area. If the proposed development is to be constructed in phases, all phases shall be shown at the time of the original application.

Nottoway County Special Review Project Application

Please print in blue or black ink or typewrite. If not applicable, write N/A.

APPLICANT INFORMATION

Note: If applicant is not the property owner, an owner's authority letter must be submitted with application.

Applicant Name: K. Shawn and Katherine Haney

Address: 884 Inverness Road, Burkeville, VA 23922

Phone: 804-955-9371 Fax: _____

Email: k.shawn.haney@icloud.com

Property Owner Name: Same

Address: Same

Phone: Same Fax: _____ Email: Same

Authorized Agent/Contact Person: Shawn Haney

Address: 884 Inverness Road, Burkeville, VA 23922

Phone: 804-955-9371 Fax: n/a Email: Same

Engineer: N/A

Address: _____

Phone: _____ Fax: n.a. Email: n.a.

PROJECT INFORMATION

Location/Address of Property (directions from Nottoway County Administration Building) Approximately 9 miles from 344 West Courthouse Road to 884 Inverness Road.

Tax Map Number(s): 17-93

Magisterial District: Haytokah District **Election District:** 1

Size of Parcel(s): In acres Approximately 316+/- acres In sq. ft. 13,732,096

Amount of area to be utilized 13% or 40 acres.

Current Zoning: Conservation **Current Land Use:** Agricultural

Please describe the proposed project or purpose of the request. The Haney's are seeking a special exception for a solar development located on the northeast section of parcel #17-93 at the southwest intersection of Inverness Road and Lewiston Plank Road. The project site is approximately 40 acres and will produce an estimated 5 megawatts of power.

JUSTIFICATION FOR SPECIAL REVIEW PROJECT

The Planning Commission will review the request to determine conformance with the Comprehensive Plan. Please answer the following questions as thoroughly as possible. Attach additional paper if necessary.

Please explain how the project conforms to the general guidelines and policies contained in the Nottoway County Comprehensive Plan. Is there a specific reference to the proposed project in the Comprehensive Plan? If not, please explain why the project should be determined to be in conformance.

There are specific citations regarding solar development in the County. The first citation is found on page 92 in the 2023-2028 Comprehensive Plan Future Land Use Section, IV. Land Use – Section D - Special Considerations, Renewable Energy (including solar):

An emerging issue in Virginia, and especially in Southside Virginia, is the push for more renewable energy in general and solar-powered energy generation in particular. Localities throughout Southside Virginia have been working on ordinances to regulate how solar facilities can be developed, including how much land can be used for solar facilities and where. Nottoway County, like many rural localities in Southside Virginia, have large tracts of land that could be attractive to solar developers. Nottoway County has started work on adding a section governing renewable energy, wind, and solar, to its zoning ordinances. The new regulations would govern where large-scale facilities could be located. The Nottoway County Planning Commission should consider safe development of solar energy that minimizes impacts to land uses, properties, and the environment, especially for economic development purposes. The County should develop reasonable conditions for the development of renewable energy facilities that would protect the character of surrounding properties but not limit future development.

Recommendations – The Nottoway County Planning Commission and Nottoway County Board of Supervisors, through the adoption of this Comprehensive Plan, should state their commitment to agricultural and forestal land preservation objectives. Tools most commonly used to influence the timing and location of growth are zoning, subdivision standards, use value assessments and taxation, and public facility decisions. Other tools and programs available to agricultural and rural property owners who wish to take steps to preserve their land holdings generally involve a partnership between the landowner and a governmental agency. Land conservation tools such as conservation easements, Purchase of Development Rights programs, and other tax incentive programs may be used to encourage minimal development in these areas. There are agencies that provide these and other voluntary programs. These agencies change from year to year and may or may not have funding. They include:

- Piedmont Soil and Water Conservation District (serving Amelia, Nottoway, and Prince Edward Counties): <https://piedmontswcd.org/>
- Virginia Department of Forestry: <https://dof.virginia.gov/>
- Virginia Cooperative Extension, Nottoway County Office: <https://nottoway.ext.vt.edu>

Commercial and/or industrial developments that are approved in the rural portions of the County should be consistent with the best interests of the community. The County and Towns should investigate the use of the aforementioned easements and other preservation tools and be willing to provide information to property owners who wish to pursue a particular preservation strategy. As the County revises its zoning and subdivision ordinances, consideration should be given to including provisions to require and/or

allow for the use of cluster housing and other conservation design techniques. Another consideration for the County as it amends its ordinances is the addition of Agricultural/Forestal Districts. Under the Code of Virginia, Section 15.2-4301, Agricultural and Forestal Districts are meant to “conserve and protect and to encourage the development and improvement of the Commonwealth's agricultural and forestal lands for the production of food and other agricultural and forestal products” and to “conserve and protect agricultural and forestal lands as valued natural and ecological resources which provide essential open spaces for clean air sheds, watershed protection, wildlife habitat, as well as for aesthetic purposes.” The County should support the activities of local land trusts and other environmental organizations in their efforts to voluntarily preserve critical agricultural and open spaces in the area. The County should also work closely with the appropriate government agencies to ensure that private timbering operations in the County are undertaken using approved techniques in an environmentally sensitive manner.

The second citation (Section G Renewable Energy (including Solar Facilities)- on page 97, states the following:

The Code of Virginia, Section 56.614, defines a renewable energy facility as “(i) an electrical generation facility that produces not more than 2 megawatts peak net power output to the distribution grid, which electricity is generated only from a renewable energy source; (ii) a steam reduction facility with a rated capacity of not more than 5,000 mmBtus per hour that produces steam only from a renewable energy source; or (iii) a solid waste management facility permitted by the Department of Environmental Quality from which landfill gas is transmitted or distributed off premises.”

Section 15.2-2316.6 of the Code defines a small renewable energy project as “(i) an electrical generation facility with a rated capacity not exceeding 150 megawatts that generates electricity only from sunlight or wind; (ii) an electrical generation facility with a rated capacity not exceeding 100 megawatts that generates electricity only from falling water, wave motion, tides, or geothermal power; (iii) an electrical generation facility with a rated capacity not exceeding 20 megawatts that generates electricity only from biomass, energy from waste, or municipal solid waste; (iv) an energy storage facility that uses electrochemical cells to convert chemical energy with a rated capacity not exceeding 150 megawatts; or (v) a hybrid project composed of an electrical generation facility that meets the parameters established in clause (i), (ii), or (iii) and an energy storage facility that meets the parameters established in clause (iv).” This section further defines an energy storage facility as “energy storage equipment or technology that is capable of absorbing energy, storing such energy for a period of time, and redelivering energy after it has been stored” and an energy storage project as “the energy storage facilities within the project site.” Section 15.2-2316.6 further defines solar facilities as “commercial solar photovoltaic (electric energy) generation facilities. ‘Solar facilities’ does not include any solar project that is (i) described in § 56-594, 56-594.01, 56-594.02, or 56-594.2, or (ii) five megawatts or less.”

The rural nature of Nottoway County and the existence of significant open space makes the County an attractive area for the location of solar facilities – and to a lesser degree, wind facilities. As Nottoway County finalizes its ordinances regulating renewable energy, the County should take care to balance the development of alternative energy production while protecting agriculture, forestry lands and watersheds that the County enjoys. This is especially the case given the recent push toward more solar and other alternative energy production across the State, and Southside Virginia in particular.

Section 15.2-2232 of the Code of Virginia requires that any proposed public utility facility, unless already shown in the adopted Comprehensive Plan, be reviewed by the Planning Commission to determine if it is “substantially in accord” with the Plan. Per 15.2-2232 Paragraph B, the Planning Commission has 60 days from the date of proposal submission – unless extended by the local governing

body (in this case, the Board of Supervisors) – to consider the proposed facility at a public meeting and recommend either approval or disapproval to the Board. The recommendation must include a written explanation of their action.

Per Paragraph B, Failure by the Planning Commission to act on the proposal within 60 days (unless that time is extended by the Board) “shall be deemed approval” of the proposed facility.

Recommendations – Nottoway County should consider safe development of solar and wind energy that minimizes impacts to land uses, adjacent properties, and the environment, particularly for economic development purposes. As the County amends its ordinances and policies to regulate renewable energy production within its borders, the County should set guidelines including (but not necessarily limited to) the following:

- Set a limit for total kilowatt production in Nottoway County via solar facilities that is no higher than a level equal to the total kilowatts used in Nottoway County by all sources.
- Set guidelines/restrictions on where (what zoning districts) renewable energy facilities and battery storage facilities will be allowed.
- Set minimum and maximum lots sizes for utility-scale solar facilities, and set the maximum size as contiguous, and limit the percentage of the property which can be covered with solar panels.
- Set requirements for setbacks.
- Require that facilities, including fencing, be significantly screened from the ground-level view of adjacent properties by a set buffer zone consisting of natural vegetation and landforms and/or be landscaped.
- Set limits on what percentage of prime agricultural soil, as identified by the U.S. Department of Agriculture, Natural Resource Conservation Service, a parcel with a solar facility may include.
- Require pollinator habitats and a minimum amount of open space, including wildlife corridors, and other natural features.
- Set a minimum distance that facilities can be located from designated conservation areas, natural corridors, environmentally sensitive areas (including forest resources), scenic viewsheds, recreational areas, historical or cultural areas, and sensitive water bodies like scenic rivers or public water source reservoirs.
- Set a minimum distance that facilities to be located from town boundaries, designated growth areas, community hubs, or commercial or military airports.
- Require that a facility be located within close proximity of an electric transmission line, and any tie lines be located and buffered to block visibility from highways.
- Set a minimum distance that a facility may be located from other existing or permitted solar facilities.
- Require that facilities avoid areas of Forest Conservation Values or Ecological Cores rated high to outstanding as defined by Conserve Virginia.
- Require the developer to coordinate with VDOT to help ensure that heavy truck traffic using area roads during construction does not damage road surfaces or create unsafe traffic conditions.
- Set standards regarding herbicide use.
- Set height restrictions for buildings and equipment, lighting restrictions, noise restrictions.
- Set standards for battery energy storage systems that would be located in the facility.
- Set a timeline for construction based on a set amount of time from the date of the issuance of all required approvals/permits.
- Establish application procedures for solar developers to include the following:
 - o Pre-application meeting with appropriate county staff.

- o Community meeting for the developer (prior to application) to inform the public and take questions from citizens.
- o Requirements for application forms and fees to include, but not necessarily be limited to:
 - Project narrative
 - Site plan that will include, but not necessarily be limited to:
 - Construction plans
 - Assessment of environmental, wildlife, and cultural impacts
 - Impacts on traffic and how those impacts will be addressed
 - Landscaping and screening plan
 - Erosion and sediment control plan
 - Stormwater management plan
 - Decommissioning and reclamation plan
 - Proof of liability insurance
 - Any other information deemed relevant for the approval process.
 - Additionally, the County should work with a consultant as needed to identify, catalogue, and map relevant features, including:
 - Major electrical facilities (i.e., transmission lines, transfer stations, generation facilities, etc.).
 - Brownfield sites and locally-owned capped landfills.
 - Prime Farmland including areas of prime farmland or farmlands of statewide importance as defined by the USDA and Commonwealth of Virginia.

This Comprehensive Plan section has been incorporated into the Solar Ordinance.

The third citation begins on page 122 (J. Utilities), which states:

GOAL: Provide for and regulate the siting, development, construction, installation, operation, and decommissioning of renewable energy and battery storage facilities in the County in a manner that promotes economic development and the safe, effective, and efficient use of such facilities while protecting the health, safety, and welfare of the community and avoiding adverse impacts on the County's resources.

Objective 1: Encourage renewable energy production and equipment storage facilities in areas of the County that promote the development of renewable energy sources while limiting impacts on natural resources and existing agricultural, forestal, residential, commercial, industrial, historical, cultural, and recreational uses of property or the future development of such uses.

Strategy 1: Set a limit for total kilowatt production in Nottoway County via solar facilities that is no higher than a level equal to the total kilowatts used in Nottoway County by all source.

Strategy 2: Set guidelines on where (in what zoning districts) renewable energy facilities will be allowed.

Strategy 3: Set lot size and setback requirements, and restrictions on building and equipment height, lighting, fencing, and noise.

Strategy 4: Establish buffer areas to keep facilities from encroaching on town boundaries, designated growth areas, community hubs, commercial or military airports, and environmentally sensitive areas.

Strategy 5: Establish buffer areas and set distance requirements to protect designated conservation areas, natural corridors, scenic viewsheds, recreational areas, historical or cultural areas, scenic

rivers or public water source reservoirs, ecological cores, and other sensitive areas from renewable energy facilities.

- Strategy 6: Set standards regarding herbicide use, pollinator habitat, open space/wildlife corridors and guidelines for battery storage facilities.
- Strategy 7: Set limits on percentage of prime agricultural soil that may be included in a parcel with a solar facility.
- Strategy 8: Set guidelines on how far a facility may be located from an electric transmission line or other renewable energy facilities
- Strategy 9: Set standards/guidelines in the County ordinance for the Planning Commission to review proposed facilities and make recommendations to the Board of Supervisors, in accordance with Section 15.2-2232 of the Code of Virginia.
- Strategy 10: Establish application procedures for the submittal and review of proposed facilities, and procedures for approved facilities including a timeline for construction.
- Strategy 11: Require the developer to coordinate with VDOT to ensure that heavy truck traffic using area roads during construction does not damage road surfaces or create unsafe traffic conditions.
- Strategy 12: Require the developer of a proposed facility to include a decommissioning plan with their proposal that outlines procedures for the removal of all equipment from the site, and restoration of the site to its pre-development state (to the extent possible), once the facility has reached the end of its useful life or if the facility is determined to be abandoned.

Like the previous citation, this particular Goal and its Strategies have been incorporated into the Solar Ordinance, ensuring that certain safeguards are built into the Ordinance to mitigate the environmental and ecological impacts that may be caused by solar development (prime ag soils, wetlands, floodplains, Protected, Endangered, and Threatened Species) without utilizing Best Management Practices, where applicable.

Based on the citations found in the 2023-2028 Comprehensive Plan, this proposal does reflect the goals of the adopted Plan.

CERTIFICATION

I hereby certify that this application is complete and accurate to the best of my knowledge, and I authorize County representatives' entry onto the property for purposes of reviewing this request.

Owner/Agent Signature: _____ **Date:** _____

Print Name: _____

Planning Commission Meeting Summary

August 19, 2025

The Nottoway County Planning Commission convened its meeting, which included standard opening procedures, discussions on proposed airport zoning, and a significant debate and decision regarding a solar facility application.

Meeting Opening

The meeting was called to order at 7:00 PM. The session began with a prayer, welcoming a new commission member (Mr. Kite) and a returning member (Mr. Bruce), and wishing Mr. Bowen a happy 62nd birthday. Prayers were also offered for Mr. Zody (illness) and Mr. Perry (traveling). Roll call was conducted, confirming the presence of most members. The minutes from the July 15th meeting were approved unanimously.

The agenda for the evening was then modified. Two public hearings concerning the Inverness Farm solar project were reordered to ensure that decisions regarding ordinance compliance were made before considering specific exemptions.

Airport Zoning and Overlay Districts

Mr. Bowen introduced a discussion on two proposed public hearings related to the county's airports, highlighting the uniqueness of Nottoway County having two airports. He invited the town manager of Blackstone, Philip Vannoorbeeck, to explain the rationale.

Blackstone's Vision for Airport Development

- **Context:** The Town of Blackstone is negotiating to purchase approximately 72 acres from Nottoway County, adjacent to the Blackstone Army Airfield/Allen C. Perkinson Municipal Airport. This land was transferred to the county during the mid-1990s BRAC (Base Realignment and Closure) process.
- **Purpose of New Zoning:** The current zoning (General Business) is unsuitable. The goal is to create a new, restrictive zoning district (Airport District) specific to aviation, both manned and unmanned, to support research, development, training, manufacturing, and assembly of aircraft. This would prevent the land from being used for commercial ventures like gas stations or shopping centers.
- **Economic Driver:** The airport is envisioned as the county's "next economic driver," building on the success of FASTC.
- **Unmanned Aviation Focus:** Blackstone is already home to UAV Pro (Textron Corporation), which employs around 76 people and manufactures unmanned aerial vehicles. The airfield is the site of the first FAA-licensed vertiport (vertical takeoff for unmanned vehicles) in the United States. It's also the eastern terminus of a Virginia Tech

corridor study for "out of sight" unmanned aviation, developing standards for non-line-of-sight operations.

- **Process:** The creation of the Airport District text and an Airport Overlay District are the initial steps. A subsequent public hearing would be required for the actual rezoning of the 72 acres, which would be a contingency for the land sale to proceed.
- **Airport Overlay District:** This district would establish protections, aligning with FAA regulations, concerning height restrictions and obstructions near runways.

Crew's Perspective

- The Town Manager of Crew, Phil Miskovic, expressed support for Blackstone's initiative.
- He requested amendments to the proposed zoning language to allow for broader municipal uses at Crew's airport, such as storing debris after storms, community events (e.g., Airfest, Chicken Festival), and other municipal operations, potentially without needing administrative permits. This is due to Crew's airport being used for more than just aviation and its closer proximity to residential areas compared to Blackstone.

Commission Discussion & Outcome

- Commissioners raised concerns about the lack of a map for the overlay district, how it might impact neighboring residential properties, and the proposed reduction of lot frontage requirements from 150ft to 100ft.
- **Decision:** The public hearings for both the Airport Zoning District and the Airport Overlay District were *tabled* until the next meeting. The request was to provide a cleaner document incorporating all suggested changes (from both Blackstone and Crew) and a clear map, which would then be reviewed by the county attorney.

Inverness Farm Solar Facility Application

The commission then addressed a special exception request for a solar facility at Inverness Farm, concerning alterations to county zoning ordinance setbacks, followed by a review of the application itself.

Special Exception Request for Setback Alterations

- **Request:** The applicant sought to reduce setbacks from the county ordinance, specifically:
 - 300ft to 150ft (general setback).
 - 300ft to 100ft (along Lewiston Plank Road).
 - 1200ft from a habitable dwelling to 375ft.
- **Public Comments:**
 - A nearby resident (1226 Lewiston Plank Road) expressed concern about the visual impact of solar panels from the road and potential effect on property values, preferring the 300ft setback.

- An adjacent landowner (John Shute) did not oppose the project, noting the existing industrial character of the surrounding area (substation, correctional facility) and the applicant's status as a good, conservation-minded neighbor facing high farm taxes.
- Mr. Williamson urged the commission to adhere to existing solar ordinance guidelines and suggested consulting "Protecting Virginia counties and local citizens" guidelines.
- Peggy Figler, President of the Nottoway County Historical Association, expressed *strong opposition* to placing an "industrial solar facility on a triple registered historical property" (National Trust, National Register of Historic Places, Virginia Landmark), citing a Deed of Preservation and Conservation Easement and arguing it would compromise historical integrity.
- **Commissioners' Discussion:**
 - A commissioner received an email from a resident urging the maintenance of the 300ft setbacks.
 - Concerns were raised about the significant reduction from 1200ft to 375ft from habitable dwellings.
 - One commissioner highlighted that the existing ordinance might not allow waivers, reducing setbacks below 300ft for non-immediate family parcels, making the 100ft proposal non-compliant from the outset.
- **Applicant's Response (Mr. Haney):**
 - The ordinance permits project-specific adjustments.
 - The landowner directly across Lewiston Plank Road had provided a waiver letter.
 - The National Trust easement is a private document; they will not rule on the project until the County does, but assured that the Trust would likely impose stricter conditions (e.g., fencing, buffers) than the county.
 - Panels have anti-glare coatings, and landscaping (trees) would eventually shield views from the road.
 - The project uses driven posts, not concrete, for minimal ground disturbance.
 - Enforcing stricter setbacks would increase the project's footprint from 40 acres to nearly 50 acres for the same power output.
- **Decision:** The commission voted to *deny* the request for special exceptions to the setback requirements, affirming adherence to the county's existing zoning ordinance.

Review of Solar Facility Application Against Comprehensive Plan

Following the denial of setback exceptions, the commission proceeded to review the solar project application's compliance with the comprehensive plan. This decision was separate, as the Board of Supervisors could potentially overrule the setback denial.

- **Commissioners' Discussion:**
 - Concerns were reiterated regarding the project's historical impact given its location on a triple-registered historical property.
 - Reliance on Dominion Energy (not the applicant) for future ownership and decommissioning was questioned, as Dominion was not formally part of the application.

- Concerns were voiced about the decommissioning plan, particularly the timeline for the bond (starting at year 15 of a 35-year project) and the possibility of the county having to complete decommissioning if the bond is insufficient or triggered early.
- Questions arose about panel degradation rates and reported underperformance of Dominion solar projects in Virginia.
- The applicant clarified that tax dollars would be collected regardless of power efficiency and that the 40-acre project (11-12% of the farm) would incorporate pollinator-friendly plants and beehives, continuing "farm benefits."
- **Decision:** The commission voted to *deny* that the solar facility application, as presented, complies with the comprehensive plan.

Zoning Ordinance Revision Review

This agenda item was skipped as no related documentation was provided in the packet.

Phishing Scam Alert

A county official alerted the commission and the public to a phishing scam targeting applicants, where fraudulent invoices for \$25,000 via wire transfer to an out-of-state bank were being sent, using county officials' names for application approval. Citizens were advised to report any such suspicious activity directly to county officials or the Sheriff's office.

The meeting was adjourned.

Department of Planning and Economic Development

Director: Gregg Zody, AICP

gzody@nottoway.org

Office: 434-645-8696

PO Box 92

344 West Courthouse Road

Nottoway, Virginia 23955

STAFF REPORT

TO: Planning Commission
and Board of Supervisors

FROM: Gregg Zody, Director *GZ*

DATE: August 10, 2025

SUBJECT: Special Exception Request for Solar Facility And Setback Reductions

BACKGROUND

Applicant/Property Owner

K. Shawn and Katherine Haney, 884 Inverness Road, Burkeville, VA 23922

Request

Applicant approval for a five megawatt (MW) solar facility on approximately 40 acres and reductions in setbacks. No battery storage is proposed for this project.

Setback Request (per §4-19-7 and #3 on page 8 in the application)

1. The applicant seeks to reduce the 300-foot setback requirement to 150 feet along the property line on Inverness Road.
 - An existing wooded (coniferous and deciduous) fifty-foot buffer along Inverness will be preserved for screening;

2. The applicant seeks to reduce the setback from the property line along Lewiston Plank Road from 300 feet to 100 feet with a planted landscaping strip to obscure the view from the adjacent residence on the east side of the road;
3. The applicant seeks to reduce the setback from 1,200 feet to 375 feet from non-family inhabited dwellings on the southern boundary of the project area
4. No setback reductions are sought for the west side of the property.

LAND USE ANALYSIS

Zoning/Land Use Compatibility

The site was rezoned from Rural Residential (RR) to Conservation (C-1) by the Board of Supervisors on July 17th, 2025. The overall site size is approximately 316 acres, and the land proposed for solar development is approximately 40 acres. The applicants currently grow crops and raise cattle on the property, as well as apiaries, and poultry.

The applicants live on the northwest section of the site, near the agricultural structures. The property is identified as historic (most notably the home, restored and inhabited by the Haney family. The site (including the home) is listed as historic through the National Trust for Historic Preservation.

Adjacent uses include single-family residences, agriculture, and forestal. The anomalies to the standard adjacent uses (SFR, Ag, and Forestal) in this area include the Burkeville Elementary School on the west side of the property and the Nottoway Correctional Center to the northeast of the site.

The Dominion Substation is located on the north side of Inverness Road, and the Burkeville Convenience site is adjacent to the Dominion property and the applicant's land on the north side of Inverness Road. The subject site is relatively level and wooded, with sloping topography towards the wetlands on the southern and southeastern sections of the site. No proposed panels will be located withing delineated wetlands or floodplain.

There appears to be several vacant structures (two mobile homes and one block-built structure) on Inverness Road near the site on the north side of Inverness Road just west of the intersection with Lewiston Plank Road.

COMPREHENSIVE PLAN

There are specific citations regarding solar development in the County.

- The first citation is found on page 92 in the 2023-2028 Comprehensive Plan Future Land Use Section, IV. Land Use – Section D - Special Considerations, Renewable Energy (including solar).
- The second citation (Section G Renewable Energy (including Solar Facilities) on page 97.
- The third citation begins on page 122 (J. Utilities).

Please see the 2232 Review Summary (Exhibit 1) for specific citations of relevance of the proposed solar facility in the Comprehensive Plan.

Sec. 5-5-2(8) SPECIAL EXCEPTION - ISSUES FOR CONSIDERATION

In considering a Special Exception Permit application, the following factors shall be given reasonable consideration. The applicant shall address all the following in its statement of justification or Special Exception Permit plat, unless not applicable, in addition to any other standards imposed by this Ordinance: *Staff Responses are italicized.*

- 1) Whether the proposed Special Exception Permit is consistent with the Comprehensive Plan.

Yes. The proposed project complies with the Comprehensive Plan regarding solar facilities.

- 2) Whether the proposed Special Exception Permit will adequately provide for safety from fire hazards and have effective measures of fire control.

Yes. All interconnectivity to the 12.47 kv line owned by Dominion will be subject to review and approval by the County Building Official. The Burkeville Voluntary Fire Department is located approximately 1 mile from the site.

- 3) The level and impact of any noise emanating from the site, including that generated by the proposed use, in relation to the uses in the immediate area.

Beyond initial construction, no noticeable noise is anticipated from the facility other than typical noises generated by a working farm with a single-family home.

- 4) The glare or light that may be generated by the proposed use in relation to uses in the immediate area.

Given the increased elevation of the facility compared to the elevation of Lewiston Plank Road, there should be minimal glare or glint at the site, so it should not negatively impact adjacent property owners or distract vehicular traffic. The solar panels will follow the zenith of the sun (east to west).

- 5) The proposed location, lighting and type of signs in relation to the proposed use, uses in the area, and the sign requirements of this Ordinance.

No signage is formally requested at this time, except signage related to proposed construction entrance. Any future signage shall comply with Article 4, Supplemental Regulations, Division 4-12-1, Signs.

- 6) The compatibility of the proposed use with other existing or proposed uses in the neighborhood and adjacent parcels.

This is a new use, and whether it is compatible with adjacent uses is yet to be seen. It depends on one's perspective regarding solar facilities in general.

The adjacent uses include residential dwellings, agriculture, public utilities, and institutional uses.

A very important consideration is not that a solar facility is being constructed, but whether there are demonstrable impacts on adjacent properties, such as noise, dust, and light pollution.

- 7) The location and area footprint with dimensions (all drawn to scale), nature and height of existing or proposed buildings, structures, walls, and fences on the site and in the neighborhood.

Please see Exhibits 6-8 for the proposed site development plan.

- 8) The nature and extent of existing or proposed landscaping, screening, and buffering on the site and in the neighborhood.

According to the application, the applicant plans to build three-row landscaping strips and space them at 10 to 15 feet centers adjacent to the panel sites area along Lewiston Plan Road.

- 9) The timing and phasing of the proposed development and the duration of the proposed use.

No phasing is proposed. If approved, construction would commence in 2026, after both Erosion and Sediment Control Plans and Stormwater Pollution Prevention Plans are submitted and reviewed by the appropriate agencies/staff.

- 10) Whether the proposed Special Exception Permit will result in the preservation or destruction, loss or damage of any topographic or physical, natural, scenic, archaeological or historic feature of significant importance.

The applicant will maintain most of the trees not only as a visual screen for adjacent residential uses to the south, but also because the southern portion of the site contains wetlands and floodplain with several ponds across the property.

Preserving vegetation is an excellent example of erosion control and helps maintain existing ecological habitats. Please see Applicants' Application - Attachments 6-8 for detailed inventories.

The applicant's homestead and property are registered with the National Trust for Historic Preservation, and the home and some other structures are being preserved. None of these structures are in the project area.

- 11) Whether the proposed Special Exception Permit at the specified location will contribute to or promote the welfare or convenience of the public.

The threat to the welfare and convenience of the public in this case should be minimal.

- 12) The traffic expected to be generated by the proposed use, the adequacy of access roads, and the vehicular and pedestrian circulation elements (on and off-site) of the proposed use, all in relation to the public's interest in pedestrian and vehicular safety, efficient traffic movement, and access in case of fire or catastrophe.

As with any special exception request, both VDOT and VDH are sent copies of the application well in advance of the public hearing.

Regarding transportation, the applicants have two existing points of access used for accessing the corn fields adjacent to Lewiston Plank Road that could serve as points of ingress and egress for construction traffic as well as maintenance, inspections, etc. The applicants have identified the access closest to the intersection of Lewiston Plank Road and Inverness Road.

- 13) Whether, in the case of existing structures proposed to be converted to uses requiring a Special Exception Permit, the structures meet all code requirements of Nottoway County.

N/A.

- 14) Whether the proposed Special Exception Permit will be served adequately by essential public facilities and services.

No proposed public facilities or services are proposed.

- 15) The effect of the proposed Special Exception Permit on groundwater supply.

The applicants will need to submit proper applications for Erosion and Sediment Control Plans and Stormwater Pollution Prevention Plans for review to DEQ (and County staff for the ESCP) to ensure minimal impacts on ground and surface water resources. Please refer to the Phase I – Environmental Site Assessment.

- 16) The effect of the proposed Special Exception Permit on the structural capacity of the soils.

Please refer to the Phase I Environmental Site Assessment for specifics about the soil types. No adverse effects on the structural capacity of the soils are expected through the implementation of Best Management Practices (BMP) and periodic site inspections, especially after significant rain events.

- 17) Whether the proposed use will facilitate orderly and safe road development and transportation.

No response from VDOT at this time.

- 18) The effect of the proposed Special Exception Permit on environmentally sensitive land or natural features, wildlife habitat and vegetation, water quality, and air quality.

The project site area is located near wetlands and floodplain toward the southeastern boundary, but according to the application, those areas will be protected from any solar development. In other words, the wetlands should not be disturbed, nor the floodplain adjacent to Mallory Creek. The Wetlands Study in the application delineates the areas to be protected.

- 19) Whether the proposed Special Exception Permit use will provide desirable employment and enlarge the tax base by encouraging economic development activities consistent with the Comprehensive Plan.

For the duration of the project's development, construction jobs will be created.

The only revenue expected to be generated from this use will be through revenue-sharing between the County and the developer.

- 20) Whether the proposed Special Exception Permit considers the needs of agriculture, industry, and businesses in future growth.

The site is zoned Conservation, which does allow agricultural activity as a by-right permitted use. The applicants will continue their agricultural activities minus 40 acres if the proposed project is approved. At this time, their corn is planted at both project site locations on the east side of the property.

- 21) The effect of the proposed Special Exception Permit use in enhancing affordable shelter opportunities for residents of the County.

None.

- 22) The location, character, and size of any outdoor storage.

There will be temporary storage yards on site for construction purposes.

- 23) The proposed use of open space.

Areas identified as wetlands and floodplains will be preserved, as will the agricultural uses not in the project area.

- 24) The location of any major floodplain and steep slopes.

Floodplain exists in the south and southeastern portion of the site adjacent to Mallory Creek, and there are multiple ponds (at least three). Please see attached site plans (Exhibits 5 and 6) regarding slopes and floodplain.

- 25) The location and use of any existing nonconforming uses and structures.

There are existing agricultural structures on the western side of the property. The applicant can respond to those structures' status.

- 26) The location and type of any fuel and fuel storage.

There is an underground storage tank adjacent to the homestead for domestic purposes and away from the proposed project areas.

- 27) The location and use of any anticipated accessory uses and structures.

None identified by the applicant.

- 28) The area of each use; if appropriate.

Please refer to Exhibits 5 and 6.

- 29) The proposed days/hours of operation.

N/A.

- 30) The location and screening of parking and loading spaces and/or areas.

There will need to be parking for construction activities located on site and not along Lewiston Plank or Inverness Road. A VDOT Construction Management Plan may be required.

- 31) The location and nature of any proposed security features and provisions.

Security fencing at least six (6) feet high is required around the perimeter of the project areas.

- 32) The number of employees.

An indeterminate number of temporary construction workers for the prep work and installation of the solar components.

- 33) The location of any existing and/or proposed adequate on- and off-site infrastructure.

None identified in the field.

- 34) Any anticipated odors which may be generated by the uses on-site.

No odors anticipated.

- 35) Whether the proposed Special Exception Permit uses sufficient measure to mitigate the impact of construction traffic on existing neighborhoods and school areas.

Staff is awaiting VDOT's comments.

- 36) Refuse and service areas, with reference to the items in (1) and (2) of this subsection.

The Burkeville Convenience Center is less than a ½ mile from the project areas - located at the intersection of Lewiston Plank Road and US 460/360 interchange.

In the future, the developer will be responsible for locating a landfill or other sanitary repository for defective panels that may not otherwise be accepted for disposal at the County's landfill.

- 37) Utilities, with reference to location, availability and compatibility.

There will be interconnectivity to the Dominion Substation from the project area on the north side of Inverness Road. No additional utilities are proposed.

AGENCY COMMENTS

From VDOT (none received as of this writing)

From VDH (none received as of this writing)

STAFF RECOMMENDATION

Staff recommends approval of the special exception request, subject to the following conditions:

1. This special exception is granted for a 40 acre, 5 megawatt site located on the east side of parcel # 17-93, adjacent to Lewiston Plank Road

2. This special exception may be revoked by Nottoway County or its designated agent for failure to comply with any of the listed or amended conditions established by staff or the Planning Commission.
3. Security fencing no less than six (6) feet is required around the project area, per §4-19-7-5.
4. Applicant shall secure a construction entrance permit and implement any construction management plans required by the Virginia Department of Transportation.
5. Applicant shall submit a preliminary Erosion and Sediment Control Plan for review and approval by staff. No land disturbing activities before the issuance of an approved plan, and the land disturber must have a current RLD.
6. Applicant shall submit a preliminary Stormwater Management Plan for DEQ to review and approve. No land disturbing activities before the issuance of an approved plan, and the land disturber must have a current RLD.
7. A buffer is required on either side of any perennial stream within the identified project area and may be increased or decreased, depending upon site topography.
8. Any topsoil removed from the project areas must be stored on site for decommissioning.

Nottoway County Special Review Project Application

GENERAL INFORMATION:

Nottoway County Zoning Ordinance §1-2-13 (Authorization for Constructing Public Facilities) and Code of Virginia §15.2-2232: Any project consisting of a street or connection to an existing street, park or other public area, public building or public structure, public utility facility, or public service corporation facility other than railroad facility, whether publicly or privately owned to be constructed, established or authorized shall be subject to a special review by the Planning Commission to determine if such project is in accordance with the county's comprehensive plan.

APPLICATION PROCEDURE:

- **Consultation with Planning Staff:** You are required to meet with a planner to discuss the request prior to submission.
- **Planning Commission:** The Planning Commission may hold a public hearing and review the application in order to make a recommendation to the Board of Supervisors.
- **Board of Supervisors:** The Board of Supervisors has the authority to overrule the action of the Planning Commission.

Please make sure the following items are included BEFORE submitting:

- ☐ **Application Fee:** If a public hearing is required by the Planning Commission, the applicant may be responsible for the cost of the required legal notifications.
- ☒ **Concept Plan:** A concept plan prepared by a professional engineer, architect or surveyor must be submitted with the application in both hard copy and digital (.pdf format) versions. The plan shall address any potential land use or design issues arising from the request. It is the responsibility of the applicant to demonstrate that the proposed use will be in harmony with the zoning district and surrounding area. If the proposed development is to be constructed in phases, all phases shall be shown at the time of the original application.

Nottoway County Special Review Project Application

Please print in blue or black ink or typewrite. If not applicable, write N/A.

APPLICANT INFORMATION

Note: If applicant is not the property owner, an owner's authority letter must be submitted with application.

Applicant Name: K. Shawn and Katherine Haney

Address: 884 Inverness Road, Burkeville, VA 23922

Phone: 804-955-9371 **Fax:** _____

Email: k.shawn.haney@icloud.com

Property Owner Name: Same

Address: Same

Phone: _____ **Fax:** n.a. **Email:** n.a.

PROJECT INFORMATION

Location/Address of Property (directions from Nottoway County Administration Building) Approximately 9 miles from 344 West Courthouse Road to 884 Inverness Road.

Tax Map Number(s): 17-93

Magisterial District: Haytokah District **Election District:** 1

Size of Parcel(s): In acres Approximately 316+/- acres In sq. ft. 13,732,096

Amount of area to be utilized 13% or 40 acres.

Current Zoning: Conservation **Current Land Use:** Agricultural

Please describe the proposed project or purpose of the request. The Haney's are seeking a special exception for a solar development located on the northeast section of parcel #17-93 at the southwest intersection of Inverness Road and Lewiston Plank Road. The project site is approximately 40 acres and will produce an estimated 5 megawatts of power.

JUSTIFICATION FOR SPECIAL REVIEW PROJECT

The Planning Commission will review the request to determine conformance with the Comprehensive Plan. Please answer the following questions as thoroughly as possible. Attach additional paper if necessary.

Please explain how the project conforms to the general guidelines and policies contained in the Nottoway County Comprehensive Plan. Is there a specific reference to the proposed project in the Comprehensive Plan? If not, please explain why the project should be determined to be in conformance.

There are specific citations regarding solar development in the County. The first citation is found on page 92 in the 2023-2028 Comprehensive Plan Future Land Use Section, IV. Land Use – Section D - Special Considerations, Renewable Energy (including solar):

An emerging issue in Virginia, and especially in Southside Virginia, is the push for more renewable energy in general and solar-powered energy generation in particular. Localities throughout Southside Virginia have been working on ordinances to regulate how solar facilities can be developed, including how much land can be used for solar facilities and where. Nottoway County, like many rural localities in Southside Virginia, have large tracts of land that could be attractive to solar developers. Nottoway County has started work on adding a section governing renewable energy, wind, and solar, to its zoning ordinances. The new regulations would govern where large-scale facilities could be located. The Nottoway County Planning Commission should consider safe development of solar energy that minimizes impacts to land uses, properties, and the environment, especially for economic development purposes. The County should develop reasonable conditions for the development of renewable energy facilities that would protect the character of surrounding properties but not limit future development.

Recommendations – The Nottoway County Planning Commission and Nottoway County Board of Supervisors, through the adoption of this Comprehensive Plan, should state their commitment to agricultural and forestal land preservation objectives. Tools most commonly used to influence the timing and location of growth are zoning, subdivision standards, use value assessments and taxation, and public facility decisions. Other tools and programs available to agricultural and rural property owners who wish to take steps to preserve their land holdings generally involve a partnership between the landowner and a governmental agency. Land conservation tools such as conservation easements, Purchase of Development Rights programs, and other tax incentive programs may be used to encourage minimal development in these areas. There are agencies that provide these and other voluntary programs. These agencies change from year to year and may or may not have funding. They include:

- Piedmont Soil and Water Conservation District (serving Amelia, Nottoway, and Prince Edward Counties): <https://piedmontswcd.org/>
- Virginia Department of Forestry: <https://dof.virginia.gov/>
- Virginia Cooperative Extension, Nottoway County Office: <https://nottoway.ext.vt.edu>

Commercial and/or industrial developments that are approved in the rural portions of the County should be consistent with the best interests of the community. The County and Towns should investigate the use of the aforementioned easements and other preservation tools and be willing to provide information to property owners who wish to pursue a particular preservation strategy. As the County revises its zoning and subdivision ordinances, consideration should be given to including provisions to require and/or

allow for the use of cluster housing and other conservation design techniques. Another consideration for the County as it amends its ordinances is the addition of Agricultural/Forestral Districts. Under the Code of Virginia, Section 15.2-4301, Agricultural and Forestal Districts are meant to “conserve and protect and to encourage the development and improvement of the Commonwealth’s agricultural and forestal lands for the production of food and other agricultural and forestal products” and to “conserve and protect agricultural and forestal lands as valued natural and ecological resources which provide essential open spaces for clean air sheds, watershed protection, wildlife habitat, as well as for aesthetic purposes.” The County should support the activities of local land trusts and other environmental organizations in their efforts to voluntarily preserve critical agricultural and open spaces in the area. The County should also work closely with the appropriate government agencies to ensure that private timbering operations in the County are undertaken using approved techniques in an environmentally sensitive manner.

The second citation (Section G Renewable Energy (including Solar Facilities)- on page 97, states the following:

The Code of Virginia, Section 56.614, defines a renewable energy facility as “(i) an electrical generation facility that produces not more than 2 megawatts peak net power output to the distribution grid, which electricity is generated only from a renewable energy source; (ii) a steam reduction facility with a rated capacity of not more than 5,000 mmBtus per hour that produces steam only from a renewable energy source; or (iii) a solid waste management facility permitted by the Department of Environmental Quality from which landfill gas is transmitted or distributed off premises.”

Section 15.2-2316.6 of the Code defines a small renewable energy project as “(i) an electrical generation facility with a rated capacity not exceeding 150 megawatts that generates electricity only from sunlight or wind; (ii) an electrical generation facility with a rated capacity not exceeding 100 megawatts that generates electricity only from falling water, wave motion, tides, or geothermal power; (iii) an electrical generation facility with a rated capacity not exceeding 20 megawatts that generates electricity only from biomass, energy from waste, or municipal solid waste; (iv) an energy storage facility that uses electrochemical cells to convert chemical energy with a rated capacity not exceeding 150 megawatts; or (v) a hybrid project composed of an electrical generation facility that meets the parameters established in clause (i), (ii), or (iii) and an energy storage facility that meets the parameters established in clause (iv).” This section further defines an energy storage facility as “energy storage equipment or technology that is capable of absorbing energy, storing such energy for a period of time, and redelivering energy after it has been stored” and an energy storage project as “the energy storage facilities within the project site.” Section 15.2-2316.6 further defines solar facilities as “commercial solar photovoltaic (electric energy) generation facilities. ‘Solar facilities’ does not include any solar project that is (i) described in § 56-594, 56-594.01, 56-594.02, or 56-594.2, or (ii) five megawatts or less.”

The rural nature of Nottoway County and the existence of significant open space makes the County an attractive area for the location of solar facilities – and to a lesser degree, wind facilities. As Nottoway County finalizes its ordinances regulating renewable energy, the County should take care to balance the development of alternative energy production while protecting agriculture, forestry lands and watersheds that the County enjoys. This is especially the case given the recent push toward more solar and other alternative energy production across the State, and Southside Virginia in particular.

Section 15.2-2232 of the Code of Virginia requires that any proposed public utility facility, unless already shown in the adopted Comprehensive Plan, be reviewed by the Planning Commission to determine if it is “substantially in accord” with the Plan. Per 15.2-2232 Paragraph B, the Planning Commission has 60 days from the date of proposal submission – unless extended by the local governing

body (in this case, the Board of Supervisors) – to consider the proposed facility at a public meeting and recommend either approval or disapproval to the Board. The recommendation must include a written explanation of their action.

Per Paragraph B, Failure by the Planning Commission to act on the proposal within 60 days (unless that time is extended by the Board) “shall be deemed approval” of the proposed facility.

Recommendations – Nottoway County should consider safe development of solar and wind energy that minimizes impacts to land uses, adjacent properties, and the environment, particularly for economic development purposes. As the County amends its ordinances and policies to regulate renewable energy production within its borders, the County should set guidelines including (but not necessarily limited to) the following:

- Set a limit for total kilowatt production in Nottoway County via solar facilities that is no higher than a level equal to the total kilowatts used in Nottoway County by all sources.
- Set guidelines/restrictions on where (what zoning districts) renewable energy facilities and battery storage facilities will be allowed.
- Set minimum and maximum lots sizes for utility-scale solar facilities, and set the maximum size as contiguous, and limit the percentage of the property which can be covered with solar panels.
- Set requirements for setbacks.
- Require that facilities, including fencing, be significantly screened from the ground-level view of adjacent properties by a set buffer zone consisting of natural vegetation and landforms and/or be landscaped.
- Set limits on what percentage of prime agricultural soil, as identified by the U.S. Department of Agriculture, Natural Resource Conservation Service, a parcel with a solar facility may include.
- Require pollinator habitats and a minimum amount of open space, including wildlife corridors, and other natural features.
 - Set a minimum distance that facilities can be located from designated conservation areas, natural corridors, environmentally sensitive areas (including forest resources), scenic viewsheds, recreational areas, historical or cultural areas, and sensitive water bodies like scenic rivers or public water source reservoirs.
- Set a minimum distance that facilities to be located from town boundaries, designated growth areas, community hubs, or commercial or military airports.
- Require that a facility be located within close proximity of an electric transmission line, and any tie lines be located and buffered to block visibility from highways.
- Set a minimum distance that a facility may be located from other existing or permitted solar facilities.
- Require that facilities avoid areas of Forest Conservation Values or Ecological Cores rated high to out standing as defined by Conserve Virginia.
- Require the developer to coordinate with VDOT to help ensure that heavy truck traffic using area roads during construction does not damage road surfaces or create unsafe traffic conditions.
- Set standards regarding herbicide use.
- Set height restrictions for buildings and equipment, lighting restrictions, noise restrictions.
- Set standards for battery energy storage systems that would be located in the facility.
- Set a timeline for construction based on a set amount of time from the date of the issuance of all required approvals/permits.
- Establish application procedures for solar developers to include the following:
 - o Pre-application meeting with appropriate county staff.

- o Community meeting for the developer (prior to application) to inform the public and take questions from citizens.
- o Requirements for application forms and fees to include, but not necessarily be limited to:
 - Project narrative
 - Site plan that will include, but not necessarily be limited to:
 - Construction plans
 - Assessment of environmental, wildlife, and cultural impacts
 - Impacts on traffic and how those impacts will be addressed
 - Landscaping and screening plan
 - Erosion and sediment control plan
 - Stormwater management plan
 - Decommissioning and reclamation plan
 - Proof of liability insurance
 - Any other information deemed relevant for the approval process.
 - Additionally, the County should work with a consultant as needed to identify, catalogue, and map relevant features, including:
 - Major electrical facilities (i.e., transmission lines, transfer stations, generation facilities, etc.).
 - Brownfield sites and locally-owned capped landfills.
 - Prime Farmland including areas of prime farmland or farmlands of statewide importance as defined by the USDA and Commonwealth of Virginia.

This Comprehensive Plan section has been incorporated into the Solar Ordinance.

The third citation begins on page 122 (J. Utilities), which states:

GOAL: Provide for and regulate the siting, development, construction, installation, operation, and decommissioning of renewable energy and battery storage facilities in the County in a manner that promotes economic development and the safe, effective, and efficient use of such facilities while protecting the health, safety, and welfare of the community and avoiding adverse impacts on the County's resources.

Objective 1: Encourage renewable energy production and equipment storage facilities in areas of the County that promote the development of renewable energy sources while limiting impacts on natural resources and existing agricultural, forestal, residential, commercial, industrial, historical, cultural, and recreational uses of property or the future development of such uses.

Strategy 1: Set a limit for total kilowatt production in Nottoway County via solar facilities that is no higher than a level equal to the total kilowatts used in Nottoway County by all source.

Strategy 2: Set guidelines on where (in what zoning districts) renewable energy facilities will be allowed.

Strategy 3: Set lot size and setback requirements, and restrictions on building and equipment height, lighting, fencing, and noise.

Strategy 4: Establish buffer areas to keep facilities from encroaching on town boundaries, designated growth areas, community hubs, commercial or military airports, and environmentally sensitive areas.

Strategy 5: Establish buffer areas and set distance requirements to protect designated conservation areas, natural corridors, scenic viewsheds, recreational areas, historical or cultural areas, scenic

rivers or public water source reservoirs, ecological cores, and other sensitive areas from renewable energy facilities.

Strategy 6: Set standards regarding herbicide use, pollinator habitat, open space/wildlife corridors and guidelines for battery storage facilities.

Strategy 7: Set limits on percentage of prime agricultural soil that may be included in a parcel with a solar facility.

Strategy 8: Set guidelines on how far a facility may be located from an electric transmission line or other renewable energy facilities

Strategy 9: Set standards/guidelines in the County ordinance for the Planning Commission to review proposed facilities and make recommendations to the Board of Supervisors, in accordance with Section 15.2-2232 of the Code of Virginia.

Strategy 10: Establish application procedures for the submittal and review of proposed facilities, and procedures for approved facilities including a timeline for construction.

Strategy 11: Require the developer to coordinate with VDOT to ensure that heavy truck traffic using area roads during construction does not damage road surfaces or create unsafe traffic conditions.

Strategy 12: Require the developer of a proposed facility to include a decommissioning plan with their proposal that outlines procedures for the removal of all equipment from the site, and restoration of the site to its pre-development state (to the extent possible), once the facility has reached the end of its useful life or if the facility is determined to be abandoned.

Like the previous citation, this particular Goal and its Strategies have been incorporated into the Solar Ordinance, ensuring that certain safeguards are built into the Ordinance to mitigate the environmental and ecological impacts that may be caused by solar development (prime ag soils, wetlands, floodplains, Protected, Endangered, and Threatened Species) without utilizing Best Management Practices, where applicable.

Based on the citations found in the 2023-2028 Comprehensive Plan, this proposal does reflect the goals of the adopted Plan.

CERTIFICATION

I hereby certify that this application is complete and accurate to the best of my knowledge, and I authorize County representatives' entry onto the property for purposes of reviewing this request.

NOTTOWAY COUNTY PUBLIC LIBRARY
Board of Trustees Meeting
August 20, 2025

ATTENDANCE: Library Director: Jackie Zataweski,
Members: Susan Nash, Becky Sones, Carolyn Leslie

Absent: Shelia Harper, Verna Rhoades, Jackie August

Call to Order: was made by Susan Nash

A motion to approve the **Agenda, Consent Agenda,**
including the **Minutes** of June 4, 2025, and **Bills for**
Approval was made by Carolyn Leslie and was approved.

Statistical Report: None

Financial Reports: A discussion of two
financial reports was made while waiting for
verification from the county.

Communications: Received notice of an anonymous
donation of \$1,000 made to DPIL

Citizen Comments: None

Report of the Library Director

Blackstone Library: Got a new faucet installed.
Discussions were made with Philip to get better
signage for the library.

Burkeville Library: Waiting for an electrician to wire
the handicap door openers.

Crewe Library: Received an AED. Will temporarily (about a year) be getting 12-14 railroad paintings to display from an artist previously from Crewe.

Programs: Melissa will have a SHARK CUTERIE program during August.

Literacy Program Report: The Catholic Church has changed their ESL classes to Thursday nights beginning this week.

Committee Reports: None

New Business: None

Unfinished Business:

Strategic Plan: A motion was made by Becky Sones to approve and submit Nottoway County Public Library Goals 2025-2030 without Goal Number Four : Literacy at this time. The motion was passed.

Credit Card: Still working on the details.

Items Not on the Agenda: None

Adjournment: Susan Nash adjourned the meeting.

Next Meeting: September 17, 2025

Blackstone Library 10:30

Submitted by,

Becky Sones

Library System Monthly Report

To: Members of the Nottoway County Library Board
From: Jacqueline Zataweski, Public Library System Director
Date: September, 2025

The following summarizes the activities and projects that have taken place since I provided a report for the August meeting.

- Following the start of the new school year, I met with Kenston Forest's new librarian and discussed holding library card sign-ups and (possibly) a Literacy Night event.

I also met with Alicia Hilliard, the new high school librarian to discuss possible programs for VoTech students and programs to (potentially) be held during club times. The first VoTech program took place September 3 and the first club meeting is scheduled for October 17.

Since Alicia had been at NIS, that school is currently without a librarian and I met with the Library Aide who is now in charge. I provided her with information about possible STEM activities and plan to return occasionally with outreach programs.

I also received a request from Robin Sapp to provide a program each month during the school year for the 21st Century program. The first of these took place September 10.

- On September 4, I attended the quarterly regional library directors' meeting. The next one will be held virtually in December. Highlights from the LVA report:
 - Bibliostat report access will begin in October
 - State Aid estimate will be coming this month
 - Replacement backpacks are available; new parking passes coming
 - Reminder: Directors meeting October 1 (9-4:30)
- The FY26 State Aid budget has been submitted to the LVA.
- On September 9, I met with the owner of Zack McKinney technology regarding the desired update of network components. I also had a virtual meeting with the company that did the previous update; the information from INW and these two companies will be combined to determine what equipment should be included on the Form 470.
- I have learned the amount of the forthcoming budget adjustment and am working on a revision of the budget based on the new total.

- No further progress has been made with the Sustainable Libraries Certification; we are still 69% of the way through the program with three sections to go before the final presentation.
- Several referrals for Community service (for adults) have been received - more than can be accommodated. I will be reaching out to the caseworkers to make them aware of this.
- I have reviewed the Document Retention, Health Emergency, and Telecommuting Policies and saw nothing that needs updating at this time. I also reviewed the Administrative/Operating Policy; several suggested (minor) updates follow.
- Inventory continues in Crewe and Blackstone.

In addition to the above, the usual tasks regarding deposits and invoices, staff schedules and payroll were completed, as were promotional activities such as creating social media posts, newsletters, calendars, and other printed materials. I have also continued working to ensure that the library's website will be ADA compliant before the deadline.

Acting as the primary contact for the Imagination Library, I continue to confirm addresses of and approve new registrants. As of September 11, there are 277 participants and 168 children have "graduated".

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *gz*

SUBJECT: Planning and Economic Development Monthly Update – August 2025

DATE: September 11, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances, notably division and property complaints. Please note that these discussions may consist of follow-up via email or phone at least four times or more after the initial meeting and before applying for a special exception, subdivision, or rezoning. Planning Commission met on August 19th to hear a Special Project Review (§15.2-2232). It denied the request as it relates to the conformity of a solar project on Shawn Haney's property in Burkeville contrasted with the Comprehensive plan discussion of Solar. The reasons for denial of the request were the historic elements of the 316 acre farm and the setback reduction request.
2. Inverness Farms' special exception request for a solar facility on 40 acres, producing five MW, was denied for essentially the same reasons identified in the 15.2-2232 review.
3. The applicant has appealed the 2232 denial to the BOS, which will be heard on September 18th, 2025.
4. The Burke Junction solar facility request will be heard by the PC on September 16th. The proposal will generate approximately three MW on thirty acres on a 121 acre site.
5. The PC continued the discussion of the Airport Zoning District and the updated Airport Safety Overlay District at Pickett Park until September 16th.

Economic Development

1. Attended WPPDC East VATI Management Team Zoom Meeting held on August 5th.
2. Met with Dominion Energy representative for a check-in meeting on August 7th.
3. LoopNet Summary is attached for August.
4. Met with TMobile staff to discuss their business services on August 8th.
5. Due to surgery in the middle of the month, I was prevented from participating in many activities in the latter half of the month.

EMERGENCY SERVICES COORDINATOR'S REPORT

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr.

DATE: September 11, 2025

SUBJECT: September Report

The following activities and projects are provided in this summary of work by the Department of Emergency Services since my last report on August 14th before your monthly Board of Supervisors meeting on August 21, 2025. Many of these activities listed below were performed in collaboration with other staff members and external stakeholders. This report is being submitted outside of the monthly BOS meeting package due to me being on family vacation for the week when the meeting binders were being assembled.

The current emergency services related projects and activities that I have worked on and represented the county include, but are not limited to, the following:

- Participated in a virtual meeting with JVCKenwood and CTA about the county radio communications system project on August 15th.
- Served as an interviewer on a three-person panel at NCSO on August 18th to hire a director of the Emergency Communications Center (ECC).
- Attended the Blackstone Town Council meeting on the evening of August 28th to be available for questions on the radio tower at the Blackstone PD parking lot.
- Attended the regular BOS meeting on August 21st and presented monthly report.
- Participated in a planning meeting for a helicopter mishap exercise in the training area of Fort Pickett on August 22nd.

- Facilitated a meeting at the EOC with the Commonwealth Radio Interoperability Coordinator from Richmond and three subject matter experts that attended with him to receive a briefing on our Nottoway County public safety radio communications system. The meeting was helpful in finding out about new developments around the state with interoperability and we discussed ways to expand our coverage footprint with our mutual aid neighbors.
- Coordinated a volunteer recruitment photo shoot including all fire & EMS agencies in the county on August 23rd at the Nottoway High School parking lot. Carl Bassfield of Blackstone was the photographer at no cost, and we are using the photographs on social media, websites, and vinyl banners to display with countywide recruitment messages.
- Participated in a school safety planning meeting at Nottoway High School on August 25th. NCPS administration, NCSO, fire, & EMS were in attendance to discuss school threats and off-site locations for reunification of students with parents.
- Coordinated field visits between an Insurance Services Office (ISO) representative and fire departments, public works departments, and the county emergency communications center on August 27, 28, & Sept. 8 to conduct a survey of our fire protection across the county. This is a survey that evaluates the local rating for insurance companies and the last one performed in Nottoway was in 2016, which is scheduled by ISO.
- Attended a GIS mapping virtual meeting on August 28th to update some of the layers that we have been working on for use in emergency dispatching and response.
- Coordinated a Critical Incident Stress Debriefing (CISD) at Burkeville Fire Station on August 28th for EMS crews to participate in due to a recent pediatric cardiac arrest.
- Attended a virtual meeting on August 29th with our account representative for RapidSOS and IamResponding to discuss improvements we can make to our software platform that is used on every emergency call notification.
- Took the county hazardous materials response truck to a local shop for state inspection on September 3rd.
- Attended a virtual meeting with Blackstone Army Airfield Operations staff on September 5th to discuss pre-positioned landing zones on the military base and in the FASTC campus.
- Facilitated a quarterly meeting of safety/emergency coordinators from the three state facilities in Crewe to share information updates and review the emergency plans for each facility. The meeting was held at Pediatric Geriatric Hospital conference room on August 8th.
- Participated in the opening night for a new EMT class at Victoria EMS Station on August 9th and will occasionally instruct a few classes along with another Nottoway instructor. There are at least 4 students from Nottoway County enrolled in the class.
- Attended a gas pipeline emergency refresher class presented by Paradigm and Columbia Gas Company on September 10th.
- Attended the "go-live" process for the Total Response Emergency Medical Dispatch software at the emergency communications center on September 11th.
- Participated in a virtual radio project review meeting with CTA on September 11th.

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 18TH DAY OF SEPTEMBER IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR

RESOLUTION

A RESOLUTION OF THE NOTTOWAY COUNTY BOARD OF SUPERVISORS APPROVING OF THE COUNTY'S PARTICIPATION IN THE PROPOSED SETTLEMENTS OF OPIOID-RELATED CLAIMS AGAINST ALVOGEN, AMNEAL, APOTEX, HIKMA, INDIVIOR, MYLAN, SUN, AND ZYDUS, AND DIRECTING THE COUNTY ATTORNEY AND/OR THE COUNTY'S OUTSIDE COUNSEL TO EXECUTE THE DOCUMENTS NECESSARY TO EFFECTUATE THE COUNTY'S PARTICIPATION IN THE SETTLEMENTS

WHEREAS, the opioid epidemic that has cost thousands of human lives across the country also impacts the Commonwealth of Virginia and its counties and cities, including the County of Nottoway by adversely impacting the delivery of emergency medical, law enforcement, criminal justice, mental health and substance abuse services, and other services by Nottoway's various departments and agencies; and

WHEREAS, the Commonwealth of Virginia and its counties and cities, including Nottoway County have been required and will continue to be required to allocate substantial taxpayer dollars, resources, staff energy and time to address the damage the opioid epidemic has caused and continues to cause the citizens of the Commonwealth and Nottoway County; and

WHEREAS, settlement proposals have been negotiated that will cause the opioid manufacturers Alvogen, Amneal, Apotex, Hikma, Indivior, Mylan, Sun, and Zydus (collectively, "the Manufacturers") to pay an aggregate of approximately \$720 million dollars nationwide to resolve opioid-related claims against them; and

WHEREAS, the County has approved and adopted the Virginia Opioid Abatement Fund and Settlement Allocation Memorandum of Understanding (the "Virginia MOU"), and affirms that each of the pending settlements with the Manufacturers shall be considered a "Settlement" that is subject to the Virginia MOU, and shall be administered and allocated in the same manner as the opioid settlements entered into previously with opioid distributors McKesson, Cardinal Health, and AmerisourceBergen, opioid manufacturers Janssen Pharmaceuticals, Teva Pharmaceuticals, and Allergan, and retail pharmacy chains CVS, Walgreens, Walmart, and Kroger;

WHEREAS, the County Attorney has reviewed the available information about the proposed settlements with the Manufacturers and has recommended that the County participate in the settlements in order to recover its share of the funds that the settlements would provide;

NOW THEREFORE BE IT RESOLVED that the Nottoway County Board of Supervisors, this 18th day of September, 2025, approves of the County's participation in the proposed settlements of opioid-related claims against the Manufacturers, and directs the County Attorney and/or the County's outside counsel to execute the documents necessary to effectuate the County's participation in the settlements, including the required release of claims against the Manufacturers.

Approved this 18th day of September 2025.

CERTIFICATION OF ADOPTION OF RESOLUTION

The undersigned Clerk of the Board of Supervisors of the County of Nottoway, Virginia hereby certifies that the Resolution set forth above was adopted during an open meeting on September 18, 2025, by the Board of Supervisors with the following votes:

Aye: Collins, Norton, Ingram, Roark, Toth
Nay: N/A
Abstentions: N/A

Signed this 18th day of September 2025.

Steve W. Bowen, Clerk

National Opioids Settlements: Alvogen, Amneal, Apotex, Hikma, Indivior, Mylan, Sun, Zydus
Opioids Implementation Administrator
opioidsparticipation@rubris.com

York County, VA
Rubris Reference Number: CL-1768503

**TO LOCAL POLITICAL SUBDIVISIONS AND SPECIAL DISTRICTS:
THIS NOTICE CONTAINS IMPORTANT INFORMATION ABOUT NATIONAL OPIOID
SETTLEMENTS.**

SETTLEMENT OVERVIEW

Proposed nationwide settlement agreements (“Settlements”) have been reached that would resolve opioid litigation brought by states, local political subdivisions, and special districts against eight opioids manufacturers, Alvogen, Amneal, Apotex, Hikma, Indivior, Mylan, Sun, and Zydus (the “Manufacturers”). Local political subdivisions and special districts are referred to as “subdivisions.”

The Settlements require the settling Manufacturers to pay hundreds of millions of dollars to abate the opioid epidemic. The Settlements will provide a maximum of approximately \$720 million in cash to participating states and subdivisions to remediate and abate the impacts of the opioid crisis. Depending on participation by states and subdivisions, the Settlements require:

- Alvogen to immediately pay up to approximately \$19 million;
- Amneal to pay up to approximately \$74 million over 10 years, and to provide either approximately \$177 million of its generic version of the drug Narcan or up to an additional approximately \$44 million in cash;
- Apotex to immediately pay up to approximately \$65 million;
- Hikma to immediately pay up to approximately \$98 million, and to provide either approximately \$35 million of its naloxone product or up to an additional approximately \$7 million in cash;
- Indivior to pay up to approximately \$75 million over five years, a portion of which, at the election of the state, could be paid in the form of Indivior’s branded buprenorphine and/or nalmefene products with a value of up to \$140 million.;
- Mylan to pay up to approximately \$290 million over nine years;
- Sun to immediately pay up to approximately \$32 million; and
- Zydus to immediately pay up to approximately \$15 million.

The Settlements also contain injunctive relief governing opioid marketing, sale, distribution, and/or distribution practices and require the Manufacturers to implement safeguards to prevent diversion of prescription opioids.

Each of the proposed settlements has two key participation steps.

First, each eligible state decides whether to participate in each Settlement. A list of participating states for each settlement can be found at <https://nationalopioidsettlement.com/>.

Second, eligible subdivisions within each participating state decide whether to participate in each Settlement. The more subdivisions that participate, the more funds flow to that state and its subdivisions. Any subdivision that does not participate cannot directly share in any of the settlement funds, even if the subdivision’s state is settling and other participating subdivisions are sharing in settlement funds. If the state does not participate in a particular Settlement, the subdivisions in that state are not eligible to participate in that Settlement.

WHO IS RUBRIS INC. AND WHAT IS THE IMPLEMENTATION ADMINISTRATOR?

The Settlements provide that an Implementation Administrator will provide notice and manage the collection of participation forms. Rubris Inc. is the Implementation Administrator for these new Settlements and was also retained for the prior national opioid settlements.

WHY IS YOUR SUBDIVISION RECEIVING THIS NOTICE?

Your state has elected to participate in one or more of the Settlements, and your subdivision may participate in those Settlements in which your state has elected to participate. This notice is also sent directly to counsel for such subdivisions if the Implementation Administrator has their information.

If you are represented by an attorney with respect to opioid claims, please contact them.
Subdivisions can participate in the Settlements whether or not they filed a lawsuit or are represented.

WHERE CAN YOU FIND MORE INFORMATION?

Detailed information about the Settlements, including each settlement agreement, may be found at: <https://nationalopioidsettlement.com>. This website also includes information about how the Settlements are being implemented in most states and how funds will be allocated within your state.

You are encouraged to review the settlement agreement terms and discuss the terms and benefits with your counsel, your Attorney General's Office, and other contacts within your state. Information and documents regarding the Settlements and your state allocation can be found on the settlement website at <https://nationalopioidsettlement.com/>.

Your subdivision will need to decide whether to participate in the proposed Settlements, and subdivisions are encouraged to work through this process before the **October 8, 2025** deadline.

HOW DO YOU PARTICIPATE IN THE SETTLEMENTS?

The Settlements require that you take affirmative steps to "opt in" to the Settlements.

In the next few weeks, you will receive documentation and instructions from the Implementation Administrator or, in some cases, your Attorney General's Office. In order to participate in a settlement, a subdivision must sign and return the required Participation Form for that settlement.

Please add the following email addresses to your "safe" list so emails do not go to spam / junk folders: dse_na3@docusign.net and opioidsparticipation@rubris.com. Please monitor your email for the Participation Forms and instructions.

All required documentation must be signed and returned on or before **October 8, 2025**.

Andrea Kelly

Subject: Southside Electric Tower

Importance: High

Good afternoon Steve,

Our team spoke with Southside Electric personnel, yesterday afternoon, and have the following update:

1. Expecting to receive a draft lease, for review, on Friday, after their Board approves the lease on Thursday evening.
2. We are told the lease amount will be \$4,000 **annually** (\$333.33 per month) and they arrived at this amount to be consistent with what they are charging other **localities**. If you do not believe this to be a fair amount, the Board meeting on Thursday will be the time to affect a change.
3. They will expect the County to remediate the tower, and the current estimate is \$71,946.88.
4. They will expediate the necessary NTP once a lease is executed.

Kind regards,

Cheryl S. Giggetts

LICENSE AGREEMENT
ATC Contract No: _____

This LICENSE AGREEMENT ("**Agreement**") is entered into as of the latter signature date hereof ("**Effective Date**") by and between American Towers LLC, a Delaware limited liability company, with a place of business at 10 Presidential Way, Woburn, MA 01801 ("**Licensor**") and County of Nottoway, a political subdivision of the Commonwealth of Virginia, with a place of business at ("**Licensee**").

I. TOWER FACILITY INFORMATION:

Site Name: Blackstone VA

Site Number: 202599

Address and/or location of Tower Facility: 2092 Old Shore Rd., Blackstone, Virginia 23824

Tower Facility Coordinates: Lat. 37° 10' 14.35" N 37.17065277 Long. 77° 57' 16.87" W-77.95468611

II. NOTICE & EMERGENCY CONTACTS:

- Licensee's local emergency contact (name, email, and number): _____.
- Licensor's local emergency contact: Network Operations Communications Center (800) 830-6937.
- Notices to Licensee shall be sent to Licensee's address above to the attention of _____.
- Notices to Licensor shall be sent to Licensor's address above to the attention of Contracts Manager.
- Licensor's Remittance Address and ACH/Wire: American Towers LLC, 29637 Network Place, Chicago, IL 60673-1296; ABA Routing #: 021000021, Account #: 227723662; all payments shall include a reference to the Site Name and Site Number as identified above in Section I.

III. PERMITTED USE OF TOWER FACILITY BY LICENSEE:

Transmitting and Receiving frequencies: See Exhibit A for specific frequencies.

Antenna mount height on tower: See Exhibit A for specific location.

All other permitted uses of the Tower Facility including Licensee's Approved Equipment, and the Licensed Space are further described in Section 4 of this Agreement and Exhibits A and B attached hereto.

IV. TERM & FEES:

Initial Term: A period of fourteen (14) years beginning on the Commencement Date. The "**Commencement Date**" shall be the earlier of: (i) the date of Licensor's issuance of a NTP or (ii) November 1, 2025.

Renewal Terms: Three (3) additional periods of five (5) years each.

Monthly License Fee: One Thousand and 00/100 Dollars (\$1,000.00), increased by the Annual Escalator on the first anniversary of the Commencement Date of this Agreement and each anniversary of the Commencement Date thereafter during the Term (as defined in Appendix I).

Annual Escalator: Three percent (3%).

Initial Application Collocation Fee: The Parties agree that Licensee shall pay to Licensor a one-time non-refundable fee in the amount of Two Thousand and 00/100 Dollars (\$2,000.00) (the "**Collocation Fee**"), payable concurrent with the submission of the initial Application. The Collocation Fee is a negotiated rate associated with Licensee's initial Application and is inclusive of the Application Fee, Site Inspection Fee, SSIS Fee (if applicable), and Structural Analysis Fee. For the avoidance of doubt, any design modifications to the Approved Equipment, whether prior to the initial installation of Licensee's Approved Equipment or subsequent modifications thereto, may result in charges for an additional Application Fee, Site Inspection Fee, SSIS Fee, or Structural Analysis Fee, at the rates defined above, as applicable for each design change.

The following fees are one-time non-refundable fees that Licensee shall pay on a per Application basis to Licensor, for each subsequent Application or each modification to an Application:

☒ Application Fee: One Thousand and 00/100 Dollars (\$1,000.00) per Application, increased annually on each anniversary of the Commencement Date of this Agreement by the Annual Escalator. The Application Fee becomes due and payable upon submission of Licensee's initial Application and any other Applications submitted or modified pursuant to Section 10. The Application Fee is nonrefundable and is earned in full by Licensor upon receipt of such Application (all references to "**Application**" made herein are to the then-current application form issued by Licensor).

☒ Site Inspection Fee: One Thousand Five Hundred and 00/100 Dollars (\$1,500.00), per Application, increased annually on each anniversary of the Commencement Date of this Agreement by the Annual Escalator. Licensee shall pay the Site Inspection Fee pursuant to the terms of Section 8.

☒ Structural Analysis Fee: Licensee shall pay the Structural Analysis Fee pursuant to the terms of Section 10(c).

Electricity for operation of Approved Equipment is to be provided by (check one):

- ☐ Licensor, with the cost of such electricity to be paid by Licensee at the initial rate of \$N/A per month ("**Utility Fee**") subject to adjustment pursuant to Subsection 5(b), OR
☒ Licensee, at its sole expense.

V. TERMS & CONDITIONS:

The attached terms and conditions are incorporated herein by this reference.

VI. OTHER PROVISIONS:

Other provisions: (check one): ☐ None ☒ As listed below

A. **PCN/PCN Retention Fee/Cross-Default.** Licensee, an Affiliate of Licensee or any entity or individual acting on behalf Licensee or an Affiliate of Licensee shall only issue Prior Coordination Notices ("**PCNs**") for the Permitted Frequencies set forth in Exhibit A and shall not issue PCNs for any other frequencies at this Tower Facility or at any other tower facility owned and/or operated by Licensor unless Licensee has submitted an Application for use of the subject frequencies to Licensor for which a partially executed License Agreement shall be signed by Licensee and returned to Licensor within sixty (60) days of the submittal of the Application. Licensee shall withdraw PCNs filed for any frequencies which are not licensed to Licensee by Licensor, no more than ten (10) days from the date of Licensee's withdrawal of an Application or Licensor's election to not process a Licensee-submitted Application. Failure to comply with the terms of this Subsection A shall constitute an event of default pursuant to Section 21 hereof (a "**PCN Default**") for which the cure period is set forth in Section 21. In the event Licensee fails to cure a PCN Default within the cure period set forth in Section 21, then, in addition to all other obligations of Licensee under this Agreement, Licensee shall pay Licensor Twenty Five Thousand and 00/100 Dollars (\$25,000.00) per month as liquidated damages for each tower facility wherein Licensee maintains an active PCN in breach of this Subsection A ("**PCN Retention Fee**").

B. In no event shall Licensee's use of the Tower Facility, or operation of any of its equipment thereon, be conducted in a manner that interferes with Licensor's lighting system located on any of the towers, building systems, or, in the event that Licensee's equipment is installed on the rooftop of a building, with equipment of any kind used by building tenants who are not tenants of Licensor. In the event that such interference does occur, Licensee shall be solely responsible to reimburse Licensor for any and all costs required to modify and/or upgrade Licensor's lighting system, to comply with all necessary FAA/FCC regulations, as a result of said interference.

TERMS AND CONDITIONS

1. DEFINITIONS.

Capitalized terms defined in the body of this Agreement are indexed by location in Appendix I attached hereto. Capitalized terms used in Agreement but not defined herein are defined in Appendix I.

2. GRANT OF LICENSE.

Subject to the terms of this Agreement, Licensor hereby grants Licensee a non-exclusive license to install, maintain and operate the Approved Equipment at the Licensed Space. All Approved Equipment shall be and remain Licensee's personal property throughout the Term of this Agreement. Licensor shall maintain the Tower Facility in good order and repair, wear and tear, damage by fire, the elements or other casualty excepted. In no event shall Licensee's license as granted herein include rights to use the air space above the Approved Equipment, and Licensor reserves the right to install, construct and/or operate additional improvements or equipment of Licensor or others above Licensee's Approved Equipment, provided that such additional improvements or equipment do not materially and adversely interfere with the access to or operation of the Approved Equipment. Subject to any limitations contained in the Ground Lease, Licensor grants Licensee a right of access to the Tower Facility twenty-four (24) hours per day, seven (7) days per week during the Term. Licensor grants Licensee a designated location for the installation of Licensee's utilities over, under or across the Tower Facility (collectively, "**Easement**"). Licensee shall be responsible for any and all Damage or loss that results from the installation of any cables or utility wires by Licensee or any company or person retained by Licensee (including a public utility company), including, without limitation, any damage or loss that results from the accidental cutting of utility wires or cables of any other party operating at the Tower Facility. Licensor shall provide Licensee with one set of keys and/or codes to access the Tower Facility. Licensee shall be responsible for ensuring that Licensor has, at all times, a complete and accurate written list of all employees and agents of Licensee who have been provided the keys or access codes to the Tower Facility. Licensor shall have the right to continue to occupy the Tower Facility and to grant rights to others to the Tower Facility in its sole discretion. Licensee shall have no property rights or interest in the Tower Facility or the Easement by virtue of this Agreement. If Licensor's right to license space on the Tower Facility to Licensee is subject to a right of first refusal for the benefit of a third party and if such third party exercises its right of first refusal prior to the Commencement Date, Licensor may terminate this Agreement upon written notice to Licensee.

3. EXHIBITS.

Within forty-five (45) days following the Commencement Date, Licensee shall provide Licensor with construction drawings showing the Approved Equipment to be installed in both hard copy and electronic form ("**Construction Drawings**"); such Construction Drawings shall include the location of any shelters, cabinets, grounding rings, cables, and utility lines associated with Licensee's use of the Tower Facility. Upon receipt, Licensor shall attach the Construction Drawings as Exhibit C hereto. Within forty-five (45) days following the Licensee's system becoming operational, Licensee shall provide Licensor with redlined As-built Drawings showing any changes to the Approved Equipment installed in both hard copy and electronic form ("**As-Built Drawings**"). The Parties shall enter into an amendment to this Agreement to memorialize any changes to the Approved Equipment as shown in the As Built Drawings. In the event that Licensee fails to deliver the Construction Drawings or As-Built Drawings as required by this Section, Licensor may cause such Construction Drawings to be prepared on behalf of Licensee and Licensor shall assess a fee for such Construction Drawings in an amount equal to one hundred twenty percent (120%) of the actual cost of obtaining the Construction Drawings including in-house labor, which upon invoicing shall become immediately due and payable by Licensee. In the event of inconsistency or discrepancy between (a) Exhibit A and Exhibit B hereto, Exhibit A shall govern, and (b) between Exhibit A (with respect to Approved Equipment and antenna locations) together with Exhibit B (with respect to Ground Space installation locations) and Exhibit C hereto, Exhibits A and B shall govern, notwithstanding any approval or signature by Licensor or its agents. Licensee hereby acknowledges and agrees that installation of the Approved Equipment must be in strict accordance with the approved Construction Drawings and Exhibits A and B. Notwithstanding the foregoing, Licensee shall not infer nor shall acceptance of the Construction

Drawings by Licensor be deemed to be a representation by Licensor that (i) such Construction Drawings or the plans and specifications described therein are in compliance with federal, state or local laws, ordinances, rules or regulations, (ii) that such installation shall not cause impermissible or unlawful interference, or (iii) that such installation is consistent with Licensee's permitted installation as specifically set forth in Exhibits A and B hereto.

4. USE.

Subject to the terms of any Ground Lease, Licensee shall be permitted the non-exclusive right to install, maintain, operate, service, modify and/or replace its Approved Equipment at the Licensed Space, which Approved Equipment shall be utilized for the transmission and reception of wireless voice and data communications signals (such transmission and reception to be solely within the Permitted Frequencies, and, if the Permitted Frequencies include licensed spectrum, within the spectrum licensed to Licensee by the FCC). If as of the Effective Date, Licensee's wireless business consists of a one-way network which requires only that signals be transmitted from the Tower Facility, then notwithstanding the foregoing sentence, Licensee's use of the Tower Facility under this Agreement shall be limited to the transmission of wireless voice and data communications signals from the Tower Facility. Licensee's permitted use with respect to the Licensed Space shall be limited solely to that enumerated in this Section, and, except pursuant to a separate agreement with Licensor, no person or entity other than Licensee shall have the right to install, maintain or operate its equipment or transmit or receive communications at, or otherwise use, the Licensed Space.

5. LICENSE FEES; TAXES; ASSESSMENTS.

(a) **Monthly License Fee.** The Monthly License Fee as adjusted by the Annual Escalator, shall be payable in advance on the first day of each calendar month during the Term beginning upon the Commencement Date. If the Commencement Date is not the first day of a calendar month, the Monthly License Fee for any partial month shall be prorated on a daily basis.

(b) **Utilities.**

(i) All utility services installed on the Tower Facility for the use or benefit of Licensee shall be made at the sole cost and expense of Licensee and shall be separately metered from Licensor's utilities. Licensee shall be solely responsible for extending utilities to the Tower Facility as necessary for the operation of the Approved Equipment and for the payment of utility charges including connection charges and security deposits incurred by Licensee. Licensee shall obtain and pay the cost of telephone connections, the installation of which shall be in compliance with the procedures for installation and maintenance of Approved Equipment set forth herein.

(ii) **Interruptions in Service.** Licensor shall not be liable in any respect for damages to either person or property nor shall Licensee be relieved from fulfilling any covenant or agreement hereof as a result of any temporary or permanent interruption of electrical service or of any common heating, ventilation and air conditioning system to the extent provided by Licensor. Licensor shall use reasonable diligence to restore any interruption as promptly as practicable to the extent that Licensor can reasonably effect such restoration, but Licensee shall have no claim for damages, consequential or otherwise, on account of any interruption. Licensor has no obligation or responsibility to provide emergency or "backup" power to Licensee.

(c) **Taxes.**

(i) **Property Taxes.** Licensee shall be responsible for the reporting and payment when due of any tax directly related to Licensee's ownership or operation of the Approved Equipment and such reporting and payment shall be made directly to the appropriate tax authorities. . Licensee shall reimburse Licensor in full for any taxes assessed against Licensor but attributed to the Approved Equipment within thirty (30) days of Licensor's request for such reimbursement.

Licensor shall pay all property taxes directly assessed against Licensor's property or for which Licensor is obligated to pay under the Ground Lease, provided however, Licensee shall reimburse Licensee's pro rata share of such taxes. Licensee's pro rata share shall be determined by dividing such taxes evenly among all users Licensors as permitted to utilize any portion of the Tower Facility. Licensee shall reimburse Licensor for such taxes within thirty (30) days of Licensor's request for such reimbursement.

(ii) **Sales; Use and Other Taxes.** Licensor shall be responsible for billing, collecting, reporting, and remitting sales, use and other taxes directly related to any Monthly License Fee or other payments received pursuant to this Agreement. Licensee shall be responsible for reimbursing Licensor for all such sales, use and other taxes billed related to any payments received pursuant to this Agreement. Licensor shall add to the Monthly License Fee or any other payment then due and payable any associated sales, use or other tax, which shall be paid by Licensee at the same time and in the same manner as the Monthly License Fee or other payment due and payable under this Agreement.

(d) **Federal Use Fees & Assessments.** In the event that a particular Licensed Space is at a Tower Facility located on property which is owned by the Bureau of Land Management ("BLM") or the United States Forest Service ("USFS"), Licensee shall reimburse Licensor for any and all fees or assessments attributable to this Agreement or Licensee's use of the Licensed Space paid by Licensor to the BLM or USFS related to such Tower Facility within thirty (30) days of Licensor's request for such reimbursement.

(e) **Restrictions on Reimbursement.** Solely for the purposes of determining Licensee's portion of such taxes, fees, assessments or similar expenses as contemplated in this Section 5 or anywhere else in this Agreement, if any such amounts are determined in whole or in part on the income or profits (aside from gross revenues) of any person or entity, Licensor and Licensee shall agree on a fixed amount (subject to the Annual Escalator, which shall be applied in the same manner as it is applied to the Monthly License Fee), that shall be treated as such tax, fee, assessment or similar expense in lieu of the actual amount, which agreed to amount shall be set forth in an amendment to this Agreement.

(f) **Payment Address.** All payments due under this Agreement shall be made to Licensor at Licensor's Remittance Address shown on page 1 of this Agreement or such other address as Licensor may notify Licensee of in writing.

(g) **No Set-Off.** All payments due under this Agreement shall be due without set-off, notice, counterclaim, or demand from Licensor to Licensee.

(h) **Effect of Partial Payment.** No endorsement or statement on any check or letter accompanying a check for payment of any monies due and payable under the terms of this Agreement shall be deemed an accord and satisfaction, and Licensor may accept such check or payment without prejudice to its right to recover the balance of such monies or to pursue any other remedy provided by law or in this Agreement.

6. TERM.

(a) **Initial Term.** The Initial Term of this Agreement shall be as specified on page 1.

(b) **Renewal Term.** The Term of this Agreement may be extended for each of the Renewal Terms as specified on page 1 of this Agreement, provided that at the time of each such renewal, (i) the Ground Lease remains in effect and has not expired or been terminated, (ii) Licensee is not in default hereunder and no condition exists which if left uncured would with the passage of time or the giving of notice result in a default by Licensee hereunder and (iii) the original Licensee identified on page 1 of this Agreement has not assigned, sublicensed, subleased or otherwise transferred any of its rights hereunder. Provided that the foregoing conditions are satisfied, this Agreement shall automatically renew for each successive

Renewal Term unless either Party notifies the other in writing of its intention not to renew this Agreement at least one hundred eighty (180) days prior to the end of the then existing Term.

(c) **Holdover Term.** If Licensee fails to remove the Approved Equipment at the expiration of the Term, such failure shall be deemed to extend the Term of this Agreement on a month-to-month basis under the same terms and conditions herein except that (i) a monthly license fee shall be due on or before the first day of every calendar month during such month-to-month term in an amount equal to one hundred fifty percent (150%) of the Monthly License Fee in effect for the last month of the Term prior to the commencement of such month-to-month term ("**Holdover Fee**"), such Holdover Fee to escalate annually on the anniversary of the Commencement Date by an amount equal to six percent (6%) of the Holdover Fee in effect for the month immediately prior to the month in which such escalation takes place, and (ii) the month-to-month extension shall be terminable upon fifteen (15) days' prior written notice from either Licensor or Licensee to the other; provided, however, nothing contained herein shall grant Licensee the unilateral right to extend the Term of this Agreement after the expiration of the Term. In addition to the monthly license fee payable to Licensor in the event of an extension under this Subsection 6(c), Licensee agrees to indemnify and hold Licensor harmless from any Damages arising out of or in connection with the extension, the operation of the Approved Equipment at the Tower Facility and Licensee's failure to perform all of its obligations under this Agreement at the termination or earlier expiration of this Agreement.

7. COMMON EXPENSES.

Licensee shall reimburse Licensor for Licensee's pro-rata share of all common expenses (the "**Common Expenses**") incurred by Licensor in the installation, operation, maintenance and repair of the Tower Facility, including, but not limited to, the construction, maintenance and repair of a common septic system and field, insurance, common utilities, submeter monitoring (if applicable), and any and all other costs of operating and maintaining the Tower Facility. Notwithstanding the foregoing, the cost and expenses associated with any Damage which is directly attributable to the acts or omissions of Licensee or Licensee's contractors shall be borne solely by Licensee. Licensee shall not be required to pay any share of costs or expenses incurred to replace the Tower. In the event that Licensee is connected to a generator or back-up power supply owned by Licensor, Licensee shall also reimburse Licensor for its pro-rata share of all expenses incurred for the operation, maintenance, repair and replacement associated with such generator, including, without limitation, fuel expenses. For the purposes of this Section, a "pro-rata share" of costs and expenses shall be determined based on the number of licensees using the Tower Facility (or with respect to a shared shelter or building, the number of licensees using Licensor's shelter or building) on the first day of the month in which an invoice is mailed to Licensee. Licensee shall reimburse Licensor for Common Expenses within thirty (30) days following receipt of an invoice from Licensor. Notwithstanding the foregoing, Licensee's pro-rata share of Common Expenses as defined in this Section 7 shall not exceed two (2) times the then current Monthly License Fee per annum.

8. SITE INSPECTION.

Concurrent with Licensee's delivery of a fully executed Agreement to Licensor, and before the date of any subsequent modifications to or installation of additional Approved Equipment, Licensee shall pay Licensor the Site Inspection Fee as defined on page 1 of this Agreement for each Application Licensee submits to install or modify its Approved Equipment. Licensee acknowledges that any site inspection performed by Licensor of Licensee's installation is for the sole purpose and benefit of Licensor and its affiliates, and Licensee shall not infer from or rely on any inspection by Licensor as assuring Licensee's installation complies with any Applicable Laws, that the installation was performed in a good, workmanlike manner or that such installation will not cause impermissible or unlawful interference.

9. LABELING.

Licensee shall identify its Approved Equipment, including its equipment cabinets and coaxial cable (at the top and bottom of the Tower) (unless such cabinet is located in a building or cabinet owned by Licensee) by labels with Licensee's name, contact phone number and date of installation. In the event that Licensee fails to comply with this provision and fails to cure such deficiency within ten (10) days of Licensor's written

notice of such failure, Licensor may, but is not obligated to, in addition to any other rights it may have hereunder, label the Approved Equipment and assess against Licensee a fee of One Thousand Five Hundred and 00/100 Dollars (\$1,500) ("**Labeling Fee**") which shall be payable to Licensor upon receipt of an invoice therefor. Licensor shall not be responsible to Licensee for any expenses or Damages incurred by Licensee arising from the interruption of Licensee's service caused by Licensor if Licensor is unable to identify the Approved Equipment as belonging to Licensee as a result of Licensee's failure to label such Approved Equipment.

10. IMPROVEMENTS BY LICENSEE.

(a) **Installation and Approved Vendors.** Prior to the commencement of Licensee's initial installation, and again prior to any installation of any additional equipment, Licensee shall submit to Licensor for review and approval, an Application, including detailed plans and specifications accurately describing all aspects of the proposed Work relating to the construction, installation, relocation, and reconfiguration of Licensee's Approved Equipment on the Tower. Licensee shall provide notice to Licensor no less than five (5) days prior to the date upon which Licensee intends to commence Work at the Tower Facility, together with a construction schedule, so Licensor has the opportunity to be present during any such Work. Licensee shall not commence Work on the Tower Facility until Licensor issues to Licensee a NTP. Licensor shall issue a NTP only upon request from Licensee and receipt of the following complete and accurate documentation: (1) evidence that any contingencies set forth in the approval of Licensee's Application have been satisfied; (2) evidence that Licensee has obtained all required governmental approvals including, but not limited to, zoning approvals, building permits, and any applicable environmental approvals including copies of the same; (3) a copy of the plans and specifications that have been approved by Licensor for the proposed equipment installation; (4) evidence that any party, other than Licensor but including Licensee, that will be performing the Work are on Licensor's approved vendor list, with valid and current worker's compensation and general liability insurance certificates on file with Licensor naming Licensor as an additional insured and which otherwise satisfy the insurance coverage requirements set forth in Subsection 15(d) of this Agreement; and (5) a construction schedule. In no event will a NTP be issued prior to the payment by Licensee of an Application Fee or any other required fees, pursuant to Section 8 and 10 of this Agreement. Notwithstanding anything to the contrary in this Agreement, Licensor reserves the right, in its sole discretion, to refuse to permit any person or company to climb the Tower.

(b) **Structural Analysis/Interference Analysis.** Prior to the commencement of any Work on the Tower Facility by or for the benefit of Licensee, Licensor may, in its reasonable discretion, perform or cause to be performed a structural analysis or require a professional engineer's certified letter to determine the availability of capacity at the Tower Facility for the installation or modification of any Approved Equipment and/or additional equipment at the Licensed Space by Licensee. Licensee agrees to remit payment to Licensor for all reasonable costs and expenses incurred by Licensor for such structural analysis or professional engineer's certified letter ("**Structural Analysis Fee**") within thirty (30) days following receipt of an invoice from Licensor. The foregoing charge shall be at Licensor's prevailing rates for the performance of same or the amount Licensor's vendor is then charging Licensor, as applicable. In the event a structural analysis is performed after the execution of this Agreement but prior to the initial installation of the Approved Equipment, and such analysis indicates that the existing Tower cannot accommodate the proposed installation of Licensee's Approved Equipment thereon, Licensor shall notify Licensee that modification of the Tower is required and inform Licensee of the fee Licensor will charge Licensee to complete such modification (which fee shall be a reasonable estimate of Licensor's actual cost of making such modifications). Such modification shall become part of the Tower Facility and be Licensor's sole property. If Licensee elects not to pay such fee, and Licensee and Licensor do not otherwise reach an agreement regarding the costs of such modification, Licensee may terminate this Agreement upon written notice to Licensor. Prior to the commencement of any initial or subsequent construction or installation on the Tower Facility by or for the benefit of Licensee and/or the modification of Licensee's Permitted Frequencies propagated from the Licensed Space, Licensor may elect to perform a shared site interference study ("**SSIS**") and Licensee shall pay Licensor One Thousand Six Hundred and 00/100 Dollars (\$1,600.00) per study ("**SSIS Fee**"), increased annually on the anniversary of the Commencement Date by a percentage rate equal to the Annual Escalator. The SSIS Fee shall be payable at the time Licensee pays the Application Fee where required pursuant to Subsection 10(c) of this Agreement, or immediately upon receipt of notice from Licensor

that Licensor has determined that a SSIS is required. In the event a SSIS is performed after the execution of this Agreement by Licensor but prior to the installation of Licensee's Approved Equipment, and such SSIS indicates that the proposed installation of Licensee's Approved Equipment on the Tower is acceptable, such an indication in no way relieves Licensee of its obligations under Section 11 herein.

(c) **Equipment; Relocation, Modification, Removal.** Licensor hereby grants Licensee reasonable access to the Licensed Space for the purpose of installing and maintaining the Approved Equipment and its appurtenances. Except as otherwise provided, Licensee shall be responsible for all site Work to be done on the Licensed Space or the Easement pursuant to this Agreement. Licensee shall provide all materials and shall pay for all labor for the construction, installation, operation, maintenance, and repair of the Approved Equipment. Licensee shall not construct, install, or operate any equipment or improvements on the Tower Facility other than those which are described on Exhibit A, alter the Permitted Frequencies, or alter the operation of the Approved Equipment. Licensee shall submit an Application, utilizing Licensor's then current form, to request the right to replace or modify its Approved Equipment, alter the Permitted Frequencies or increase the Ground Space, which Application shall be accompanied by an Application Fee and any other fees applicable to the proposed modifications, as provided for in Sections 8 and 10 of this Agreement. Licensor shall evaluate for approval the feasibility of Licensee's request, which approval shall be in Licensor's sole discretion. Licensee acknowledges that any such relocation or modification of the Approved Equipment may result in an increase in the Monthly License Fee. An amendment to this Agreement shall be prepared to reflect each addition or modification to Licensee's Approved Equipment to which Licensor has given its written consent and the resulting increase in the Monthly License Fee, if any. Licensee shall have the right to remove all Approved Equipment at Licensee's sole expense on or before the expiration or earlier termination of the License provided Licensee repairs any damage to the Tower Facility or the Tower caused by such removal. Within thirty (30) days of the expiration or termination of this Agreement for any reason, Licensee shall: (i) remove the Approved Equipment and any other property of Licensee at the Tower Facility at Licensee's sole risk, cost, and expense; (ii) deliver the Licensed Space in substantially the same and in as good a condition as received (ordinary wear and tear excepted); and (iii) repair any damage caused by the removal of the Approved Equipment within ten (10) days of the occurrence of such damage. If Licensee fails to timely pay the Holdover Fee or does not remove its Approved Equipment within thirty (30) days after the expiration or termination of this Agreement, (i) the Approved Equipment shall be deemed conclusively and absolutely abandoned by Licensee and anyone claiming by, through, or under Licensee except for Hazardous Substances and waste and Approved Equipment containing Hazardous Substances and waste; and (ii) Licensor shall have the right to remove the Approved Equipment at Licensee's sole expense and dispose of such Approved Equipment in any manner Licensor so elects, and Licensee shall reimburse Licensor for its expenses upon demand without off-set.

11. RF INTERFERENCE/ USER PRIORITY.

(a) **Definitions.** For purposes of this Section 11, the following capitalized terms shall have the meanings set forth herein:

(i) **Interference** includes any performance degradation, misinterpretation, or loss of information to a radio communications system caused by unwanted energy emissions, radiations, or inductions, but shall not include permissible interference as defined by the FCC, and in addition, with regard to Unlicensed Frequencies, congestion.

(ii) **Licensed Frequencies** are those certain channels or frequencies of the radio frequency spectrum that are licensed by the FCC in the geographic area where the Tower Facility is located.

(iii) **A Licensed User** is any user of the Tower Facility, including Licensee, which transmits and/or receives Licensed Frequencies at the Tower Facility, but only with respect to such Licensed Frequencies.

(iv) **A Priority User** is any Licensed User of the Tower Facility that holds a priority position in relationship to Licensee for protection from Interference, as determined in this Section 11, which status is subject to change as set forth herein.

- (v) A **Subsequent User** is any user of the Tower Facility that holds a subordinate position in relationship to Licensee for protection from Interference, as determined in this Section 11, which status is subject to change as set forth herein.
- (vi) **Unlicensed Frequencies** are those certain channels or frequencies of the radio frequency spectrum that are not licensed by the FCC and are available for use by the general public in the geographic area where the Tower Facility is located.
- (vii) An **Unlicensed User** is any user of the Tower Facility, including Licensee, which transmits and/or receives Unlicensed Frequencies at the Tower Facility, but only with respect to such Unlicensed Frequencies.
- (b) **Information.** Licensee shall cooperate with Licensor and with other lessees, licensees, or occupants of the Tower Facility for purposes of avoiding Interference and/or investigating claims of Interference. Upon request, Licensee, within ten (10) days of Licensor's request, shall provide Licensor with a list of Licensee's transmit and receive frequencies and Approved Equipment specifications necessary to resolve or investigate claims of Interference.
- (c) **Unlicensed Frequencies.** Notwithstanding any other provision contained herein, as among Licensor, Licensee and other users of the Tower or Tower Facility, (i) an Unlicensed User shall have no priority with respect to any other FCC Unlicensed Users with respect to Interference; and (ii) an Unlicensed User's rights and obligations with respect to such Interference shall be determined and governed by FCC Rules and Regulations and any other Applicable Law. Licensor expressly disclaims any and all warranties and accepts no responsibility for management, mediation, mitigation or resolution of Interference among FCC Unlicensed Users operating at the Tower Facility and shall have no liability therefor.
- (d) **Licensed Frequencies.** Subject to FCC Rules and Regulations and other Applicable Law, the Parties acknowledge and agree that the accepted industry standard for priority protection from Interference between multiple Licensed Users has been based on the priority of occupancy of each user to another user of the Tower or Tower Facility, which priority has been based on the order of submittal of its collocation Application by each user of the Tower or Tower Facility. Should the application of FCC Rules and Regulations and other Applicable Law not resolve any claims of Interference consistent with Subsections 11(e), 11(f) and 11(g) below, as among Licensor, Licensee and other users of the Tower Facility, (i) each Licensed User's priority shall be maintained so long as the Licensed User does not change the equipment and/or frequency that it is entitled to use at the Tower Facility at the time of its initial occupancy; and (ii) Licensee acknowledges and agrees that if Licensee replaces its Approved Equipment or alters the radio frequency of the Approved Equipment to a frequency range other than as described on page 1 of this Agreement, Licensee will lose its priority position for protection from Interference with regard to Approved Equipment operating at the new frequency in its relationship to other Licensed Users which are in place as of the date Licensee replaces its Approved Equipment or alters its radio frequency, consistent with this Section 11.
- (e) **Correction.**
- (i) **Licensee.** Licensee agrees not to cause Interference with the operations of any other user of the Tower or Tower Facility and to comply with all other terms and provisions of this Section 11 imposed upon Licensee. If Licensor determines, in its reasonable discretion based on standard and accepted engineering practices, that Licensee's Approved Equipment is causing Interference to the installations of Licensor or a Priority User, Licensee shall, within 48 hours of notification from Licensor, take such actions as are necessary to mitigate or eliminate the Interference, with the exception of ceasing Licensee's operations. If Licensee cannot mitigate or eliminate such Interference within the 48 hour period, Licensor may file a complaint with the FCC (currently the FCC's Enforcement Bureau, Spectrum Enforcement Division) or if such other user of the Tower Facility which is subject to Interference from Licensee's Approved Equipment is a Priority User, then upon the request of such Priority User consistent with Licensor's contractual obligations owed to the Priority User, Licensor may require that Licensee turn off or

power down its interfering Approved Equipment and only power up or use such Approved Equipment during off-peak hours specified by Licensor in order to test whether such Interference continues or has been satisfactorily eliminated. If Licensee is unable to resolve or eliminate, to the satisfaction of Licensor, such Interference within thirty (30) days from Licensee's initial notification thereof, Licensee will immediately remove or cease operations of the interfering Approved Equipment.

(ii) **Licensor.** Upon the request of Licensee, Licensor hereby covenants to take commercially reasonable efforts to prohibit a Subsequent User from causing Interference with the operations of Licensee to the extent Licensee is a Priority User pursuant this Section 11. If Licensor determines, in its reasonable discretion based on standard and accepted engineering practices, that a Subsequent User's equipment is causing Interference to the installations of Licensee, upon Licensee's request, Licensor shall, within 48 hours of request, commence such actions as are necessary to mitigate or eliminate the Interference, with the exception of ceasing Subsequent User's operations.

(iii) **Government Users.** Notwithstanding the foregoing, if another user of the Tower or Tower Facility is a governmental entity, Licensor shall give such governmental entity written notice of the Interference within five (5) Business Days of Licensor's determination that such action is reasonably necessary. Licensor shall have the right to give the governmental entity five (5) Business Days, or more as specified in the governmental site or occupancy agreement or as required by Applicable Law, from the receipt of such notice prior to Licensor being required to take any actions required by this Subsection 11(e) to cure such Interference.

(f) **FCC Requirements Regarding Interference.** Nothing herein shall prejudice, limit, or impair Licensee's rights under Applicable Law, including, but not limited to, FCC Rules and Regulations to redress any Interference independently of the terms of this Section 11. Notwithstanding anything herein to the contrary, the provisions set forth in this Section 11 shall be interpreted in a manner so as not to be inconsistent with Applicable Law, including, but not limited to, FCC Rules and Regulations and nothing herein relieves Licensee from complying with all Applicable Laws governing the propagation of radio frequencies and/or radio frequency interference. The Parties acknowledge that currently FCC Rules and Regulations govern the obligations of wireless telecommunication service providers with respect to the operation of equipment and use of frequencies. Consequently, the provisions set forth in this Section 11 are expressly subject to CFR, Title 47, including but not limited to Part 15, et seq, governing Radio Frequency Devices; Part 20, et seq, governing commercial mobile radio services; Part 24, et seq, governing personal communications services; Part 90, et seq, governing private land mobile radio services; and Part 96, et seq, governing Citizens Broadband Radio Service. In addition, in accordance with good engineering practice and standard industry protocols, licensees employ a wide range of techniques and practices, including those involving the use of proper types of equipment as well those related to the adjustment of operating parameters, in a mutually cooperative effort to identify and mitigate sources of Interference. The obligation of Part 20 licensees, including, but not limited to, private paging, specialized mobile radio services, cellular radiotelephone service and personal communications services, to avoid Interference is set forth in 47 CFR Part 90, Subpart N – Operating Requirements, §90.403(e). Claims of Interference are ultimately cognizable before the FCC's Enforcement Bureau, Spectrum Enforcement Division. Licensee shall observe good engineering practice and standard industry protocols, applying such commercially reasonable techniques as constitute best practices among licensees, in the deployment of their frequencies and the operation of the Approved Equipment. If Licensee deploys its frequencies or operates the Approved Equipment in a manner which prevents any other user of the Tower or Tower Facility from decoding signal imbedded in their licensed frequencies such that the Spectrum Enforcement Division makes a determination that Licensee is the cause of the Interference and Licensee fails or refuses to mitigate or eliminate the Interference within the time and in the manner prescribed by the Spectrum Enforcement Division, Licensee shall be in default of this Agreement and the remedies set forth in Section 22 shall apply.

(g) **Public Safety Interference.** As of the Commencement Date, Licensor and Licensee are aware of the publication of FCC Final Rule, Private Land Mobile Services; 800 MHz Public Safety Interference Proceeding, *Federal Register*: November 22, 2004 (Volume 69, Number 224), Rules and

Regulations, Page 67823-67853 ("**Final Rule**"). Claims of Interference made by or against users which are public safety entities shall be in compliance with the Final Rule as and when effective, or otherwise in accordance with FCC Rules and Regulations.

(h) **AM Detuning.** The parties acknowledge that the FCC Rules and Regulations govern the obligations of Licensee with respect to the operation of the Approved Equipment. Consequently, the provisions set forth in this Agreement are expressly subject to the FCC Rules and Regulations, including, but not limited to 47 C.F.R. §§ 27.63, 22.371 and 73.1692. Licensee agrees, at Licensee's sole cost, to comply with the foregoing as well as any and all other FCC Rules, Regulations and public guidance relating to AM detuning as such provisions currently exist or are hereafter modified. Licensee shall be fully responsible for any pre and/or post installation testing for AM interference at the Tower Facility and for the installation of any new detuning apparatus or the adjustment of any existing detuning apparatus that may be necessary to prevent adverse effects on the radiation pattern of any AM station caused by the installation of the Approved Equipment. Licensee shall provide Licensor with written proof of such compliance. In the event that Licensee determines that pre or post-installation testing for AM interference is not required at the Tower Facility, such a determination shall be at Licensee's sole risk. If Licensee or Licensor receives a complaint of interference from an AM broadcast station after the Approved Equipment is added to a Tower or a Tower is modified to accommodate Licensee, Licensee shall eliminate such interference within thirty (30) days of the receipt of such complaint. Licensee's failure to eliminate such interference within such thirty (30) day period shall constitute a default under this Agreement and Licensor shall have the right to eliminate such interference at Licensee's expense. Licensee further agrees to indemnify Licensor in the event that Licensee's failure to comply with the FCC Rules and Regulations prior to installation/modification of the Approved Equipment results in any administrative investigation, proceeding or adjudication with respect to Licensor.

12. SITE RULES AND REGULATIONS.

Licensee agrees to comply with the reasonable rules and regulations established from time to time at the Tower Facility by Licensor, which may be modified by Licensor from time to time upon receipt by Licensee of such revised rules and regulations. Such rules and regulations will not unreasonably interfere with Licensee's use of the Licensed Space under this Agreement.

13. DESTRUCTION; CONDEMNATION.

(a) **Destruction.** If the Tower or other portions of the improvements at the Tower Facility owned by Licensor are destroyed or so damaged as to materially interfere with Licensee's use and benefits from the Licensed Space, Licensor or Licensee shall be entitled to elect to cancel and terminate this Agreement on the date of such casualty and any unearned Monthly License Fee paid in advance of such date shall be refunded by Licensor to Licensee within thirty (30) days of such termination date. Notwithstanding the foregoing, Licensor may elect, in its sole discretion, to restore the damaged improvements, in which case Licensee and Licensor shall remain bound to the terms of this Agreement but Licensee shall be entitled to an abatement of the Monthly License Fee during the loss of use. If the Tower is so damaged that reconstruction or repair cannot reasonably be undertaken without removing the Approved Equipment, then (i) Licensor may, upon giving written notice to Licensee, remove any of the Approved Equipment and interrupt the signal activity of Licensee, (ii) Licensee may, at Licensee's sole cost and expense, install temporary facilities pending such reconstruction or repair, provided such temporary facilities do not interfere with the construction, rebuilding or operation of the Tower, (iii) Licensor agrees to provide Licensee alternative space, if available, on the Tower or at the Tower Facility during such reconstruction/repair period and (iv) should Licensor not substantially restore or replace the Tower in a fashion sufficient to allow Licensee to resume operations thereon within 6 months of the date of casualty, provided that such 6 month period shall be automatically extended for so long as Licensor has commenced and diligently continues to restore or replace such Tower, and Licensee's operation has been materially disrupted for sixty (60) or more consecutive days, then Licensee, upon thirty (30) days' prior written notice to Licensor, may terminate this Agreement.

(b) **Condemnation.** If the whole or any substantial part of the Tower Facility shall be taken by any public authority under the power of eminent domain or in deed or conveyance in lieu of condemnation so as to materially interfere with Licensee's use thereof and benefits from the Licensed Space, then this Agreement shall terminate on the part so taken on the date of possession by such authority of that part, and Licensor or Licensee shall have the right to terminate this Agreement and any unearned Monthly License Fee paid in advance of such termination shall be refunded by Licensor to Licensee within thirty (30) days following such termination. Notwithstanding the foregoing, Licensor may elect to rebuild the Tower or other improvements affected by such condemnation at an alternate location or property owned, leased, or managed by Licensor, in which case Licensee and Licensor shall remain bound hereby, subject to the Agreement of Licensee to the alternate location. Upon such relocation of the Tower or improvements, the Licensed Space shall be modified to include the new Tower or improvements and the property on which the same are located and this Agreement shall be amended accordingly to clarify the rights of Licensor and Licensee with respect to the Licensed Space. Licensee agrees not to make a claim to the condemning authority for any condemnation award to the extent such claim shall diminish or affect the award made to Licensor with regard to such condemnation.

(c) **License Fee Abatement.** The Monthly License Fee with respect to the affected Tower Facility shall be abated during any period that the Tower has not been restored following an event described in Subsections (a) or (b) above so long as Licensee is unable to continue to operate from a temporary location at the Tower Facility during any period of restoration.

14. COMPLIANCE WITH LAWS.

Licensor shall be responsible for compliance with any marking and lighting requirements of the FAA and the FCC applicable to the Tower Facility, provided that if the requirement for compliance results from the presence of the Approved Equipment on the Tower, Licensee shall pay the costs and expenses therefor (including any lighting automated alarm system so required). . Licensee has the responsibility of carrying out the terms of Licensee's FCC license with respect to tower light observation and notification to the FAA if those requirements imposed on Licensee are in excess of those required of Licensor. Notwithstanding anything to the contrary in this Agreement, Licensee shall at all times comply with all Applicable Laws and ordinances and all rules and regulations of municipal, state and federal governmental authorities relating to the installation, maintenance, location, use, operation, and removal of the Approved Equipment and other alterations or improvements authorized pursuant to the provisions of this Agreement.

15. INDEMNIFICATION; INSURANCE.

(a) **Mutual Indemnity.** Subject to the mutual waiver of subrogation set forth in Section 27, Licensee and Licensor each indemnifies the other against and holds the other harmless from any and all costs, demands, Damages, suits, expenses, or causes of action (including reasonable attorney's fees and court costs) which arise out of the use and/or occupancy of the Licensed Space by the Indemnifying Party. This indemnity does not apply to any Claims to the extent arising from the gross negligence or intentional misconduct of the Indemnified Party.

(b) **Limits on Indemnification.** Neither Party shall be responsible or liable to any of the foregoing Indemnified Parties for any Damages arising from any claim to the extent attributable to any acts or omissions of other licensees or users occupying the Tower Facility or for any structural or power failures or destruction or damage to the Tower Facility except to the extent caused by the sole, joint, or concurrent gross negligence or willful misconduct of such Party.

(c) **Survival.** The provisions of this Section 15 shall survive the expiration or earlier termination of this Agreement with respect to any events occurring on or before expiration or termination of same whether or not Claims relating thereto are asserted before or after such expiration or termination.

(d) **Insurance.** Licensor and Licensee shall keep in full force and effect, during the Term of this Agreement, insurance coverage in accordance with Appendix II attached hereto.

16. LIMITATION OF PARTIES' LIABILITY.

TO THE EXTENT PERMITTED BY LAW, NEITHER LICENSOR NOR LICENSEE SHALL BE RESPONSIBLE FOR, AND HEREBY WAIVES ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES INCURRED RESULTING FROM (i) LICENSEE'S USE OR LICENSEE'S INABILITY TO USE THE TOWER FACILITY, OR (ii) DAMAGE TO THE OTHER'S EQUIPMENT. If Licensor shall fail to perform or observe any term, condition, covenant or obligation required to be performed or observed by it under this Agreement or is charged with an indemnity obligation hereunder, and if Licensee shall, as a consequence thereof, recover a money judgment against Licensor (whether compensatory or punitive in nature), Licensee agrees that it shall look solely to Licensor's right, title and interest in and to the Tower Facility and the Tower for the collection of such judgment, and Licensee further agrees that no other assets of Licensor shall be subject to levy, execution or other process for the satisfaction of Licensee's judgment, and that Licensor shall not be personally liable for any deficiency.

17. DISCLAIMER OF WARRANTY.

LICENSOR HEREBY EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ASSOCIATED WITH THE TOWER FACILITY OR THE TOWER. LICENSEE HEREBY ACCEPTS THE TOWER FACILITY "AS IS, WHERE IS, WITH ALL FAULTS."

18. NOTICES.

All notices, demands, approvals, requests and other communications shall be in writing to such Party at the address listed in the introductory paragraph of this Agreement (and in each case, in the event of notice to Licensor, with a copy of such notice to American Towers LLC, 116 Huntington Avenue, Boston, MA 02116, Attention: General Counsel) or at such other address as such Party shall designate by notice to the other Party hereto in accordance with this Section 18 (the "Notice Address") and may be personally delivered; mailed, via United States certified mail, return receipt requested; or transmitted by overnight courier for next Business Day delivery, and, if not delivered personally, shall be deemed to be duly given or made two (2) Business Days after deposit with the applicable carrier or courier. Notices will be deemed to have been given upon either receipt or rejection. Notwithstanding the foregoing, (i) any notice that is given by a Party may be given by the attorneys for that Party and shall be deemed effective for all purposes herein, and (iii) only notices, letters, documents, or instruments threatening to declare or declaring such addressee or recipient in default under this Agreement shall be required to be sent to the attorneys representing such addressee or recipient, if the name and address of such attorney is provided for herein.

19. ASSIGNMENT; SUBLEASING.

Licensee may not, directly or indirectly, assign this Agreement as a whole, or any portion of Licensee's rights, title and interests hereunder without Licensor's prior written consent. In no event may Licensee sublet, sublease, or permit any use of the Tower Facility or Licensed Space by any other party. Any permitted assignee shall expressly assume, and become bound by, all of Licensee's obligations under this Agreement. Licensor may freely assign, transfer, or sublease this Agreement and, in such event, Licensor shall be relieved of all of its obligations under this Agreement from and after the date of such assignment or transfer. Licensee shall pay Licensor a fee of Five Hundred and 00/100 Dollars (\$500.00) (which fee shall increase annually on each anniversary of the Commencement Date by a percentage rate increase equal to the Annual Escalator) in each instance in which Licensee requests Licensor to consent to an assignment of this Agreement or in which Licensee seeks an estoppel certificate, non-disturbance agreement, subordination agreement or other similar agreement to defray the administrative cost incurred by Licensor to process such requests, prepare and process any necessary documentation, and modify its database and other information systems to reflect any such agreement. Such fee is due upon submission of Licensor's request and is hereby deemed fully earned by Licensor upon receipt. Notwithstanding anything to the contrary, Licensor may condition its consent to any assignment, on among other things, (i) requiring that the assignee execute a new form of license agreement so long as the Monthly License Fee and Initial and Renewal Terms of such agreement are consistent with those set forth in this Agreement, and (ii)

requiring the assignee to demonstrate that it maintains at the time of such assignment, as evidenced by current financial statements provided to Licensor, a financial position reasonably demonstrating the ability of such assignee to meet and perform the obligations of Licensee hereunder through the unexpired balance of the then current Initial Term or Renewal Term. Any purported assignment by Licensee in violation of the terms of this Agreement shall be void. This Agreement shall be binding upon the successors and permitted assigns of both Parties.

20. SUBORDINATION TO GROUND LEASE.

The Parties acknowledge and agree that in the event Licensor's rights in the Licensed Space and/or any part of the Tower Facility is derived in whole or part pursuant to an underlying lease, sublease, permit, easement or other right of use agreement (a "**Ground Lease**"), all terms, conditions and covenants contained in this Agreement shall be specifically subject to and subordinate to the terms and conditions of the applicable Ground Lease. In the event that any of the provisions of the Ground Lease are in conflict with any of the provisions of this Agreement (other than those provisions relating to the length of term, termination rights or financial consideration), the terms of the Ground Lease shall control. Further, Licensee agrees to comply with the terms of such Ground Lease as applicable to the access and occupancy of the Licensed Space. Notwithstanding anything contained in this Agreement to the contrary, if the Ground Lease expires or is terminated for any reason, this Agreement shall terminate on the effective date of such termination and Licensor shall have no liability to Licensee as a result of the termination of this Agreement. Licensor is under no obligation to extend the term of or renew the Ground Lease. Licensor shall give Licensee written notice of such termination or expiration of this Agreement as a result of the termination or expiration of the Ground Lease as soon as practicable. Licensor shall provide a copy of any applicable Ground Lease with the economic terms and other terms that Licensor deems reasonably confidential redacted, prior to the execution of this lease agreement.

21. DEFAULT.

The occurrence of any of the following instances shall be considered to be a default or a breach of this Agreement by Licensee: (i) any failure of Licensee to pay the Monthly License Fee, or any other charge for which Licensee has the responsibility of payment under this Agreement, within ten (10) Business Days of the date following written notice to Licensee from Licensor, or its designee, of such delinquency, it being understood, however, that Licensor is obligated to provide such notice only two times in each calendar year, and the third instance of the failure to pay the Monthly License Fee or any other charge shall be an immediate default without notice to Licensee if not paid within ten (10) Business Days of the date when due; (ii) except for a PCN Default for which the cure period is set forth in clause (iv) below, any failure of Licensee to perform or observe any term, covenant, provision or condition of this Agreement which failure is not corrected or cured by Licensee within thirty (30) days of receipt by Licensee of written notice from Licensor, or its designee, of the existence of such a default; except such thirty (30) day cure period shall be extended as reasonably necessary to permit Licensee to complete a cure so long as Licensee commences the cure within such thirty (30) day cure period and thereafter continuously and diligently pursues and completes such cure; (iii) failure of Licensee to abide by the Interference provisions as set forth in Section 11; (iv) a PCN Default occurs that Licensee fails to cure within ten (10) days of Licensor's written notice to Licensee, or its designee of the existence of such default; (v) Licensee shall become bankrupt, insolvent or file a voluntary petition in bankruptcy, have an involuntary petition in bankruptcy filed against Licensee which cannot be or is not dismissed by Licensee within sixty (60) days of the date of the filing of the involuntary petition, file for reorganization or arrange for the appointment of a receiver or trustee in bankruptcy or reorganization of all or a substantial portion of Licensee's assets, or Licensee makes an assignment for such purposes for the benefit of creditors; (vi) this Agreement or Licensee's interest herein or Licensee's interest in the Tower Facility are executed upon or attached; (vii) Licensee commits or fails to perform an act which results in a default under or nonconformance with the Ground Lease by Licensor and the same shall not be cured within five (5) Business Days (or such shorter time as permitted under the Ground Lease to cure) of the date following written notice to Licensee from Licensor, or its designee, of such default; or (viii) the imposition of any lien on the Approved Equipment except as may be expressly authorized by this Agreement, or an attempt by Licensee or anyone claiming through Licensee to encumber

Licensor's interest in the Tower Facility, and the same shall not be dismissed or otherwise removed within ten (10) Business Days of written notice from Licensor to Licensee.

22. REMEDIES.

In the event of a default or a breach of this Agreement by Licensee and after Licensee's failure to cure the same within the time allowed Licensee to cure such default, if applicable, then Licensor may, in addition to all other rights or remedies Licensor may have hereunder at law or in equity, (i) terminate this Agreement by giving written notice to Licensee, stating the date upon which such termination shall be effective, accelerating and declaring to be immediately due and payable the then present value of all Monthly License Fees and other charges or fees which would have otherwise been due Licensor absent a breach of this Agreement by Licensee, discounted by an annual percentage rate equal to five percent (5%), (ii) terminate electrical power to the Approved Equipment, and/or (iii) remove the Approved Equipment without being deemed liable for trespass or conversion and store the same at Licensee's sole cost and expense for a period of thirty (30) days after which the Approved Equipment, other than Hazardous Substances, will be deemed conclusively abandoned if not claimed by Licensee. Licensee shall pay all reasonable attorney's fees, court costs, removal and storage fees (including any damage caused thereby), and other items of cost reasonably incurred by Licensor in recovering the Monthly License Fee or other fee or charge. Licensee shall not be permitted to claim the Approved Equipment until Licensor has been reimbursed for removal and storage fees. Past due amounts under this Agreement will bear interest from the date upon which the past due amount was due until the date paid at a rate equal to eighteen percent (18%) per annum, or at a lower rate if required by law in the state in which this Agreement is to be performed. In addition, Licensee shall be assessed a late payment fee equal to twenty-five percent (25%) of the then-current Monthly License Fee for any payment or reimbursement due to Licensor under this Agreement which is overdue by ten (10) days or more and such fee shall be assessed for each thirty (30) day period thereafter that any such amount (or portion thereof) remains unpaid.

23. GOVERNMENTAL APPROVALS; PERMITS.

In the event that any governmental permit, approval or authorization required for Licensor's use of, operation of, or right to license space to Licensee at the Tower Facility is terminated or withdrawn by any governmental authority or third party as part of any governmental, regulatory, or legal proceeding, Licensor may terminate this Agreement. Licensee hereby agrees that in the event of a governmental or legal order requiring the removal of the Approved Equipment from the Tower, the modification of the Tower, or the removal of the Tower, Licensee shall remove the Approved Equipment promptly, but in no event later than the date required by such order, at Licensee's sole cost and expense. Licensor shall cooperate with Licensee in Licensee's efforts to obtain any permits or other approvals that may be necessary for Licensee's installation and operation of the Approved Equipment, provided that Licensor shall not be required to expend any funds or undertake any liability or obligation in connection with such cooperation. Licensor may elect to obtain such required approvals or permits on Licensee's behalf, at Licensee's sole cost and expense. In no event may Licensee encourage, suggest, participate in or permit the imposition of any restrictions or additional obligations whatsoever on the Tower Facility or Licensor's current or future use or ability to license space at the Tower Facility as part of or in exchange for obtaining any such approval or permit. In the event that Licensee's shelter or cabinets are installed above a third-party or Licensor-owned shelter or building, Licensee shall be solely responsible for obtaining any required approvals, or permits in connection with such shelter or cabinet installation, excepting the consent of other users at the Tower Facility and/or the ground landlord which shall remain the sole responsibility of Licensor where required.

24. REPLACEMENT OF TOWER/RELOCATION OF APPROVED EQUIPMENT.

(a) **Replacement of Tower.** Licensor may, at its election, replace or rebuild the Tower or a portion thereof. Such replacement will (i) be at Licensor's sole cost and (ii) not result in an interruption of Licensee's communications services beyond that which is necessary to replace the existing Tower. If Licensee, in Licensee's reasonable discretion, cannot operate the Approved Equipment from the existing Tower during such replacement or rebuild of the Tower, Licensee may establish, at Licensee's sole cost, a temporary facility on the Tower Facility to provide such services as Licensee deems necessary during any such

construction by Licensor so long as adequate space is then available. The location of such temporary facilities shall be subject to Licensor's approval. The Monthly License Fee due hereunder shall be abated for any period during which Licensee is prevented from broadcasting from the existing Tower due to such replacement or relocation. At the request of either Party, Licensor and Licensee shall enter into an amendment to this Agreement to clarify the rights of Licensor and Licensee to the new Tower Facility.

(b) **Tower Removal:** If during the term of this Agreement Licensor determines based on engineering structural standards generally applied to communications towers that the Tower is or has become structurally unsound such that pursuant to generally accepted industry safety standards the Tower or a portion thereof must be removed, then, upon one hundred twenty (120) days' prior written notice to Licensee, Licensor may, in its sole discretion either (i) remove the Tower and terminate this Agreement effective as of the date of such removal, or (ii) modify the Tower and relocate Licensee's Approved Equipment to an alternative location on the modified Tower upon agreement of the Licensee. If Licensee and Licensor are not able to agree on an alternative location on the modified Tower for the installation of Licensee's Approved Equipment within the foregoing one hundred twenty (120) day notice period, then Licensee or Licensor may elect to terminate this Agreement.

25. EMISSIONS.

If antenna power output ("**RF Emissions**") is presently or hereafter becomes subject to any restrictions imposed by the FCC or other governmental agency for RF Emissions standards on Maximum Permissible Exposure ("**MPE**") limits, or if the Tower Facility otherwise becomes subject to federal, state or local rules, regulations, restrictions or ordinances, Licensee shall comply with Licensor's reasonable requests for modifications to the Approved Equipment which are reasonably necessary for Licensor to comply with such limits, rules, regulations, restrictions or ordinances and Licensor shall use commercially reasonable efforts to cause all other licensees of the Tower Facility to promptly comply. If Licensor requires an engineering evaluation or other power density study be performed to evaluate RF Emissions compliance with MPE limits, then all reasonable costs of such an evaluation or study shall be paid proportionately by Licensee and all other licensees of the Tower within thirty (30) days of Licensor's request therefor. If said study or a study sponsored by any governmental agency indicates that RF Emissions at the Tower Facility do not comply with MPE limits, then Licensee and Licensor, each for itself, shall immediately take any and all steps necessary to ensure that it is individually in compliance with such limits, up to and including cessation of operation, until a maintenance program or other mitigating measures can be implemented to comply with MPE and in addition, Licensor shall use commercially reasonable efforts to cause all other licensees of the Tower to take similar steps necessary to ensure that they are individually in compliance with such limits.

26. ENVIRONMENTAL.

Licensee covenants that it will not use, store, dispose, or release any Hazardous Substances on the Tower Facility in violation of Applicable Law. Licensee agrees to indemnify and save harmless Licensor against any and all Claims, liabilities, causes of action, Damages, orders, judgments, and clean-up costs arising from Licensee's breach of any of the covenants contained in this Section 26. The obligations of Licensee to indemnify Licensor pursuant to this Section 26 shall survive the termination or expiration of this Agreement.

27. SUBROGATION.

(a) **Waiver.** Licensor and Licensee waive all rights against each other and any of their respective consultants and contractors, agents and employees, for Damages caused by perils to the extent covered by the proceeds of the insurance provided herein, except such rights as they may have to the insurance proceeds. All insurance policies required under this Agreement shall contain a waiver of subrogation provision under the terms of which the insurance carrier of a Party waives all of such carrier's rights to proceed against the other Party. Licensee's insurance policies shall provide such waivers of subrogation by endorsement. Licensee shall require by appropriate agreements, written where legally required for validity, similar waivers from its contractors and subcontractors. A waiver of subrogation shall be effective as to a person or entity even though that person or entity would otherwise have a duty of

indemnification, contractual or otherwise, did not pay the insurance premium directly or indirectly, and whether or not the person or entity had an insurable interest in the property damaged.

(b) **Mutual Release.** Notwithstanding anything in this Agreement to the contrary, Licensor and Licensee each release the other and its respective affiliates, employees and representatives from any Claims by them or any one claiming through or under them by way of subrogation or otherwise for Damage to any person or to the Tower Facility and to the fixtures, personal property, improvements and alterations in or on the Tower Facility that are caused by or result from risks insured against under any insurance policy carried by each and required by this Agreement, provided that such releases shall be effective only if and to the extent that the same do not diminish or adversely affect the coverage under such insurance policies and only to the extent of the proceeds received from such policy.

28. GOVERNING LAW.

This Agreement shall be governed by the laws of the state in which the Tower Facility is located, with the exception of its choice of laws provisions. If any provision of this Agreement is found invalid or unenforceable under judicial decree or decision, the remaining provisions of this Agreement shall remain in full force and effect. Any approval, consent, decision, or election to be made or given by a Party may be made or given in such Party's sole judgment and discretion, unless a different standard (such as reasonableness or good faith) is provided for explicitly.

29. MISCELLANEOUS.

Upon Licensor's written request, Licensee shall promptly furnish Licensor with complete and accurate information in response to any reasonable request by Licensor for information about any of the Approved Equipment or utilities utilized by Licensee at the Tower Facility or any of the channels and frequencies utilized by Licensee thereon. In the event that this Agreement is executed by Licensor, its Affiliates or any trade name utilized by Licensor or its Affiliates and such signatory does not hold the real Tower Facility or leasehold interest in the affected Tower Facility, the execution of this Agreement shall be deemed to have been properly executed by Licensor or Licensor's Affiliate which properly holds such interest in the affected Tower Facility. Upon the termination or expiration of this Agreement, Licensee shall immediately upon the request of Licensor deliver a release of any instruments of record evidencing such Agreement. Notwithstanding the expiration or earlier termination of this Agreement, Sections 15, 16, 17, and 26 shall survive the expiration or earlier termination of this Agreement. No waiver of any of the provisions of this Agreement shall constitute a waiver of any other provision herein (whether or not similar), nor shall such waiver constitute a continuing waiver unless expressly agreed to in writing by the affected Party. This Agreement constitutes the entire agreement of the Parties hereto concerning the subject matter herein and shall supersede all prior offers, negotiations and agreements, whether written or oral. No revision of this Agreement shall be valid unless made in writing and signed by authorized representatives of both Parties. This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute but one instrument. The Parties agree that a scanned or electronically reproduced copy or image of this Agreement shall be deemed an original and may be introduced or submitted in any action or proceeding as a competent evidence of the execution, terms and existence of this Agreement notwithstanding the failure or inability to produce or tender an original, executed counterpart of this Agreement and without the requirement that the unavailability of such original, executed counterpart of this first be proven.

30. CONFIDENTIALITY.

Neither Party shall use the other's name, service mark or trademark in any public announcement or advertisement without the prior written consent of the other Party, which may be withheld in such Party's sole and absolute discretion.

The submission of this Agreement for examination and negotiation does not constitute an offer to license, or a reservation of, or option for, any portion of the Tower Facility, and Licensee shall have

no right to use or occupy any portion of the Tower Facility or any appurtenant easement area hereunder until the execution and delivery of this Agreement by both Licensor and Licensee.

ATTACHED EXHIBITS:

- Exhibit A: List of Approved Equipment and location of the Licensed Space
- Exhibit B: Site Drawings indicating the location of Ground Space for Licensee's equipment shelter or space in Licensor's building (as applicable)
- Exhibit C: As-Built Drawings or Construction Drawings to be attached within forty-five (45) days after the Commencement Date in accordance with Section 3
- Appendix I: Definitions
- Appendix II: Insurance

Exhibit A

List of Approved Equipment and location of the Licensed Space

Exhibit B

**Site Drawing indicating the location of Ground Space for Licensee's equipment shelter
or space in Licensor's building (as applicable)**

Licensee shall not commence installation until Licensor has approved in writing said drawing and attached it hereto.

Exhibit C

As Built Drawings or Construction Drawings

To be attached hereto within forty-five (45) days after the Commencement Date.

Appendix I

Defined Terms

Affiliate(s): Any corporation, partnership, limited liability company or other entity that (i) is controlled directly or indirectly (through one or more subsidiaries) by Licensee, (ii) is the successor or surviving entity by a merger or consolidation of Licensee pursuant to Applicable Law, or (iii) purchases all or substantially all of the assets of Licensee. For purposes of this definition, "**control**" means the possession of the right through the ownership of fifty percent (50%) or more of the shares with voting rights to effectively direct the business decisions of the subject entity.

Agreement: defined in the introductory paragraph.

Annual Escalator: defined in Section IV.

Applicable Law: All applicable statutes, ordinances, laws, regulations and directives of any federal, state or local governmental unit, authority or agency having jurisdiction over a Licensed Space or affecting the rights and obligations of Licensor or Licensee under this Agreement, including without limitation, the Communications Act of 1934, as amended from time to time, FCC Rules and Regulations, and the rules, regulations and written policies and decisions of the FAA.

Application: defined in Section IV.

Application Fee: defined in Section IV.

Approved Equipment: the communications system, including antennas, radio equipment, cabling and conduits, shelter and/or cabinets and other personal property owned or operated by Licensee at the Licensed Space, as defined in Exhibit A or B to this Agreement.

BLM: defined in Subsection 5(d).

Business Day: a day other than a Saturday, Sunday or legal holiday for commercial banks under the laws of the United States or the state in which the Tower Facility is located.

Claims: demands, claims, suits, actions, proceedings or investigations brought against a Party by an unrelated or unaffiliated person or entity.

Commencement Date: defined in Section IV.

Common Expenses: defined in Section 7.

Connection Fee: defined in Section 5(b).

Construction Drawings: defined in Section 3.

Damages: debts, liabilities, obligations, losses, damages, excluding consequential or punitive damages, costs and expenses, interest (including, without limitation, prejudgment interest), penalties, reasonable legal fees, court costs, disbursements and costs of investigations, deficiencies, levies, duties and imposts.

Easement: defined in Section 2.

Effective Date: defined in the introductory paragraph.

FAA: the United States Federal Aviation Administration or any successor federal agency established for the same or similar purpose.

FCC: the United States Federal Communications Commission or any successor federal agency established for the same or similar purpose.

FCC Rules and Regulations: All of the rules, regulations, public guidance, written policies and decisions governing telecommunications generally and wireless telecommunications specifically as promulgated and administered by the FCC, which on the Effective Date includes, but is not limited to, those administered by the Wireless Telecommunications Bureau of the FCC and more specifically referenced as the Code of Federal Regulations, title 47, parts 0 through 101, as amended.

Final Rule: defined in Subsection 11(g).

Ground Lease: defined in Section 20.

Ground Space: The portion of the Tower Facility licensed for use by Licensee to locate a portion of the Approved Equipment thereon, in the square footage amount depicted on Exhibit B of this Agreement. In no event shall the Ground Space include the air space or rights above the Approved Equipment located in the Ground Space.

Hazardous Substances: Any hazardous material or substance which is or becomes defined as a hazardous substance, pollutant or contaminant subject to reporting, investigation or remediation pursuant to Applicable Law; any substance which is or becomes regulated by any federal, state or local governmental authority; and any oil, petroleum products and their by-products.

Holdover Fee: defined in Subsection 6(c).

Indemnified Party: any person or entity entitled to indemnification under Section 15 hereof.

Indemnifying Party: any person or entity obligated to provide indemnification under Section 15 hereof.

Initial Term: defined in Section IV and referenced in Subsection 6(c).

Interference: defined in Subsection 11(a)(i).

Labeling Fee: defined in Section 9.

Licensed Frequencies: defined in Subsection 11(a)(ii).

Licensed Space: Location of the Approved Equipment on the Tower and at the Ground Space as more specifically described in Exhibits A and B attached hereto.

Licensed User: defined in Subsection 11(a)(iii).

Licensee: defined in the introductory paragraph.

Licensor: defined in the introductory paragraph.

Monthly License Fee: defined in Section IV and referenced in Subsection 5(a).

MPE: defined in Section 25.

Notice Address: defined in Section 18.

NTP (Notice to Proceed): Written notice from Licensor to Licensee acknowledging that all required documentation for the construction and installation of the Approved Equipment has been received and

approved by Licensor and Licensee is authorized to commence its installation of the Approved Equipment at the Licensed Space, as more particularly set forth in Subsection 10(a) of this Agreement.

Paying Carrier: defined in Subsection 24(b).

Paying Carrier Rate: defined in Subsection 24(b).

Party(ies): Licensor or Licensee.

PCN Default: defined in Subsection VI.A.

PCN Retention Fee: defined in Subsection VI.A.

PCNs: defined in Subsection VI.A.

Permitted Frequencies: defined in Section III.

Priority User: defined in Subsection 11(a)(iv).

Relocation Notice: defined in Subsection 24(b).

Remittance Address: defined in Section II.

Renewal Term(s): defined in Section IV and referenced in Subsection 6(b).

RF Emissions: defined in Section 25.

Site Inspection Fee: defined in Section IV.

SSIS: defined in Subsection 10(b).

SSIS Fee: defined in Subsection 10(b).

Structural Analysis Fee: defined in Subsection 10(b).

Submeter Installation Fee: defined in Section IV.

Subsequent User: defined in Subsection 11(a)(v).

Term: Initial Term and each Renewal Term which is affected pursuant to Section 6 of this Agreement.

Tower: A communications or broadcast tower owned and operated by Licensor and located at the Tower Facility.

Tower Facility: Certain real property owned, leased, subleased, licensed or managed by Licensor shown on page 1 of this Agreement, on which a Tower owned, leased, licensed or managed by Licensor is located.

Trigger Condition: defined in Section 24(b).

Unlicensed Frequencies: defined in Subsection 11(a)(vi).

Unlicensed User: defined in Subsection 11(a)(vii).

Utility Change Event: defined in Subsection 5(b).

Utility Fee: defined in Section IV.

USFS: defined in Section 5(d).

Work: all work relating to the construction, installation, relocation and reconfiguration of Licensee's Approved Equipment at the Tower Facility, including without limitation, construction management, construction of an equipment pad, installation or modification of lines, antennas, shelters and equipment cabinets.

Appendix II

Insurance

A. Licensor shall maintain in full force during the Term of this Agreement the following insurance:

1. Worker's Compensation Insurance with statutory limits in accordance with all applicable state, federal and maritime laws, and Employers' Liability Insurance with minimum limits of Five Hundred Thousand and 00/100 Dollars (\$500,000.00) per accident/occurrence, or in accordance with all applicable state, federal and maritime laws.
2. Commercial General Liability Insurance (Bodily Injury and Tower Facility Damage), the limits of liability of which shall not be less than One Million and 00/100 Dollars (\$1,000,000.00) per occurrence.
3. An umbrella policy of not less than Five Million and 00/100 Dollars (\$5,000,000.00).

The above insurance shall provide that Licensee will receive not less than thirty (30) days written notice prior to any cancellation of, or material change in coverage. The insurance specified in this Item A shall contain a waiver of subrogation against Licensee and shall name Licensee as an additional insured, and shall be primary over any insurance coverage in favor of Licensee but only with respect to and to the extent of the insured liabilities assumed by Licensor under this Agreement and shall contain a standard cross-liability endorsement.

B. Licensee shall maintain in full force during the Term of this Agreement and shall cause all contractors or subcontractors performing Work on any Licensed Space prior to the commencement of any such Work on behalf of Licensee to maintain the following insurance:

1. Worker's Compensation Insurance with statutory limits in accordance with all applicable state, federal and maritime laws, and Employers' Liability Insurance with minimum limits of Five Hundred Thousand and 00/100 Dollars (\$500,000.00) per accident/occurrence, or in accordance with all applicable state, federal and maritime laws.
2. Commercial General Liability Insurance (Bodily Injury and Tower Facility Damage), the limits of liability of which shall not be less than One Million and 00/100 Dollars (\$1,000,000.00) per occurrence.
3. An umbrella policy of not less than Five Million and 00/100 Dollars (\$5,000,000.00).

The above insurance shall provide that Licensor will receive not less than thirty (30) days written notice prior to any cancellation of, or material change in coverage. The insurance specified in this Item B shall contain a waiver of subrogation against Licensor and shall name Licensor as additional insured, and shall be primary over any insurance coverage in favor of Licensor but only with respect to and to the extent of the insured liabilities assumed by Licensee under this Agreement and shall contain a standard cross-liability endorsement.

C. Notwithstanding the foregoing insurance requirements, (a) the insolvency, bankruptcy, or failure of any insurance company carrying insurance for either Party, or failure of any such insurance company to pay Claims accruing, shall not be held to waive any of the provisions of this Agreement or relieve either Party from any obligations under this Agreement, and (b) Licensor reserves the right, from time to time, to increase the required liability limits described above in Items A and/or B in accordance with then-current customary insurance requirements in the tower industry nationally.

Attention: Nottoway County Board of Supervisors Members

Re: Department of Social Services Retention Plan/Budget Adjustment

Presented is a retention plan for five employees of Nottoway County Department of Social Services. The five employees affected by the retention plan are:

Jennifer Hanna – 10% increase in pay due to job redefinition from Self-Sufficiency Specialist I to Self-Sufficiency Specialist II

Michelle Hylemon – 10% increase in pay due to job redefinition from Human Services Asst. II to Human Services Asst. III

Rhonda Johnson – 10% increase in pay due to change of duties

Alicia Walker – 10% increase in pay due to change of duties

Shannon Reed – 10% increase in pay for a competitive salary

The overall increase due to salary and benefit adjustments will be \$37,262.99 with the local funding amount to increase by \$5,775.76.

If you have any questions please let me know and I will follow up with Ms. Reed, Department of Social Services Director.

If there are no questions or concerns, I ask that the Board approve the budget adjustment in the amount of \$37,262.99 to take effect September 1, 2025.

Sincerely,

A handwritten signature in black ink, appearing to read "Logan Presley".

Re: State Aid Budget Adjustment

Attention Nottoway County Board of Supervisors,

Attached is a budget adjustment for the Nottoway County Library Department. Their State Aid funding was budgeted at \$74,628.00 for fiscal year 2026 (FY26). However, we have been notified since then that the State Aid for Nottoway County for FY26 was increased to \$101,180.00. I have attached a budget adjustment in the amount of \$26,552.00 to show the increase in projected revenue that we will be receiving from the State for our local Library.

If you have any questions, please feel free to contact me and I will address your concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Logan Presley". The signature is stylized with a large, flowing "L" and "P".

Logan Presley
Finance Manager

Commonwealth Regional Council

August 2025 Items of Interest

L-1

Ashley Way Homes - Keysville

The Ashley Way Homes in Keysville mark a major step forward in the region's Affordable Workforce Housing Project, with five new homes now completed and officially receiving their Certificates of Occupancy. Earlier this month, CRC and Virginia Housing conducted a site visit compliance review, confirming that the homes meet program standards and are ready for families. This development represents a key milestone in expanding access to safe, affordable housing and supporting workforce growth across Southside Virginia.

Drakes Branch Comp Plan

CRC staff continue to assist the Town of Drakes Branch Planning Commission with its Comprehensive Plan update. At the most recent work session on July 30, the Commission reviewed and accepted the draft of Chapter 1: Introduction with edits. To gather community input, CRC launched a survey campaign, distributing flyers throughout town, including inserts in upcoming water bill mailings, and providing paper copies at the Drakes Branch Town Hall/Municipal Building for residents without internet access.

VDOT STARS Interchange Study - Farmville

CRC staff continue to participate in the VDOT STARS Study for the US 460 Business (East 3rd Street) and Persimmon Tree Fork Road/Milnwood Road intersection in Farmville, with meetings held July 16 and 28, 2025. The study reviewed existing and projected 2045 traffic conditions, noting significant growth from planned developments, including a large data center. Three potential improvement alternatives were evaluated — a conventional design with signal and lane modifications, a thru-cut configuration, and a hybrid roundabout — with analysis focused on operational performance, safety benefits, and crash reduction. Next steps include identifying a preferred alternative, conducting public outreach in August–September 2025, and finalizing recommendations by October 2025.

VATI Site Visits - Lunenburg County

CRC staff joined Lunenburg County officials and Planet Networks for a VATI broadband site visit this month, observing construction work and progress on expanding high-speed internet access in the county. The visit provided an opportunity to review ongoing installation efforts in the field and discuss next steps for improving broadband connectivity for residents and businesses.

Upcoming Funding Opportunities:

- **Rescue Squad Assistance Fund (RSAF) – Fall 2025**
 - Applications open August 1 – September 15, 2025
 - Funds EMS vehicles, equipment, computers, training programs, and recruitment/retention initiatives for licensed EMS agencies and organizations.
- **AFID Infrastructure Grant – Fall 2025**
 - Expected to open September/October 2025
 - Supports capital projects like food hubs, farmers' markets, commercial kitchens, and value-added processing facilities (meats, dairy, produce).
- **Rural and Tribal Assistance Pilot Program (RTA)**
 - Applications accepted September 8 – October 8, 2025
 - Provides up to \$54.2 million in no-match grants for legal, technical, and financial advisory services to help advance rural and tribal infrastructure projects (roads, bridges, utilities).
- **VTC VA250 Marketing Leverage Program**
 - Applications open September 16 – October 23, 2025
 - Offers matching funds for marketing initiatives that promote Virginia's 250th commemorative events and tourism opportunities.
- **VTC Special Events & Festivals Program**
 - Applications open July 22 – September 11, 2025
 - Supports marketing and promotion for special events and festivals that increase visitation and tourism spending in Virginia.

The CRC provides free grant writing services for member localities and local 501C3 non-profits.

Burkeville School Transformation Project Milestone Timeline and Strategic Plan

Step 1: Core Zones of the Community Center

The Center programming can be grouped into these key zones:

1. **Health & Wellness** (clinic, counseling, CHW hub, natatorium, walking trails)
2. **Food Access & Education** (teaching kitchen, food pantry, soup kitchen, gardens, farmer's market)
3. **Economic Empowerment & Workforce** (workshops, GED, job skills, vendor alley)
4. **Child & Family Services** (daycare, after-school, parenting support, sensory rooms)
5. **Housing & Safety Net Services** (tiny homes, reentry programs, emergency shelter)
6. **Arts & Culture** (art studio, music, theater, podcasts)
7. **Recreation** (gym, swimming pool, putt-putt golf, walking trails, ropes course)

Step 2: Revenue Streams for Sustainability

Here's how each category can be self-sustaining:

Category	Revenue Streams
Health & Wellness	Medicaid/Medicare billing, FQHC/clinic partnerships, fitness class fees, private counseling reimbursements
Food Access	SNAP/WIC reimbursements, cooking class tuition, community-supported agriculture (CSA), cafe, and market sales
Economic Empowerment	Workforce development grants, small business incubator rent, adult education program partnerships
Family Services	VECF (VA Early Childhood Fund) subsidies, DSS childcare contracts, family foundations

Burkeville School Transformation Project

Housing & Support	Low-income housing tax credits, rental fees, reentry program grants, behavioral health contracts
Arts & Culture	Gallery & theater tickets, art class fees, art sales, and grants from arts councils
Recreation	Memberships, daily use fees, rentals for events, swim lessons, ropes course programming

Step 3: 3–5–10 Year Strategic Vision

Years 1–3: Foundation & Early Activation

- **Secure funding: Apply for USDA, EDA, CDBG, and health equity grants.**
- **Phase 1 renovations include the Kitchen, classrooms for workshops, and gym upgrades.**
- **Launch:**
 - **Food pantry and teaching kitchen.**
 - **Workforce training (GED, parenting, CHW programs).**
 - **After-school & family services.**
- **Host health screenings, small vendor events, and community dinners.**

Years 4–5: Expansion & Revenue Integration

- **Develop:**
 - **CSA farm and community garden.**
 - **Rental model: event space, classroom leases, vendor alley stalls.**
 - **Pilot a tiny home project for transitional housing.**
- **Open the Natatorium (indoor pool) and partner with swim and aquatic therapy providers.**
- **Scale mobile health and market services.**
- **Add trails and recreational features, such as a ropes course, bike paths, and flower gardens.**

Burkeville School Transformation Project

Years 6–10: Regional Hub for Resilience

- **The tiny home village is operational, with wraparound support services.**
- **Sustainability model: Renewable energy, food production co-op, solar + aquaponics.**
- **National designation: Rural Center of Excellence in Community Health.**
- **Offer certification programs (culinary arts, CHW, early childhood).**
- **Economic growth: Host regional farmers' markets, conferences, and performing arts.**

Next Steps

1. **Prioritize anchor programs with early revenue (e.g., teaching kitchen, childcare, CHW hub).**
2. **Create a facilities plan with cost projections and a phased approach by zone.**
3. **Build a grant and fundraising pipeline tailored to each phase.**
4. **Form strategic partnerships with VDH, DSS, VCW Piedmont, Feed More, and local colleges.**
5. **Engage community input with surveys or listening sessions.**

Burkeville School Transformation Project

Project Site:

Former Burkeville Elementary School – 17 classrooms, gym, cafeteria/kitchen, and 33 acres

Years 1–3 (Foundation Phase)

Community Activation and Essential Services Launch

Goal: Establish core safety-net services and create revenue-generating programs to improve food security, health, and workforce readiness.

Milestone	Description	Target Completion
Facility Upgrades	Renovate the kitchen for teaching use, re-open the gymnasium, and upgrade the classrooms into multipurpose spaces.	Year 1
HOPE Pantry Relocation	Expand and integrate pantry operations using the SWAP model, incorporating both cold and dry storage.	Year 1
Teaching Kitchen & CHW Hub	Launch culinary and nutrition education; host CHW trainings, and provide SNAP application assistance.	Year 2
Workforce Training & Childcare	Launch GED/job readiness, after-school care, and parenting programs	Year 2
Pilot Programs	Begin a small-scale community garden, farmers market, and vendor alley.	Year 3
Revenue Generation	Start rental model for classrooms and gym (fitness classes, workshops, events)	Year 3

Cost: \$ 1.2 - 1.8 Million

Burkeville School Transformation Project

Years 4–5 (Expansion Phase)

Economic Development and Social Enterprise Growth

Goal: Develop wraparound services, establish social enterprise models, and expand outreach in rural Nottoway.

Milestone	Description	Target Completion
Mobile Market Launch	Operate a produce truck for rural food access, tied to SNAP and CSA.	Year 4
Community Garden & Small Farm	Scale into 1–3 acres for teaching, job training, and produce sales	Year 4
Tiny Home Pilot	Construct 2–5 transitional units with support services.	Year 4
Natatorium & Aquatic Services	Open indoor pool for therapy, swim classes, and community health	Year 5
Events & Economic Hub	Host quarterly regional events, expand vendor alley, and farmer's market.	Year 5
Trails & Recreation	Build a walking trail, a ropes course, and a public-access green space	Year 5

Costs: \$2.5M–\$3.5M

Burkeville School Transformation Project

Recommended Nonprofit Types and Grants

Types of Nonprofits Ideal for This Project:

- Community Development Corporations (CDCs)
- Federally Qualified Health Centers (FQHCs) or Health Access Nonprofits
- Housing and Homelessness Advocacy Groups
- Food Security Organizations (e.g., food banks, urban farm networks)
- Workforce Development and Education Nonprofits
- Multiservice Human Services Agencies

Potential Grants:

- USDA Community Facilities Direct Loan & Grant Program: \$100,000–\$2 million
- HRSA Rural Health Care Services Outreach: \$200,000–\$300,000/year
- RWJF Systems for Action or Health Equity Awards: \$250,000–\$1 million
- Community Development Block Grants (CDBG): Varies by locality
- EDA Public Works and Economic Adjustment Assistance: \$500,000–\$3 million

Burkeville School Transformation Project

Strategic Staffing & Oversight Plan

1. Leadership & Governance

- **Executive Director / Project Director:** Oversees all aspects of the transformation, leads strategic planning, ensures deliverables are met, and serves as liaison to funders, the School Board, and community partners.
- **Deputy Director / Chief Operating Officer:** Manages daily operations, staff coordination, and budget adherence. Oversees timelines, HR, and performance.
- **Advisory Council:** Offers strategic guidance, represents local stakeholders, and ensures alignment with regional priorities. Includes School Board reps, funders, and community leaders.

2. Planning & Development

- **Capital Project Manager:** Coordinates renovation, retrofitting, and new construction phases (e.g., tiny homes, pool, trails).
- **Facilities Director:** Oversees maintenance, security, utility systems, and compliance across the 33-acre campus.
- **Fundraising & Grants Manager:** Identifies funding sources, writes grants, manages reporting, and donor engagement.
- **Finance Director / CFO:** Creates multi-year budgets, handles cash flow, grant compliance, and revenue tracking.

3. Programmatic Directors

- **Director of Education & Workforce:** Leads GED, career readiness, after-school, and workforce development programs.
- **Director of Health & Wellness:** Oversees clinic/CHW integration, mental health services, pool, and recreational programs.
- **Director of Nutrition & Food Systems:** Manages the teaching kitchen, pantry, mobile market, and community farm.
- **Director of Housing & Safety Net Services:** Leads tiny home program, case management, reentry services, and wraparound supports.
- **Director of Community Engagement:** Builds community trust, manages listening sessions, volunteers, and partner relations.

Burkeville School Transformation Project

4. Operations & Support Staff

- **HR Manager:** Recruits, trains, and retains staff. Manages payroll and workplace culture.
- **Communications & Marketing Coordinator:** Promotes programs, handles social media, newsletters, and branding.
- **Administrative Assistants (1-2):** Support department heads, track files, schedule meetings, and assist with reporting.
- **Volunteer & Internship Coordinator:** Manages civic engagement, service learning, and community participation.
- **Data & Evaluation Specialist:** Tracks KPIs, develops dashboards, supports reporting for grants and improvement.

5. Recommended Staffing by Phase

The staffing plan is designed to evolve in tandem with the project's development phases.

Phase	Core Staff Required
Years 1-3 (Launch)	Executive Director, Project Manager, Finance, Food Systems Director, Program Directors (2-3), Fundraising/Grants
Years 4-5 (Expansion)	Add Facilities Director, Wellness Director, Housing/Safety Net Director, Communications, HR
Years 6-10 (Sustainability)	Expand evaluation/data team, fully staffed program departments, and innovation/training staff.

Gulf to Goat Charity Bike Ride

Information Kit

Event: Gulf to Goat Charity Bike Ride

Start: October 1, 2025 9:00 AM *"Three Servicemen Statue South"*
Veteran's Memorial Plaza, 177 5th St, Apalachicola, FL

Finish: October 22, 2025 2:00 PM* *"Bill the Goat Statue"*
United States Naval Academy, Annapolis, MD *Weather and rider speed dependent

Web Address: www.gulftogoat.navy

Mission:

The goal of Gulf to Goat is to pedal with purpose, have fun, forge bonds, and make a meaningful difference one mile at a time.

Overview:

Cycling classmates, family and friends will pedal nearly 1200 miles through our great nation, from the *"Three Servicemen Statue South"* in Apalachicola, FL to the *"Bill the Goat Statue"* at the US Naval Academy, Annapolis, MD over a span of 22 days. Dominated by septuagenarians, the group will be riding for five important charities and veteran causes. The ride will require hard work, grit, dedication and unquestionable determination, but it is a small price to pay in their quest to support the efforts championed by their charities and will serve to highlight the many sacrifices by our veterans.

How Did it Start:

The idea began with a simple idea by Mike Meier and Dan "Murph" Murphy to do something special as the US Naval Academy Class of 1975 approached their 50th reunion. Camaraderie and fitness were great inspirations, but what about doing what the Class of '75 does best – give back! With five special charities that are directly linked to classmates, the idea quickly became a reality. Gulf to Goat was born!

Fundraising:

Riders will be supporting donations targeted towards important charities that have directly affected or are linked to classmates:

- The Emily Whitehead Foundation
- The Polycystic Kidney Disease (PKD) Foundation
- The Association for Frontotemporal Degeneration (AFTD)
- The Cystic Fibrosis Foundation
- The United States Naval Academy Association and Foundation

Who is Riding:

Listed below is a current list of riders and their affiliation to the Great Class of 1975

- Tom Brubaker USNA 1975
- Jay Donnelly USNA 1975
- Mike Donnelly USNA 2000 (Son of Jay)
- Dave Duffie USNA 1975
- Dave Frost USNA 1975
- Chuck Geyer USNA 1975
- Butch Hansen USNA 1975
- Steve Harmon USNA 1975
- Carl June USNA 1975
- Doug Leland USNA 1973
- Mike Maynard USNA 1975
- Mike McDermott USNA 1975
- Mike Meier USNA 1975
- Chris Mortenson USNA 1975
- Dan "Murph" Murphy USNA 1975
- Jeff Simons USNA 1975
- J. Kelly Ganjei Friend of USNA

The Route:

Traversing nearly 1200 miles between Apalachicola FL and Annapolis Md, the route will pass through towns and cities representing the best of our great country.

<u>Date</u>	<u>Start</u>	<u>Finish</u>
October 1:	Apalachicola, FL	Crawfordville, FL
October 2:	Crawfordville, FL	Monticello, FL
October 3:	Monticello, FL	Valdosta, GA

PRESS RELEASE:

FOR IMMEDIATE RELEASE

United States Naval Academy Class of 1975 Alumni Embark on Epic Cross-Country Bike Ride in Support of Charities and Veteran Causes

From October 1 to 22, 2025, members of the U.S. Naval Academy Class of 1975 will embark on a remarkable cross-country bike ride from Apalachicola, FL, to Annapolis, MD. Their destination: the iconic "Bill the Goat" bronze statue at the U.S. Naval Academy, marking the kickoff of their 50th reunion weekend.

Comprised of 15 septuagenarian graduates, friends and family, this extraordinary group embodies the values of bravery, honor, commitment, and philanthropy, proving that service to community and country never ends. Their nearly 1200-mile journey in span of 22 days also serves a greater purpose - raising awareness and funds for five worthy charities and supporting veteran causes.

This inspiring ride highlights the lifelong benefits of fitness and healthy living, proving that "age is just a number". Follow their progress and contribute to their cause by visiting www.gulftogoat.navy.

Please support these dedicated veterans as they continue their mission of service - one mile at a time.

October 6, 2025

AT A SPECIAL MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE EMERGENCY OPERATIONS CENTER THEREOF, ON MONDAY, THE 6TH DAY OF OCTOBER IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIR
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
N. GARRISON ELDER, COUNTY ATTORNEY
CATHERINE K. DOUGLASS, COUNTY ATTORNEY

Chairman Collins called the meeting to order at 12:08 p.m., provides the invocation, and then leads everyone in the Pledge of Allegiance.

Supervisor Ingram moves that the Board of Supervisors of Nottoway County, Virginia adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(29) Discussion of the award of a public contract involving the expenditure of public funds, including interviews of bidders or offerors, and discussion of the terms or scope of such contract, where discussion in an open session would adversely affect the bargaining position or negotiating strategy of the public body; specifically relating to PPEA proposals for the new courthouse. The motion receives a second from Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 12:10 p.m. The Board reconvenes at 1:44 p.m.

Chairman Collins moves that:

WHEREAS, the Nottoway County Board of Supervisors has convened an executive meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, §2.2-3712 (D) of the Code of Virginia requires a certification by this Board of Supervisors that such executive meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Nottoway County Board of Supervisors hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the executive meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the executive meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the executive meeting regarding the items discussed.

Supervisor Ingram provides a second. With a roll call vote, the Board respond as follows:

W. J. Collins	I certify
D. V. Norton	I certify
R. H. Ingram	I certify
J. A. Roark	I certify
G. G. Toth	I certify

Supervisor Ingram moves to accept English Construction option 1, phase 1, phase 2, and phase D. A second is provided by Supervisor Toth. Following a roll call vote, the motion carries as follows:

October 6, 2025

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Vice Chairman Norton notes that hers is an affirmative vote but with reservations due to English Construction's not being Better Business Bureau accredited.

Administrator Bowen reminds everyone of this Thursday's worksession. Chairman Collins asks that the Bowling Alley Proposal be added to that agenda.

Supervisor Roark moves to adjourn. Chairman Collins adjourns the meeting at 1:49 p.m.

Chairman

Clerk

Nottoway County Board of Supervisors

Special Meeting - October 6, 2025, 12:00 p.m.

Emergency Operations Center

207 W. Courthouse Road, Nottoway, VA 23955

AGENDA

1. Welcome

Invocation

Pledge of Allegiance

Call to Order

2. Approval of Agenda

3. Closed Meeting

I move that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(29) Discussion of the award of a public contract involving the expenditure of public funds, including interviews of bidders or offerors, and discussion of the terms or scope of such contract, where discussion in an open session would adversely affect the bargaining position or negotiating strategy of the public body; specifically relating to PPEA proposals for the new courthouse.

4. Open Meeting

a. Certification

b. Action, if any

Motion to Adjourn

October 9, 2025

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE EMERGENCY OPERATIONS CENTER THEREOF, ON THURSDAY, THE 9TH DAY OF OCTOBER IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIR
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
N. GARRISON ELDER, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:00 p.m.

Vice Chair Norton provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Supervisor Roark moves to approve the agenda. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Absent

Supervisor Toth arrives at 7:08 p.m.

Burke Junction Solar Project: Mr. Zody explains the current status of the Burke Junction Solar Project. The Planning Commission's main issue was not the setbacks but that there were no written waivers from adjacent property owners. The Ordinance states the distance is to a habitable dwelling and consideration was given to "habitable dwelling" versus any structure. Neither Mr. Zody nor the applicant have received negative feedback from the adjacent owners. Further, no one spoke at the Planning Commission's Public Hearing.

Mr. Zody brings forward verbiage in the Zoning Ordinance regarding setback standards that bring some confusion regarding waivers. He would like to make necessary corrections for clarity. Mr. Hyde requested applicants be required to submit an emergency action plan for battery storage and pay for related training. Mr. Zody is willing to add that as well.

Mr. Zody noted the site's unique topography reduces the project's visibility, so he approves the applicant's request to reduce the setbacks. Verbal waivers are insufficient; written waivers should be required for transparency and to avoid disputes. Discussion follows on whether properties across a public road are considered adjacent. Chairman Collins suggests updating the verbiage: For the purposes of this Ordinance, a state road does not make a parcel non-adjacent. Mr. Zody considers those across the road adjacent. Mr. Elder would also consider them adjacent and states the Board can clarify the ordinance however it would like. He offers: "if a state road divides two properties, those two properties are adjacent".

Ordinance to Relocate Registrar's Office: Administrator Bowen states the School has set a January 15th deadline for the Registrar's Office to be out of the Burkeville building. The process for moving a polling place begins with a public hearing and passage of an Ordinance which requires a two-week advertisement. Therefore, this process is on hold until after the November election to avoid confusion for voters. The Burkeville Fire Department and Town Mayor are agreeable to hosting the polling place.

Bright System/Tax Levy: As Commissioner Hudson could not attend tonight, Ms. Presley reads a prepared statement telling of the Commissioner's issues with Bright's software limitations when computing this year's taxes. When Bright removed levies from accounts with single-wide mobile homes, some accounts also had other personal property, leading to errors. The issues will reduce the projected revenue by \$9,282.87.

In speaking to Bright to correct this problem for next year, Bright estimated a cost of \$24,000 for a software upgrade. Commissioner Hudson recommends not paying for the upgrade now because next year staff can manually adjust the abatements. If more affected counties come forward, it could lead Bright to perform a bigger fix and bear the financial burden.

She concludes her statement by addressing complaints her office has received because of the new Fire/EMS levies and suggests sending citizens an explanatory newsletter. Last year, Administrator Bowen had suggested an insert be included in the tax bills similar to what Prince Edward sends, but there were logistic hurdles.

Commissioner Hudson joins by phone to clarify how single-wide mobile homes are taxed. Levies for fire and EMS were removed only from the mobile home (not the land). Concerns are expressed by Board members.

Bright's future is uncertain due to a recent ownership change followed shortly thereafter by the death of a key staff member. The Board will monitor this and consider alternatives if necessary.

Courthouse Committee: The courthouse project is ready to move on with a construction company. Administrator Bowen thinks the Courthouse Committee will no longer be needed for guidance into this next phase.

Bowling Alley Proposals: Administrator Bowen states the County received five proposals and then presents an alternative plan for the property. With the return per square foot from a sale being considerably less than the cost per square foot to build, Administrator Bowen suggests renovating every building possible, including renovating the Bowling Alley into office space which then opens up options. The goal is still to keep essential court services with the courthouse (the Circuit Court Clerk, General District Court Clerk, Commonwealth's Attorney, and Sheriff) and bring the Commissioner, Treasurer, and Registrar back to the complex.

Supervisor Roark moves to reject all Bowling Alley proposals that were presented. Vice Chair Norton provides a second. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark moves to disband the Courthouse Committee effective immediately. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen says there were good proposals for the bowling alley, but given the current needs, the County would be better served utilizing the building rather than selling it.

Taxes: Supervisor Roark clarifies for the public that the County's approximate \$60M budget is not funded strictly by local taxes. Funds also come from state and federal sources which are pass-through and mandated for specific services. His previous request to cut \$4.2 million is likely unattainable. He asks how deeply the County can cut from its portion so that funds are available to help offset the upcoming courthouse construction debt.

The Board discusses personnel being the main area for possible County cuts, but administrative and constitutional offices are already lean. Cutting further from the County's contribution to the School would impact programs and state/federal matches. Only a few non-governmental organizations (NGOs) receive funding, so cuts there would have minimal impact.

Statement of Disclosure: Chairman Collins has been advised that because the Rocky Ford Solar Project has expanded beyond the original individuals, it is no longer necessary that he recuse himself from voting. He has verified this with the COIA Council. It is, however, necessary that he disclose that his employer has an interest.

Chairman Collins reads the following Statement of Disclosure of Conflict into the record:

“This declaration is made with respect to the transaction in which a Supervisor of the County Board of Supervisors has a personal interest in a transaction involving the County and the applicable exception which permits said Supervisor’s participation.

The Virginia State and Local Government Conflict of Interests Act, in accordance with Section 2.2-3112 (B)(1) requires this disclosure, to be recorded in the County records, in any case in which I have a personal interest in a transaction, but my participation is permissible. Therefore, I make the following disclosure:

1. The transaction involved is:

Pursuant to Va. Code § 58.1-2636, the Board of Supervisors and Ampliform/Rocky Ford LLC are negotiating a siting agreement for a solar project facility; and
Application for a special exception permit by NW – Rocky Ford LLC for a solar facility within Nottoway County, Virginia.

2. My personal interest affected by this transaction is as follows:

The above-referenced transaction by the Board of Supervisors will involve the approval of a special exception permit for the construction of a solar facility project within Nottoway County. My employer, Citizens Bank & Trust holds deeds of trust on several parcels that are being considered as part of the solar application. However, in accordance with Section 2.2-311(B)(1), because the application includes a group of three or more persons affected by the transaction, including multiple landowners, participation is permitted upon this declaration. I will be able to participate in the transaction fairly, objectively, and in the furtherance of the public interests.”

- Signed William J. Collins, III, Chairman, 10/09/2025.

He must mention this disclosure whenever the Board discusses the Rocky Ford Solar Project.

Comments from Members of the Board:

Vice Chair Norton attended a firefighter safety meeting regarding potential fire hazards from solar panels and battery storage. She received an anonymous letter postmarked Richmond threatening her about voting on solar. She will meet with any citizen who would like to speak on a topic and will continue to base her decisions on facts.

Supervisor Ingram stressed the importance of considering the source of public comments and the prevalence of misinformation. He suggests the County consider reviewing the \$25 for vehicle decals as it can be confusing when combined with new levies.

Supervisor Roark discusses an upcoming meeting of the Emergency Squad’s Executive Board where he plans to initiate the process for the County to take over emergency services. His understanding is that the process would take about 18 months and to start now means he would not be stepping down from the Board with that project left undone. The Board realizes the cost of EMS will be ongoing.

Supervisor Toth expresses appreciation for serving on the EMS board and notes that many citizens are unaware that EMS is now mostly paid staff. He shared citizen concerns about fire/EMS taxes and funding for volunteer fire departments.

Administrator Bowen clarifies that the revenue from the sale of vehicle decals goes into the General Fund. Fire needs have been brought forward, and EMS is already projected to exceed its budget.

October 9, 2025

Chairman Collins explained the County has had deficit spending since 2018. Recent budgets have included planned draws from reserves, but efforts are being made to reduce them. Savings are now being realized at the LRA. The Landfill operates at a \$400,000 annual loss, and the Board is considering options such as privatization or moving to a tipping station.

Supervisor Ingram moves move that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(8) Consultation with legal counsel employed or retained by a public body regarding specific legal matters requiring the provision of legal advice by such counsel; and (A)(29) Discussion of the award of a public contract involving the expenditure of public funds, including interviews of bidders or offerors, and discussion of the terms or scope of such contract, where discussion in an open session would adversely affect the bargaining position or negotiating strategy of the public body, specifically regarding a solar siting agreement. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting.

The Board reconvenes in Open Meeting.

Supervisor Roark reads the following notice of certification:

WHEREAS, the Board of Supervisors of Nottoway County, Virginia, has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, §2.2-3712 (D) of the Code of Virginia requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia, hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

Responses to a roll call vote for certification are as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Having no further business, Chairman Collins adjourns the meeting.

Open Meeting – Certification – Action, if any

Motion to Adjourn

October 16, 2025

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 16TH DAY OF OCTOBER IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIR
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
CATHERINE K. DOUGLASS, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:09 p.m.

Administrator Bowen provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Administrator Bowen asks to amend the agenda adding a Closed Meeting for consultation with the attorney and to remove Public Hearing E-3 Zoning Ordinance Amendment – Airport District. Supervisor Roark moves to approve the agenda with the amendments mentioned. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Approval of the Minutes: Supervisor Toth moves to approve the minutes of the Joint meeting with the School Board held September 24, 2025, and the Special Meeting held October 6, 2025. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins begins the Delegations from the Public.

1 – Zachary Wells: Encourages the Board to consider their brothers and sisters in Christ and pray about each decision, particularly with tax increases.

2 – Joey Schnepf, Chief, Crewe Volunteer Fire Department: Clarifies they are all volunteers, and there has been no increase to their funding in three years. The County now funds them from the Fire Levy rather than through the General Fund, but they are not receiving more than in previous years.

3 – David Gibbs: Opposes the levies and believes the matter should have been decided by referendum. There are many poor in the County who cannot pay, and he is concerned more levies are ahead for the courthouse and animal shelter.

4 – Robin Reese: Opposes the tax increases and Fire/EMS levies. She encourages the Board to find another way to bring in revenue.

5 – Susan Fee: Would like to see the County offer tax relief for senior citizens.

6 – Gerard Wilson: Encourages the Board to cut costs and set priorities. Secondly, he asks the Board to assist with an issue accessing a private cemetery that has been gated and

locked. State Code allows family to access a private cemetery. Supervisor Roark would like to meet with Mr. Wilson regarding the issue.

Having been properly advertised and this date set for these Public Hearings, the Board hears the following.

1 – Zoning Ordinance Text Amendment – Public Utilities: Mr. Zody presents the request to amend the Zoning Ordinance definition of “public utilities” to include “solar”. The Planning Commission recommended unanimously to deny the request, their reason being the current definition already alludes to an energy-generating source. Mr. Zody has had no citizen contact on this matter.

Supervisor Roark moves to open the Public Hearing on the Zoning Ordinance Text Amendment – Public Utilities. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Bryan Thomas: Discloses he is a member of the Planning Commission. His view is that solar and battery storage are not public utilities. Utilities provide a useful service to the general public.

2 – Bill Outlaw: Presents moral issues with the solar panel supply chain.

3 – Chris Page: States as some large-scale solar facilities may be subject to utility-style regulations, he supports amending the ordinance.

Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. The applicant wishes to speak, and the Chairman allows it.

4 – Jared Burden, applicant: The request is to clarify the definition to include solar. He contends solar is electricity and thus already included in “public utilities”. However, the decision and interpretation would be up to the County attorney and the Board. He would like to see it clearly stated thus avoiding possible future debate.

Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Discussion follows on the need to include solar when other primary sources of electricity are not listed. Supervisor Ingram moves to accept the Planning Commission’s recommendation to deny the request to alter the definition of public utilities. A second is provided by Supervisor Roark for discussion. The Board discusses and clarifies the Planning Commission’s recommendation. He then withdraws his second. A second is provided by Supervisor Toth. Following a voice vote, the motion to accept the recommendation, denying the request, passes 5-0 as follows.

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Toth would like to revisit the tax issue presented during Delegations from the Public. Chairman Collins suggests they finish the public hearings and then revisit the topic.

2 – Solar Application – Burke Junction: Gregg Zody presents the application of Don and Gene Knight to site a 3MW solar project on approximately 30 acres south of Burkes Tavern Road. He received no contact from the adjacent property owners. The Planning Commission found it was in substantial compliance with the Comprehensive Plan, and they voted 7-1 to recommend approval of the Special Exception application to the Board of Supervisors providing the applicant secures written setback waivers from adjacent property owners. The project site is well-sited, being hidden from a majority of the adjacent properties.

Supervisor Roark moves to open the Public Hearing for the Special Exception for a solar application by Burke Junction/Don and Gene Knight. A second is provided by Supervisor Ingram. Following a voice vote, the motion to open carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Chris Page: Criticizes the Planning Commission for recommending denial on solar projects. (Chairman Collins notes this application was approved 7-1). He urges the Board to approve this small project to help Nottoway County get started in solar.

2 – Ester Rekhelman, Senior Project Developer, Hexagon Energy: Discusses the diligent efforts to reach adjacent property owners, the owner’s stewardship and environmental concerns for the property, and the request for a reduction in setbacks.

Supervisor Ingram commends Ms. Rekhelman for her presentation before the Planning Commission and the transparency with which she presented.

Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins recaps: This project received Planning Commission approval, neighbors were contacted via Certified Mail, no adjacent property owners objected, and a public meeting was held. Mr. Zody would like to address the Zoning Ordinance verbiage regarding waivers, but in this case, with Ms. Rekhelman stating that she has not received any negative feedback, he sees no need to seek written setback waivers. Mr. Zody supports this project. Board and staff agree written waivers are not needed due to lack of opposition and effective outreach.

Supervisor Roark asks if the Board can accept the Planning Commission’s approval if it comes with a request for written waivers. Supervisor Ingram explains the Planning Commission is concerned about the adjacent landowners, and there is nothing from neighbors in writing.

Mr. Zody has eight conditions and would also include the conditions provided by Hexagon Energy.

Chairman Collins entertains a motion to approve the Burke Junction solar, excluding the Planning Commission’s recommendation for a waiver requirement, including staff and Hexagon Energy’s voluntary recommendations. Supervisor Ingram moves to approve this request as such. A second is provided by Vice Chair Norton. Following a voice vote, the motion to approve carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

3 – ~~Zoning Ordinance Amendment~~ – Airport District Amended to Remove

After Supervisor Toth requests to address tonight’s comments from the public, Vice Chair Norton moves to amend the agenda to allow Board members opportunity to do so. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Toth speaks to a reference to Nottoway citizens being ‘poor’ and unable to pay their taxes because ‘poor’ is not solely about money. However, State Code requires the County to provide emergency services, and without an immediate source of revenue to fund EMS, a tax increase was necessary. The Board discussed many options but had to make a decision on how to fund EMS. A referendum would likely have brought a ‘no’ from the citizens, leaving the Board with the same options as without the referendum.

Supervisor Roark brought forward a tax levy early this year, so the volunteers are not to blame. Should the volunteers quit, the County would face a huge financial need which is why the Board implemented tax incentives to draw in volunteers. He urges citizens to stop taking frustrations out on the volunteers.

Vice Chair Norton gives data on Nottoway’s standing in comparison to its surrounding counties. Its tax rates are not the highest, one penny increase is equivalent to \$125,000 which would cover the cost of two EMTs. In comparison, Mecklenburg’s penny is equivalent to \$867,000. She says the Board has been working with the Commissioner in considering a reduction for the hardship on senior citizens, but to implement that is a lengthy process and, until then, the revenue must be found elsewhere.

4 – Citizen Input – Former Burkeville Elementary Property: In tonight’s packages is a resolution the Board received from the Nottoway County School Board. Administrator Bowen notes the Board of Supervisors advertised this public hearing to hear from the citizens of Nottoway County regarding the Nottoway County Public Schools’ request for permission to sell the former Burkeville Elementary School building and retain the proceeds for capital improvement projects.

Chairman Collins adds that the Code of Virginia offers options for the School regarding the building, one of which is to sell and retain the proceeds with permission from the governing body.

Supervisor Roark moves to open the Public Hearing for Citizen Input on the former Burkeville Elementary Property. A second is provided by Supervisor Ingram. Following a voice vote, the motion to open the Public Hearing carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Gerald Smith, Mayor, Town of Burkeville: The Town of Burkeville should have been notified first during any discussion on the sale of the property. It has a well and septic system on the property, and it is a historical landmark.

Supervisor Roark was unaware the Town of Burkeville had infrastructure on the property and offers a motion to table this matter until the Board of Supervisors can have a discussion with the Town. A second is provided by Supervisor Toth who clarifies that the public hearing would continue, but the Board would take no action tonight. Chairman Collins rules that the citizens have patiently waited their opportunity to speak to the matter, that no votes or action will take place until after the citizens have been heard.

2 – Rodney Reynolds: Agrees with Mayor Smith. The building houses the Office of the General Registrar, and he feels the Electoral Board was excluded from discussions. Also, the action would remove a piece of local history.

3 – Jackie A. Green August: Provides a detailed history of the property and speaks to the significance of Ingleside and its African American heritage. She calls for preservation of the building for community use.

4 – Elvira Beverly Ford: Urges not to sell the building as it is currently being used to serve community needs. In a food desert, it houses a food bank serving hundreds of citizens. She asks the Board to consider the building's potential.

5 – Kevin Hewitt, Hope Food Pantry volunteer: The food pantry serves 400+ families each month, and the building is ideal for services. He urges the Board to allow its continued use.

6 – Wanda Dyson: She attended the Ingleside School. The building is a historical landmark and a community resource. With food insecurity and a lack of local services, she urges the Board to keep the building open.

7 – Connie Reynolds-Hurt: Agrees with those who spoke to the historical aspect of the building, is concerned about moving and combining critical offices, and opposes moving the Registrar to Blackstone.

8 – Sarah Allen: Opposes the sale of the property. She advocates for its continued use by and for the community. She suggests a mental health services facility.

9 – Chris Page: Urges the Board to deny the school's request. He suggests the School Board surplus the property to the County.

Chairman Collins mentions receiving two e-mails from citizens asking the Board not to sell the property citing its historical value and its current use as a food pantry.

1 – Greg Eanes

2 – Kimberly Dyke-Harsley

Jackie A. Green August states she has a petition against the sale of the property signed by over one hundred citizens.

Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Vice Chair Norton provides clarification for the public. The School Board holds the deed to the property. However, the County bore the cost when the new building was built. Thus, the School has the right to sell the property, but the County has the right to direct the funds. She thanks Mayor Smith for bringing to light Burkeville's interest in the property. The School Board has given the County an eviction notice to vacate the property by January 15, 2026.

Supervisor Toth states the public has spoken to their desire to see the building surplus to the County and to see it stay available to those in need. He has had several citizens contact him to encourage the Board to let the building remain with the County and stay open.

Chairman Collins reviews the School's options in regards to the building: sell the building with permission, surplus the building to the County. Ms. Douglass notes the Supervisors would need to give the initial permission for the sale and retention of the proceeds, but it would not dictate what the funds would be used for. Administrator Bowen explains the School's intent is to use the proceeds for capital improvements, particularly securing school entrances. To Supervisor Ingram's question about the possibility of the Town of Burkeville helping financially, Mayor Smith indicated the Town of Burkeville could not assist financially.

Supervisor Toth moves to deny the School Board's request to sell the Burkeville school located at 507 Ingleside Street, Burkeville. A second is provided by Supervisor Ingram. Following a roll call vote, the motion to deny the request carries as follows:

W. J. Collins	Aye
D. V. Norton	Aye
R. H. Ingram	Aye
J. A. Roark	Aye
G. G. Toth	Aye

Vice Chair Norton moves to take a 15-minute recess. A second is provided by Supervisor Ingram. Approved unanimously. The Board reconvenes at 9:52 p.m. Chairman Collins polls the Board to ensure all are in agreement to continue past 10:00 p.m., and the decision to continue is unanimous.

The Board receives the following Department reports:

1 –Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for September 2025. Aaron French, Assistant Resident Engineer, reports that the Route 723/460 R-cut project is nearing completion with traffic engineers performing a field review this week. The Darvills/Fort Pickett roundabout is nearing advertisement for construction bids with an anticipated start date in the spring. The Crystal Lake Road rural rustic project is complete and will be posted at 35 mph. Final mowing and litter pickup is scheduled to begin November 5th. VDOT is preparing for snow and winter operations.

Supervisor Ingram asks if VDOT plans to resurface 49 South as it is bad; Mr. French says all resurfacing is complete for this year. Supervisor Toth asks Mr. French to review the large bump in the right lane of Highway 460W, just past the Route 606 overpass.

2 – Solid Waste: September 2025 Nottoway County Sanitary Landfill Waste Report: received an average of 43.71 tons of waste per day. Administrator Bowen mentions that TRC is still on the December worksession agenda.

3 – Building Inspection: September 2025 report; 28 building permits issued for \$6,149.84 in permit fees and \$1,212,225.24 in construction value; 175 inspections performed. Administration interviewed for the position of Building Official on October 2nd. An offer was made, but his present employer countered. There is a local resident also interested but who would need training.

Vice Chair Norton mentions that she and Supervisor Roark are the Personnel Committee, and she was not notified of the interviews. Administrator Bowen was unaware they wanted to be involved with hiring interviews. He had the Amelia Building Official present for the interview for his knowledge of that field. Chairman Collins suggests the Personnel Committee is for personnel matters rather than hiring. Vice Chair Norton states having the subject matter expert present makes sense.

4 – Animal Control: September 2025 report; 169 animal control calls; 0 summons issued, 0 convictions; 2 compliance notifications issued; 2 dogs held over 40 days (in foster care). Includes pictures of food donations and a monetary donation to cover a vet bill. Chairman Collins notes that work is continuing on the new shelter project.

5 – Piedmont Health District: No report provided.

6 – Nottoway County Public Library: Library Board of Trustees meeting packet for October 15, 2025; October Director's Report. Vice Chair Norton extends condolences to Ms. Zataweski on the recent loss of her husband.

7 – Nottoway County School Board: Administrator Bowen mentions the two budget items found in tonight's package. Dr. Martin and Heather Maier are present to speak to these if anyone has questions.

Dr. Martin praises staff and tells of their recent activities to show support to lunch staff by visiting, serving lunch, and clearing tables. October is Bullying Prevention month, and they initiated a Kindness Campaign in each school. Their budget process has begun.

Dr. Martin presents the budget adjustment: \$407,172 which is additional state funding and has no impact to the County (special ed, summer school, English learning students, staff training).

The budget carryover is per Chapter 725 which allows schools to carry over unexpended State funds provided the required local effort and match has been met. They are requesting to carry over Direct Aid and Facility Use rentals in the amount of \$3,024,096.75.

Supervisor Roark inquires if School funds can collect interest. Ms. Maier states they can collect interest which they are required to report on their annual State financial report. Should the Board not approve this carryover request, the schools must return the money to the State. He then asks for a list of capital improvements. Dr. Martin has a general capital improvement list, but the School Board has not prioritized it.

Supervisor Roark moves to approve the budget adjustment of \$407,172. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark moves to approve the request for carryover of \$3,024,096.75. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for September 2025. Mr. Zody has nothing additional to report.

10 – Emergency Services: Emergency Services Coordinator's Report for October 2025. Fire & EMS Working Group Planning Meeting Agenda for September 23, 2025, and October 7, 2025. Mr. Hyde commends the three fire departments for drills and community events. A solar firefighting class was held. GIS mapping of hydrants at state facilities was completed. The draw down of the \$1 million DOJ grant went through and was received by the County. The \$1 million is now to be paid to the vendor.

Mr. Hyde then asks the Board to approve distribution of the Virginia Department of Fire Programs Aid to Localities that was received by the County in the total amount of \$53,792.00, divided equally for a total of \$17,930.66 to each of the three departments. Supervisor Roark

moves to approve the consent request as presented for the authorization of equal distribution of the FY26 Virginia Department of Fire Programs Aid to Localities (AtL) funding to each of the three volunteer fire departments in Nottoway County. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

11 – Piedmont Regional Jail Authority: Chairman Collins reports the PRJA meeting was held yesterday. The meeting included a tour of the facilities to show the security improvements. There are ten VCBR residents incarcerated there which is down for the third consecutive month.

12 – Pickett Park: Lease Actions Income Report dated October 2, 2025. Officer's Club Income Report dated October 2, 2025.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Present but nothing to report.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package.

4 – Christy A. Hudson, Commissioner of the Revenue: No report provided.

5 – Leanne Watrous, Commonwealth's Attorney: Case reports in the package.

The Board considers the following unfinished business.

1a – Animal Shelter: Supervisor Ingram attended the last meeting. CARES has received bids on furniture and appliances. Administrator Bowen reports that the Town of Burkeville agreed to pay for the water lines but not the sewer lines, and work is ongoing for installing the sewer lines to the road.

Administrator Bowen clarifies that the County's current shelter falls under the State Veterinarian's Office, and it does not meet Code. That office is giving the County a grace period to bring the shelter into compliance and meet the Code requirements.

1b – Dispatching: Sheriff Jones reports a Dispatch Supervisor has been hired

1c – Broadband: Work is ongoing with RiverStreet vehicles seen in the area.

1e – Courthouse PPEA Update: Ms. Douglass states the County voted to proceed with English Construction, and the Judges' October deadline was met when a plan was submitted to their attorney for review. Their attorney requested supplemental information which English is now compiling.

1f – Committee Reports: Vice Chair Norton extends condolences to the family of Arlene Robertson on her recent passing. Ms. Robertson worked on the PSR board for decades.

The Board considers the following Consent Items.

1 – September Expenditures Report

2 – Sheriff NG911	\$150,000.00
-------------------	--------------

3 – Erroneous Assessment – Refund	\$6,848.88
-----------------------------------	------------

Supervisor Roark moves to approve the Consent Items. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board considers the following new business:

1 – VACo 2025 Voting Credentials: Administrator Bowen will be representing the Board at the upcoming VACo Conference. In order for Nottoway County to have a voice, someone must be approved to vote on Nottoway's behalf. He is seeking the Board's authorization to cast the County's votes on November 11, 2025.

Supervisor Roark moves to approve Administrator Bowen as authorized representative for Nottoway County. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The following information items are presented in the package:

- 1 – CRC – September 2025 Items of Interest
- 2 – Burkeville Volunteer Fire Department – Call Report for September 2025 & Payroll
- 3 – Crossroads Patient Report – February 2025
- 4 – Town of Crewe Notices
- 5 – Madeline's House Compassionate Purse Fundraiser
- 6 – Biosolids Notices – Nutri-Blend and Synagro
- 7 – Dominion Energy – PJM Transmission Plan Notice
- 8 – Leadership in America Lecture Series
- 9 – CARES Fundraiser
- 10 – SVCC GED Graduation
- 11 – Columbia Gas Application Notice – (full document available in Admin)
- 12 – Dominion Energy – Notices (3) – (full docs available in Co. Admin.)

Administrator Bowen reminds the Board that the Monday, October 20th meeting to discuss the Rocky Ford Solar siting agreement has been canceled.

Comments from members of the Board.

Vice Chair Norton mentions the Crewe Town Council meeting was postponed until October 20th. Mr. Hyde and Chief Schnepf will be in attendance to report on safety procedures and pipe sizing regarding the new water lines being installed.

Supervisor Ingram clarifies the move of the Registrar's Office to Blackstone would not affect voting in Burkeville. The polling place would move to the Burkeville Fire Department. Administrator Bowen has confirmed the relocation of the polling place with Mayor Smith and Chief Brian Weltch who were agreeable to the arrangement.

Ms. Douglass is asked if the utilities are cut off to the Burkeville school building, is it considered abandoned? Would it then be necessary for the County to take possession to secure it? She would be willing to research the issue to make a recommendation.

Supervisor Roark suggests future discussions on the levies and a comparison of percentage increases of previous budgets. He presents the following four items for consideration.

1. Eliminate salaries of Board of Supervisors
2. Eliminate pay for Committees. Supervisors note the Committees are in charge of their payment; this would not be a savings for Nottoway County
3. Find 10% to cut from County's spending (reduction of \$1 million)
4. Cut taxes for those retired, aged 65+

Supervisor Toth explains why he took exception to the use of the word "poor". He stresses the necessity of the Fire and EMS levies and the importance of the volunteers:

Chairman Collins has always asked for the courtroom to be full when issues are to be discussed. He appreciates the good turnout and participation by citizens speaking tonight.

Supervisor Ingram moves that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(8) Consultation with legal counsel employed or retained by a public body regarding specific legal matters requiring the provision of legal advice by such counsel, specifically matters pending in County Administration. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 10:40 p.m.

Supervisor Roark motions to come out of Closed Meeting. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board reconvenes in Open Session at 11:00 p.m.

Chairman Collins reads the following notice of certification:

WHEREAS, the Board of Supervisors of Nottoway County, Virginia, has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, §2.2-3712 (D) of the Code of Virginia requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia, hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were

discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

Responses to a roll call vote for certification are as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Having no further business, Supervisor Toth moves to adjourn. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins adjourns the meeting at 11:01 p.m.

O. Closed Meeting

Motion to Adjourn

AT A JOINT WORKSESSION OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, AND THE NOTTOWAY COUNTY SCHOOL BOARD HELD AT THE NOTTOWAY HIGH SCHOOL MINI AUDITORIUM, 5267 OLD NOTTOWAY ROAD, CREWE, VIRGINIA, ON WEDNESDAY, THE 24TH DAY OF SEPTEMBER IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIR
RICHARD H. INGRAM, JR.
STEVE W. BOWEN, COUNTY ADMINISTRATOR
CATHERINE DOUGLASS, COUNTY ATTORNEY

ABSENT: JOHN A. ROARK
GEORGE G. TOTH, III

The meeting was called to order by Chairman Abbott and Chairman Collins at 6:30 p.m. Chairman Abbott called for a moment of silence, and the invocation was provided by Damien Rowe. The Chairman led everyone in the Pledge of Allegiance. The School Board voted to approve tonight's agenda.

The purpose of tonight's meeting is to discuss the Burkeville Elementary School property. The School Board is seeking the Board of Supervisors' formal permission to sell Burkeville Elementary School and keep the proceeds. Chairman Abbott cites the Code of Virginia and adds that this is allowed with approval of the governing body. Ownership and the process to sell or surplus is discussed.

The County received notification by written letter from the School requiring the voter registrar's office vacate Burkeville Elementary by January 15, 2026. Administrator Bowen gives a synopsis of upcoming challenges at the County level including the plans to build a new courthouse which will require temporary "swing space" for departments displaced during construction.

Discussion was held on the legal and procedural steps needed to relocate the Registrar's Office. As that office is also a polling place for Precinct No. 101 as well as the Central Absentee Voter Precinct, moving will require an ordinance and public hearing. Possible challenges to the relocation process are delays in communication from the Electoral Board, uncertainty about the suitability of the South Main Street building, and possible delays at the Office of the Attorney General.

The School Board stated that the annual operating costs for Burkeville Elementary exceed \$80,000. The County pays the School approximately \$7,000 per year for the Registrar's Office with approximately \$3,000 more coming from other tenants (Feed More, church). These entities pay well-below market rates and School Board Policy KGR rates of \$22/hour.

All tenants were given the same notice to vacate. Feed More has month-to-month arrangements. The church uses the space twice per month. The State Police have not held a training exercise there this year.

Chairman Abbot states one option is the County purchasing the building from the School Board for use as swing space or other needs. There was a comment about taxpayers paying for the building twice.

The School Board would need to hold a public hearing before any sale. It will vote on a resolution requesting permission to sell at its October 9th meeting. The Board of Supervisors would like to hear input from the citizens prior to consideration of the School's request.

Ms. Douglass will draft the necessary documents for submission to the OAG regarding the Registrar's move. Administrator Bowen will contact the Town of Burkeville regarding the precinct and polling place relocation. If delays occur but progress is demonstrated, the School Board may consider extending the January 15th deadline.

September 24, 2025

The School Board states they would use proceeds from the sale for capital improvements. Prior studies indicate costly renovations would be required to reopen Burkeville Elementary as a school (\$23–26 million). There is discussion on the declining enrollment trend, school capacity, and ideas were discussed as alternative uses for the property.

Motions to adjourn were heard with seconds provided from the School Board and Board of Supervisors (motion by Supervisor Ingram and seconded by Vice Chair Norton). Chairmen adjourned the meeting at 7:29 p.m.

Chairman

Clerk

AT A SPECIAL MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE EMERGENCY OPERATIONS CENTER THEREOF, ON MONDAY, THE 6TH DAY OF OCTOBER IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
 DAPHNE V. NORTON, VICE CHAIR
 RICHARD H. INGRAM, JR.
 JOHN A. ROARK
 GEORGE G. TOTH, III
 STEVE W. BOWEN, COUNTY ADMINISTRATOR
 N. GARRISON ELDER, COUNTY ATTORNEY
 CATHERINE K. DOUGLASS, COUNTY ATTORNEY

Chairman Collins called the meeting to order at 12:08 p.m., provides the invocation, and then leads everyone in the Pledge of Allegiance.

Supervisor Ingram moves that the Board of Supervisors of Nottoway County, Virginia adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(29) Discussion of the award of a public contract involving the expenditure of public funds, including interviews of bidders or offerors, and discussion of the terms or scope of such contract, where discussion in an open session would adversely affect the bargaining position or negotiating strategy of the public body; specifically relating to PPEA proposals for the new courthouse. The motion receives a second from Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 12:10 p.m. The Board reconvenes at 1:44 p.m.

Chairman Collins moves that:

WHEREAS, the Nottoway County Board of Supervisors has convened an executive meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, §2.2-3712 (D) of the Code of Virginia requires a certification by this Board of Supervisors that such executive meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Nottoway County Board of Supervisors hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the executive meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the executive meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the executive meeting regarding the items discussed.

Supervisor Ingram provides a second. With a roll call vote, the Board respond as follows:

W. J. Collins	I certify
D. V. Norton	I certify
R. H. Ingram	I certify
J. A. Roark	I certify
G. G. Toth	I certify

Supervisor Ingram moves to accept English Construction option 1, phase 1, phase 2, and phase D. A second is provided by Supervisor Toth. Following a roll call vote, the motion carries as follows:

October 6, 2025

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Vice Chairman Norton notes that hers is an affirmative vote but with reservations due to English Construction's not being Better Business Bureau accredited.

Administrator Bowen reminds everyone of this Thursday's worksession. Chairman Collins asks that the Bowling Alley Proposal be added to that agenda.

Supervisor Roark moves to adjourn. Chairman Collins adjourns the meeting at 1:49 p.m.

Chairman

Clerk

September 16, 2025 Planning Commission Summary

Members present: Woolfolk, Lewis, Pettis, Bruce, Bryant, Lavelle, Carter, Kite, Ingram (Liaison)

Members absent: Perry, Williamson

The planning commission meeting commenced with the approval of an altered agenda and corrected August minutes. Discussions included airport zoning amendments, with one recommended for approval with conditions and another tabled pending visual maps and landowner input. A proposed text amendment to include solar in the public utilities definition was denied. The Burke Junction solar project's special exception permit was subsequently recommended for approval, contingent on staff recommendations, voluntary conditions, and obtaining waivers for setback reductions from adjacent property owners. The meeting concluded with a note to clarify conflicting language in the setback ordinance and a look ahead to next month's caseload.

Topics

Approval of Agenda: The agenda was approved with an alteration to move airport ordinance items to the top for discussion first. **Approval of Minutes:** Minutes from the August meeting were approved with two noted corrections regarding spelling and name clarification. **Airport Zoning District (Text Amendment):** Discussion centered on creating a new zoning district for areas adjacent to airports to encourage aviation-related businesses, with the commission recommending approval with an amendment for county approval of community events. **Airport Overlay District (Zoning Ordinance Amendment):** This topic involved creating an overlay district to ensure FAA compliance around airports, but was tabled until the next meeting due to concerns about the lack of a visual map and need for landowner input. **Public Utilities Definition (Text Amendment):** A proposal to amend the definition of "public utilities" to explicitly include "solar" was discussed and ultimately denied by the commission. **Burke Junction Solar Project (Special Exception Permit):** Hexagon Energy presented its 3-megawatt solar project, first securing a determination that it complies with the comprehensive plan, and then receiving a recommendation for approval of its special exception permit with staff conditions, applicant's voluntary conditions, and a requirement for waivers for setback reductions. **Setback Ordinance Clarification:** A brief discussion highlighted conflicting language within the existing setback ordinance concerning waivers for habitable dwellings versus parcels and the distinction between waivers and board-granted exceptions. **Next Month's Caseload:** The upcoming meeting's agenda will include the Rocky Ford Development LLC's solar project application.

Key Actions and Responsibilities

Staff (Mr. Zody/office) will create a visual map and gather input from affected landowners for the Airport Overlay District before the October 21st meeting. The Planning Commission will continue discussion on the Airport Overlay District at the October 21st meeting. The Planning Commission will review Rocky Ford Development LLC's solar project application at the next

meeting on October 21st. Staff (Mr. Zody/attorney) will review and prepare for discussion on the conflicting language in setback ordinance (4.19.7, paragraph 4) before the October 21st meeting, possibly at an October 9th work session. Hexagon Energy (applicant) will develop an emergency management plan in coordination with local fire stations before final site plan approval for the Burke Junction Solar Project. Hexagon Energy (applicant) will submit a construction management plan to VDOT, coordinating with school schedules and road conditions, before site plan approval for the Burke Junction Solar Project. Hexagon Energy (operator) will update the decommissioning plan and security bond every five years throughout the project's life. Hexagon Energy (operator) will coordinate waste facility placement with county administration at decommissioning. Hexagon Energy (applicant) must seek waivers for setback reductions from adjacent property owners prior to the Board of Supervisors review for the Burke Junction Solar Project. Staff (Mr. Zody) will inform the Planning Commission about the outcome of the text amendment vote as information becomes available. The Planning Commission moved to adjourn the current meeting.

Summary

The planning commission meeting covered several key zoning and development issues. The agenda was altered to prioritize airport-related ordinances. The minutes from the August meeting were approved with corrections. A proposed text amendment for an airport district zoning was approved with a condition for county approval of community events. However, an airport overlay district zoning amendment was tabled for further information (map and landowner input). A request to amend the definition of 'public utilities' to specifically include 'solar' was denied. Finally, a special exception permit for the Burke Junction Solar Project was discussed extensively, including a detailed presentation, public hearing, and questions regarding setbacks and economic impact. The commission ultimately voted to recommend approval of the solar project to the Board of Supervisors, subject to staff conditions, voluntary conditions from the applicant, and the requirement for waivers from adjacent landowners for reduced setbacks. The meeting concluded with a note to address conflicting language in the setback ordinance at a future meeting.

Subject: **Airport Overlay District Zoning Amendment** Next Action: **Table until the next meeting for map creation and landowner input.** Timeline: **October 21st meeting**

Subject: Public Utilities Definition Amendment Next Action: **Deny the request to specifically include 'solar' in the definition.** Timeline: **Completed in this meeting**

Subject: Burke Junction Solar Project Special Exception Permit Next Action: **Recommend approval to the Board of Supervisors with staff recommendations, voluntary conditions, and a requirement for waivers from adjacent landowners for reduced setbacks.** Timeline: **To be forwarded to the Board of Supervisors**

Subject: Setback Ordinance Language (Section 4.19.7, Paragraph 4) Next Action: **Review and clarify conflicting language regarding waivers for parcels vs. habitable dwellings.** Timeline: **New business for a future meeting**

NOTTOWAY COUNTY PLANNING COMMISSION MEETING AGENDA

Tuesday, September 16, 2025, 7:00 PM
General District Courtroom
328 West Courthouse Road
Nottoway, VA, 23955

- I. Call Meeting to Order Chair
Invocation Chair
Attendance - Roll Call Gregg
Approval of the Agenda Chair
Approval of the Minutes Gregg">
 - August 19, 2025 Minutes
- II. Public Hearings Gregg">
 1. Consideration of a zoning ordinance text amendment proposed by GreenHurlocker, PLC, to amend Article 6, Definitions, Sec. 6-1-2 List of Definitions, to incorporate the terms "Solar Energy Facility, Battery Energy Storage Facility, solar" into the "Public Utilities" definition. Vote 8-0 to recommend denial
 2. Special Review Project application – The applicant, Burke Junction Solar, LLC, requests a determination by the Planning Commission pursuant to Virginia Code § 15.2-2232 and Section Sec. 4-19-4(3) of the Nottoway County zoning ordinance to determine whether constructing a 3 megawatt solar facility (on a portion of tax map number 16-32D) complies with the Comprehensive Plan. The proposed project sites are located on approximately 30 acres in the northeast and southeastern portions of the property, which comprises a total of 121 acres. The site is located between the northern railroad tracks and north of the southern railroad tracks, on the west side of the Town of Burkeville corporate limits, on the south side of Burkes Tavern Road railroad crossing. Vote 7-1 as substantial conformity to the Comprehensive Plan.
 3. Consideration of a special exception request for a solar facility (Article 4, Division 19 – Solar Energy Facilities, §4-19-1) submitted by Burke Junction Solar, LLC. The proposed development site will have an output of 3 megawatts (on 30 acres of a portion of tax map number 16-32D – approximately 121 acres). The applicant is also seeking setback reductions per §4-19-4 of the Nottoway County zoning ordinance. The site is zoned Conservation (C-1), and the applicants are seeking

reductions in setbacks per §4-19-4 of the County Zoning Ordinance. The site is located between the northern railroad tracks and north of the southern railroad tracks, on the west side of the Town of Burkeville corporate limits, on the south side of Burkes Tavern Road railroad crossing. (Vote 7-1 for recommendation of approval with the added condition that the applicant seek setback waiver requests from adjacent property owners where the setbacks are not met.)

4. A zoning ordinance to amend Article 2 and establish Article 10 to create a new zoning district, Airport. The purpose of this new zoning district is to provide space for airports and vertiports (VTOL = Vertical Take Off and Landing) licensed by the Virginia Department of Aviation or any United States government or military air facility. This use also includes aviation uses within and adjoining the airport facility that are compatible with an airport environment. (Vote 8-0 for recommendation to approve and making a condition that the Town of Crewe must receive approval for uses contained in 2-10-4(D) - "D" Should be "C", page 76.)
5. 2. A zoning ordinance amendment to update Article 3, Division 3, Airport Safety Overlay District (ASOD) to reflect changes in Virginia State Code 24VAC5-20-400. Appendix A: Airport Safety Zoning Ordinance. (Vote 8-0 to table until October meeting so staff can create a map illustrating adjacent property owners.)

III. Zoning Ordinance Revision Review	NONE
IV. Next Month's Caseload (October 21, 2025	Gregg
V. Adjourn	Chairman

Planning Commission Meeting Summary

August 19, 2025

The Nottoway County Planning Commission convened its meeting, which included standard opening procedures, discussions on proposed airport zoning, and a significant debate and decision regarding a solar facility application.

Meeting Opening

The meeting was called to order at 7:00 PM. The session began with a prayer, welcoming a new commission member (Mr. Kite) and a returning member (Mr. Bruce), and wishing Mr. Bowen a happy 62nd birthday. Prayers were also offered for Mr. Zody (illness) and Mr. Perry (traveling). Roll call was conducted, confirming the presence of most members. The minutes from the July 15th meeting were approved unanimously.

The agenda for the evening was then modified. Two public hearings concerning the Inverness Farm solar project were reordered to ensure that decisions regarding ordinance compliance were made before considering specific exemptions.

Airport Zoning and Overlay Districts

Mr. Boone introduced a discussion on two proposed public hearings related to the county's airports, highlighting the uniqueness of Nottoway County having two airports. He invited the town manager of Blackstone, Philip Van Wart, to explain the rationale.

Blackstone's Vision for Airport Development

- **Context:** The Town of Blackstone is negotiating to purchase approximately 72 acres from Nottoway County, adjacent to the Blackstone Army Airfield/Allen C. Perkinson Municipal Airport. This land was transferred to the county during the mid-1990s BRAC (Base Realignment and Closure) process.
- **Purpose of New Zoning:** The current zoning (General Business) is unsuitable. The goal is to create a new, restrictive zoning district (Airport District) specific to aviation, both manned and unmanned, to support research, development, training, manufacturing, and assembly of aircraft. This would prevent the land from being used for commercial ventures like gas stations or shopping centers.
- **Economic Driver:** The airport is envisioned as the county's "next economic driver," building on the success of FASCI.
- **Unmanned Aviation Focus:** Blackstone is already home to UAV Pro (Textron Corporation), which employs around 76 people and manufactures unmanned aerial vehicles. The airfield is the site of the first FAA-licensed vertiport (vertical takeoff for unmanned vehicles) in the United States. It's also the eastern terminus of a Virginia Tech

corridor study for "out of sight" unmanned aviation, developing standards for non-line-of-sight operations.

- **Process:** The creation of the Airport District text and an Airport Overlay District are the initial steps. A subsequent public hearing would be required for the actual rezoning of the 72 acres, which would be a contingency for the land sale to proceed.
- **Airport Overlay District:** This district would establish protections, aligning with FAA regulations, concerning height restrictions and obstructions near runways.

Crew's Perspective

- The Town Manager of Crew, Phil Moskovic, expressed support for Blackstone's initiative.
- He requested amendments to the proposed zoning language to allow for broader municipal uses at Crew's airport, such as storing debris after storms, community events (e.g., Airfest, Chicken Festival), and other municipal operations, potentially without needing administrative permits. This is due to Crew's airport being used for more than just aviation and its closer proximity to residential areas compared to Blackstone.

Commission Discussion & Outcome

- Commissioners raised concerns about the lack of a map for the overlay district, how it might impact neighboring residential properties, and the proposed reduction of lot frontage requirements from 150ft to 100ft.
- **Decision:** The public hearings for both the Airport Zoning District and the Airport Overlay District were *tabled* until the next meeting. The request was to provide a cleaner document incorporating all suggested changes (from both Blackstone and Crew) and a clear map, which would then be reviewed by the county attorney.

Inverness Farm Solar Facility Application

The commission then addressed a special exception request for a solar facility at Inverness Farm, concerning alterations to county zoning ordinance setbacks, followed by a review of the application itself.

Special Exception Request for Setback Alterations

- **Request:** The applicant sought to reduce setbacks from the county ordinance, specifically:
 - 300ft to 150ft (general setback).
 - 300ft to 100ft (along Lewiston Plank Road).
 - 1200ft from a habitable dwelling to 375ft.
- **Public Comments:**
 - A nearby resident (1226 Lewiston Plank Road) expressed concern about the visual impact of solar panels from the road and potential effect on property values, preferring the 300ft setback.

- An adjacent landowner (John Shute) did not oppose the project, noting the existing industrial character of the surrounding area (substation, correctional facility) and the applicant's status as a good, conservation-minded neighbor facing high farm taxes.
- Mr. Williamson urged the commission to adhere to existing solar ordinance guidelines and suggested consulting "Protecting Virginia counties and local citizens" guidelines.
- Peggy Figler, President of the Nottoway County Historical Association, expressed *strong opposition* to placing an "industrial solar facility on a triple registered historical property" (National Trust, National Register of Historic Places, Virginia Landmark), citing a Deed of Preservation and Conservation Easement and arguing it would compromise historical integrity.
- **Commissioners' Discussion:**
 - A commissioner received an email from a resident urging to maintain the 300ft setbacks.
 - Concerns were raised about the significant reduction from 1200ft to 375ft from habitable dwellings.
 - One commissioner highlighted that the existing ordinance might not allow waivers reducing setbacks below 300ft for non-immediate family parcels, making the 100ft proposal non-compliant from the outset.
- **Applicant's Response (Mr. Haney):**
 - The ordinance permits project-specific adjustments.
 - The landowner directly across Lewiston Plank Road had provided a waiver letter.
 - The National Trust easement is a private document; they will not rule on the project until the county does, but assured that the Trust would likely impose stricter conditions (e.g., fencing, buffers) than the county.
 - Panels have anti-glare coatings, and landscaping (trees) would eventually shield views from the road.
 - The project uses driven posts, not concrete, for minimal ground disturbance.
 - Enforcing stricter setbacks would increase the project's footprint from 40 acres to nearly 50 acres for the same power output.
- **Decision:** The commission voted to *deny* the request for special exceptions to the setback requirements, affirming adherence to the county's existing zoning ordinance.

Review of Solar Facility Application Against Comprehensive Plan

Following the denial of setback exceptions, the commission proceeded to review the solar project application's compliance with the comprehensive plan. This decision was separate, as the Board of Supervisors could potentially overrule the setback denial.

- **Commissioners' Discussion:**
 - Concerns were reiterated regarding the project's historical impact given its location on a triple-registered historical property.
 - Reliance on Dominion Energy (not the applicant) for future ownership and decommissioning was questioned, as Dominion was not formally part of the application.

- Concerns were voiced about the decommissioning plan, particularly the timeline for the bond (starting at year 15 of a 35-year project) and the possibility of the county having to complete decommissioning if the bond is insufficient or triggered early.
- Questions arose about panel degradation rates and reported underperformance of Dominion solar projects in Virginia.
- The applicant clarified that tax dollars would be collected regardless of power efficiency and that the 40-acre project (11-12% of the farm) would incorporate pollinator-friendly plants and beehives, continuing "farm benefits."
- **Decision:** The commission voted to *deny* that the solar facility application, as presented, complies with the comprehensive plan.

Zoning Ordinance Revision Review

This agenda item was skipped as no related documentation was provided in the packet.

Phishing Scam Alert

A county official alerted the commission and the public to a phishing scam targeting applicants, where fraudulent invoices for \$25,000 via wire transfer to an out-of-state bank were being sent, using county officials' names for application approval. Citizens were advised to report any such suspicious activity directly to county officials or the Sheriff's office.

The meeting was adjourned.

EXPLANATION OF PROPOSED TEXT AMENDMENT

Zoning Ordinance Amendment Proposed by NW – Rocky Ford LLC Rocky Ford Solar Project

NW – Rocky Ford, LLC wishes the Board of Supervisors to consider the Zoning Ordinance amendment described below.

The Zoning Ordinance amendment would clarify what is a public utility by adding “Solar Energy Facility” and a “Battery Energy Storage Facility” (both defined terms in the Zoning Ordinance) to the definition of “Public Utilities.” This amendment would have the effect of allowing solar energy facilities and battery storage energy facilities, which are energy services for the general public, and that fall within the above defined terms to apply for Special Exception permits where such facilities are located within the zoning districts that allow “Public Utilities” with a Special Exception.

The definition of “Public Utilities” is located in Article 6, Section 6-1-2 of the Nottoway County Zoning Ordinance. The proposed amendment is highlighted in red below:

Public Utilities: A group of uses which provide essential energy and communication services to the general public. These include, but are not limited to: Electric, Solar Energy Facility, Battery Energy Storage Facility, natural gas, water and sewer and telephone companies; their distribution and transmission lines; poles and towers; substations, pumping stations and storage facilities. By definition, some of these activities are industrial in nature, although local distribution facilities usually are compatible uses in residential areas.

A portion of the solar facility proposed by NW – Rocky Ford Solar, which is the subject of a soon to be filed Rezoning application and Special Exception application and a Siting Agreement proposed by the applicant, would be built, in part, on properties currently zoned General Business under the Nottoway County Zoning Ordinance. The applicant’s rezoning application, if approved by the Board of Supervisors, would rezone such properties to Rural Residential. The text change would allow Public Utilities with a Special Exception in the Rural Residential zoning district. This would provide the opportunity for the NW – Rocky Ford LLC to apply for a Special Exception for that portion of its solar energy facility located within the Rural Residential zoning district.

Nottoway County Special Review Project Application

GENERAL INFORMATION:

Nottoway County Zoning Ordinance §1-2-13 (Authorization for Constructing Public Facilities) and Code of Virginia §15.2-2232: Any project consisting of a street or connection to an existing street, park or other public area, public building or public structure, public utility facility, or public service corporation facility other than railroad facility, whether publicly or privately owned to be constructed, established or authorized shall be subject to a special review by the Planning Commission to determine if such project is in accordance with the county's comprehensive plan.

APPLICATION PROCEDURE:

- **Consultation with Planning Staff:** You are required to meet with a planner to discuss the request prior to submission.
- **Planning Commission:** The Planning Commission may hold a public hearing and review the application in order to make a recommendation to the Board of Supervisors.
- **Board of Supervisors:** The Board of Supervisors has the authority to overrule the action of the Planning Commission.

Please make sure the following items are included **BEFORE** submitting:

- ☐ **Application Fee:** If a public hearing is required by the Planning Commission, the applicant may be responsible for the cost of the required legal notifications.
- ☐ **Concept Plan:** A concept plan prepared by a professional engineer, architect or surveyor must be submitted with the application in both hard copy and digital (.pdf format) versions. The plan shall address any potential land use or design issues arising from the request. It is the responsibility of the applicant to demonstrate that the proposed use will be in harmony with the zoning district and surrounding area. If the proposed development is to be constructed in phases, all phases shall be shown at the time of the original application.

Nottoway County Special Review Project Application

Please print in blue or black ink or typewrite. If not applicable, write N/A.

APPLICANT INFORMATION

Note: If applicant is not the property owner, an owner's authority letter must be submitted with application.

Applicant Name: Burke Junction Solar, LLC

Address: 321 East Main Street Suite 500 Charlottesville, VA 22902

Phone: 434-218-0595 **Fax:** _____ **Email:** erekhelman@hexagon-energy.com

Property Owner Name: Donald and Gene Knight

Address: 201 Westwood Drive Blackstone, VA 23824

Phone: 4342944298 **Fax:** _____ **Email:** donknight1504@gmail.com

Authorized Agent/Contact Person: Ester Rekhelman

Address: 321 East Main Street Suite 500 Charlottesville, VA 22902

PROJECT INFORMATION

Location/Address of Property (directions from Nottoway County Administration Building): _____

On Burkes Tavern Road, near West Patrick Henry Hwy, no numerical physical address

Tax Map Number(s): 16-32D

Magisterial District: District 1 **Election District:** District 1

Size of Parcel(s): In acres approximately 121 acres In sq. ft. 5.27 million sq ft

Amount of area to be utilized 24.7% or 30 acres

Current Zoning: C-1 **Current Land Use:** Timber

Please describe the proposed project or purpose of the request. Burke Junction Solar, LLC, a subsidiary of Hexagon Energy, LLC, is seeking a special exception permit for a solar photovoltaic facility rated at 3 MW_{AC} to be located on the 121-acre property, tax map ID 16-32D. The property is located south off of Burkes Tavern Road, adjacent to the intersection of the two Norfolk Southern railway lines. The solar photovoltaic facility will disturb approximately 30 acres of land and produce an estimated 3 MW_{AC} of power, connecting to the distribution level power lines on Burkes Tavern Road.

JUSTIFICATION FOR SPECIAL REVIEW PROJECT

The Planning Commission will review the request to determine conformance with the Comprehensive Plan. Please answer the following questions as thoroughly as possible. Attach additional paper if necessary.

Please explain how the project conforms to the general guidelines and policies contained in the Nottoway County Comprehensive Plan. Is there a specific reference to the proposed project in the Comprehensive Plan? If not, please explain why the project should be determined to be in conformance.

The character and extent of Burke Junction Solar are substantially in accord with the Nottoway 2023-2028 Comprehensive Plan. Burke Junction Solar has been developed in accordance with guidelines relevant to the project and community's vision for growth. Burke Junction Solar is substantially aligned with 19 policies and specific actions within those policies. As such, the "location, character, and extent" of Burke Junction Solar is in "substantial accord with the adopted comprehensive plan or part thereof."

<i>Conformance with Regulation Comprehensive Plan</i>	<i>Appendix</i>
Section IV D- Land Use, Special Considerations, Renewable Energy (including solar) and Section V, G – Special Policy Areas, Renewable Energy (including Solar Facilities) and Section VI, J – Goals, Objectives, and Strategies; Utilities	Burke Junction Solar is sited and designed with the adopted Solar Facilities Ordinance in mind. Burke Junction Solar will minimize impact to the current land use, commercial timbering, but utilizing only 25% of the 121 acre property, and protecting valuable resources such as streams and wetlands. The Project will further protect and enhance natural resources of Nottoway County by generating renewable energy without creating the harmful emissions that come with fossil-fuel energy generation. Moreover, the Project will promote economic development by providing a diversified stream of revenue to a local Nottoway resident, as well as increased tax revenue to the County. Lastly, by virtue of its site, design, and extensive setbacks and buffering, the Project will protect the character of surrounding properties and their viewshed while also limiting the potential for future development of this land for other uses such as residential development for 35-40 years.
The Nottoway County Planning Commission should consider safe development of solar energy that minimizes impacts to land uses, properties, and the environment, especially for economic development purposes. The County should develop reasonable conditions for the development of renewable energy facilities that would protect the character of surrounding properties but not limit future development. Nottoway County should consider safe development of solar and wind energy that minimizes impacts to land uses, adjacent properties, and the environment, particularly for economic development purposes. GOAL: Provide for and regulate the siting, development, construction, installation, operation, and decommissioning of renewable energy and battery storage facilities in the County in a manner that promotes economic development and the safe, effective, and efficient use of such facilities while protecting the health, safety, and welfare of the community and avoiding adverse impacts on the County's resources. Objective 1: Encourage renewable energy production and equipment storage facilities in areas of the County that promote the development of renewable energy sources while limiting impacts on natural resources and existing agricultural, forestal, residential, commercial, industrial, historical, cultural, and recreational	

	uses of property or the future development of such uses.	
Section IV C – Land Use, Future Land Use	The specific location of future land uses should be determined by the zoning ordinance, and when required by the zoning ordinance, Planning Commission and Board of Supervisors reviews of specific land use requests. Such a review should consider the compatibility and benefits of the use, and the land impacts of a specific use on the surrounding neighborhood and larger community.	This Project brings a unique opportunity for low-impact development that will provide economic benefits to the County without putting any strain on public facilities such as water, sewer, and schools. The Project is located on C-1 zoned land, and per Article 4 Division 19 of the Zoning Ordinance, Solar Energy Facilities are allowed on this land through Special Exception. The project only utilizes 30 acres of the 121 acre property, allowing for preservation of the wetlands on the property, and about 75% of the existing tree cover on the property. It also provides economic benefits to the County while remaining low-impact to the surrounding area through specific design choices like separate road entrances, setbacks, and buffers. Some of the economic benefits include tax revenue to the County. The Project is surrounded by other parcels zoned C-1, GB, and RR and once the Project is in operation it will have no impact on the adjacent property owners because of its extensive buffers and setbacks
Section VI, F – Goals, Objectives, and Strategies; Transportation	GOAL: Maintain efficient traffic flow, movement of vehicles through Nottoway County.	The new proposed access road will flow off of Burkes Taver Road on the eastern side of the Property through an easement. The road will follow VDOT regulations for low volume construction entrances and will allow for a safe entrance onto the property off of an secondary road without compromising the neighbor's private access via the western boundary of the Property and without creating traffic throughout the area. The Applicant commissioned a traffic impact study and sight line analysis for the entrance seen in Appendix H and will coordinate with VDOT to fully comply with parking and entrance requirements.
Section VI, D – Goals, Objectives, and Strategies; Land Use	GOAL: Promote a balance of land uses that meet economic and demographic needs of Nottoway County. Objective 1: Provide land areas for orderly and efficient growth Objective 2: Retain the rural setting and single-family character of Nottoway County	This Project will allow clean and renewable energy to go onto the grid, helping meet the increasing energy demand of the County. Burke Junction Solar appropriately balances land use and drives ordered growth by by creating a 70 times increase in County revenue from taxes while only utilizing 30 acres of the 121 acre of the Property,

Objective 3: Encourage quality industries to locate in Nottoway County.

Objective 4: Preserve historical sites in Nottoway County.

Objective 5: Promote a clean-living environment.

Section V, C – Special Policy Areas, Protection of Water Resources

As the Nottoway County Planning Commission and Board of Supervisors work on amending the County's zoning and subdivision ordinances, care should be taken to address the impact of new development on water quality. One possible avenue could be the enactment of zoning and subdivision standards that allow and/or encourage low impact development techniques as a tool to manage non-point source environmental pollutants associated with new development.

allowing the remaining land to remain forested. The Project is designed to be outside of viewshed of neighboring residences and any historical sites in the area through its extensive setbacks, buffers, and by virtue of being cut off from other properties due to existence of two railroad lines.

This Project is a low-intensity development does not draw on County water resources and prevents from further subdivision and residential development on the Property that would create an increased demand of water resources to the residents in the area.

Once operational, the Project will serve as an aquifer recharge zone. Stormwater and erosion control facilities will ensure runoff rates do not exceed relative to the current use. Resource Protection Areas (RPAs) within the site will remain undisturbed. The project's 30-40 year lifespan will allow the protection of the land from other developments and extensive stormwater best management practices during construction, operation, and decommissioning will ensure appropriate water quality protection and flooding prevention.

Section V, B – Special Policy Areas, Loss of Agricultural Land and Open Spaces

The Nottoway County Planning Commission and Nottoway County Board of Supervisors, through the adoption of this Comprehensive Plan, should state their commitment to agricultural and forestal land preservation objectives.

Burke Junction Solar is located on land that is currently, and has previously been used for industrial timber practices by the landowner. It is designed to impact only about 30 acres of the total 121 acres of existing forest. Tree clearing will be kept to a minimum, and additional trees will be planted to add to the vegetative buffering where needed. Moreover, the 30 acres that do require tree clearing for the Site will be seeded with pollinator friendly species that will encourage expansion of pollinator habitats in the area. Additionally, this Project ensures that the remaining ~90 acres of the Property that is not being developed for the Project remains forested by providing an alternative revenue source for the landowner. There are no threatened or endangered species on site, and best management practices for tree clearing will be utilized to avoid impacting roosts for

bats. Lastly, the viewshed of nearby cultural resources is protected by extensive setbacks and vegetative buffers.

Burke Junction Solar is located near the intersection of US 360 and US 460, southwest of the Town of Burkeville. It is near properties zoned GB, which are likely prime for redevelopment. Development into a solar facility protects the Property from development into more intensive land uses without drawing on important resources for future development in this corridor such as quality of roads. The entrance to the Project was designed to avoid an existing right of way that is used by neighbors while also meeting VDOT requirements for a low-volume commercial entrance.

Section V, E – Special Policy Areas, Corridor Development

The U.S. 460 Corridor between Burkeville and Crewe was identified during the community meeting as an area to concentrate future development. The future land use map in Section IV identifies this area for future business development. Additionally, portions of the U.S. 360 Corridor around Burkeville have been targeted for future business and industrial uses.”

The County should work closely with the Virginia Department of Transportation to evaluate and amend its zoning and subdivision ordinances to ensure that uses allowed along these corridors are consistent with planned land uses. Additionally, the County should work with developers and the Towns to evaluate and/or amend the access provisions in its ordinances to ensure that new developments along these corridors are provided adequate access to infrastructure (roads, utilities) and unnecessary or dangerous access points are not permitted. A third step would be to evaluate future rezoning and special permit exception requests along these corridors with access plans and any traffic impacts resulting from the proposed use(s) in mind.

Section VI, C – Goals, Objectives, and Strategies; Economy and Employment/Education and Workforce Training

GOAL: Promote the expansion of a diversified economy.

Objective 1: Encourage quality businesses and industries to locate in the County

Objective 2: Provide adequate land and resources for commercial and industrial uses.

Objective 3: Improve employment opportunities for all residents; capitalize on technology as a means to create high-paying, sustainable jobs

GOAL: Ensure residents have access to an educational system that will provide quality employment opportunities, training for advanced education, career technical education, and continuing intellectual growth and development for all segments and age groups of the population.

Objective 1: Improve employment opportunities for residents through workforce training.

GOAL: Ensure sufficient resources to effectively serve the County's residents

Burke Junction Solar is an ideal and efficient way to diversify the rural economy. The Project drives an increase in County revenue through taxes while allowing 75% of the Property to remain untouched. Additionally, Hexagon has previously partnered with groups such as the Solar Hands-on Instructional Network of Excellence (SHINE) and the South Central Virginia Business Alliance (SCVBA) to provide opportunities for vocational training on solar installation to local community college students and increase use of local contractors for solar projects. We hope that through this project, we can utilize these resources to get local Nottoway residents involved in the construction and development of this project.

Section IV – B: Land Use, Current Zoning/Land Use

Conservation: Occupied by a mix of rural residential uses, open spaces, and a variety of small, nonintensive farms. Conservation districts are intended for the conservation of open spaces; protection of the rural character of the area, including small farms that are compatible with neighboring residential uses; the conservation of water, forest, and other natural resources; and maintaining a distinctly rural environment.

This Project is sited in an underutilized area on a Property zoned C-1 Conservation. The Project is sited on and will impact only 30 acres of a 121 acre property. This Project enhances the viability of the rural economy by allowing a local landowner to establish a land use on their property that alleviates financial burden to monetize the land from residential or commercial development. Solar facilities do not place additional financial burden on County infrastructure and facilities, such as water and sewer, helping minimize other development that may impact the rural character of the community while providing economic gain to both a County landowner and County itself. This Project is also a low-intensity development that allows the disturbed land to be viable for agricultural use after the Project's decommissioning. Additionally, there are no threatened or endangered species on site, and best management practices for tree clearing will be utilized to avoid impacting roosts for bats. The viewshed of nearby cultural resources is protected by extensive setbacks and vegetative buffers. Lastly, the Project's 35-40 year operation period limits residential development in the Conservation zoned land.

Per Nottoway County zoning ordinance, Article 4 Division 19, the Project is considered a "Solar Energy Facility". The Project's site and design, specifically its emphasis on setbacks, non-invasive road choice, and buffers, make it compatible with the natural and rural surroundings of the community

Section VI, G – Goals, Objectives, and Strategies; Natural Resources

GOAL: Protect and preserve the natural resources of the community.

Objective 1: Prevent development in areas of critical environmental importance.

Burke Junction Solar utilizes only 30 acres out of a 121 acre property, allowing the remaining 90 acres to be maintained in forest. The Project does not impact wetlands, maintains the resource protection area (RPA) buffers, and will include stormwater best management practices during construction, operation, and decommissioning, ensuring that watersheds in the area remain protected. Additionally, there are no threatened or endangered species on site, and best management practices

for tree clearing will be utilized to avoid impacting roosts for bats. The Project will also include pollinator friendly species in the seed mixes for cleared areas, promoting pollinator habitats. Lastly, the viewshed of nearby cultural resources is protected by extensive setbacks and vegetative buffers.

Burke Junction Solar has been designed to comply with Nottoway's Solar Ordinance and comprehensive plan guidelines. Pursuant to Virginia Code § 15.2-2232, unless a public utility facility is already shown on a locality's comprehensive plan, the facility may not be constructed "unless and until the general location or approximate location, character, and extent thereof has been submitted to and approved by the [planning] commission as being substantially in accord with the adopted comprehensive plan or part thereof." As described in the following sections, the "location, character, and extent" of Burke Junction Solar is "in substantial accord with [Nottoway County] adopted comprehensive plan or part thereof."

Appendices referenced below can be found in the full Project Narrative that was submitted as part of the Burke Junction Solar, LLC application.

<i>Conformance</i>	<i>Regulation</i>	<i>Appendix</i>
4-19-6.1.1	Project Narrative	See Above
4-19-6.1.2.1-11	Site Plan	Appendix A
4-19-6.1.2.3	Site Access Roads with VDOT Requirements	Appendix G
4-19-6.1.2.9	Natural Heritage and Wildlife Management Study	Appendix C
4-19-6.3	Proof of Site Control	Appendix L for Site Control of the Site and of the easement properties and road.
4-19-6.4	Decommissioning Plan	Appendix J
4-19-6.5	Landscaping and Screening Plan	See Section 5.5 and Appendix M
4-19-6.7	Erosion and Sediment Control Plan	See Appendix H
4-19-6.8	Stormwater Management Plan	See Appendix H
4-19-6.10	VCRIS/Cultural and Historical Report	See Appendix D
4-19-6.11.1	ID of existing Solar Energy Facilities	None Applicant is aware of
4-19-6.11.2	Report of Impact on Property Values	Can be provided if requested – Due to extensive setbacks and buffers this project will not adversely impact the property values and viewshed of neighboring parcels.
4-19-6.11.3	Economic Impact Analysis	Appendix N
4-19-6.11.4	Report Regarding Impacts on Pollinator Habitats	Given operation as a commercial timber farm with mostly monoculture pines, there will likely not be impacts to existing pollinator habitats, and the new vegetation mix

		underneath the panels will encourage pollinator habitats.
4-19.6.11.5	Glint and Glare Study	Appendix F.
4-19-6.11.6	Traffic Impact Study	Appendix G
4-19-6.11.7	Water Resources Plan	The Project will not be needing water and sewer services for the Project. The groundwater will be monitored through regular testing, as proposed in the conditions in Appendix
4-19-6.11.8	Assessment of Fire, Rescue and Law Enforcement Requirements	The nearest fire stations in case of emergency are .75 and 5 miles away from the Site. Prior to construction, the Applicant agrees to provide appropriate training to the Burkeville and Crewe Fire Department and local emergency services on proper handling of emergencies on these facilities as well as a walk through of the Site.
4-19-7.1	Visual Impacts	See Appendix A for setbacks and buffers, Appendix M for visual rendering of final project site, and Sections 3.1, 3.2, 3.3, 3.4, and 5.5 for discussion of visual impacts and mitigation. Due to the setbacks, existing vegetative buffers, and the railroad, the site will not be visible to any neighbors or those passing the property.
4-19-7.2	Signage.	All signage on site will be for safety purposes only and will comply with the County sign ordinance.
4-19-7.2	Noise	No noise is expected from this Project given extensive setbacks. A noise study is being conducted by an engineer and can be provided if requested.
4-19-7.4	Setbacks	Setbacks are elaborated on in Section 3.2 of this narrative. The nearest residence to the Site is 603' from the fenceline of the Project, and the nearest relevant property boundary is 231' from the fenceline. One property is less than 231' away from the fenceline, but given the applicant has an easement through the nearer property, the setback minimum can be waived. The nearest public

		right of way is Burkes Tavern Road, at 330' of setback distance. The Project does not comply to setback minimums from residences (1200') for three nearby residents, and does not comply with property boundary setbacks (300') at about two points of the fenceline. Given the extensive mature vegetation, additional plantings proposed by the applicants, and the existing railroad surrounding the Property, the Applicant feels that the setback distances outlined in the Concept Plan in Appendix A are ample for protection of nearby viewsheds.
4-19-7.5	Fencing	The Site will be fenced in by a 6-foot-high chain-link fence topped with strands of barbed wire to deter any unauthorized access to the site. After construction concludes, the gates will remain locked, and access will be coordinated by authorized operations and maintenance personnel. See Section 5.4 of Narrative.
4-19-7.6-10	Relating to Vegetative Buffering	The Applicant proposes a 50' wide vegetative buffer on the northern, eastern and southeastern property boundary. The vegetative buffer will be made up of existing vegetation that is already growing on the Property, combined with additional planted vegetation. The vegetative buffer will be maintained by the Applicant and will adhere to the Ordinance guidelines for plantings and seed mixes in areas where the Applicant is adding their own vegetation.
4-19-7.11	Surface Water Buffer	The fenceline is about 185' away from the nearest stream. Given the incorporation of stormwater features like drainage ditches and dry ponds on the property, we believe this

		is an ample distance from the wetland system.
4-19-7.12	Pollinator Habitats	The Applicant agrees to seed the Site, including the vegetative buffer and setbacks with pollinator friendly native plants. The final seed mixes will be chosen based on availability and agreed upon with the County Administrator upon submission of the final landscaping plan.
4-19-7.13	Height	The solar facility will not exceed about 8-10 feet in height, at its tallest.
4-19-7.14	Lighting	There will be no lighting necessary on the Property outside of the 4-6 month construction window, during which time use of lighting can be limited to the construction hours only.
4-19-7.15	Density	The Project is >1 mile away from the nearest airport. See Appendix F for Glint and Glare study as well.
4-19-7.16	Entry and Inspection	The Applicant, Facility Owner and/or Operator will allow designated County and Emergency Management officials access to the facility for inspection purposes.

CERTIFICATION

I hereby certify that this application is complete and accurate to the best of my knowledge, and I authorize County representatives' entry onto the property for purposes of reviewing this request.

Department of Planning and Economic Development

Director: Gregg Zody, AICP

gzody@nottoway.org

Office: 434-645-8696

PO Box 92

344 West Courthouse Road

Nottoway, Virginia 23955

STAFF REPORT

TO: Planning Commission
and Board of Supervisors

FROM: Gregg Zody, Director *GZ*

DATE: September 9, 2025

SUBJECT: Special Exception Request for Burke Junction Solar Facility and Setback
Reductions

BACKGROUND

Applicant/Property Owner

Donald and Gene Knight, 201 Westwood Dr., Blackstone, Virginia.

Primary Request

Applicant approval for a three (3) megawatt (MW) solar facility on approximately 30 acres. The parent parcel [Conservation zoning district] contains approximately 120 acres. No battery storage is proposed for this project.

Location

The site is located to the south of Burkes Tavern Road, to the east of the railroad tracks running parallel to the road. (Exhibit 1) Sunset Hill Cemetery is adjacent to the north side of Burkes Tavern Road. One vacant parcel separates the site from the railroad tracks and Burkes Tavern

Road. The site itself, along with other parcels utilizing the access south of Burkes Tavern Road and the railroad tracks, comprises a former 500+ acre farm that was divided into several parcels. (Please see Exhibit 2).

Setback Request (4-19-7-3)

The following is excerpted from Section 3.2 (*Visual*) from the applicant's application (please see Exhibit 3 – multiple maps for adjacent and neighboring properties and distances)-:

The Project's fence line is setback 150' from the nearest property line and 1,700 from the farthest property line. The nearest residences are 603' and 758' from the fence line of the Project. In addition to extensive setbacks from the Project fence line and proposed 50-foot vegetative buffers on the eastern and northern project boundaries, the Norfolk Southern railroads on the north and eastern boundaries will create a natural barrier to the project. Moreover, the applicant has an easement with Bernard Farrar, who owns the parcels to the property's north (Tax Map 16-79) and east (16-69), providing additional visual buffering from Burke's Tavern Road for passing by [vehicular traffic]. Given these extensive visual buffering measures, we feel the setbacks are sufficient to protect their viewshed. We request that the Board of Supervisors reduce the setback from 1,200' from residences and 300' from property boundaries as allowed by Sec 4-19-7 of the Nottoway County Solar Ordinance. The areas along Burkes Tavern Road and the eastern property boundary that will require buffering already have existing trees and brush planted by the landowner, which will limit the view into the Property. Still, the developer will add additional landscaping in accordance with the standards outlined in Section 4-19-7 of the Zoning [Solar] Ordinance to further protect the viewshed along these areas.

Northern border with the railroad/Burkes Tavern Road: The fence line is setback about 150' from Bernard Farrar's property and about 330' from Burkes Tavern Road. There are no residences on the Farrar property, and the vegetative buffer between the fence line and Mr. Farrar's property will be 50' wide. The Farrar property (Tax Map 16-79) is currently wooded and is likely to remain so, providing additional visual screening for those passing by on Burkes Tavern Road. A few residences are west of the Farrar property, with the nearest residence being 603' from the fence line.

Western Border: the fence line setback is about 920 feet from the western property line at its closest point. There are no residences to the west of the Property. Given the existing mature vegetation in the wetland to the west of the fence line, no additional vegetation is proposed for the western boundary; however, it can be amended to include additional planted vegetation if the County Administrator deems it necessary at the time of site plan approval.

Southern Border: The fence line is set back about 1,200' from the southern property boundary. The existing wetland system and stream create a natural vegetative buffer, and the remaining land beyond the wetland already has timber planted on it that will continue

to mature throughout the Project's lifetime. (Please refer to Exhibit 3 – Members have full-size copies in their project application notebooks: Site Plan – Setbacks L1.2)

STAFF RESPONSE TO SETBACK REDUCTION REQUEST

The site dimensions are unique because the project area lies below grade from the railroad tracks to the north. In contrast, railroad tracts traversing the southern boundary sits below grade adjacent to other properties. Due to the relatively dense vegetation growth (mix of deciduous and coniferous trees, shrubs, and forbs) around the perimeter of the parcel, the project will not be visible to adjacent residents or passing vehicles along Burkes Tavern Road.

From the viewability of the proposed project from the access easement (Exhibit 2), the two known residences utilizing it are nearly a mile from the project site to the southwest. The residences cannot be seen from the subject property.

Staff finds the applicant's proposed setback reductions are fair and reasonable given the natural buffers and the topographic locations of the two railroad tracks, while preserving the intent of the setbacks in the Comprehensive Plan and the Solar Ordinance.

LAND USE ANALYSIS

Zoning/Land Use Compatibility

The parcel location, topography, and site dimensions are unique. The parcel is surrounded by other parcels zoned Conservation (C-1), General Business (GB), and Rural residential (RR). All adjacent property surrounding the site is zoned C-1. Once the Project is operational, it will have minimal impact on the adjacent property owners due to its extensive existing vegetative buffers and topographic conditions.

GB is located on the north side of the general area, primarily adjacent to Burkes Tavern Road and along Patrick Henry Highway (US 360). In the middle of the GB zoning near the intersection of Patrick Henry Highway and Burkes Tavern Road are two C-1 parcels, one of which (1033 Burke Tavern Road) is adjacent to the project site.

Nearby uses include timber stands, pasture, and two homes almost a mile from the site on the access drive, as well as nearby residences to the southeast and northwest. The applicant has stated that at least 75% of the existing tree lines along the north, east, and south property boundaries will be preserved.

The rail line running adjacent to the project site along the east and southeastern boundary is below grade and is offset by the dense vegetative buffer on the Applicant's site. Several single-family homes are located east of the railroads near the northeastern section of the project parcel and west of the Town's corporate limits. Said lots are zoned C-1. Other residential parcels to the south of the railroad tracks are zoned RR.

Vulnerable lands (wetlands/floodplain) transect the parcel from the north to the southwest. (Please refer to Exhibit 5. Site Plan L1.1). This area is easily identifiable by the stands of trees outlining the vulnerable area in the middle of the property. These areas will be protected through Best Management Practices (BMPs) and forest preservation (Exhibit 6) to mitigate potential erosion during rain events and during project construction, thereby protecting the soil from erosion and damage to the ecological habitat in this vulnerable area.

Note that while the property is lined with vegetation on the north, south, and west sides of the property, the project site is located against the background of the tree-line perimeter. The project sites (2) are located on higher, albeit sloping, elevations in the northeastern part of the parcel. These areas are located in "Soils Classified as All Areas Prime Farmland", according to Exhibit 7, Site Plan – Prime Farmland. L1.3

COMPREHENSIVE PLAN

The project site is identified as Conservation future land use designation. Please see the Applicant's 2232 Review - for specific citations of relevance of the proposed solar facility in the Comprehensive Plan.

Sec. 5-5-2(8) SPECIAL EXCEPTION - ISSUES FOR CONSIDERATION

In considering a Special Exception Permit application, the following factors shall be given reasonable consideration. The applicant shall address all the following in its statement of justification or Special Exception Permit plat, unless not applicable, in addition to any other standards imposed by this Ordinance: *Staff Responses are italicized.*

- 1) Whether the proposed Special Exception Permit is consistent with the Comprehensive Plan.

Yes. The proposed project is consistent with the Comprehensive Plan regarding solar facilities.

- 2) Whether the proposed Special Exception Permit will adequately provide for safety from fire hazards and have effective measures of fire control.

The Burkeville Voluntary Fire Department is located approximately .50 miles from the site.

- 3) The level and impact of any noise emanating from the site, including that generated by the proposed use, in relation to the uses in the immediate area.

Beyond initial construction, no noticeable noise is anticipated from the facility.

- 4) The glare or light that may be generated by the proposed use in relation to uses in the immediate area.

The site is below grade from nearby Burke's Tavern Road, running parallel to the northern railroad line. That part of the site contains a dense vegetative buffer. The site will retain approximately 75% of the perimeter tree line. Trees will also be preserved as a BMP in the delineated floodplain and wetlands to minimize disruptions of the existing ecological habitats and prevent soil erosion..

- 5) The proposed location, lighting and type of signs in relation to the proposed use, uses in the area, and the sign requirements of this Ordinance.

No formal signage is requested at this time, except for signage related to the proposed construction entrance, which is located to the east of the existing entrance. Any future signage shall comply with Article 4, Supplemental Regulations, Division 4-12-1, Signs.

- 6) The compatibility of the proposed use with other existing or proposed uses in the neighborhood and adjacent parcels.

This is the second solar application under review by the County, and whether it is compatible with adjacent uses is yet to be seen. It is the staff's opinion whether an adjacent use is compatible, which is subject to the opinion of the adjacent property owner regarding solar as a viable alternative energy source. From a planning perspective, compatibility should be based on whether the proposed use (in this case, solar) depends on one's perspective regarding solar facilities in general.

The adjacent uses include residential dwellings, agriculture, public utilities, and institutional uses.

A very important consideration is not that a solar facility is being constructed, but whether there are demonstrable impacts on adjacent properties, such as noise, dust, and light pollution.

- 7) The location and area footprint with dimensions (all drawn to scale), nature and height of existing or proposed buildings, structures, walls, and fences on the site and in the neighborhood.

Please see Exhibit 3.

- 8) The nature and extent of existing or proposed landscaping, screening, and buffering on the site and in the neighborhood.

For the most part, the site is heavily vegetated on the north, east, and south. According to the applicant, approximately 75% of the perimeter vegetation will remain post-construction. The applicant has stated that additional landscaping will be installed per the solar ordinance.

- 9) The timing and phasing of the proposed development and the duration of the proposed use.

No phasing is proposed at this time.

- 10) Whether the proposed Special Exception Permit will result in the preservation or destruction, loss or damage of any topographic or physical, natural, scenic, archaeological or historic feature of significant importance.

There is an identified floodplain in the southwestern portion of the site (Mallorys Creek). No construction is planned for the area in Zone A. Wetlands are located in the central part of the site and will be protected through setbacks, BMPs, and three sediment ponds to mitigate any environmental damage.

There are no known historic nor archaeological features on the site.

- 11) Whether the proposed Special Exception Permit at the specified location will contribute to or promote the welfare or convenience of the public.

The threat to the welfare and convenience of the public from the approval of this application is minimal.

- 12) The traffic expected to be generated by the proposed use, the adequacy of access roads, and the vehicular and pedestrian circulation elements (on and off-site) of the proposed use, all in relation to the public's interest in pedestrian and vehicular safety, efficient traffic movement, and access in case of fire or catastrophe.

As with any special exception request, both VDOT and VDH are sent copies of the application in advance of the public hearing.

Regarding transportation, the applicant is securing an easement from Burkes Tavern Road for construction traffic to access through an existing entrance along Burkes Tavern Road, across from Sunset Hill Cemetery. This existing point of access is an existing point of access from the adjacent property owner to the north (Farrar, t.m. # 16-79) onto Burkes Tavern Road for construction traffic. The actual point of access to the parcel served by the parcels contained on the plat is west of the proposed easement.

- 13) Whether, in the case of existing structures proposed to be converted to uses requiring a Special Exception Permit, the structures meet all code requirements of Nottoway County.

N/A.

- 14) Whether the proposed Special Exception Permit will be served adequately by essential public facilities and services.

No proposed public facilities or services are planned, except for the solar project itself.

- 15) The effect of the proposed Special Exception Permit on groundwater supply.

The applicants will need to submit proper applications for Erosion and Sediment Control Plans (ESCP) and Stormwater Pollution Prevention Plans (SWPPP) for review by the DEQ (and County staff for the ESCP) to ensure minimal impacts on ground and surface water resources.

- 16) The effect of the proposed Special Exception Permit on the structural capacity of the soils.

Please refer to Supplemental Document C (Stormwater Management Memorandum) and Appendix H from the hardbound application binder. The Phase I Environmental Site Assessment provides specifics about the soil types. This is illustrated in Exhibit 7.

- 17) Whether the proposed use will facilitate orderly and safe road development and transportation.

No response from VDOT at this time.

- 18) The effect of the proposed Special Exception Permit on environmentally sensitive land or natural features, wildlife habitat and vegetation, water quality, and air quality.

There is an identified floodplain in the southwestern portion of the site. No construction is planned for the area in Zone A. Wetlands are located in the central part of the site and will be protected through setbacks, BMPs, and three sediment ponds to mitigate any environmental damage.

- 19) Whether the proposed Special Exception Permit use will provide desirable employment and enlarge the tax base by encouraging economic development activities consistent with the Comprehensive Plan.

Construction jobs will be created during the project's development, and an unspecified number of positions may be required for maintenance after development. The only revenue expected to be generated from this use will be through revenue-sharing between the County and the developer.

- 20) Whether the proposed Special Exception Permit considers the needs of agriculture, industry, and businesses in future growth.

The site is zoned Conservation, which does allow agricultural activity as a by-right permitted use. The overall site was logged in the recent past, and the applicant has started planting pines along internal pathways at the site.

- 21) The effect of the proposed Special Exception Permit use in enhancing affordable shelter opportunities for residents of the County.

None.

- 22) The location, character, and size of any outdoor storage.

There may be temporary storage yards on site for construction purposes.

- 23) The proposed use of open space.

Presumably, keeping the non-disturbed areas of the site in open space.

- 24) The location of any major floodplain and steep slopes.

Floodplain exists in the central portion of the site and no plans are presented to build or disturb this area.

- 25) The location and use of any existing nonconforming uses and structures.

None.

- 26) The location and type of any fuel and fuel storage.

None that staff is aware of.

- 27) The location and use of any anticipated accessory uses and structures.

None identified by the applicant.

- 28) The area of each use; if appropriate.

Please refer to Exhibit 5, Site Plan L.1.1

- 29) The proposed days/hours of operation.

N/A.

- 30) The location and screening of parking and loading spaces and/or areas.

There will need to be parking for construction activities located on site. A VDOT Construction Management Plan may be required.

- 31) The location and nature of any proposed security features and provisions.

Security fencing at least six (6) feet high is required around the perimeter of the project areas.

- 32) The number of employees.

An indeterminate number of temporary construction workers for the prep work and installation of the solar components.

- 33) The location of any existing and/or proposed adequate on- and off-site infrastructure.

None identified in the field.

- 34) Any anticipated odors which may be generated by the uses on-site.

No odors anticipated.

- 35) Whether the proposed Special Exception Permit uses sufficient measures to mitigate the impact of construction traffic on existing neighborhoods and school areas.

Staff is awaiting VDOT's comments.

- 36) Refuse and service areas, with reference to the items in (1) and (2) of this subsection.

The Burkeville Convenience Center is less than 2 miles from the project area -located at the intersection of Lewiston Plank Road and US 460/360 interchange.

In the future, the developer will be responsible for locating a landfill or other sanitary repository for defective panels that may not otherwise be accepted for disposal at the County's landfill.

- 37) Utilities, with reference to location, availability and compatibility.

There will be interconnectivity to the Dominion Substation.

AGENCY COMMENTS

From VDOT (none received as of this writing)

From VDH (none received as of this writing)

STAFF RECOMMENDATION

Staff recommends approval of the special exception request, subject to the following conditions:

1. This special exception is granted for a 3 megawatt, 30-acre site located on parcel # 16-32D.
2. This special exception may be revoked by Nottoway County or its designated agent for failure to comply with any of the listed or amended conditions established by staff or the Planning Commission.
3. Security fencing no less than six (6) feet is required around the project area, per §4-19-7-5.
4. Applicant shall secure a construction entrance permit and implement any construction management plans required by the Virginia Department of Transportation.
5. Applicant shall submit a preliminary Erosion and Sediment Control Plan for review and approval by staff. No land disturbing activities before the issuance of an approved plan, and the land disturber must have a current RLD.
6. Applicant shall submit a preliminary Stormwater Management Plan for DEQ to review and approve. No land disturbing activities before the issuance of an approved plan, and the land disturber must have a current RLD.
7. A buffer is required on either side of any perennial stream within the identified project area and may be increased or decreased, depending upon site topography.
8. Any topsoil removed from the project areas must be stored on site for decommissioning.

Detail Description of Request (Address impact of proposal on checklist items):

We are requesting a Special Exception Permit for a Solar Energy Facility of three (3) megawatts (MW) measured in alternating current (AC).

Justification: Based on Article 4 Division 19 of Nottoway County's Zoning Ordinance, Solar Energy Facilities are a use allowed by Special Exception on land zoned C-1.

The foregoing information is complete and correct to the best of my knowledge. I acknowledge that representatives of Nottoway County may inspect the property subject to this application, and my permission to do so is hereby given.

SPECIAL EXCEPTION CHECK LIST

HEALTH, SAFETY, AND WELFARE:

Traffic: See application narrative
Noise: See application narrative
Lights: See application narrative
Dust: See application narrative
Fumes: See application narrative
Vibrations: See application narrative
Fire Threat: See application narrative
Environmental Impact: See application narrative
Economic Impact: See application narrative
Security: See application narrative
Housing Improvements: None
Utility Provision: See application narrative
Landscaping: See application narrative
Site Development (buildings, storage): Solar Energy Facility, including photovoltaic panels, fencing, transformer, string inverters, 5 utility poles, and internal roads.
Adjacent Compatibility: Given the setbacks and buffers, this use is compatible with surrounding C-1, GB, and RR districts
Zoning District Compatibility: This use is allowed by Special Exception in the C-1 district.
Operations (outside storage of materials, screening): 4-6 months of construction, followed by quarterly maintenance.
Hours of Operation: See proposed conditions for proposed allowable hours of construction
Number of Employees: ~20 during construction
Type of Equipment: Delivery trucks, construction equipment, photovoltaic and electrical equipment, fencing
Signage: Signage of "trucks entering road" during construction as well as fencing signage for safety. See narrative for details.
COMPREHENSIVE PLAN (Compatibility): See Project Narrative for details. Solar is discussed as a development use in Nottoway County in Section V(G) of the 2023-2028 Comprehensive Plan. The Comprehensive Plan recommends that Nottoway County should consider safe development of solar that minimizes impacts to land uses, adjacent properties and the environment.

Re: Summary of Burke Junction Solar Community Meeting on 07/22/2025

Greetings Mr. Bowen and Mr.Zody,

On 07/22/2025, Hexagon Energy hosted a community meeting at the Burkeville Fire Department to discuss and accept feedback on the 3 MegaWatt Burke Junction Solar project, which is currently undergoing its Special Exception Permit approval process. The community meeting invitations to all adjacent neighbors were sent out on 07/09/2025. Additionally, the invitation to the community meeting was advertised in the Courier Record Newspaper on the week of 07/07/2025 and 07/14/2025, and physically posted to the bulletin board at the Nottoway County Courthouse in the two weeks leading up to the meeting. Below is a list of attendees:

- Ester Rekhelman (Hexagon Energy)
- Ally Kranz (Hexagon Energy)
- Ryan Walter (Hexagon Energy)
- Erica O'Donnell (Hexagon Energy)
- Donald Knight (Landowner)
- Gregg Zody
- Stephen Bowen
- Daphne Norton
- Richard Ingram
- Kirby Woolfolk
- Dylan Taylor
- Beverley Ambs
- Thomas McIntyre
- K. Shawn Haney
- John Schutt

- Mike Mason

Below is a list of the questions/concerns brought up by citizens in attendance:

- What are the access points to the project, and how will emergency services access the project in the event of an accident?
- What is the efficiency of the solar panels, and how many homes will they be powering? Where will the power go and which power lines will the project be connecting to?
- Which watershed do the wetlands on the property flow out to?
- General inquiries about setback and vegetative buffer area.
- General conversation and inquiry about county revenue structures.
- How will stormwater runoff be managed during and after construction? Will the designed stormwater facilities be able to handle the higher-than-normal rain events we have experienced this summer?
- Who will own the project, and will the landowner continue owning the land throughout the project's lifetime?
- Which power lines will the project be connecting back to?
- When will the project begin construction and how long will construction take?
- Will the construction be done in stages and what will be done to prevent runoff during construction?
- What vegetation will be used underneath the panels? Will pollinator species be seeded underneath the panels?

Please do not hesitate to reach out to Ester Rekhelman (contact information below) if any other information about the community meeting is needed.

All the best,
Ester Rekhelman

ARTICLE 2, DIVISION 10

AIRPORT DISTRICT

- § 2-10-1. Purpose.
- § 2-10-2. Permitted uses.
- § 2-10-3. Accessory uses.
- § 2-10-4. Uses permitted by Administrative Permit.
- § 2-10-5. Prohibited uses.
- § 2-10-6. Lot area.
- § 2-10-7. Lot width.
- § 2-10-8. Yard and setback requirements.
- § 2-10-9. Lot frontage.
- § 2-10-10. Height limitations.

Airport District (AD)

2-10-1. Purpose.

- A. Airport Districts are intended to provide space for airports and vertiports (VTOL = Vertical Take Off and Landing) licensed by the Virginia Department of Aviation or any United States government or military air facility.
- B. Also permitted are aviation uses within and adjoining the airport facility that are compatible with an airport environment.

§ 2-10-2. Permitted uses.

The following uses shall be permitted within Airport Districts without Special Exception permits:

1. Airports.
2. Vertiports.
3. Aviation-related research and development.
4. Aviation-related maintenance, manufacturing, and assembly.
5. Aviation training for manned and unmanned aircraft.
6. Facilities for refueling aircraft.
7. Airport terminals.
8. Aircraft charter service.
9. Police, fire and rescue squad stations as accessory uses to the airport.
10. Businesses compatible with an airport environment, including but not necessarily limited to: motor vehicle parking, travel accommodation services, motor vehicle rental services, Fixed and gasoline retail outlets.
11. Offices.
12. Aircraft storage (hangars and aprons).
13. Public and private roadways/parking lots.

From Town of Blackstone Memorandum

From Town of Crewe Memorandum

First draft 06122025-work session discussion; Second draft 09102025

14. Municipal facilities and services, including but not limited to:
 - a. Emergency services staging areas.
 - b. Public works operations and storage.
 - c. Storm debris collection and temporary storage.
 - d. Municipal equipment storage and maintenance.
15. Community events and public gatherings, including but not limited to:
 - a. Festivals, fairs, and community celebrations.
 - b. Educational events and demonstrations.
 - c. Public meetings and civic functions.
 - d. Recreational activities compatible with airport operations
16. Temporary storage facilities related to emergency response and disaster recovery.
17. Public utilities and infrastructure supporting airport and municipal operations.
18. Municipal Operations Exception. Notwithstanding any other provision of this section, airport facilities owned and operated by a municipality may be used for any municipal purpose that does not:
 - a. Create a hazard to aircraft operations.
 - b. Interfere with airport safety zones or flight paths.
 - c. Generate activities incompatible with airport noise levels.
 - d. Violate applicable FAA regulations.

§ 2-10-3. Accessory uses.

Accessory uses customary and clearly incidental to a permitted use and which will not create a nuisance or hazard shall be permitted in Airport Districts, subject to the applicable provisions of Article 3, Division 3 of this chapter (Please see attached draft revision), Division 9 (Outdoor Lighting, and Division 10 (Parking).

§ 2-10-4. Uses permitted by Administrative Permit.

The uses listed in this section shall be permitted within Airport Districts only upon the issuance of an Administrative Permit by the Zoning Administrator pursuant to the provisions of article LVI of division I of this chapter.

A. General standards applicable to all Administrative Permits. No

Administrative Permit shall be issued except upon a finding that in addition to conformity with any standards set forth in this chapter for Administrative Permit uses, the following general standards will be met either by the proposal made in the application or by the proposal as modified or amended and made part of the Administrative Permit:

1. *Conformity with comprehensive plan and policies.* The proposal as submitted or as modified shall conform to the Comprehensive Plan of the county or to specific elements of such plan, and to official policies adopted in relation thereto, including the purposes of this chapter.

First draft 06122025-work session discussion; Second draft 09102025

2. *Impact on neighborhood.* The proposal as submitted or as modified shall not have undue adverse impact on the surrounding neighborhood. Among matters to be considered in this connection are traffic congestion, noise, lights, dust, odor, fumes and vibration, with due regard for timing of operation, screening or other matters which might be regulated to mitigate adverse impact.

B. Off-site office trailers, buildings, parking lots, and equipment or materials storage areas or facilities in connection with temporary construction.

The temporary placement, development or use of off-site office trailers, buildings, parking lots or equipment or materials storage areas or facilities in connection with construction projects may be permitted by Administrative Permit provided:

1. Items permitted are in connection with specific construction projects.
2. Items permitted are placed no sooner than thirty (30) days prior to the beginning of construction and removed within thirty (30) days after completion or suspension of construction.

3. Items permitted are placed within reasonable proximity of the construction project.

§ 2-10-5. Prohibited uses.

All uses except those listed in 2-10-2 and 2-10-3 are specifically prohibited.

§ 2-10-6. Lot area.

The minimum lot area shall be sufficient for compliance with all the provisions of this article.

§ 2-10-7. Lot width.

The minimum lot width at any point shall be:

- A. One hundred fifty feet (150'); ~~or~~

§ 2-10-8. Yard and setback requirements.

A. Front lot lines.

1. No building or other structure shall be erected, altered, located, reconstructed or enlarged nearer to the right-of-way line of a public or private street seventy feet (70').
2. If a lot, tract or parcel fronts on two or more streets, the foregoing minimum setbacks shall be required on all streets.
3. For an exception to front-line setback requirements, see Article 5, Division 3 (Board of Zoning Appeals), of this chapter.

B. Other lot lines adjoining airport business zones.

There are no minimum setbacks required from lot lines, other than front lines, where the other lot line is a boundary with property zoned for airport business use under this article.

C. Lot lines not adjoining airport business zones.

No building or other permanent improvement shall be erected, altered or enlarged nearer than fifty feet (50') to any property not zoned Airport District.

§ 2-10-9. Lot frontage.

Every lot shall have at least:

- A. One hundred fifty feet (150') of frontage on a public street; or
- B. One hundred feet (100') of frontage on a public street if:
 - 1. Curb and guttering is installed along the entire road frontage in accordance with applicable standards of the Virginia Department of Transportation; and

2-10-10. Height limitations.

In Airport Districts, all buildings and structures shall be subject to the following height limitations:

- A. No building or structure shall exceed fifty feet (50') in height.
- B. .

In no case shall the height of any building or structure exceed the height limitations of the CFR part 77 primary surface, transitional surface, approach surface, horizontal surface and conical surface as required in any airport.

- C. For exceptions to height limitations, see Article 5, Division 3 (Board of Zoning Appeals), of this chapter.

First draft 06122025-work session discussion; Second draft 09102025

DIVISION 3 ~~AIRPORT SAFETY OVERLAY DISTRICT (ASOD)~~ ZONING ORDINANCE

Sec. 3-3-1 Purpose; Reference

An ordinance regulating and restricting the height of structures and objects and natural growth, and otherwise incidentally regulating the use of property in the vicinity of the Allen C. Perkinson and Crewe Municipal Airports in Nottoway County by creating the appropriate zones and establishing the boundaries thereof; providing for changes in the restrictions and boundaries of such zones; defining certain terms used; providing enforcement; and imposing penalties can be found in Chapter 35, beginning on page 3501, of the Nottoway County Code.

[24VAC5-20-400. Appendix A: Airport Safety Zoning Ordinance. For reference.]

An ordinance regulating and restricting the height of structures and objects or natural growth, and otherwise incidentally regulating the use of property in the vicinity of the airports in Nottoway County by creating the appropriate zones and establishing the boundaries thereof; providing for changes in the restrictions and boundaries of such zones; defining certain terms used herein; providing for enforcement; and imposing penalties.

The ordinance is adopted pursuant to the authority conferred by § 15.1-427 through 15.1-503 of the Code of Virginia. It is hereby found that an obstruction has the potential for endangering the lives and property of users of the airports and residents in Nottoway County; and that an obstruction may reduce the size of areas available for the landing, takeoff, and maneuvering of aircraft, thus tending to destroy or impair the utility of the airports and the public investment therein. Accordingly, it is declared:

1. That is necessary in the interest of the public health, safety, and general welfare that the creation or establishment of obstructions that are hazards to air navigation be prevented;
2. That the creation or establishment of an obstruction has the potential for being a public nuisance and may injure the area served by the airports;
3. That the Nottoway County Board of Supervisors derives economic development and enhanced interstate commerce from Allen C. Perkinson Airport/Blackstone Army Airfield at Fort Barfoot and Town of Crewe Airport that are held strictly to the highest possible safety standards; and
4. That the prevention of these obstructions should be accomplished, to the extent legally possible, by the exercise of the police power without compensation.

Sec. 3-3-2. Definitions

"Administrator": The official charged with the enforcement of this ordinance. He or she shall be the Zoning Administrator).

"Airport": Allen C. Perkinson Airport/Blackstone Army Airfield at Fort Barfoot and Town of Crewe Airport.

"Airport elevation": The highest point on any usable landing surface expressed in feet above mean sea level.

First draft 06122025-work session discussion

"Approach surface": A surface longitudinally centered on the extended runway centerline, extending outward and upward from the end of the primary surface, and at the same slope as the approach zone height limitation slope set forth in Article 4 of this ordinance. In plan the perimeter of the approach surface coincides with the perimeter of the approach zone.

"Approach, transitional, horizontal, and conical zones": The airspace zones as set forth in Article 3 of this ordinance.

"Conical surface": A surface extending horizontally twenty feet for every one foot vertically from the periphery of the horizontal surface.

"Hazard to air navigation": An obstruction determined by the Virginia Department of Aviation or the Federal Aviation Administration to have a substantial adverse effect on the safe and efficient utilization of navigable airspace in the Commonwealth.

"Height": For the purpose of determining the height limits in all zones set forth in this ordinance and shown on the zoning map, the datum shall be mean sea level (M.S.L.) elevation unless otherwise specified.

"Horizontal surface": A horizontal plane 150 feet above the established airport elevation, the perimeter of which in plan coincides with the perimeter of the horizontal zone.

"Nonconforming use": Any preexisting structure or object of natural growth which is inconsistent with the provisions of this ordinance or any amendment to this ordinance.

"Obstruction": Any structure, growth, or other object, including a mobile object, which exceeds a limiting height, or penetrates any surface or zone floor, set forth in Article 4 of this ordinance.

"Permit": A document issued by Nottoway County allowing a person to begin an activity which may result in any structures or vegetations exceeding the height limitations provided for in this ordinance.

"Person": Any individual, firm, partnership, corporation, company, association, joint stock association, or governmental entity. The term includes a trustee, a receiver, an assignee, or a similar representative of any of them.

"Primary surface": A surface, with a specified width as provided in Article 3 of this ordinance, longitudinally centered on a runway. When the runway has a specifically prepared hard surface, the primary surface extends 200 feet beyond each end of that runway. The elevation of any point on the primary surface is the same as the elevation of the nearest point on the runway centerline.

"Runway": A specified area on an airport prepared for landing and takeoff of aircraft.

"Structure": Any object, including a mobile object, constructed or installed by any person, including but not limited to buildings, towers, cranes, smokestacks, earth formations, towers, poles, and electric lines of overhead transmission routes, flag poles, and ship masts.

"Transitional surfaces": Surfaces which extend outward perpendicular to the runway centerline extended at a slope of seven feet horizontally for each foot vertically from the sides of the primary and approach surfaces to where they intersect the horizontal and conical surfaces.

"Vegetation": Any object of natural growth.

"Zone": All areas provided for in Article 3 of this ordinance, generally described in three dimensions by

reference to ground elevation, vertical distances from the ground elevation, horizontal distances from the runway centerline and the primary and horizontal surfaces, with the zone floor set at specific vertical limits by the surfaces found in Article 4 of this ordinance.

Article 3.

Sec. 3-3-3. Airport Safety Zones

In order to carry out the provisions of this ordinance, there are hereby established certain zones which include all of the area and airspace of lying equal to and above the approach surfaces, transitional surfaces, horizontal surfaces, and conical surfaces as they apply to the Allen C. Perkinson and Crewe Municipal Airports. These zones are established as overlay zones, superimposed over the existing base zones, being more specifically zones of airspace that do not affect the uses and activities of the base zones except as provided for in Article 5 of this ordinance. An area located in more than one of the following zones is considered to be only in the zone with the most restrictive height limitation. These zones are as follows:

"Airport zone": A zone that is centered about the runway and primary surface, with the floor set by the horizontal surface.

"Approach zone": A zone that extends away from the runway ends along the extended runway centerline, with the floor set by the approach surfaces.

"Transitional zone": A zone that fans away perpendicular to the runway centerline and approach surfaces, with the floor set by the transitional surfaces.

"Conical zone": A zone that circles around the periphery of and outward from the horizontal surface, with the floor set by the conical surface.

The source of the specific geometric standards for these zones are to be found in Part 77.25, Subchapter E (Airspace), of Title 14 of the Code of Federal Regulations, or in successor federal regulations. A copy of these standards is found in Appendix A of this ordinance.

Sec. 3-3-4. Airport Safety Zone Height Limitations

Except as otherwise provided in this ordinance, in any zone created by this ordinance no structure shall be erected, altered, or maintained, and no vegetation shall be allowed to grow to a height so as to penetrate any referenced surface, known as the floor, of any zone provided for in Article 3 of this ordinance at any point.

The height restrictions, or floors, for the individual zones shall be those planes delineated as surfaces in Part 77.25, Subchapter E (Airspace), of Title 14 of the Code of Federal Regulations, or in successor federal regulations. A copy of these standards is found in Appendix A of this ordinance.

Sec. 3-3-5 Use Restrictions.

Notwithstanding any other provision of this ordinance, and within the area below the horizontal limits of any zone established by this ordinance, no use may be made of land or water in such a manner as to:

1. Create electrical interference with navigational signals or radio communication between the airport and airborne aircraft;

First draft 06122025-work session discussion

2. Diminish the ability of pilots to distinguish between airport lights and other lights;
3. Result in glare in the eyes of pilots using the airport;
4. Impair visibility in the vicinity of the airport;
5. Create the potential for bird strike hazards; or
6. Otherwise in any way endanger or interfere with the landing, takeoff, or maneuvering of aircraft intending to use the airport.

Sec. 3-3-6. Nonconforming Uses

1. Except as provided in § 3-3-6.2 of this ordinance, the regulations prescribed by this ordinance shall not require the removal, lowering, or other change or alteration of any structure or vegetation not conforming to the regulations as of the effective date of this ordinance, or otherwise interfere with the continuance of a nonconforming use. Nothing contained in this ordinance shall require any change in the construction, alteration, or intended use of any structure, the construction or alteration of which was begun prior to the effective date of this ordinance, and is diligently prosecuted.
2. Notwithstanding the provision § 3-3-6.2. the owner of any existing nonconforming structure or vegetation is hereby required to permit the installation, operation, and maintenance thereon of whatever markers and lights deemed necessary by the Federal Aviation Administration, the Virginia Department of Aviation, or the administrator to indicate to operators of aircraft the presence of that airport obstruction. These markers and lights shall be installed, operated, and maintained at the expense of the airport owners, and not the owner of the nonconforming structure in question.

Sec. 3-3-7. PERMITS.

1. Except as provided in Secs. 3-3-7.1, 3-3-7-2, and 3-3-7-3 of this Article, no structure shall be erected or otherwise established in any zone created by this ordinance unless a permit therefore shall have been applied for and granted. Each application for a permit shall indicate the purpose for which desired with and sufficient geometric specificity to determine whether the resulting structure would conform to the regulations prescribed in this ordinance. No permit for a structure inconsistent with this ordinance shall be granted unless a variance has been approved as provided in § 3-3-7-4.
2. No permit shall be granted that would allow the establishment or creation of an obstruction or permit a nonconforming use or structure to become a greater hazard to air navigation than it was on the effective date of this ordinance or any amendments thereto other than with relief as provided for in § 3-3-7-4.
3. Whenever the administrator determines that a nonconforming structure has been abandoned or more than fifty percent destroyed, physically deteriorated, or decayed, no permit shall be granted that would enable such structure to be rebuilt, reconstructed, or otherwise refurbished so as to exceed the applicable height limit or otherwise deviate from the zoning regulations contained in this ordinance, except with the relief as provided for in § 3-3-7-4.
4. Any person desiring to erect or increase the height or size of any structure not in accordance with the regulations prescribed in this ordinance may apply for a variance from such regulations to the Nottoway County Board of Zoning Appeals. Such applications shall be properly advertised and be reviewed and

First draft 06122025-work session discussion

considered through a public hearing. Prior to being considered by the (-insert board of zoning appeals or other entity-) the application for variance shall be accompanied by a determination from the Virginia Department of Aviation as to the effect of the proposal on the operation of air navigation facilities and the safe, efficient use of navigable airspace. Such variances shall only be allowed where it is duly found that a literal application or enforcement of the regulations will result in unnecessary hardship and relief granted will not be contrary to the public interest, will not create a hazard to air navigation, will do substantial justice, and will be in accordance with the spirit of this ordinance. Additionally, no application for a variance to the requirements of this ordinance may be considered by the (-insert board of zoning appeals or other entity-) unless a copy of the application has been furnished to the airport owner for advice as to the aeronautical effects of the variance. If the airport owner does not respond to the application within fifteen days after receipt, the (-insert board of zoning appeals or other entity-) may act independent of the airport owner's position to grant or deny the variance.

Any permit or variance granted by the may, if such action is deemed advisable to effectuate the purpose of this ordinance and be reasonable in the circumstances, be so conditioned as to require the owner of the structure in question to install, operate, and maintain, at the owner's expense, such markings and lights as may be deemed necessary by the Federal Aviation Administration, the Virginia Department of Aviation, or the administrator. If deemed proper with reasonable cause by the Nottoway County Board of Zoning Appeals, this condition may be modified to require the owner of the structure in question to permit the airport owner, at his own expense, to install, operate, and maintain the necessary markings and lights.

3-3-8. Enforcement.

1 The administrator shall administer and enforce the regulations prescribed in this ordinance. He or she shall be vested with the police power incumbent to carry out and effectuate this ordinance, including the action of injunction, prosecution and other available means through the Nottoway County Circuit Court. Applications for permits and variances shall be made to the administrator on a form published for that purpose.

3-3-9. Appeals

1. Any person aggrieved, or any officer, department, board, or bureau of Nottoway County affected by a decision of the administrator, may appeal such decision to the Nottoway County Board of Zoning Appeals.

3-3-10. Judicial Review

§ 10.1. Any person aggrieved or any taxpayer adversely affected by any decision of the Nottoway County Board of Supervisors may appeal to the Nottoway Court Circuit Court.

3-3-11 PENALTIES.

Each violation of this ordinance or of any regulation, order, or ruling promulgated under this ordinance shall constitute a misdemeanor and be punishable by a fine of no more than five hundred dollars. Each day on which a violation occurs shall constitute a separate offense.

3-3-12 Conflicting Regulations

Where there exists a conflict between any of the regulations or limitations prescribed in this ordinance and any other regulations applicable to the same subject, where the conflict is with respect to the height of structures or vegetation and the use of land, or any other matter, the more stringent limitation or

First draft 06122025-work session discussion
requirement shall govern.

3-3-13. Severability

Should any portion or provision of this ordinance be held by any court to be unconstitutional or invalid, that decision shall not affect the validity of the ordinance as a whole, or any part of the ordinance other than the part held to be unconstitutional or invalid.

3-3-14. Adoption

§ 14.1. Be it resolved that this ordinance has been properly drawn, legally advertised, and presented through a public hearing before the governing body of Nottoway County on (- insert month, day, year-). Be it further resolved that the effective date of this ordinance is (- insert month, day, year-) and that the ordinance from that date forward carries the full weight of law within Nottoway County until and unless altered otherwise by the governing body.

Statutory Authority

§ 5.1-2.2 and 5.1-2.15 of the Code of Virginia.

Historical Notes

Derived from Virginia Register Volume 12, Issue 17, eff. June 12, 1996.

These are the comments from the Town's aviation Planner, Jeff Wellman. These comments apply to the Airport Zoning District and the Overlay District. Please consider these changes prior to the Planning Commission Public Hearing on the 18th. I will also be in attendance to present.

Thanks

Philip V.

Good afternoon Philip,

Here are my comments regarding the Draft Airport Zoning District and Airport Overlay District.

Airport Zoning District

- May want to add "Fixed Base Operators (FBO)" to #10 on page 2
- Suggest revising #4 to "Aviation-related maintenance, manufacturing, and assembly" on page 2
- Suggest adding "Aircraft storage (hangars and aprons)" to the list on page 2
- Suggest adding "Public and private roadways/parking lots" to the list on page 2
- We're not experts on minimum lot widths but we've seen other airports list a 100' minimum width in their airport zoning ordinance.
- Suggest changing Section 2-10-10, Item B to "In no case shall the height of any building or structure exceed the height limitations of the CFR Part 77 primary surface, transitional surface, approach surface, horizontal surface and conical surface as required in any airport overlay district."

Airport Overlay District

- Insert airport name in Section 3-3-1, first paragraph
- Insert airport name in Section 3-3-3, first paragraph
- Insert board of zoning appeals or other entity in Section 3-3-7, 4th & 5th paragraphs

- Insert board of zoning appeals or other entity in Section 3-3-9

Also, you may want to send a copy of these draft documents over to Scott Denny at DOAV for review as well.

Please let me know if you have any questions.

Jeff

The County Planning Commission has scheduled a Public Hearing on these proposed ordinances on August 19, 2025. I would like to present your findings at that time.

Thanks,

Philip V.

Please find attached the two proposed ordinances being considered by Nottoway County. One is an Airport District and the second is the overlay district. These are in the same attachment

Also attached is a presentation I gave to VEDP regarding the purchase of approximately 72 acres adjacent to the existing airport. The google earth view is the most accurate boundary that I currently have.

My concerns are as follows:

Is the airport zoning district comprehensive enough and should it also permit private roads so we can limit access to the general public.

Does the Airport Overlay District as proposed eliminate any portion of the 72 acre property from being used? If so, how much?

Please give me a call at your earliest opportunity to discuss and so I can present your comments to Nottoway County prior to their public hearing.

Gregg,

The attached amendments should satisfy the Town of Crewe's concerns without impacting the county's intent. Let me know if you have any questions or recommendations.

Thanks,
Phil

<Airport District adjacent property owner notification to Bstone and Crewe.docx>

§ 2-10-2. Permitted uses.

The following uses shall be permitted within Airport Districts without Special Exception permits:

1. Airports.
2. Vertiports.
3. Aviation-related research and development.
4. Aviation manufacturing and Assembly.
5. Aviation training for manned and unmanned aircraft.
6. Facilities for refueling aircraft.
7. Airport terminals.
8. Aircraft charter service.
9. Police, fire and rescue squad stations as accessory uses to the airport.
10. Businesses compatible with an airport environment, including but not necessarily limited to: motor vehicle parking, travel accommodation services, motor vehicle rental services, and gasoline retail outlets.
11. Offices.
12. Municipal facilities and services, including but not limited to:
 - a. Emergency services staging areas
 - b. Public works operations and storage
 - c. Storm debris collection and temporary storage
 - d. Municipal equipment storage and maintenance
13. Community events and public gatherings, including but not limited to:
 - a. Festivals, fairs, and community celebrations
 - b. Educational events and demonstrations
 - c. Public meetings and civic functions
 - d. Recreational activities compatible with airport operations
14. Temporary storage facilities related to emergency response and disaster recovery
15. Public utilities and infrastructure supporting airport and municipal operations

§ 2-10-2. Permitted uses.

B. The following uses shall be permitted within Airport Districts without Special Exception permits:

- a. Airports.
- b. Vertiports.
- c. Aviation-related research and development.
- d. Aviation manufacturing and Assembly.
- e. Aviation training for manned and unmanned aircraft.
- f. Facilities for refueling aircraft.
- g. Airport terminals.
- h. Aircraft charter service.
- i. Police, fire and rescue squad stations as accessory uses to the airport.
- j. Businesses compatible with an airport environment, including but not necessarily limited to: motor vehicle parking, travel accommodation services, motor vehicle rental services, and gasoline retail outlets.
- k. Offices.

C. Municipal Operations Exception. Notwithstanding any other provision of this section, airport facilities owned and operated by a municipality may be used for any municipal purpose that does not:

- a. Create a hazard to aircraft operations
- b. Interfere with airport safety zones or flight paths
- c. Generate activities incompatible with airport noise levels
- d. Violate applicable FAA regulations

§ 2-10-3. Accessory uses.

Accessory uses customary and clearly incidental to a permitted use or to municipal operations at a municipally-owned airport and which will not create a nuisance or hazard shall be permitted in Airport Districts, subject to the applicable provisions of Article 3, Division 3 of this chapter

§ 2-10-4. Uses permitted by Administrative Permit.

The uses listed in this section shall be permitted within Airport Districts only upon the issuance of an Administrative Permit by the Zoning Administrator pursuant to the provisions of article LVI of division I of this chapter.

A. General standards applicable to all Administrative Permits. No Administrative Permit shall be issued except upon a finding that in addition to conformity with any standards set forth in this chapter for Administrative Permit uses, the following general standards will be met either by the proposal made in the application or by the proposal as modified or amended and made part of the Administrative Permit:

1. *Conformity with comprehensive plan and policies.* The proposal as submitted or as modified shall conform to the Comprehensive Plan of the county or to specific elements of such plan, and to official policies adopted in relation thereto, including the purposes of this chapter.

2. *Impact on neighborhood.* The proposal as submitted or as modified shall not have undue adverse impact on the surrounding neighborhood. Among matters to be considered in this connection are traffic congestion, noise, lights, dust, odor, fumes and vibration, with due regard for timing of operation, screening or other matters which might be regulated to mitigate adverse impact.

B. Off-site office trailers, buildings, parking lots, and equipment or materials storage areas or facilities in connection with temporary construction.

The temporary placement, development or use of off-site office trailers, buildings, parking lots or equipment or materials storage areas or facilities in connection with construction projects may be permitted by Administrative Permit provided:

1. Items permitted are in connection with specific construction projects.

2. Items permitted are placed no sooner than thirty (30) days prior to the beginning of construction and removed within

D. Municipal Use Exemption. Administrative Permits shall not be required for temporary or occasional use of municipally-owned airport property for:

a. Emergency response activities

b. Storm debris management

c. Community events lasting fewer than 7 consecutive days

d. Municipal equipment staging and storage

e. Other municipal operations that do not permanently alter airport infrastructure

NOTTOWAY COUNTY SCHOOL BOARD RESOLUTION
Establishing the Intent to Sell Property - Located at 507 Miller Street, Burkeville, Virginia

WHEREAS, the property located at 507 Miller Street, Burkeville, Virginia served the community as Burkeville Elementary School until 2018, following a 2017 decision by the School Board to close the school.

WHEREAS, the property now serves the Nottoway County Registrar's Office, as well as other community groups, including a food bank and a local church.

WHEREAS, the School Board initially closed Burkeville Elementary School in hopes of cutting down on unnecessary operational costs and using resulting savings to further student educational opportunities within the Division.

WHEREAS, the School Division currently has no use for the property, yet maintaining the property costs the School Division approximately \$80,000 annually.

WHEREAS, the School Division receives no rent, but utilities from the Nottoway County Registrar's Office, and continues to maintain the property to the financial detriment of the School Division.

WHEREAS, the School Board acknowledges that the property has served the Nottoway County Registrar's Office, as well as other community groups, well since the closing of Burkeville Elementary School.

WHEREAS, the School District remains committed to promoting the best interests of the students, staff, and families of Nottoway County, which includes ensuring that the Division's resources are appropriately managed.

WHEREAS, the School Board acknowledges that the ongoing expense of managing the property fails to further student educational opportunities within the Division, and that if sold, the proceeds from the sale of the property may be used for improvements in other Nottoway County public schools. May it therefore be,

RESOLVED THAT, in the judgement of the Nottoway County School Board, it is in the best interest of the Division to sell the property at 507 Miller Street, Burkeville, Virginia, formerly serving as Burkeville Elementary School, and to use the funds for the furtherance of educational opportunities within the Nottoway County Public School system.

FURTHER RESOLVED, that the School Board plans to undergo the process necessary to sell the property in accordance with § 22.1-129 of the Code of Virginia, and will subsequently sell the property to an appropriate buyer.

Signed: 
Erwin Abbott, Jr., District 2
Chair, Nottoway County School Board

William Outlaw, District 1

Damien Rowe, District 3

Charles Wilson, District 4

Michele Duncan, District 5 Vice-Chair

IN WITNESS WHEREOF, the undersigned has affixed signature and seal on this 9th day of October, 2025:

Marcia H. Martin, Ed.D.
Division Superintendent for NCPS

Charlotte D. Wood, School Board Clerk
(SEAL)

NOTTOWAY COUNTY PUBLIC LIBRARY
Board of Trustees Meeting
September 17, 2025

Attendance: Library Director: Jackie Zataweski, Members: Susan Nash, Becky Sones, Carolyn Leslie, Shelia Harper, Verna Rhoades
Absent: Jackie August

Call to Order: was made by Shelia Harper

A motion to approve the **Agenda, Consent Agenda**, including the **Minutes** of August 20, 2025, was made by Susan Nash and seconded by Verna.

Bills for Approval: Susan made a motion to approve the bills, and it was seconded by Carolyn.

Statistical Report: Included in packet

Financial Reports: Still waiting for the final report to come from the county.

Communications: None

Citizen Comments: None

Report of the Library Director

Blackstone Library: Jennifer Daniels is waiting for a revised bid, then work is expected to start on the door.

Burkeville Library: An electrician came and looked at the electrical. Not clear if they were looking at the lights or the electrical for the handicapped door.

Crewe Library: The Town is applying for a grant which focuses on childhood obesity. If they are awarded it, Library staff will be helping to plan and carry out programs and items for the Library of Things may be purchased.

Programs: Melissa continues offering weekly programs at each branch location. The next large-scale program is the Halloween event in Crewe on October 24. Melissa and Kaitlyn will be attending the VLA Conference.

Literacy Program Report: ESL lessons are continuing at the Catholic Church and continuing to have good results. Monday morning lessons started this week with 7 people attending. The Nottoway County Literacy Program's Annual Dinner will be on September 25th.

Committee Reports: None

New Business: Susan made a motion to approve the updates in sections 2.1, 3, 5,10, and 11.2 of the Administrative/Operating Policy and Verna seconded it. The motion passed.

New Business: a conflict was realized in the appointing of officers of the **BOT** and will be addressed and put into the Constitution for approval in our next meeting.

Unfinished Business:

Credit Card: Susan moved to approve the application for a credit card for the library. Carolyn seconded and the motion passed.

Items Not on the Agenda: Susan suggested that the library may want to participate in the Family Farm Day.

Carolyn suggested that Chair Yoga could maybe be done at the Crewe Library and will look into the costs.

Adjournment: Carolyn made a motion to adjourn the meeting.

Next Meeting: Crewe Library at 10:30 on October 15, 2025

Submitted by Becky Sones

Library System Monthly Report

To: Members of the Nottoway County Library Board
From: Jacqueline Zataweski, Public Library System Director
Date: October, 2025

The following summarizes the activities and projects that have taken place since I provided a report for the September meeting.

- I have continued to meet with the Library Aide who is currently in charge at NIS and we have planned that I will be at the school on October 13 for the first three “escape rooms” of the year.
- On October 1, I attended the annual Directors meeting in Richmond. Of note:
 - Federal Fiscal year began 10/1 - there will be no changes to the resources provided with funding from the IMLS; a slight increase in grants to states is possible
 - VPLDA meeting to be held in Harrisonburg (March 19 & 20)
 - Discussion of SALAD-like meetings for program staff
 - Discussion of Early Literacy Training for staff
- I went to Nottoway HS on October 3 for the first club meeting; I will be working at the desk in Blackstone and so will not be able to attend the next meeting (October 17).
- Following the approval of our budget adjustment for additional State Aid, I revised the working budget based on the new total. I have also provided to the BoS a completed report form noting the amount of our total budget, including state aid, and what portion of it was spent in the first quarter of the fiscal year.
- A fellow director shared with me an updated library value calculator which includes things like hot spots, wi-fi, items in the Library of Things and so forth. I have used this calculator to arrive at the value shown in the spreadsheet in the statistics portion of this packet. There are several things of note:
 - The Internet and WiFi in Blackstone were down approximately 1/2 of the first quarter of the fiscal year making the computer and WiFi use lower than it likely would have been otherwise.
 - The value of business services was not included in this report. There were:
 - 127 documents faxed (Staples cost: \$1.79 for first page, \$1.59 for add'l)
 - 2809 B & W pages were printed or copied (Staples cost: \$0.24 each)
 - Not all program attendances were reported, only those that involve hired performers/contract workers (Yoga, ESL, Summer Reading)

- On October 9, I attended a (virtual) FOIA training; it is required for council members and relevant to us as well. Screen shots of some presentation slides follow.
- I learned of a small grant that would potentially be a good fit for us, enabling us to provide books to all pre-k students each month of the school year. It requires a 501c3 as the fiscal agent, though, so I'm discussing it with the Friends groups.
- Four of eight action items in the Resilience section of the Sustainable Libraries Certification have now been completed. After this comes sections focusing on Financial Sustainability and then Collections. A Final Report will be required before certification.
- Inventory continues in Crewe and Blackstone.

In addition to the above, the usual tasks regarding deposits and invoices, staff schedules and payroll were completed, as were promotional activities such as creating social media posts, newsletters, calendars, and other printed materials. I have also continued working to ensure that the library's website will be ADA compliant before the deadline.

Acting as the primary contact for the Imagination Library, I continue to confirm addresses of and approve new registrants. As of October 10, there are 280 participants and 173 children have "graduated".

- Minutes don't need to be a verbatim transcript of the meeting, but must include at minimum:
 - i. date, time and location of the meeting.
 - ii. members recorded as present or absent.
 - iii. summary of discussion on matters proposed, deliberated or decided.
 - iv. record of any votes taken.
 - if electronic meeting – nature of emergency, that meeting was held electronically, and type of electronic means used

CONVENING A CLOSED SESSION

38

By affirmative vote in open meeting the public body must approve a motion that:

- i. identifies the subject matter
- ii. states the purpose of the meeting and
- iii. makes specific reference to the applicable exemption from open meeting requirements provided by statute

(Examples:

I move that the Board of Supervisors convene in closed session pursuant to **Va. Code § Sec. 2.2-3711A(1)** to discuss a **personnel matter** involving the **annual performance evaluation of the county administrator**.

I move that the Board of Supervisors convene in closed session pursuant to **Va. Code § Sec. 2.2-3711A(8)** for **consultation with the county attorney** regarding **specific [contract dispute/negotiations] legal matters** requiring the provision of legal advice by such counsel.

(Va. Code §2.2-3712)

ADMINISTRATIVE REQUIREMENTS

42

Any locality with a population of more than 250, must include on their website a written policy that:

- i. explains how the public body assesses charges for accessing or searching for requested records and
- ii. notes the **current fee charged**, if any, for accessing and searching for such requested records.

Examples:

- <https://henrico.us/government/freedom-information-act-foia/services/>
- <https://www.hanovercounty.gov/356/Make-a-Public-Records-FOIA-Request>
- <https://www.loudoun.gov/976/Costs-for-Records-Requests>

(Va. Code §2.2-3704.1)

ADMINISTRATIVE REQUIREMENTS

41

- "all local public bodies and regional public bodies that are subject to the provisions of this chapter shall designate and publicly identify one or more **Freedom of Information Act officers (FOIA officer)** whose responsibility is to serve as a point of contact for members of the public in requesting public records and to coordinate the public body's compliance with the provisions of this chapter" Va Code § 2.2-3704.2

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *gz*

SUBJECT: Planning and Economic Development Monthly Update – September 2025

DATE: October 9, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances, notably division and property complaints. Please note that these discussions may consist of follow-up via email or phone at least four times or more after the initial meeting and before applying for a special exception, subdivision, or rezoning.
2. Site visits to the Burkes Junction site for a solar facility on September 2nd and September 5th.
3. Participated in an American Trails webinar regarding national collaboration efforts for national trail efforts and managing federal data resources on September 4th.
4. Planning Commission denied the zoning ordinance amendment to definitions, Public Utilities, to include "solar" as a public utility. The vote was 8-0
5. Planning Commission met on September 16th to hear a Special Project Review (§15.2-2232). It approved the application for substantial conformity with the Comprehensive Plan. The vote was 7-1,
1. The special exception request for a 3 MW solar facility on 30 acres of a 121-site was approved by the Planning Commission on September 16th, with the PC-added condition that the applicant get setback waivers from the adjacent property owner where the required setbacks were not met. The vote was 7-1.
2. The PC continued the discussion of the Airport Zoning District and recommended approval with a condition that any special events the County must approve that the Town of Crewe hosts. The vote was 8-0.

3. The updated Airport Safety Overlay District at Pickett Park was continued to the October 21st meeting so staff could identify all of the adjacent property owners on a map.

Economic Development

1. Attended WPPDC East VATI Management Team Zoom Meeting held on September 2nd.
2. Working with Loopnet and CoStar to update our listings.
3. Working on listing private commercial or industrial properties in all three Towns as well as the County.
4. MS-Teams quarterly meeting on September 3rd with Jad Malaeb (Land Use Manager) regarding Luck Stone's plans for the Crewe site and will meet with him and the management team on November 11th for a work lunch.

EMERGENCY SERVICES COORDINATOR'S REPORT

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr.

DATE: October 9, 2025

SUBJECT: October Report

The following activities and projects are provided in this summary of work by the Department of Emergency Services since my last report on September 11th before your monthly Board of Supervisors meeting on September 18, 2025. Many of these activities listed below were performed in collaboration with other staff members and external stakeholders.

The current emergency services related projects and activities that I have worked on and represented the county include, but are not limited to, the following:

- Participated in a virtual meeting with VDEM to close out all routine paperwork for a local emergency services grant on September 15th.
- Attended the Town Hall Meeting held by Supervisor Norton at the Crewe Fire Station on September 16th and provided information for some of the citizens' questions.
- Met with the building generator vendor at the health department/EOC on September 18th and reviewed details on this grant funded project, installation location, electrical service, and LPG tank location plus connections.
- Attended the regular BOS meeting on September 18th and presented monthly report.
- Participated in a virtual meeting with RapidSOS & IaR representatives to discuss how we can get an interface working between the two platforms and our CAD. These companies are integrated and provide the response app on our first responder's phones and display response information on a screen in our communications center.

- Facilitated the monthly meeting of the Fire & EMS Working Group on September 23rd. (agenda attached)
- Facilitated a virtual meeting on September 25th with CTA to go over the steps that we would use to draw down the USDOJ COPS grant funds on October 1st.
- Attended the Economic Development Meeting (EDC) at the EOC on September 25th.
- Participated in a drill at Nottoway Correctional Center on the morning of September 29th that involved two personnel pinned by a tractor against a building. We involved the communications center by processing the 911 call in real time, using our new EMD for the call information, followed by the primary response agencies participating in the hands-on rescue and EMS simulation.
- Attended the annual Region 1 Fall Forum for local county emergency services coordinators, which was hosted by VDEM in Chesterfield County on September 30th.
- Continued research and other administrative work on potential EMS expenses and regional EMS salary/benefits summary. This data will be provided in October to the BOS.
- Facilitated a virtual meeting on October 1st with CTA and Logan Presley to process the drawdown of the USDOJ COPS grant funds. The federal funds transfer processed seamlessly, and the county treasurer confirmed the receipt.
- Participated in a radio project meeting with Nottoway Public Schools staff on October 2nd. Portable radios from the new project have been issued to the SROs with their current radio frequency and will be switched over to the new radio frequency when that time comes. The radios are dual band for frequencies, allowing this process to occur now so they could replace some failing radios from the old system.
- Instructed a class with practical skills stations in the EMT class at the Kenbridge EMS Station on October 2nd. There are four students from Nottoway County in the class.
- Attended the Blackstone VFD's Open House on Sunday, October 5th and set up a county display table with hand-out material for public education.
- Met with the Prince Edward Emergency Services Coordinator on October 6th to review mutual aid operations and radio communications planning between our counties. We try to meet quarterly, and I communicate with all of the neighboring counterparts on a regular basis.
- Facilitated the monthly meeting of the Fire & EMS Working Group on October 7th. (agenda attached)
- Attended a Norfolk Southern safety committee meeting and lunch at the Crewe Fire Station on October 8th. We had great discussions about working together on train incidents. New contact information sheets were provided by Norfolk Southern.
- Attended a class on emergency responses to solar facility fires and associated battery fires, hosted by the Crewe VFD on October 8th. The basic response procedure explained to us on solar equipment fires is not to rush into the facilities, but wait for the company representative to arrive for further guidance on whether to let the fire burn or take other action. Calling the solar company representative first during the response sequence is important.
- Participated in a virtual meeting for our radio communications project review with E.F. Johnson/JVC Kenwood and CTA staff on October 9th.

**NOTTOWAY COUNTY
FIRE & EMS WORKING GROUP
PLANNING MEETING
September 23, 2025
18:00 hrs.**

***MEETING LOCATION: Nottoway County Social Services
Conference Room
288 West Courthouse Rd. – Nottoway, VA 23955***

AGENDA

- Call to Order & Prayer
- VDOF Update – James or Cody
- VDOT Update - Ryan
- CAD Nature Codes & EMD Feedback – Buddy/Josh
- ECC Update with ECC Director Status - Josh
- Automatic Aid & Mutual Aid Dispatching
- Countywide Radio System Update - Jimmy
- EMS Countywide Update (all agencies)
- Recruitment Photo Shoot Completed
- Multi-Company Training Update
 - OMD led CE Quarterly Training
 - Solar Facility and Equipment Firefighting (Oct. 8?)
 - Multi-Company Fire Evolutions at Center
 - Extrication Class
 - State Delivered Wilderness Search & Rescue (Jan/Feb)
- Levy & Volunteer Tax Relief Incentive Update
- Other Items for the Good of the Order
- Adjournment

BUILDING OFFICIAL

EMERGENCY SERVICES COORDINATOR
AUBREY W. "BUDDY" HYDE, JR.

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr., Emergency Services Coordinator

DATE: October 9, 2025

SUBJECT: October Consent Request

Nottoway County Treasurer's Office received the FY-2025 disbursement of the Virginia Department of Fire Programs Aid to Localities (AtL) funding on September 19, 2025 for the total amount of \$53,792.00, which will be locally allocated and disbursed by Nottoway County in equal amounts to the Blackstone Volunteer Fire Department, Burkeville Volunteer Fire Department, and Crewe Volunteer Fire Department. This state "pass-through" funding is not a grant but is an annual entitlement under the Code of Virginia 38.2-401 to be used for fire service purposes. Staff is requesting approval for acceptance of the total funds and equal distribution of the Virginia Department of Fire Programs funding in the amounts of \$17,930.66 to the three aforementioned volunteer fire departments.

Suggested motion: I move to approve the consent request as presented for the authorization of equal distribution of the FY26 Virginia Department of Fire Programs Aid to Localities (AtL) funding to each of the three volunteer fire departments in Nottoway County.

**Burkeville Town Council Meeting
Tuesday, December 12, 2023, 7:00p.m.
Burkeville Train Station**

Present: Mayor Ed Graham, Town Clerk M. Schutt, Council Members P. Bowlin, J. Bruce, R. Carwile, R. Miller, G. Smith and B. Thompson. Absent: Council Member I. Oliver.

Mayor Ed Graham called the meeting to order, and then led in the Pledge of Allegiance. Council Member R. Miller prayed.

Mayor Ed Graham welcomed visitors.

Approval of:

Agenda

Council Member B. Thompson made a motion to approve the agenda, seconded by R. Carwile. The motion passed without opposition.

Minutes

Council Member B. Thompson made a motion to approve the November 14, 2023 minutes, seconded by R. Miller. The motion passed without opposition.

General Fund Statement

Council Member J. Bruce made a motion to approve the General Fund Statement, seconded R. Carwile. The motion passed without opposition. Council Member J. Bruce explained that FMS Software has us on an Accrual Basis but we need to move that to a Cash Basis. We can make this switch at the end of the Fiscal Year ending 6/30/24.

Funds Available Statement

Council Member J. Bruce made a motion to approve, seconded by R. Carwile. The motion passed without opposition.

Accounts Payable Statement

Council Member B. Thompson made a motion to approve, seconded by J. Bruce. The motion passed without opposition.

Citizen Comments

Merle Smith complained about the water lines need regular flushing. Merle Smith asked for a microphone for Council Members and a speaker, hard for the citizens to hear, also he feels that Council Members need to address the citizens and not each other.

**TOWN OF BURKEVILLE
COUNCIL MEETING AGENDA
THURSDAY, JANUARY 18, 2024
5:00 PM**

**Reschedule of January 16, 2024 meeting due to Weather
& Possible Icy Road Conditions**

Call to Order

Pledge of Allegiance, Invocation

Welcome of Guests

Approval of:

- **Agenda for January 18, 2024 meeting**
- **Minutes for the December 12, 2023 meeting**
- **General Fund Account Statement**
- **Funds Available Statement**
- **Accounts Payable: January 2024**

Motion to Adjourn

Jack Boswell has offered \$100,000.00 to Burkeville from Nottoway Cares to start installing the water lines for the proposed Animal Shelter.

All Council Members signed the document to show they support the Animal Shelter being built in Burkeville, VA.

Council Member R. Carwile made a motion to commit \$200,000.00 in ARPA Funds to the install of the water lines.

Roll Call Vote:	Ayes	Nays
R. Miller	X	
R. Carwile	X	
G. Smith	X	
I. Oliver	X	
J. Bruce	X	
B. Thompson		X

Committee Reports

Emergency Services

Fire Chief John Schutt gave an overview of his report. The Fire Department is in need of volunteers, and paid employees, this is effecting their response time which is still very quick. EMS is a majority of their calls.

Police Chief Jake Herlong gave an overview of his report. Chief Herlong was asked to partner with Crewe Police due to the new boundary lines, but after discussions with Town Attorney John Taylor, this is not recommended, Chief Herlong agrees with that decision and will convey that to Crewe.

Water & Sewer

Artie Seamster and Tyler Alford have been preparing the town for winter. Roof on Well # 3 Building, pilings under Well # 5 Building, new doors built by Jim Bruce installed on Well #3 and Well # 1 Building. They have winterized the BVFD Thrift Store and Town Park pavilion. Both Public Works trucks are inspected and on the road.

Building Committee

Council Member R. Carwile reported that the Municipal Building was on the internet in a charming report about Life on the Other side of the Track.

Updates to Pump House # 3 is looking better and more secure.

Personnel

Mayor Ed Graham and Clerk Mendy Schutt are working on Performance Standards and Employee Evaluations for all departments.

Parks & Grounds

Council Member P. Bowlin remarked how dark the park was for the Party in the Park following the parade and has asked for us to look into possible flood lights.

Finance & Purchasing

Council Member J. Bruce reported earlier in the meeting the issues we had with the software regarding the Accrual vs. Cash Basis.

The ARPA Funds balance was in question about using it for town repairs, Council Member J. Bruce commented that repairs and maintenance are covered in the budget, so ARPA Funds could be used for the Animal Shelter project. Also we submit receipts after the fact for ARPA Funds, not to request additional money but to show how the money was used.

Planning Committee

Council Member J. Bruce has nothing to report at this time.

Cemetery

Council Member P. Bowlin commented on the decaying fence and asked that it be evaluated to see if it needs to be taken down or repaired.

Council Member P. Bowlin asked us to look into the Osborne lot that needs someone to look at and map the lot.

Streets & Town Signage

Council Member G. Smith remarked that some of the emergency signs aren't visible.

New Business

No additional new business that has not been covered.

Old Business

No old business that has not been covered.

Council Member Comments

Council Member G. Smith wants the Fire Department to check hydrants for flushing and pressure. Checking the lines will help improve water quality and pressure.

Council Member G. Smith wants VDOT contacted in regard to the ditches on Dimmick Street.

Council Member G. Smith wants us to get the cameras serviced.

Mayor Comments

Mayor Ed Graham had no additional comments.

Council Member G. Smith made a motion to adjourn the meeting, seconded by R. Carwile. The motion passed without opposition.

Minutes provided by:

Mendy Schutt, Town Clerk

J-1

**VACo 2025 Annual Meeting
Voting Credentials Form**

From: Logan Presley, Finance Manager

Re: Grant Funding for Dispatch Office

10/10/2025

Greetings Board of Supervisors,

Attached is a budget adjustment for a 100% reimbursable grant for NG911 Additional Funding in the amount of \$150,000.00. This grant does not contain a match.

The grant is for the Dispatch Office to cover the cost of the dispatch consultant in the amount of \$80,000.00 and other items needed for the department such as CAD monitors, dispatch chairs, various items for dispatch consoles, 2 laptops, and quality assurance software.

Sincerely,

Logan Presley

May 28, 2025

Dear Nottoway County:

I am pleased to advise you that the Virginia 9-1-1 Services Board has approved your **FY26 NG911 Additional Funding** grant request. You have been awarded \$150,000 for eligible costs for the: **FY26 NG911 Additional Funding** outlined in [the PSAP Grant Guidelines for the FY26 Additional Funding](#). Funding for this grant award will be available beginning July 1, 2025.

The Grant Payment Reimbursement Process is described in the Grant Guidelines. Payment will be made on a reimbursement basis only for allowable costs. All funding requests must be submitted in the in vdem.emgrants.com system. For the request to be processed, invoice(s) that support the amount requested should be attached to the form when it is submitted. All invoices should be submitted within 30 calendar days and dated after July 1, 2025. Finally, grant payment requests will be held until all required reports are received.

If you have any questions, please do not hesitate to contact me, 911 Grant Program Specialist Marcus Grant, or your NGS Outreach Manager. Questions can also be directed to the PSAP Grants mailbox: psapgrants@vdem.virginia.gov.

Congratulations on your grant award!

Sincerely,

Marcus Grant

9/22/2025

Dear Board of Supervisors,

We had a taxpayer come in our office, who qualified as 100% service-connected Veteran on October 23, 2018, and is entitled the Veterans Exemption. I am asking for a refund of PP taxes for the years of 2021,22,23, and 24 in the amount of \$1,723.74. In addition to Real Estate taxes for the years of 2018(prorated),19, 20,21,22,23, and 24 in the amount of \$5,125.14. This being a combined total of \$6848.88 due back to said taxpayer.

Sincerely,

April M. Blevins

CRC Hosts Rain Barrel Workshops Across the Region

This month, CRC partnered with Piedmont SWCD, Peter Francisco SWCD, and Buckingham 4-H; to host three rain barrel workshops, helping residents learn about stormwater conservation and create their own functional rain collection systems.

- Farmville Adult Workshop: Participants assembled and took home 55-gallon rain barrels, learning installation tips and maintenance practices.
- Buckingham Kids Workshops: Two youth-focused sessions introduced kids to water conservation through hands-on activities and decorating 5-gallon mini rain barrels, combining environmental education with creativity.

Workshops like these empower residents of all ages to take practical steps toward protecting local waterways and reducing runoff pollution.

Upcoming Funding Opportunities:

- VDACS AFID Infrastructure Grant – Fall 2025
 - **Expected to open September/October 2025**
 - Supports capital projects like food hubs, farmers' markets, commercial kitchens, and value-added processing facilities (meats, dairy, produce).
- VDOT Rural and Tribal Assistance Pilot Program (RTA)
 - **Applications accepted September 8 – October 8, 2025**
 - Provides up to \$54.2 million in no-match grants for legal, technical, and financial advisory services to help advance rural and tribal infrastructure projects (roads, bridges, utilities).
- VTC VA250 Marketing Leverage Program
 - **Applications open September 16 – October 23, 2025**
 - Offers matching funds for marketing initiatives that promote Virginia's 250th commemoration events and tourism opportunities.

Grants Awarded

- Tobacco Commission
 - Prince Edward - Trailblazing/Wayfinding Signage
 - Cumberland - Community Grocery
 - Cumberland - Small Area Plan
 - Town of Crewe - Food Hub
- Centra
 - Charlotte - Meals on wheels
- FEMA
 - Price Edward - VFD Air Trailer

The CRC provides free grant writing services for member localities and local 501(c)(3) non-profits

VHREDA Meet & Greet

CRC hosted a Meet & Greet for VHREDA Executive Director Alex McCoy, welcoming him to the region. The event brought together local officials, state representatives, and business leaders to discuss economic development priorities and strengthen regional partnerships. We were pleased to welcome Delegate Wright and appreciate his continued support for regional economic development efforts.

TRRC Awards Announced

CRC staff attended the Tobacco Region Revitalization Commission meeting at Virginia International Raceway, where funding decisions were finalized. Several projects from our region were approved, supporting continued investment in local infrastructure and economic growth.

Ribbon Cutting: Harris Memorial Armory & Hospitality Training Center

CRC staff attended the ribbon cutting of the new Harris Memorial Armory and Hospitality Training Center in Blackstone, after helping secure funding through several successful grant applications.

The Center will offer degree and certification programs in partnership with Virginia State University, Virginia Union University, and Transition Solutions Enterprises, supporting students, veterans, and community members pursuing careers in hospitality and tourism. This facility will be a regional hub for education, workforce training, and community support.

Subject: Burkeville VFD Monthly Report
Attachments: BVFD September Report.pdf

Notable items are:

1. Burkeville Volunteer Fire Department was back fully operational on September 19th on the EMS medication side.
2. Burkeville Volunteer Fire Department is almost back to full staffing; we are looking for 1-2 more personnel in the next couple of weeks.
3. Burkeville Volunteer Fire Department hired 2 FF/EMT-Ps in the past week and a half, since we lost a few providers over the past 2 weeks.
4. Burkeville Volunteer Fire Department has signed a contract on a replacement 2030 Pierce Enforcer Tanker/Pumper. This apparatus cost the Department \$986,160.00.
5. As you know Burkeville Volunteer Fire Department replaced one of our ambulances with a 2024 Ford F550 Road Rescue Ultra Medic which will cost roughly \$385,000.00 when all the invoices are paid.
6. These purchases bring the Burkeville Volunteer Fire Department purchases in Calendar year 2025 to \$1,371,160.00, that is a significant investment into protecting our community.

As always, any questions or concerns please feel free to let me know.

Call Report for September 2025.

Call Numbers & Types of Calls:

1. Calls in town: 11 Calls.
2. Calls in 1st Due: 20 Calls. (*Not including In-Town or State Facilities*)
3. Calls to State Facilities: 23 Calls.
4. Calls to Mutual Aid: 24 Calls.
5. EMS and EMS assists: 61 Calls.
6. Fire Related: 2 Calls.
7. Motor Vehicle Crashes: 9 Calls.
8. Canceled Enroute & False Alarms: 6 Calls.
9. Total Number of Calls Answered: 78 Calls. (Missed 9 Calls/3 in our 1st Due.)
 - Average Response Time: 11 mins, 58 secs. from page for service to arrival on scene.

Additional Information:

1. Paid Hours: : 1421.75 hours.
2. Paid Positions: 9 Paid Positions Filled.
3. Volunteer Hours: 195.75 = \$4,502.25 SAVINGS to taxpayers this month.
4. Burkeville Volunteer Fire Department signed a contract on Pierce Enforcer Tanker/Pumper to replace our 2004/2005 KME Tanker/Pumper. This apparatus cost \$1,155,868.00 if paid when apparatus is delivered, Burkeville VFD decided to pay for this apparatus prior to build, so the total cost was discounted and Burkeville VFD will be paying \$986,160.00 on October 8th for the purchase of the apparatus. Which will be delivered in approximately 51 months. This apparatus is expected to be delivered around January 2030. 100% of these funds are coming from the Fire Department funds and will require \$0 contribution from the Town of Burkeville, Burkeville Volunteer Fire Department has been saving for 20 years towards this purchase.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Town of Crewe Water System Has Levels of Total Trihalomethanes (TTHM) and Total Haloacetic Acids (HAA5) Above Drinking Water Standards

Tests indicate that the Town of Crewe's Water System exceeded drinking water standards. Although this is not an emergency, as our customers, you have the right to know what happened, what you should do, and what we are doing to correct this situation.

To ensure satisfactory water quality, we are required to monitor for disinfection byproducts, including Total Trihalomethanes (TTHM) and Total Haloacetic Acids (HAA5) on a quarterly basis. Based on test results of routine quarterly samples collected during the fourth quarter (October - December) 2024 through the third quarter (July - September) 2025, our system exceeded the standard or Primary Maximum Contaminant Level (PMCL) for both TTHM and HAA5. The PMCL for TTHM is a locational running annual average (LRAA) of 0.080 mg/L. The PMCL for HAA5 is a locational running annual average (LRAA) of 0.060 mg/L. The average concentration for TTHM based on four calendar quarters is 0.089 mg/L and 0.094 mg/L and HAA5 based on the four calendar quarters is 0.096 mg/L and 0.096 mg/L.

What does this mean?

There is no immediate health risk. If there were, you would have been notified immediately. However, some people who drink water containing TTHM and / or HAA5 in excess of the MCL over many years may have an increased risk of getting cancer.

What should consumers do?

You do not need to use an alternative water supply. However, if you have specific health concerns, consult your health care provider or the Piedmont Health Department at (434) 392-8187.

What happened? What is being done?

TTHM and HAA5, along with other disinfection byproducts, are formed when trace amounts of naturally occurring organic compounds in the raw water source combine with chlorine that is used to disinfect the treated water. The concentration of TTHM and HAA5 in your drinking water can vary because of changes in source water quality, water temperature, distribution storage time, and other factors. We will continue to monitor your drinking water for TTHM and HAA5. The next sample will be collected during November 2025.

For more information, please contact Douglas Fisher at (434) 645-9436.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the Town of Crewe.

Chicken Festival tickets on sale

Since 1974, our festival has brought Southside Virginia together for great chicken, live music, cold drinks, and candid conversations between neighbors and leaders. It's a single, down-home gathering where you can enjoy a hearty meal and a good band while rubbing elbows with current and would-be elected officials in a relaxed, small-town setting. Our motto says it best: "All the chicken and politick'n you can stomach!" The vibe is simple—good food, good music, and good company—all in one place.

Ticket prices are \$35 through the end of September, then increase to \$40 on October 1. Tickets include live music, beer and wine (for those 21+), non-alcoholic drinks, and one amazing chicken dinner (chicken quarter, baked beans, coleslaw, apple sauce, roll).

Tickets must be purchased in advance. They can be purchased online at the Town Office, at downtowncrewe.com, or by scanning the QR code below.

Scan the QR Code to order your Chicken Festival tickets!

Online bill pay now available!

The Town of Crewe now offers online payment for utility and tax bills. Visit townofcrewe.com for step-by-step instructions on how to register.

Attention Crewe Voters!

There is a Special Election this year for one council.

When voting in the Nov. 4th General Election, voters who reside in the Town of Crewe can select between the two individuals who filed to run for office, or write-in an individual of their choice. In alphabetical order, the candidates are:

- **Kevin Kiger** is a former Crewe Police Officer who now serves with the Lunenburg Sheriff's Department. He also serves on the Crewe Planning Commission.
- **Rick Payne** is a pastor at Christ Community Church, has a full time job, and is serving as an interim member of Council.

Crewe awarded more grant funding

The Town of Crewe has been awarded additional grant funding for downtown revitalization and other initiatives. Funding awards in recent months include:

- \$298,000 from the Tobacco Commission and \$50,000 from the Virginia Department of Agriculture and Consumer Services for the Crewe Food and Microenterprise Hub, a combination grocery store, farmer's market, and food truck corral to be located downtown
- \$15,000 from the Department of Housing and Community Development for wayfinding signs, directing cars from 460 to the shops on Carolina Ave
- \$200,000 to provide free energy audits to any Nottoway County resident

More on these exciting projects to be announced later!

2025 FALL CLEAN-UP

This is your chance to dispose of any large items, like old mattresses, box springs, furniture, unusable household appliances, leaves, and brush!

Excluded items include oil cans, paint cans with paint, tires, construction material, and trees/limbs larger than 4" in diameter or 6' in length

Items must be out for pickup by 7am on Monday, October 20th.

Items may not be picked up until later in the week

Major water project underway

The Department of General Services (DGS), an agency of the Commonwealth of Virginia, is undertaking a major infrastructure improvement to replace the 100-year-old main water line that supplies the Town of Crewe.

DGS has contracted with a professional engineering firm to oversee design and construction of the new water line. As part of the early planning phase, engineers have hired KDR Real Estate Services to coordinate the acquisition of easements along the path for the new water line.

Some property owners may have received a letter from KDR Real Estate. The Town of Crewe intends to have a public forum with DGS, and engineers for residents and impacted property owners to learn more. Be on the lookout for a date and time, once scheduled. Until then, if you have any questions please reach out to Phil Miskovic, Town Manager, at philiskovic@townofcrewe.com.

Calling all railroad enthusiasts!

The Crewe Railroad Museum is seeking volunteers. No railroad experience necessary, just a desire to help the community continue one of our greatest assets. Current volunteers will provide training.

The Railroad Museum is currently open on Saturdays and Sundays, with 2 volunteers needed per shift. Shifts can be as short as 3 hours.

To volunteer, visit the Railroad Museum during opening hours and leave your contact information, or call Ann Tucker at 434-294-7147.

Hydrant flushing October 8th

The Town will flush water mains on Wednesday, Oct. 8, 2025, starting at 7:30 a.m. Flushing clears natural mineral and sediment buildup that can affect color, odor, taste, and pipe capacity. During work in your area you may see temporary low pressure or discolored water—this is not harmful and will pass.

After crews finish nearby, run a cold tap (best: bathtub) until the water runs clear. Please avoid doing laundry while flushing is occurring on your street, as discolored water can stain fabrics.

Crewe PD gauging interest in neighborhood watch

The Crewe Police Department is testing the waters to see if a neighborhood watch program would be a worthwhile endeavor in the near future. This group would focus on three major goals:

- Reducing crime by community education and sharing of security resources.
- Communicating law enforcement priorities and efforts with community members and soliciting feedback from the community for focused policing efforts.
- Providing support, advocacy and assistance to Crewe Police Department while promoting public trust and perception.

Councilman Rick Payne is serving as the Council liaison between the Town Council and the Department. A social media survey will be sent out in the coming weeks to determine if enough interest exists to make this a viable program. In the meantime, interested parties are encouraged to stop by the Town Office to fill out an interest survey, reach out to Councilman Payne directly at rpayne@townofcrewe.com, or stop by the Police Department for an interest survey. An interest meeting will be scheduled for November as well to discuss goals and activities in greater detail.

Subject: Madeline's House Compassionate Purse Dinner/Silent Auction- Friday, Nov. 7 at 6:00 pm

Good afternoon everyone,

It is hard to believe that Madeline's House has been open for one year now (September 30)!

We need your help and support for our upcoming Madeline's House Compassionate Purse fundraiser, which is being sponsored by Centra Health. It is a dinner and silent auction on Friday, November 7 at 6:00 pm at Southern Pines at Wedgewood. The Prince Edward Commonwealth's Attorney Megan Clark will be speaking, and The Fishin' Pig and North Street Press Club will be generously giving us their food for our dinner. I have attached the event flyer along with our Year One Impact that outlines how many victims have been served.

We hope that you can join us for this important event to support our region's domestic violence and sexual assault services. Tickets are \$40 for one or \$70 for 2. They can be bought online at <https://www.steps-inc.org/event-details-registration/the-compassionate-purse> or in person if you let me know that you are coming.

We are still looking for other event sponsors and donations to the event, and we are already providing complimentary tickets to organizations and individuals who provide donations that exceed the cost of our tickets.

Items for the silent auction are also still needed, but we have gotten off to a great start. We have a week-long stay (Saturday to Saturday) at a Chesapeake Bay Beach house, 4 Harlem Globetrotter tickets (April 1, 2026), 2 Longwood basketball tickets, 2 University of Virginia football tickets to any home game, artwork, gift cards and baskets, flowers, and more.

If you know of anyone who might have auction items to donate, please pass our information along to them. They can include a great variety of items such as purses, gift baskets, and gift cards to stores, restaurants, entertainment venues, or any other customer service-related item. We will be putting up an auction "sneak peek" page on our event website in the near future.

Let me know if you have questions or thoughts about how we grow support for this event.

Thanks,

Shawn

Follow Up Flag: Flag for follow up
Flag Status: Flagged

This is to inform you that the Virginia Department of Environmental Quality (DEQ) has drafted a Virginia Pollution Abatement (VPA) permit for Synagro Central, LLC. in accordance with the VPA Regulation, 9VAC25-32. The applicant has submitted an application to DEQ for the reissuance of their existing VPA permit to add 518.5 acres of agricultural and silvicultural land in Nottoway County for the land application of biosolids.

Notice of the draft permit will appear in *The Courier-Record* on October 8, 2025, and October 15, 2025. That initial publication will establish a 30-day public comment period, ending on November 10, 2025.

You may review the permit application documents by visiting <https://www.deq.virginia.gov/news-info/shortcuts/public-notices/water/land-application-virginia-pollution-abatement-vpa> and clicking on the "Synagro Central, LLC. - Nottoway County" link, by email at stephanie.bowman@deq.virginia.gov or phone at (540) 598-0453.

To: Steve Bowen
Subject: PJM Open Window 2025 update
Attachments: PJM Open Window DE Proposals Update Sept 2025.pdf

Dear Mr. Bowen,

Dominion Energy is proud to be your community partner, and we value our role in being a responsible corporate citizen within your locality. Of course, our most important role is our obligation to serve all customers and keeping the lights on. We are committed to providing reliable, affordable, and increasingly clean energy to our customers in Virginia.

I am writing to inform you about Dominion Energy's participation in the 2025 PJM "Open Window" process for regional transmission planning. We submitted a number of proposals for consideration, and we wanted to ensure you were aware that your locality is crossed by one or more of these options. Transmission project proposals were recently made public as PJM begins its review process.

About the Process

PJM is the regional organization that operates the electric transmission grid across 13 states, including Virginia. Through its Regional Transmission Expansion Plan (RTEP) process, PJM evaluates future grid reliability needs, typically 5–15 years in advance.

Through this planning exercise, PJM identifies "baseline" transmission needs that must be addressed to assure reliability throughout its multi-state region. PJM can then conduct competitive solicitations—an "Open Window"—during which transmission owners like Dominion Energy submit transmission solutions to meet identified reliability needs.

While the "Open Window" process has been ongoing since 2013, with the rapid pace of economic development across the PJM region, Dominion Energy, along with other utilities, has submitted proposals for consideration by PJM in the 2025 Open Window. Among Dominion Energy's proposals are innovative transmission solutions such as long-range, underground high-voltage direct current (HVDC). This is our preferred solution as it best solves the electrical needs of the grid, limits various impacts, and uses existing right-of-way, amongst other benefits. Dominion Energy will continue to look for and evaluate innovative solutions such as this to further strengthen the reliability of our electric grid.

All submittals in the 2025 RTEP process, including the portfolios proposed by Dominion Energy, can be found at this link: <https://www.pjm.com/-/media/DotCom/committees-groups/committees/teac/2025/20250909/20250909-item-16---reliability-analysis-update.pdf>

Next Steps

- PJM will host multiple public Transmission Expansion Advisory Committee (TEAC) virtual meetings with the first on October 8, 2025, to announce and describe the submitted proposals.

- Subsequent public meetings will be held on November 4 and December 2, 2025
- Final selection of projects in January 2026 for approval by the PJM Board of Directors in February 2026
- We encourage you to register for and listen to these calls at <https://www.pjm.com/committees-and-groups/committees/teac>

To ensure you are informed in advance of proposals associated with Dominion Energy that will be reviewed by the TEAC, we have attached a one-page overview.

If you would like additional information, we can arrange time with the Dominion Energy transmission team to provide technical details. We also encourage you to direct questions about the process to PJM. For PJM, please contact Lori Lee at lorimurphy.lee@pjm.com or 202-768-2628.

It is important to note that not all Open Window project proposals will ultimately be chosen to move forward. Selection by PJM would only be the beginning of a lengthy approval process, to include the customary state and local approvals, with ample opportunity for stakeholder input and feedback.

We value transparency with our community partners and look forward to providing future updates as PJM's public process unfolds. In the meantime, please let us know if you would like a briefing or additional details.

Sincerely,

Justin T. Pope

General Terms and Conditions	)	

APPLICATION

Columbia Gas of Virginia, Inc. ("CVA" or the "Company") hereby files this Application with the State Corporation Commission ("Commission") for: (1) authorization to increase its currently authorized 2026 Steps to Advance Virginia's Energy ("SAVE") spend cap; (2) approval to amend and extend its SAVE Plan pursuant to Chapter 26 of Title 56 of the Code of Virginia¹ (the "SAVE Act"); and (3) for approval to implement a SAVE Rider² for calendar year 2026, inclusive of costs associated with the Company's Advanced Leak Detection and Repair Program ("Advanced LDAR Program").

The Company is proposing to increase its currently authorized 2026 SAVE spend cap from \$73 million to \$87.1 million with authorization to exceed this investment by 10%, for a total 2026 spend of \$95.8 million. The Company also requests to amend and extend its SAVE Plan for two years (calendar years 2027 and 2028) ("Phase 6 SAVE Plan"). Under Phase 6 of the SAVE Plan, the Company requests authorization to spend up to \$187.1 million in 2027 and \$127.7 million in

¹ Va. Code § 56-603 *et seq.*

² The SAVE Rider and its components were approved by the Commission in CVA's original SAVE Plan, *See Application of Columbia Gas of Virginia, Inc. For approval of a SAVE Plan and rider as provided by Virginia Code § 56-604*, Case No. PUE-2011-00049, Order Approving SAVE Plan and Rider (Nov. 28, 2011).

2028 for a total of \$314.8 million. The Company requests authorization to exceed this investment by up to 10% on an annual basis and 10% on a cumulative basis, for a Phase 6 maximum spend of \$346.3 million (consisting of construction work in progress and cost of removal). The Company also requests authorization to spend up to \$2.0 million in 2027, and \$0.6 million in 2028 associated with its Advanced LDAR Program in its Phase 6 SAVE Plan. The Company requests authorization to exceed the Advanced LDAR Program investment by up to 10% on an annual basis and 10% on a cumulative basis, for a Phase 6 maximum spend of \$2.9 million (including both O&M and capital).

The SAVE Rider rate calculations for 2026 proposed in this case are based on a \$87.1 million projected SAVE eligible capital program for 2026; projected 2026 costs associated with the Company's Advanced LDAR Program; and the true-up of the recovery of the actual SAVE cost of service for the calendar year 2024. This rate would be effective for the first billing unit of January 2026 through the last billing unit of December 2026.

In support of its Application, the Company states as follows:

1. The name, address, and telephone number of CVA's counsel is:

Victoria L. Howell, Senior Counsel
NiSource Corporate Services Company
1809 Coyote Drive
Chester, Virginia 23836
(804) 682-1338

2. CVA is a public service corporation organized and existing under the laws of the Commonwealth of Virginia. It also is a natural gas local distribution company providing natural gas service to over 290,000 residential, commercial, and industrial customers in Central and Southern Virginia, the Piedmont region, most of the Shenandoah Valley, as well as portions of Northern and Western Virginia and the Hampton Roads region. The gas distribution services and operations of the Company are regulated by the Commission.

I. Overview of CVA's SAVE Plan

3. CVA's SAVE Plan is a program designed to accelerate the replacement of certain components of its gas distribution system infrastructure in order to enhance system safety and reliability. Consistent with the SAVE Act, the Commission authorized the Company to implement its initial SAVE Plan in 2012,³ which was amended in 2013.⁴ The Company's SAVE Plan was then amended and extended in Case No. PUE-2015-00071⁵ for the five-year period 2016-2020 ("Phase 2 SAVE Plan."). The Phase 2 SAVE Plan was subsequently amended in 2017 (to increase the five year total expenditure cap from \$150 million to \$173.8 million)⁶ and in 2019 (to increase 2020 expenditures from \$30 million to \$50 million and to increase the total five-year authorized expenditures from \$173.8 million to \$193.8 million).⁷ In 2020, the Company amended and extended the SAVE Plan for one additional year in Case No. PUR-2020-00138 ("Phase 3").⁸ In 2021, the Company was authorized to amend and extend its SAVE Plan for two years in Case No. PUR-2021-00145⁹ ("Phase 4"). In 2023, the Company amended and extended the SAVE Plan for

³ *Id.*

⁴ *Application of Columbia Gas of Virginia, Inc. For authority to amend its SAVE Plan pursuant to § 56-604 of the Code of Virginia*, Case No. PUE-2013-00015, Order Approving Amended SAVE Plan (July 3, 2013).

⁵ *Application of Columbia Gas of Virginia, Inc. For approval to amend a SAVE Plan pursuant to § 56-604 of the Code of Virginia, and For approval to implement a 2016 SAVE Plan Infrastructure Reliability and Replacement Adjustment in accordance with Section 20 of its General Terms and Conditions*, PUE-2015-00072, Order Approving Amended SAVE Plan (Oct. 23, 2015). Phase 2 of CVA's SAVE Plan provided for the accelerated replacement of specified types of pipe materials and system components that have demonstrated an increased incidence of leakage or failure. The types of pipe materials and system components eligible for recovery under Phase 2 of the SAVE Plan are bare steel mains, cast iron mains, pre-1971 coated steel mains and services, first generation plastic pipe, isolated bare steel services, certain risers that are prone to failure, and measurement and regulation stations ("M&R Stations").

⁶ *Application of Columbia Gas of Virginia, Inc., For approval to implement a 2017 SAVE Plan Infrastructure Reliability and Replacement Adjustment in accordance with Section 20 of its General Terms and Conditions*, PUE-2016-00087, Order Approving SAVE Rider for Calendar Year 2017 (Dec. 20, 2016).

⁷ *Application of Columbia Gas of Virginia, Inc., For approval to implement a 2019 SAVE Plan Infrastructure Reliability and Replacement Adjustment in accordance with Section 20 of its General Terms and Conditions*, Order Approving 2019 SAVE Rider (October 26, 2019).

⁸ *Application of Columbia Gas of Virginia, Inc., For approval to amend and extend its SAVE Plan pursuant to VA Code § 56-604, and For approval to implement a 2021 SAVE Plan Rider in accordance with Section 20 of its General Terms and Conditions*, Order Approving Amended SAVE Plan (Nov. 18, 2020).

⁹ *Application of Columbia Gas of Virginia, Inc., For approval to amend and extend its SAVE Plan pursuant to VA Code § 56-604, and For approval to implement a 2022 SAVE Plan Rider in accordance with Section 20 of its General Terms and Conditions*, Order Approving SAVE Rider (Dec. 6, 2021).

three additional years in Case No. PUR-2023-00119 (“Phase 5”). Under Phase 5 of the SAVE Plan, the Company was authorized to invest \$69 million in SAVE eligible capital expenditures in 2024, \$67 million in 2025, and \$73 million in 2026 for a total of \$209 million, with an authorized 10% annual spending variance and a 10% cumulative spending variance, for a maximum spend of up to \$229.9 million. The Company was also authorized to include costs associated with its Advanced Leak Detection and Repair Program in its Phase 5 SAVE Plan.

4. The eligible infrastructure projects undertaken pursuant to the current Phase 5 SAVE Plan enhance safety and reliability by reducing system integrity risks associated with customer outages, corrosion, equipment failures, material failures, or natural forces, and have the potential to reduce greenhouse gas emissions (“GHGs”).

5. The costs incurred in replacing eligible natural gas infrastructure are recovered through a SAVE Rider comprised of two components: a Projected Factor and a True-Up Factor.¹⁰ The SAVE Rider is billed as a fixed charge each month and is designed to recover "eligible infrastructure replacement costs" as that term is defined in § 56-603 of the Code of Virginia. The SAVE Rider recovers SAVE eligible infrastructure replacement costs in a manner that is separate from customer rates established in the Company’s most recent base rates case,¹¹ and avoids any undue cross-subsidization among rate classes.

II. Proposed Amendment to 2026 SAVE Spend Cap

6. The Company requests authorization to increase its currently authorized 2026 SAVE spend cap from \$73 million to \$87.1 million. As discussed in the pre-filed testimony of Company witness Adam M. Halpert, the current 2026 SAVE spend cap is no longer sufficient as CVA is currently projecting to spend \$87.1 million on SAVE eligible projects during the calendar

¹⁰ See footnote 2, *supra*. The SAVE Rider is applicable to Rate Schedules RS, RTS, MPS, PDS, SGS1, SGS2, SGS3, SGTS1, SGTS2, SGTS3, LGS1/LGS2, TS1/TS2, and EDS.

¹¹ *Application of Columbia Gas of Virginia, Inc., For authority to increase rates and charges and to revise the terms and conditions applicable to gas service*, Case No. PUR-2024-00030, Final Order (May 15, 2025).

year 2026. This number exceeds the currently authorized cap for 2026 of \$73 million plus 10%, or \$80.3 million. The Company is anticipating an approximately \$14.1 million increase from its original estimate for 2026 due to the factors as outlined in Company witness Halpert's testimony.

7. Accordingly, CVA is requesting authority to spend up to \$87.1 million on SAVE eligible infrastructure replacement projects in 2026, with authorization to exceed this investment amount by 10% for a maximum 2026 SAVE spend of \$95.8 million. The Company notes that at the \$87.1 million level of spend planned for 2026, the total Phase 5 SAVE spend would still be within its currently authorized Phase 5 maximum spend amount of \$229.9 million.

III. Proposed Phase 6 SAVE Plan

8. The Company proposes to amend and extend its SAVE Plan for an additional two-year term through 2028. CVA's SAVE Plan has been successful in accelerating the replacement of natural gas infrastructure that evidences a higher rate of leakage or failure, thus enhancing system integrity, safety, and reliability. The proposed Phase 6 SAVE Plan will continue the progress made under the SAVE Plan by undertaking additional identified projects the Company expects to complete in 2027 and 2028 that will enhance safety and reliability and will have a positive impact on the environment. Further, continuing to incorporate the Advanced LDAR Program into the SAVE Plan in accordance with the Virginia Energy Innovation Act will support the Company's efforts to find and address leaks on its system which, in turn, will enhance the safety and reliability of CVA's system and reduce greenhouse gas emissions.

9. As discussed in the pre-filed testimony of Company witness Halpert, CVA's projected spend includes \$187.1 million in 2027, and \$127.7 million in 2028. In total, the Company would be authorized to spend up to \$314.8 million on SAVE eligible infrastructure projects in Phase 6 with the ability to exceed this investment by 10% on an annual basis and 10% on a cumulative basis, for a Phase 6 maximum spend of \$346.3 million (consisting of construction work in progress and cost of removal). Also, as explained in the testimony of Company witness Pancione, the Company requests authorization to spend up to \$2.0 million in 2027 and \$0.6

million in 2028 associated with the Company's Advanced LDAR Program in its Phase 6 SAVE Plan. The Company requests authorization to exceed the Advanced LDAR Program investment by up to 10% on an annual basis and 10% on a cumulative basis, for a Phase 6 maximum spend of \$2.9 million.

10. Under Phase 6 of its SAVE Plan the Company plans to undertake the following projects that will replace SAVE eligible infrastructure and enhance the integrity and reliability of its distribution system:

- VAM-1 – VAM-1 is a 6" high-pressure bare steel pipeline constructed in the 1940s. The pipeline runs through mountainous terrain in the Company's Lexington and Lynchburg operating areas. The Company is in the design process of replacing several segments of the VAM-1 pipeline. Execution of the second portion of Phase 1 is planned for 2027 and is estimated to cost approximately \$30.33 million. Phase 2 is estimated to cost \$30.33 million and also planned to be executed in year 2027. Phase 3 will have approximately \$4.99 million spend in 2027 with an additional spend of \$46.29 million with execution planned in 2028. These phases are in an area with mountainous terrain, river crossings, and accessibility risks and require obtaining federal permits from two separate agencies. All these factors contribute to an increased cost for this project.
- Glasgow – As discussed above, the Company is in the design process of replacing several segments of the VAM-1 pipeline which also includes the Glasgow lateral. The Glasgow pipeline is regulated off the VAM-1 pipeline and was constructed in the 1940s. Phase 1 execution is planned for 2027 with an estimated cost of \$19.72 million. Phase 2 is planned to start in 2028 with an estimated cost of \$242,000.
- DVA-6 – DVA-6 is a 1950s high-pressure coated steel pipeline that runs through densely populated areas of Northern Virginia and serves that region of CVA's operating area. The Company is in the process of replacing the DVA-6 pipeline, and DVA-6 Phase 7/8 is planned to be completed in 2027 with an approximate spend of \$29.0 million. This phase is mostly within the Prince William National Forest Park and

requires extensive permitting with the U.S. Park Service and is slightly larger in scope than previous phases to allow the installation within the park limits to occur in one year. DVA-6 Phase 9 is planned for 2028 execution with an approximate spend of \$30.25 million.

- The Company will continue to replace blanket mains and services in order to eliminate bare steel, pre-1971 coated steel, and first-generation plastic pipelines from its system. The Company will also continue to replace SAVE eligible risers. The anticipated spend for 2027 is approximately \$46.7 million and \$46 million for 2028. Company witness Halpert discusses the anticipated number of miles to be replaced in 2027 and 2028, as well as the projected number of services, risers, and M&R stations.
- Reston/Stuart Road POD –This POD serves approximately 16,500 customers around Herndon, Reston, Floris, and other parts of Fairfax County. The total anticipated investment for this project is approximately \$1.8 million in 2028.
- Ecoff POD –This POD serves approximately 17,900 customers in the Chester, Chesterfield, and Colonial Heights market. The total anticipated investment for this project is approximately \$5.9 million for 2027 execution.
- Stanardsville POD –This POD serves approximately 185 customers within the Town of Stanardsville and Greene County. The total anticipated investment for this project is approximately \$5.3 million in 2027 for execution.
- Warrenton POD –This POD serves approximately 3,700 customers within the Town of Warrenton and Fauquier County. The total investment for this project is approximately \$1.8 million in 2028.

11. Section 56-604 of the Code of Virginia (“Code”) provides that a natural gas utility’s SAVE Plan may include an enhanced leak detection and repair program. Section 56-603 of the Code defines an “Enhanced leak detection and repair program” as “a program that is designed to allow a natural gas utility to deploy advanced leak detection technologies to more accurately identify active leaks as part of the natural gas utility’s leak management program and to prioritize

the repair of leaks that present a risk to safety or the environment.” As such, and as discussed in the pre-filed testimony of Company witness Paul Pancione, the Company is proposing to include costs associated with its Advanced LDAR Program in its Phase 6 SAVE Plan.

12. CVA is not proposing any changes to the form of the currently authorized SAVE Rider and will continue to file the calculations of the True-Up Factor and Projected Factor, supporting materials, and associated rate sheets with the Commission on an annual basis (*i.e.*, no later than August 15) as prescribed by § 56-604 E of the Code of Virginia.

IV. 2026 SAVE Rider and Supporting Schedules

13. This Application documents actual SAVE-eligible expenditures incurred during calendar year 2024, updates the schedule of annual SAVE-eligible expenditures anticipated in 2026, identifies the way the Company will allocate capital expenditures among the six categories of SAVE-eligible infrastructure expenditures for 2026, documents the calculation of the True-Up Factor and Projected Factor, and includes the required schedules. The proposed 2026 SAVE Rider will increase the annual bill for an average residential customer using 61.2 Dth per year, by \$19.56, or 1.5%, when compared to the rates in effect on June 30, 2025.

14. The filing requirements for a SAVE Plan are set forth in Rate Case Schedule 46 – Initial or Amended SAVE Plans and SAVE Rider Adjustments, which is found in Rule 20 VAC 5-205-90 of the Commission’s Rules Governing Rate Applications and Annual Informational Filings of Investor-Owned Gas Utilities. **Attachment A** to this Application specifies the filing requirements within Schedule 46 and identifies the location within the Company’s filing where testimony attachments, and related information is provided in compliance with the requirements of Schedule 46. CVA’s 2026 SAVE Rider is supported by the testimony of Bryant K. Wong and the following schedules, which are included as **Attachment B**:

Schedule 46a:	Total 2026 SAVE Revenue Requirement
Schedule 46b:	True-Up Factor
Schedule 3:	Authorized Cost of Capital
Schedule 46c:	Return on Investment
Schedule 46c(a):	Net Rate Base

Schedule 46c(b):	True-Up Prorated ADIT
Schedule 46d:	Depreciation
Schedule 46d(a):	Monthly Depreciation
Schedule 46e:	Property Tax
Schedule 46e(a):	Property Tax Rate
Schedule 46f:	Carrying Costs
Schedule 46g:	Revenue Conversion Factor
Schedule 46h:	Uncollectible Rate
Schedule 46i:	Effective Tax Rate
Schedule 46j:	Revenue Collection
Schedule 46k:	Projected Factor
Schedule 46l:	Projected Factor Return on Investment
Schedule 46l(a):	Projected Factor Net Rate Base
Schedule 46l(b):	Projected Factor Prorated ADIT
Schedule 46m:	Projected Factor Depreciation
Schedule 46m(a):	Projected Factor Monthly Depreciation
Schedule 46m(b):	2025 Monthly Depreciation
Schedule 46n:	Projected Factor Property Tax
Schedule 46o:	Deferral Summary
Schedule 46p:	Capital Expenditures Summary
Schedule 46q:	Commission Approved Spend
Schedule 46r:	ALDAR O&M Costs
Schedule 46s:	Rate Impact

15. Attached as **Attachment C** are Schedules 46t through 46ee, which provide supplemental information that the Company has historically provided as part of its SAVE Plan filings to assist Staff's review, as well as additional filing requirements:

Schedule 46t: 2024 Actual Annual Expenditures – Schedule of annual expenditures by plant sub-account, location, vintage, month, and scope of work undertaken.

Schedule 46u: 2024 Actual Supplemental Information – Schedule of miles of main, number of services, number of risers that were remediated, by type; leak rates for each section of pipe remediated; type of remediation undertaken; an explanation supporting the type of remediation selected; and an identification of any facilities that were abandoned.

Schedule 46v: 2026 Estimated Annual Expenditures by Project – A schedule of annual expenditures for 2026.

Schedule 46w: Support for Components – Support for components: depreciation rates and depreciable base, property tax rates and taxable rate base, capital structure and overall weighted cost of capital, revenue conversion factor, and carrying costs on over/under recovery of eligible infrastructure replacement costs.

Schedule 46x: Support for Rate Base Proposed – Support for rate base proposed: SAVE investment made, accumulated depreciation, accumulated deferred income tax, and plant retirements by plant sub-account and vintage.

Schedule 46y: Impact of SAVE Plan on Leak History and Greenhouse Gas Emissions – Narrative and quantification of actual impact of the SAVE Plan on annual leak history and greenhouse gas emissions.

Schedule 46z: SAVE Plan Revenue and Costs by FERC Account – For the 2024 True-Up Factor and 2026 Projected Factor, identification of the FERC accounts to which SAVE Plan revenue and costs are recorded.

Schedule 46aa: Allocation Method of 2026 Capital Expenditures – Identification of the way the Company will allocate the capital expenditures among the six categories of SAVE-eligible infrastructure in the upcoming year.

Schedule 46bb: Plant Retirement Rate Factors – An analysis of the retirement rate factors for mains, services, and measurement and regulation plant accounts is provided to determine if there are any material changes to the previously applicable Plant Retirement Rate Factors. The resulting retirement percentage is used in the annual Projected Factor calculation.

Schedule 46cc: Report of SAVE-eligible Plant Expenditures – A report confirming the tracking of SAVE-eligible plant expenditures utilizing separate work orders.

Schedule 46dd: Additional Filing Requirements – A report tracking any and all replacement projects undertaken as a result of enhanced leak detection activities.

Schedule 46ee: Estimated Lifetime Revenue Requirement – A schedule showing the estimated lifetime revenue requirement of the proposed eligible infrastructure replacement costs by year, on a jurisdictional basis, including all supporting calculations and assumptions for the Phase 6 SAVE Plan.

V. Supporting Testimony and Exhibits

16. CVA's Application to amend and extend its SAVE Plan is supported by the testimony of Adam M. Halpert, Manager of Field Engineering, Bryant K. Wong, Manager of Regulatory Affairs, and Paul E. Pancione, Manager of Systems Operations.

17. Mr. Halpert provides an overview of CVA's SAVE Plan and its effect on enhancing the safety and reliability of the Company's natural gas distribution system by reducing system integrity risks. He explains the Company's proposal for: (i) authorization to increase its currently authorized 2026 SAVE spend cap from \$73 million to 87.1 million, with authorization to exceed this investment amount by 10% for a maximum 2026 SAVE spend of \$95.8 million; and (ii) authorized investments in SAVE eligible infrastructure of up to \$187.1 million in 2027 and \$127.7 million in 2028, for a total spend of up to \$314.8 million. He also describes the Company's request

for authorization to exceed this investment by 10% on an annual level and 10% on a cumulative level, for a Phase 6 maximum spend of \$346.3 million (consisting of construction work in progress and cost of removal). Mr. Halpert also supports maintaining the currently authorized SAVE infrastructure components, with the inclusion of the Company's proposed Advanced LDAR Program, in Phase 6 of the SAVE Plan and discusses the way the Company prioritizes the types of infrastructure to be replaced over the course of the SAVE Plan.

18. Mr. Wong discusses the derivation of the SAVE Rider rates proposed to be in effect for the first billing unit of January 2026 based on the Company's proposed SAVE eligible expenditures. The SAVE Rider rate calculations for 2026 proposed in this case are based on a \$87.1 million projected SAVE eligible capital program for 2026; projected 2026 costs associated with the Company's Advanced LDAR Program; and the true-up of the recovery of the actual SAVE cost of service for the calendar year 2024. The detailed support for the calculations described above as well as other required schedules and materials in compliance with the Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Gas Utilities, 20 VAC5-205-75 and 20VAC5-205-90 are contained in Attachments B and C to this Application.

19. Mr. Pancione discusses the Company's Advanced LDAR Program and the associated costs the Company is proposing to include in its Phase 6 SAVE Plan.

VI. Environmental Justice

20. The Company's SAVE Plan is designed in accordance with the SAVE Act and is consistent with the principles of environmental justice set forth in Va. Code § 2.2-234 *et seq.* Specifically, the SAVE Act defines "eligible infrastructure replacement" in relevant part as:

...natural gas utility facility replacement projects that: (i) enhance safety or reliability by reducing system integrity risks associated with customer outages, corrosion, equipment failures, material failures, or natural forces; (ii) do not increase revenues by directly connecting the infrastructure replacement to new customers; (iii) *reduce or have the potential to reduce greenhouse gas emissions*; (iv) are commenced on or after January 1, 2010; and (v) are not included in the natural gas utility's rate base in its most recent rate case...¹²

¹² Va. Code § 56-603 (emphasis added).

21. Through the Company's approved SAVE Plan, CVA has been successful in accelerating the replacement of natural gas infrastructure that evidences a higher rate of leakage or failure, thus enhancing system integrity, safety, and reliability. Through the SAVE Plan, the Company's cumulative greenhouse gas emission reductions have now surpassed 8,500 metric tons on an annual basis. This reduction benefits all communities served by CVA.

22. The criteria used to select SAVE projects are based on maximizing the benefits of system safety and reliability and environmental stewardship that flow to all customers. Since geography, demographics, and income level are not criteria used to assess system risk, safety, and reliability, the Company does not select projects based on low-income communities, fenceline communities, or communities of color. Rather, CVA prioritizes system integrity risks to ensure that its SAVE projects address the system's highest priority infrastructure for replacement. Accordingly, the criteria used to select SAVE projects are based on maximizing the benefits of system safety and reliability and environmental stewardship that flow to all customers. Given that the nature of the environmental impacts of greenhouse gas emissions are not restricted to the geographic locations of particular leaks, the Company believes that "no group of people bears a disproportionate share of any negative environmental consequence resulting from [CVA's SAVE] program..."¹³

23. In addition, since these projects involve replacement or modernization of existing facilities, SAVE projects are not akin to installations of new infrastructure requiring siting determinations that impact certain geographic locations and communities where similar natural gas facilities performing essentially the same functions did not already exist.

VII. Request for Partial Waiver

24. Pursuant to 20 VAC 5-205-10(E) and for good cause shown, the Company respectfully requests that the Commission waive the requirement of 20 VAC 5-205-10(I) which

¹³ See Va. Code § 2.2-234.

requires an applicant to provide the Clerk of the Commission with an original and twelve copies of the application. Under the Commission's Rules of Practice and Procedure, submissions filed electronically are exempt from the copy requirement unless the confidential information is filed with the Clerk of the Commission.¹⁴ CVA is not filing anything with the Clerk that requires confidential treatment. Accordingly, as this filing does not contain anything that will be hand delivered to the Document Control Center, the Company respectfully requests a waiver of 20 VAC 5-205-10(I).

VIII. Application Summary

25. CVA proposes to increase its currently authorized 2026 SAVE spend cap from \$73 million to \$87.1 million with authorization to exceed this investment by 10%, for a total 2026 spend of \$95.8 million. The Company also proposes to amend and extend its SAVE Plan for two years (calendar years 2027 and 2028). The proposed Phase 6 SAVE Plan would allow for spend up to \$187.1 million in 2027 and \$127.7 million in 2028. In total, the Company would be authorized to spend up to \$314.8 million on SAVE eligible infrastructure projects in Phase 6 with the ability to exceed this investment by up to 10% on an annual basis and 10% on a cumulative basis, for a Phase 6 maximum spend of \$346.3 million (consisting of construction work in progress and cost of removal). The Company also proposes spending up to \$2.0 million in 2027, and \$0.6 million in 2028 associated with its Advanced LDAR Program in its Phase 6 SAVE Plan. The Company requests authorization to exceed the Advanced LDAR Program investment by up to 10% on an annual basis and 10% on a cumulative basis, for a Phase 6 maximum spend of \$2.9 million (including both O&M and capital).

WHEREFORE, CVA respectfully requests that the Commission: (i) direct that appropriate notice of this Application be provided; (ii) find that the Company's proposed increase to the 2026 SAVE cap from \$73 million to \$87.1 million, with authorization to exceed this investment by 10%,

¹⁴ See 5 VAC 5-20-150; 5 VAC 5-20-170.

for a total 2026 spend of \$95.8 million, is reasonable and prudent; (iii) find that the Company's proposed Phase 6 SAVE Plan, which includes a cap on SAVE eligible investments of \$346.3 million over two years as well as a cap on the Company's Advanced LDAR Program of \$2.9 million over two years, is prudent and reasonable; (iv) approve the Company's 2026 SAVE Rider as set forth in Attachment B of this Application to be effective with the first billing unit of January 2026 through the last billing unit of December 2026; (v) approve the filing of rate sheets implementing the 2026 SAVE Rider in a manner consistent with the authority requested herein; (vi) waive the requirement of 20 VAC 5-205-10(I) which requires an applicant to provide the Clerk of the Commission with an original and twelve copies of the application; and (vii) grant such other and further relief as may be necessary and proper.

Respectfully submitted,

APPLICATION OF

COLUMBIA GAS OF VIRGINIA, INC.

CASE NO. PUR-2025-00099

For approval to amend and extend its
SAVE Plan pursuant to Virginia Code § 56-604

and

For approval to implement a 2026 SAVE Rider
in accordance with Section 20 of its
General Terms and Conditions

ORDER FOR NOTICE AND COMMENT

On August 12, 2025, Columbia Gas of Virginia, Inc. (“CVA” or the “Company”) filed an application (“Application”) with the State Corporation Commission (“Commission”), pursuant to Chapter 26 of Title 56 of the Code of Virginia (“Code”), known as the Steps to Advance Virginia’s Energy Plan (SAVE) Act,¹ for: (i) authorization to increase its currently authorized 2026 SAVE spend cap; (ii) approval to amend and extend its SAVE Plan for two calendar years, calendar years 2027 and 2028 (Phase 6 SAVE Plan); and (iii) approval to implement a SAVE Rider for calendar year 2026, inclusive of costs associated with the Company’s Advanced Leak Detection and Repair Program (“Advanced LDAR Program”).² Pursuant to Code § 56-604 B, the Commission must issue an order approving or denying the proposed 2026 SAVE Rider adjustment within 120 days of the filing of a complete application.

CVA represents that its SAVE Plan is a program designed to accelerate the replacement of certain components of its gas distribution system infrastructure to enhance system safety and

¹ Code § 56-603 *et seq.*

² Application at 1.

reliability.³ The Company states that in Case No. PUR-2023-00119, the Commission approved the amendment and extension of the Company's Phase 5 SAVE Plan for three additional years.⁴ CVA represents that its SAVE Rider is billed as a fixed charge each month and is designed to recover "eligible infrastructure replacement costs" as defined in Code § 56-603.⁵

In this proceeding, CVA requests authorization to increase the currently authorized 2026 SAVE spend cap from \$73 million to \$87.1 million.⁶ CVA states that the Company is projecting to spend \$87.1 million on SAVE-eligible projects during calendar year 2026, which exceeds the currently authorized \$73.0 million plus 10% cost cap.⁷ Additionally, CVA is requesting authority to exceed this investment amount by 10% for a maximum 2026 SAVE spend of \$95.8 million.⁸

The Company also proposes to amend and extend its SAVE Plan for an additional two years through 2028.⁹ CVA states that the Company's projected spend includes \$187.1 million in 2027 and \$127.7 million in 2028, for a total authorization of \$314.8 million for Phase 6 SAVE-eligible projects, with the ability to exceed the investment by 10% on an annual basis and 10%

on a cumulative basis.¹⁰ CVA represents that if approved, the total Phase 6 maximum spend would be \$346.3 million.¹¹ Additionally, the Company requests authorization to spend up to \$2.0 million in 2027 and \$0.6 million in 2028 associated with CVA's Advanced LDAR Program, with authorization to exceed this investment by 10% on an annual basis and 10% on a cumulative basis, for a Phase 6 maximum spend of \$2.9 million.¹²

The Company states that the proposed 2026 SAVE Rider comprises two components, a Projected Factor and a True-Up Factor.¹³ CVA states that it is requesting a True-Up Factor revenue requirement of (\$9,177) and a Projected Factor revenue requirement of \$15,382,334, for a total 2026 SAVE Rider revenue requirement of \$15,373,156.¹⁴ According to the Company, the 2026 SAVE Rider rate calculations are based on an \$87.1 million projected SAVE-eligible capital program for 2026 and \$1.9 million in projected 2026 costs associated with the Company's Advanced LDAR Program.¹⁵ The Company proposes to use the same methodology to allocate the SAVE Plan cost of service as was approved in Case No. PUR-2024-00103.¹⁶ The Company states that the proposed 2026 SAVE Rider will increase the annual bill for an average

residential customer using 61.2 dekatherms per year by \$19.56, a 1.5% increase when compared to the rates in effect on June 30, 2025.¹⁷

Pursuant to Rule 20 VAC 5-205-10 E of the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Gas Utilities,¹⁸ the Company requests a partial waiver of certain filing requirements contained in Rule 20 VAC 5-205-10 I. Specifically, the Company seeks a waiver of the requirement in 20 VAC 5-205-10 I for applicants to provide the Clerk of the Commission with an original and 12 copies of their application ("Waiver Request").¹⁹ CVA filed its Application electronically and asserts that nothing in its Application requires confidential treatment. Therefore, pursuant to the Commission's Rules of Practice and Procedure,²⁰ the Company requests that the Application be exempted from the physical copy requirement.²¹

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; the Company should provide public notice of its Application; any interested persons should be afforded an opportunity to file comments or request a hearing on the Company's Application; and the Staff of the Commission ("Staff") should investigate the Application and file a report containing Staff's findings and recommendations.

¹⁷ Application at 8.

¹⁸ 20 VAC 5-205-5 *et seq.* ("Rate Case Rules").

¹⁹ Application at 12-13.

²⁰ 5 VAC 5-20-10 *et seq.* ("Rules of Practice").

²¹ Application at 13. Under the Rules of Practice, electronic filings are exempt from the copy requirement unless confidential information is filed with the Clerk of the Commission. *See* 5 VAC 5-20-150 and 5 VAC 5-20-170.

Further, based on the particular facts of this case, we find that CVA's Waiver Request should be granted.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed as Case No. PUR-2025-00099.

(2) All pleadings in this matter should be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice. Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Commission's Rules of Practice, the Commission directs that service on parties and Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Commission's Rules of Practice, a Hearing Examiner is appointed to rule on any discovery matters and motions *pro hac vice* that arise during the course of this proceeding. A copy of each filing relating to discovery matters and/or motions *pro hac vice* made with the Office of the Clerk in this matter shall also be sent electronically to the Office of the Hearing Examiners.²²

(5) On or before September 24, 2025, the Company shall cause a copy of the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within the Commonwealth of Virginia:

NOTICE TO THE PUBLIC OF AN APPLICATION BY
COLUMBIA GAS OF VIRGINIA, INC.
FOR APPROVAL TO AMEND AND EXTEND ITS
SAVE PLAN PURSUANT TO VIRGINIA CODE § 56-604 AND
TO IMPLEMENT A 2026 SAVE RIDER
IN ACCORDANCE WITH SECTION 20 OF ITS
GENERAL TERMS AND CONDITIONS
CASE NO. PUR-2025-00099

On August 12, 2025, Columbia Gas of Virginia, Inc. ("CVA" or the "Company") filed an application ("Application") with the State Corporation Commission ("Commission"), pursuant to Chapter 26 of Title 56 of the Code of Virginia ("Code"), known as the Steps to Advance Virginia's Energy Plan (SAVE) Act, for: (i) authorization to increase its currently authorized 2026 SAVE spend cap; (ii) approval to amend and extend its SAVE Plan for two calendar years, calendar years 2027 and 2028 (Phase 6 SAVE Plan); and (iii) approval to implement a SAVE Rider for calendar year 2026, inclusive of costs associated with the Company's Advanced Leak Detection and Repair Program ("Advanced LDAR Program"). Pursuant to Code § 56-604 B, the Commission must issue an order approving or denying the proposed 2026 SAVE Rider adjustment within 120 days of the filing of a complete application.

²² Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

CVA represents that its SAVE Plan is a program designed to accelerate the replacement of certain components of its gas distribution system infrastructure to enhance system safety and reliability. The Company states that in Case No. PUR-2023-00119, the Commission approved the amendment and extension of the Company's Phase 5 SAVE Plan for three additional years. CVA represents that its SAVE Rider is billed as a fixed charge each month and is designed to recover "eligible infrastructure replacement costs" as defined in Code § 56-603.

In this proceeding, CVA requests authorization to increase the currently authorized 2026 SAVE spend cap from \$73 million to \$87.1 million. CVA states that the Company is projecting to spend \$87.1 million on SAVE-eligible projects during calendar year 2026, which exceeds the currently authorized \$73.0 million plus 10% cost cap. Additionally, CVA is requesting authority to exceed this investment amount by 10% for a maximum 2026 SAVE spend of \$95.8 million.

The Company also proposes to amend and extend its SAVE Plan for an additional two years through 2028. CVA states that the Company's projected spend includes \$187.1 million in 2027 and \$127.7 million in 2028, for a total authorization of \$314.8 million for Phase 6 SAVE-eligible projects, with the ability to exceed the investment by 10% on an annual basis and 10% on a cumulative basis. CVA represents that if approved, the total Phase 6 maximum spend would be \$346.3 million. Additionally, the Company requests authorization to spend up to \$2.0 million in 2027 and \$0.6 million in 2028 associated with CVA's Advanced LDAR Program, with authorization to exceed this investment by 10% on an annual basis and 10% on a cumulative basis, for a Phase 6 maximum spend of \$2.9 million.

The Company states that the proposed 2026 SAVE Rider comprises two components, a Projected Factor and a True-Up Factor. CVA states that it is requesting a True-Up Factor revenue requirement of (\$9,177) and a Projected Factor revenue requirement of \$15,382,334, for a total 2026 SAVE Rider revenue requirement of \$15,373,156. According to the Company, the 2026 SAVE Rider rate calculations are based on an \$87.1 million projected SAVE-eligible capital program for 2026 and \$1.9 million in projected 2026 costs associated with the Company's Advanced LDAR Program. The Company proposes to use the same methodology to allocate the SAVE Plan cost of service as was approved in Case No. PUR-2024-00103. The Company states that

the proposed 2026 SAVE Rider will increase the annual bill for an average residential customer using 61.2 dekatherms per year by \$19.56, a 1.5% increase when compared to the rates in effect on June 30, 2025.

Additional details are set forth in the Company's Application. Interested persons are encouraged to review the Company's Application and supporting exhibits.

TAKE NOTICE that the Commission may adopt rates that differ from those appearing in the Company's Application and supporting documents and may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Application and supporting documents.

The Commission entered an Order for Notice and Comment that, among other things, directed the Company to provide notice to the public and provided interested persons an opportunity to comment on the Company's Application.

Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), the Commission has directed that service on parties and Commission Staff ("Staff") in this matter shall be accomplished by electronic means. Please refer to the Commission's Order for Notice and Comment for further instructions concerning Confidential or Extraordinarily Sensitive Information.

An electronic copy of the Application may be viewed on the Commission's website or obtained, at no charge, by submitting a written request to counsel for the Company: Victoria L. Howell, Esquire, Columbia Gas of Virginia, Inc., 1809 Coyote Drive, Chester, Virginia 23836, or victoriahowell@nisource.com.

On or before October 15, 2025, any interested person may file comments on the Application by following the instructions on the Commission's website: sec.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2025-00099.

On or before October 15, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at: scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00099. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Comment.

On or before October 15, 2025, any interested person may request that the Commission convene a hearing in this matter by filing a request for hearing electronically via scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file electronically may file a request for hearing by U.S. mail to the Clerk of the Commission at the address listed above. Requests for a hearing shall include: (i) a precise statement of the filing party's interest in the proceeding; (ii) a statement of the specific action sought to the extent then known; (iii) a statement of the legal basis for such action; and (iv) a precise statement why a hearing should be conducted in this matter. All filings shall refer to Case No. PUR-2025-00099.

A copy of any notices of participation and requests for hearing shall be sent electronically to counsel for the Company, Staff, and any other respondents.

The Company's Application, the Commission's Rules of Practice and the Commission's Order for Notice and Comment may be viewed at: scc.virginia.gov/case-information.

COLUMBIA GAS OF VIRGINIA, INC.

(6) The Company shall serve each official listed in 20 VAC 5-205-10 J of the Commission's Rate Case Rules in the manner provided therein.

(7) On or before October 8, 2025, CVA shall file proof of the service required by Ordering Paragraphs (5) and (6) with the Clerk of the Commission.

(8) On or before October 15, 2025, any interested person may submit comments on the Application by following the instructions on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00099.

(9) On or before October 15, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (8). Such notice of participation shall include the email addresses of such parties or their counsel, if available. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00099.

(10) On or before October 15, 2025, any interested person or entity may file a request that the Commission convene a hearing on the Company's Application with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file electronically may file a request for hearing by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (8). Such request for hearing shall include the email addresses of such parties or their counsel, if available. Requests for hearing must include: (i) a precise statement of the filing party's interest in the proceeding; (ii) a statement of the specific action sought to the extent then known; (iii) a statement of the legal basis for such action; and (iv) a precise statement why a hearing should be conducted in this matter. All such filings shall refer to Case No. PUR-2025-00099.

(11) A copy of each request for hearing and notice of participation shall be sent electronically to counsel for the Company, Staff, and any other respondents. Counsel for the Company is: Victoria L. Howell, Esquire, Columbia Gas of Virginia, Inc., 1809 Coyote Drive, Chester, Virginia 23836, victoriahowell@nisource.com.

(12) Staff shall investigate the Application, and on or before October 22, 2025, shall file with the Clerk of the Commission a Staff Report containing its findings and recommendations. A copy of the Staff Report shall be sent electronically to counsel for the Company and any respondents.

(13) On or before November 5, 2025, CVA shall file with the Clerk of the Commission a response to any requests for hearing, comments filed by interested persons, or the Staff Report. CVA shall send a copy of its response electronically to Staff, any respondents, and any persons who requested a hearing.

(14) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified herein, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(15) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within five (5) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to Staff.²³ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(16) CVA's Waiver Request is granted as set forth herein.

(17) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

²³ The assigned Staff attorney is identified on the Commission's website, scc.virginia.gov/case-information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00099, in the appropriate box.

NOTICE OF VIRGINIA ELECTRIC AND POWER COMPANY
d/b/a DOMINION ENERGY VIRGINIA OF INTENT TO FILE
APPLICATIONS OR PETITIONS PURSUANT TO § 56-585.1 A 5
OF THE CODE OF VIRGINIA

Pursuant to 20 VAC 5-204-10 A, Virginia Electric and Power Company d/b/a Dominion Energy Virginia (the "Company"), by counsel, hereby submits its notice of intent to file applications or petitions pursuant to § 56-585.1 A 5 of the Code of Virginia with the State Corporation Commission of Virginia for approval of the following:

- To continue existing and/or to design and operate new peak-shaving and energy efficiency programs or pilots as Phase XIV of the Company's Demand-Side Management Portfolio.
- An update of the rate adjustment clauses designated Riders C1A and C4A, on or after December 1, 2025.
- Rider RPS, on or after December 1, 2025. This application will constitute the annual update to the currently approved Rider RPS, which is approved for use for service rendered on and after September 1, 2025.

PETITION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2025-00136

For revision of a rate adjustment clause, designated Rider DIST, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders DIST and RBB pursuant to § 56-585.1 A 7 of the Code of Virginia

ORDER FOR NOTICE AND HEARING

On August 11, 2025, pursuant to § 56-585.1 A 6 (“Subsection A 6”) and § 56-585.1 A 7 (“Subsection A 7”) of the Code of Virginia (“Code”), Virginia Electric and Power Company (“Dominion” or “Company”) filed with the State Corporation Commission (“Commission”) a petition (“Petition”):¹

1. For revision of the rate adjustment clause (“RAC”) designated Rider DIST, pursuant to Subsection A 6, to recover the projected and actual costs related to certain electric distribution grid transformation projects that the Commission has approved as part of the Company’s plan to transform its electric distribution grid (“GT Plan”), to recover costs associated with the Company’s Strategic Underground Program (“SUP”), including incremental costs, and to recover costs associated with the Company’s Rural Broadband (“RBB”) projects (collectively, the “Rider DIST Programs”) (“Request 1”);
2. For approval to consolidate Riders DIST and RBB, pursuant to Subsection A 7, resulting in: (a) the recovery of costs associated with the Rider DIST Programs through the Rider DIST RAC; and (b) the withdrawal of Rider RBB, effective June 1, 2026 (“Request 2”);
3. For approval of the incremental costs of Phase II Voltage Island Mitigation, fault, location, isolation, and service restoration (“FLISR”), and enterprise asset management system (“EAMS”) as reasonable and prudent (“Request 3”); and

¹ Dominion made errata filings on August 15, 2025, to make certain corrections to the Petition, the pre-filed Direct Testimony of Company witness Keeton, and Keeton Direct Schedule 9.

4. For approval of the rate year commencing June 1, 2026 through May 31, 2027 ("Rate Year") ("Request 4").²

Pursuant to Subsection A 7, the Commission must issue a final order within nine months of the filing of a completed application.

Regarding the Company's GT Plan,³ in Case Nos. PUR-2018-00100 and PUR-2019-00154, the Commission approved the Company's investments related to eleven GT Projects for the years 2019, 2020, and 2021 ("Phase I").⁴ In Case No. PUR-2021-00127, the Commission approved additional investments related to fourteen GT Projects for the years 2022 and 2023 ("Phase II").⁵ In Case No. PUR-2023-00051, the Commission approved costs associated with the continuation of twelve previously approved GT Projects and two new GT Projects for the years 2024, 2025, and 2026 ("Phase III").⁶ In 2024, the Commission approved the new RAC designated Rider DIST and the consolidation of Riders GT and U, in Case No.

² Petition at 1-2.

³ The GT Plan includes various grid transformation projects ("GT Projects").

⁴ Petition at 6; *Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2018-00100, 2019 S.C.C. Ann. Rept. 234, Final Order (Jan. 17, 2019); *Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia, and approval of an addition to the terms and conditions applicable to electric service*, Case No. PUR-2019-00154, 2020 S.C.C. Ann. Rept. 318, Final Order (Mar. 26, 2020).

⁵ Petition at 6; *Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2021-00127, 2022 S.C.C. Ann. Rept. 271, Final Order (Jan. 7, 2022).

⁶ Petition at 6; *Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia*. Case No. PUR-2023-00051, 2023 S.C.C. Ann. Rept. 418, Final Order (Sept. 18, 2023).

PUR-2024-00137 (“2024 Rider DIST Proceeding”).⁷ In the 2024 Rider DIST Proceeding, the Commission approved the Company’s proposed cost cap increase for Phase I physical security but denied the Company’s other nine cost cap increase requests without prejudice.⁸

With respect to Request 1 of the instant Petition, Dominion seeks cost recovery for a total of eighteen GT Projects across all three Phases, including: (1) Mainfeeder Hardening, (2) Targeted Corridor Improvement, (3) Voltage Island Mitigation, (4) Hosting Capacity Analysis, (5) the Locks Campus Microgrid, (6) Physical Security, (7) the Smart Charging Infrastructure Pilot Program, (8) Telecommunications, (9) Cyber Security, (10) Customer Education, (11) Intelligent Grid Devices, (12) FLISR, (13) Distributed Energy Resources Management System, (14) EAMS, (15) Voltage Optimization Enablement, (16) Substation Technology Deployment, (17) Outage Management System, and (18) the Non-Wires Alternatives Pilot Program.⁹ The Company represents that the Commission previously approved these Phase I, II, and III projects as reasonable and prudent up to the estimated capital and operations and maintenance costs for each project.¹⁰ The Company further represents that should costs exceed the cost caps, those costs would be incurred at the Company’s risk, and it would be the Company’s burden to demonstrate the reasonableness and prudence for any such incremental investment.

Additionally, the Company notes that in the 2024 Rider DIST Proceeding, the Commission adopted the Chief Hearing Examiner’s recommendation that the Company be permitted to only

⁷ Petition at 6; *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider DIST, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders GT and U pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00137, Doc. Con. Cen. No. 250510038, Final Order (May 1, 2025).

⁸ Petition at 6.

⁹ *Id.* at 7.

¹⁰ *Id.*

seek recovery of incremental costs above the applicable cost cap upon completion of the relevant phase for the specific project.¹¹

Dominion provides an update on Phase VIII of its SUP, and states that it converted a total of 1,192 individual tap lines to underground, consisting of approximately 400.2 miles of underground conversions of overhead distribution tap lines and associated facilities.¹² The Company states that it estimated a per-mile cost for Phase VIII of \$734,547 per mile and the final per-mile cost was \$795,490 per mile.¹³ The Company attributes this increase in cost to the overall rise in materials cost and associated overhead.¹⁴ It is the Company's position that the cost per mile metric should be treated as a "statutory cost cap," and, for any costs exceeding this threshold, the Company should be allowed to demonstrate that such costs are reasonable and prudent. Dominion requests that the Commission find that in light of unforeseeable supply chain disruptions and inflationary pressures, the incremental costs above the \$750,000 per-mile metric associated with Phase VIII are reasonable and prudent.¹⁵

The Company represents that proposed SUP Phase IX would include tap line conversions completed between June 1, 2025, and May 31, 2026, and would underground approximately 993 tap lines, equating to roughly 300.0 miles of outage prone overhead lines.¹⁶ The Company estimates Phase IX conversions would cost approximately \$239 million, with an estimated per-

¹¹ *Id.*

¹² Petition at 9.

¹³ *Id.*

¹⁴ *Id.*

¹⁵ Petition at 10.

¹⁶ *Id.* at 11.

mile cost of \$798,015 and \$10,042 per customer.¹⁷ The Company projects that the associated overhead lines directly serve 12,535 customers, with another 11,306 customers served “down line” from those conversions.¹⁸ The Company states that these tap lines have experienced approximately 4,629 outage events over a ten-year period, equating to 15.43 events per mile.¹⁹ The Company is requesting to recover costs for only those projects that would be completed prior to the beginning of the proposed Rate Year or June 1, 2026.²⁰ The Company requests Commission approval of recovery of Phase IX capital investments through Rider DIST, subject to true-ups.²¹

Regarding RBB, in its Petition the Company provides an update on previously-approved rural broadband projects and requests cost recovery for costs associated with these projects as part of Rider DIST and the elimination of Rider RBB.²² The Company asserts that as fiber capacity is installed as part of rural broadband projects, the Company will also have the ability to utilize broadband capacity for grid operational purposes.²³ Given the dual capacity of fiber installed as part of the Rural Broadband Program, Dominion asserts that it is necessary to allocate costs between distribution grid operations and broadband utilization.²⁴ The Company proposes continuing to use the methodology previously approved in Case No.

²² *Id.*

²³ Petition at 12.

²⁴ *Id.*

PUR-2020-00197²⁵ to allocate costs between the rural broadband projects and approved GT Plan telecommunications projects.²⁶

With respect to Request 2, Dominion seeks approval to consolidate Riders DIST and RBB, resulting in the recovery of the costs of the Rider DIST Programs through the revised Rider DIST RAC.²⁷ Dominion also seeks approval of the withdrawal of Rider RBB, effective June 1, 2026.²⁸ The Company states that the consolidation of Riders DIST and RBB is in the interest of judicial economy because the Company's Rural Broadband projects have been operational for several years and the Commission currently reviews and approves such costs separately.²⁹ The Company further states that consolidating the riders will reduce the administrative burden and costs of filing these cases separately.³⁰

With respect to Request 3, Dominion is seeking recovery of incremental costs for Phase II Voltage Island Mitigation, FLISR, and EAMS, as Phase II of these projects is now complete.³¹ Dominion asserts that these three projects have projected costs that exceed the cost caps.³² Dominion states that these projects are still reasonable to pursue and requests that the

²⁵ *Petition of Virginia Electric and Power Company, For approval of broadband capacity pilot projects pursuant to § 56-585.1:9 of the Code of Virginia, and for approval of a rate adjustment clause, designated Rider RBB, under § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2020-00197, Doc. Con. Cen. No. 216620042, Final Order (June 9, 2021).

²⁶ Petition at 12.

³¹ Petition at 8.

³² *Id.*

Commission approve the incremental costs of these GT Projects as reasonable and prudent.³³

The Company asserts that the total actual and projected costs for the Grid Transformation portfolio are approximately \$17 million under the total Commission-approved cost cap.³⁴

Concerning Request 4, the proposed Rate Year for this Rider DIST is June 1, 2026 through May 31, 2027.³⁵ The Company seeks approval of a total revenue requirement of \$332.97 million for Rider DIST, consisting of a revenue requirement of \$119.55 million for the GT Plan Phases I through III; \$178.55 million for previously-approved SUP Phases I-VIII and proposed Phase IX of the SUP; and \$34.87 million for the previously-approved projects of the RBB Program.³⁶ For this proceeding, the Company is including an actual cost true-up period of calendar year 2024 for Phases I, II, and III of the GT Plan, Phases I-VIII of the SUP, and previously-approved projects of the RBB Program.³⁷

Regarding its methodology to calculate jurisdictional and class allocation factors for the consolidated Rider DIST, Dominion states it adapted the previously-approved Rider DIST allocation methodology, which was already weighted by each GT Project group's contribution to the overall revenue requirement, to also include the RBB revenue requirement in its weighting.³⁸ Dominion asserts that as a proposed consolidated rider, Rider DIST consolidates three

³⁵ *Id.* at 13.

³⁶ *Id.* at 13-14.

³⁷ *Id.* at 14.

³⁸ *Id.* at 15.

distribution riders using the same allocation methodology approved by the Commission in the Company's most recent Rider DIST proceeding, Case No. PUR-2024-00137.³⁹

If the proposed Rider DIST revenue requirement for the Rate Year is approved, Dominion asserts that the typical residential customer's monthly bill, using 1,000 kilowatt hours ("kWh") per month, would increase by \$1.09 compared to the combined impact of the current Rider DIST and Rider RBB.⁴⁰ The Company represents that the total Rider DIST monthly bill impact would be \$7.86, based on usage of 1,000 kWh per month.⁴¹ The Company proposes Rider DIST to be effective for usage on June 1, 2026, or the first day of the month that is at least 15 calendar days following the date of any Commission order approving Rider DIST for the Rate Year beginning June 1, 2026 through May 31, 2027.⁴²

In its Petition, Dominion requests limited waivers of certain requirements ("Waiver Requests")⁴³ pursuant to Rule 20 VAC 5-204-10 E of the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities,⁴⁴ and Rule 5 VAC 5-20-10 E of the Commission's Rules of Practice and Procedure ("Rules of Practice").⁴⁵ Specifically, the Company seeks a waiver, to the extent necessary, of the requirements: (i) to submit paper copies of certain Filing Schedule 46 materials;⁴⁶ and (ii) to

provide the calculations supporting the estimated annual revenue requirement required in Filing Schedule 46 in hard copy (*i.e.*, paper) format.⁴⁷ Dominion further requests a waiver of the requirement to submit Filing Schedules 3-5 for previously approved capital structures and current year capital structures.⁴⁸

Finally, in conjunction with the filing of its Petition, on August 11, 2025, the Company filed its Motion for Entry of a Protective Order and Additional Protective Treatment (“Motion for Protective Ruling”) and a proposed protective order concerning the use of confidential and extraordinarily sensitive information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; Dominion should provide public notice of its Petition; a hearing should be scheduled for the purpose of receiving testimony from public witnesses and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or to participate as respondents in this proceeding; and Commission Staff (“Staff”) should be directed to investigate the Petition and file testimony and exhibits containing its findings and recommendations thereon. We also find that a Hearing Examiner should be appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company’s Motion for Protective Ruling and filing a final report containing the Hearing Examiner’s findings and recommendations.

⁴⁷ *Id.* at 18.

⁴⁸ *Id.* at 16 n.16. The Company notes that it has requested that its current year capital structures be litigated in the Company’s pending biennial review proceeding. *Id.*; see *Petition of Virginia Electric and Power Company, For a 2025 biennial review of the rates, terms and conditions for the provision of generation, distribution and transmission services pursuant to § 56-585.1 A of the Code of Virginia*, Case No. PUR-2025-00058, Doc. Con. Cen. No. 250360003, Application at Filing Schedule 3 (Mar. 31, 2025).

For purposes of making the Petition complete and commencing this proceeding, we will grant Dominion's Waiver Requests based on the particular facts of this case.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2025-00136.

(2) All pleadings in this matter shall be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice. Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand-deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to conduct all further

proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling and filing a final report. A copy of each filing made with the Commission's Clerk's Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.⁴⁹

(5) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Company's Petition, as follows:

- (a) A hearing for the receipt of testimony from public witnesses on the Company's Petition shall be convened telephonically at 10 a.m. on February 10, 2026.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before February 3, 2026, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141.
- (d) Beginning at 10 a.m. on February 10, 2026, the Hearing Examiner appointed to this case will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at: scc.virginia.gov/case-information/webcasting.

(6) The evidentiary portion of the hearing on the Petition shall be convened at 10 a.m. on February 10, 2026, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and Staff.

⁴⁹ Such electronic copies shall be sent to OHEParalegals@scc.virginia.gov.

(7) An electronic copy of the public version of the Company's Petition may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons also may download unofficial copies from the Commission's website: scc.virginia.gov/case-information.

(8) On or before October 13, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC OF A PETITION OF
VIRGINIA ELECTRIC AND POWER COMPANY
FOR REVISION OF A RATE ADJUSTMENT CLAUSE,
DESIGNATED RIDER DIST, UNDER § 56-585.1 A 6 OF THE
CODE OF VIRGINIA AND THE CONSOLIDATION OF
RIDERS DIST AND RBB PURSUANT TO § 56-585.1 A 7 OF
THE CODE OF VIRGINIA
CASE NO. PUR-2025-00136

On August 11, 2025, pursuant to § 56-585.1 A 6 ("Subsection A 6") and § 56-585.1 A 7 ("Subsection A 7") of the Code of Virginia, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition"):

- (1) For revision of the rate adjustment clause ("RAC") designated Rider DIST, pursuant to Subsection A 6, to recover the projected and actual costs related to certain electric distribution grid transformation projects that the Commission has approved as part of the Company's plan to transform its electric distribution grid ("GT Plan"), to recover costs associated with the Company's Strategic Underground Program ("SUP"), including incremental costs, and to recover costs associated with the Company's Rural Broadband ("RBB") projects (collectively, "Rider DIST Programs") ("Request 1");

- (2) For approval to consolidate Riders DIST and RBB, pursuant to Subsection A 7, resulting in: (i) the recovery of costs associated with the Rider DIST Programs through the Rider DIST RAC; and (ii) the withdrawal of Rider RBB, effective June 1, 2026 ("Request 2");
- (3) For approval of the incremental costs of Phase II Voltage Island Mitigation, fault, location, isolation, and service restoration ("FLISR"), and enterprise asset management system ("EAMS") as reasonable and prudent ("Request 3"); and
- (4) For approval of the rate year commencing June 1, 2026 through May 31, 2027 ("Rate Year") ("Request 4").

Regarding the Company's GT Plan, in Case Nos. PUR-2018-00100 and PUR-2019-00154, the Commission approved the Company's investments related to eleven GT Projects for the years 2019, 2020, and 2021 ("Phase I"). In Case No. PUR-2021-00127, the Commission approved additional investments related to fourteen GT Projects for the years 2022 and 2023 ("Phase II"). In Case No. PUR-2023-00051, the Commission approved costs associated with the continuation of twelve previously approved GT Projects and two new GT Projects for the years 2024, 2025, and 2026 ("Phase III"). In 2024, the Commission approved the new RAC designated Rider DIST and the consolidation of Riders GT and U in Case No. PUR-2024-00137 ("2024 Rider DIST Proceeding"). In the 2024 Rider DIST Proceeding, the Commission approved the Company's proposed cost cap increase for Phase I physical security but denied the Company's other nine cost cap increase requests without prejudice.

With respect to Request 1 of the instant Petition, Dominion seeks cost recovery for a total of eighteen GT Projects across all three Phases, including: (1) Mainfeeder Hardening, (2) Targeted Corridor Improvement, (3) Voltage Island Mitigation, (4) Hosting Capacity Analysis, (5) the Locks Campus Microgrid, (6) Physical Security, (7) the Smart Charging Infrastructure Pilot Program, (8) Telecommunications, (9) Cyber Security, (10) Customer Education, (11) Intelligent Grid Devices, (12) FLISR, (13) Distributed Energy Resources Management System, (14) EAMS, (15) Voltage Optimization Enablement, (16) Substation Technology Deployment, (17) Outage Management System, and (18) the Non-Wires Alternatives Pilot Program. The Company represents that the Commission previously approved

these Phase I, II, and III projects as reasonable and prudent up to the estimated capital and operations and maintenance costs for each project. The Company further represents that should costs exceed the cost caps, those costs would be incurred at the Company's risk, and it would be the Company's burden to demonstrate the reasonableness and prudence for any such incremental investment. Additionally, the Company notes that in the 2024 Rider DIST Proceeding, the Commission adopted the Chief Hearing Examiner's recommendation that the Company be permitted to only seek recovery of incremental costs above the applicable cost cap upon completion of the relevant phase for the specific project.

Dominion provides an update on Phase VIII of its SUP, and states that it converted a total of 1,192 individual tap lines to underground, consisting of approximately 400.2 miles of underground conversions of overhead distribution tap lines and associated facilities. The Company states that it estimated a per-mile cost for Phase VIII of \$734,547 per mile and the final per-mile cost was \$795,490 per mile. The Company attributes this increase in cost to the overall rise in materials costs and associated overhead. It is the Company's position that the cost per mile metric should be treated as a "statutory cost cap," and, for any costs exceeding this threshold, the Company should be allowed to demonstrate that such costs are reasonable and prudent. Dominion requests that the Commission find that in light of unforeseeable supply chain disruptions and inflationary pressures, the incremental costs above the \$750,000 per-mile metric associated with Phase VIII are reasonable and prudent.

The Company represents that proposed SUP Phase IX would include tap line conversions completed between June 1, 2025, and May 31, 2026, and would underground approximately 993 tap lines, equating to roughly 300.0 miles of outage prone overhead lines. The Company estimates Phase IX conversions would cost approximately \$239 million, with an estimated per-mile cost of \$798,015 and \$10,042 per customer. The Company projects that the associated overhead lines directly serve 12,535 customers, with another 11,306 customers served "down line" from those conversions. The Company states that these tap lines have experienced approximately 4,629 outage events over a ten-year period, equating to 15.43 events per mile. The Company is requesting to recover costs for only those projects that would be completed prior to the beginning of the proposed Rate Year or June 1, 2026. The Company requests Commission

approval of recovery of Phase IX capital investments through Rider DIST, subject to true-ups.

Regarding RBB, in its Petition the Company provides an update on previously-approved rural broadband projects and requests cost recovery for costs associated with these projects as part of Rider DIST and the elimination of Rider RBB. The Company asserts that as fiber capacity is installed as part of rural broadband projects, the Company will also have the ability to utilize broadband capacity for grid operational purposes. Given the dual capacity of fiber installed as part of the Rural Broadband Program, Dominion asserts that it is necessary to allocate costs between distribution grid operations and broadband utilization. The Company proposes continuing to use the methodology previously approved in Case No. PUR-2020-00197 to allocate costs between the rural broadband projects and approved GT Plan telecommunications projects.

With respect to Request 2, Dominion seeks approval to consolidate Riders DIST and RBB, resulting in the recovery of the costs of the Rider DIST Programs through the revised Rider DIST RAC. Dominion also seeks approval of the withdrawal of Rider RBB, effective June 1, 2026. The Company states that the consolidation of Riders DIST and RBB is in the interest of judicial economy because the Company's Rural Broadband projects have been operational for several years and the Commission currently reviews and approves such costs separately. The Company further states that consolidating the riders will reduce the administrative burden and costs of filing these cases separately.

With respect to Request 3, Dominion is seeking recovery of incremental costs for Phase II Voltage Island Mitigation, FLISR, and EAMS, as Phase II of these projects is now complete. Dominion asserts that these three projects have projected costs that exceed the cost caps. Dominion states that these projects are still reasonable to pursue and requests that the Commission approve the incremental costs of these GT Projects as reasonable and prudent. The Company asserts that the total actual and projected costs for the Grid Transformation portfolio are approximately \$17 million under the total Commission-approved cost cap.

Concerning Request 4, the proposed Rate Year for this Rider DIST is June 1, 2026 through May 31, 2027. The Company seeks approval of a total revenue requirement of \$332.97 million for Rider DIST, consisting of: a revenue requirement of \$119.55 million for the GT Plan Phases I through III; \$178.55 million for

previously-approved SUP Phases I-VIII and proposed Phase IX of the SUP; and \$34.87 million for the previously-approved projects of the RBB Program. For this proceeding, the Company is including an actual cost true-up period of calendar year 2024 for Phases I, II, and III of the GT Plan, Phases I-VIII of the SUP, and previously-approved projects of the RBB Program.

Regarding its methodology to calculate jurisdictional and class allocation factors for the consolidated Rider DIST, Dominion states it adapted the previously-approved Rider DIST allocation methodology, which was already weighted by each GT Project group's contribution to the overall revenue requirement, to also include the RBB revenue requirement in its weighting. Dominion asserts that as a proposed consolidated rider, Rider DIST consolidates three distribution riders using the same allocation methodology approved by the Commission in the Company's most recent Rider DIST proceeding, Case No. PUR-2024-00137.

If the proposed Rider DIST revenue requirement for the Rate Year is approved, Dominion asserts that the typical residential customer's monthly bill, using 1,000 kilowatt hours ("kWh") per month, would increase by \$1.09 compared to the combined impact of the current Rider DIST and Rider RBB. The Company represents that the total Rider DIST monthly bill impact would be \$7.86, based on usage of 1,000 kWh per month. The Company proposes Rider DIST to be effective for usage on June 1, 2026, or the first day of the month that is at least 15 calendar days following the date of any Commission order approving Rider DIST for the Rate Year beginning June 1, 2026, through May 31, 2027.

Interested persons are encouraged to review Dominion's Petition and supporting documents in full for additional details.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Petition and supporting documents and thus may adopt rates that differ from those appearing in the Company's Petition and supporting documents.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled a public hearing on Dominion's Petition. A hearing for the receipt of testimony from public witnesses on the Company's Petition shall be convened telephonically at 10 a.m. on February 10, 2026. On or before February 3, 2026, any person desiring to offer testimony

as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141. This public witness hearing will be webcast at: scc.virginia.gov/case-information/webcasting.

Beginning at 10 a.m. on February 10, 2026, the Hearing Examiner appointed to this case will telephone sequentially each person who has signed up to testify as provided above.

On February 10, 2026, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Hearing Examiner will convene the evidentiary portion of the hearing to receive testimony and evidence related to the Petition from the Company, any respondents, and the Commission's Staff ("Staff").

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

Electronic copies of the public version of the Petition may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons also may download unofficial copies of the public version of the Petition and other documents filed in this case from the Commission's website: scc.virginia.gov/case-information.

On or before February 3, 2026, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2025-00136.

On or before November 3, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. Mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation electronically on counsel to the Company, Staff, and any other respondents. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00136. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing.

On or before December 1, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00136.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The public version of the Company's Petition, the Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and other documents filed in the case may be viewed at: scc.virginia.gov/case-information.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) The Company shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before October 27, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling.

(11) On or before February 3, 2026, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00136.

(12) On or before November 3, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation electronically on counsel to the Company, Staff, and any other respondents. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the

Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00136.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve upon the respondent a copy of the public version of the Petition and supporting materials, unless these materials already have been provided to the respondent.

(14) On or before December 1, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served electronically on the Staff, the Company, and all other respondents. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00136.

(15) The Staff shall investigate the Petition. On or before December 23, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof electronically on counsel to the Company and all respondents.

(16) On or before January 13, 2026, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. Dominion shall serve a copy thereof electronically on counsel to Staff and all respondents.

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by Ordering Paragraph (2), all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to the Staff.⁵⁰ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) Dominion's Waiver Requests are granted as set forth herein.

(20) This matter is continued.

⁵⁰ The assigned Staff attorney is identified on the Commission's website, scc.virginia.gov/case-information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00136, in the appropriate box.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

**PETITION OF VIRGINIA ELECTRIC AND POWER COMPANY
AND REQUEST FOR LIMITED WAIVERS**

Virginia Electric and Power Company (“Dominion Energy Virginia” or the “Company”), by counsel, pursuant to § 56-585.1 A 6 (“Subsection A 6”) and § 56-585.1 A 7 (“Subsection A 7”) of the Code of Virginia (“Va. Code”), and the Rules Governing Utility Rate Case Applications and Annual Informational Filings of Investor-Owned Electric Utilities¹ (“Rate Case Rules”) of the State Corporation Commission of Virginia (the “Commission”), and the directive contained in Ordering Paragraph (4) of the Final Order issued by the Commission on May 1, 2025 in Case No. PUR-2024-00137² hereby files with the Commission its petition (“Petition”):

- 1) For revision of the rate adjustment clause (“RAC”), designated Rider DIST pursuant to Subsection A 6, to recover projected and actual costs related to certain electric distribution grid transformation projects that the Commission has approved as part of the Company’s plan to transform its electric distribution grid (the “Grid Transformation Plan” or “GT Plan”), the recovery of costs associated with the Company’s Strategic Underground Program (“SUP”), including incremental costs, and the recovery of costs associated with the Company’s Rural Broadband (“RBB”) projects (collectively, the “Rider DIST Programs”);

¹ 20 VAC 5-204-10 *et seq.*

² *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider DIST, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders GT and U pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00137, Final Order (May 1, 2025).

- 2) For approval to consolidate Riders DIST and RBB, pursuant to Subsection A 7 resulting in (a) the recovery of costs associated with the Rider DIST Programs through the Rider DIST RAC; and (b) the withdrawal of Rider RBB, effective June 1, 2026;
- 3) For approval of the incremental costs of Phase II Voltage Island Mitigation, fault, location, isolation, and service restoration ("FLISR"), and enterprise asset management system ("EAMS") as reasonable and prudent; and
- 4) For approval of the rate year commencing June 1, 2026 through May 31, 2027 ("Rate Year").

The Company further requests limited waivers of certain Rate Case Rules. In support of its Petition and request for limited waivers, the Company respectfully states as follows:

GENERAL INFORMATION

1. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional customers in Virginia and the public in portions of North Carolina. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is also a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc.

2. The Company's name and post office address is:

Virginia Electric and Power Company
600 E Canal Street
Richmond, Virginia 23219

3. The names, post office addresses, and telephone numbers of the attorneys for the Company are:

(804) 775-1465 (EJH)
(804) 775-4758 (ASH)

BACKGROUND

4. Subsection A 6 provides that a utility can petition the Commission for approval of a RAC to recover the costs of one or more electric distribution grid transformation projects and the undergrounding of existing overhead distribution tap lines that have, in the aggregate, an average of nine or more total outage events-per-mile over a preceding 10-year period with new underground facilities in order to improve electric service reliability.

5. Virginia Code § 56-585.1:9 (the "Broadband Statute") permits the Company to submit multiple petitions to the Commission for approval to make broadband capacity available to internet service providers ("ISPs") in areas of the Commonwealth unserved by broadband. The Broadband Statute further states that the utility's provision of broadband capacity to ISPs in unserved areas of the Commonwealth is in the public interest. Under the Broadband Statute, the

Company is entitled to recover the costs of providing broadband capacity related to rural broadband projects, net generated revenue, from customers as an electric grid transformation project pursuant to clause (vi) of Va. Code § 56-585.1 A 6, filed on or after July 1, 2021. These costs are recoverable as a non-bypassable charge.

6. Subsection A 7, as amended by Senate Bill 1265 from the 2023 Regular Session of the Virginia General Assembly permits the Company to consolidate subsets of RACs previously implemented pursuant to Subsection A 5 or Subsection A 6 in the interest of judicial economy, customer transparency, or other appropriate factors:

At any time, the Commission may, in its discretion, for [Dominion Energy Virginia], upon petition by such a utility or upon its own initiated proceeding, direct the consolidation of any one or more subsets of rate adjustment clauses previously implemented pursuant to subdivision 5 or 6 in the interest of judicial economy, customer transparency, or other factors the Commission determines to be appropriate. Any subset of rate adjustment clauses so consolidated shall continue to be considered by the Commission without regard to the other costs, revenues, investments, or earnings of the utility and remain as a cost recovery mechanism independent from the utility's rates for generation and distribution services pursuant to this subdivision and subdivisions 5 and 6, but will be combined as a single rate adjustment clause for cost recovery and review purposes. Any rate adjustment clause or subset of rate adjustment clauses so consolidated shall be named in a manner, as determined by the Commission, that reasonably informs customers as to the nature of the costs recovered by the consolidated rate adjustment clause.

7. The consolidation of Riders DIST and RBB is in the interest of judicial economy because the Company's Rural Broadband projects have been operational for several years, the costs of which the Commission currently reviews and approves separately. Consolidating the riders will reduce the administrative burden and costs of filing these cases separately.

GRID TRANSFORMATION PLAN

8. Fundamental changes in the energy industry have prompted the need for electric utilities across the country to modernize their distribution grids. The Virginia General Assembly

recognized this need when it enacted the Grid Transformation and Security Act of 2018 (the “GTSA”), establishing objectives for grid transformation and finding such projects to be in the public interest. Subsection A 6 requires the Company to petition for approval of a plan for electric distribution grid transformation projects. Subsection A 6 also permits the Company to recover “the costs of . . . (vi) one or more electric distribution grid transformation projects” through a RAC.

9. Va. Code § 56-576 defines an “electric distribution grid transformation project as follows:

“Electric distribution grid transformation project” means a project associated with electric distribution infrastructure, including related data analytics equipment, that is designed to accommodate or facilitate the integration of utility-owned or customer-owned renewable electric generation resources with the utility’s electric distribution grid or to otherwise enhance electric distribution grid reliability, electric distribution grid security, customer service, or energy efficiency and conservation, including advanced metering infrastructure; intelligent grid devices for real time system and asset information; automated control systems for electric distribution circuits and substations; communications networks for service meters; intelligent grid devices and other distribution equipment; distribution system hardening projects for circuits, other than the conversion of overhead tap lines to underground service, and substations designed to reduce service outages or service restoration times; physical security measures at key distribution substations; cyber security measures; energy storage systems and microgrids that support circuit-level grid stability, power quality, reliability, or resiliency or provide temporary backup energy supply; electrical facilities and infrastructure necessary to support electric vehicle charging systems; LED street light conversions; and new customer information platforms designed to provide improved customer access, greater service options, and expanded access to energy usage information.

The Grid Transformation Plan is Dominion Energy Virginia’s plan to transform its distribution grid to meet the changing landscape of the energy industry while continuing to provide the

reliable service customers expect and deserve. The GT Plan focuses on the two objectives of grid transformation established by the Commonwealth—(i) facilitating the integration of distributed energy resources (“DERs”) and (ii) enhancing grid reliability and security.

10. The Commission approved investments related to 11 projects for the years 2019, 2020, and 2021 (“Phase I”) in Case No. PUR-2018-00100³ and Case No. PUR-2019-00154.⁴ The Commission approved additional investments related to 14 projects for the years 2022 and 2023 (“Phase II”) in Case No. PUR-2021-00127.⁵ The Commission approved costs associated with the continuation of 12 previously-approved projects and two new projects for the years 2024, 2025 and 2026 (“Phase III”) in Case No. PUR-2023-00051.⁶ In 2024, the Commission approved the new RAC designated Rider DIST, the consolidation of Riders GT and U in Case No. PUR-2024-00137 (“2024 Rider DIST proceeding”).⁷ In the 2024 Rider DIST proceeding, the Commission also approved the Company’s proposed cost cap increase for Phase I physical security but denied the Company’s other nine cost cap increase requests without prejudice.⁸

³ *Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2018-00100, Final Order (Jan. 17, 2019).

⁴ *Virginia Electric and Power Company, For approval of plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia, and approval of an addition to the terms and conditions applicable to electric service*, Case No. PUR-2019-00154, Final Order (Mar. 26, 2020).

⁵ *Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2021-00127, Final Order (Jan. 7, 2022). For Phases I and II, the Company committed that the costs associated with the deployment of AMI and the CIP would not be the subject of a RAC petition.

⁶ *Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2023-00051, Final Order (Sept. 18, 2023). For Phase III, the Company again committed that the costs associated with the deployment of AMI and the CIP would not be the subject of a RAC petition. The spend for one of the new projects is proposed to extend to years 2027 and 2028, per agreement with Commission Staff.

⁷ *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider DIST, under r § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders GT and U pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00137, Final Order at 12 (May 1, 2025).

⁸ *Id.*

11. Because many of the approved grid transformation projects are continuations of previously-approved projects, in this proceeding, the Company seeks recovery for a total of 18 projects across all three phases. These projects include: (1) Mainfeeder Hardening, (2) Targeted Corridor Improvement, (3) Voltage Island Mitigation, (4) Hosting Capacity Analysis, (5) the Locks Campus Microgrid, (6) Physical Security, (7) the Smart Charging Infrastructure Pilot Program (“SCIP Program”), (8) Telecommunications, (9) Cyber Security, (10) Customer Education, (11) Intelligent Grid Devices, (12) Fault, Location, Isolation, and Service Restoration (“FLISR”), (13) Distributed Energy Resources Management System (“DERMS”), (14) Enterprise Asset Management System (“EAMS”), (15) Voltage Optimization Enablement, (16) substation technology deployment, (17) Outage Management System (“OMS”), and (18) the Non-Wires Alternatives (“NWA”) Pilot Program.

12. As explained in the Commission’s March 26, 2020 Final Order in Case No. PUR-2019-00154, the Final Order dated January 7, 2022 in Case No. PUR-2021-00127, the Final Order dated September 18, 2023 in Case No. PUR-2023-00051, and the Final Order dated May 1, 2025 in Case No. PUR-2024-00137, the Commission approved Phases I, II, and III projects as reasonable and prudent up to the estimated capital and operations and maintenance (“O&M”) costs for each project. Should costs exceed the cost caps, those costs would be incurred at the Company’s risk, and it would be the Company’s burden to demonstrate the reasonableness and prudence for any such incremental investment. Additionally, in Case No. PUR-2024-00137, the Commission adopted the Chief Hearing Examiner’s recommendation that the Company be permitted to only seek recovery of incremental costs above the applicable cost cap upon completion of the relevant phase for the specific project.⁹

⁹ *Petition of Virginia Electric and Power Company For approval of a rate adjustment clause, designated Rider DIST, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders GT and U pursuant to § 56-*

13. Consistent with the 2024 Rider DIST Final Order, the Company is seeking recovery of incremental costs for Phase II Voltage Island Mitigation, FLISR and EAMS, as Phase II of these projects is now complete.

14. For these three projects where the projected costs exceed the cost caps—Voltage Island Mitigation, FLISR, and EAMS—the Company provides justification for the additional costs in support of its request for approval. Specifically, Company Witness David F. Walker in his pre-filed direct testimony explains why these projects are still reasonable to pursue and why the incremental costs of these projects should be approved by the Commission as reasonable and prudent. In total, the actual and projected costs for the Grid Transformation portfolio is approximately \$17 million under the total Commission-approved cost cap.

STRATEGIC UNDERGROUND PROGRAM (“SUP”)

15. Subsection A 6 provides that the replacement of any subset of a utility’s existing overhead distribution tap lines that have, in the aggregate, an average of nine or more total unplanned outage events-per-mile over a preceding 10-year period with new underground facilities in order to improve electric service reliability is in the public interest. The statute also provides that the annual incremental increase in investment level pursuant to a petition under clause (iv) of this subdivision shall not exceed five percent of the Company’s distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the Company’s latest review proceeding.

16. The statute further provides that the conversion of any such facilities on or after September 1, 2016, is deemed to provide local and system-wide benefits and to be cost

585.1 A 7 of the Code of Virginia, Case No. PUR-2024-00137, Final Order at 12 (May 1, 2025) (“2024 Rider DIST Final Order”).

beneficial, and that the costs associated with such new underground facilities are deemed to be reasonably and prudently incurred.

17. Lastly, so long as the aggregated costs associated with the replacement of overhead distribution tap lines with underground facilities do not exceed an average cost per customer of \$20,000, including customers served directly by or down line of the tap lines proposed for conversion, exclusive of financing costs, and an average cost per mile of \$750,000, exclusive of financing costs, the Commission shall approve such costs.

SUP Phase Eight Update

18. In Phase Eight, the Company converted a total of 1,192 individual tap lines to underground, consisting of approximately 400.2 miles of underground conversions of overhead distribution tap lines and associated facilities.

19. The Company estimated a per-mile cost of \$734,547 with the final per-mile cost amounting to \$795,490 per mile. Two resources show considerable increases which account for the overall rise in costs: materials and associated overhead. These cost drivers were not foreseeable at the time the threshold was established and have resulted in substantial cost escalations beyond the Company's control. These increases in costs are not confined to the SUP or Dominion Energy Virginia. The U.S. Department of Labor Statistics publishes economic data tracking indices by industry sector. The series for electric power distribution costs details significant increases occurring in 2021 and 2022.¹⁰ During both years, the Producer Price Index ("PPI") rose by over 12%. When compounded, this adds over 25% to costs.

20. While § 56-585.1 A 6 requires Commission approval when certain statutory

¹⁰ United States Bureau of Labor Statistics, PPI Industry Data for Electric Power Distribution, not Seasonally Adjusted (Electric Power Transmission & Distribution), available at <https://data.bls.gov/timeseries/PCU221122221122> (last visited July 2025).

metrics are met, it is within the Commission's discretion to approve recovery of the incremental costs above \$750,000 per mile where such costs are reasonable and prudent. As such, it is the Company's position that the cost per mile metric should be treated as a "statutory cost cap," and, for any costs exceeding this threshold, the Company should be allowed to demonstrate that such costs are reasonable and prudent. The Commission has previously endorsed such an approach in prior Grid Transformation Plan and Rider GT Plan proceedings.¹¹

21. This approach is further supported by the language in Subsection A 6 explicitly stating that the "Commission shall include a system to adjust the costs established in this section with inflation." As Company Witness Leslie M. Carter explains in his direct testimony, Phase Eight finished at 8.3% over the initial filing cost per mile amount, entirely due to higher material costs and inflationary pressures that were experienced throughout the industry due to factors beyond the Company's control.

22. Accordingly, the Company respectfully requests that the Commission find that, in light of unforeseeable supply chain disruptions and inflationary pressures beyond the Company's control, the incremental costs above the \$750,000 per-mile metric associated with Phase Eight are reasonable and prudent.

¹¹ See e.g., *Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2021-00127, Final Order at 20-21 (Jan. 7, 2022) (Approving the Company's spending on the Phase II components of the Grid Transformation Plan up to the amount of capital and O&M costs proposed for each component and explaining that "[t]o the extent Dominion incurs costs exceeding these limits, the Company must prove such costs to be reasonable and prudent in a future proceeding before the Company will be permitted to recover such costs from ratepayers."); but see *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider DIST under § 56-585.1 A 6 of the Code of Virginia and consolidation of Riders GT and U pursuant to § 56-585.1 A 7 of the Code of Virginia*, Ex. 18 (Staff Witness Myers Testimony) (Dec. 20, 2024) (recommending that the Commission deny going-forward cost recovery for the six projects during the Rate Year that exceeded the previously approved cost caps as Staff was unable to conclude that the six projects were reasonable and prudent at the higher cost cap amounts proposed by the Company.).

SUP Proposed Phase Nine

23. As discussed by Company Witnesses Walker and Carter, Phase Nine will include tap line conversions that are completed between June 1, 2025, and May 31, 2026 and will underground approximately 993 tap lines, equating to roughly 300.0 miles of outage prone overhead lines.

24. The Company estimates Phase Nine conversions will cost approximately \$239 million, with an estimated per-mile cost of \$798,015 and \$10,042 per customer. The Company projects the associated overhead lines directly serve 12,535 customers, with another 11,306 customers served “down line” from those conversions. These tap lines have experienced approximately 4,629 outage events over a ten-year period, equating to 15.43 events per mile.

25. For the same reasons discussed above regarding Phase Eight, the Company respectfully requests that the Commission find that the incremental costs above the \$750,000 per-mile metric associated with Phase Nine are reasonable and prudent.

26. The Company is requesting to recover costs of Phase Nine through Rider DIST for only those projects that will be completed prior to the beginning of the proposed Rate Year or June 1, 2026.

27. The Company respectfully requests that the Commission approve recovery of these Phase Nine capital investments through Rider DIST, subject to subsequent true-ups, and find that such expenditures are consistent with Subsection A 6.

RURAL BROADBAND (“RBB”)

28. The Company provides an update on the previously approved rural broadband projects and requests cost recovery for costs associated with the previously approved rural broadband Projects, as part of Rider DIST and the elimination of Rider RBB.

29. Company Witness Walker discusses updates to the previously approved RBB projects in Surry County (“Surry Project”); Botetourt County (“Botetourt Project”); Northern Neck region (“Northern Neck Project”); Albemarle, Appomattox, Buckingham, Cumberland, Fluvanna, Goochland, Goochland 2, Powhatan 2, Louisa, Nelson, and Powhatan Counties (“Thomas Jefferson Planning District Project”); Augusta, Clarke, Fauquier, and Rockingham Counties (the “Northern Shenandoah Valley Project”); Brunswick, Halifax, Greensville and Mecklenburg Counties (the “Southside Planning District Project”); and Sussex, Culpeper, Hanover, Loudoun, Chesterfield, Henrico and Middlesex Counties (“Other Projects”) (collectively, the “Previously Approved Projects”).

30. The Company received Commission approval of telecommunications modernization projects as part of its GT Plan Phases I, II, and III, and is committed to connecting electric distribution substations with fiber for telecommunication purposes throughout its service territory as part of its GT Plan. As fiber capacity is installed as part of rural broadband projects, the Company will also have the ability to utilize broadband capacity for grid operational purposes. Given the dual capacity of fiber installed as part of the Rural Broadband Program, it is necessary to allocate costs between distribution grid operations and broadband utilization. The Company recommends continuing to use the methodology previously approved in Case No. PUR-2020-00197 and applied in subsequent Rider RBB proceedings to allocate costs between the rural broadband projects and approved GT Plan telecommunications projects. This methodology is described in detail in Company Witness Walker’s direct testimony.

RIDER DIST ACCOUNTING

A. Rate of Return on Common Equity

31. For purposes of this Petition, the Company has calculated the revenue requirement using a 9.2% ROE for the period January 1, 2019 to November 17, 2021, as set by the Commission in Case Nos. PUR-2017-00038¹² and PUR-2019-00050.¹³ For the period November 18, 2021 to February 29, 2024, the Company has calculated the revenue requirement using a 9.35% ROE, which is the Company's authorized ROE as set by the Commission in Case No. PUR-2021-00058.¹⁴ For the period beyond February 29, 2024, the Company calculated the revenue requirement using a 9.7% ROE, as set by the Commission in the 2023 Biennial Review, Case No. PUR-2023-00101.¹⁵ The ROE determined by the Commission in the Company's pending 2025 biennial review proceeding (Case No. PUR-2025-00058) will be applicable to Rider DIST as of the date of the Final Order in that case. Any revenue requirement impacts resulting from a change in ROE will be addressed in a future true-up proceeding.

B. Revenue Requirement

32. The proposed rate year for this Rider DIST is June 1, 2026 through May 31, 2027. The Company is requesting recovery of a total revenue requirement of \$332.97 million for Rider DIST, consisting of a revenue requirement of \$119.55 million for the GT Plan Phases I through III, \$178.55 million for previously-approved Phases One through Phase Eight and proposed

¹² *Application of Virginia Electric and Power Company, For the determination of the fair rate of return on common equity to be applied to its rate adjustment clauses*, Case No. PUR-2017-00038, Final Order at 4, 10 (Nov. 29, 2017).

¹³ *Application of Virginia Electric and Power Company, For the determination of the fair rate of return on common equity pursuant to § 56-585.1:1 C of the Code of Virginia*, Case No. PUR-2019-00050, Final Order at 6 (Nov. 21, 2019).

¹⁴ *Application of Virginia Electric and Power Company, For a 2021 triennial review of the rates, terms and conditions for the provision of generation, distribution and transmission services pursuant to § 56-585.1 A of the Code of Virginia*, Case No. PUR-2021-00058, Final Order at 5 (Nov. 18, 2021).

¹⁵ *Application of Virginia Electric and Power Company For a 2023 biennial review of the rates, terms and conditions for the provision of generation, distribution and transmission services pursuant to § 56-585.1 A of the Code of Virginia*, Case No. PUR-2023-00101, Final Order at 2 (Feb. 28, 2024).

Phase Nine of the SUP and \$34.87 million for the previously Approved Projects of the RBB Program.

33. The two key components of the revenue requirement in this filing are the Projected Cost Recovery Factor and the Actual Cost True-Up Factor. The Projected Cost Recovery Factor calculation results in the operating income necessary for recovery of projected financing costs based on the expected investment balances at the beginning of the Rate Year, as well as recovery of operations and maintenance costs and plant depreciation expense. Actual revenues recovered during the test year are compared to actual costs incurred during the test year. As Company Witness Kathryn M. Richmond explains, the Actual Cost True-Up Factor will credit to, or recover from, customers any over- or under-collection of costs from the most recently completed calendar year, 2024. For this proceeding, the Company is including an actual cost true-up period of calendar year 2024 for Phases I, II, and III of the GT Plan, Phases One through Eight of the SUP, and previously-approved projects of the RBB Program.

34. Consistent with the Company's treatment of costs incurred for previously approved phases of the SUP, the Company is proposing to defer depreciation expense, property taxes, and financing costs and Cost of Capital related to those specific investments previously approved in Rider U proceedings.

RIDER DIST COST ALLOCATION AND RATE DESIGN

35. The Company is proposing a Rider DIST tariff, which is sponsored by Company Witness Eleanor K. Keeton. Company Witness Keeton identifies the rates in either cents per kilowatt-hour ("kWh") or dollars per kilowatt ("kW") that will apply to each applicable Company Rate Schedule. If approved as proposed, Rider DIST will be effective for usage on or after June 1, 2026 or the first day of the month which is at least 15 calendar days following the

date of any Commission order approving Rider DIST, for the rate year beginning June 1, 2026 through May 31, 2027.

36. As a proposed consolidated rider, Rider DIST consolidates three distribution riders using the same allocation methodology approved for use in the 2024 Rider DIST proceeding, PUR-2024-00137. In order to calculate jurisdictional and class allocation factors, the Company adapted the previously approved Rider DIST allocation methodology, which was already weighted by each project group's contribution to the overall revenue requirement, to also include the RBB revenue requirement in its weighting.

37. Using the Company's proposed methodology for the allocation of the GT Plan customer class true-up amounts, the implementation of the proposed Rider DIST on June 1, 2026, is calculated to incrementally decrease the typical residential customer's monthly bill, based on 1,000 kWh per month, by \$1.62 compared to the combined impact of the current Rider DIST and Rider RBB. The total Rider DIST monthly bill impact will be \$7.86 based on usage of 1,000 kWh per month. Company Witness Keeton provides monthly bill impacts for customers subject to Rider DIST receiving service on Residential Schedule 1, General Service Schedules GS-1, GS-2, GS-3, GS-4, and Schedule 5C, at several representative levels of consumption or demand.

**PRE-FILED DIRECT TESTIMONY AND EXHIBITS,
SUPPORTING FILING SCHEDULES AND REQUEST FOR LIMITED
WAIVERS OF THE RATE CASE RULES FILING REQUIREMENTS**

38. In support of this Petition, Dominion Energy Virginia presents the pre-filed direct testimony and exhibits of the following witnesses: David F. Walker, Leslie M. Carter, Danny Freeman, Kathryn M. Richmond, and Eleanor K. Keeton .

39. Rule 60 of the Rate Case Rules provides that an application filed pursuant to

Subsection A 6 “shall include Schedule 46 as identified and described in 20 VAC 5-204-90, which shall be submitted with the utility’s direct testimony. Additionally, applications requiring an overall cost of capital shall include Schedules 3, 4, 5 and 8.”¹⁶ With this Petition, the Company files the following filing schedules:

- a. Filing Schedule 8, sponsored by Company Witness Richmond, provides information regarding the Company’s cost of capital.
- b. Filing Schedule 46A, Statement 1 addresses the projected and actual costs for GT Plan and RBB sought for recovery by type of cost and year, and by project and is sponsored by Company Witness Walker. Extraordinarily Sensitive Filing Schedule 46A, Statements 2-4 is sponsored by Company Witness Walker.
 - i. Statement 2 provides key documents supporting the incremental costs for Phase II voltage island mitigation;
 - ii. Statement 3 provides key documents supporting the incremental costs for Phase II FLISR; and
 - iii. Statement 4 provides key documents supporting the incremental costs for Phase II EAMS.
- c. Filing Schedule 46A, Statement 5 is sponsored by Company Witness Carter. Statement 5 provides actual Rider U costs through May 2025. Extraordinarily Sensitive Filing Schedule 46A, Statement 6, also sponsored by Company Witness Carter, provides the key documents supporting SUP costs.
- d. Filing Schedule 46A, Statement 7 provides backup for actual SUP costs incurred during the true up period and transaction level details for GT Plan and RBB.
- e. Consistent with the Company’s request for waiver below, Filing Schedule 46A, Statements 2-4 and 6-7 are available in electronic format only.
- f. Filing Schedule 46B, Statements 1-3 are sponsored by Company Witness Richmond. Statement 1 provides the combined total revenue requirement for the Rate Year ending May 31, 2027. Statement 2 provides a summary of the long-term revenue requirement over the duration of the RAC. Statement 3 provides documentation supporting Statement 2, available in electronic format only.
- g. Filing Schedule 46C, Statement 1, sponsored by Company Witness Freeman, provides the updated cost-benefit analysis (“CBA”) result for the GT Plan.
- h. Filing Schedule 46D, Statement 1 sponsored by Company Witness Keeton, addresses the Company’s methodology for allocating the proposed revenue requirement among the rate classes and the design of the class rates. In addition, Filing Schedule 46C, Statement 2, sponsored by Company Witness Keeton,

¹⁶ The Company has requested a waiver for supporting cost of capital schedules, Filing Schedules 3-5, and requested that current year capital structures be litigated in the Company’s pending Biennial Review proceeding, Case No. PUR-2025-00058. As such, the Company has omitted Filing Schedules 3-5 from this Petition and to the extent necessary requests a waiver of the requirement to submit Filing Schedules 3-5 in this proceeding.

provides the annual revenue requirement by customer class over the duration of the RAC.

40. The Company, for good cause shown and pursuant to 20 VAC 5-204-10 E, respectfully requests that the Commission waive, in part, the requirements under Rules 60 and 90 of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials. Specifically, the Rate Case Rules require the Company provide key documents supporting the projected and actual costs recovered through the rate adjustment clause, such as: economic analyses, support used by senior management for major cost decisions as determined by the applicant, contracts, studies, investigations, results from requests for proposals, cost-benefit analyses, and other items supporting the costs that have not been provided in previous applications. The supporting documentation responsive to this requirement is voluminous and, often, not easily reviewed in hard copy (paper) format. Accordingly, and consistent with waivers previously granted by this Commission, the Company seeks waiver of the requirement to file 12 hard copies of this information. Instead, the Company proposes to provide this documentation to Commission Staff and any other future case participant in electronic format and provide the Commission with one hard copy and three electronic copies on compact discs. The Company will make these documents available via an electronic discovery site ("eRoom") contemporaneously with this filing, with immediate access available to Commission Staff. This request is consistent with the Commission's recent orders granting similar limited waivers.¹⁷ Should the Commission deny this request, the Company asks for a reasonable allowance of time

¹⁷ See e.g., *Application of Virginia Electric and Power Company, For revision of rate adjustment clause: Rider U, new underground distribution facilities, for the rate year commencing August 1, 2024*, Case No. PUR-2023-00172, Hearing Examiner's Protective Ruling and Additional Protective Treatment for Extraordinarily Sensitive Information (Nov. 20, 2023).

to print the requisite filing copies of this material and submit it the Commission prior to the Company's application being deemed incomplete.

41. Further, for good cause shown and pursuant to Rate Case Rule 10 E, the Company respectfully requests that the Commission waive, in part, the requirements under Rule 60 and Rule 90 of the Rate Case Rules with respect to paper copies of supporting calculations for the estimated annual revenue requirement required as part of Filing Schedule 46. The Rate Case Rules require the Company to provide the estimated annual revenue requirement over the duration of the proposed project by year and by project, "including all supporting calculations and assumptions."¹⁸ The calculations supporting the estimated annual revenue requirement calculation, however, are completed in Microsoft Excel, involve multiple worksheets and lines of data, and include formulas to complete the calculations. These workpapers are not easily converted to a printable version, and not easily reviewed in hard copy (*i.e.*, paper) format. For example, in hard copy, a reviewer cannot easily see the formulas and calculations embedded in the Excel worksheets and how they interact. Accordingly, the Company seeks waiver of the requirement to file these workpapers in hard copy. Instead, the Company proposes to provide this documentation to Staff and any other future case participants in electronic format only. The Company will make these documents available via an eRoom contemporaneously with the filing of the Petition, with immediate access available to Staff. This request for waiver is consistent with the Commission's order granting this limited waiver in the Company's 2023 Rider GT proceeding.¹⁹

¹⁸ 20 VAC 5-204-90, Filing Schedule 46B.

¹⁹ *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider GT, under § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2023-00136, Order for Notice and Hearing at (Aug. 30, 2023).

**REQUEST FOR CONFIDENTIAL TREATMENT AND ADDITIONAL PROTECTIVE
TREATMENT FOR EXTRAORDINARILY SENSITIVE INFORMATION**

42. The documents accompanying the Company's Petition contain confidential and extraordinarily sensitive information as designated. Accordingly, in compliance with Rate Case Rule 10 F and Rule 170 of the Commission's Rules of Practice and Procedure,²⁰ this Petition is accompanied by a contemporaneously-filed Motion for Entry of a Protective Order and Additional Protective Treatment, including a Proposed Protective Order.

COMPLIANCE WITH RULE 10 OF THE RATE CASE RULES

43. The Company's Petition complies with the requirements contained in Rule 10 of the Rate Case Rules.

44. In accordance with Rule 10 A, the Company filed with the Commission on May 27, 2025, the Company's notice of intent to file this Petition under Va. Code § 56-585.1 A 6.

45. The Company has included all information required by Rule 10 B in its Petition, including a table of contents, direct testimonies with one-page summaries, and properly labeled exhibits and schedules.

46. Copies of the Public Version of this Petition, to the extent required by Rule 10 J, along with the additional information required by Rule 10 J, have been served upon the persons addressed in that Rule. A complete copy of the Public Version of this Petition has been served upon the Office of the Attorney General's Division of Consumer Counsel ("Consumer Counsel"), in accordance with Rule 10 J.

47. In accordance with Rule 10 H, the Company will make a searchable PDF version of the Petition, direct testimonies, and filing schedules available via an eRoom

²⁰ 20 VAC 5-204-10 F; 5 VAC 5-20-170.

contemporaneously with this filing, with immediate access available to (i) Commission Staff, including identified members of the Divisions of Utility Accounting and Financing and Public Utility Regulation and (ii) identified members of the Consumer Counsel. Also, in accordance with Rule 10 H, the Company will make electronic spreadsheets supporting the schedules that contain calculations available via an eRoom contemporaneously with this filing, with immediate access available to Commission Staff.

CONCLUSION

WHEREFORE, the Company respectfully requests that the Commission:

(i) Approve the revised RAC, designated Rider DIST, to recover the costs associated with the Company's GT Plan, SUP, and RBB projects pursuant Va. Code § 56-585.1 A 6;

(ii) Approve the consolidation of Riders DIST and RBB pursuant to Va. Code § 56-585.1 A 7, resulting in (a) the recovery of costs associated with the Rider DIST Programs through the new Rider DIST RAC; and (b) the withdrawal of Rider RBB effective June 1, 2026;

(iii) Approve the incremental costs of GT Plan Phase II Voltage Island Mitigation, FLISR, and EAMS, and SUP Phases Eight and Nine as reasonable and prudent;

(iv) Approve the Company's proposed revenue requirement of \$332.97 million for Rider DIST, consisting of a revenue requirement of \$119.55 million for the GT Plan Phases I-III, \$178.55 million for previously approved Phases One through Phase Eight and proposed Phase Nine of the SUP, and \$34.87 million for the Approved Projects of the RBB Program;

(v) Approve the Company's proposed Rider DIST effective for usage on and after June 1, 2026, or the first day of the month which is at least 15 calendar days following the date of any Commission order approving Rider DIST;

- (vi) Grant the Company's requested limited waivers outlined in the Petition; and
- (vii) Grant such other relief as deemed appropriate and necessary.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

M. County Administrator Report

N. Comments from Members of the Board

Vice Chairman Norton
Supervisor Ingram
Supervisor Roark
Supervisor Toth
Chairman Collins

O. Closed Meeting

Motion to Adjourn

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 17TH DAY OF JULY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
 DAPHNE V. NORTON, VICE CHAIR
 RICHARD H. INGRAM, JR.
 JOHN A. ROARK
 GEORGE G. TOTH, III
 STEVE W. BOWEN, COUNTY ADMINISTRATOR
 CATHERINE K. DOUGLASS, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:00 p.m.

Pastor Leroy Bradshaw provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Supervisor Roark moves to approve the agenda. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Approval of the Minutes: Supervisor Roark moves to approve the minutes of the Special Meeting held May 29, 2025. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

**** Employee Recognitions **** Chairman Collins recognizes the following employees who have reached milestones in their County employment.

Congratulations with recognition and a 5-Year Certificate (none present):

Patricia Akers - Lodge Housekeeper
 Justin Mims - Assistant Landfill Operations Manager
 Lemuel Bowden, Sr. - Convenience Site Attendant
 Michael Hart - Convenience Site Attendant
 Raymond Perkinson - Convenience Site Attendant

Congratulations with recognition and a 20-Year Plaque:

Susan Tucker - Human Resource Coordinator/E911 Clerk/GIS Tech

Chairman Collins presents Ms. Tucker with a plaque, and the Board members and Administrator Bowen extend their thanks.

Chairman Collins begins the Delegations from the Public.

1 – Richard Dykeman: Is concerned about the Nottoway County Emergency Squad's funding and audit. He presents a copy of the 2021 Fire & EMS Study and notes that problems outlined in the report are still an issue. He also speaks to problems with the ongoing construction at 723/460 and its associated detour.

2 – Clinton Jefferson: Is a resident and asks if VDOT would consider paving Clark Road. He has been told the traffic count is too low to qualify for improvements. Administrator Bowen suggests the County consider adding it to the Six Year Plan.

3 – Sonny Abbott: Thanks Gregg Zody for the map of LRA property discussed at the June meeting regarding a possible purchase by the Town of Blackstone. He questions the County's listing property and planning sales before the public knows a sale is pending. He asks why the \$5.2 million LRA CD cannot be used to make repairs at Pickett Park. He notes corrections are needed in the Treasurer's investment report. He asks if all money on deposit is being reported to the Board as required in State Code Section 58.1-3160.

Supervisor Toth notes the Town had suggested the purchase area was roughly 72 acres, and the proposal was for \$9,000 per acre. The Town of Blackstone will have a survey done, so acreage will be known at the time of sale.

Having been properly advertised and this date set for a Public Hearing, the Board hears the following.

1 – Building Permit Fees Increase: Nicholas Bowles, Building Official, presents the proposed building permit fee increases. The increase was to address the move of the Building Permit Technician position under the Building Department. The proposed fees were derived from a comparison with surrounding localities. Other proposed changes include no longer using universal permits and having a fee for starting work without a permit.

Type of Permit	Proposed	Current
Residential New	\$150 + \$0.25/ft ²	\$150 + \$0.10/ft ²
Relocation & Renovation*	\$150 + \$10 per k	\$180 + \$7.5 per K
Later Addition (residential)	\$60 + \$0.25/ft ²	\$60 + \$0.10/ft ²
Churches	\$120 + \$0.25/ft ²	\$120 + \$0.10/ft ²
Commercial New	\$240 + \$0.25/ft ²	\$240 + \$0.10/ft ²
Renovation*	\$240 + \$10 per K	\$180 + \$7.50 per K
Later Addition (Commercial)	\$240 + \$0.25/ft ²	\$240 + \$0.10/ft ²
Renovation*	See Commercial and Residential	\$180 + \$7.50 per 1K
Multi-Family/ Duplex	\$240 + \$0.25/ft ²	\$240 + \$0.10 / ft ²
Trade & Solar (Commercial)	\$100 + 1% of contract	\$60 + \$6 per \$1K
Asbestos Remediation (Commercial)	\$100 + 1% of contract	\$60 + \$6 per \$1K
Tank Removal/Installation	\$100 + 1% of contract	\$60 + \$6 per \$1K
Amusement Devices	\$100 + \$10 per \$1000	\$60 + \$6 per \$1K
Tents & Signs (Commercial)	\$100 + 1% of cost	\$60 + \$6 per \$1K
Swimming Pools	\$100 + \$0.25/ft ²	\$90 + \$0.8/ft ²
Re-issue of Certificate of Occupancy	\$50	N/A
Starting Work Without Permit	\$250	N/A

Administrator Bowen clarifies that moving away from a universal permit means a contractor who builds a house will need a permit and that each trade will need a separate permit.

Chairman Collins reads the newspaper advertisement for this public hearing. Supervisor Roark moves to open Public Hearing on the Building Permit Fee Increases. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Shawn Haney: Appreciates the idea of a fee increase to ensure proper work is being performed but questions if an increase would solve the issue. If a general contractor chooses to use an unlicensed tradesman who does poor work, the building inspector would catch that during an inspection and the homeowner would take up the issue with the general contractor. He asks if a licensed tradesman performs poorly, will the homeowner come to the County to rectify the issue rather than to a general contractor entrusted with overseeing the tradesman?

With no one else wishing to speak either for or against, Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark asks the projected revenue and if that revenue would reduce taxes. Mr. Bowles estimates an additional \$36,000 in revenue. Administrator Bowen adds that would be the amount of reduction from the general fund.

Vice Chair Norton moves to approve the increase in fees. A second is provided by Supervisor Ingram. Following a roll call vote, the motion to approve the fee increase passes 3-2 as follows.

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Nay
G. G. Toth	Nay

2 – Special Exception – Sylvester and Mildred Green: Gregg Zody presents the Green's request to remove the existing residence and replace it with a doublewide manufactured home at 253 Three Oaks Road, Nottoway, tax map # 31-86, approximately two acres, zoned Conservation. Certified notifications were sent to adjacent property owners, it was advertised for two weeks, and staff has received no comments regarding the application. There are four inoperable vehicles on site, and their removal is condition #5 in the packet. At the June 17th meeting, the Planning Commission recommended approval with a vote of 6-0. Mr. Zody notes that there will be no Certificate of Occupancy issued until those vehicles are removed

Supervisor Roark moves to open the Public Hearing for the Special Exception for Sylvester and Mildred Green. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Mr. Zody introduces the Board to the Greens who are present tonight.

With no one wishing to speak either for or against, Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

July 17, 2025

Supervisor Toth moves to approve the Special Exception to remove the house and place a manufactured home on the tax map # 31-86, including # 31-87 as mentioned. A second is provided by Supervisor Roark. Following a voice vote, the motion to approve carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

3 – Special Exception – Barry and Nola Johnson: Gregg Zody presents the Johnson's Special Exception request for placement of a manufactured home on tax map # 50-66, approximately 2.162 acres, near Brunswick Road at Mill Road, and is zoned Conservation. There is a cemetery onsite. Staff recommends approval with conditions shown in the package; Planning Commissioner Kirby Woolfolk suggested an additional condition specific to protecting the cemetery. State Code speaks to accessing a private cemetery. At the July 15th meeting, the Planning Commission recommended approval with a 6-0 vote. No citizens spoke at the Planning Commission's Public Hearing, and no other comments were received until Clarence Hawkes spoke with him today.

Supervisor Roark moves to open the Public Hearing for the Johnson's Special Exception request. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Clarence Hawkes, adjacent property owner: Mentions that Mr. Zody has provided him with documentation since they spoke. His concern is protection of the cemetery as it was established before the Civil War with the most recent burial in the early 2000s. He does not want access blocked or have anything built close to it as it is historical.

2 – Barry and Nola Johnson: Speak to the matter. It is well marked, and they will not disturb, move, or add to the cemetery.

Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Ingram questions if Mr. Hawkes is satisfied with the Johnson's response. Mr. Hawkes is agreeable and does not wish to have access blocked to the cemetery. Having heard this, Supervisor Roark moves to approve the Special Exception for Barry and Nola Johnson on tax map #50-66. A second is provided by Supervisor Toth. Following a voice vote, the motion to approve carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Mr. Zody states that Mr. Woolfolk, Planning Commission, mentioned protecting that area, in line with State Code. Chairman Collins references the Code of Virginia Section 57-27.1 that addresses rights to access cemeteries on private property.

4 – Rezoning – K. Shawn and Katherine S. Haney: The Haney's property, 884 Inverness Road, Burkeville, tax map #17-93 is currently split zoned (RR and C-1), and they seek to rezone the entire parcel to Conservation. Its primary use is agriculture which is allowed in Conservation-zoned districts, not Rural Residential. Two adjacent property owners contacted Mr. Zody regarding the application. The Planning Commission voted to approve 5-0-1 with Jeff LaVelle abstaining due to employing the applicants' son.

Supervisor Toth questions the purpose of the entire deed being included in tonight's package. Mr. Zody states it is a requirement. Supervisor Ingram adds that the property is in the National Trust for Historic Preservation that has stipulations regarding usage.

Supervisor Roark moves to open the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Tom McIntyre, neighbor: Notes the applicant plans to establish a solar operation on the property. He and his neighbors are concerned as to appearance and would like to see a drawing that would give an idea.

2 – Debbie Abernathy, neighbor: Provides the history of the property and its preservation easements. The previous owner gifted it to the National Trust to preserve the land's integrity for generations, and rezoning would not be in line with this gift.

3 – Shawn Haney, applicant: States this is a zoning issue because his property is currently zoned Rural Residential which does not allow farming by right whereas a Conservation zoning does.

Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Ingram has received several phone calls with concerns about the Haney's next step following this rezoning. Discussion by Board members follows. Vice Chair Norton moves to approve the rezoning of the entire site, tax parcel # 17-93 to Conservation. A second is provided by Supervisor Roark. Following a voice vote, the motion to approve carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

5 – Zoning Text Amendments (3 separate votes)

Mr. Zody presents the following text amendments.

- a. Add definition to Article 6. Definitions, Section 6-1-2 List of Definitions:

Government Services: Governmental offices providing administrative, judicial, clerical or public contact services that deal directly with citizens. Typical uses include federal, state, county, and city offices.

The following zoning districts shall be amended to include government services as a permitted use:

Division 1 Agriculture District (A-1), Section 2-1-3 – Permitted Uses
Division 2 Conservation District (C-1), Section 2-2-3 – Permitted Uses
Division 3 Rural Residential District (RR), Section 2-3-3 – Permitted Uses
Division 4 Urban Residential District (UR), Section 2-4-3 – Permitted Uses
Division 5 General Business District (GB), Section 2-5-3 – Permitted Uses
Division 6 Light Industrial District (LI), Section 2-6-3 – Permitted Uses
Division 7 General District (GI), Section 2-7-3 – Permitted Uses

The Planning Commission heard this matter and gave unanimous approval at its May 20th meeting but recommended it be by Special Exception request for transparency.

Supervisor Roark moves to open the Public Hearing for a text amendment to add Government Services to the Zoning Ordinance. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against, Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark moves to approve the addition of Government Services as presented. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

- b. A zoning ordinance to amend the following Sections of Article 2, Divisions 5-7 (Base Districts Regulations Generally) and Article 6 (Definitions) to add the use of **Data Center** to the definition as a use permitted by special exception in the General Business, Light Industrial and General Industrial Districts:

Section 6-1-2 Definitions. To add the definition of a “Data Center” as a permitted use in the following zoning districts;

Section 2-5-4 General Business – Uses Permitted by Special Exception (as provided in Article 5);

Section 2-6-4 Light Industrial – Uses Permitted by Special Exception (as provided in Article 5); and

Section 2-7-4 General Industrial – Uses Permitted by Special Exception (as provided in Article 5).

July 17, 2025

Mr. Zody explains that in recent economic development discussions, it came to light that the County's Zoning Ordinance does not include a provision for data centers. The Planning Commission having rejected his original definition to the Planning Commission in May, he presented and received 6-0 vote for approval of a definition as follows:

Computer equipment and peripherals used in a data center. For purposes of this subdivision, "data center" means a facility whose primary services are the storage, management, and processing of digital data and is used to house (i) computer and network systems, including associated components such as servers, network equipment and appliances, telecommunications, and data storage systems; (ii) systems for monitoring and managing infrastructure performance; (iii) equipment used for the transformation, transmission, distribution, or management of at least one megawatt of capacity of electrical power and cooling, including substations, uninterruptible power supply systems, all electrical plant equipment, and associated air handlers; (iv) Internet-related equipment and services; (v) data communications connections; (vi) environmental controls; (vii) fire protection systems; and (viii) security systems and services;

Supervisor Roark moves to open the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against, Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark moves to approve adding Data Center to Nottoway County's Zoning Ordinance. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

c. Duplex

A zoning ordinance to amend the following Section of Article 2, Division 1 (Base Districts Regulations Generally) and remove the use of "Duplex":

Sec. 2-1-4-27 – Uses Permitted by Special Exception (as provided in Article 5)

Mr. Zody notes that on May 20th the Planning Commission voted 8-0 to delete "Duplex" from the Agriculture zoning.

Supervisor Toth moves to open the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes

July 17, 2025

J. A. Roark	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against, Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Toth moves to remove the use of "Duplex" from Sec. 2-1-4-27 – Uses Permitted by Special Exception (as provided in Article 5). A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board is introduced to Alex McCoy, the new Executive Director of the Virginia's Heartland Regional Economic Development Alliance (VHREDA). Mr. McCoy outlines his experience in rural economic development and wants to make sure his work with VHREDA considers Nottoway's goals. He is scheduled to be at next week's Economic Development Committee meeting with a more formal presentation.

The Board receives the following Department reports:

1 – Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for June 2025. Aaron French, Assistant Resident Engineer, reports that phase 3 of the 723/460 R-cut construction is in progress, and the detour is scheduled to be removed by the second week of August. Weather has extended the Little Creek Road culvert cleanup project. Darvills Road roundabout preconstruction meeting was held. Crystal Lake Road Rural Rustic project is under construction. Jonesboro Road is next in collaboration with the South Hill Residency for Cedar Creek Road. Rumble strips are to be installed on 460 starting July 28th.

2 – Solid Waste: June 2025 Nottoway County Sanitary Landfill Waste Report: received an average of 58.57 tons of waste per day.

3 – Building Inspection: June 2025 report; 44 building permits issued for \$9,439.83 in permit fees and \$1,479,110.50 in construction value; 116 inspections performed. Nicholas Bowles, Building Official, reminds citizens the towns have adopted the property maintenance code which allows him to assist in tenant/landlord issues. He states there have been several accidental pool drownings of children in Virginia this year and explains that swimming pools are regulated under the building Code, reminding citizens that a permit is required, in part, to ensure safety measures are in place to prevent such tragedies.

4 – Animal Control: June 2025 report; 144 animal control calls; 0 summons issued, 2 convictions with 1 dismissed; 5 compliance notifications issued; 1 dog held over 40 days (in foster care).

Vice Chairman Norton tells of an excessively aggressive dog that a citizen recently reported to Dispatch. Administrator Bowen and the Sheriff will review the report and follow up with Animal Control and Dispatch regarding protocol.

Administrator Bowen explains a veterinarian bill that is listed in tonight's consent items. He has been told the vet makes the determination on treatment, the County pays the bill.

5 – Piedmont Health District: No report provided.

July 17, 2025

6 – Nottoway County Public Library: No report provided.

7 – Nottoway County School Board: Heather Maier reports on behalf of Dr. Marcia Martin who could not attend. They are preparing for schools opening and are reviewing their budget process. She notes their salaries are some of the lowest in the region now and expresses concern about a delay in federal allocation of some title funds which could cause programs to be lost. Summer school is finished. Convocation is Friday, August 15th.

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for June 2025. Mr. Zody is present but adds nothing further.

10 – Emergency Services: Emergency Services Coordinator's Report for July 2025. Fire & EMS Working Group Planning Meeting Agenda for June 3, 2025. Mr. Hyde reports that updates are underway to bring FAST-C into the 911 addressing system. He speaks to an upcoming ISO (Insurance Services Office) fire protection survey which could help citizens by lowering home insurance premiums. AED has been installed at the County office in Blackstone. Mr. Hyde offered AED, first aid, and CPR training for County employees. Work is ongoing on the radio communications project. The flood gauges performed well during recent storms.

Chairman Collins notes that Chris Page, Blackstone Chamber of Commerce, thanks Mr. Hyde for his work on the recent successful fireworks programs. Mr. Hyde says it was a team effort with VDOT, the Chamber, Towns, law enforcement, and emergency services.

11 – Piedmont Regional Jail Authority: Chairman Collins reports a reduction to eleven in the number of VCBR residents at Piedmont Regional Jail. State representatives continue to work on Nottoway's behalf on the VCBR issues.

Administrator Bowen reports that PRJ inmates recently painted over graffiti in Crewe.

12 – Pickett Park: Lease Actions Income Report dated July 10, 2025. Officer's Club Income Report dated July 10, 2025.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Michelle Graham reports the Total Response/PowerPhone project is 50% finished with a go live date of mid-September. Applications are coming in for the open Director's position. The Dispatch Consultant project of compiling protocols and procedures will begin soon. The 911 refresh was quoted higher than expected and should be partially covered by grant funds. The Virginia State Police is changing vendors for its live scan equipment which affects what the Sheriff's Office uses; the increase will need to be budgeted for in the next couple of fiscal years.

Vice Chair Norton was shot at recently and is curious if there has been an increase in gun violence in the area. The Sheriff was unaware she was involved in an incident. Guns are easy to obtain, and the Sheriff's Office does work with the community on the issue.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package.

4 – Christy A. Hudson, Commissioner of the Revenue: Volunteer incentives report is in the package. Chairman Collins would like to discuss that at the next worksession.

5 – Leanne Watrous, Commonwealth's Attorney: Case reports in the package.

The Board considers the following unfinished business.

1a – Animal Shelter: Supervisor Ingram was unable to attend the last meeting but suggests CARES could be interested in helping with the previously-mentioned high vet bills. There is an upcoming project meeting, but progress has been delayed due to weather.

1c – Broadband: Mr. Zody states that Cabinet 4 is 55% complete per RiverStreet.

1e – Courthouse PPEA Update: The County is in the 45-day window for submissions. He has been contacted by another company. Ms. Douglass states the County went with PPEA over an RFP for efficiency and to meet the judges' deadline. Chairman Collins notes the financial savings realized by proceeding via PPEA.

The Board considers the following new business:

1 – Aviation Industrial Park, Blackstone: The Board has not received a contract. The Blackstone Town Council should see it Monday, and then it will come to the Board of Supervisors. It will go to Ms. Douglass for review.

2 – BZA Recommendations: Mr. Zody notes there are two vacancies. Rick Payne, District 3, has resigned, and Thomas Harold Gregory, District 2, has declined reappointment. Mr. McDaniel, current Chairman, was recently reappointed. It is not required but customary to appoint by District.

Vice Chair Norton recommends Chase Guy for District 3. Supervisor Ingram moves to approve the recommendation. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark recommends Clyde Rothgeb for District 2. Supervisor Toth moves to approve the recommendation. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

3 – Planning Commission Appointment: There is a letter in tonight's package introducing George Kite. Supervisor Roark moves to approve Mr. Kite for the Planning Commission. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

4 – Plat Approval – Lavelle: Mr. Lavelle turned in a revised plat, but Mr. Zody has not received approval from the Health Department or VDOT. Chairman Collins suggests hearing this at the next worksession if the approvals have been received.

The Board considers the following Consent Items.

1 – June Expenditures Report

July 17, 2025

2 – Budget Adjustment – Sheriff's Office	\$31,207.00
3 – Budget Adjustment – Sheriff's Office	\$4,000.00
4 – Budget Adjustment – Sheriff's Office	\$3,600.00

Supervisor moves to approve the Consent Items. A second is provided by Supervisor Ingram. Chairman Collins notes the Financial Consultant submitted an invoice for budget work for \$7,500. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The following information items are presented in the package:

- 1 – CRC – June 2025 Items of Interest
- 2 – Burkeville Volunteer Fire Department – Call Report for June 2025
- 3 – Town of Crewe – Water Notice
- 4 – NCPS Convocation Invitation
- 5 – VHREDA Meet & Greet – Alex McCoy, Executive Director
- 6 – SPCA – Donation Thank You
- 7 – Dominion Energy – (2) Orders/Application (full docs available in Co. Admin.)

Administrator Bowen draws attention to L-5, the upcoming VHREDA Meet & Greet with Alex McCoy, being held at the new Longwood SEED building.

Chairman Collins reminds the Board of the invitation to the School's Convocation and parking lot party set for Friday, August 15, 2025.

Administrator Bowen, per the Finance Committee, has set a meeting for August 28th with the Treasurer, Dr. Martin, and Heather Maier regarding financial processes. He is expecting more PPEA proposals. Lastly, the Nottoway County Emergency Squad changed its bylaws to include Supervisors Roark and Toth and Mr. Hyde.

Comments from members of the Board.

Vice Chair Norton provides an update from Crewe Manager Miskovic regarding updating water line easements for infrastructure improvements.

Supervisor Ingram proposes having state representatives research Nottoway County having a local option, one-cent sales tax for EMS. The issue is statewide so could gain traction, but it would have to go before the General Assembly.

Supervisor Roark attended an NCES meeting and believes the County is headed towards a contract with the Squad.

Supervisor Toth felt the NCES meeting was productive and agrees a contract may be forthcoming. He would suggest citizens bring their concerns to the Board but agencies should work out their differences among themselves.

Chairman Collins appreciates the good citizen turnout tonight. He invites additional PPEA proposals to provide more options for the County.

July 17, 2025

Vice Chair Norton moves that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(1) Discussion, consideration, or interviews of prospective candidates for employment; assignment, appointment, promotion, performance, demotion, salaries, disciplining, or resignation of specific public officers, appointees, or employees of any public body; specifically relating to personnel matters now pending in County Administration. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 9:43 p.m. The Board reconvenes in Open Session at 10:18 p.m.

Supervisor Ingram moves to certify as follows:

WHEREAS, the Board of Supervisors of Nottoway County, Virginia, has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, §2.2-3712 (D) of the Code of Virginia requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia, hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

A second is provided by Supervisor Roark. Response to a roll call vote as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Having no further business, Supervisor Roark moves to adjourn. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins adjourns the meeting at 10:19 p.m.

Chairman

Clerk

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE EMERGENCY OPERATIONS CENTER THEREOF, ON THURSDAY, THE 9TH DAY OF OCTOBER IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
 DAPHNE V. NORTON, VICE CHAIR
 RICHARD H. INGRAM, JR.
 JOHN A. ROARK
 GEORGE G. TOTH, III
 STEVE W. BOWEN, COUNTY ADMINISTRATOR
 N. GARRISON ELDER, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:00 p.m.

Vice Chair Norton provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Supervisor Roark moves to approve the agenda. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Absent

Supervisor Toth arrives at 7:08 p.m.

Burke Junction Solar Project: Mr. Zody explains the current status of the Burke Junction Solar Project. The Planning Commission's main issue was not the setbacks but that there were no written waivers from adjacent property owners. The Ordinance states the distance is to a habitable dwelling and consideration was given to "habitable dwelling" versus any structure. Neither Mr. Zody nor the applicant have received negative feedback from the adjacent owners. Further, no one spoke at the Planning Commission's Public Hearing.

Mr. Zody brings forward verbiage in the Zoning Ordinance regarding setback standards that bring some confusion regarding waivers. He would like to make necessary corrections for clarity. Mr. Hyde requested applicants be required to submit an emergency action plan for battery storage and pay for related training. Mr. Zody is willing to add that as well.

Mr. Zody noted the site's unique topography reduces the project's visibility, so he approves the applicant's request to reduce the setbacks. Verbal waivers are insufficient; written waivers should be required for transparency and to avoid disputes. Discussion follows on whether properties across a public road are considered adjacent. Chairman Collins suggests updating the verbiage: For the purposes of this Ordinance, a state road does not make a parcel non-adjacent. Mr. Zody considers those across the road adjacent. Mr. Elder would also consider them adjacent and states the Board can clarify the ordinance however it would like. He offers: "if a state road divides two properties, those two properties are adjacent".

Ordinance to Relocate Registrar's Office: Administrator Bowen states the School has set a January 15th deadline for the Registrar's Office to be out of the Burkeville building. The process for moving a polling place begins with a public hearing and passage of an Ordinance which requires a two-week advertisement. Therefore, this process is on hold until after the November election to avoid confusion for voters. The Burkeville Fire Department and Town Mayor are agreeable to hosting the polling place.

Bright System/Tax Levy: As Commissioner Hudson could not attend tonight, Ms. Presley reads a prepared statement telling of the Commissioner's issues with Bright's software limitations when computing this year's taxes. When Bright removed levies from accounts with single-wide mobile homes, some accounts also had other personal property, leading to errors. The issues will reduce the projected revenue by \$9,282.87.

In speaking to Bright to correct this problem for next year, Bright estimated a cost of \$24,000 for a software upgrade. Commissioner Hudson recommends not paying for the upgrade now because next year staff can manually adjust the abatements. If more affected counties come forward, it could lead Bright to perform a bigger fix and bear the financial burden.

She concludes her statement by addressing complaints her office has received because of the new Fire/EMS levies and suggests sending citizens an explanatory newsletter. Last year, Administrator Bowen had suggested an insert be included in the tax bills similar to what Prince Edward sends, but there were logistic hurdles.

Commissioner Hudson joins by phone to clarify how single-wide mobile homes are taxed. Levies for fire and EMS were removed only from the mobile home (not the land). Concerns are expressed by Board members.

Bright's future is uncertain due to a recent ownership change followed shortly thereafter by the death of a key staff member. The Board will monitor this and consider alternatives if necessary.

Courthouse Committee: The courthouse project is ready to move on with a construction company. Administrator Bowen thinks the Courthouse Committee will no longer be needed for guidance into this next phase.

Bowling Alley Proposals: Administrator Bowen states the County received five proposals and then presents an alternative plan for the property. With the return per square foot from a sale being considerably less than the cost per square foot to build, Administrator Bowen suggests renovating every building possible, including renovating the Bowling Alley into office space which then opens up options. The goal is still to keep essential court services with the courthouse (the Circuit Court Clerk, General District Court Clerk, Commonwealth's Attorney, and Sheriff) and bring the Commissioner, Treasurer, and Registrar back to the complex.

Supervisor Roark moves to reject all Bowling Alley proposals that were presented. Vice Chair Norton provides a second. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark moves to disband the Courthouse Committee effective immediately. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen says there were good proposals for the bowling alley, but given the current needs, the County would be better served utilizing the building rather than selling it.

Taxes: Supervisor Roark clarifies for the public that the County's approximate \$60M budget is not funded strictly by local taxes. Funds also come from state and federal sources which are pass-through and mandated for specific services. His previous request to cut \$4.2 million is likely unattainable. He asks how deeply the County can cut from its portion so that funds are available to help offset the upcoming courthouse construction debt.

The Board discusses personnel being the main area for possible County cuts, but administrative and constitutional offices are already lean. Cutting further from the County's contribution to the School would impact programs and state/federal matches. Only a few non-governmental organizations (NGOs) receive funding, so cuts there would have minimal impact.

Statement of Disclosure: Chairman Collins has been advised that because the Rocky Ford Solar Project has expanded beyond the original individuals, it is no longer necessary that he recuse himself from voting. He has verified this with the COIA Council. It is, however, necessary that he disclose that his employer has an interest.

Chairman Collins reads the following Statement of Disclosure of Conflict into the record:

"This declaration is made with respect to the transaction in which a Supervisor of the County Board of Supervisors has a personal interest in a transaction involving the County and the applicable exception which permits said Supervisor's participation.

The Virginia State and Local Government Conflict of Interests Act, in accordance with Section 2.2-3112 (B)(1) requires this disclosure, to be recorded in the County records, in any case in which I have a personal interest in a transaction, but my participation is permissible. Therefore, I make the following disclosure:

1. The transaction involved is:

Pursuant to Va. Code § 58.1-2636, the Board of Supervisors and Ampliform/Rocky Ford LLC are negotiating a siting agreement for a solar project facility; and
Application for a special exception permit by NW – Rocky Ford LLC for a solar facility within Nottoway County, Virginia.

2. My personal interest affected by this transaction is as follows:

The above-referenced transaction by the Board of Supervisors will involve the approval of a special exception permit for the construction of a solar facility project within Nottoway County. My employer, Citizens Bank & Trust holds deeds of trust on several parcels that are being considered as part of the solar application. However, in accordance with Section 2.2-311(B)(1), because the application includes a group of three or more persons affected by the transaction, including multiple landowners, participation is permitted upon this declaration. I will be able to participate in the transaction fairly, objectively, and in the furtherance of the public interests."

- Signed William J. Collins, III, Chairman, 10/09/2025.

He must mention this disclosure whenever the Board discusses the Rocky Ford Solar Project.

Comments from Members of the Board:

Vice Chair Norton attended a firefighter safety meeting regarding potential fire hazards from solar panels and battery storage. She received an anonymous letter postmarked Richmond threatening her about voting on solar. She will meet with any citizen who would like to speak on a topic and will continue to base her decisions on facts.

Supervisor Ingram stressed the importance of considering the source of public comments and the prevalence of misinformation. He suggests the County consider reviewing the \$25 for vehicle decals as it can be confusing when combined with new levies.

Supervisor Roark discusses an upcoming meeting of the Emergency Squad's Executive Board where he plans to initiate the process for the County to take over emergency services. His understanding is that the process would take about 18 months and to start now means he would not be stepping down from the Board with that project left undone. The Board realizes the cost of EMS will be ongoing.

Supervisor Toth expresses appreciation for serving on the EMS board and notes that many citizens are unaware that EMS is now mostly paid staff. He shared citizen concerns about fire/EMS taxes and funding for volunteer fire departments.

Administrator Bowen clarifies that the revenue from the sale of vehicle decals goes into the General Fund. Fire needs have been brought forward, and EMS is already projected to exceed its budget.

October 9, 2025

Chairman Collins explained the County has had deficit spending since 2018. Recent budgets have included planned draws from reserves, but efforts are being made to reduce them. Savings are now being realized at the LRA. The Landfill operates at a \$400,000 annual loss, and the Board is considering options such as privatization or moving to a tipping station.

Supervisor Ingram moves move that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(8) Consultation with legal counsel employed or retained by a public body regarding specific legal matters requiring the provision of legal advice by such counsel; and (A)(29) Discussion of the award of a public contract involving the expenditure of public funds, including interviews of bidders or offerors, and discussion of the terms or scope of such contract, where discussion in an open session would adversely affect the bargaining position or negotiating strategy of the public body, specifically regarding a solar siting agreement. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting.

The Board reconvenes in Open Meeting.

Supervisor Roark reads the following notice of certification:

WHEREAS, the Board of Supervisors of Nottoway County, Virginia, has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, §2.2-3712 (D) of the Code of Virginia requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia, hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

Responses to a roll call vote for certification are as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Having no further business, Chairman Collins adjourns the meeting.

Chairman

Clerk

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 16TH DAY OF OCTOBER IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 250TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
 DAPHNE V. NORTON, VICE CHAIR
 RICHARD H. INGRAM, JR.
 JOHN A. ROARK
 GEORGE G. TOTH, III
 STEVE W. BOWEN, COUNTY ADMINISTRATOR
 CATHERINE K. DOUGLASS, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:09 p.m.

Administrator Bowen provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Administrator Bowen asks to amend the agenda adding a Closed Meeting for consultation with the attorney and to remove Public Hearing E-3 Zoning Ordinance Amendment – Airport District. Supervisor Roark moves to approve the agenda with the amendments mentioned. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Approval of the Minutes: Supervisor Toth moves to approve the minutes of the Joint meeting with the School Board held September 24, 2025, and the Special Meeting held October 6, 2025. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins begins the Delegations from the Public.

1 – Zachary Wells: Encourages the Board to consider their brothers and sisters in Christ and pray about each decision, particularly with tax increases.

2 – Joey Schnepf, Chief, Crewe Volunteer Fire Department: Clarifies they are all volunteers, and there has been no increase to their funding in three years. The County now funds them from the Fire Levy rather than through the General Fund, but they are not receiving more than in previous years.

3 – David Gibbs: Opposes the levies and believes the matter should have been decided by referendum. There are many poor in the County who cannot pay, and he is concerned more levies are ahead for the courthouse and animal shelter.

4 – Robin Reese: Opposes the tax increases and Fire/EMS levies. She encourages the Board to find another way to bring in revenue.

5 – Susan Fee: Would like to see the County offer tax relief for senior citizens.

6 – Gerard Wilson: Encourages the Board to cut costs and set priorities. Secondly, he asks the Board to assist with an issue accessing a private cemetery that has been gated and

locked. State Code allows family to access a private cemetery. Supervisor Roark would like to meet with Mr. Wilson regarding the issue.

Having been properly advertised and this date set for these Public Hearings, the Board hears the following.

1 – Zoning Ordinance Text Amendment – Public Utilities: Mr. Zody presents the request to amend the Zoning Ordinance definition of “public utilities” to include “solar”. The Planning Commission recommended unanimously to deny the request, their reason being the current definition already alludes to an energy-generating source. Mr. Zody has had no citizen contact on this matter.

Supervisor Roark moves to open the Public Hearing on the Zoning Ordinance Text Amendment – Public Utilities. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Bryan Thomas: Discloses he is a member of the Planning Commission. His view is that solar and battery storage are not public utilities. Utilities provide a useful service to the general public.

2 – Bill Outlaw: Presents moral issues with the solar panel supply chain.

3 – Chris Page: States as some large-scale solar facilities may be subject to utility-style regulations, he supports amending the ordinance.

Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. The applicant wishes to speak, and the Chairman allows it.

4 – Jared Burden, applicant: The request is to clarify the definition to include solar. He contends solar is electricity and thus already included in “public utilities”. However, the decision and interpretation would be up to the County attorney and the Board. He would like to see it clearly stated thus avoiding possible future debate.

Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Discussion follows on the need to include solar when other primary sources of electricity are not listed. Supervisor Ingram moves to accept the Planning Commission’s recommendation to deny the request to alter the definition of public utilities. A second is provided by Supervisor Roark for discussion. The Board discusses and clarifies the Planning Commission’s recommendation. He then withdraws his second. A second is provided by Supervisor Toth. Following a voice vote, the motion to accept the recommendation, denying the request, passes 5-0 as follows.

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Toth would like to revisit the tax issue presented during Delegations from the Public. Chairman Collins suggests they finish the public hearings and then revisit the topic.

2 – Solar Application – Burke Junction: Gregg Zody presents the application of Don and Gene Knight to site a 3MW solar project on approximately 30 acres south of Burkes Tavern Road. He received no contact from the adjacent property owners. The Planning Commission found it was in substantial compliance with the Comprehensive Plan, and they voted 7-1 to recommend approval of the Special Exception application to the Board of Supervisors providing the applicant secures written setback waivers from adjacent property owners. The project site is well-sited, being hidden from a majority of the adjacent properties.

Supervisor Roark moves to open the Public Hearing for the Special Exception for a solar application by Burke Junction/Don and Gene Knight. A second is provided by Supervisor Ingram. Following a voice vote, the motion to open carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Chris Page: Criticizes the Planning Commission for recommending denial on solar projects. (Chairman Collins notes this application was approved 7-1). He urges the Board to approve this small project to help Nottoway County get started in solar.

2 – Ester Rekhelman, Senior Project Developer, Hexagon Energy: Discusses the diligent efforts to reach adjacent property owners, the owner's stewardship and environmental concerns for the property, and the request for a reduction in setbacks.

Supervisor Ingram commends Ms. Rekhelman for her presentation before the Planning Commission and the transparency with which she presented.

Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins recaps: This project received Planning Commission approval, neighbors were contacted via Certified Mail, no adjacent property owners objected, and a public meeting was held. Mr. Zody would like to address the Zoning Ordinance verbiage regarding waivers, but in this case, with Ms. Rekhelman stating that she has not received any negative feedback, he sees no need to seek written setback waivers. Mr. Zody supports this project. Board and staff agree written waivers are not needed due to lack of opposition and effective outreach.

Supervisor Roark asks if the Board can accept the Planning Commission's approval if it comes with a request for written waivers. Supervisor Ingram explains the Planning Commission is concerned about the adjacent landowners, and there is nothing from neighbors in writing.

Mr. Zody has eight conditions and would also include the conditions provided by Hexagon Energy.

Chairman Collins entertains a motion to approve the Burke Junction solar, excluding the Planning Commission's recommendation for a waiver requirement, including staff and Hexagon Energy's voluntary recommendations. Supervisor Ingram moves to approve this request as such. A second is provided by Vice Chair Norton. Following a voice vote, the motion to approve carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

3 – ~~Zoning Ordinance Amendment – Airport District~~ Amended to Remove

After Supervisor Toth requests to address tonight's comments from the public, Vice Chair Norton moves to amend the agenda to allow Board members opportunity to do so. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Toth speaks to a reference to Nottoway citizens being 'poor' and unable to pay their taxes because 'poor' is not solely about money. However, State Code requires the County to provide emergency services, and without an immediate source of revenue to fund EMS, a tax increase was necessary. The Board discussed many options but had to make a decision on how to fund EMS. A referendum would likely have brought a 'no' from the citizens, leaving the Board with the same options as without the referendum.

Supervisor Roark brought forward a tax levy early this year, so the volunteers are not to blame. Should the volunteers quit, the County would face a huge financial need which is why the Board implemented tax incentives to draw in volunteers. He urges citizens to stop taking frustrations out on the volunteers.

Vice Chair Norton gives data on Nottoway's standing in comparison to its surrounding counties. Its tax rates are not the highest, one penny increase is equivalent to \$125,000 which would cover the cost of two EMTs. In comparison, Mecklenburg's penny is equivalent to \$867,000. She says the Board has been working with the Commissioner in considering a reduction for the hardship on senior citizens, but to implement that is a lengthy process and, until then, the revenue must be found elsewhere.

4 – Citizen Input – Former Burkeville Elementary Property: In tonight's packages is a resolution the Board received from the Nottoway County School Board. Administrator Bowen notes the Board of Supervisors advertised this public hearing to hear from the citizens of Nottoway County regarding the Nottoway County Public Schools' request for permission to sell the former Burkeville Elementary School building and retain the proceeds for capital improvement projects.

Chairman Collins adds that the Code of Virginia offers options for the School regarding the building, one of which is to sell and retain the proceeds with permission from the governing body.

Supervisor Roark moves to open the Public Hearing for Citizen Input on the former Burkeville Elementary Property. A second is provided by Supervisor Ingram. Following a voice vote, the motion to open the Public Hearing carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Gerald Smith, Mayor, Town of Burkeville: The Town of Burkeville should have been notified first during any discussion on the sale of the property. It has a well and septic system on the property, and it is a historical landmark.

Supervisor Roark was unaware the Town of Burkeville had infrastructure on the property and offers a motion to table this matter until the Board of Supervisors can have a discussion with the Town. A second is provided by Supervisor Toth who clarifies that the public hearing would continue, but the Board would take no action tonight. Chairman Collins rules that the citizens have patiently waited their opportunity to speak to the matter, that no votes or action will take place until after the citizens have been heard.

2 – Rodney Reynolds: Agrees with Mayor Smith. The building houses the Office of the General Registrar, and he feels the Electoral Board was excluded from discussions. Also, the action would remove a piece of local history.

3 – Jackie A. Green August: Provides a detailed history of the property and speaks to the significance of Ingleside and its African American heritage. She calls for preservation of the building for community use.

4 – Elvira Beverly Ford: Urges not to sell the building as it is currently being used to serve community needs. In a food desert, it houses a food bank serving hundreds of citizens. She asks the Board to consider the building's potential.

5 – Kevin Hewitt, Hope Food Pantry volunteer: The food pantry serves 400+ families each month, and the building is ideal for services. He urges the Board to allow its continued use.

6 – Wanda Dyson: She attended the Ingleside School. The building is a historical landmark and a community resource. With food insecurity and a lack of local services, she urges the Board to keep the building open.

7 – Connie Reynolds-Hurt: Agrees with those who spoke to the historical aspect of the building, is concerned about moving and combining critical offices, and opposes moving the Registrar to Blackstone.

8 – Sarah Allen: Opposes the sale of the property. She advocates for its continued use by and for the community. She suggests a mental health services facility.

9 – Chris Page: Urges the Board to deny the school's request. He suggests the School Board surplus the property to the County.

Chairman Collins mentions receiving two e-mails from citizens asking the Board not to sell the property citing its historical value and its current use as a food pantry.

1 – Greg Eanes

2 – Kimberly Dyke-Harsley

Jackie A. Green August states she has a petition against the sale of the property signed by over one hundred citizens.

Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Vice Chair Norton provides clarification for the public. The School Board holds the deed to the property. However, the County bore the cost when the new building was built. Thus, the School has the right to sell the property, but the County has the right to direct the funds. She thanks Mayor Smith for bringing to light Burkeville's interest in the property. The School Board has given the County an eviction notice to vacate the property by January 15, 2026.

Supervisor Toth states the public has spoken to their desire to see the building surplus to the County and to see it stay available to those in need. He has had several citizens contact him to encourage the Board to let the building remain with the County and stay open.

Chairman Collins reviews the School's options in regards to the building: sell the building with permission, surplus the building to the County. Ms. Douglass notes the Supervisors would need to give the initial permission for the sale and retention of the proceeds, but it would not dictate what the funds would be used for. Administrator Bowen explains the School's intent is to use the proceeds for capital improvements, particularly securing school entrances. To Supervisor Ingram's question about the possibility of the Town of Burkeville helping financially, Mayor Smith indicated the Town of Burkeville could not assist financially.

Supervisor Toth moves to deny the School Board's request to sell the Burkeville school located at 507 Ingleside Street, Burkeville. A second is provided by Supervisor Ingram. Following a roll call vote, the motion to deny the request carries as follows:

W. J. Collins	Aye
D. V. Norton	Aye
R. H. Ingram	Aye
J. A. Roark	Aye
G. G. Toth	Aye

Vice Chair Norton moves to take a 15-minute recess. A second is provided by Supervisor Ingram. Approved unanimously. The Board reconvenes at 9:52 p.m. Chairman Collins polls the Board to ensure all are in agreement to continue past 10:00 p.m., and the decision to continue is unanimous.

The Board receives the following Department reports:

1 – Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for September 2025. Aaron French, Assistant Resident Engineer, reports that the Route 723/460 R-cut project is nearing completion with traffic engineers performing a field review this week. The Darvills/Fort Pickett roundabout is nearing advertisement for construction bids with an anticipated start date in the spring. The Crystal Lake Road rural rustic project is complete and will be posted at 35 mph. Final mowing and litter pickup is scheduled to begin November 5th. VDOT is preparing for snow and winter operations.

Supervisor Ingram asks if VDOT plans to resurface 49 South as it is bad; Mr. French says all resurfacing is complete for this year. Supervisor Toth asks Mr. French to review the large bump in the right lane of Highway 460W, just past the Route 606 overpass.

2 – Solid Waste: September 2025 Nottoway County Sanitary Landfill Waste Report: received an average of 43.71 tons of waste per day. Administrator Bowen mentions that TRC is still on the December worksession agenda.

3 – Building Inspection: September 2025 report; 28 building permits issued for \$6,149.84 in permit fees and \$1,212,225.24 in construction value; 175 inspections performed. Administration interviewed for the position of Building Official on October 2nd. An offer was made, but his present employer countered. There is a local resident also interested but who would need training.

Vice Chair Norton mentions that she and Supervisor Roark are the Personnel Committee, and she was not notified of the interviews. Administrator Bowen was unaware they wanted to be involved with hiring interviews. He had the Amelia Building Official present for the interview for his knowledge of that field. Chairman Collins suggests the Personnel Committee is for personnel matters rather than hiring. Vice Chair Norton states having the subject matter expert present makes sense.

4 – Animal Control: September 2025 report; 169 animal control calls; 0 summons issued, 0 convictions; 2 compliance notifications issued; 2 dogs held over 40 days (in foster care). Includes pictures of food donations and a monetary donation to cover a vet bill. Chairman Collins notes that work is continuing on the new shelter project.

5 – Piedmont Health District: No report provided.

6 – Nottoway County Public Library: Library Board of Trustees meeting packet for October 15, 2025; October Director's Report. Vice Chair Norton extends condolences to Ms. Zataweski on the recent loss of her husband.

7 – Nottoway County School Board: Administrator Bowen mentions the two budget items found in tonight's package. Dr. Martin and Heather Maier are present to speak to these if anyone has questions.

Dr. Martin praises staff and tells of their recent activities to show support to lunch staff by visiting, serving lunch, and clearing tables. October is Bullying Prevention month, and they initiated a Kindness Campaign in each school. Their budget process has begun.

Dr. Martin presents the budget adjustment: \$407,172 which is additional state funding and has no impact to the County (special ed, summer school, English learning students, staff training).

The budget carryover is per Chapter 725 which allows schools to carry over unexpended State funds provided the required local effort and match has been met. They are requesting to carry over Direct Aid and Facility Use rentals in the amount of \$3,024,096.75.

Supervisor Roark inquires if School funds can collect interest. Ms. Maier states they can collect interest which they are required to report on their annual State financial report. Should the Board not approve this carryover request, the schools must return the money to the State. He then asks for a list of capital improvements. Dr. Martin has a general capital improvement list, but the School Board has not prioritized it.

Supervisor Roark moves to approve the budget adjustment of \$407,172. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark moves to approve the request for carryover of \$3,024,096.75. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for September 2025. Mr. Zody has nothing additional to report.

10 – Emergency Services: Emergency Services Coordinator's Report for October 2025. Fire & EMS Working Group Planning Meeting Agenda for September 23, 2025, and October 7, 2025. Mr. Hyde commends the three fire departments for drills and community events. A solar firefighting class was held. GIS mapping of hydrants at state facilities was completed. The draw down of the \$1 million DOJ grant went through and was received by the County. The \$1 million is now to be paid to the vendor.

Mr. Hyde then asks the Board to approve distribution of the Virginia Department of Fire Programs Aid to Localities that was received by the County in the total amount of \$53,792.00, divided equally for a total of \$17,930.66 to each of the three departments. Supervisor Roark

moves to approve the consent request as presented for the authorization of equal distribution of the FY26 Virginia Department of Fire Programs Aid to Localities (AtL) funding to each of the three volunteer fire departments in Nottoway County. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

11 – Piedmont Regional Jail Authority: Chairman Collins reports the PRJA meeting was held yesterday. The meeting included a tour of the facilities to show the security improvements. There are ten VCBR residents incarcerated there which is down for the third consecutive month.

12 – Pickett Park: Lease Actions Income Report dated October 2, 2025. Officer's Club Income Report dated October 2, 2025.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Present but nothing to report.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package.

4 – Christy A. Hudson, Commissioner of the Revenue: No report provided.

5 – Leanne Watrous, Commonwealth's Attorney: Case reports in the package.

The Board considers the following unfinished business.

1a – Animal Shelter: Supervisor Ingram attended the last meeting. CARES has received bids on furniture and appliances. Administrator Bowen reports that the Town of Burkeville agreed to pay for the water lines but not the sewer lines, and work is ongoing for installing the sewer lines to the road.

Administrator Bowen clarifies that the County's current shelter falls under the State Veterinarian's Office, and it does not meet Code. That office is giving the County a grace period to bring the shelter into compliance and meet the Code requirements.

1b – Dispatching: Sheriff Jones reports a Dispatch Supervisor has been hired

1c – Broadband: Work is ongoing with RiverStreet vehicles seen in the area.

1e – Courthouse PPEA Update: Ms. Douglass states the County voted to proceed with English Construction, and the Judges' October deadline was met when a plan was submitted to their attorney for review. Their attorney requested supplemental information which English is now compiling.

1f – Committee Reports: Vice Chair Norton extends condolences to the family of Arlene Robertson on her recent passing. Ms. Robertson worked on the PSR board for decades.

The Board considers the following Consent Items.

1 – September Expenditures Report

2 – Sheriff NG911 \$150,000.00

3 – Erroneous Assessment – Refund \$6,848.88

October 16, 2025

Supervisor Roark moves to approve the Consent Items. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board considers the following new business:

1 – VACo 2025 Voting Credentials: Administrator Bowen will be representing the Board at the upcoming VACo Conference. In order for Nottoway County to have a voice, someone must be approved to vote on Nottoway's behalf. He is seeking the Board's authorization to cast the County's votes on November 11, 2025.

Supervisor Roark moves to approve Administrator Bowen as authorized representative for Nottoway County. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The following information items are presented in the package:

- 1 – CRC – September 2025 Items of Interest
- 2 – Burkeville Volunteer Fire Department – Call Report for September 2025 & Payroll
- 3 – Crossroads Patient Report – February 2025
- 4 – Town of Crewe Notices
- 5 – Madeline's House Compassionate Purse Fundraiser
- 6 – Biosolids Notices – Nutri-Blend and Synagro
- 7 – Dominion Energy – PJM Transmission Plan Notice
- 8 – Leadership in America Lecture Series
- 9 – CARES Fundraiser
- 10 – SVCC GED Graduation
- 11 – Columbia Gas Application Notice – (full document available in Admin)
- 12 – Dominion Energy – Notices (3) – (full docs available in Co. Admin.)

Administrator Bowen reminds the Board that the Monday, October 20th meeting to discuss the Rocky Ford Solar siting agreement has been canceled.

Comments from members of the Board.

Vice Chair Norton mentions the Crewe Town Council meeting was postponed until October 20th. Mr. Hyde and Chief Schnepf will be in attendance to report on safety procedures and pipe sizing regarding the new water lines being installed.

Supervisor Ingram clarifies the move of the Registrar's Office to Blackstone would not affect voting in Burkeville. The polling place would move to the Burkeville Fire Department. Administrator Bowen has confirmed the relocation of the polling place with Mayor Smith and Chief Brian Welch who were agreeable to the arrangement.

Ms. Douglass is asked if the utilities are cut off to the Burkeville school building, is it considered abandoned? Would it then be necessary for the County to take possession to secure it? She would be willing to research the issue to make a recommendation.

Supervisor Roark suggests future discussions on the levies and a comparison of percentage increases of previous budgets. He presents the following four items for consideration.

1. Eliminate salaries of Board of Supervisors
2. Eliminate pay for Committees. Supervisors note the Committees are in charge of their payment; this would not be a savings for Nottoway County
3. Find 10% to cut from County's spending (reduction of \$1 million)
4. Cut taxes for those retired, aged 65+

Supervisor Toth explains why he took exception to the use of the word "poor". He stresses the necessity of the Fire and EMS levies and the importance of the volunteers:

Chairman Collins has always asked for the courtroom to be full when issues are to be discussed. He appreciates the good turnout and participation by citizens speaking tonight.

Supervisor Ingram moves that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(8) Consultation with legal counsel employed or retained by a public body regarding specific legal matters requiring the provision of legal advice by such counsel, specifically matters pending in County Administration. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 10:40 p.m.

Supervisor Roark motions to **come out of Closed Meeting**. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board reconvenes in Open Session at 11:00 p.m.

Chairman Collins reads the following notice of certification:

WHEREAS, the Board of Supervisors of Nottoway County, Virginia, has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, §2.2-3712 (D) of the Code of Virginia requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia, hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were

October 16, 2025

discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

Responses to a roll call vote for certification are as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Having no further business, Supervisor Toth moves to adjourn. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins adjourns the meeting at 11:01 p.m.

Chairman

Clerk

September 16, 2025 Planning Commission Summary

Members present: Woolfolk, Lewis, Pettis, Bruce, Thomas, Lavelle, Carter, Kite, Ingram (Liaison)

Members absent: Perry, Williamson

The planning commission meeting commenced with the approval of an altered agenda and corrected August minutes. Discussions included airport zoning amendments, with one recommended for approval with conditions and another tabled pending visual maps and landowner input. A proposed text amendment to include solar in the public utilities definition was denied. The Burke Junction solar project's special exception permit was subsequently recommended for approval, contingent on staff recommendations, voluntary conditions, and obtaining waivers for setback reductions from adjacent property owners. The meeting concluded with a note to clarify conflicting language in the setback ordinance and a look ahead to next month's caseload.

Topics

Approval of Agenda: The agenda was approved with an alteration to move airport ordinance items to the top for discussion first. **Approval of Minutes:** Minutes from the August meeting were approved with two noted corrections regarding spelling and name clarification. **Airport Zoning District (Text Amendment):** Discussion centered on creating a new zoning district for areas adjacent to airports to encourage aviation-related businesses, with the commission recommending approval with an amendment for county approval of community events. **Airport Overlay District (Zoning Ordinance Amendment):** This topic involved creating an overlay district to ensure FAA compliance around airports, but was tabled until the next meeting due to concerns about the lack of a visual map and need for landowner input. **Public Utilities Definition (Text Amendment):** A proposal to amend the definition of "public utilities" to explicitly include "solar" was discussed and ultimately denied by the commission. **Burke Junction Solar Project (Special Exception Permit):** Hexagon Energy presented its 3-megawatt solar project, first securing a determination that it complies with the comprehensive plan, and then receiving a recommendation for approval of its special exception permit with staff conditions, applicant's voluntary conditions, and a requirement for waivers for setback reductions. **Setback Ordinance Clarification:** A brief discussion highlighted conflicting language within the existing setback ordinance concerning waivers for habitable dwellings versus parcels and the distinction between waivers and board-granted exceptions. **Next Month's Caseload:** The upcoming meeting's agenda will include the Rocky Ford Development LLC's solar project application.

Key Actions and Responsibilities

Staff (Mr. Zody/office) will create a visual map and gather input from affected landowners for the Airport Overlay District before the October 21st meeting. The Planning Commission will continue discussion on the Airport Overlay District at the October 21st meeting. The Planning Commission will review Rocky Ford Development LLC's solar project application at the next

meeting on October 21st. Staff (Mr. Zody/attorney) will review and prepare for discussion on the conflicting language in setback ordinance (4.19.7, paragraph 4) before the October 21st meeting, possibly at an October 9th work session. Hexagon Energy (applicant) will develop an emergency management plan in coordination with local fire stations before final site plan approval for the Burke Junction Solar Project. Hexagon Energy (applicant) will submit a construction management plan to VDOT, coordinating with school schedules and road conditions, before site plan approval for the Burke Junction Solar Project. Hexagon Energy (operator) will update the decommissioning plan and security bond every five years throughout the project's life. Hexagon Energy (operator) will coordinate waste facility placement with county administration at decommissioning. Hexagon Energy (applicant) must seek waivers for setback reductions from adjacent property owners prior to the Board of Supervisors review for the Burke Junction Solar Project. Staff (Mr. Zody) will inform the Planning Commission about the outcome of the text amendment vote as information becomes available. The Planning Commission moved to adjourn the current meeting.

Summary

The planning commission meeting covered several key zoning and development issues. The agenda was altered to prioritize airport-related ordinances. The minutes from the August meeting were approved with corrections. A proposed text amendment for an airport district zoning was approved with a condition for county approval of community events (Vote: 8-0). However, an airport overlay district zoning amendment was tabled for further information (map and landowner input). A request to amend the definition of 'public utilities' to specifically include 'solar' was denied. Finally, a special exception permit for the Burke Junction Solar Project was discussed extensively, including a detailed presentation, public hearing, and questions regarding setbacks and economic impact. The commission ultimately voted to recommend approval of the solar project to the Board of Supervisors, subject to staff conditions, voluntary conditions from the applicant, and the requirement for waivers from adjacent landowners for reduced setbacks. The meeting concluded with a note to address conflicting language in the setback ordinance at a future meeting.

Action Items

Subject: **Airport Overlay District Zoning Amendment** Next Action: **Table until the next meeting for map creation and landowner input.** Timeline: **October 21st meeting**

Subject: **Public Utilities Definition Amendment** Next Action: **Deny the request to specifically include 'solar' in the definition.** Timeline: **Completed in this meeting**

Subject: **Burke Junction Solar Project Special Exception Permit** Next Action: **Recommend approval to the Board of Supervisors with staff recommendations, voluntary conditions, and a requirement for waivers from adjacent landowners for reduced setbacks.** Timeline: **To be forwarded to the Board of Supervisors**

Subject: **Setback Ordinance Language (Section 4.19.7, Paragraph 4)** Next Action: **Review and clarify conflicting language regarding waivers for parcels vs. habitable dwellings.** Timeline: **New business for a future meeting**

October 21, 2025 Planning Commission Summary

Members present: Woolfolk, Lewis, Pettis, Bruce, Thomas, Lavelle, Carter, Kite, Ingram (Liaison)

Members absent: Williamson

The Nottoway County Planning Commission meeting addressed a postponed agenda item, approved an existing overlay district, and initiated significant changes to the county's solar ordinance.

1. Meeting Opening and Agenda Adjustments:

- The meeting began with a prayer and roll call.
- The rezoning request for the Tatum property and the special exception for the solar project on Rocky Ford Road were *continued* (postponed). This was due to the lack of a signed agreement between the county and the solar applicant, which is required before advertising for public hearings. Staff expressed hope to secure an agreement for the November meeting.

2. Airport Safety Overlay District Approval (Vote = 9-0):

- **Purpose:** To define and regulate property within a 1,000-foot radius of the airport, primarily concerning height standards for structures and antennas (maximum 35 feet).
- **Property Ownership:** The review revealed that most adjacent property owners within this radius are public entities, including Virginia Tech, the Board of Supervisors, the Town of Blackstone, and various aviation firms. No private residential properties were identified within the specific 1,000-foot area discussed.
- **Concerns:** A commissioner raised concerns about potential interference with the Virginia Tech research center. Staff were instructed to contact the facility manager.
- **Crew Airport:** While Crew Airport was mentioned, no formal application for rezoning to an airport district has been submitted. Challenges for development on the west side of the runway were noted due to existing conservation and rural residential zoning.
- **Decision:** The Commission unanimously voted to approve the Airport Overlay District, with suggested changes, and recommended it to the Board of Supervisors for final adoption.

3. Solar Ordinance Review and Proposed Changes:

- **Core Issue: Conflicting Setback Standards:** The main discussion centered on contradictions within the existing solar ordinance regarding setbacks:

- One section (page 3/4 of the packet) states that the Planning Commission and Board of Supervisors can make exceptions to setbacks and acreage based on "parcel dimension and topography."
- Another section (page 12, Article 4.19.7) mandates specific minimum setbacks: 300 feet from public rights-of-way, 1200 feet from habitable dwellings, and 300 feet from adjacent property lines. This section also mentions that "waivers may be sought" by applicants.
- **Waiver Requirements:**
 - Commissioners advocated for waivers to be clearly defined, in writing, submitted with the application, and notarized.
 - The intent was to allow waivers primarily for *habitable dwellings*, not general sideline setbacks.
 - A concern was raised about developers seeking "blanket" setback reductions for entire projects, rather than specific adjustments.
 - It was suggested that if a waiver is not obtained, the developer must adhere to the current code's setbacks. The focus should be on protecting habitable dwellings, as they are most impacted.
- **Staff Recommendation:** Staff strongly recommended eliminating the conflicting language from page 3/4 that allows exceptions based on topography and parcel dimensions. This aims to create a more consistent and legally defensible ordinance, as conflicting standards can create legal vulnerabilities.
- **Cost Burden on County:** Discussion included the significant cost incurred by the county (e.g., for certified mail and staff time for property owner research) in processing solar applications, suggesting that applicants should bear these costs.
- **Non-Retroactivity:** Any changes made to the solar ordinance will not apply retroactively to the previously continued Rocky Ford Road solar project, citing a Supreme Court precedent (*Lamar signs vs. Indianapolis*).
- **Next Steps:** Staff will draft revised language for the solar ordinance to address the conflicting setback clauses and clarify waiver requirements. The Commission will review this draft next month, with a public hearing scheduled for December.

The meeting concluded with the adjournment, having addressed key land use and regulatory issues.

ARTICLE 2, DIVISION 10

AIRPORT DISTRICT

- § 2-10-1. Purpose.
- § 2-10-2. Permitted uses.
- § 2-10-3. Accessory uses.
- § 2-10-4. Uses permitted by Administrative Permit.
- § 2-10-5. Prohibited uses.
- § 2-10-6. Lot area.
- § 2-10-7. Lot width.
- § 2-10-8. Yard and setback requirements.
- § 2-10-9. Lot frontage.
- § 2-10-10. Height limitations.

Airport District (AD)

2-10-1. Purpose.

- A. Airport Districts are intended to provide space for airports and vertiports (VTOL = Vertical Take Off and Landing) licensed by the Virginia Department of Aviation or any United States government or military air facility.
- B. Also permitted are aviation uses within and adjoining the airport facility that are compatible with an airport environment.

§ 2-10-2. Permitted uses.

The following uses shall be permitted within Airport Districts without Special Exception permits:

1. Airports.
2. Vertiports.
3. Aviation-related research and development.
4. Aviation-related maintenance, manufacturing, and assembly.
5. Aviation training for manned and unmanned aircraft.
6. Facilities for refueling aircraft.
7. Airport terminals.
8. Aircraft charter service.
9. Police, fire and rescue squad stations as accessory uses to the airport.
10. Businesses compatible with an airport environment, including but not necessarily limited to: motor vehicle parking, travel accommodation services, motor vehicle rental services, Fixed and gasoline retail outlets.
11. Offices.
12. Aircraft storage (hangars and aprons).
13. Public and private roadways/parking lots.

From Town of Blackstone Memorandum

From Town of Crewe Memorandum

First draft 06122025-work session discussion; Second draft 09102025

14. Municipal facilities and services, including but not limited to:
 - a. Emergency services staging areas.
 - b. Public works operations and storage.
 - c. Storm debris collection and temporary storage.
 - d. Municipal equipment storage and maintenance.
15. Community events and public gatherings, including but not limited to:
 - a. Festivals, fairs, and community celebrations.
 - b. Educational events and demonstrations.
 - c. Public meetings and civic functions.
 - d. Recreational activities compatible with airport operations
16. Temporary storage facilities related to emergency response and disaster recovery.
17. Public utilities and infrastructure supporting airport and municipal operations.
18. Municipal Operations Exception. Notwithstanding any other provision of this section, airport facilities owned and operated by a municipality may be used for any municipal purpose that does not:
 - a. Create a hazard to aircraft operations.
 - b. Interfere with airport safety zones or flight paths.
 - c. Generate activities incompatible with airport noise levels.
 - d. Violate applicable FAA regulations.

§ 2-10-3. Accessory uses.

Accessory uses customary and clearly incidental to a permitted use and which will not create a nuisance or hazard shall be permitted in Airport Districts, subject to the applicable provisions of Article 3, Division 3 of this chapter (Please see attached draft revision), Division 9 (Outdoor Lighting, and Division 10 (Parking).

§ 2-10-4. Uses permitted by Administrative Permit.

The uses listed in this section shall be permitted within Airport Districts only upon the issuance of an Administrative Permit by the Zoning Administrator pursuant to the provisions of article LVI of division I of this chapter.

A. General standards applicable to all Administrative Permits. No Administrative Permit shall be issued except upon a finding that in addition to conformity with any standards set forth in this chapter for Administrative Permit uses, the following general standards will be met either by the proposal made in the application or by the proposal as modified or amended and made part of the Administrative Permit:

1. *Conformity with comprehensive plan and policies.* The proposal as submitted or as modified shall conform to the Comprehensive Plan of the county or to specific elements of such plan, and to official policies adopted in relation thereto, including the purposes of this chapter.

First draft 06122025-work session discussion; Second draft 09102025

2. *Impact on neighborhood.* The proposal as submitted or as modified shall not have undue adverse impact on the surrounding neighborhood. Among matters to be considered in this connection are traffic congestion, noise, lights, dust, odor, fumes and vibration, with due regard for timing of operation, screening or other matters which might be regulated to mitigate adverse impact.

B. Off-site office trailers, buildings, parking lots, and equipment or materials storage areas or facilities in connection with temporary construction.

The temporary placement, development or use of off-site office trailers, buildings, parking lots or equipment or materials storage areas or facilities in connection with construction projects may be permitted by Administrative Permit provided:

1. Items permitted are in connection with specific construction projects.
2. Items permitted are placed no sooner than thirty (30) days prior to the beginning of construction and removed within thirty (30) days after completion or suspension of construction.

3. Items permitted are placed within reasonable proximity of the construction project.

§ 2-10-5. Prohibited uses.

All uses except those listed in 2-10-2 and 2-10-3 are specifically prohibited.

§ 2-10-6. Lot area.

The minimum lot area shall be sufficient for compliance with all the provisions of this article.

§ 2-10-7. Lot width.

The minimum lot width at any point shall be:

- A. One hundred fifty feet (150'); ~~or~~

§ 2-10-8. Yard and setback requirements.

A. Front lot lines.

1. No building or other structure shall be erected, altered, located, reconstructed or enlarged nearer to the right-of-way line of a public or private street seventy feet (70').
2. If a lot, tract or parcel fronts on two or more streets, the foregoing minimum setbacks shall be required on all streets.
3. For an exception to front-line setback requirements, see Article 5, Division 3 (Board of Zoning Appeals), of this chapter.

B. Other lot lines adjoining airport business zones.

There are no minimum setbacks required from lot lines, other than front lines, where the other lot line is a boundary with property zoned for airport business use under this article.

C. Lot lines not adjoining airport business zones.

No building or other permanent improvement shall be erected, altered or enlarged nearer than fifty feet (50') to any property not zoned Airport District.

§ 2-10-9. Lot frontage.

Every lot shall have at least:

- A. One hundred fifty feet (150') of frontage on a public street; or
- B. One hundred feet (100') of frontage on a public street if:
 - 1. Curb and guttering is installed along the entire road frontage in accordance with applicable standards of the Virginia Department of Transportation; and

2-10-10. Height limitations.

In Airport Districts, all buildings and structures shall be subject to the following height limitations:

- A. No building or structure shall exceed fifty feet (50') in height.
- B. .

In no case shall the height of any building or structure exceed the height limitations of the CFR part 77 primary surface, transitional surface, approach surface, horizontal surface and conical surface as required in any airport.

- C. For exceptions to height limitations, see Article 5, Division 3 (Board of Zoning Appeals), of this chapter.

First draft 06122025-work session discussion

DIVISION 3 AIRPORT SAFETY ~~OVERLAY~~ DISTRICT (ASOD) ZONING ORDINANCE

Sec. 3-3-1 Purpose; Reference

An ordinance regulating and restricting the height of structures and objects and natural growth, and otherwise incidentally regulating the use of property in the vicinity of the Allen C. Perkinson and Crewe Municipal Airports in Nottoway County by creating the appropriate zones and establishing the boundaries thereof; providing for changes in the restrictions and boundaries of such zones; defining certain terms used; providing enforcement; and imposing penalties can be found in Chapter 35, beginning on page 3501, of the Nottoway County Code.

[24VAC5-20-400. Appendix A: Airport Safety Zoning Ordinance. For reference.]

An ordinance regulating and restricting the height of structures and objects or natural growth, and otherwise incidentally regulating the use of property in the vicinity of the airports in Nottoway County by creating the appropriate zones and establishing the boundaries thereof; providing for changes in the restrictions and boundaries of such zones; defining certain terms used herein; providing for enforcement; and imposing penalties.

The ordinance is adopted pursuant to the authority conferred by § 15.1-427 through 15.1-503 of the Code of Virginia. It is hereby found that an obstruction has the potential for endangering the lives and property of users of the airports and residents in Nottoway County; and that an obstruction may reduce the size of areas available for the landing, takeoff, and maneuvering of aircraft, thus tending to destroy or impair the utility of the airports and the public investment therein. Accordingly, it is declared:

1. That is necessary in the interest of the public health, safety, and general welfare that the creation or establishment of obstructions that are hazards to air navigation be prevented;
2. That the creation or establishment of an obstruction has the potential for being a public nuisance and may injure the area served by the airports;
3. That the Nottoway County Board of Supervisors derives economic development and enhanced interstate commerce from Allen C. Perkinson Airport/Blackstone Army Airfield at Fort Barfoot and Town of Crewe Airport that are held strictly to the highest possible safety standards; and
4. That the prevention of these obstructions should be accomplished, to the extent legally possible, by the exercise of the police power without compensation.

Sec. 3-3-2. Definitions

"Administrator": The official charged with the enforcement of this ordinance. He or she shall be the Zoning Administrator).

"Airport": Allen C. Perkinson Airport/Blackstone Army Airfield at Fort Barfoot and Town of Crewe Airport.

"Airport elevation": The highest point on any usable landing surface expressed in feet above mean sea level.

First draft 06122025-work session discussion

"Approach surface": A surface longitudinally centered on the extended runway centerline, extending outward and upward from the end of the primary surface, and at the same slope as the approach zone height limitation slope set forth in Article 4 of this ordinance. In plan the perimeter of the approach surface coincides with the perimeter of the approach zone.

"Approach, transitional, horizontal, and conical zones": The airspace zones as set forth in Article 3 of this ordinance.

"Conical surface": A surface extending horizontally twenty feet for every one foot vertically from the periphery of the horizontal surface.

"Hazard to air navigation": An obstruction determined by the Virginia Department of Aviation or the Federal Aviation Administration to have a substantial adverse effect on the safe and efficient utilization of navigable airspace in the Commonwealth.

"Height": For the purpose of determining the height limits in all zones set forth in this ordinance and shown on the zoning map, the datum shall be mean sea level (M.S.L.) elevation unless otherwise specified.

"Horizontal surface": A horizontal plane 150 feet above the established airport elevation, the perimeter of which in plan coincides with the perimeter of the horizontal zone.

"Nonconforming use": Any preexisting structure or object of natural growth which is inconsistent with the provisions of this ordinance or any amendment to this ordinance.

"Obstruction": Any structure, growth, or other object, including a mobile object, which exceeds a limiting height, or penetrates any surface or zone floor, set forth in Article 4 of this ordinance.

"Permit": A document issued by Nottoway County allowing a person to begin an activity which may result in any structures or vegetations exceeding the height limitations provided for in this ordinance.

"Person": Any individual, firm, partnership, corporation, company, association, joint stock association, or governmental entity. The term includes a trustee, a receiver, an assignee, or a similar representative of any of them.

"Primary surface": A surface, with a specified width as provided in Article 3 of this ordinance, longitudinally centered on a runway. When the runway has a specifically prepared hard surface, the primary surface extends 200 feet beyond each end of that runway. The elevation of any point on the primary surface is the same as the elevation of the nearest point on the runway centerline.

"Runway": A specified area on an airport prepared for landing and takeoff of aircraft.

"Structure": Any object, including a mobile object, constructed or installed by any person, including but not limited to buildings, towers, cranes, smokestacks, earth formations, towers, poles, and electric lines of overhead transmission routes, flag poles, and ship masts.

"Transitional surfaces": Surfaces which extend outward perpendicular to the runway centerline extended at a slope of seven feet horizontally for each foot vertically from the sides of the primary and approach surfaces to where they intersect the horizontal and conical surfaces.

"Vegetation": Any object of natural growth.

"Zone": All areas provided for in Article 3 of this ordinance, generally described in three dimensions by

reference to ground elevation, vertical distances from the ground elevation, horizontal distances from the runway centerline and the primary and horizontal surfaces, with the zone floor set at specific vertical limits by the surfaces found in Article 4 of this ordinance.

Article 3.

Sec. 3-3-3. Airport Safety Zones

In order to carry out the provisions of this ordinance, there are hereby established certain zones which include all of the area and airspace of lying equal to and above the approach surfaces, transitional surfaces, horizontal surfaces, and conical surfaces as they apply to the Allen C. Perkinson and Crewe Municipal Airports. These zones are established as overlay zones, superimposed over the existing base zones, being more specifically zones of airspace that do not affect the uses and activities of the base zones except as provided for in Article 5 of this ordinance. An area located in more than one of the following zones is considered to be only in the zone with the most restrictive height limitation. These zones are as follows:

"Airport zone": A zone that is centered about the runway and primary surface, with the floor set by the horizontal surface.

"Approach zone": A zone that extends away from the runway ends along the extended runway centerline, with the floor set by the approach surfaces.

"Transitional zone": A zone that fans away perpendicular to the runway centerline and approach surfaces, with the floor set by the transitional surfaces.

"Conical zone": A zone that circles around the periphery of and outward from the horizontal surface, with the floor set by the conical surface.

The source of the specific geometric standards for these zones are to be found in Part 77.25, Subchapter E (Airspace), of Title 14 of the Code of Federal Regulations, or in successor federal regulations. A copy of these standards is found in Appendix A of this ordinance.

Sec. 3-3-4. Airport Safety Zone Height Limitations

Except as otherwise provided in this ordinance, in any zone created by this ordinance no structure shall be erected, altered, or maintained, and no vegetation shall be allowed to grow to a height so as to penetrate any referenced surface, known as the floor, of any zone provided for in Article 3 of this ordinance at any point.

The height restrictions, or floors, for the individual zones shall be those planes delineated as surfaces in Part 77.25, Subchapter E (Airspace), of Title 14 of the Code of Federal Regulations, or in successor federal regulations. A copy of these standards is found in Appendix A of this ordinance.

Sec. 3-3-5 Use Restrictions.

Notwithstanding any other provision of this ordinance, and within the area below the horizontal limits of any zone established by this ordinance, no use may be made of land or water in such a manner as to:

1. Create electrical interference with navigational signals or radio communication between the airport and airborne aircraft;

First draft 06122025-work session discussion

2. Diminish the ability of pilots to distinguish between airport lights and other lights;
3. Result in glare in the eyes of pilots using the airport;
4. Impair visibility in the vicinity of the airport;
5. Create the potential for bird strike hazards; or
6. Otherwise in any way endanger or interfere with the landing, takeoff, or maneuvering of aircraft intending to use the airport.

Sec. 3-3-6. Nonconforming Uses

1. Except as provided in § 3-3-6.2 of this ordinance, the regulations prescribed by this ordinance shall not require the removal, lowering, or other change or alteration of any structure or vegetation not conforming to the regulations as of the effective date of this ordinance, or otherwise interfere with the continuance of a nonconforming use. Nothing contained in this ordinance shall require any change in the construction, alteration, or intended use of any structure, the construction or alteration of which was begun prior to the effective date of this ordinance, and is diligently prosecuted.
2. Notwithstanding the provision § 3-3-6.2, the owner of any existing nonconforming structure or vegetation is hereby required to permit the installation, operation, and maintenance thereon of whatever markers and lights deemed necessary by the Federal Aviation Administration, the Virginia Department of Aviation, or the administrator to indicate to operators of aircraft the presence of that airport obstruction. These markers and lights shall be installed, operated, and maintained at the expense of the airport owners, and not the owner of the nonconforming structure in question.

Sec. 3-3-7. PERMITS.

1. Except as provided in Secs. 3-3-7.1, 3-3-7-2, and 3-3-7-3 of this Article, no structure shall be erected or otherwise established in any zone created by this ordinance unless a permit therefore shall have been applied for and granted. Each application for a permit shall indicate the purpose for which desired with and sufficient geometric specificity to determine whether the resulting structure would conform to the regulations prescribed in this ordinance. No permit for a structure inconsistent with this ordinance shall be granted unless a variance has been approved as provided in § 3-3-7-4.
2. No permit shall be granted that would allow the establishment or creation of an obstruction or permit a nonconforming use or structure to become a greater hazard to air navigation than it was on the effective date of this ordinance or any amendments thereto other than with relief as provided for in § 3-3-7-4.
3. Whenever the administrator determines that a nonconforming structure has been abandoned or more than fifty percent destroyed, physically deteriorated, or decayed, no permit shall be granted that would enable such structure to be rebuilt, reconstructed, or otherwise refurbished so as to exceed the applicable height limit or otherwise deviate from the zoning regulations contained in this ordinance, except with the relief as provided for in § 3-3-7-4.
4. Any person desiring to erect or increase the height or size of any structure not in accordance with the regulations prescribed in this ordinance may apply for a variance from such regulations to the Nottoway County Board of Zoning Appeals. Such applications shall be properly advertised and be reviewed and

First draft 06122025-work session discussion

considered through a public hearing. Prior to being considered by the (-insert board of zoning appeals or other entity-) the application for variance shall be accompanied by a determination from the Virginia Department of Aviation as to the effect of the proposal on the operation of air navigation facilities and the safe, efficient use of navigable airspace. Such variances shall only be allowed where it is duly found that a literal application or enforcement of the regulations will result in unnecessary hardship and relief granted will not be contrary to the public interest, will not create a hazard to air navigation, will do substantial justice, and will be in accordance with the spirit of this ordinance. Additionally, no application for a variance to the requirements of this ordinance may be considered by the (-insert board of zoning appeals or other entity-) unless a copy of the application has been furnished to the airport owner for advice as to the aeronautical effects of the variance. If the airport owner does not respond to the application within fifteen days after receipt, the (-insert board of zoning appeals or other entity-) may act independent of the airport owner's position to grant or deny the variance.

Any permit or variance granted by the may, if such action is deemed advisable to effectuate the purpose of this ordinance and be reasonable in the circumstances, be so conditioned as to require the owner of the structure in question to install, operate, and maintain, at the owner's expense, such markings and lights as may be deemed necessary by the Federal Aviation Administration, the Virginia Department of Aviation, or the administrator. If deemed proper with reasonable cause by the Nottoway County Board of Zoning Appeals, this condition may be modified to require the owner of the structure in question to permit the airport owner, at his own expense, to install, operate, and maintain the necessary markings and lights.

3-3-8. Enforcement.

1 The administrator shall administer and enforce the regulations prescribed in this ordinance. He or she shall be vested with the police power incumbent to carry out and effectuate this ordinance, including the action of injunction, prosecution and other available means through the Nottoway County Circuit Court. Applications for permits and variances shall be made to the administrator on a form published for that purpose.

3-3-9. Appeals

1. Any person aggrieved, or any officer, department, board, or bureau of Nottoway County affected by a decision of the administrator, may appeal such decision to the Nottoway County Board of Zoning Appeals.

3-3-10. Judicial Review

§ 10.1. Any person aggrieved or any taxpayer adversely affected by any decision of the Nottoway County Board of Supervisors may appeal to the Nottoway Court Circuit Court.

3-3-11 PENALTIES.

Each violation of this ordinance or of any regulation, order, or ruling promulgated under this ordinance shall constitute a misdemeanor and be punishable by a fine of no more than five hundred dollars. Each day on which a violation occurs shall constitute a separate offense.

3-3-12 Conflicting Regulations

Where there exists a conflict between any of the regulations or limitations prescribed in this ordinance and any other regulations applicable to the same subject, where the conflict is with respect to the height of structures or vegetation and the use of land, or any other matter, the more stringent limitation or

First draft 06122025-work session discussion
requirement shall govern.

3-3-13. Severability

Should any portion or provision of this ordinance be held by any court to be unconstitutional or invalid, that decision shall not affect the validity of the ordinance as a whole, or any part of the ordinance other than the part held to be unconstitutional or invalid.

3-3-14. Adoption

§ 14.1. Be it resolved that this ordinance has been properly drawn, legally advertised, and presented through a public hearing before the governing body of Nottoway County on (- insert month, day, year-). Be it further resolved that the effective date of this ordinance is (- insert month, day, year-) and that the ordinance from that date forward carries the full weight of law within Nottoway County until and unless altered otherwise by the governing body.

Statutory Authority

§ 5.1-2.2 and 5.1-2.15 of the Code of Virginia.

Historical Notes

Derived from Virginia Register Volume 12, Issue 17, eff. June 12, 1996.

These are the comments from the Town's aviation Planner, Jeff Wellman. These comments apply to the Airport Zoning District and the Overlay District. Please consider these changes prior to the Planning Commission Public Hearing on the 18th. I will also be in attendance to present.

Thanks

Philip V.

Good afternoon Philip,

Here are my comments regarding the Draft Airport Zoning District and Airport Overlay District.

Airport Zoning District

- May want to add "Fixed Base Operators (FBO)" to #10 on page 2
- Suggest revising #4 to "Aviation-related maintenance, manufacturing, and assembly" on page 2
- Suggest adding "Aircraft storage (hangars and aprons)" to the list on page 2
- Suggest adding "Public and private roadways/parking lots" to the list on page 2
- We're not experts on minimum lot widths but we've seen other airports list a 100' minimum width in their airport zoning ordinance.
- Suggest changing Section 2-10-10, Item B to "In no case shall the height of any building or structure exceed the height limitations of the CFR Part 77 primary surface, transitional surface, approach surface, horizontal surface and conical surface as required in any airport overlay district."

Airport Overlay District

- Insert airport name in Section 3-3-1, first paragraph
- Insert airport name in Section 3-3-3, first paragraph
- Insert board of zoning appeals or other entity in Section 3-3-7, 4th & 5th paragraphs

- Insert board of zoning appeals or other entity in Section 3-3-9

Also, you may want to send a copy of these draft documents over to Scott Denny at DOAV for review as well.

Please let me know if you have any questions.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

The County Planning Commission has scheduled a Public Hearing on these proposed ordinances on August 19, 2025. I would like to present your findings at that time.

Thanks,

Philip V.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Please find attached the two proposed ordinances being considered by Nottoway County. One is an Airport District and the second is the overlay district. These are in the same attachment

Also attached is a presentation I gave to VEDP regarding the purchase of approximately 72 acres adjacent to the existing airport. The google earth view is the most accurate boundary that I currently have.

My concerns are as follows:

Is the airport zoning district comprehensive enough and should it also permit private roads so we can limit access to the general public.

Does the Airport Overlay District as proposed eliminate any portion of the 72 acre property from being used? If so, how much?

Please give me a call at your earliest opportunity to discuss and so I can present your comments to Nottoway County prior to their public hearing.

Philip Vannoorbeeck

Gregg,

The attached amendments should satisfy the Town of Crewe's concerns without impacting the county's intent. Let me know if you have any questions or recommendations.

Thanks,
Phil

<Airport District adjacent property owner notification to Bstone and Crewe.docx>

§ 2-10-2. Permitted uses.

The following uses shall be permitted within Airport Districts without Special Exception permits:

1. Airports.
2. Vertiports.
3. Aviation-related research and development.
4. Aviation manufacturing and Assembly.
5. Aviation training for manned and unmanned aircraft.
6. Facilities for refueling aircraft.
7. Airport terminals.
8. Aircraft charter service.
9. Police, fire and rescue squad stations as accessory uses to the airport.
10. Businesses compatible with an airport environment, including but not necessarily limited to: motor vehicle parking, travel accommodation services, motor vehicle rental services, and gasoline retail outlets.
11. Offices.
12. Municipal facilities and services, including but not limited to:
 - a. Emergency services staging areas
 - b. Public works operations and storage
 - c. Storm debris collection and temporary storage
 - d. Municipal equipment storage and maintenance
13. Community events and public gatherings, including but not limited to:
 - a. Festivals, fairs, and community celebrations
 - b. Educational events and demonstrations
 - c. Public meetings and civic functions
 - d. Recreational activities compatible with airport operations
14. Temporary storage facilities related to emergency response and disaster recovery
15. Public utilities and infrastructure supporting airport and municipal operations

§ 2-10-2. Permitted uses.

B. The following uses shall be permitted within Airport Districts without Special Exception permits:

- a. Airports.
- b. Vertiports.
- c. Aviation-related research and development.
- d. Aviation manufacturing and Assembly.
- e. Aviation training for manned and unmanned aircraft.
- f. Facilities for refueling aircraft.
- g. Airport terminals.
- h. Aircraft charter service.
- i. Police, fire and rescue squad stations as accessory uses to the airport.
- j. Businesses compatible with an airport environment, including but not necessarily limited to: motor vehicle parking, travel accommodation services, motor vehicle rental services, and gasoline retail outlets.
- k. Offices.

C. Municipal Operations Exception. Notwithstanding any other provision of this section, airport facilities owned and operated by a municipality may be used for any municipal purpose that does not:

- a. Create a hazard to aircraft operations
- b. Interfere with airport safety zones or flight paths
- c. Generate activities incompatible with airport noise levels
- d. Violate applicable FAA regulations

§ 2-10-3. Accessory uses.

Accessory uses customary and clearly incidental to a permitted use or to municipal operations at a municipally-owned airport and which will not create a nuisance or hazard shall be permitted in Airport Districts, subject to the applicable provisions of Article 3, Division 3 of this chapter

§ 2-10-4. Uses permitted by Administrative Permit.

The uses listed in this section shall be permitted within Airport Districts only upon the issuance of an Administrative Permit by the Zoning Administrator pursuant to the provisions of article LVI of division I of this chapter.

A. General standards applicable to all Administrative Permits. No Administrative Permit shall be issued except upon a finding that in addition to conformity with any standards set forth in this chapter for Administrative Permit uses, the following general standards will be met either by the proposal made in the application or by the proposal as modified or amended and made part of the Administrative Permit:

1. *Conformity with comprehensive plan and policies.* The proposal as submitted or as modified shall conform to the Comprehensive Plan of the county or to specific elements of such plan, and to official policies adopted in relation thereto, including the purposes of this chapter.

2. *Impact on neighborhood.* The proposal as submitted or as modified shall not have undue adverse impact on the surrounding neighborhood. Among matters to be considered in this connection are traffic congestion, noise, lights, dust, odor, fumes and vibration, with due regard for timing of operation, screening or other matters which might be regulated to mitigate adverse impact.

B. Off-site office trailers, buildings, parking lots, and equipment or materials storage areas or facilities in connection with temporary construction.

The temporary placement, development or use of off-site office trailers, buildings, parking lots or equipment or materials storage areas or facilities in connection with construction projects may be permitted by Administrative Permit provided:

1. Items permitted are in connection with specific construction projects.

2. Items permitted are placed no sooner than thirty (30) days prior to the beginning of construction and removed within

~~D. C. Municipal Use Exemption.~~ Administrative Permits shall ~~not~~ be required for temporary or occasional use of municipally-owned airport property for:

a. Emergency response activities

b. Storm debris management

c. Community events lasting fewer than 7 consecutive days

d. Municipal equipment staging and storage

e. Other municipal operations that do not permanently alter airport infrastructure

Good evening, County Administrator Bowen,

I hope this message finds you well.

I would like to present to the Nottoway Boards of Supervisors an update on the accomplishments of Crossroads Community Services Board.

Additionally, I wish to have members of my team provide some information on the programs we provide and the measures of the successes they have achieved.

Please let me know what month would be appropriate for me to provide an update to the board.

Look forward to hearing from you. Thank you.

P.O. Drawer 248
Farmville, VA. 23901-0248
434 392-7049, FAX: 434-392-1439

November 3, 2025

Derek Stamey, County Administrator
Cumberland County
P. O. Box 110
Cumberland, Virginia 23040

Dear County Administrator Stamey,

I have been notified by the Department of Behavioral Health and Developmental Services that a review of Crossroads Community Services Board (CCSB) FY2026 Community Services Performance Contract Excel Exhibit A and the Financial Summary has been conducted.

The review indicates the local match calculation of 8.57 percent included in the Performance Contract Financial Summary indicates that CCSB does not meet the requirement to provide a 10 percent local match of the State and local funds allocated by the Department for FY2026. With a total shortfall of \$81,792.00 for the current fiscal year. We are not requesting additional funding at this time.

Annually, the assessment conducted by Crossroads to determine the local match contribution occurs prior to the general revenue award from the Department of Behavioral Health and Developmental Services. During this time an estimate of the contribution is taken with a 5% increase based on the previous year's award. Once the final award is received, Crossroads conducts another assessment to determine if the estimated contribution is aligned with the local match requirement and services rendered to the locality.

After reassessing I have been in communication with all other County Administrators to apprise them of the need for additional funding in the next fiscal year to meet the state requirements. Please note that this requirement is fluid, and we are not informed of the annual state funding until after our local budgeting processes have ended.

To comply with the request from the Department of Behavioral Health and Developmental Services, I am requesting communication from each County on detailing any major projects that will take substantial capital as proof for any future need for a state waiver.

Best Regard,

Dr. Melba Moore

ATTENDANCE:

October 29, 2025

Library Director: Jackie Zataweski, Members: Becky Sones, Carolyn Leslie, Shelia Harper, Verna Rhoades

Absent: Susan Nash

Call to Order: was made by Shelia Harper

A motion to approve the **Agenda and Consent Agenda**, including the **Minutes** of September 17, 2025, the **Statistical Report** and the **Financial Report** was made by Caroline Leslie and seconded by Verna Rhoades and the motion passed.

Bills for Approval: Verna made a motion to approve the bills, and it was seconded by Carolyn and the motion passed.

Communications: None

Citizen Comments: None

Report of the Library Director

Blackstone Library: Work on the door is still forthcoming.

Burkeville Library: Waiting on an electrician to finish the work on the door.

Crewe Library: The town changed numerous light bulbs in preparation for Election Day. **Literacy Program Report:** ESL lessons are continuing at the Crewe library on Monday mornings and Thursday evenings in Blackstone. They are well attended.

Committee Reports: None

New Business: Kathy has scheduled a program called "Planning Ahead - What Happens When the Worst Happens". It will be carried out by Benchmark Bank representatives next Thursday at 2:00. One topic that will be addressed is protecting your assets.

New Business: A motion was made by Becky for the approval of Jackie and Melissa to register now for StokerCon, a conference put on by the Horror Writers of America, rather than the VLA Conference next year. Carolyn seconded the motion and the motion passed.

New Business: Jackie is going to investigate transferring the library's office landline number to a cell phone.

**NOTTOWAY COUNTY PUBLIC LIBRARY
BOARD OF TRUSTEES
AGENDA**

Unfinished Business: Becky made a motion to amend the constitution to align with the administrative policy, which says the secretary will appoint the nominating committee which consists of two people. Carolyn seconded and the motion passed.

Items Not on the Agenda: None

Adjournment: Shelia adjourned the meeting

Next Meeting: November 19, 2025

Library System Monthly Report

To: Members of the Nottoway County Library Board
From: Jacqueline Zataweski, Public Library System Director
Date: November, 2025

The following summarizes the activities and projects that have taken place since I provided a report for the October meeting.

- I registered Melissa and myself for the Horror Writers Association Conference scheduled for June 4 - 7 next in Pittsburgh.
- On October 30, I submitted a grant proposal to the Dreyfus Foundation; if approved, it would provide \$1200 in funding so that we can provide books to pre-k students each month of the next (academic) year. Notification will be made by the end of April.
- In September, I met with a representative of Spring Hill Baptist Church to discuss how best to provide books to pre-k students each month. We determined that the most cost-effective way was to buy them from the First Book Marketplace. I agreed for us to supply books for two months this school year; the first of these orders was distributed the week of November 3. She is seeking sponsors for the remaining months.
- The follow-up report for the VCA grant was completed November 4. This was required in order to receive reimbursement for half the cost of the performance.
- I have obtained proposed lists of components necessary for updating the computer network in Crewe from three contractors and am working with the eRate consultant to put out a Form 470 (request for service proposals) before the December deadline.
- Section J of the Sustainable Libraries Certification has now been completed. Next up are sections on Financial Sustainability and then Collections. As part of this process, I have drafted a disaster preparedness and response plan for your review.
- Inventory continues. The 900's of adult non-fiction is the last section remaining to be done in Blackstone. There are four areas of the collection left to inventory in Crewe.

In addition to the above, the usual tasks regarding deposits and invoices, staff schedules and payroll were completed, as were promotional activities such as creating social media posts, newsletters, calendars, and other printed materials.

Acting as the primary contact for the Imagination Library, I continue to confirm addresses of and approve new registrants. As of November 13, there are 275 participants and 178 children have "graduated". The breakdown of current recipients is as follows:

- Blackstone: 131
- Burkeville: 39
- Crewe: 105

Subject: Requested Capital Improvement Needs

During the last Board of Supervisors meeting, the School Board was asked for a list of capital improvement needs for the school division. The following list is being provided by the school board. Please note these are not prioritized by the division at this time.

Most Immediate needs are the following (no order):

- Full HVAC replacement at CPS
- Replace pavement at the Complex
- Security vestibules at all schools
- Replacement of Flat Roof at BPS
- Replacement of roof at NIS & NMS
- HVAC replacements at NIS & NMS
- Bathroom renovations at all schools
- Outcomes of the ADA Compliance Study
- Outcomes of the Air Quality Study

The following projects are part of phase 2 of the Dept on Energy grant if or when we get permission to move forward:

- Replacement of flat roof at NHS
- Replacement of remaining HVAC at NHS
- Replacement of windows at NIS
- Replacement of gym HVAC units at BPS & CPS

Thanks
 Marcia

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *qz*

SUBJECT: Planning and Economic Development Monthly Update – September 2025

DATE: November 13, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances, notably division and property complaints. Please note that these discussions may involve follow-up via email or phone at least four times or more after the initial meeting, and before applying for a special exception, subdivision, or rezoning.
2. NPSCS SHPO Discussion regarding new radio tower via Teams on October 2nd.
3. MAPC Webinar: Legal Update on Affordable Housing on October 21st.
4. Planning Commission recommended approval on the Airport Safety Overlay District (ASOD) on October 21st with a vote of 9-0. The BOS will hear the ASOD and AD text amendments at the November 20th meeting.
5. Virginia Planning Directors Quarterly Meeting via Teams on October 23rd.
6. APA Walk, Bike, or Roll: Gamified Campaigns for Active Transportation on October 27th via Zoom.
7. OpenGov Permitting Presentation via Zoom on October 30th.

Economic Development

1. Attended WPPDC East VATI2022 Management Team Zoom Meeting held on October 7th, 2025.
2. Updated the Loopnet/Costar site and removed the parcel purchased by the Town of Blackstone in Pickett Park.

3. CEDS Committee Meeting via Zoom on October 10th.
4. Attended the VHREDA LEDO meeting on October, 17th at SEED Innovation Hub in Farmville. Alex shared a link for LEDO members to create an account with Zoom Prospector, which accepts public and commercial/industrial real estate listings.

EMERGENCY SERVICES COORDINATOR'S REPORT

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr.

DATE: November 13, 2025

SUBJECT: November Report

The following activities and projects are provided in this summary of work by the Department of Emergency Services since my last report on October 9th before your monthly Board of Supervisors meeting on October 16, 2025. Many of these activities listed below were performed in collaboration with other staff members and external stakeholders.

The current emergency services related projects and activities that I have worked on and represented the county include, but are not limited to, the following:

- Participated in an annual safety audit meeting and tour of the Amelia-Nottoway Vo-Tech Center and Crewe Primary School on October 13th.
- Attended the monthly meeting of the Nottoway Emergency Squad Executive Board on October 14th at the EMS station in Crewe.
- Attended the first ever Wind Event Summit by VDEM on October 15th. There were excellent presenters at the event that covered the science of tornadoes and straight-line winds.
- Attended the regular BOS meeting on October 16th and presented monthly report.
- Participated in an annual safety audit meeting and tour of all buildings at the Nottoway Educational Complex on October 17th.
- Participated in the event safety planning of the Crewe Chicken Festival and assisted the event staff at the command post in the terminal building at the Crewe Municipal Airport on October 18th.
- Assisted Dr. Martin and SRO Sawyer with the facilitation of a school safety meeting at the NCPS Educational Complex on October 20th. Showed a video and slide show of the active shooter drill that took place in April 2025 and discussed the upcoming exercise in December.

- Created a slide show of information on the Crewe water line condition and sizes of lines needed for fire protection in the town. Presented this information to the Crewe Town Council on October 20th.
- The Emergency Operations Center was used for new dispatcher training classes on October 13-17 & 20-22.
- Attended an initial planning meeting on October 23rd at the Blackstone Airfield Operations Building for the July 2026 Fireworks Show.
- Attended a pre-construction meeting held by VDOT and paving contractors at Piedmont Geriatric Hospital on October 23rd to discuss traffic flow in and around PGH & VCBR.
- Participated in a patient elopement exercise at Piedmont Geriatric Hospital (PGH) on October 27th. The exercise had one patient who wandered out on the PGH campus, followed by a staff walking search, then we added a canine tracker from NCSO to the exercise to enhance the search. The simulated patient was found without incident and the exercise went very well.
- Attended an EMS update class for 2 hours of continuing education at Bon Secours Medical Center on October 27th.
- Met with Terry Abston of the VT Cooperative Extension on October 28th to create a task flow chart for training our volunteer community group on how to process telephone inquiries when staffing the public information hotline at the EOC during a disaster event.
- Attended several virtual meetings during the month with CTA and JVCKenwood representatives to discuss progress on our countywide public safety radio system.
- Attended the annual VDEM Region 1 Integrated Preparedness Planning Workshop (IPPW) at the Eastland Community Center in Dinwiddie County on October 29th.
- Attended the 4th Annual Battle of the Badges softball tournament at Coldiron Field in Crewe on November 1st. We also set up an information tent for the Department of Emergency Services at the event.
- Facilitated the monthly meeting of the Fire & EMS Working Group on November 4th. (agenda attached)
- Attended a meeting for live fire training policy as it relates to equipping burn buildings with thermal protection tiles and other structural features. This meeting was hosted at the Virginia Department of Fire Programs in Glen Allen and the meeting was held by the Virginia Fire Services Board on November 6th. Along with other localities present at the meeting, I spoke on our concerns with costs of this potential addition to the burn buildings if required by the state.
- Attended the solar public awareness event held at the Crewe Fire Station on November 6th.
- Attended and testified at an appeals hearing in Henrico County on November 6th for the proposed Magnolia Hospital on Rt. 360 and Otterdale Rd. Chesterfield and Amelia counties also testified on the importance of shorter transport times and quicker turn-around time for EMS crews at a medical facility.
- Served on a four-person interview panel in Amelia County on November 12th and 13th as they hire the next phase of fire & EMS personnel for their county department. I was invited to be on their panel as a neighboring county representative.

**NOTTOWAY COUNTY
FIRE & EMS WORKING GROUP
PLANNING MEETING
November 4, 2025
18:00 hrs.**

***MEETING LOCATION: Nottoway County Social Services
Conference Room
288 West Courthouse Rd. – Nottoway, VA 23955***

AGENDA

- Call to Order & Prayer
- ECC/EMD/CAD Update – Introduction of new ECC Director
- Supervisor Roark Briefing
- FY-2027 Budget Planning Preparation

In Re: Retirement

Dear Chairman Collins, Members of the Board, and Mr. Bowen:

After careful consideration, I write to officially inform you that I will retire as Circuit Court Clerk effective January 1, 2026.

In 1994, I applied for a position as Deputy Clerk in the Circuit Court Clerk's Office. At that time, I had no idea that my interest in that position would lead into such an amazing and rewarding career. The years have passed by quickly, and the experience will last a lifetime.

It has truly been an honor to be able to serve as Clerk for the past two decades. I wish to thank the Board, Administration, County offices, my staff, and the citizens of Nottoway for their guidance and continued support over the years. I will be forever grateful.

If I can be of any help to you, please do not hesitate to call upon me.

Sincerely,

Jane L. Brown, Clerk

NEW ANIMAL SHELTER VOLUNTEER PROGRAM RECOMMENDATIONS

1. Elements of a success animal shelter volunteer program
2. Volunteer application and approval process
3. Volunteer application
4. Volunteer agreement
5. Volunteer waiver of liability and release
6. County non-conviction of animal cruelty form
7. Volunteer Handbook
8. Volunteer coordinator job description
9. Volunteer coordinator application

ELEMENTS OF A SUCCESSFUL ANIMAL SHELTER VOLUNTEER PROGRAM

The purpose of a shelter volunteer program is to help the shelter accomplish more each day and achieve higher end goals by adding community support and resources to existing shelter operations and staff.

- A volunteer program that aligns with the animal shelter's mission
- Support of the volunteer program by shelter staff
- Volunteer duties and responsibilities that fit operational needs.
- A volunteer coordinator to recruit and manage volunteers
- A clear and easily implemented volunteer application and approval process which includes a comprehensive volunteer agreement and liability waiver.
- A required and ongoing training program for all volunteers
- A comprehensive volunteer handbook
- Clearly communicated policies, procedures, standards of conduct and responsibilities for volunteers
- Volunteer recognition

DRAFT 8/18/25

Nottoway County Animal Shelter and Adoption Center

VOLUNTEER APPLICATION & APPROVAL PROCESS

Volunteer Applications can be found:

- Nottoway County website
- Nottoway County Animal Shelter and Adoption Center
- Nottoway County Administration Office
- Nottoway County Virginia Animal Shelter Facebook page

Volunteer Applications (along with a valid driver's license) will be turned into:

Nottoway County Administration Office c/o HR Coordinator

- stucker@nottoway.org
- P.O. Box 92, Nottoway, VA 23955
- 344 West Courthouse Road, Crewe, VA 23930

Nottoway County HR Coordinator will then have the Sheriff do a background check (could take a couple days).

Next Steps for HR Coordinator:

- Coordinate with Senior ACO, County Administrator, and Applicant to schedule an interview
- Give the application to the Volunteer Coordinator with interview notes for scheduling of orientation.

Volunteer Coordinator will:

- Schedule paperwork review and signatures
(Volunteer Agreement, Waiver & Release, and "Non" Conviction of Animal Cruelty form)
- Orientation – volunteer will receive a Volunteer Handbook
- Training
- Set up work schedule (volunteer will receive a t-shirt & name badge)

NOTTOWAY COUNTY ANIMAL SHELTER AND ADOPTION CENTER

Volunteer Handbook 2025

Welcome!

Dear Animal Shelter Volunteer,

On behalf of the Nottoway County Animal Shelter staff, and the residents of our community, We would like to thank you and welcome you to our team! Volunteers are essential to helping achieve the mission of providing humane care to the animals entrusted to us.

Many tasks must be performed by many hands before an adoption or transfer to a reputable rescue can take place. Activities such as transporting animals to and from adoption sites, bathing, grooming, walking, socializing cats and dogs, fostering animals in your home, compiling adoption profiles, photographing pets for the website, and many other important jobs are essential to our success. We value your help greatly and look forward to working with you.

The following pages provide an overview of our policies and operations. We want you to have a safe, educational, enjoyable, and rewarding volunteer experience while at our shelter. The volunteer policies summarized in this manual have been adopted to ensure that your volunteer experience is mutually beneficial to all involved, including staff, animals, and other volunteers, and our community, and you.

Sincerely,

Nottoway County Animal Shelter Staff

Our Commitment to You

The staff of Nottoway County Animal Shelter value your contribution to our shelter. We want your experience to be positive and fulfilling. Our staff members strive to:

- Provide information, training, and help so that you may successfully complete your volunteer assignment.
- Outline goals and provide guidance and feedback.
- Treat you as a valued and respected member of our team.
- Be open-minded to your comments and suggestions and address any concerns to the best of our ability.

Our Mission

- Shelter stray and unwanted animals while providing food, water and care in a clean and safe environment
- Provide an adoption program that places animals in a caring and responsible home
- Return lost or missing animals to their owners
- Help control the pet population by encouraging spaying and neutering
- Educating the public on responsible pet ownership, humane standards and preventing animal cruelty
- Strive for a minimum 90% save rate.

Setting an Example, Making a Difference

When you are working as an volunteer for the Nottoway County Animal Shelter and Adoption Center, whether at the shelter or other locations, you represent Nottoway County and the shelter. Therefore, it is essential that you follow a few simple, but very important, rules.

- Treat everyone with respect and courtesy.
- Remember, the shelter staff is always in charge. The staff is responsible for the animals, the shelter, and you, the volunteer.
- Be kind to the animals. Under no circumstances should you harm or punish any animal. Positive reinforcement is always advised.
- Do not openly criticize the Shelter staff, other volunteers, or County Officials. If you have complaints and/or recommendations, we sincerely want to hear them. You may give us your ideas and suggestions in writing or verbally to the Senior Animal Control Officer or Volunteer Coordinator. Do not complain to the public.
- Please honor your schedule. Be on time or advise the Volunteer Coordinator or Senior Animal Control Officer as soon as you know you will not be able to meet your schedule.
- All volunteers are asked to work a minimum of 8 hours per month to remain an active volunteer.

Disclaimer

Purpose of Volunteer Policies

Nottoway County Animal Shelter policies and procedures are provided to offer guidance and direction to volunteers and staff engaged in the volunteer program. These policies are intended to clarify the responsibilities and roles of volunteers but do not constitute, either implicitly or explicitly, a binding contractual or personnel agreement. Volunteers are not employees of Nottoway County. Nottoway County Animal Shelter reserves the right to change any volunteer program or policies at any time.

Scope of Policies and Procedures

Unless specifically stated, the volunteer program policies and procedures outlined in this manual apply to all volunteers.

Volunteer Policies & Procedures

For the safety of our animals, as well as our volunteers, we have policies and procedures that all volunteers must follow. All policies and procedures will be explained during the volunteer training process. Some policies and procedures are explained in this section.

Age Requirement

- Age 18 and older may volunteer by themselves.
- Ages 16-17 may volunteer by themselves if their parent/legal guardian signs a permission form. The volunteer's parent/legal guardian must also attend the orientation with the youth volunteer.

Volunteer Orientation/Training

Our orientation and training program is approximately 30 minutes. Completion of orientation is required before reporting for any volunteer appointment. Additional training may be required depending on your specific volunteer activities. The majority of training will be hands-on learning at the shelter.

Tour

- Facility
- Off-limit areas
- Equipment, materials, and supply storage locations
- First aid cabinet/binders
- Material safety data sheets
- Emergency eye-wash stations

Volunteer Activities

- *Cat Socialization:* Petting, brushing, cuddling and playing with our cats/kittens to

improve their temperament and quality of life while in the shelter. Help prepare cats for adoption.

- *Dog Socialization/Dog Walking:* Walking, petting, brushing and playing with our dogs/puppies to improve their temperament and quality of life while in the shelter. Help prepare dogs for adoption.
- *Administration:* Assist with front desk admin tasks including collecting adoption applications.
- *Shelter Cleaning:* Help clean kennels, cat cages, clean dishes, laundry, mopping and sweeping. Unfold newspaper for cat cages.
- *Outreach:* Organize donations, fundraising, adoption events and social media. Helping to educate the public on responsible pet ownership and animal welfare.

Standards of Conduct and Customer Service

As a volunteer for the Nottoway County Animal Shelter and Adoption Center, what you say and do reflects on the whole organization. Please be mindful of what you say and do when wearing any volunteer apparel or otherwise identifying as a volunteer. Prior to sharing any information relating to the shelter with the public or with other volunteers, please ensure that the information you are sharing is correct, not confidential, and supports the mission of the shelter. As a volunteer, you are expected to uphold the same standards of conduct and customer service that we require of our staff.

Please adhere to the following guidelines:

- *Be Positive.* We strive to give every person who comes through our shelter a positive experience, regardless of their reason for being at the shelter.
- *Be Courteous and Helpful.* Being courteous and helpful is crucial in creating a positive experience for those who come to Nottoway County Animal Shelter. Please also be courteous and helpful to your fellow volunteers and staff.
- *Be Knowledgeable.* It is likely that while volunteering, you may be asked questions about Nottoway County Animal Shelter by members of the public. As a representative of our shelter, you need to be able to provide accurate responses to these questions OR know who to direct their questions to or to find the answer an respond.
- *Policies and Procedures.* Volunteers must remember the Nottoway County Animal Shelter and Adoption Center staff has final say in all situations regarding the shelter and the animals impounded therein. Foster animals are property of the Nottoway County Animal Shelter and Adoption Center. All policies are established shelter procedures and requests from the Nottoway County Animal Shelter and Adoption Center must be strictly followed, no exceptions.

- *Confidentiality.* Volunteers may have access to records, staff discussions, and other information that may be confidential. As a volunteer, you are NOT permitted to share such information with others. Doing so could result in your volunteer status being withdrawn. If you have any questions regarding the professional standards, please do not hesitate to contact the staff for clarification or to discuss the matter.
- *Professionalism.* Always maintain a professional and courteous demeanor with customers, staff, as well as with other volunteers.
- *Dress Code.* Proper dress should be conservative. T-shirts with profane, sexual or questionable prints/words are prohibited.
- *Visitors.* Volunteers may not bring friends or children to the shelter during their scheduled volunteer hours.
- *Grievances.* Grievances or concerns will be reported to the volunteer coordinator. Designated staff will be given opportunity to resolve issues.
- *Donations.* Volunteers are not to accept donations, financial or otherwise, to the shelter unless specifically directed to do so by shelter staff or members of the volunteer program board. If a member of the public approaches you at the shelter to donate funds or products, please thank them and bring them to the front desk or retrieve an appropriate staff member to accept this donation. Shelter volunteers should not accept cash on behalf of the County for any reason.
- *Cell Phones.* Use of cell phones or other handheld communications devices is discouraged while volunteering at Nottoway County Animal Shelter. If you are volunteering as a dog walker, you are encouraged to carry your phone with you in case of emergency.
- *Personal Belongings.* Leave all valuables at home or in your personal vehicle. The shelter, and its staff, are not responsible for any personal items left in the shelter or in the parking lots.
- *Personal Pets.* Nottoway does not allow personal pets on the premises unless they have a meet and greet appointment for a potential adoption or foster home.
- Do not leave your personal pet in your car while you volunteer. This is for the safety of your pets, our shelter animals, other volunteers, staff, and the public.

- *Media.* Volunteers are **not** permitted to speak to the media on behalf of the County. Refer media contacts to the County. For inquiries about the volunteer program, direct the public to our website.
- *Smoking/Vaping.* Smoking is not allowed in any portion of the building, within 30 feet of any building entrance on shelter property, or in meet and greet areas.
- *Zoonotic Disease.* Zoonotic diseases are diseases that can be transferred from animals to humans. Potential zoonotic agents include bacteria, viruses, fungi, internal parasites, and external parasites. To protect yourself from potentially catching a zoonotic disease:
 - ! *Sanitize and wash your hands thoroughly after handling an animal*
 - ! *Change your clothing and shoes after visiting the shelter*
 - ! *Avoid touching your face to an animal's face, allowing an animal to lick you.*

Dress Code

All volunteers must be clearly identified as a volunteer while performing a service at the shelter or while participating in any special project or event representing Nottoway County Animal Shelter.

Upon arriving for your first day after orientation, each volunteer will be given a name tag.

Additional dress code requirements:

- Long pants
- Sturdy close-toed shoes with non-slip soles (no crocs)
- Appropriate clothing that can get dirty and furry if handling animals (shirts with graphics are ok but content must **NOT** include references to drugs, alcohol, sexual conduct, racial discrimination, or related topics)
- No loose or dangling jewelry
- No heavy perfume, cologne, or strongly scented lotion
- Volunteers will be provided a Nottoway County Animal Shelter T-Shirt

Arrival

When first reporting in and after you sign-in, please check with a staff member to let them know that you are there and ask them if there is anything specific you may need to know for that day. Volunteers coming to walk dogs should check the dog walking board to read updates and restrictions regarding specific dogs. The system for this will be determined.

Personal Snacks and Beverages

Consumption of food and drinks is not permitted in any of the animal housing areas. Please keep all food and drinks confined to the Breakroom and outside sitting area.

****Do NOT feed human food to Shelter Animals.****

Off-Limits Areas

Volunteers and the general public are not permitted in the "Staff Only Areas".

Signage on Kennels

On the front of each kennel is a card with details regarding the dog, their name, special needs, and kennel number. If volunteer is allowed to get animal in and out of kennel it is IMPERATIVE that the animal is put back in the correct kennel/cage.

Feeding Animals

The animals in our shelter are fed their meals on a set daily schedule, they are fed certain types and amounts of food in accordance with their specific needs. **Volunteers are not permitted to feed animals under any circumstances.**

Volunteers are permitted to feed shelter animals small amounts of approved treats during their enrichment period, unless directed otherwise.

Bites and Other Injuries

We require volunteers to report all bites, scratches, and other injuries that occur while they are volunteering. For any animal bites which break the skin, a behavior report and incident report must be completed. For all other injuries, an incident report must be complete. Staff will assist volunteers in completing forms, if needed.

Social Media Policy

In today's world, having an online presence is vital for any organization to stay in contact with the community. Nottoway County Animal Shelter works hard to keep its online presence clean, consistent, positive, and productive. The shelter must always uphold the trust of our community, donors, and customers, so it is critical that we tell our story responsibly.

Nottoway expects employees and volunteers to respect the mission, vision, and values of the organization by reading and following these online guidelines.

Disrespectful or threatening comments towards other employees, volunteers, donors, customers or others will not be tolerated and can result in termination. As will comments that undermine our programs or are detrimental to the shelter's image. This is inclusive of all County branded social media sites as well as all personal social media sites (such as your own Facebook, etc.)

Use of the Shelter name, logo, likeness, and any accompanying assets is prohibited without the express permission of the shelter staff. This includes creating related private group pages, profiles, and accounts without the approval from the shelter staff.

If you are a volunteer giving advice or speaking in "we" or "our" language social media pages is strictly prohibited. This is not because your opinions are not valued, but rather because the County is liable for any advice given on its pages.

Do not promote animals that are unavailable, such as those on behavior, medical, cruelty, or stray hold. On occasion, Nottoway might be involved in cruelty investigations that are covered by the media. It is vital that staff and volunteers refrain from commenting on such events (both on shelter sites and personal pages) as to keep our messaging consistent and not harm any potential legal cases that might arise from the event.

Please feel free to share the links, updates, and information from Facebook pages on your personal pages or accounts.

Any media-related questions or inquiries should be directed to the Senior Animal Control Officer.

Resignation and Termination

The Nottoway County Animal Shelter and Adoption Center has established certain rules of conduct so that we can all work together in an efficient and effective manner. We believe that volunteers are accountable for their actions, and failure on the part of the volunteers to adhere to these codes of conduct may result in disciplinary action.

Volunteers who commit minor violations of the Volunteer program and procedures will be verbally counseled in an effort to correct the issue immediately, through education. Serious violations may result in immediate dismissal without counseling or notice. All volunteers are at-will, meaning that their volunteer status can be severed at any time, for any non-discriminatory reason, without cause by either the volunteer or Nottoway County Animal Shelter and Adoption Center.

Some specific behaviors are so egregious that they will be cause for immediate dismissal. These include, but are not limited:

- Unauthorized removal of an animal from shelter property.
- Willful damage to Shelter/County property
- Endangering humans or animals
- Use, sale, possession, or distribution of a controlled substance or being under the influence of a controlled substance including alcohol while at the shelter or shelter event.
- Falsification of any document.
- Verbally harassing other volunteers, staff, or members of the public.
- Intentionally misrepresenting the shelter, the County, or its policies.
- Openly challenging the authority of any staff member.
- Violating the Nottoway County Animal Shelter social media policy.
- Unauthorized disclosure of internal communications, documents, or client's personal information.

Programs & Services

Sheltering of Homeless Animals

Nottoway County Animal Shelter and Adoption Center serves our community as a shelter to which the public may bring homeless, abandoned, or unwanted animals. We also house stray animals and animals that are brought in by Animal Control for pending court cases. Our trained and dedicated staff provides a high standard of humane care for each animal in our facility. Volunteers are essential to helping the shelter continue to meet this high standard of care for each shelter animal.

Adoptions

Nottoway County Animal Shelter and Adoption Center adopts out a variety of animals but the most common are dogs, cats, puppies, and kittens. All dogs and cats that are adopted from us are**Spayed/neutered and shot requirements and microchipping to be determined.**

For dog adoptions, all household members must meet the dog and a dog meet and greet must occur between all resident dogs and the potential adoptive dog. Any changes or exceptions to this protocol must be approved by the Senior Animal Control Officer.

Volunteer Adoptions

If a current Volunteer wishes to adopt an animal from our shelter, it is imperative that all our regular requirements for adoption are followed. Animals will not be placed on hold for volunteer adopters.

Foster Care Program – to be determined

Thank you for sharing your time to help homeless animals in our community!

Nottoway County Animal Shelter and Adoption Center

VOLUNTEER COORDINATOR JOB DESCRIPTION

Nottoway County is seeking a dedicated and compassionate Animal Shelter and Adoption Center Volunteer Coordinator to assist with operations at our New Animal Shelter and Adoption Center in Burkeville, VA. **This is a part time volunteer position.**

Our ideal candidate is someone who is passionate about animal welfare, has excellent organizational and communication skills, and can work effectively with a diverse group of volunteers.

Responsibilities

- Recruit, train, and manage volunteers, ensuring they understand their roles and responsibilities
- Will report to Senior Animal Control Officer
- Organize volunteer schedules and tasks
- Handle any issues or concerns that volunteers may have
- Maintain a volunteer handbook and training materials
- Maintain records of volunteers' schedules, activities, and skill sets
- Communicate effectively with volunteers, staff, and the public
- Organize volunteer recognition programs and events
- Work closely with shelter staff to determine volunteer needs
- Help in arranging and coordinating fundraising events

Qualifications

- Leadership and management skills to coordinate and direct volunteers in their respective roles and duties
- Strong communication skills to effectively relay information to volunteers, other staff members, and the public
- Interpersonal skills to maintain good relationships with volunteers, shelter staff, and the community
- Problem-solving skills to address issues or conflicts that may arise among volunteers or in the course of their duties
- Organizational skills to manage volunteer schedules, coordinate events, and handle administrative tasks
- Ability to work under stress in a fast-paced environment and handle emergencies or crises effectively
- Compassion and empathy for both animals and volunteers, understanding the emotional challenges that can be associated with shelter work
- Computer skills
- High School Diploma/GED

If interested, please email stucker@nottoway.org for an application or pick one up at 344 West Courthouse Rd, Crewe, VA 23930

Nottoway County Animal Shelter and Adoption Center

Final Draft 8/18/25

Volunteer Agreement

As a Nottoway County Animal Shelter and Adoption Center (NCASAC) Volunteer you will be required to abide by the terms of a volunteer agreement. Your signature below indicates that you have read, understand, and agree to the policies and procedures, including the following:

- I will abide by all NCASAC policies and procedures, and I understand that failure to do so may result in my immediate dismissal as a volunteer.
- I agree to accept the guidance and decisions of the Senior Animal Control Officer/Volunteer Coordinator.
- I understand that I must maintain the dignity and integrity of the NCASAC with the public and honor confidential information.
- If I am unable to fulfill my regular scheduled hours, I will provide notice to the Senior Animal Control Officer/Coordinator, or other staff member.
- I agree to understand the functions of the paid staff, maintain a smooth working relationship with them and to stay within the bounds of volunteer responsibilities.
- I agree to indemnify and hold harmless the NCASAC, its agents, servants, and employees from any and all liability whatsoever arising out of, or related to, my duties under this agreement; or for injuries which may be incurred or sustained by me in any way connected with my services for the NCASAC including, but not limited to, animal bites, scratches, accidents, or injuries.
- I acknowledge that my services are provided strictly on a volunteer basis, without pay or compensation of any kind and without liability of any nature on behalf of the NCASAC, all services to be performed by me at my own risk.
- I understand that I may give my opinion regarding any issue pertaining to shelter policy, procedures, and the animals and if a sensitive situation arises, I can make an appointment for a private meeting with the Senior Animal Control Officer/Volunteer Coordinator

- I certify that I have read the Volunteer Handbook and agree to abide by the policies set forth therein. I understand that this document may be updated at any time, and I will be given copies of the updated pages.
- I certify that I have undergone a formal orientation and volunteer training session at NCASAC on the date of ____/____/____.

COUNTY OF NOTTOWAY BOARD OF SUPERVISORS

CODE OF ETHICS AND CONDUCT

2025 BOARD OF SUPERVISORS: JOHN ROARK, GEORGE "BO" G. TOTH, III, RICHARD H. INGRAM, Jr., DAPHNE V. NORTON, WILLIAM "BILL" COLLINS, III

This Code and its associated Ethics Pledge are aspirational in nature. As such, they are subordinate to federal, state and local law and do not confer and/or mandate any additional duties beyond those required under existing law, nor do they confer any right or cause of action that does not otherwise apply under existing law.

Recognizing that persons holding public office have been given a public trust and that the stewardship of such office demands that performance be at the highest level of ethical and moral conduct, the County of Nottoway hereby adopts this Code of Ethics and Conduct. To honor the public trust and to serve with integrity, civility, and impartiality, the Members of the Board of Supervisors, and those officials who are appointed by the Board, hereby pledge to do the following:

1. Provide the highest quality of service to the public, acting in a way that is conscientious, diligent, and transparent.
2. Perform the functions of the office with integrity, avoiding any improper use or influence of the office.
3. Not act on a matter in which a conflict of interest exists and be diligent in avoiding even the appearance of a conflict of interest by disclosing the same and acting in accordance with the principles underlying this Code.
4. Behave in a manner that inspires public confidence.
5. Treat the public, county employees, and fellow public officials with professionalism, courtesy, and respect.
6. Serve the public interest by upholding the letter and the spirit of County, Commonwealth, and Federal statutes, regulations, and policies.

The members of the Nottoway Board of Supervisors will work together to implement and monitor this Code of Ethics and Conduct and to make changes as needed.

JOHN ROARK
RICHARD H. INGRAM, JR.

WILLIAM "BILL" COLLINS, III

COUNTY OF NOTTOWAY BOARD OF SUPERVISORS ETHICS PLEDGE

1. I understand that as a County representative, I am entrusted with protecting and preserving the integrity of the governance of Nottoway County.
 2. I will honor this trust by:
 - a. Upholding the Nottoway County Code of Ethics and Conduct.
 - b. Putting the public interest first.
 - c. Conducting myself in a manner that at all times brings credit to the County.
 - d. Serving with integrity, impartiality and transparency.
 - e. Fostering a culture of cordiality and professionalism.
 - f. Taking no action that will result in or create the appearance of personal gain or conflict of interest.
 - g. Making no private promises of any kind that will bind the duties of any office, since a public servant has no word that can be binding on public duty.
 3. I will communicate openly and civilly, listening to all views, seeking common ground as a starting point, and being respectful even in areas of disagreement.
-

BUILDING PERMIT AGREEMENT

This Agreement is made on this _____ day of _____, 2025 between VISION GOVERNMENT SOLUTIONS, INC. ("VISION") and NOTTAWAY COUNTY, VIRGINIA ("COUNTY").

1. Scope of Services and Compensation:

- a. **Data Collection:** VISION GOVERNMENT SOLUTIONS, INC. shall measure and list a limited quantity of residential and commercial parcels in 2025/2026 in Nottaway County, VA. As compensation for VISION's performance of its obligations under this agreement, the COUNTY agrees to pay VISION a fee of **Seven Hundred Fifty Dollars (\$750) per diem**. VISION shall make one on-site attempt per parcel.
- b. **Data Entry:** Should the county need assistance with data entry associated with this project, VISION can provide at a cost of **Four Hundred and Fifty (\$450) per diem**.

2. **Schedule:** The VISION Project Manager and COUNTY Assessor shall establish commencement and completion dates that are acceptable to both parties. The COUNTY will provide the property record cards and the map-lot location of each parcel prior to commencement.

3. **Payment:** The COUNTY shall pay VISION monthly, based on a monthly progress report, to be provided by VISION. The COUNTY, upon approval of each report, shall pay VISION within thirty (30) days.

Re: Decision by the Town of Burkeville, Virginia, ("Burkeville") to consider a Boundary Line Adjustment between the Town of Burkeville and the County of Nottoway, Virginia ("County") and to consider a Boundary Line Adjustment between the Town, and the County.

Dear Ladies and Gentlemen:

Burkeville and Nottoway County are considering the adoption of an agreement to adjust the boundary lines among them. Should this agreement become effective, your property may be incorporated into Burkeville's town limits.

In the drafted agreement, the boundary line of Burkeville is to be adjusted to include land bounded by Burkes Tavern Rd west down to US 360, then Northeast to the former Norfolk Southern Railroad tracks, then back east to Namozine St, then north along the eastern half of Namozine St to Nunnally St, then east to the current town limit, follow the current western edge of the town limit to the 360/460 bypass, it will then turn Southwest following the Northern edge of Route 460 to the west for approximately 3,000 feet, before turning North East for 500 feet, then turning East and heading to a point 500 feet from the current Northwest Corner of the town limits, then continuing to the East to include properties within 500 feet of the current Northern Town of Burkeville town limits to Dutchtown Road, then crossing and turning north along Dutchtown Road for 250 feet, then turning to the East/North East along the Northern Edge of Luck Stone Property, then turning in a Northly direction to continue following Luck Stone Property Line, then turning East to continue following Luck Stone Property line for approximately 1,750 feet, then turning in a Northern Direction to follow Luck Stone Property for approximately 300 feet, then turning East for 500 feet, then following eastern edge of property line back to Route 360, then coming back West along property line 250 feet north of the Buckingham Branch railroad line, then curving South 250 feet prior to the 360/723 intersection on the Northern Side of Route 360, then following Route 723 along the Western Edge of the roadway, then turning Westward approximately 250 feet south of the Norfolk-

Southern Railroad to follow the Virginia Power Property line back to the western edge of the Virginia Power Substation, then turning North to the southern edge of the Norfolk-Southern Railroad, before finally turning to the west to follow the Norfolk-Southern Railroad to southern edge and then west until returning to Burkeville's eastern most boundary.

A copy of the agreements may be obtained during business hours in the Office of the Clerk of the Town of Burkeville, Virginia. The Town of Burkeville has scheduled a public hearing on these matters set for November 12, 2025 at 7:00 p.m., at Burkeville's Town Office, located at 204 W Nunnally St., Burkeville, VA; and additionally, maps of the draft adjustments are included with this letter.

Sincerely,

A handwritten signature in black ink, appearing to read 'G. Smith', written over a horizontal line.

Gerald E. Smith
Mayor

Town of Burkeville, Virginia

Qualifications

Per § 42.1-35

- Not less than five members or trustees...appointed by the governing body, chosen from the citizens at large with reference to their fitness for such office.
- One board member or trustee may be a member or an employee of the local governing body.
- Originally staggered, thereafter appointed for terms of four years.
- Vacancies shall be filled for unexpired terms as soon as possible in the manner in which members of the board are regularly chosen.
- A member shall not receive a salary or other compensation for services as a member but necessary expenses actually incurred shall be paid from the library fund.
- The members shall adopt such bylaws, rules and regulations for their own guidance and for the government of the free public library system as may be expedient.
- The local governing body may alter the composition of its library board to create staggered terms of service in which approximately the same number of terms expire annually. To achieve this goal, the local governing body shall appoint in any year in which multiple terms expire members for terms of one, two, three, and four years as appropriate. Thereafter, all members shall be appointed for terms of four years.

Per the Library Personnel Policy

- One member from each district plus one at-large representing the Literacy Program.

Re: Budget Adjustment – Animal Control Grant

Attention Nottoway County Board of Supervisors,

I have enclosed a budget adjustment for money received for a grant for the Animal Control Department. This money is spent on animal vetting care. There is no local match.

If you have any questions or concerns, please let me know.

Sincerely,

A handwritten signature in blue ink, appearing to read "Logan Presley", is written over the printed name.

Logan Presley

Commonwealth Regional Council

October 2025 Items of Interest

L-1

NADO Conference

CRC staff attended the National Association of Development Organizations (NADO) Annual Training Conference, joining regional leaders from across the country to exchange ideas on economic development, planning, broadband, and resilience. Sessions highlighted innovative rural strategies, federal funding updates, and the role of regional councils in fostering community investment. Participation at NADO helps CRC stay ahead of national best practices while showcasing our region's ongoing work in housing, infrastructure, and broadband expansion. Insights gained will directly inform upcoming CRC initiatives and regional planning efforts.

Blackstone Workforce Housing

CRC continues progress on the Affordable Workforce Housing Development Program, supporting construction in partnership with Virginia Housing. In Blackstone, the contractor has completed construction on all three homes, and have received the Certificates of Occupancy. CRC coordinated a compliance review and project reporting as part of the requirements of this project. These new homes represent another milestone in expanding safe, attainable housing options that strengthen the local workforce and support long-term community development across Southside Virginia.

Regional Housing Study Launch

CRC has officially launched a Regional Housing Study funded through Virginia Housing. The study will evaluate housing needs across the seven-county region, identify current gaps in affordable and workforce housing, and assess the impacts of prior developments. CRC has selected Summit Design and Engineering Services as the consultant for the project. Once complete, the study will guide localities in planning future housing projects and policy initiatives. This effort marks an important step toward developing coordinated, data-driven housing strategies that strengthen communities and support sustainable regional growth.

Farmville Mill Room Makerspace

CRC continues supporting the Mill Room Makerspace Project in Farmville, a creative-industry hub being developed through the Tobacco Region Revitalization Commission. The project will transform the historic Mill Room Building into a "Makerspace" featuring workshops, offices for artisans, and a public showroom. CRC and project partners have completed site planning, design, and agreements, with construction expected to advance when the next TRRC funding cycle opens in January 2026. Once complete, the Makerspace will provide local entrepreneurs and artists with new opportunities to collaborate, create, and grow their businesses.

BMP Task Force

As part of the Watershed Implementation Plan (WIP Phase III), CRC has launched a new Best Management Practices (BMP) Task Force to coordinate water-quality improvement efforts across jurisdictions. The task force brings together Soil & Water Conservation Districts, local governments, and regional partners to identify priority watershed projects and share technical resources. The group held its inaugural meeting on October 3, following the regional Grant Day Workshop. This initiative reflects CRC's continued leadership in advancing environmental stewardship through collaboration and evidence-based planning.

Upcoming Funding Opportunities:

Virginia Humanities Regular Grants – FY26 Cycle

Deadline: April 30, 2026 **\$ Up to \$15,000**
Funds projects exploring Virginia's history, culture, and communities through public programs or exhibits.
Ideal for regional tourism, preservation, and cultural engagement.

Virginia Housing Community Impact – Stabilization & Deconstruction Grants

Deadline: April 30, 2026 **\$ Varies by project**
Supports demolition, deconstruction, or site prep for unsafe or blighted residential structures.
Great for local revitalization and housing redevelopment efforts.

Assistance to Firefighters Grant (AFG)

Expected opening: Late 2025 / Early 2026
Funds PPE, equipment, training, and vehicles for fire departments.
VFDs should prepare early by updating SAM.gov registration and financial documentation.

Grants Awarded

- **AFG**
 - Prince Edward VFD - Mobile Breathing air trailer - \$135,069.73
- **EDA**
 - CRC - Regional Planning Partnership - \$210,000
- **Tobacco Commission**
 - Prince Edward - Trailblazing Signage - \$74,800
 - Cumberland CH - Small Area Plan - \$26,125
- **Centra**
 - Charlotte County - Meals on Wheels - \$15,349

The CRC provides free grant writing services for member localities and local 501(c)(3) non-profits.

RE: 16VAC15-70, Local Government Union Requirements and Employee Protections

Dear Virginia local government employers, employees, labor organizations, and other stakeholders,

Effective July 30, 2025, 16VAC15-70, Local Government Union Requirements and Employee Protections, has been adopted as a final regulation. In 2020, a legislative change granted counties, cities, or towns the ability to recognize labor organizations. The Department of Labor and Industry has promulgated this regulation to clarify that Virginia's statutes that currently apply to labor union elections, solicitation of union membership, and collection of union dues apply to local government public employers, employees, and labor organizations. The regulation can be reviewed on the Commonwealth's Legislative Information System.

The Department is currently in the process of developing a chapter of the Division of Labor and Employment Law Field Operations Manual (FOM) concerning the new regulation which will cover the agency's interpretation of the regulation and detail how the Department will receive and investigate complaints of alleged violations. Upon finalization, the document will be published in the Virginia Register of Regulations and subject to a 30-day public comment period. In the interim, please direct any questions about the regulation to the Division of Labor and Employment Law at (804) 786-2706 or laborlaw@doli.virginia.gov.

I hope this regulation assists you in understanding the rights and requirements under Virginia's labor laws. You are encouraged to assess any policies or procedures currently in place to ensure they comply with the regulation. It is the Department's mission to make Virginia a better place in which to live, work, and conduct business.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles Stiff".

Charles Stiff, CSP
Deputy Commissioner
Virginia Department of Labor and Industry
6606 West Broad Street, Suite 500
Richmond, Virginia 23230

Subject: Public Notice for VPDES Permit VA0091766 Reissuance
Attachments: Public Notice - Fort Pickett.pdf

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Mr. Bowen,

Section 62.1-44.15:01 of the Code of Virginia requires DEQ to notify localities particularly affected when a permit action is pending. This email transmits a copy of the public notice for a proposed permit action for your review. Public notice of this proposed action is also being published in a local newspaper. That publication will establish a 30-day public comment period for this proposal. If you wish to comment on this proposed action, please respond to:

Sandra Poulos
Virginia DEQ
Piedmont Regional Office
4949-A Cox Road
Glen Allen, VA 23060

If response is received within the 30-day public notice period, it will be assumed that you have no objections to the proposed action. If you have any questions, please contact me at (804) 754-6846 or sandra.poulos@deq.virginia.gov.

Sandra Poulos
Water Permit Writer, Piedmont Regional Office
[Virginia Department of Environmental Quality](http://www.deq.virginia.gov)
4949-A Cox Rd, Glen Allen, VA 23060

Public Notice – Environmental Permit

PURPOSE OF NOTICE: To seek public comment on a draft permit from the Department of Environmental Quality that will allow the release of wastewater into a water body in Nottoway County, Virginia.

PUBLIC COMMENT PERIOD: October 15, 2025 to November 14, 2025

PERMIT NAME: Virginia Pollutant Discharge Elimination System Permit – Wastewater issued by DEQ pursuant to applicable water laws and regulations.

APPLICANT NAME, ADDRESS AND PERMIT NUMBER: US Department of Army VA Department of Military Affairs, Bldg 561 Fort Pickett, Blackstone, VA 23824; VA0091766

FACILITY NAME AND LOCATION: Maneuver Training Center – Fort Pickett; Bldg 561, Blackstone, VA 23824

PROJECT DESCRIPTION: US Department of Army has applied for reissuance of a permit for the Maneuver Training Center – Fort Pickett. The applicant proposes to release reverse osmosis reject water and potable water at a rate of 78,000 gallons per day into a water body. The facility proposes to release the reverse osmosis reject water and potable water to an unnamed tributary of Tommeheton Creek in Nottoway County in the Chowan and Dismal Swamp watershed. A watershed is the land area drained by a river and its incoming streams. The permit will limit the following pollutants to amounts that protect water quality: physical and chemical properties, solids, metals, and chlorine.

HOW TO COMMENT AND/OR REQUEST A PUBLIC HEARING: DEQ accepts comments and requests for public hearing on the draft permit by hand-delivery, e-mail, or postal mail. All comments and requests must be in writing and be received by DEQ during the comment period. DEQ must receive hand-delivery and postal mail by close of business and email comments by 11:59 p.m. on the last day of the comment period. Submittals must include the names, mailing addresses or email addresses of the commenter/requester and of all persons represented by the commenter/requester. A request for public hearing must also include: 1) The reason why a public hearing is requested. 2) A brief, informal statement regarding the nature and extent of the interest of the requester or of those represented by the requester, including how and to what extent such interest would be directly and adversely affected by the permit. 3) Specific references, where possible, to terms and conditions of the permit with suggested revisions. A public hearing may be held, including another comment period, if public response is significant, based on individual requests for a public hearing, and there are substantial, disputed issues relevant to the permit.

CONTACT FOR PUBLIC COMMENTS, DOCUMENT REQUESTS AND ADDITIONAL INFORMATION: Sandra Poulos; Piedmont Regional Office, 4949-A Cox Road, Glen Allen, VA 23060; Phone: (804)-754 6846; E-mail: sandra.poulos@deq.virginia.gov. The public may review the draft permit and application at the DEQ office named above by appointment or may request copies of the documents from the contact person listed above.

Preston R. Willson's Retirement & 85th Anniversary Celebration

December 4, 2025

Invitation to Celebrate Holiday Lake 4-H Center's 85th Anniversary & Preston's Retirement

We are thrilled to announce a momentous occasion for Holiday Lake 4-H Educational Center. This year marks our 85th anniversary, and we would be delighted to have you join us in celebrating this significant milestone.

Event Details

Date: December 4, 2025

Time: 11:30 AM

Venue: Holiday Lake 4-H Educational Center Dining Hall

Celebration & Lunch

The event will be a wonderful opportunity to reflect on our journey, celebrate our achievements, and express our gratitude to everyone who has been a part of our story.

Surprise (shhh)

Preston has decided to retire this year after 30 years! Can you believe it? We want to surprise him with a celebration and show him what an impact he has made on us and the 4-H Center.

RSVP

Please let us know if you will be able to attend by November 26th.

RSVP by:

[Clicking Here](#) or

emailing info@holidaylake4h.com or

calling 434-248-5444

We want to thank all of our campers, volunteers, staff, 4-H Agents, participants, and community for all of the support over the last 85 years! We look forward to celebrating with you and making this occasion truly memorable.

Warm regards,

Holiday Lake 4-H Center Staff

Improving the quality of life through educating youth and adults in a natural setting since 1940.

Dear Mr. Bowen and Members of the Board:

It is with great concern that I write this letter regarding the unsustainable tax burden you have placed upon your citizens. It is also very disturbing that you continuously blame the previous administration for your actions. Has it ever occurred to you that Ronald Roark led exactly how the majority of the people wanted and how our incomes allowed? We had nothing fancy and not a lot of updates or amenities, but we were safe, satisfied and able to provide for our families. The previous administration kept spending in check and salaries within reason. We now have out of control spending and sky-rocketing salaries all placed on the backs of mostly meager households. What are you going to do and who will you blame when the people are living on the streets but our dogs are living in multi-million dollar comfort and our Judge is sitting in luxury?

Throwing money around and giving more to everyone that asks or demands does not make any situation better. Our schools are failing, our streets are riddled with crime and drugs, our neighborhoods are burdened with roaming dogs and the criminals are slapped on the wrists only to return to crime and fill our court dockets month after month. Individuals have made it onto Boards, Councils and positions that have no idea how to run their own lives let alone government. You indicate that you have no other choice and there are no cuts to be made but you must, you must do that which is hard to save our county. You have to stand up, you have to have a back bone and you have to say "no" to some demands. In this small, rural county there is no justification for so many county positions to pay six figures or close thereto—we just can't handle it!!

What good does a new radio system do if law enforcement doesn't get the criminals off the street? There are many known "crack manors" and meth sheds throughout the county and nothing is done about it. What good is a state-of-the art Courtroom for a couple out-of-county Judges when your constituents are broke and homeless? What good is a paid rescue squad if none are available for a heart attack victim because the same residents are allowed to abuse the services for non-emergencies. What happens when our dedicated and skillful fire department volunteers dwindle because they are so discouraged due to lack of support and ceased donations because of the forced fire levy? The fire departments didn't ask for additional revenue so why did you try to fix something that wasn't broken? The funds could have continued to come from the general fund and individuals would have **chosen** to continue generous donations. There is no animal "control" anymore, there is just a planned plush adoption center. There used to be one animal control officer and if there was a nuisance dog pooping in your yard, all you had to do was call and it was picked up. Now we have two, well-paid officers who spend their time trying to get the animals "placed in forever homes" but not "controlled." Our Commonwealth's Attorney has more employees and higher salaries than ever but less convictions. Our Clerk's Office has so many employees now they are practically sitting on top of each other. County employees have so much idle time they are able to bring their pets to work and take them out for breaks.

You may have to cut positions, you may have to reduce salaries, you may have to say No, you may have to challenge the Comp Board. (It was successfully done before) Even if unsuccessful, there is no reason to contribute any county funds above that which is required. The county offices provide less services than ever before but are highly overpaid. There is no

justification for awarding extra pay for continuing education—it should be their desire to be the best they can be and the most knowledgeable in their position, not just for additional income on the backs of hard-working citizens who don't have the luxury of earning more because they attend a few classes. What good is continuing education if assessment mistakes are made every year? Stop blaming the software system for every mistake made. I cannot believe Mr. Toth was the only Board Member to be riled by the omission of the new levy on single-wide mobile homes. Do not sit by and let known mistakes continue—correct them!! Why can't she now assess the tax manually? It is WRONG for everyone else to have to pay but not single-wide owners just because the software couldn't accommodate it. FIX IT and care enough about doing a good job to at least appear at the meeting and explain your mistake and offer solutions to correct it, not just say "let it go" this year. No, it is not reasonable to spend \$24,000 to correct a small collection amount but it should be expected for her to offer a solution to correct it. You may have to look into abolishing the Commissioner of the Revenue and Treasurer's office to save money and not have to pay rent for their leased building. If unqualified people are elected into these positions, then do away with the positions. It is not reasonable for the citizens to pay outrageous salaries to these offices when they outsource most of the work, close the office to the public for every little problem, are out on vacation all the time and take extended holidays.

There is much waste that you can trim from the budget instead of raising our taxes. You are ensuring that no next generation will choose to remain in the County. Once there is no one left to pay for anything, what will you do? There are several six figure salaries that didn't even exist a few years ago and are completely unnecessary. Ted Costen brought in out-of-county friends to fill these unnecessary positions—didn't even give the jobs to county residents. Why do we need an Emergency Services Coordinator? We didn't for over a hundred years. What is Zody's position? Why is the woman at Social Services paid so much—have you ever been able to reach anyone in that office on the first phone call? Why pretend that you are saving money by leaving positions vacant? We didn't have a Finance Director for years because it wasn't necessary so there is no big savings there. Ronald Roak, Ms. Payne, Tina and Katy Tomer did it all for years. Now how many are in that office? If you are going to have a Finance Director, then do away with the Treasurer and Commissioner of Revenue. Just because the Building Inspector's position is vacant, doesn't mean you are saving money. We still have to pay those from other counties who are filling in. The position at LRA isn't vacant—didn't you rehire John Hill? How many people actually use one of the three libraries we have in the County? Isn't the Library budget over \$400,000 annually? A library or other recreation is nice to have but it is not necessary when we are broke! How much did the County have to pay for installing fiber optics cable here and there? Has anyone actually connected to it? Didn't Ted Costen put new windows, toilets, sinks, etc. in the buildings that are now sitting vacant? TRIM THE FAT!! so that we can all continue to work and live in this County, maybe not in luxury but in adequate homes and facilities.

B.O.S. No signature, therefore,
No response possible!

Virginia's Budget Outlook

Virginia Association
of Counties

Fiscal Analytics, Ltd.
November 10, 2025

The Budget Framework

The current state of Virginia's
finances

The economic outlook

The revenue outlook

Mandatory/high priority
spending needs

Policy decisions concerning
discretionary spending and
taxes

State Finances Are Sound

- Approximately **\$2 bil. cash cushion** carried into FY 2026.
 - \$900 million in unappropriated balances.
 - \$572 mil. GF revenue surplus in FY 2025 which also increases the revenue base going forward.
 - \$480 mil. in unexpended appropriations for FY 2025
- **\$4.5 billion in mandatory and voluntary GF reserves** in FY 2026 (14% of the GF)
- **Improving Virginia Retirement System finances** – teacher funded status currently 87%, with the VRS *proposed* rate going down from 14.21% to 12.20%.
 - If adopted, this would save hundreds of \$millions in contributions needed by state and local government.
- **Significant unused debt capacity** (at least \$1.31 bil. per year new debt capacity available - with interest payments still less than 5% of GF).
- **Existing structural budget balance** between expected revenues and current ongoing appropriations.
- **Still positive wage and salary growth**, despite turbulent national policies particularly affecting Virginia.
 - Better idea of the effect of federal employment cutbacks later this fall.

What are the Risks to Virginia's Finances?

Economic slowdown. Federal employment reductions could increase unemployment and reduce tax revenues. While there are an estimated 300,000 federal civilian employees living in VA (7% of 4.3 mil. total VA employment), a large share are in defense-related agencies and not likely to be cut.

Artificial intelligence advances could result in productivity increases that reduce employment needs. The advent of AI is particularly impacting the market for high-skilled labor. The use of robots is also rapidly increasing.

- AI could also increase wealth and thus nonwithholding income.

Federal budget changes will pressure 1) Medicaid and SNAP programs; and 2) lost higher education and other grants; and potentially other areas of the state budget. Many changes are outside the 2026-28 biennium. Expect conservative budgeting.

Tax conformity issues from OBBBA could reduce state tax revenues.

Virginia Unemployment Claims Have Risen, But Do Not Yet Indicate a Recession

Note: 10-year average of continuing claims (excluding Covid) is 20,239.

12 Mo. Moving Avg VA Income Tax Withholding Growth Isn't Yet Showing Alarming Weakness

The Adopted Budget Forecast Modest Economic and GF Revenue Growth for Fiscal Year 2026 – Likely to be Higher

Total GF Revenue	4.1%	6.1%	5.1%	2.5%	0.4%

Forecast of Additional GF Resources Available for the 2026-28 Budget

Current Economic Summary: Slowing employment growth in Virginia, but still a healthy consumer environment with little sign of credit issues; unclear level of negative impacts from federal employment decisions; lower interest rates with more accommodative Fed; strong stock market most likely indicates positive wealth effect continues for high end income taxpayers; stimulative business expensing/investment tax policies in effect, although still unclear impacts from tariff policies.

- 3 percent revenue growth in FY 2026, FY 2027 and FY 2028: \$6-\$7 bil. available, depending on unspent balances from FY 2026.
- 4 percent revenue growth in FY 2026, FY 2027 and FY 2028: \$7-\$8 bil. available, depending on unspent balances from FY 2026.

GF Revenue Growth Even Higher Without Tax Reductions

General Fund Revenues

Non-Withholding Income Taxes Have Been a Large Share of Revenue Surpluses

Summary of CH. 725 Adopted Budget

- Latest 2024-26 biennium budget had \$4.73 bil. more GF resources than previous 2024-26 biennium budget, \$3.9 bil. of which was appropriated.
 - \$69.5 billion in budgeted GF resources, including \$3.0 bil. in transfers, and \$4.5 bil. in balances.
 - \$62.0 bil. in estimated GF revenues (\$43.7 bil. of which is individual income taxes)
 - *Actual FY 25 GF revenues were \$572 mil. higher than forecast in the budget, mainly the result of higher nonwithholding income tax payments.*
- Budget assumed GF revenue growth of 4.1% in FY 2025 and 2.5% in FY 2026. ***Actual GF revenue growth in FY 25 was 6.1%. Now only need 0.4% GF revenue growth in FY 26 to make current budget forecast.***
- The *enrolled* budget had an unappropriated GF balance of \$51.0 mil. **However, the Governor vetoed approximately \$849.5 mil. in spending that was included in the budget adopted by the General Assembly - leaving \$900 mil. unappropriated.**
 - \$691.3 million in capital projects spending vetoed (mostly for higher education institutions).
 - \$168.2 million in operating spending vetoed, with \$16.9 mil. not recognized by the GA.

Major New One-Time

Ch. 725 2024-26 Expenditures

- \$977.8 mil. to fund a tax rebate
- \$294.5 mil. for the Revenue Reserve Fund
- \$175.0 mil. for the I-81 improvement project
- \$134.4 mil. to fund a \$1,000 bonus for teachers without a local match requirement
- \$131.9 mil. to replace the state's revenue collection system at the Department of Taxation
- \$83.1 mil. for a 1.5% bonus for state employees and state-supported local employees
- \$50 mil. to support the City of Richmond's ongoing Combined Sewer Overflow project
- \$25 mil. for grants to localities to upgrade or replace existing drinking water infrastructure

Capital Outlay

- \$133.8 mil. for projects at institutions of higher education.
- \$226.1 mil. for state agency projects, including planning for a new state agency building at the site of the VDOT Annex and a replacement state laboratory, funding for State Police to continue planning a new Training Academy and to purchase a new Area 6 headquarters, allocations to make critical repairs to DBHDS facilities and to renovate offices in the Patrick Henry Building

Major New Continuing Ch. 725 2024-26 Expenditures

Health and Human Services

- \$601.8 mil. for increased utilization and inflation of Medicaid
- \$100.3 mil. for estimated caseload and cost increases in CSA.
- \$88.3 mil. for the children's health insurance programs (FAMIS and M-CHIP)

K-12 Public Education

- \$223 mil. to eliminate the K-12 support cap in FY 2026
- \$110.7 mil. to support additional English Learner students
- \$53 mil. for K-12 special education basic aid add-ons

Higher Education

- \$75 mil. to maintain affordability and access goals at public colleges and universities
- \$26.8 mil. in additional financial aid support

Natural and Historic Resources

- \$26.3 mil. for WQIF agriculture best management practices
- \$17.4 mil. to support reimbursements for projects identified as part of the Enhanced Nutrient Removal Certainty program

Other

- \$40.5 mil. to support a 6.0% increase in premiums for the state employee health insurance program

FY 2025 General Fund Operating Spending - \$34.6 B

Mandatory/High Priority Budget Drivers for the 2026-28 Biennium Budget

- \$974 mil. K-12 education rebenchmarking for 2026-28, not including a new ADM and sales tax forecast.
- Medicaid utilization and inflation with much higher managed care rates (new forecast is \$410 mil. in FY 26 and \$2.8 bil. in 2026-28 biennium).
 - Most OBBBA Medicaid savings will accrue to lower federal funding of the expansion population, not state GF.
- Children's Services Act (CSA) cost increases (\$180 mil.)
- SNAP administration costs are currently shared 50% state/50% federal (with a local match of 15.5% on the state match). The OBBA changed the state admin match rate to 75% on Oct. 2026. This will cost the state an additional \$65 mil. in FY 2027 and \$90 mil. thereafter, with a possible additional local match.
- Unless the state reduces its current SNAP error rate of 11.5% to under 6% then the state will be on the hook for \$211 mil. in FY 28 and *up to* \$270 mil. in future years.
- Higher H&HS provider rates – such as mental health and DD waiver services rates
- Salary increases for teachers and state employees @ 3% each year = \$600 mil.)
- Conforming to federal AGI tax changes (\$1.1 bil., incl. FY 2026)

Discretionary Budget Possibilities for the 2026-28 Biennium

- Remaining JLARC K-12 recommendations
 - Already funded the support cap removal and at-risk student recommendations.
 - Remaining unfunded recommendations include: unfunded staffing such as teacher assistants and assistant principals, inaccurate prevailing salary methodology, small schools economies of scale adjustment, more accurate cost-of-living adjustments, and rebenchmarking that covers real-time costs.
- VDSS costs related to SNAP quality control, such as the IT system that manages benefits, which would also help with Medicaid redeterminations as well.
- Constitutional officer staffing needs per workload-based staffing standards.
- Economic development projects, such as business-ready development sites
- Higher Education funding requests
- Capital outlay including vetoed projects
- Wastewater treatment and BMP upgrade costs beyond WQIF funding levels
- Correctional officer salary increases
- Federal tax change costs that **do not normally** flow thru to Virginia
- Backfilling reduced federal policy changes and grants – such as K-12 cuts

Major Medicaid Provisions in OBBBA

Major Provisions	Local Impact	State GF Impact
Community Engagement Requirement (80 hours a month) for Able-Bodied Adults (verified at initial enrollment and each renewal) – effective December 31, 2026	Yes	Yes
Cost Sharing for Expansion Members >100.0% of the Federal Poverty Level – effective October 1, 2028	No	Yes
Modifies Retroactive Coverage from Three Months to One Month Prior to Application for Medicaid under Expansion and two months for all other – effective January 1, 2027	Yes	Yes
Eligibility Determination for Expansion Members Must be Redetermined Every Six Months, verification of duplicate enrollment and deceased individuals – effective January 1, 2027, and January 1, 2028	Yes	Yes
Narrows the definition of qualified alien; Payments for services under Emergency Medicaid limited to 50 federal match rate if non-citizen under Expansion – effective October 1, 2026	Maybe	Yes
Payment reduction related to certain erroneous excess payments under Medicaid – effective October 1, 2029	Yes	Yes

Supplemental Nutrition Assistance Program (SNAP) Changes in OBBBA

Provisions	Local Impact	State GF Impact
State match requirement for SNAP benefits (minimum of 0.0 percent up to 15.0 percent based on the state's payment error rate – effective October 1, 2027)	Yes, pressure to reduce error rates	\$90 - \$270 million GF a year
Administrative cost sharing increased from 50.0 to 75.0 percent for states - effective October 1, 2026	Yes, local share	\$80 - \$90 million GF a year
Limits adjustments to the Thirty Food Plan to annual inflation adjustments – effective July 4, 2025	No	No
Increases the age from 54 to 64 that Able Bodied Adults without Dependents must work to receive SNAP (dependent child is changed to be under the age of 14 and not 18)	Yes	Yes
Restricts use of LIHEAP payments of \$20 or more to automatically qualify for the standard utility allowance in determining SNAP benefit amounts to households with elderly or disabled members and prohibits the use of household internet costs from being used in computing the excess shelter expense deduction for SNAP benefits – effective July 4, 2025	Yes, adds complexity	No
Limits SNAP benefits to individuals who reside in the United States and are 1) citizens or lawful permanent residents; 2) immigrants who have been lawfully admitted for permanent residence; 3) immigrants who have been granted the status of Cuban or Haitian entrant; or 4) individuals who are lawfully residing in the country in accordance with the Compacts of Free Association between the United States and Micronesia, the Marshall Islands, and Palau.	Maybe, for verification purposes	No

The Fiscal Health of Hospitals Will Be in Question over the Next Few Years

- The new federal law requires Virginia to lower its 6% hospital provider tax by half a percentage point each year starting in October 2027 until it hits 3.5% in 2032.
 - Reduced hospital Medicaid payments will also reduce provider tax amounts.
 - The hospital provider tax currently generates \$1 billion a year that the state combines with federal dollars to make supplemental Medicaid payments to hospitals.
 - New \$50 billion federal Rural Health Transformation Fund could provide some assistance to rural hospitals in VA (up to \$1 bil. to VA over 5 years).
- The OBBBA didn't extend the enhanced Affordable Care Act insurance premium tax credits for health insurance, which will drive up insurance costs for the low and middle income.

Timeline of Key Health Policy Provisions

FY 2026

- Rural Health Transformation Disbursements Begin
- Initiative begins to improve SNAP error rates

FY 2027

- Begin increased SNAP administrative costs (3/4 of year)
- Enhance Medicaid eligibility determination workforce
- Begin complying with Medicaid Community Engagement Requirements (80 hours a month) for Able-Bodied Adults

FY 2028

- SNAP error rate state costs begin
- Begin reduction of 6% provider taxes for state directed payments to hospitals in October 2027

Virginia Tax Conformity to OBBBA Could Reduce Revenues, if Adopted

- Virginia has **static (fixed date) conformity to federal tax changes** (IRC), where the incorporation of changes has to await the legislature's decision to manually update any IRC conformity. Conforming to **individual provisions would cost \$56.6 mil. from FY 26 thru FY 28. Business provision changes would cost \$1.1 bil. and include 4 significant changes to business expensing:**
 - The full expensing provision for machinery, equipment, and certain other tangible property is restored and made permanent;
 - restoring immediate cost recovery for research and development costs;
 - new first-year expensing for qualified production property (e.g., factories);
 - The cap on the § 179 expensing deduction for small businesses is raised from \$1 million to \$2.5 million.
- Examples of OBBBA **personal tax issues that would not flow to Virginia by updating conformity**, but could be considered include:
 - **\$668 mil. - Deduct a portion of overtime for both itemizers and non-itemizers** for tax years 2025-2028, with some exclusions, such as for highly compensated employees.
 - **\$210 mil. - Exempt certain qualified tips** from income taxation for tax years 2025-2028, structured as a deduction available to itemizers and non-itemizers alike.
 - **\$185 mil. - Deduct personal passenger vehicle loan interest** up to \$10,000 per year, with a phaseout for high earners beginning at \$100,000/\$200,000 for joint filers in income.
 - **\$136 mil. - Charitable deduction for nonitemizers**

New Revenues From Potential Tax Policy Changes

- **\$800 mil. - \$1 billion per year by applying sales tax to “new economy” purchases**
 - The 2024 General Assembly’s original enrolled budget bill (not ultimately agreed to by the Governor) applied sales tax to purchases such as digital services or electronic products in five distinct categories: 1) software application services including business-to-business; 2) computer-related services; 3) website hosting and design; 4) data storage; and 5) streaming services
- **\$500 million per year by adding 2 new top income tax brackets**
 - Add a new 6% tax bracket from \$100,000 to \$1 million and a second new 6.75% bracket for income above \$1 million.

In the latest JLARC report (1/22/25) comparing Virginia to other states, Virginia was ninth lowest among the 50 states for the percentage of state and local revenue as a percentage of personal income at 18.5%.

Virginia Tax Competitiveness Versus Surrounding States

Tax Foundation's 2026 State Tax Competitiveness Index

Surrounding States	Overall Competitiveness Rank	Individual Income	Sales Tax	Corporate Income	Property Tax	Unemployment Insurance

Santa for **SENIORS**

L-10

Help Local Seniors Have a Joyful Holiday!

Who We Are

Piedmont Senior Resources (PSR) helps seniors stay healthy and age gracefully at home.

The Need

This holiday season, we're providing winter essentials to 500 seniors in the Piedmont Health District. Many live alone and have very limited means. Each gift bag (~\$75 value) includes:

- Bath & hygiene items (soap, towels)
- Cleaning supplies (detergent, cleaners)
- Warmth items (blankets, hats, socks)

How You Can Help

- Donate items – in quantity or via our QR Code
- Sponsor a bag or give a monetary donation – every dollar helps!

Kickoff Celebration

Thursday, November 20th | 4:00–6:30 PM

- Holiday treats, Santa, and the Prince Edward Christmas Mother! RSVP with the QR code if you'll attend.

Scan here to
RSVP or make a
donation!

REQUESTED ITEMS FOR DONATIONS

BATH TOWELS

WASHCLOTHS

BAR SOAP

SHAMPOO

LOTION

TOOTH BRUSHES

***500 toothbrushes donated by Heritage Baptist Church**

TOOTH PASTE

DEODORANT

TOILET PAPER

CLEANING SUPPLIES (All purpose sprays)

LAUNDRY DETERGENT (SMALL CONTAINERS)

DISH SOAP (ex Dawn)

DISHWASHER SOAP (ex Cascade)

PAPER TOWELS

BLANKETS

SMALL (Lap) BLANKETS

SOCKS

HATS

GLOVES

NON-PERISHABLE CANNED AND DRY GOODS

USE LINK BELOW TO MAKE DONATIONS OR SHOP SPECIFIC ITEMS FROM AMAZON:

For more information, please contact:
Geoff Angle: gangle@psraaa.org, 434 390 0466

Sponsorship Levels (check or circle one)

\$2500 Platinum Level

\$1000 Gold Level

\$500 Silver Level

\$250 Bronze Level

According to their level, Sponsors will receive appropriate recognition in local newspapers, on live radio, on PSR's website, social media channels, as well as printed and promotional materials. Custom sponsorships are available.

Sponsor/ Business Name: _____

Best Point of Contact: _____

Phone Number: _____

Email: _____

Address: _____

Use the QR code above to make a sponsorship donation directly or make a check payable to "Piedmont Senior Resources". Our address is 1413 S. Main Street, Farmville, VA 23901

All Proceeds benefitting the Santa for Seniors Program will provide winter supplies and support 26 other programs for low-income older adults in Amelia, Buckingham, Charlotte, Cumberland, Lunenburg, Nottoway, and Prince Edward Counties!

For more information, please contact:
Geoff Angle: gangle@psraaa.org, 434 390 0466

Exhibit B:

Exhibit A:

**ORDINANCE RELOCATING THE OFFICE OF THE GENERAL REGISTRAR OF NOTTOWAY COUNTY, VIRGINIA,
THE CENTRAL ABSENTEE VOTER PRECINCT, AND THE POLLING PLACE FOR ELECTION DISTRICT NO. 1**

WHEREAS, the office of the General Registrar for the County of Nottoway, Virginia, is currently located at 507 Miller Street, Burkeville, Virginia 23922.

WHEREAS, in an ordinance dated December 15, 2022, the Central Absentee Voter Precinct for Nottoway County was established for the purpose of processing absentee ballots for all elections within the County at the same location of the Office of the General Registrar's Office, located at 507 Miller Street, Burkeville, Virginia 23922.

WHEREAS, in an ordinance dated December 15, 2022, the polling place for Election District No.1 was established at 507 Miller Street, Burkeville, Virginia 23922.

WHEREAS, pursuant to Section 24.2-411 of the Code of Virginia (1950), Annotated, the Board of Supervisors for the County of Nottoway desire to relocate the Office of the General Registrar, as well the Central Absentee Voter Precinct, to 200 South Main St., Blackstone, Virginia, 23824.

WHEREAS, the Board of Supervisors finds that the new accommodations are suitable and in compliance with Va. Code Ann. § 24.2-411.

WHEREAS, additionally, in accordance with Va. Code Ann. §24.2-307, the Board seeks to relocate and establish the polling place for Election District No. 1 precinct to 503 Namozine Street, Burkeville, Virginia 23922.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF SUPERVISORS OF THE COUNTY OF NOTTOWAY, VIRGINIA THAT:

1. The office of the General Registrar for the County of Nottoway shall be relocated to 200 South Main Street, Blackstone, Virginia, 23824.
2. The Central Absentee Voter Precinct is relocated to 200 South Main Street, Blackstone, Virginia, 23824.
3. The polling place for Election District No. 1 shall be relocated to 503 Namozine Street, Burkeville, Virginia 23922.

AND BE IT FURTHER ORDAINED THAT, the County Registrar shall notify by mail no later than fifteen (15) days, or such other time as is required by law, or regulation of the State Board of Elections, prior to the next general, special, or primary election, which is scheduled to occur after the effective date of this Ordinance, all registered voters whose precinct and/or polling place has been changed by the provisions of this Ordinance.

AND BE IT FURTHER ORDAINED THAT, any other Ordinances, or provisions thereof, that conflict with this Ordinance shall be repealed to the extent necessary to give full force and effect to this Ordinance but shall otherwise remain in full force.

AND BE IT FURTHER ORDAINED THAT this Ordinance shall be in full force and effect upon its adoption and enactment by the Board of Supervisors of Nottoway County, Virginia and upon issuance of a certification of no objection by the Office of the Attorney General of Virginia.

APPROVED this 18th day of December 2025.

CERTIFICATION OF ADOPTION OF ORDINANCE

The undersigned Clerk of the Board of Supervisors of the County of Nottoway, Virginia hereby certifies that the foregoing constitutes a true and correct copy of an ordinance entitled Ordinance Relocating the Office of the General Registrar of Nottoway County, Virginia, adopted by the Board of Supervisors at an open meeting held on the 18th day of December, 2025 with the following votes:

Aye: _____	Absent: _____
Nay: _____	Abstain: _____

The undersigned hereby certifies that the foregoing is an accurate account of the vote taken at a duly convened meeting of the Nottoway County Board of Supervisors on Thursday, December 18, 2025, at which meeting a quorum was present at the time the meeting was convened and at the time said vote was taken.

Attest:

Re: Acceptance of the Major Amendment to the Nottoway County Solid Waste Management Plan

Dear Mr. Bowen:

The Major Amendment to Nottoway County's Solid Waste Management Plan received in this office on January 6, 2025 along with additional information provided on May 22, 2025, as required by the Solid Waste Planning and Recycling Regulations, 9VAC20-130-175 is hereby accepted. The Major Amendment to the SWMP consists of an increase in landfill capacity for Nottoway County Sanitary Landfill (SWP304) from 1,086,400 cubic yards to 1,468,500 cubic yards.

All Solid Waste Planning Units are required to maintain current plans, including any updates submitted to DEQ.

Thank you for your efforts and cooperation in this matter. If you have any questions, please contact Prina Chudasama at (804) 659-1530 or via email at prina.chudasama@deq.virginia.gov.

Sincerely,

BOARD OF TRUSTEES MINUTES
November 19, 2025**

ATTENDANCE

Library Director: Jackie Zataweski

Members: Susan Nash, Becky Sones, Verna Rhoades

Absent: Shelia Harper, Carolyn Leslie

Call to Order: was made by Susan Nash

A motion to approve the **Agenda** and **Consent Agenda**, including the **Minutes** of October 29, 2025, the **Statistical Report** and the **Financial Report**, was made by Becky Sones and the motion passed.

Bills for Approval: Verna made a motion to approve the bills and the motion passed.

Communications: None

Citizen Comments: None

Report of the Library Director:

Blackstone Library: Still no word from the door company on when the door will be completed.

Burkeville Library: Still working on the door.

Crewe Library : A tech person from the school district came to look at the computer network. Jackie is looking into someone that can update the system at the discounted rate.

Programs:

ESL Literacy Program Report: Lessons are continuing at the Crewe library on Monday mornings and Thursday evenings in Blackstone. They are well attended. Kathy had scheduled a program called "Planning Ahead – What Happens When the Worst Happens . It was carried out by Benchmark Bank representatives and six people were in attendance.

Committee Reports: None

New Business: Jackie is working on Disaster Preparedness.

Unfinished Business: None

Items not on the Agenda:

The Christmas Dinner will be held at Trippin' Billies on December 7, 2025.

Jackie has been asked to help the Burkeville Fire Department with breakfast this Saturday.

Melissa will have crafts set up at the Blackstone Library during the Grand Illumination.

Adjournment: a motion was made by Verna to adjourn the meeting.

Next Meeting: Burkeville on December 17, 2025

Library System Monthly Report

To: Members of the Nottoway County Library Board
From: Jacqueline Zataweski, Public Library System Director
Date: December, 2025

The following summarizes the activities and projects that have taken place since I provided a report for the November meeting.

- I completed the Bibliostat report for FY25 on November 27.
- On December 4, I attended the quarterly regional library directors' meeting - this was held virtually. The next one will be held in March in Appomattox. Highlights from the LVA report:
 - Access to Bibliostat information ends December 15. I have ensured that we have print copies of all reports going back to 2009.
 - New state park parking passes will be arriving shortly (for inclusion in the nature backpacks).
 - Two scholarships to the 2026 ARSL conference will be offered by LVA.
- Also on December 4, I met with town manager Miskovic to discuss how we might be able to assist with two local history projects.
- Working with the eRate consultant, we have submitted the Form 470 (request for service proposals) needed to update the network components in Crewe. A day for voluntary walkthroughs by contractors has been tentatively scheduled for January 8.
- Inventory in Blackstone is complete and it continues in Crewe; the adult non-fiction collection is all that remains to be done in that location.
- Budget request forms for FY27 were sent out on November 25 and are due no later than January 9. I have drafted a preliminary budget for your review.

In addition to the above, the usual tasks regarding deposits and invoices, staff schedules and payroll were completed, as were promotional activities such as creating social media posts, newsletters, calendars, and other printed materials.

Acting as the primary contact for the Imagination Library, I continue to confirm addresses of and approve new registrants. As of December 10, there are 276 participants and 183 children have “graduated”. The breakdown of current recipients is as follows:

- Blackstone: 128
- Burkeville: 42
- Crewe: 106

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *gz*

SUBJECT: Planning and Economic Development Monthly Update – November 2025

DATE: December 11, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances, notably division and property complaints. Please note that these discussions may involve follow-up via email or phone at least four times or more after the initial meeting, and before applying for a special exception, subdivision, or rezoning.
2. Participated in several free webinars through the American Planning Association's AICP certification requirements. Approximately 15 hours for November, or 5 credits. 32 credits are required every two years to maintain certification.
3. Met with Jad Malab with Luck Stone at their headquarters on November 11th in Manakin-Sabat regarding future plans in Burkeville and at the Crewe site.
4. Planning Commission recommended several changes in the solar ordinance and staff is presenting those changes to the PC at their December 16th work session in the EOC,
5. Staff is also presenting Articles 1-3 of the Zoning Ordinance revision at the December work session.

Economic Development

1. Attended WPPDC East VATI2022 Management Team Zoom Meeting held on November 13, 2025.
2. Updated the Loopnet/Costar site and removed the parcel purchased by the Town of Blackstone in Pickett Park. Will remove other parcels from the site and VEDP's site after they are sold as well.
3. Attended the VHREDA LEDO meeting on November 21st at SEED Innovation Hub in Farmville. Alex shared a link for LEDO members to create an account with Zoom Prospector, which accepts public and commercial/industrial real estate listings.

EMERGENCY SERVICES COORDINATOR'S REPORT

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr.

DATE: December 11, 2025

SUBJECT: December Report

The following activities and projects are provided in this summary of work by the Department of Emergency Services since my last report on November 13th before your monthly Board of Supervisors meeting on November 20, 2025. Many of these activities listed below were performed in collaboration with other staff members and external stakeholders.

The current emergency services related projects and activities that I have worked on and represented the county include, but are not limited to, the following:

- Participated in a virtual meeting on November 17th with the Virginia Department of Social Services shelter representative and our local DSS Director Shannon Reed to discuss updates to shelter preparedness and to line up some shelter activation training this winter with our local DSS and volunteers.
- Participated in a VDEM Region 1 bi-monthly virtual meeting on November 17th to discuss state news and provide local updates.
- Attended a continuing education credit class at Bon Secours on the evening of November 17th.
- Served an additional day on a four-person interview panel in Amelia County on November 20th as they hire the next phase of fire & EMS personnel for their county department. I was invited to be on their panel as a neighboring county representative.

- Traveled to Irving, Texas from Nov. 30th to Dec. 4th with a contingent of our public safety radio communications committee. We participated in testing various components through field simulations and approved the steps as the system passed the tests.
- Worked in the field and provided weather updates to key decision makers as the snowfall appeared on Friday, December 5th, and repeated these actions again for another snowstorm on December 8th. Communicated with VDOT and other local officials during this period and helped with some traffic control at one downed tree across Rt. 460 westbound near Crewe.
- Reached out to our CodeRED representative on December 8th to work virtually for several hours in rebuilding our alerting dashboard on a new CodeRED by Crisis24. The company experienced a significant cyber-attack and had to take the old system completely down. After that system was disabled at the company, they initially provided us with a toll-free number to send our information if we needed a county alert to be sent out. As of December 8th, we now have our county alert launch capability through the computer restored with some limitations. Next, we are restoring the portions of the system so each town can resume sending their individual alerts. We can send alerts for the towns until those groups are restored.
- Facilitated the monthly meeting of the Fire & EMS Working Group on December 10th. Budget planning documents were handed out to the group and discussion was held on county revenues and expenditures. Holiday treats were also provided for the group by several attendees. (agenda attached)

**NOTTOWAY COUNTY
FIRE & EMS WORKING GROUP
PLANNING MEETING
December 10, 2025
18:00 hrs.**

**MEETING LOCATION: Nottoway County Social Services
Conference Room
288 West Courthouse Rd. – Nottoway, VA 23955**

****Food and Soft Drinks will be provided for our Pre-Christmas Meeting*
Please bring an item if you can.***

AGENDA

- Call to Order & Prayer
- SRO Sawyer – Briefing on Dec. 22nd Active Shooter Exercise
- FY-2027 Budget Planning Preparation
 - Forms, Due Date, & Spring Presentations
 - Capital Improvement Planning
 - Levy Allocation & Disbursements
- Other Items for the Good of the Order
- Adjournment

Notes:

Andrea Kelly

From: Lee Ware <DellWare@house.virginia.gov>
Sent: Saturday, December 6, 2025 5:12 PM
To: Steve Bowen
Cc: Andrea Kelly
Subject: Legislation 2026 to note - - and information requested

Follow Up Flag: Follow up
Flag Status: Flagged

Greetings in Advent, Mr. Bowen and Miss Andrea. Delegate Ware will be introducing the legislation noted just below. To enhance its chances of advancement, please send along a note of Nottoway's Year-to-Date costs vis-a-vis budget expectations for paying for inmates of VCBR who, having committed new offenses, have been conveyed to Piedmont Regional Jail.

The political reality (a House come January with a 64-36 Democrat majority) and the fiscal reality (projected budgetary obligations of \$4 Billion for health care and \$1 Billion for K-12 education) means there will be little available discretionary funds.

Accordingly, I've dispatched the same language to Senator Tammy Mulchi, for the Senate is more balanced—and modest requests have a higher hope of approval.

Merry Christmas,

David

David A. Bovenizer IV, Consigliere

Nottoway County School Board
Resolution Deeming Property Located at 507 Miller Street, Burkeville, Virginia
as Surplus and Establishing Intent to Convey the Property to Nottoway County

WHEREAS, the property located at 507 Miller Street, Burkeville, Virginia served the community as Burkeville Elementary School until 2018, following a 2017 decision by the School Board to close the school.

WHEREAS, the property now serves the Nottoway County Registrar's Office, as well as other community groups, including a food bank and a local church.

WHEREAS, the School Board initially closed Burkeville Elementary School in hopes of reducing the unnecessary operational costs and using resulting savings to further student educational opportunities within the Division.

WHEREAS, the School Division currently has no use for the property, yet maintaining the property costs the School Division approximately \$80,000 annually.

WHEREAS, the School Division receives no rent or financial assistance, other than payment of the property's utilities, from the Nottoway County Registrar's Office, and continues to maintain the property to the financial detriment of the School Division.

WHEREAS, the School Division remains committed to promoting the best interests of the students, staff, and families of Nottoway County, which includes ensuring that the Division's resources are appropriately managed.

WHEREAS, the School Board acknowledges that the ongoing expense of managing the property fails to further student educational opportunities within the Division, and that if conveyed, Nottoway County may continue to utilize the property for service to the community without further financial detriment to the School Division. May it therefore be,

RESOLVED THAT, in the judgement of the Nottoway County School Board, the property at 507 Miller Street, Burkeville, Virginia, formerly serving as Burkeville Elementary School, is surplus, and it is in the best interest of the Division to convey the property to Nottoway County.

FURTHER RESOLVED, that the School Division should convey the property to Nottoway County, in accordance with § 22.1-129 of the Code of Virginia, no earlier than December 30, 2025.

Signed:

Erwin Abbott, Jr., District 2
Chair, Nottoway County School Board

William Outlaw, District 1

Charles Wilson, District 4

Damien Rowe, District 3

Michele Duncan, District 5 Vice-Chair

IN WITNESS WHEREOF, the undersigned has affixed signature and seal on this 11th day of December, 2025:

Marcia H. Martin, Ed.D.
Division Superintendent for NCPS

Charlotte D. Wood, School Board Clerk
(SEAL)

September 22, 2025

Dear Chair Collins, Board members, & Mr. Bowen,

I have a refund request for a 100% service-connected Veteran. He qualified for this exemption in October of 2018.

I am asking for a refund on his 1 acre and home from 2018 through 2024 in the amount of \$5,125.14.

I am also asking for a refund on his one vehicle for the years 2021 through 2024 in the amount of \$1,723.74.

For a total refund of \$6,848.88.

Plus, any interest that has incurred since payments were made.

Sincerely,

Christy A Hudson

Commonwealth Regional Council

November 2025 Items of Interest

L-1

Governor's Summit on Rural Prosperity

CRC participated in the 2025 Governor's Summit on Rural Prosperity, a statewide gathering focused on economic development, rural innovation, workforce strategies, and demographic trends. The Summit featured remarks from state leadership—including Governor Glenn Youngkin—and a series of breakout sessions highlighting topics such as rural economic resilience, historic revitalization, housing demand, and data-driven planning tools. These discussions help inform CRC's ongoing work in regional planning, infrastructure development, and rural capacity building.

VAPDC Training Conference 2025

CRC staff attended the 2025 VAPDC Training Conference, which provided targeted sessions on community engagement, organizational communication, artificial intelligence, FOIA compliance, and regional budgeting practices. The conference featured presentations from planners, local officials, and policy experts, offering actionable insights that support CRC's work in strategic planning, public engagement, and intergovernmental coordination across the region.

Futures Summit

CRC participated in the Futures Summit, where regional leaders explored workforce trends, living-wage challenges, emerging AI applications in business, and promising practices for employer engagement. The event included the presentation of the Southern Virginia Living Wage & Job Availability Study—introduced on behalf of CRC—as well as sessions on data collection, talent pipeline development, and youth apprenticeship pathways. These insights directly support CRC's regional economic development and talent-alignment efforts.

FOIA/COIA Training at CRC

CRC hosted its annual FOIA and COIA Training for local officials, featuring instruction from the Virginia Freedom of Information Advisory Council and the Virginia Conflict of Interest and Ethics Advisory Council. The training covered open government requirements, public records responsibilities, and ethics provisions, providing essential guidance to help local governments maintain compliance and transparency in day-to-day operations.

Delegate's Visit to the CRC Board Meeting

Delegate Thomas Wright joined the Commonwealth Regional Council's Board Meeting, offering an opportunity for direct discussion on regional priorities, legislative updates, and collaboration opportunities. His visit underscores the importance of strong partnerships between state representatives and regional organizations working to support community development, infrastructure needs, and long-term economic growth across the CRC region.

Upcoming Funding Opportunities:

Virginia Humanities Regular Grants – FY26 Cycle

Deadline: April 30, 2026 **\$ Up to \$15,000**
Funds projects exploring Virginia's history, culture, and communities through public programs or exhibits.
Ideal for regional tourism, preservation, and cultural engagement.

Virginia Housing Community Impact – Stabilization & Deconstruction Grants

Deadline: April 30, 2026 **\$ Varies by project**
Supports demolition, deconstruction, or site prep for unsafe or blighted residential structures.
Great for local revitalization and housing redevelopment efforts.

Assistance to Firefighters Grant (AFG)

Expected opening: Late 2025 / Early 2026
Funds PPE, equipment, training, and vehicles for fire departments.
VFDs should prepare early by updating SAM.gov registration and financial documentation.

Grants Awarded

- DEQ
 - Commonwealth Regional Council - Chowan 1 Water Supply Plan - \$11,340
- Virginia Housing
 - Commonwealth Regional Council - Match Funding for Building Opportunities On Main Street (BOOMS) Project - \$40,000

The CRC provides free grant writing services for member localities and local 501(c)(3) non-profits.

VIRGINIA: IN THE CIRCUIT COURT OF THE COUNTY OF NOTTOWAY

IN RE: APPOINTMENT OF KATHRYN LINDSAY SPENCE
INTERIM CLERK OF THE NOTTOWAY CIRCUIT COURT

ORDER OF APPOINTMENT

The Judges of the Eleventh Judicial Circuit having received the resignation of the Honorable Jane Brown from her office of Clerk of the Circuit Court effective December 31, 2025, do hereby appoint Kathryn Lindsay Spence to serve as interim Clerk of the Nottoway Circuit Court effective January 1, 2026, pursuant to Va. Code Section 15.2-1600. The term of this interim appointment shall be until the qualified voters fill the vacancy and the person so elected in a special election has qualified pursuant to Va. Code Section 24.2-227. The Clerk shall spread this Order of Appointment in the Common Law Order Book and forward a copy to the Supreme Court of Virginia.

It is so ORDERED.

Enter: December 1, 2025.

County Administrator

RE: VPDES Permit VA0090131, Reissuance
Tyson Farms – Crewe Feed Mill

Section 62.1-44.15:01 of the Code of Virginia requires DEQ to notify localities particularly affected when a permit action is pending. This letter transmits a copy of the public notice for a proposed permit action for your review. Public notice of this proposed action is also being published in a local newspaper. That publication will establish a 30-day public comment period (November 28, 2025 – December 29, 2025) for this proposal. If you wish to comment on this proposed action, please respond to:

Sharon Cardinal
Virginia DEQ
Piedmont Regional Office
4949-A Cox Road
Glen Allen, VA 23060

If no response is received within the 30-day public notice period, it will be assumed that you have no objections to the proposed action. If you have any questions, please contact me at 804-754-5118 or sharon.m.cardinal@deq.virginia.gov.

Sincerely,
Sharon Cardinal

Public Notice – Environmental Permit

PURPOSE OF NOTICE: To seek public comment on a draft permit from the Department of Environmental Quality that will allow the release of treated wastewater and stormwater into a water body in Nottoway County, Virginia.

PUBLIC COMMENT PERIOD: November TBD, 2025 to December TBD, 2025

PERMIT NAME: Virginia Pollutant Discharge Elimination System Permit – Wastewater and Stormwater issued by DEQ pursuant to applicable water laws and regulations.

APPLICANT NAME, ADDRESS AND PERMIT NUMBER: Tyson Farms, Inc.; 2200 W. Don Tyson Parkway, Springdale, AR, 72762, VA0090131

FACILITY NAME AND LOCATION: Tyson Farms, Inc. – Crewe Feed Mill; 1938 West Patrick Henry Highway, Jetersville, VA 23083

PROJECT DESCRIPTION: Tyson Farms, Inc. has applied for the reissuance of a permit for the private Tyson Farms, Inc. Crewe Feed Mill. The applicant proposes to release treated industrial wastewaters and stormwater into a water body. The facility proposes to release the treated industrial wastewaters and stormwater into unnamed tributaries of West Creek and Little Creek in Nottoway County in the Chesapeake Bay watershed. A watershed is the land area drained by a river and its incoming streams. The permit will limit the following pollutants to amounts that protect water quality: physical and chemical properties and metals.

HOW TO COMMENT AND/OR REQUEST A PUBLIC HEARING: DEQ accepts comments and requests for public hearing on the draft permit by hand-delivery, e-mail, or postal mail. All comments and requests must be in writing and be received by DEQ during the comment period. DEQ must receive hand-delivery and postal mail by close of business, and email comments by 11:59 p.m. on the last day of the comment period. Submittals must include the names, mailing addresses or email addresses of the commenter/requester and of all persons represented by the commenter/requester. A request for public hearing must also include: 1) The reason why a public hearing is requested. 2) A brief, informal statement regarding the nature and extent of the interest of the requester or of those represented by the requester, including how and to what extent such interest would be directly and adversely affected by the permit. 3) Specific references, where possible, to terms and conditions of the permit with suggested revisions. A public hearing may be held, including another comment period, if public response is significant, based on individual requests for a public hearing, and there are substantial, disputed issues relevant to the permit.

CONTACT FOR PUBLIC COMMENTS, DOCUMENT REQUESTS AND ADDITIONAL INFORMATION: Sharon Cardinal; Piedmont Regional Office, 4949-A Cox Road, Glen Allen, VA 23030; Phone: 804-754-5118; E-mail: sharon.m.cardinal@deq.virginia.gov; The public may review the draft permit and application at the DEQ office named above by appointment or may request copies of the documents from the contact person listed above.

Members of The board of supervisors
Mr Bowen -

Thank you for the beautiful
peace they sent during the
loss of my dad. We are
forever grateful for the
love and support shown to
us during this time

Much love,

Marcia, Jennifer, & the family

Thank you sincerely
for sharing our sorrow.
Your kindness is
deeply appreciated and
will always be remembered
by the family of

Frank Howard
